

摘要：

华尔街资深宏观策略师Jim Bianco推测，美方判断通过常规军事手段重开霍尔木兹海峡可能耗时数周甚至数月，届时油价或飙至200美元，对全球经济造成毁灭性冲击。因此宁可提前让油价冲高，为中期选举前留6个月回落窗口。

美军对伊朗哈尔克岛军事设施实施打击，在华尔街资深宏观策略师Jim Bianco看来，这一行动并非冒进，而是在时间与经济压力双重逼迫下的一次“别无选择”的战略赌注。

据新华社，美国总统特朗普13日傍晚在社交媒体发文，称美军已对伊朗石油出口枢纽哈尔克岛的军事目标发动“猛烈空袭”。

据Bianco分析，美国政府和军方策划人员判断，**通过常规军事手段重新打通霍尔木兹海峡可能需要数周乃至数月**，而这段时间内油价的失控上涨足以对全球经济造成窒息性打击。正是这一判断，促使华盛顿选择以直接打击哈尔克岛军事设施的方式，向伊朗释放强烈信号。

Bianco将此次行动定性为“孤注一掷”(Hail Mary pass)——借用橄榄球术语，意指在比赛最后时刻投出的高风险长传。其核心逻辑在于：**全球油市和世界经济根本无法承受数周至数月的不确定期，因此必须以一次高烈度的即时行动，逼迫伊朗快速就范。**

在Bianco的框架下，行动时机的政治考量同样不容忽视。他提出，政治顾问层面或存在这样一种推演——**若油价在无任何行动的情况下注定将冲向200美元，那么宁可令其在下周触及这一水平，以便在美国中期选举前留出约六个月的回落时间窗口。**

Bianco明确反对“**宣布胜利后撤军**”(TACO)的路径，并认为这实际上是一个**比维持当前行动更糟糕的选择**。其理由直接指向结构性风险：一旦美国选择在未解决霍尔木兹海峡问题的情况下撤离，伊朗将实际上取得对全球能源命脉的持久控制权，从而具备以每桶200美元油价长期惩罚全球经济的能力。

Let me offer discussion points on why they decided to bomb Kharg Island.

The administration and military planners likely concluded that it would take weeks, if not months, to secure the Strait of Hormuz. During that time, oil prices could rise to levels that would suffocate the global economy.

This was unacceptable. They are desperate for immediate action. So, they needed a bold, decisive move to force Iran to relent quickly.

Trump was clear. They bombed Iranian military structures on Kharg but left the oil infrastructure unharmed (assuming this is accurate).

Recognizing that this could freak out oil markets, they announced it on Friday evening to give markets 48 hours to digest the news. Trump also made it explicit that oil infrastructure would be next if Iran did not allow ships to pass freely through the Strait of Hormuz.

In football terms, they're throwing a Hail Mary pass now, hoping it works. They don't have any more time on the clock. Oil markets and the world economy cannot wait weeks or months for the military to open the Strait.

Further, I could envision political advisors suggesting that if oil prices are destined to hit \$200 without this action, it might as well happen next week, giving six months to bring them down before the midterm elections.

As I've argued in many other posts, Trump cannot simply declare victory and pull out (TACO). That would be worse. It would leave Iran in control of the world's economic jugular, allowing it to punish everyone by permanently holding oil at \$200. So, they must force Iran to relent.

Again, these are just the thoughts running through my head as I try to explain to myself why they took this step.

值得注意的是，据报道此次打击刻意绕开了岛上的石油基础设施，同时特朗普明确警告，若伊朗不开放海峡通行，石油设施将成为下一个目标。消息于当地时间周五晚间公布。**Bianco指出，这一时间节点的选择经过刻意安排，意在为市场提供约48小时的缓冲窗口消化信息，以避免引发油市的即时恐慌性波动。**

美军撤退是最好的选择，谁需要油自己去打通

目的还不是减缓去美元化进度而已，不过仍然贵金属成为其他国家压箱底

怎么都无法理解这篇文章的逻辑？留下压底油价的窗口？难道不是特朗普，明知怎么折腾都无法赢得中期选举胜利，倒不如“破罐子破摔”嘛？

下一步估计就是警告筛选影子船队了，先击沉一两艘为革命卫队运输的油轮，做个折衷，最后才是威胁彻底占领哈尔克岛。
