Asia Vital Components (3017.TW)

3Q26 Beat on Margins Reinforces AI Thermal Ramp; TP Maintained at NT$4,350

CITI'S TAKE

AVC reported net profit of NT$11.6bn, topping Coto/cons estimates by 2%/2% respectively, driven by margins beat partly offset by a non-ops FX loss. GPM improvement was above expectations on a richer liquid cooling mix, yield gains and disciplined raw material pass-through. Mgmt. guided positively for 4Q26 and 2027, led by AI ASIC ramp-up and Vera Rubin ramp up. We model 16% QoQ revenue growth for 4Q26E. GPM guidance also points to further sequential improvement on a higher liquid cooling mix and scale effects. Mgmt. reiterated 2026E/27E capex of NT$15bn/15-20bn, alongside 50%+ cold plate capacity expansion, underscoring capacity conviction. We fine-tune our earnings forecasts to reflect updated guidance and maintain TP at NT$4,350 (25x 2027E EPS). Reiterate Buy.

3Q26 results beat on margins — AVC's reported 3Q26 net profit of NT$11.6bn (+20% QoQ/+52% YoY) beat Citi/cons forecast by 2%/2%, driven by better-than-expected margins, partly offset by a non-ops loss. 3Q26 GPM came in at 33.9% (+1.3ppts QoQ/+7.7 ppts YoY), above both Citi/cons estimates, mainly due to continued mix improvement, a higher liquid cooling contribution, yield gains, and disciplined pass-through of raw material price fluctuations to customers. Non-ops included a NT$304mn FX loss, which partially offset the strong core business.

ASIC ramp and capacity guidance underpin long-term outlook — Mgmt. guided positively for 4Q26 and 2027, led by AI ASIC project ramp-up and early Vera Rubin generation contribution. We now model 16% QoQ revenue growth for 4Q26E. GPM guidance also points to further sequential improvement vs. 3Q26, driven by a higher liquid cooling mix and scale effects. Mgmt. expects server compute tray liquid cooling penetration to reach 100% by end-2027. Mgmt. reiterated 2026E/26E capex guidance of NT$15bn/15-20bn, alongside 50%+ cold plate capacity expansion, reinforcing confidence in capacity build-out.

Implications — We fine-tune our 2026E-28E earnings forecasts to reflect updated guidance and outlook. We maintain our TP at NT$4,350, still based on 25x 2027E EPS. We believe AVC's solid supply position across key customers' AI GPU and ASIC projects, combined with a sustained growth trajectory, continues to support its valuation. With visibility extending into 2027, we see limited near-term read-through risk from the ongoing platform transition. We reiterate our Buy rating on AVC.

Earnings Summary

- Target multiple at 20x

Asia Vital Components

Company description

Asia Vital Components (AVC), founded in 1991, is a global leader in thermal solutions, originally focusing on PCs but now specializing in servers and networking. With Furukawa Electric (Japan) as its largest shareholder, AVC provides a comprehensive range of cooling components, including vapor chambers (VCs), fans, cold plates, CDUs, and manifolds, as well as chassis and assembly services for PCs and servers, enabling holistic thermal solution designs and one-stop shop services. AVC's diverse product portfolio supports various sectors, including consumer IT, cloud infrastructure, transportation, energy and networking.

Investment strategy

We rate AVC a Buy. AVC is well-positioned for the liquid-cooling transition, with leadership in cold plates and broad participation across Nvidia and CSP projects. Its high-volume machining capability, manufacturing uniformity, and Vietnam-based capacity provide it with a defensible position as Blackwell and future deployments expand. The company captures a wider share of the thermal BOM, across coldplates, manifolds, QDs, and CDU opportunities, providing a multi-layered earnings engine.

Valuation

We value AVC using a PE-based approach that factors in earnings momentum and the expansion of its addressable market. Our TP of NT$4,350 is derived from applying a 25x PE multiple on 2027E EPS, which we believe is justified given the company's entrenched positioned in the server thermal segment, rising contribution from liquid cooling, and the increasing value of thermal content per server as power density continues to climb. With these structural drivers still in place, we expect the multiple to hold at a premium relative to its historical averages.

Risks

This stock is High Risk based upon our quantitative model but assigning a High Risk rating is not supported by other qualitative factors such as cold-plate leadership and deep CSP penetration, and so a High Risk rating has not been applied. Key downside risks to our investment thesis and target price include: 1) slower adoption pace for liquid cooling adoption; 2) heightened price competition; 3) lower-than-expected share in liquid cooling components; and 4) emerging alternative cooling technologies.

Appendix A-1

ANALYST CERTIFICATION

The research analysts primarily responsible for the preparation and content of this research report are either (i) designated by "AC" in the author block or (ii) listed in bold alongside content which is attributable to that analyst. If multiple AC analysts are designated in the author block, each analyst is certifying with respect to the entire research report other than (a) content attributable to another AC certifying analyst listed in bold alongside the content and (b) views expressed solely with respect to a specific issuer which are attributable to another AC certifying analyst identified in the price charts or rating history tables for that issuer shown below. Each of these analysts certify, with respect to the sections of the report for which they are responsible: (1) that the views expressed therein accurately reflect their personal views about each issuer and security referenced and were prepared in an independent manner, including with respect to Citigroup Global Markets Inc. and its affiliates; and (2) no part of the research analyst's compensation was, is, or will be, directly or indirectly, related to the specific recommendations or views expressed by that research analyst in this report.

Citigroup Global Markets Inc. or its affiliates received compensation for products and services other than investment banking services from Asia Vital Components in the past 12 months.

Citigroup Global Markets Inc. or its affiliates currently has, or had within the past 12 months, the following as clients, and the services provided were non-investment-banking, securities-related: Asia Vital Components.

Citigroup Global Markets Inc. or its affiliates currently has, or had within the past 12 months, the following as clients, and the services provided were non-investment-banking, non-securities-related: Asia Vital Components.

Analysts' compensation is determined by Citi Research management and Citigroup's senior management and is based upon activities and services intended to benefit the investor clients of Citigroup Global Markets Inc. and its affiliates (the "Firm"). Compensation is not linked to specific transactions or recommendations. Like all Firm employees, analysts receive compensation that is impacted by overall Firm profitability which includes investment banking, sales and trading, and principal trading revenues. One factor in equity research analyst compensation is arranging corporate access events between institutional clients and the management teams of covered companies. Typically, company management is more likely to participate when the analyst has a positive view of the company.

For financial instruments recommended in the Product in which the Firm is not a market maker, the Firm is a liquidity provider in such financial instruments (and any underlying instruments) and may act as principal in connection with transactions in such instruments. The Firm is a regular issuer of traded financial instruments linked to securities that may have been recommended in the Product. The Firm regularly trades in the securities of the issuer(s) discussed in the Product. The Firm may engage in securities transactions in a manner inconsistent with the Product and, with respect to securities covered by the Product, will buy or sell from customers on a principal basis.

Unless stated otherwise neither the Research Analyst nor any member of their team has viewed the material operations of the Companies for which an investment view has been provided within the past 12 months.

For important disclosures (including copies of historical disclosures) regarding the companies that are the subject of this Citi Research product ("the Product"), please contact Citi Research, 388 Greenwich Street, 6th Floor, New York, NY, 10013, Attention: Legal/Compliance [E6WYB6412478]. In addition, the same important disclosures, with the exception of the Valuation and Risk assessments and historical disclosures, are contained on the Firm's disclosure website at https://www.citivelocity.com/cvr/eppublic/citi_research_disclosures. Valuation and Risk assessments can be found in the text of the most recent research note/report regarding the subject company. Pursuant to the Market Abuse Regulation a history of all Citi Research recommendations published during the preceding 12-month period can be accessed via Citi Velocity (https://www.citivelocity.com/cv2) or your standard distribution portal. Historical disclosures (for up to the past three years) will be provided upon request.

Citi Research Equity Ratings Distribution

	12 Month Rating			Catalyst Watch		
Data current as of 01 Oct 2026	**Buy**	**Hold**	**Sell**	**Buy**	**Hold**	**Sell**
Citi Research Global Fundamental Coverage (Neutral=Hold)	61%	32%	7%	36%	48%	16%
% of companies in each rating category that are investment banking clients	39%	43%	30%	42%	38%	36%

Guide to Citi Research Fundamental Research Investment Ratings:
Citi Research stock recommendations include an investment rating and an optional risk rating to highlight high risk stocks. **Risk rating** takes into account both price volatility and fundamental criteria. Stocks will either have no risk rating or a High risk rating assigned.
Investment Ratings: Citi Research investment ratings are Buy, Neutral and Sell. Our ratings are a function of analyst expectations of expected total return ("ETR") and risk. ETR is the sum of the forecast price appreciation (or depreciation) plus the dividend yield for a stock within the next 12 months. The target price is based on a 12 month time horizon. The Investment rating definitions are: Buy (1) ETR of 15% or more or 25% or more for High risk stocks; and Sell (3) for negative ETR. Any covered stock not assigned a Buy or a Sell is a Neutral (2). For stocks rated Neutral (2), if an analyst believes that there are insufficient valuation drivers and/or investment catalysts to derive a positive or negative investment view, they may elect with the approval of Citi Research management not to assign a target price and, thus, not derive an ETR. Citi Research may suspend its rating and target price and assign "Rating Suspended" status for regulatory and/or internal policy reasons. Citi Research may also suspend its rating and target price and assign "Under Review" status for other exceptional circumstances (e.g. lack of information critical to the analyst's thesis, trading suspension) affecting the company and/or trading in the company's securities. In both such situations, the rating and target price will show as "—" and "-" respectively in the rating history price chart. Prior to 11 April 2022 Citi Research assigned "Under Review" status to both situations and prior to 11 Nov 2020 only in exceptional circumstances. As soon as practically possible, the analyst will publish a note re-establishing a rating and investment thesis. Investment ratings are determined by the ranges described above at the time of initiation of coverage, a change in investment and/or risk rating, or a change in target price (subject to limited management discretion). At times, the expected total returns may fall outside of these ranges because of market price movements and/or other short-term volatility or trading patterns. Such interim deviations will be permitted but will become subject to review by Research Management. Your decision to buy or sell a security should be based upon your personal investment objectives and should be made only after evaluating the stock's expected performance and risk.

Catalyst Watch/Short Term Views ("STV") Ratings Disclosure:
Catalyst Watch and STV Upside/Downside calls: Citi Research may also include a Catalyst Watch or STV Upside or Downside call to indicate the analyst expects the share price to rise (fall) in absolute terms over a specified period of 30 or 90 days in

reaction to one or more specific near-term catalysts or events impacting the company or the market. A Catalyst Watch will be published when Analyst confidence is high that an impact to share price will occur; it will be a STV when confidence level is moderate. A Catalyst Watch or STV Upside/Downside call will automatically expire at the end of the specified 30/90 day period. The Catalyst Watch will also be automatically removed if share price performance (calculated at market close) exceeds 15% against the direction of the call (unless over-ridden by the analyst). The analyst may also remove a Catalyst Watch or STV call prior to the end of the specified period in a published research note. A Catalyst Watch/STV Upside or Downside call may be different from and does not affect a stock's fundamental equity rating, which reflects a longer-term total absolute return expectation. For purposes of FINRA ratings-distribution-disclosure rules, a Catalyst Watch/STV Upside call corresponds to a buy recommendation and a Catalyst Watch/STV Downside call corresponds to a sell recommendation. Any stock not assigned to a Catalyst Watch Upside, Catalyst Watch Downside, STV Upside, or STV Downside call is considered Catalyst Watch/STV No View. For purposes of FINRA ratings distribution-disclosure rules, we correspond Catalyst Watch/STV No View to Hold in our ratings distribution table for our Catalyst Watch/STV Upside/Downside rating system. However, we reiterate that we do not consider No View to be a recommendation. For all Catalyst Watch/STV Upside/Downside calls, risk exists that the catalyst(s) and associated share-price movement will not materialize as expected.

Privately held companies:

The legal entities through which Citi conducts its business do not permit investment research recommendations, ratings, target prices, or estimates on any privately held companies ("private companies") referenced herein. Citi Research does not utilize a rating system for private companies. Any information on private companies in this report is based on generally available information and, although obtained from sources believed by Citi to be reliable, its accuracy and completeness are not guaranteed. Private companies are generally not subject to reporting obligations, which may result in less publicly available information. The information contained in this report may differ from information a private company may subsequently make public or otherwise share with investors. Continuation of publishing private company reports or private company sections within reports is at Citi's discretion, in accordance with internal policies.

RESEARCH ANALYST AFFILIATIONS / NON-US RESEARCH ANALYST DISCLOSURES

The legal entities employing the authors of this report are listed below (and their regulators are listed further herein). Non-US research analysts who have prepared this report (i.e., all research analysts listed below other than those identified as employed by Citigroup Global Markets Inc.) are not registered/qualified as research analysts with FINRA. Such research analysts may not be associated persons of the member organization (but are employed by an affiliate of the member organization) and therefore may not be subject to the FINRA Rule 2241 restrictions on communications with a subject company, public appearances and trading securities held by a research analyst account.

Citigroup Global Markets Taiwan Securities Company Limited	Michael Hung; Laura (Chia Yi) Chen

OTHER DISCLOSURES

Any price(s) of instruments mentioned in recommendations are as of the prior day's market close on the primary market for the instrument, unless otherwise stated.

The completion and first dissemination of any recommendations made within this research report are as of the Eastern date-time displayed at the top of the Product. If the Product references views of other analysts then please refer to the price chart or rating history table for the date/time of completion and first dissemination with respect to that view.

Regulations in various jurisdictions require that where a recommendation differs from any of the author's previous recommendations concerning the same financial instrument or issuer that has been published during the preceding 12-month period that the change(s) and the date of that previous recommendation are indicated. For fundamental coverage please refer to the price chart or rating change history within this disclosure appendix or the issuer disclosure summary at https://www.citivelocity.com/cvr/eppublic/citi_research_disclosures.

Citi Research has implemented policies for identifying, considering and managing potential conflicts of interest arising as a result of publication or distribution of investment research. A description of these policies can be found at https://www.citivelocity.com/cvr/eppublic/citi_research_disclosures.

The proportion of all Citi Research research recommendations that were the equivalent to "Buy","Hold","Sell" at the end of each quarter over the prior 12 months (with the % of these that had received investment firm services from Citi in the prior 12 months shown in brackets) is as follows; Q2 2026 Buy 33%(63%), Hold 44% (51%), Sell 23% (49%), RV 0.5% (87%): Q1 2026 Buy 33% (63%), Hold 44% (52%), Sell 23% (46%), RV 0.5% (89%); Q4 2025 Buy 33% (63%), Hold 44% (50%), Sell 23% (46%), RV 0.4% (91%); Q3 2025 Buy 33%(61%), Hold 44% (52%), Sell 23% (50%), RV 0.4% (80%). For the purposes of disclosing recommendations other than for equity (whose definitions can be found in the corresponding disclosure sections), "Buy" means a positive directional trade idea; "Sell" means a negative directional trade idea; and "Relative Value" means any trade idea which does not have a clear direction to the investment strategy.

European regulations require a 5 year price history when past performance of a security is referenced. CitiVelocity's Charting Tool (https://www.citivelocity.com/cv2/#go/CHARTING_3_Equities) provides the facility to create customisable price charts including a five year option. This tool can be found in the Data & Analytics section under any of the asset class menus in CitiVelocity (https://www.citivelocity.com/). For further information contact CitiVelocity support (https://www.citivelocity.com/cv2/go/CLIENT_SUPPORT). The source for all referenced prices, unless otherwise stated, is

DataCentral, which sources price information from LSEG Data & Analytics. Past performance is not a guarantee or reliable indicator of future results. Forecasts are not a guarantee or reliable indicator of future performance.

Investors should always consider the investment objectives, risks, and charges and expenses of an ETF carefully before investing. The applicable prospectus and key investor information document (as applicable) for an ETF should contain this and other information about such ETF. It is important to read carefully any such prospectus before investing. Clients may obtain prospectuses and key investor information documents for ETFs from the applicable distributor or authorized participant, the exchange upon which an ETF is listed and/or from the applicable website of the applicable ETF issuer. The value of the investments and any accruing income may fall or rise. Any past performance, prediction or forecast is not indicative of future or likely performance. Any information on ETFs contained herein is provided strictly for illustrative purposes and should not be deemed an offer to sell or a solicitation of an offer to purchase units of any ETF either explicitly or implicitly. The opinions expressed are those of the authors and do not necessarily reflect the views of ETF issuers, any of their agents or their affiliates.

Citigroup Global Markets India Private Limited and/or its affiliates may have, from time to time, actual or beneficial ownership of 1% or more in the debt securities of the subject issuer.

Please be advised that pursuant to Executive Order 13959 as amended (the “Order”), U.S. persons are prohibited from investing in securities of any company determined by the United States Government to be the subject of the Order. This research is not intended to be used or relied upon in any way that could result in a violation of the Order. Investors are encouraged to rely upon their own legal counsel for advice on compliance with the Order and other economic sanctions programs administered and enforced by the Office of Foreign Assets Control of the U.S. Treasury Department.

This communication is directed at persons who are "Eligible Clients" as such term is defined in the Israeli Regulation of Investment Advice, Investment Marketing and Investment Portfolio Management law, 1995 (the "Advisory Law"). Within Israel, this communication is not intended for retail clients and Citi will not make such products or transactions available to retail clients or to non-Eligible Clients. The presenter is not licensed as investment advisor or investment marketer by the Israeli Securities Authority (“ISA”) and this communication does not constitute investment or marketing advice. The information contained herein may relate to matters that are not regulated by the ISA. Any securities which are the subject of this communication may not be offered or sold to any Israeli person except pursuant to a security offering exemption according to the Israeli Securities Law, 1968and the public offering rules provided thereunder.

Citi Research broadly and simultaneously disseminates its research content to the Firm’s institutional and retail clients via the Firm’s proprietary electronic distribution platforms (e.g., Citi Velocity and various Global Wealth platforms). As a convenience, certain, but not all, research content may be distributed through third party aggregators. Clients may receive published research reports by email, on a discretionary basis, and only after such research content has been broadly disseminated. Certain research is made available only to institutional investors to satisfy regulatory requirements. The level and types of services provided by Citi Research analysts to clients may vary depending on various factors such as the client’s individual preferences as to the frequency and manner of receiving communications from analysts, the client’s risk profile and investment focus and perspective (e.g. market-wide, sector specific, long term, short-term etc.), the size and scope of the overall client relationship with the Firm and legal and regulatory constraints.

Pursuant to Comissão de Valores Mobiliários Resolução 20 and ASIC Regulatory Guide 264, Citi is required to disclose whether a Citi related company or business has a commercial relationship with the subject company. Considering that Citi operates multiple businesses in more than 100 countries around the world, it is likely that Citi has a commercial relationship with the subject company.

Securities recommended, offered, or sold by the Firm: (i) are not insured by the Federal Deposit Insurance Corporation; (ii) are not deposits or other obligations of any insured depository institution (including Citibank); and (iii) are subject to investment risks, including the possible loss of the principal amount invested. The Product is for informational purposes only and is not intended as an offer or solicitation for the purchase or sale of a security. Any decision to purchase securities mentioned in the Product must take into account existing public information on such security or any registered prospectus. Although information has been obtained from and is based upon sources that the Firm believes to be reliable, we do not guarantee its accuracy and it may be incomplete and condensed. Note, however, that the Firm has taken all reasonable steps to determine the accuracy and completeness of the disclosures made in the Important Disclosures section of the Product. The Firm's research department has received assistance from the subject company(ies) referred to in this Product including, but not limited to, discussions with management of the subject company(ies). Firm policy prohibits research analysts from sending draft research to subject companies. However, it should be presumed that the author of the Product has had discussions with the subject company to ensure factual accuracy prior to publication. Statements and views concerning ESG (environmental, social, governance) factors are typically based upon public statements made by the affected company or other public news, which the author may not have independently verified. ESG factors are one consideration that investors may choose to examine when making investment decisions. All opinions, projections and estimates constitute the judgment of the author as of the date of the Product and these, plus any other information contained in the Product, are subject to change without notice. Prices and availability of financial instruments also are subject to change without notice. Notwithstanding other departments within the Firm advising the companies discussed in this Product, information obtained in such role is not used in the preparation of the Product. Although Citi Research does not set a predetermined frequency for publication, if the Product is a fundamental equity or credit research report, it is the intention of Citi Research to provide research coverage of the covered

issuers, including in response to news affecting the issuer. For non-fundamental research reports, Citi Research may not provide regular updates to the views, recommendations and facts included in the reports. Notwithstanding that Citi Research maintains coverage on, makes recommendations concerning or discusses issuers, Citi Research may be periodically restricted from referencing certain issuers due to legal or policy reasons. Where a component of a published trade idea is subject to a restriction, the trade idea will be removed from any list of open trade ideas included in the Product. Upon the lifting of the restriction, the trade idea will either be re-instated in the open trade ideas list if the analyst continues to support it or it will be officially closed. Citi Research may provide different research products and services to different classes of customers (for example, based upon long-term or short-term investment horizons) that may lead to differing conclusions or recommendations that could impact the price of a security contrary to the recommendations in the alternative research product, provided that each is consistent with the rating system for each respective product.

Investing in non-U.S. securities, including ADRs, may entail certain risks. The securities of non-U.S. issuers may not be registered with, nor be subject to the reporting requirements of the U.S. Securities and Exchange Commission. There may be limited information available on foreign securities. Foreign companies are generally not subject to uniform audit and reporting standards, practices and requirements comparable to those in the U.S. Securities of some foreign companies may be less liquid and their prices more volatile than securities of comparable U.S. companies. In addition, exchange rate movements may have an adverse effect on the value of an investment in a foreign stock and its corresponding dividend payment for U.S. investors. Net dividends to ADR investors are estimated, using withholding tax rates conventions, deemed accurate, but investors are urged to consult their tax advisor for exact dividend computations. Investors who have received the Product from the Firm may be prohibited in certain states or other jurisdictions from purchasing securities mentioned in the Product from the Firm. Please ask your Financial Consultant for additional details. Citigroup Global Markets Inc. takes responsibility for the Product in the United States. Any orders by US investors resulting from the information contained in the Product may be placed only through Citigroup Global Markets Inc.

The Citigroup legal entity that takes responsibility for the production of the Product is the legal entity which the first named author is employed by.

Citigroup Global Markets Limited DIFC Branch registered addressis Level 3, Gate District Building 02, Dubai International Financial Centre andcan be contacted on +971 4 509 97 90.

The Product is made available in **United Kingdom** by Citigroup Global Markets Limited, which is authorised by the Prudential Regulation Authority ("PRA") and regulated by the Financial Conduct Authority ("FCA") and the PRA. This material may relate to investments or services of a person outside of the UK or to other matters which are not authorised by the PRA nor regulated by the FCA and the PRA and further details as to where this may be the case are available upon request in respect of this material. Citigroup Centre, Canada Square, Canary Wharf, London, E14 5LB.

The Product is made available in **United States** and **Canada** by Citigroup Global Markets Inc., which is a member of FINRA and registered with the US Securities and Exchange Commission. 388 Greenwich Street, New York, NY 10013.

Unless specified to the contrary, within EU Member States, the Product is made available by Citigroup Global Markets Europe AG ("CGME"), which is regulated by the European Central Bank and the German Federal Financial Supervisory Authority (Bundesanstalt für Finanzdienstleistungsaufsicht-BaFin).

The Product is not to be construed as providing investment services in any jurisdiction where the provision of such services would not be permitted.

Subject to the nature and contents of the Product, the investments described therein are subject to fluctuations in price and/or value and investors may get back less than originally invested. Certain high-volatility investments can be subject to sudden and large falls in value that could equal or exceed the amount invested.The yield and average life of CMOs (collateralized mortgage obligations) referenced in this Product will fluctuate depending on the actual rate at which mortgage holders prepay the mortgages underlying the CMO and changes in current interest rates. Any government agency backing of the CMO applies only to the face value of the CMO and not to any premium paid. Certain investments contained in the Product may have tax implications for private customers whereby levels and basis of taxation may be subject to change. If in doubt, investors should seek advice from a tax adviser. The Product does not purport to identify the nature of the specific market or other risks associated with a particular transaction. Advice in the Product is general and should not be construed as personal advice given it has been prepared without taking account of the objectives, financial situation or needs of any particular investor. Accordingly, investors should, before acting on the advice, consider the appropriateness of the advice, having regard

to their objectives, financial situation and needs. Prior to acquiring any financial product, it is the client's responsibility to obtain the relevant offer document for the product and consider it before making a decision as to whether to purchase the product.

Card Insights. Where this report references Card Insights data, Card Insights consists of selected data from a subset of Citi's proprietary credit card transactions. Such data has undergone rigorous security protocols to keep all customer information confidential and secure; the data is highly aggregated and anonymized so that all unique customer identifiable information is removed from the data prior to receipt by the report's author or distribution to external parties. This data should be considered in the context of other economic indicators and publicly available information. Further, the selected data represents only a subset of Citi's proprietary credit card transactions due to the selection methodology or other limitations and should not be considered as indicative or predictive of the past or future financial performance of Citi or its credit card business.

Citi Research product may source data from dataCentral. dataCentral is a Citi Research proprietary database, which includes the Firm's estimates, data from company reports and feeds from LSEG Data & Analytics. The source for all referenced prices, unless otherwise stated, is DataCentral. Past performance is not a guarantee or reliable indicator of future results. Forecasts are not a guarantee or reliable indicator of future performance. The printed and printable version of the research report may not include all the information <(e.g. certain financial summary information and comparable company data) that is linked to the online version available on the Firm's proprietary electronic distribution platforms.

Inventec (2356.TW)

Near-term softness not changing its long-term server growth narrative

CITI'S TAKE

Inventec's 3Q26 net profit came in at NT$2,538m, -35% QoQ and -7% YoY, missing our and consensus estimates by 43%/26%, respectively, mainly due to higher-than-expected interest expense. GM/OPM of 4.2%/1.6% (vs. 4.2%/1.8% in 2Q26) missed Street's expectations with sales mix from Server reaching >50%, vs. 46-50%/41-45% in 2Q26/3Q25. Given continued supply tightness in key components, such as CPU, memory, PCB, near-term momentum looks lackluster for its general server business, and NB business is also dragged by slowing end-demand. Nonetheless, we see positive growth outlook into next year as it transits to serve more rack-level business for AI ASIC projects and the ramping of new AI GPU platform with new capacity coming online in the US would support the local demand. Meanwhile, management indicated there is no equity-based funding need in the near-term as its cash and funding sources already can support its worldwide expansion and entry into server rack-level business.

4Q sales to decline but GM improving — 4Q Server shipment is guided for flattish QoQ mainly impacted by components shortage. Within server, contribution from AI GPU is likely to decline due to platform transition. For NB business, given sluggish end demand, outlook is toned down as shipment guidance now suggests around low-teens to mid-teens QoQ decline. Net-net, we forecast Inventec's overall revenues to decline c14% QoQ in 4Q26. For margins, with lower server rack-level sales contribution, we see GM to recover to 4.5%. Also, with further ramps of its sales scale, the management is expecting its overall OPM to gradually improve in the coming years and to near 2% OPM target level.

AI ASIC/CPU growth as the highlight in 2027 — Overall server demand remains solid, but Inventec is seeing supply chain resources prioritized to support hyperscalers demand. By projects, Inventec sees its ASIC/CPU shipment to grow double digit next year with rising mix from L10. Shipment for new AI GPU platform should start in 1Q27 and drive higher content value for the company.

Maintain Buy with lower TP at NT$65 — We cut our 2026/27/28 earnings by 12%/17%/13% as we reflect the lower margin assumptions as it further ramps its rack-level server business and initial higher cost in overseas expansion. Given our lower earnings estimates, we revise down our TP to NT$65 (from NT$75), based on our unchanged 17x PER to 2027 EPS.

Earnings Summary

BEAR Assumptions

- Weaker than expected AI server project demand

Inventec

Company description

Established in 1975 and listed in 1996, Taiwan-based Inventec is a key ODM of NBs, servers, smartphones, and wearable/IoT devices to global customers. Major shareholders include the founder Mr. Yeh Kuo-I, whose family has (both directly and indirectly) a c35% stake.

Investment strategy

We rate Inventec shares as Buy. We expect stable demand in NB and server to help support near-term earnings, while product diversification within smart devices to areas such as IoT and medical space should help improve L-T margins. We expect the company's solid cash yield to serve as a downside cushion.

Valuation

Our target price of NT$65 for Inventec shares is based on 17x 2027 EPS, which is slightly above the mid-point of its historical trading range, reflecting the company's product diversification and stable demand outlook led by servers and commercial NBs, as well as increasing AI server exposure that could potentially drive margin expansion and better earnings momentum.

Risks

Key downside risks that could impede the stock from reaching our target price include: 1) Slower-than-expected shipment growth/weaker-than-expected sell-through in HomePods and AirPods could lead to downside in our sales forecasts; 2) If competitors adopt aggressive pricing strategies to gain market shares, our ASP and margin assumptions could face downside risk; 3) Lower-than-expected server margins driven by rising exposure to Chinese customers could impact our earnings forecasts negatively; 4) Deterioration in NB demand and investment in solar would hurt our forecasts; and 5) Stronger-than-expected Taiwan dollar could lead to FX loss and downside to our current forecasts.

Appendix A-1

ANALYST CERTIFICATION

The research analysts primarily responsible for the preparation and content of this research report are either (i) designated by "AC" in the author block or (ii) listed in bold alongside content which is attributable to that analyst. If multiple AC analysts are designated in the author block, each analyst is certifying with respect to the entire research report other than (a) content attributable to another AC certifying analyst listed in bold alongside the content and (b) views expressed solely with respect to a specific issuer which are attributable to another AC certifying analyst identified in the price charts or rating history tables for that issuer shown below. Each of these analysts certify, with respect to the sections of the report

for which they are responsible: (1) that the views expressed therein accurately reflect their personal views about each issuer and security referenced and were prepared in an independent manner, including with respect to Citigroup Global Markets Inc. and its affiliates; and (2) no part of the research analyst's compensation was, is, or will be, directly or indirectly, related to the specific recommendations or views expressed by that research analyst in this report.

Citigroup Global Markets Inc. or its affiliates received compensation for products and services other than investment banking services from Inventec in the past 12 months.

Citigroup Global Markets Inc. or its affiliates currently has, or had within the past 12 months, the following as clients, and the services provided were non-investment-banking, securities-related: Inventec.

Citigroup Global Markets Inc. or its affiliates currently has, or had within the past 12 months, the following as clients, and the services provided were non-investment-banking, non-securities-related: Inventec.

Citigroup Global Markets Inc. and/or its affiliates has a significant financial interest in relation to Inventec. (For an explanation of the determination of significant financial interest, please refer to the policy for managing conflicts of interest which can be found at www.citiVelocity.com.)

Analysts' compensation is determined by Citi Research management and Citigroup's senior management and is based upon activities and services intended to benefit the investor clients of Citigroup Global Markets Inc. and its affiliates (the "Firm"). Compensation is not linked to specific transactions or recommendations. Like all Firm employees, analysts receive compensation that is impacted by overall Firm profitability which includes investment banking, sales and trading, and principal trading revenues. One factor in equity research analyst compensation is arranging corporate access events between institutional clients and the management teams of covered companies. Typically, company management is more likely to participate when the analyst has a positive view of the company.

For financial instruments recommended in the Product in which the Firm is not a market maker, the Firm is a liquidity provider in such financial instruments (and any underlying instruments) and may act as principal in connection with transactions in such instruments. The Firm is a regular issuer of traded financial instruments linked to securities that may have been recommended in the Product. The Firm regularly trades in the securities of the issuer(s) discussed in the Product. The Firm may engage in securities transactions in a manner inconsistent with the Product and, with respect to securities covered by the Product, will buy or sell from customers on a principal basis.

Unless stated otherwise neither the Research Analyst nor any member of their team has viewed the material operations of the Companies for which an investment view has been provided within the past 12 months.

For important disclosures (including copies of historical disclosures) regarding the companies that are the subject of this Citi Research product ("the Product"), please contact Citi Research, 388 Greenwich Street, 6th Floor, New York, NY, 10013, Attention: Legal/Compliance [E6WYB6412478]. In addition, the same important disclosures, with the exception of the Valuation and Risk assessments and historical disclosures, are contained on the Firm's disclosure website at https://www.citivelocity.com/cvr/eppublic/citi_research_disclosures. Valuation and Risk assessments can be found in the text of the most recent research note/report regarding the subject company. Pursuant to the Market Abuse Regulation a history of all Citi Research recommendations published during the preceding 12-month period can be accessed via Citi Velocity (https://www.citivelocity.com/cv2) or your standard distribution portal. Historical disclosures (for up to the past three years) will be provided upon request.

Citi Research Equity Ratings Distribution

	12 Month Rating			Catalyst Watch		
Data current as of 01 Oct 2026	**Buy**	**Hold**	**Sell**	**Buy**	**Hold**	**Sell**
Citi Research Global Fundamental Coverage (Neutral=Hold)	61%	32%	7%	36%	48%	16%
% of companies in each rating category that are investment banking clients	39%	43%	30%	42%	38%	36%

Guide to Citi Research Fundamental Research Investment Ratings:
Citi Research stock recommendations include an investment rating and an optional risk rating to highlight high risk stocks. **Risk rating** takes into account both price volatility and fundamental criteria. Stocks will either have no risk rating or a High risk rating assigned.
Investment Ratings: Citi Research investment ratings are Buy, Neutral and Sell. Our ratings are a function of analyst expectations of expected total return ("ETR") and risk. ETR is the sum of the forecast price appreciation (or depreciation) plus the dividend yield for a stock within the next 12 months. The target price is based on a 12 month time horizon. The Investment rating definitions are: Buy (1) ETR of 15% or more or 25% or more for High risk stocks; and Sell (3) for negative ETR. Any covered stock not assigned a Buy or a Sell is a Neutral (2). For stocks rated Neutral (2), if an analyst believes that there are insufficient valuation drivers and/or investment catalysts to derive a positive or negative investment view, they may elect with the approval of Citi Research management not to assign a target price and, thus, not derive an ETR. Citi Research may suspend its rating and target price and assign “Rating Suspended” status for regulatory and/or internal policy reasons. Citi Research may also suspend its rating and target price and assign "Under Review" status for other exceptional circumstances (e.g. lack of information critical to the analyst's thesis, trading suspension) affecting the company and/or trading in the company's securities. In both such situations, the rating and target price will show as “—“ and “-“ respectively in the rating history price chart. Prior to 11 April 2022 Citi Research assigned “Under Review” status to both situations and prior to 11 Nov 2020 only in exceptional circumstances. As soon as practically possible, the analyst will publish a note re-establishing a rating and investment thesis. Investment ratings are determined by the ranges described above at the time of initiation of coverage, a change in investment and/or risk rating, or a change in target price (subject to limited management discretion). At times, the expected total returns may fall outside of these ranges because of market price movements and/or other short-term volatility or trading patterns. Such interim deviations will be permitted but will become subject to review by Research Management. Your decision to buy or sell a security should be based upon your personal investment objectives and should be made only after evaluating the stock's expected performance and risk.

Catalyst Watch/Short Term Views (“STV”) Ratings Disclosure:
Catalyst Watch and STV Upside/Downside calls: Citi Research may also include a Catalyst Watch or STV Upside or Downside call to indicate the analyst expects the share price to rise (fall) in absolute terms over a specified period of 30 or 90 days in reaction to one or more specific near-term catalysts or events impacting the company or the market. A Catalyst Watch will be published when Analyst confidence is high that an impact to share price will occur; it will be a STV when confidence level is moderate. A Catalyst Watch or STV Upside/Downside call will automatically expire at the end of the specified 30/90 day period. The Catalyst Watch will also be automatically removed if share price performance (calculated at market close) exceeds 15% against the direction of the call (unless over-ridden by the analyst). The analyst may also remove a Catalyst Watch or STV call prior to the end of the specified period in a published research note. A Catalyst Watch/STV Upside or Downside call may be different from and does not affect a stock’s fundamental equity rating, which reflects a longer-term total absolute return expectation. For purposes of FINRA ratings-distribution-disclosure rules, a Catalyst Watch/STV Upside call corresponds to a buy recommendation and a Catalyst Watch/STV Downside call corresponds to a sell recommendation. Any stock not assigned to a Catalyst Watch Upside, Catalyst Watch Downside, STV Upside, or STV Downside call is considered Catalyst Watch/STV No View. For purposes of FINRA ratings distribution-disclosure rules, we correspond Catalyst Watch/STV No View to Hold in

our ratings distribution table for our Catalyst Watch/STV Upside/Downside rating system. However, we reiterate that we do not consider No View to be a recommendation. For all Catalyst Watch/STV Upside/Downside calls, risk exists that the catalyst(s) and associated share-price movement will not materialize as expected.

Privately held companies:

The legal entities through which Citi conducts its business do not permit investment research recommendations, ratings, target prices, or estimates on any privately held companies ("private companies") referenced herein. Citi Research does not utilize a rating system for private companies. Any information on private companies in this report is based on generally available information and, although obtained from sources believed by Citi to be reliable, its accuracy and completeness are not guaranteed. Private companies are generally not subject to reporting obligations, which may result in less publicly available information. The information contained in this report may differ from information a private company may subsequently make public or otherwise share with investors. Continuation of publishing private company reports or private company sections within reports is at Citi's discretion, in accordance with internal policies.

RESEARCH ANALYST AFFILIATIONS / NON-US RESEARCH ANALYST DISCLOSURES

The legal entities employing the authors of this report are listed below (and their regulators are listed further herein). Non-US research analysts who have prepared this report (i.e., all research analysts listed below other than those identified as employed by Citigroup Global Markets Inc.) are not registered/qualified as research analysts with FINRA. Such research analysts may not be associated persons of the member organization (but are employed by an affiliate of the member organization) and therefore may not be subject to the FINRA Rule 2241 restrictions on communications with a subject company, public appearances and trading securities held by a research analyst account.

Citigroup Global Markets Taiwan Securities Company Limited	Jack Chen; Laura (Chia Yi) Chen; Nicholas Lai

OTHER DISCLOSURES

Any price(s) of instruments mentioned in recommendations are as of the prior day's market close on the primary market for the instrument, unless otherwise stated.

The completion and first dissemination of any recommendations made within this research report are as of the Eastern date-time displayed at the top of the Product. If the Product references views of other analysts then please refer to the price chart or rating history table for the date/time of completion and first dissemination with respect to that view.

Regulations in various jurisdictions require that where a recommendation differs from any of the author's previous recommendations concerning the same financial instrument or issuer that has been published during the preceding 12-month period that the change(s) and the date of that previous recommendation are indicated. For fundamental coverage please refer to the price chart or rating change history within this disclosure appendix or the issuer disclosure summary at https://www.citivelocity.com/cvr/eppublic/citi_research_disclosures.

Citi Research has implemented policies for identifying, considering and managing potential conflicts of interest arising as a result of publication or distribution of investment research. A description of these policies can be found at https://www.citivelocity.com/cvr/eppublic/citi_research_disclosures.

The proportion of all Citi Research research recommendations that were the equivalent to "Buy","Hold","Sell" at the end of each quarter over the prior 12 months (with the % of these that had received investment firm services from Citi in the prior 12 months shown in brackets) is as follows; Q2 2026 Buy 33%(63%), Hold 44% (51%), Sell 23% (49%), RV 0.5% (87%): Q1 2026 Buy 33% (63%), Hold 44% (52%), Sell 23% (46%), RV 0.5% (89%); Q4 2025 Buy 33% (63%), Hold 44% (50%), Sell 23% (46%), RV 0.4% (91%); Q3 2025 Buy 33%(61%), Hold 44% (52%), Sell 23% (50%), RV 0.4% (80%). For the purposes of disclosing recommendations other than for equity (whose definitions can be found in the corresponding disclosure sections), "Buy" means a positive directional trade idea; "Sell" means a negative directional trade idea; and "Relative Value" means any trade idea which does not have a clear direction to the investment strategy.

European regulations require a 5 year price history when past performance of a security is referenced. CitiVelocity's Charting Tool (https://www.citivelocity.com/cv2/#go/CHARTING_3_Equities) provides the facility to create customisable price charts including a five year option. This tool can be found in the Data & Analytics section under any of the asset class menus in CitiVelocity (https://www.citivelocity.com/). For further information contact CitiVelocity support (https://www.citivelocity.com/cv2/go/CLIENT_SUPPORT). The source for all referenced prices, unless otherwise stated, is DataCentral, which sources price information from LSEG Data & Analytics. Past performance is not a guarantee or reliable indicator of future results. Forecasts are not a guarantee or reliable indicator of future performance.

Investors should always consider the investment objectives, risks, and charges and expenses of an ETF carefully before investing. The applicable prospectus and key investor information document (as applicable) for an ETF should contain this and other information about such ETF. It is important to read carefully any such prospectus before investing. Clients may obtain prospectuses and key investor information documents for ETFs from the applicable distributor or authorized participant, the exchange upon which an ETF is listed and/or from the applicable website of the applicable ETF issuer. The value of the investments and any accruing income may fall or rise. Any past performance, prediction or forecast is not indicative of future or likely performance. Any information on ETFs contained herein is provided strictly for illustrative purposes and should not be deemed an offer to sell or a solicitation of an offer to purchase units of any ETF either explicitly or implicitly. The opinions expressed are those of the authors and do not necessarily reflect the views of ETF issuers, any of their agents or their affiliates.

Citigroup Global Markets India Private Limited and/or its affiliates may have, from time to time, actual or beneficial ownership of 1% or more in the debt securities of the subject issuer.

Please be advised that pursuant to Executive Order 13959 as amended (the “Order”), U.S. persons are prohibited from investing in securities of any company determined by the United States Government to be the subject of the Order. This research is not intended to be used or relied upon in any way that could result in a violation of the Order. Investors are encouraged to rely upon their own legal counsel for advice on compliance with the Order and other economic sanctions programs administered and enforced by the Office of Foreign Assets Control of the U.S. Treasury Department.

This communication is directed at persons who are "Eligible Clients" as such term is defined in the Israeli Regulation of Investment Advice, Investment Marketing and Investment Portfolio Management law, 1995 (the "Advisory Law"). Within Israel, this communication is not intended for retail clients and Citi will not make such products or transactions available to retail clients or to non-Eligible Clients. The presenter is not licensed as investment advisor or investment marketer by the Israeli Securities Authority (“ISA”) and this communication does not constitute investment or marketing advice. The information contained herein may relate to matters that are not regulated by the ISA. Any securities which are the subject of this communication may not be offered or sold to any Israeli person except pursuant to a security offering exemption according to the Israeli Securities Law, 1968and the public offering rules provided thereunder.

Citi Research broadly and simultaneously disseminates its research content to the Firm’s institutional and retail clients via the Firm’s proprietary electronic distribution platforms (e.g., Citi Velocity and various Global Wealth platforms). As a convenience, certain, but not all, research content may be distributed through third party aggregators. Clients may receive published research reports by email, on a discretionary basis, and only after such research content has been broadly disseminated. Certain research is made available only to institutional investors to satisfy regulatory requirements. The level and types of services provided by Citi Research analysts to clients may vary depending on various factors such as the client’s individual preferences as to the frequency and manner of receiving communications from analysts, the client’s risk profile and investment focus and perspective (e.g. market-wide, sector specific, long term, short-term etc.), the size and scope of the overall client relationship with the Firm and legal and regulatory constraints.

Pursuant to Comissão de Valores Mobiliários Resolução 20 and ASIC Regulatory Guide 264, Citi is required to disclose whether a Citi related company or business has a commercial relationship with the subject company. Considering that Citi operates multiple businesses in more than 100 countries around the world, it is likely that Citi has a commercial relationship with the subject company.

Securities recommended, offered, or sold by the Firm: (i) are not insured by the Federal Deposit Insurance Corporation; (ii) are not deposits or other obligations of any insured depository institution (including Citibank); and (iii) are subject to investment risks, including the possible loss of the principal amount invested. The Product is for informational purposes only and is not intended as an offer or solicitation for the purchase or sale of a security. Any decision to purchase securities mentioned in the Product must take into account existing public information on such security or any registered prospectus. Although information has been obtained from and is based upon sources that the Firm believes to be reliable, we do not guarantee its accuracy and it may be incomplete and condensed. Note, however, that the Firm has taken all reasonable steps to determine the accuracy and completeness of the disclosures made in the Important Disclosures section of the Product. The Firm's research department has received assistance from the subject company(ies) referred to in this Product including, but not limited to, discussions with management of the subject company(ies). Firm policy prohibits research analysts from sending draft research to subject companies. However, it should be presumed that the author of the Product has had discussions with the subject company to ensure factual accuracy prior to publication. Statements and views concerning ESG (environmental, social, governance) factors are typically based upon public statements made by the affected company or other public news, which the author may not have independently verified. ESG factors are one consideration that investors may choose to examine when making investment decisions. All opinions, projections and estimates constitute the judgment of the author as of the date of the Product and these, plus any other information contained in the Product, are subject to change without notice. Prices and availability of financial instruments also are subject to change without notice. Notwithstanding other departments within the Firm advising the companies discussed in this Product, information obtained in such role is not used in the preparation of the Product. Although Citi Research does not set a predetermined frequency for publication, if the Product is a fundamental equity or credit research report, it is the intention of Citi Research to provide research coverage of the covered issuers, including in response to news affecting the issuer. For non-fundamental research reports, Citi Research may not provide regular updates to the views, recommendations and facts included in the reports. Notwithstanding that Citi Research maintains coverage on, makes recommendations concerning or discusses issuers, Citi Research may be periodically restricted from referencing certain issuers due to legal or policy reasons. Where a component of a published trade idea is subject to a restriction, the trade idea will be removed from any list of open trade ideas included in the Product. Upon the lifting of the restriction, the trade idea will either be re-instated in the open trade ideas list if the analyst continues to support it or it will be officially closed. Citi Research may provide different research products and services to different classes of customers (for example, based upon long-term or short-term investment horizons) that may lead to differing conclusions or recommendations that could impact the price of a security contrary to the recommendations in the alternative research product, provided that each is consistent with the rating system for each respective product.

Investing in non-U.S. securities, including ADRs, may entail certain risks. The securities of non-U.S. issuers may not be registered with, nor be subject to the reporting requirements of the U.S. Securities and Exchange Commission. There may be limited information available on foreign securities. Foreign companies are generally not subject to uniform audit and reporting standards, practices and requirements comparable to those in the U.S. Securities of some foreign companies may be less liquid and their prices more volatile than securities of comparable U.S. companies. In addition, exchange rate movements may have an adverse effect on the value of an investment in a foreign stock and its corresponding dividend payment for U.S. investors. Net dividends to ADR investors are estimated, using withholding tax rates conventions, deemed accurate, but investors are urged to consult their tax advisor for exact dividend computations. Investors who have received the Product from the Firm may be prohibited in certain states or other jurisdictions from purchasing securities mentioned in the Product from the Firm. Please ask your Financial Consultant for additional details. Citigroup Global Markets Inc. takes responsibility for the Product in the United States. Any orders by US investors resulting from the information contained in the Product may be placed only through Citigroup Global Markets Inc.

The Citigroup legal entity that takes responsibility for the production of the Product is the legal entity which the first named author is employed by.

The Product is made available in **United States** and **Canada** by Citigroup Global Markets Inc., which is a member of FINRA and registered with the US Securities and Exchange Commission. 388 Greenwich Street, New York, NY 10013.

Unless specified to the contrary, within EU Member States, the Product is made available by Citigroup Global Markets Europe AG ("CGME"), which is regulated by the European Central Bank and the German Federal Financial Supervisory Authority (Bundesanstalt für Finanzdienstleistungsaufsicht-BaFin).

The Product is not to be construed as providing investment services in any jurisdiction where the provision of such services would not be permitted.

Subject to the nature and contents of the Product, the investments described therein are subject to fluctuations in price and/or value and investors may get back less than originally invested. Certain high-volatility investments can be subject to sudden and large falls in value that could equal or exceed the amount invested.The yield and average life of CMOs (collateralized mortgage obligations) referenced in this Product will fluctuate depending on the actual rate at which mortgage holders prepay the mortgages underlying the CMO and changes in current interest rates. Any government agency backing of the CMO applies only to the face value of the CMO and not to any premium paid. Certain investments contained in the Product may have tax implications for private customers whereby levels and basis of taxation may be subject to change. If in doubt, investors should seek advice from a tax adviser. The Product does not purport to identify the nature of the specific market or other risks associated with a particular transaction. Advice in the Product is general and should not be construed as personal advice given it has been prepared without taking account of the objectives, financial situation or needs of any particular investor. Accordingly, investors should, before acting on the advice, consider the appropriateness of the advice, having regard to their objectives, financial situation and needs. Prior to acquiring any financial product, it is the client's responsibility to obtain the relevant offer document for the product and consider it before making a decision as to whether to purchase the product.

Card Insights. Where this report references Card Insights data, Card Insights consists of selected data from a subset of Citi's proprietary credit card transactions. Such data has undergone rigorous security protocols to keep all customer information confidential and secure; the data is highly aggregated and anonymized so that all unique customer identifiable information is removed from the data prior to receipt by the report's author or distribution to external parties. This data should be considered in the context of other economic indicators and publicly available information. Further, the selected data represents only a subset of Citi's proprietary credit card transactions due to the selection methodology or other limitations and should not be considered as indicative or predictive of the past or future financial performance of Citi or its credit card business.

Citi Research product may source data from dataCentral. dataCentral is a Citi Research proprietary database, which includes the Firm's estimates, data from company reports and feeds from LSEG Data & Analytics. The source for all referenced prices, unless otherwise stated, is DataCentral. Past performance is not a guarantee or reliable indicator of future results. Forecasts are not a guarantee or reliable indicator of future performance. The printed and printable version of the research report may not include all the information <(e.g. certain financial summary information and comparable company data) that is linked to the online version available on the Firm's proprietary electronic distribution platforms.

Zhen Ding Technology (4958.TW)

3Q26 margin beat on AI infra business; Buy

CITI'S TAKE

Zhen Ding's record 3Q26 GM of 27.7% (+4.6ppt QoQ) came 2.1ppt/2.6ppt higher than Citi/consensus forecasts, which we attribute to its AI infra businesses (especially ABF/BT substrate). ABF substrate now still runs at full UTR, while optical/server demand ramps up continuously.
Higher 3Q26 OPEX ratio vs 3Q25 was likely due to R&D expenses for upcoming projects. Overall, OP levels came in line with Citi forecast but beat consensus forecast by 11%. Non-op was due to high FX loss. As we previewed, we expect new AI infra businesses to be the key drivers from 3Q26 onward, while Apple-related business is muted in 2026E/27E with limited GM downside given mSAP supply tightness, in our view. Considering enhanced product mix, we think ZDT's GM could continues expanding in 4Q26E and likely 1Q27E backed by sustained growth in AI infra businesses. We reiterate our Buy rating with TP NT$750 (27x 2027E EPS).

Buy

Spread 70pp
Current Price and expected returns (upside/downside) as of 10 Nov 2026

BULL Assumptions

- Stronger market share gains in SLP/HDI
- More progress in AI business, especially in GB200
- Better ABF demand from China market

BASE Assumptions

- 2027/28E sales growth of +35%/+27% YoY
- 2027/28E GM of 29.4%/33.1%

BEAR Assumptions

- Harsher margin dilution from stronger capex
- Worse-than-expected ABF demand from China market

Zhen Ding Technology

Valuation

We set a DCF-based TP of NT$750. We use a DCF-based valuation to reflect ZDT's ability to generate stable cash flows. Key assumptions of our DCF model include a risk-free rate of 5.2% (10-year government bond rate), a market risk premium of 7%, and an equity beta of 0.89 (1-year weekly share price), deriving a WACC of 10.7%. Our model assumes high-single-digit long-term growth after 2028E and a 21.6% EBIT margin from 2028E with a gradual annual increase. Our TP is equivalent to 27x/17x 2027E/28E EPS and 4.5x/3.8x 2027E/28E BVPS.

Risks

Key downside risks that could cause the stock to trade below our target price include: 1) lower-than-expected iPhone/Mac/iPad end-demand; 2) lower content value for new smartphone models or pricing pressure; 3) ZDT losing market share from its FPC/HDI peers; 4) a slower demand in the substrate industry; 5) failure to pass the qualifications of major AI GPU or ASIC customers.

Appendix A-1

ANALYST CERTIFICATION

The research analysts primarily responsible for the preparation and content of this research report are either (i) designated by "AC" in the author block or (ii) listed in bold alongside content which is attributable to that analyst. If multiple AC analysts are designated in the author block, each analyst is certifying with respect to the entire research report other than (a) content attributable to another AC certifying analyst listed in bold alongside the content and (b) views expressed solely with respect to a specific issuer which are attributable to another AC certifying analyst identified in the price charts or rating history tables for that issuer shown below. Each of these analysts certify, with respect to the sections of the report for which they are responsible: (1) that the views expressed therein accurately reflect their personal views about each issuer and security referenced and were prepared in an independent manner, including with respect to Citigroup Global Markets Inc. and its affiliates; and (2) no part of the research analyst's compensation was, is, or will be, directly or indirectly, related to the specific recommendations or views expressed by that research analyst in this report.

Within the past 12 months, Citigroup Global Markets Inc. or its affiliates has acted as manager or co-manager of an offering of securities of Zhen Ding Technology.

Citigroup Global Markets Inc. or its affiliates has received compensation for investment banking services provided within the past 12 months from Zhen Ding Technology.

Citigroup Global Markets Inc. or its affiliates received compensation for products and services other than investment banking services from Zhen Ding Technology in the past 12 months.

Citigroup Global Markets Inc. or its affiliates currently has, or had within the past 12 months, the following as investment banking client(s): Zhen Ding Technology.

Citigroup Global Markets Inc. or its affiliates currently has, or had within the past 12 months, the following as clients, and the services provided were non-investment-banking, securities-related: Zhen Ding Technology.

Citigroup Global Markets Inc. or its affiliates currently has, or had within the past 12 months, the following as clients, and the services provided were non-investment-banking, non-securities-related: Zhen Ding Technology.

Analysts' compensation is determined by Citi Research management and Citigroup's senior management and is based upon activities and services intended to benefit the investor clients of Citigroup Global Markets Inc. and its affiliates (the "Firm"). Compensation is not linked to specific transactions or recommendations. Like all Firm employees, analysts receive compensation that is impacted by overall Firm profitability which includes investment banking, sales and trading, and principal trading revenues. One factor in equity research analyst compensation is arranging corporate access events between institutional clients and the management teams of covered companies. Typically, company management is more likely to participate when the analyst has a positive view of the company.

For financial instruments recommended in the Product in which the Firm is not a market maker, the Firm is a liquidity provider in such financial instruments (and any underlying instruments) and may act as principal in connection with transactions in such instruments. The Firm is a regular issuer of traded financial instruments linked to securities that may have been recommended in the Product. The Firm regularly trades in the securities of the issuer(s) discussed in the Product. The Firm may engage in securities transactions in a manner inconsistent with the Product and, with respect to securities covered by the Product, will buy or sell from customers on a principal basis.

Unless stated otherwise neither the Research Analyst nor any member of their team has viewed the material operations of the Companies for which an investment view has been provided within the past 12 months.

For important disclosures (including copies of historical disclosures) regarding the companies that are the subject of this Citi Research product ("the Product"), please contact Citi Research, 388 Greenwich Street, 6th Floor, New York, NY, 10013, Attention: Legal/Compliance [E6WYB6412478]. In addition, the same important disclosures, with the exception of the Valuation and Risk assessments and historical disclosures, are contained on the Firm's disclosure website at https://www.citivelocity.com/cvr/eppublic/citi_research_disclosures. Valuation and Risk assessments can be found in the text of the most recent research note/report regarding the subject company. Pursuant to the Market Abuse Regulation a history of all Citi Research recommendations published during the preceding 12-month period can be accessed via Citi Velocity (https://www.citivelocity.com/cv2) or your standard distribution portal. Historical disclosures (for up to the past three years) will be provided upon request.

Citi Research Equity Ratings Distribution

	12 Month Rating			Catalyst Watch		
Data current as of 01 Oct 2026	**Buy**	**Hold**	**Sell**	**Buy**	**Hold**	**Sell**
Citi Research Global Fundamental Coverage (Neutral=Hold)	61%	32%	7%	36%	48%	16%
% of companies in each rating category that are investment banking clients	39%	43%	30%	42%	38%	36%

Guide to Citi Research Fundamental Research Investment Ratings:
Citi Research stock recommendations include an investment rating and an optional risk rating to highlight high risk stocks.
Risk rating takes into account both price volatility and fundamental criteria. Stocks will either have no risk rating or a High risk rating assigned.
Investment Ratings: Citi Research investment ratings are Buy, Neutral and Sell. Our ratings are a function of analyst expectations of expected total return ("ETR") and risk. ETR is the sum of the forecast price appreciation (or depreciation) plus the dividend yield for a stock within the next 12 months. The target price is based on a 12 month time horizon. The Investment rating definitions are: Buy (1) ETR of 15% or more or 25% or more for High risk stocks; and Sell (3) for negative ETR. Any covered stock not assigned a Buy or a Sell is a Neutral (2). For stocks rated Neutral (2), if an analyst believes that there are insufficient valuation drivers and/or investment catalysts to derive a positive or negative investment view, they may elect with the approval of Citi Research management not to assign a target price and, thus, not derive an ETR. Citi Research may suspend its rating and target price and assign "Rating Suspended" status for regulatory and/or internal policy reasons. Citi Research may also suspend its rating and target price and assign "Under Review" status for other exceptional circumstances (e.g. lack of information critical to the analyst's thesis, trading suspension) affecting the company and/or trading in the company's securities. In both such situations, the rating and target price will show as "—" and "-" respectively in the rating history price chart. Prior to 11 April 2022 Citi Research assigned "Under Review" status to both situations and prior to 11 Nov 2020 only in exceptional circumstances. As soon as practically possible, the analyst will publish a note re-establishing a rating and investment thesis. Investment ratings are determined by the ranges described above at the time of initiation of coverage, a change in investment and/or risk rating, or a change in target price (subject to limited management discretion). At times, the expected total returns may fall outside of these ranges because of market price movements and/or other short-term volatility or trading patterns. Such interim deviations will be permitted but will become subject to review by Research Management. Your decision to buy or sell a security should be based upon your personal investment objectives and should be made only after evaluating the stock's expected performance and risk.

Catalyst Watch/Short Term Views ("STV") Ratings Disclosure:
Catalyst Watch and STV Upside/Downside calls: Citi Research may also include a Catalyst Watch or STV Upside or Downside call to indicate the analyst expects the share price to rise (fall) in absolute terms over a specified period of 30 or 90 days in reaction to one or more specific near-term catalysts or events impacting the company or the market. A Catalyst Watch will be published when Analyst confidence is high that an impact to share price will occur; it will be a STV when confidence level is moderate. A Catalyst Watch or STV Upside/Downside call will automatically expire at the end of the specified 30/90 day period. The Catalyst Watch will also be automatically removed if share price performance (calculated at market close) exceeds 15% against the direction of the call (unless over-ridden by the analyst). The analyst may also remove a Catalyst Watch or STV call prior to the end of the specified period in a published research note. A Catalyst Watch/STV Upside or Downside call may be different from and does not affect a stock's fundamental equity rating, which reflects a longer-term total absolute return expectation. For purposes of FINRA ratings-distribution-disclosure rules, a Catalyst Watch/STV Upside call corresponds to a buy recommendation and a Catalyst Watch/STV Downside call corresponds to a sell recommendation. Any stock not assigned to a Catalyst Watch Upside, Catalyst Watch Downside, STV Upside, or STV Downside call is considered Catalyst Watch/STV No View. For purposes of FINRA ratings distribution-disclosure rules, we correspond Catalyst Watch/STV No View to Hold in our ratings distribution table for our Catalyst Watch/STV Upside/Downside rating system. However, we reiterate that we do not consider No View to be a recommendation. For all Catalyst Watch/STV Upside/Downside calls, risk exists that the catalyst(s) and associated share-price movement will not materialize as expected.

Privately held companies:
The legal entities through which Citi conducts its business do not permit investment research recommendations, ratings, target prices, or estimates on any privately held companies ("private companies") referenced herein. Citi Research does not utilize a rating system for private companies. Any information on private companies in this report is based on generally available information and, although obtained from sources believed by Citi to be reliable, its accuracy and completeness are not guaranteed. Private companies are generally not subject to reporting obligations, which may result in less publicly available information. The information contained in this report may differ from information a private company may subsequently make public or otherwise share with investors. Continuation of publishing private company reports or private company sections within reports is at Citi's discretion, in accordance with internal policies.

RESEARCH ANALYST AFFILIATIONS / NON-US RESEARCH ANALYST DISCLOSURES
The legal entities employing the authors of this report are listed below (and their regulators are listed further herein). Non-US research analysts who have prepared this report (i.e., all research analysts listed below other than those identified as employed by Citigroup Global Markets Inc.) are not registered/qualified as research analysts with FINRA. Such research analysts may not be associated persons of the member organization (but are employed by an affiliate of the member organization) and therefore may not be subject to the FINRA Rule 2241 restrictions on communications with a subject company, public appearances and trading securities held by a research analyst account.

Citigroup Global Markets Taiwan Securities Company Limited	Jack Chen; Laura (Chia Yi) Chen; Nicholas Lai

OTHER DISCLOSURES

Any price(s) of instruments mentioned in recommendations are as of the prior day's market close on the primary market for the instrument, unless otherwise stated.

The completion and first dissemination of any recommendations made within this research report are as of the Eastern date-time displayed at the top of the Product. If the Product references views of other analysts then please refer to the price chart or rating history table for the date/time of completion and first dissemination with respect to that view.

Regulations in various jurisdictions require that where a recommendation differs from any of the author's previous recommendations concerning the same financial instrument or issuer that has been published during the preceding 12-month period that the change(s) and the date of that previous recommendation are indicated. For fundamental coverage please refer to the price chart or rating change history within this disclosure appendix or the issuer disclosure summary at https://www.citivelocity.com/cvr/eppublic/citi_research_disclosures.

Citi Research has implemented policies for identifying, considering and managing potential conflicts of interest arising as a result of publication or distribution of investment research. A description of these policies can be found at https://www.citivelocity.com/cvr/eppublic/citi_research_disclosures.

The proportion of all Citi Research research recommendations that were the equivalent to "Buy","Hold","Sell" at the end of each quarter over the prior 12 months (with the % of these that had received investment firm services from Citi in the prior 12 months shown in brackets) is as follows; Q2 2026 Buy 33%(63%), Hold 44% (51%), Sell 23% (49%), RV 0.5% (87%): Q1 2026 Buy 33% (63%), Hold 44% (52%), Sell 23% (46%), RV 0.5% (89%); Q4 2025 Buy 33% (63%), Hold 44% (50%), Sell 23% (46%), RV 0.4% (91%); Q3 2025 Buy 33%(61%), Hold 44% (52%), Sell 23% (50%), RV 0.4% (80%). For the purposes of disclosing recommendations other than for equity (whose definitions can be found in the corresponding disclosure sections), "Buy" means a positive directional trade idea; "Sell" means a negative directional trade idea; and "Relative Value" means any trade idea which does not have a clear direction to the investment strategy.

European regulations require a 5 year price history when past performance of a security is referenced. CitiVelocity's Charting Tool (https://www.citivelocity.com/cv2/#go/CHARTING_3_Equities) provides the facility to create customisable price charts including a five year option. This tool can be found in the Data & Analytics section under any of the asset class menus in CitiVelocity (https://www.citivelocity.com/). For further information contact CitiVelocity support (https://www.citivelocity.com/cv2/go/CLIENT_SUPPORT). The source for all referenced prices, unless otherwise stated, is

DataCentral, which sources price information from LSEG Data & Analytics. Past performance is not a guarantee or reliable indicator of future results. Forecasts are not a guarantee or reliable indicator of future performance.

Investors should always consider the investment objectives, risks, and charges and expenses of an ETF carefully before investing. The applicable prospectus and key investor information document (as applicable) for an ETF should contain this and other information about such ETF. It is important to read carefully any such prospectus before investing. Clients may obtain prospectuses and key investor information documents for ETFs from the applicable distributor or authorized participant, the exchange upon which an ETF is listed and/or from the applicable website of the applicable ETF issuer. The value of the investments and any accruing income may fall or rise. Any past performance, prediction or forecast is not indicative of future or likely performance. Any information on ETFs contained herein is provided strictly for illustrative purposes and should not be deemed an offer to sell or a solicitation of an offer to purchase units of any ETF either explicitly or implicitly. The opinions expressed are those of the authors and do not necessarily reflect the views of ETF issuers, any of their agents or their affiliates.

Citigroup Global Markets India Private Limited and/or its affiliates may have, from time to time, actual or beneficial ownership of 1% or more in the debt securities of the subject issuer.

Please be advised that pursuant to Executive Order 13959 as amended (the “Order”), U.S. persons are prohibited from investing in securities of any company determined by the United States Government to be the subject of the Order. This research is not intended to be used or relied upon in any way that could result in a violation of the Order. Investors are encouraged to rely upon their own legal counsel for advice on compliance with the Order and other economic sanctions programs administered and enforced by the Office of Foreign Assets Control of the U.S. Treasury Department.

This communication is directed at persons who are "Eligible Clients" as such term is defined in the Israeli Regulation of Investment Advice, Investment Marketing and Investment Portfolio Management law, 1995 (the "Advisory Law"). Within Israel, this communication is not intended for retail clients and Citi will not make such products or transactions available to retail clients or to non-Eligible Clients. The presenter is not licensed as investment advisor or investment marketer by the Israeli Securities Authority (“ISA”) and this communication does not constitute investment or marketing advice. The information contained herein may relate to matters that are not regulated by the ISA. Any securities which are the subject of this communication may not be offered or sold to any Israeli person except pursuant to a security offering exemption according to the Israeli Securities Law, 1968and the public offering rules provided thereunder.

Citi Research broadly and simultaneously disseminates its research content to the Firm’s institutional and retail clients via the Firm’s proprietary electronic distribution platforms (e.g., Citi Velocity and various Global Wealth platforms). As a convenience, certain, but not all, research content may be distributed through third party aggregators. Clients may receive published research reports by email, on a discretionary basis, and only after such research content has been broadly disseminated. Certain research is made available only to institutional investors to satisfy regulatory requirements. The level and types of services provided by Citi Research analysts to clients may vary depending on various factors such as the client’s individual preferences as to the frequency and manner of receiving communications from analysts, the client’s risk profile and investment focus and perspective (e.g. market-wide, sector specific, long term, short-term etc.), the size and scope of the overall client relationship with the Firm and legal and regulatory constraints.

Pursuant to Comissão de Valores Mobiliários Resolução 20 and ASIC Regulatory Guide 264, Citi is required to disclose whether a Citi related company or business has a commercial relationship with the subject company. Considering that Citi operates multiple businesses in more than 100 countries around the world, it is likely that Citi has a commercial relationship with the subject company.

Securities recommended, offered, or sold by the Firm: (i) are not insured by the Federal Deposit Insurance Corporation; (ii) are not deposits or other obligations of any insured depository institution (including Citibank); and (iii) are subject to investment risks, including the possible loss of the principal amount invested. The Product is for informational purposes only and is not intended as an offer or solicitation for the purchase or sale of a security. Any decision to purchase securities mentioned in the Product must take into account existing public information on such security or any registered prospectus. Although information has been obtained from and is based upon sources that the Firm believes to be reliable, we do not guarantee its accuracy and it may be incomplete and condensed. Note, however, that the Firm has taken all reasonable steps to determine the accuracy and completeness of the disclosures made in the Important Disclosures section of the Product. The Firm's research department has received assistance from the subject company(ies) referred to in this Product including, but not limited to, discussions with management of the subject company(ies). Firm policy prohibits research analysts from sending draft research to subject companies. However, it should be presumed that the author of the Product has had discussions with the subject company to ensure factual accuracy prior to publication. Statements and views concerning ESG (environmental, social, governance) factors are typically based upon public statements made by the affected company or other public news, which the author may not have independently verified. ESG factors are one consideration that investors may choose to examine when making investment decisions. All opinions, projections and estimates constitute the judgment of the author as of the date of the Product and these, plus any other information contained in the Product, are subject to change without notice. Prices and availability of financial instruments also are subject to change without notice. Notwithstanding other departments within the Firm advising the companies discussed in this Product, information obtained in such role is not used in the preparation of the Product. Although Citi Research does not set a predetermined frequency for publication, if the Product is a fundamental equity or credit research report, it is the intention of Citi Research to provide research coverage of the covered issuers, including in response to news affecting the issuer. For non-fundamental research reports, Citi Research may not provide regular updates to the views, recommendations and facts included in the reports. Notwithstanding that Citi Research maintains coverage on, makes recommendations concerning or discusses issuers, Citi Research may be periodically restricted

from referencing certain issuers due to legal or policy reasons. Where a component of a published trade idea is subject to a restriction, the trade idea will be removed from any list of open trade ideas included in the Product. Upon the lifting of the restriction, the trade idea will either be re-instated in the open trade ideas list if the analyst continues to support it or it will be officially closed. Citi Research may provide different research products and services to different classes of customers (for example, based upon long-term or short-term investment horizons) that may lead to differing conclusions or recommendations that could impact the price of a security contrary to the recommendations in the alternative research product, provided that each is consistent with the rating system for each respective product.

Investing in non-U.S. securities, including ADRs, may entail certain risks. The securities of non-U.S. issuers may not be registered with, nor be subject to the reporting requirements of the U.S. Securities and Exchange Commission. There may be limited information available on foreign securities. Foreign companies are generally not subject to uniform audit and reporting standards, practices and requirements comparable to those in the U.S. Securities of some foreign companies may be less liquid and their prices more volatile than securities of comparable U.S. companies. In addition, exchange rate movements may have an adverse effect on the value of an investment in a foreign stock and its corresponding dividend payment for U.S. investors. Net dividends to ADR investors are estimated, using withholding tax rates conventions, deemed accurate, but investors are urged to consult their tax advisor for exact dividend computations. Investors who have received the Product from the Firm may be prohibited in certain states or other jurisdictions from purchasing securities mentioned in the Product from the Firm. Please ask your Financial Consultant for additional details. Citigroup Global Markets Inc. takes responsibility for the Product in the United States. Any orders by US investors resulting from the information contained in the Product may be placed only through Citigroup Global Markets Inc.

The Citigroup legal entity that takes responsibility for the production of the Product is the legal entity which the first named author is employed by.

Financial products and/or services to which the Materialsrelate will only be made available to Professional Clients and MarketCounterparties. Citigroup Global Markets Limited DIFC Branch registered addressis Level 3, Gate District Building 02, Dubai International Financial Centre andcan be contacted on +971 4 509 97 90.

The Product is made available in **United Kingdom** by Citigroup Global Markets Limited, which is authorised by the Prudential Regulation Authority ("PRA") and regulated by the Financial Conduct Authority ("FCA") and the PRA. This material may relate to investments or services of a person outside of the UK or to other matters which are not authorised by the PRA nor regulated by the FCA and the PRA and further details as to where this may be the case are available upon request in respect of this material. Citigroup Centre, Canada Square, Canary Wharf, London, E14 5LB.

The Product is made available in **United States** and **Canada** by Citigroup Global Markets Inc., which is a member of FINRA and registered with the US Securities and Exchange Commission. 388 Greenwich Street, New York, NY 10013.

Unless specified to the contrary, within EU Member States, the Product is made available by Citigroup Global Markets Europe AG ("CGME"), which is regulated by the European Central Bank and the German Federal Financial Supervisory Authority (Bundesanstalt für Finanzdienstleistungsaufsicht-BaFin).

The Product is not to be construed as providing investment services in any jurisdiction where the provision of such services would not be permitted.
Subject to the nature and contents of the Product, the investments described therein are subject to fluctuations in price and/or value and investors may get back less than originally invested. Certain high-volatility investments can be subject to sudden and large falls in value that could equal or exceed the amount invested.The yield and average life of CMOs (collateralized mortgage obligations) referenced in this Product will fluctuate depending on the actual rate at which mortgage holders prepay the mortgages underlying the CMO and changes in current interest rates. Any government agency backing of the CMO applies only to the face value of the CMO and not to any premium paid. Certain investments contained in the Product may have tax implications for private customers whereby levels and basis of taxation may be subject to change. If in doubt, investors should seek advice from a tax adviser. The Product does not purport to identify the nature of the specific market or other risks associated with a particular transaction. Advice in the Product is general and should not be construed as personal advice given it has been prepared without taking account of the objectives, financial situation or needs of any particular investor. Accordingly, investors should, before acting on the advice, consider the appropriateness of the advice, having regard to their objectives, financial situation and needs. Prior to acquiring any financial product, it is the client's responsibility to obtain the relevant offer document for the product and consider it before making a decision as to whether to purchase the product.

Card Insights. Where this report references Card Insights data, Card Insights consists of selected data from a subset of Citi's proprietary credit card transactions. Such data has undergone rigorous security protocols to keep all customer information confidential and secure; the data is highly aggregated and anonymized so that all unique customer identifiable information is removed from the data prior to receipt by the report's author or distribution to external parties. This data should be considered in the context of other economic indicators and publicly available information. Further, the selected data represents only a subset of Citi's proprietary credit card transactions due to the selection methodology or other limitations and should not be considered as indicative or predictive of the past or future financial performance of Citi or its credit card business.

Citi Research product may source data from dataCentral. dataCentral is a Citi Research proprietary database, which includes the Firm's estimates, data from company reports and feeds from LSEG Data & Analytics. 3Q26 review: liquid cooling penetration rate rises

- 3Q26 EPS beat the Bloomberg consensus by 3%
- Started shipments of double-sided cold plates and CDUs from 3Q26
- Reaffirming our Buy (1) call with an unchanged 12M TP of TWD4,815

Helen Chien
(886) 2 8758 6254

neil.teng@daiwacm-cathay.com.tw

What's new: AVC announced its 3Q26 results and hosted an investor conference on 10 November 2026 after market hours. We believe AVC will be one of the key beneficiaries from the rising penetration rate of liquid cooling in both ASIC and GPU projects, with an aggressive capacity expansion plan over 2026-28. We reaffirm our Buy (1) call (see our latest Flash, *3Q26 results preview: likely to beat expectations*, on 2 November).

What's the impact: 3Q26 results beat the Bloomberg consensus. AVC's 3Q26 revenue of TWD59,089m (+20.3% QoQ; +51.8% YoY) was roughly in line with our and the Bloomberg consensus estimates. Its 3Q26 gross margin came in at 33.9% (vs. 32.6% in 2Q26 and 26.1% in 3Q25), a record-high level, higher than our estimate (33.5%) and the consensus (33.3%) on better product mix and high server revenue contribution of 66% in 3Q26 vs. 66% in 2Q26 and 54% in 3Q25. Its operating profit of TWD16,856m (+25.1% QoQ; +108.5% YoY) was in line with our estimate and beat the consensus by 4.2%. Thus, its operating margin of 28.5% (vs. 27.4% in 2Q26 and 20.8% in 3Q25), a record-high level, was also in line with our estimate and beat the consensus (27.9%). With an FX loss of TWD304m, its net profit of TWD11,564m (+20.9% QoQ; +116.6% YoY) was in line with our estimate and beat the market consensus estimate by 3%. Its 3Q26 EPS finished at TWD29.32.

Key highlights from the investor conference – liquid cooling revenue from AI servers continue to rise. AVC is confident it can maintain its leading position as a thermal and mechanical solution integrator, being a primary design partner for ASIC and GPU projects. In 2027, AVC expects its revenue from ASICs projects to be higher than GPU ones. From 3Q26, AVC has started shipping the double-sided cold plates, which it expects to be adopted by all ASIC clients and some GPU clients. With years of experience in providing CDU parts, AVC has also started shipping complete CDU solutions from 3Q26. AVC aims for TWD15-20bn capex in 2027 (mainly in Vietnam, for liquid cooling capacity expansion), up from TWD15bn in 2026E. We keep our 2026-28E EPS broadly unchanged.

What we recommend: We reaffirm our Buy (1) call and 12M TP of TWD4,815, still based on a target PER of 30x vs. its past-3-year PER range of 5-25x [average PER of 15x]) applied to our 1-year-forward EPS. Downside risks: slower-than-expected progress in high-gross-margin orders, slow AI server adoption, and strong competition.

How we differ: Our 2028E EPS is 8% above consensus, likely on our more aggressive gross- and operating margins.

Company profile

AVC is a global leading comprehensive thermal solutions provider in segments related to desktops, laptops, communication, servers, energy and autos. Its main product line includes thermal products (thermal modules and fans), chassis, system assembly and peripheral products and hinges. The company has been listed on Taiwan's main board since September 2002.

ESG analysis

ESG risks

Risks		Management	Analyst comments
G	Executive/board quality	2	The CEO and Chairperson of AVC are the same individual, but we see no issue with its board quality. Besides, we see the Chairperson has 24 years of experience in this industry, which is a positive sign from an executive perspective.
	Capital management	2	AVC's dividend payout ratio was 40-52% over 2020-25, likely due to its capacity expansion plans.
	Related party & transaction	2	Revenue generated from related-party transactions was 1-3% of total revenue during 2021-25, and we found no suspicious activity.
E	Supply chain management	1	AVC has introduced Hazardous Substance Process Management (HSPM) and received QC080000 certification. In addition, AVC set up a Green Product team to promote HSPM and formulate environmental regulation to make sure its material sourcing and efficiency are well-performed.
E	Data security	1	To prevent the interruption of information systems and leakage of sensitive information causing losses to the company and customers, AVC has introduced an information security management system and passed the ISO 27001 information security management system certification in 2019.

Note: Management score represents a company's ability to manage/benefit from certain ESG topics. The scores range from 1 to 3, with 1 being the strongest.

Bahrain

This research material is distributed in Bahrain by Daiwa Capital Markets Europe Limited, Bahrain Branch, regulated by The Central Bank of Bahrain and holds Investment Business Firm – Category 2 license and having its official place of business at the Bahrain World Trade Centre, South Tower, 7th floor, P.O. Box 30069, Manama, Kingdom of Bahrain. Tel No. +973 17534452 Fax No. +973 535113

United States

This research is distributed into the United States directly by Daiwa Capital Markets Hong Kong Limited (DCMHK) and in certain cases indirectly by Daiwa Capital Markets America Inc. (DCMA), a U.S. Securities and Exchange Commission registered broker-dealer and FINRA member firm, exclusively to "major U.S. institutional investors", as defined under Rule 15a-6 promulgated under the U.S. Securities Exchange Act of 1934, as amended, and as interpreted by the staff of the U.S. Securities and Exchange Commission (SEC). Where this is co-branded research published by Daiwa's partners in collaboration with other parties not affiliated with Daiwa, this research is distributed in the United States by DCMHK only. This report is not an offer to sell or the solicitation of any offer to buy securities. U.S. customers wishing to effect transactions in any designated investment discussed in this report should do so through a qualified salesperson of DCMA. Non-U.S. customers wishing to effect transactions in any designated investment discussed in this report should contact a Daiwa entity in their local jurisdiction. The securities or other investment products discussed in this report may not be eligible for sale in some jurisdictions.

Analysts employed outside the U.S., as specifically indicated elsewhere in this report, are not registered as research analysts with FINRA. These analysts may not be associated persons of DCMA, and therefore may not be subject to FINRA Rule 2241 restrictions on communications with a subject company, public appearances and trading securities held by a research analyst account.

The views about any and all of the subject securities and issuers expressed in this Research Report accurately reflect the personal views of the research analyst(s) primarily responsible for this report (or the views of the firm producing the report if no individual analyst is named on the report); and no part of the compensation of such analyst (or no part of the compensation of the firm if no individual analyst is named on the report) was, is, or will be directly or indirectly related to the specific recommendations or views contained in this Research Report.

The following explains the rating system in the report as compared to relevant local indices, unless otherwise stated, based on the beliefs of the author of the report.

"1": the security could outperform the local index by more than 15% over the next 12 months.
"2": the security is expected to outperform the local index by 5-15% over the next 12 months.
"3": the security is expected to perform within 5% of the local index (better or worse) over the next 12 months.
"4": the security is expected to underperform the local index by 5-15% over the next 12 months.
"5": the security could underperform the local index by more than 15% over the next 12 months.

Japan - Notification items pursuant to Article 37 of the Financial Instruments and Exchange Law

(This Notification is only applicable to where report is distributed by Daiwa Securities Co. Ltd.)

If you decide to enter into a business arrangement with our company based on the information described in this report, we ask you to pay close attention to the following items.

- In addition to the purchase price of a financial instrument, our company will collect a trading commission* for each transaction as agreed beforehand with you. Since commissions may be included in the purchase price or may not be charged for certain transactions, we recommend that you confirm the commission for each transaction. In some cases, our company also may charge a maximum of ¥2 million per year as a standing proxy fee for our deposit of your securities, if you are a non-resident.
- For derivative and margin transactions etc., our company may require collateral or margin requirements in accordance with an agreement made beforehand with you. Ordinarily in such cases, the amount of the transaction will be in excess of the required collateral or margin requirements**.
- There is a risk that you will incur losses on your transactions due to changes in the market price of financial instruments based on fluctuations in interest rates, exchange rates, stock prices, real estate prices, commodity prices, and others. In addition, depending on the content of the transaction, the loss could exceed the amount of the collateral or margin requirements.
- There may be a difference between bid price etc. and ask price etc. of OTC derivatives handled by our company.
- Before engaging in any trading, please thoroughly confirm accounting and tax treatments regarding your trading in financial instruments with such experts as certified public accountants.

* The amount of the trading commission cannot be stated here in advance because it will be determined between our company and you based on current market conditions and the content of each transaction etc.

** The ratio of margin requirements etc. to the amount of the transaction cannot be stated here in advance because it will be determined between our company and you based on current market conditions and the content of each transaction etc.

When making an actual transaction, please be sure to carefully read the materials presented to you prior to the execution of agreement, and to take responsibility for your own decisions regarding the signing of the agreement with our company.

3Q26 review: results largely in line with our estimates

- GM expands with spec upgrade and favourable pricing environment
- New client and new products likely to be key growth drivers in 2027
- Maintaining Buy (1) rating; trimming 12M TP to TWD1,600

What's new: We review GCE's 3Q26 results, released on 10 November.

What's the impact: 3Q26 beat Bloomberg consensus. GCE's 3Q26 earnings came in at TWD6.39bn (EPS: TWD12.4), in line with our estimate and 3% higher vs. the street's. While revenue was 7% lower than our expectation due to flooding in Thailand and product transition, gross margin expanded by 4pp QoQ to 38.7% mainly due to easing raw-material cost inflation and its own price increases. However, net income was impacted by higher non-op loss of TWD238m (likely due to FX loss) though offset by a lower effective tax rate of 25% as Thailand plant turned more profitable.

Business outlook. Looking ahead, GCE now guides for revenue to be flattish QoQ in 4Q26. We suspect that AMZN's ASIC AI server gradually shifting its model from air-cooled (2 chipsets per mainboard) to liquid-cooled (4 chipsets) and the year-end inventory-taking are the key reasons. However, we expect the stagnant revenue momentum to be short-lived and growth momentum to resume with new projects (including Google's TPU and MSFT's Maia) contributing from 1H27.

In 2H27, we expect new capacity ramps at its 2nd plant in Thailand and 2nd plant in Suzhou (acquisition of Pegatron's land; across the 1st plant in Suzhou) to be growth drivers, which could further increase its allocation in major ASIC AI server projects. As for concerns over the thicker-HDI board (a combination of sequential lamination HLC and HDI together) that we highlighted in in our previous note (2Q26 results review: profitability missed slightly), we believe GCE has already overcome the difficulties for 3-lamination HDI and can now successfully produce AMZN's requirement on its Trn4 AI server heavy HDI board. However, GCE might still need to achieve the requirement for Google's TPU v9 which requires c.5-6 lamination techniques. We believe the capacity expansion in 2027 would not be enough to catch up with AI demand growth in 2027. As such, we believe it will further drive price hikes in CCL raw-material, CCL, and PCB, and see gross margin (GM) expansion over our forecast horizon. We raise our GM forecasts to 40.5%/41.3% (prior: 38.0/40.2%) for 2027-28E.

What we recommend: We raise our 2027-28E EPS by 1-10% to reflect its 3Q26 results and higher GM on current supply-demand dynamics. We reaffirm our Buy (1) call but trim our 12M TP to TWD1,600 with a lower PER target of 21x (prior: 26x; vs. past-3-year range of 7-28x), on our 4-quarter-forward diluted EPS, to reflect weaker market sentiment and on-going concerns over HDI. Key risk: worse-than-expected AI server demand.

How we differ: Our 2027-28E earnings are 4-5% higher than consensus, likely due to our higher profitability assumptions.

Company profile

Founded in 1981 and listed on the Taiwan Stock Exchange in 1998, Gold Circuit Electronics (GCE) was, in its early years, one of the world's top-3 printed circuit board (PCB) vendors providing double-sided and multi-layer PCBs for notebooks. However, as the notebook market became saturated from 2011, GCE started reshuffling its revenue mix to more high-end products (servers, workstations and networking boards). The requirement of higher-layer PCBs from these products has not only proved GCE's manufacturing capabilities but also created a high entry barrier. GCE's revenue contribution from the server and networking segments has surged to over 80% in 2024 (from 37% in 2010), the highest among its PCB peers.

ESG analysis

ESG risks

Risks		Management	Analyst comments
G	Executive/board quality	2	GCE's Board consists of 9 directors, including 3 independent directors. The number of independent directors is above Taiwan securities law's requirement of more than two and exceeds one-fifth of the total number of directors on the board. The backgrounds of the independent directors are diverse with expertise in the areas of business management, finance & audit, and law, which should be positive for executive and board quality. That said, the roles of CEO and chairman are held by one person, who is a second-generation family member of GCE's founder. The organisation structure appears to us to be a family business, which could lead to conflicts of interest between key executives and outside shareholders.
	Capital management	2	GCE declared a DPS of TWD10.0 in 2025, another record high. GCE has declared cash dividends for six consecutive years from 2020 to 2025, following a period of intermittent payouts mainly due to fierce competition in the PCB industry (especially in notebook applications) and high earnings volatility from its 3 plants in China caused by historically low utilisation rates. We believe the company's strategy to focus on high-end products (eg, servers and networking) has started bearing fruit, which was also the main reason GCE was able to declare a record-high cash dividend in 2025. Overall, we expect GCE to continue to benefit from ASP and gross-margin expansion, driven by server and networking spec upgrades, which should be value-accretive for investors in the long term.
	Related party & transaction	1	Sales to related parties were 0% of total 2025 sales and purchases from related parties were also 0% of total 2025 purchases. We see limited risk from related-party transactions.
S	Supply chain management	1	GCE is a multi-layer PCB manufacturer with major raw materials, such as thin core, copper foil, pre-preg, copper ball, dry film, solder mask and various chemical materials used in the manufacturing process. GCE has acquired the ISO 9001 and IECQ QC 080000 certifications to improve its supply chain management capabilities in product quality and hazardous material usage. Like most hardware vendors, GCE is also committed to refusing procurement of conflict minerals and complying with the Responsible Business Alliance (RBA) Code of Conduct. According to its 2025 annual report, over 99% of its top 40 suppliers returned their RBA commitment letters. As part of its RBA compliance efforts, GCE holds an annual supply chain meeting to review the achievement rate of its previous targets and set new goals for suppliers. In 2025, GCE audited 154 suppliers, including 114 on-site audits and 40 document reviews, achieving a 100% completion rate against its audit targets. The company also evaluates new suppliers based on ISO 9001, ISO 14001 and IATF 16949 certification requirements and conducts annual supplier assessments.
S	Data security	2	Information security is one of the key topics under the company's risk management guidelines. GCE constructed an information security system, under the "information security committee", to minimise the risk of information loss, sabotage, and leakage caused by human errors, malicious destructions or natural disasters. Below are several measures the company has taken to improve data security: GCE will conduct regular awareness training to ensure employees' security awareness and fulfilment of information security system requirements. Also, the information security committee will develop an information security continuity plan and conduct drills to ensure continuous operation of the company.

Note: Management score represents a company's ability to manage/benefit from certain ESG topics. The scores range from 1 to 3, with 1 being the strongest.

Additional information may be available upon request.

Japan - Notification items pursuant to Article 37 of the Financial Instruments and Exchange Law

(This Notification is only applicable to where report is distributed by Daiwa Securities Co. Ltd.)

If you decide to enter into a business arrangement with our company based on the information described in this report, we ask you to pay close attention to the following items.

- In addition to the purchase price of a financial instrument, our company will collect a trading commission* for each transaction as agreed beforehand with you. Since commissions may be included in the purchase price or may not be charged for certain transactions, we recommend that you confirm the commission for each transaction. In some cases, our company also may charge a maximum of ¥2 million per year as a standing proxy fee for our deposit of your securities, if you are a non-resident.
- For derivative and margin transactions etc., our company may require collateral or margin requirements in accordance with an agreement made beforehand with you. Ordinarily in such cases, the amount of the transaction will be in excess of the required collateral or margin requirements**.
- There is a risk that you will incur losses on your transactions due to changes in the market price of financial instruments based on fluctuations in interest rates, exchange rates, stock prices, real estate prices, commodity prices, and others. In addition, depending on the content of the transaction, the loss could exceed the amount of the collateral or margin requirements.
- There may be a difference between bid price etc. and ask price etc. of OTC derivatives handled by our company.
- Before engaging in any trading, please thoroughly confirm accounting and tax treatments regarding your trading in financial instruments with such experts as certified public accountants.

* The amount of the trading commission cannot be stated here in advance because it will be determined between our company and you based on current market conditions and the content of each transaction etc.

** The ratio of margin requirements etc. to the amount of the transaction cannot be stated here in advance because it will be determined between our company and you based on current market conditions and the content of each transaction etc.

When making an actual transaction, please be sure to carefully read the materials presented to you prior to the execution of agreement, and to take responsibility for your own decisions regarding the signing of the agreement with our company.

Mike Liu
(886) 2 8758 6252
mike.liu@daiwacm-cathay.com.tw

Investment case: We initiate coverage of Hon Precision, the global leader in test handlers and active thermal control (ATC) systems, with a Buy (1) rating. According to management, the company commands >70% market share in AI/HPC final test (FT) and c.50% in system-level test (SLT) by revenue, distinctly positioning it as one of the key global beneficiaries of the rising silicon complexity.

Multi-layer content stacking supports ASP and margin growth. As test durations continue to lengthen and thermal requirements rise, customers are required to deploy greater parallel testing capacity and higher-specification handlers, creating a structural demand tailwind for both FT and SLT handler. We forecast rising AI chip power consumption and package complexity over our forecast horizon to drive adoption of higher-value ATC systems, mega-tray handlers (adding 25-30% to ASP relative to standard dual-temp ATC systems), and AOI integration (adding a further 10-15% to system ASP), supporting a multi-year increase in content per tool and expanding its gross margin from 56.8% to 59.2% over 2026-28E.

Recurring consumables and CPO testing expand long-term growth visibility. Cold plates generate high-margin, annuity-like revenue with every new chip platform which should benefit from shortening AI processor refresh cycles. Beyond consumables, Hon Precision is extending its testing platform into co-packaged optics (CPO), where optical-electrical co-testing could unlock a new addressable market beyond traditional GPU and ASIC testing. While near-term contribution remains limited, we view CPO as a strategic growth option that enhances the company's long-term earnings visibility and valuation premium over our forecast horizon.

Catalysts: 1) capacity expansion ramp in 2027; 2) mega-tray penetration and higher-power ATC adoption; 3) initial CPO test solution qualification.

Valuation: We initiate with a Buy (1) rating and 12M TP of TWD6,365, based on a target PER of 30x applied on our 2027E EPS. The stock currently trades at c.19x forward PER, despite our projected 2026-28E EPS CAGR of 55%, implying a PEG of only 0.35x. We believe its current valuation heavily discounts macro noise with share price pulling back by c.53% from its historical high and derating from a cycle-peak multiple of 45-50x 1-year-forward PER. Backed by solid order visibility through late-2027, we highlight Hon Precision's risk-reward profile as decisively asymmetric.

Risks: 1) Slower-than-expected AI/HPC investment; 2) delayed ramp-up of new products; and 3) potential loss of market share.

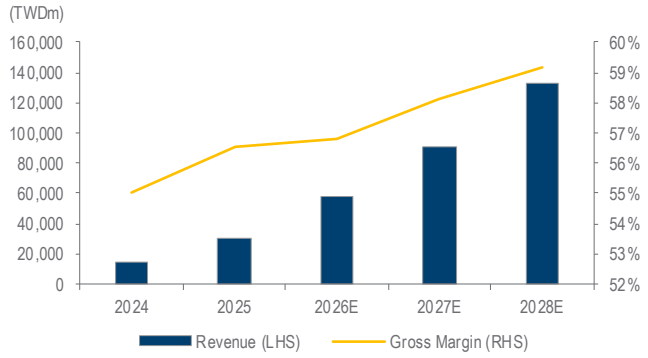
How do we justify our view?

Growth outlook	Valuation	Earnings revisions
✔ ✔ ✔ ✔ ✔	✔ ✔ ✔ ✔	✔ ✔ ✔ ✔

Growth outlook

We expect Hon Precision's growth momentum over 2026-28E to be driven by increasing testing content per chip, supported by rising power consumption in AI/HPC chips, larger package sizes, and growing system complexity. We expect the transition towards high-end ATC handlers, mega-tray solutions, and integrated AOI functions to drive meaningful ASP expansion over our forecast horizon, with recurring cold plate demand providing an additional gross-margin growth driver.

Hon Precision: revenue and gross margin outlook

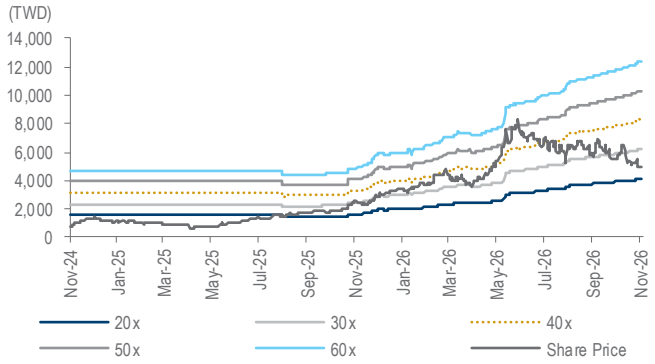


Source: Company, Daiwa research

Valuation

Our 12-month TP of TWD6,365 is based on a target PER of 30x applied to our 2027E EPS forecast. Following the strong share-price rally in 1H26, investor focus shifted away from Hon Precision due to limited near-term catalysts ahead of the 2H27 ramp-up of mega-tray handlers, CPO testing solutions and new capacity. We believe the recent 53% pullback from its historical high on 29 May 2026 and derating from 45-50x 1-year-forward PER to c.19x more than prices in the macro uncertainties. At the current levels, the stock offers an attractive risk-reward profile, trading at a PEG of just 0.35x based on our 2026-28E EPS CAGR of 55%.

Hon Precision: 1-year-forward PER bands



Source: Bloomberg

Earnings revisions

The Bloomberg consensus raised its 2026E and 2027E EPS estimates by 68% and 122%, respectively, over the past year, driven by stronger-than-expected AI-related demand and improving visibility on the company's long-term growth trajectory. We believe the upward revisions reflect rising confidence in volume and ASP expansion across the company's key testing solutions, supported by accelerating AI infrastructure investments and expanding customer adoption.

Company profile

Founded in 1999, Hon Precision is the global leader in semiconductor test handlers and active thermal control (ATC) systems. The company dominates the global AI/HPC final test handler market, supported by its advanced thermal management technologies. With over 70% market share in AI/HPC test handling, Hon Precision benefits from growing demand for AI, HPC and custom ASIC applications. Its solutions are widely adopted by leading OSATs and foundries worldwide, making it a key enabler of advanced semiconductor testing.

Growth Catalysts

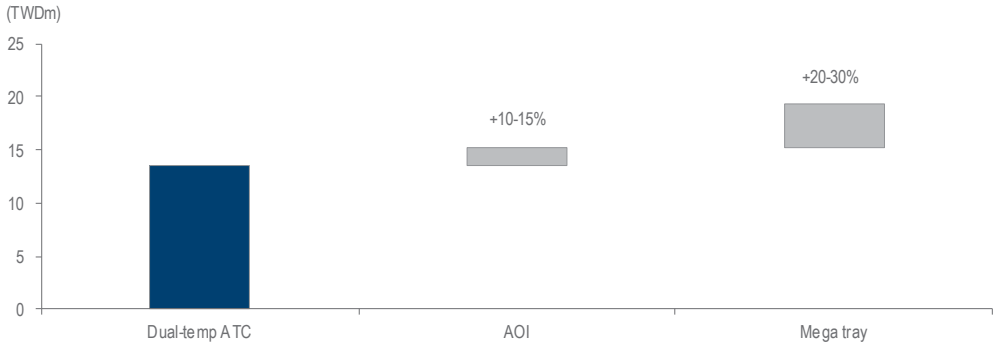
Multi-factor dollar content stacking

Content upgrades across ATC, mega-tray, and AOI to drive a multi-year ASP expansion cycle, in our view

We believe the primary growth catalyst for Hon Precision over our forecast horizon stems from multi-layered dollar content stacking, where the rise in machine unit value should outpace volume growth. Next-gen AI accelerators have historically exhibited more than 50-70% increase in thermal design power (TDP) per generation, with platforms like Nvidia Rubin and Rubin Ultra surging to 2.3kW and 3.6kW vs. Blackwell's 1.2kW to 1.4kW. Managing these extreme thermal loads makes high-end active thermal control (ATC) a necessity, driving a structural step-up in ASPs from standard handlers at approximately TWD6m to dual-temperature ATC systems at TWD12-15m, and tri-temperature ATC systems at TWD15-18m.

Concurrently, as the package size of next-generation ASICs/GPUs increases from the current 120mm tray specification to around 150mm, Hon Precision is introducing mega-tray large-package solutions in October 2026, which command a 25-30% ASP premium over mainstream GPU handlers. As the majority of next-generation ASIC/GPU is set to exceed the boundary of 120mm, we estimate shipment penetration for mega-tray solutions will likely reach 40% in 2027E. Integrated functions of Automated Optical Inspection (AOI) will contribute an additional 10-15% ASP uplift to unit value of handler. Furthermore, this content expansion extends into the flagship mobile AP market as smartphone processors transition to multi-die packaging. For example, Apple's A20 Pro processor has already adopted wafer-level multi-chip module (WMCM) packaging in 2026, requiring high-end ATC systems capable of managing up to 3,000W thermal dissipation to resolve device self-heating.

Hon Precision: ASP multipliers



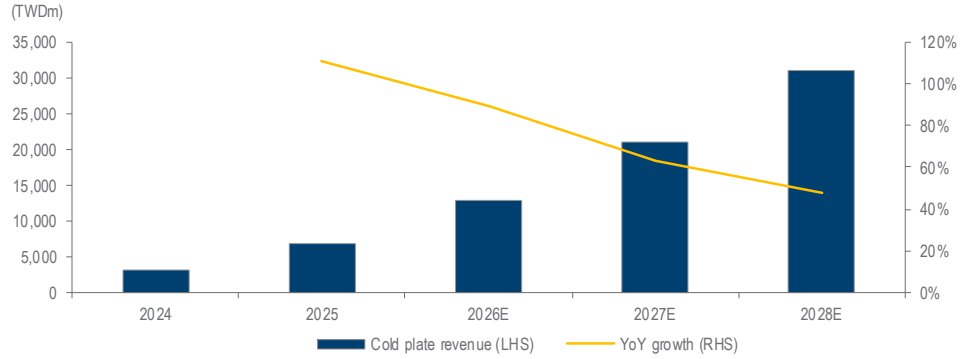
Source: Daiwa research

High-margin cold plate consumables

Cold plate consumables offer a recurring, high-margin growth engine alongside system sales

In addition to capital equipment set sales, Hon Precision's cold plate consumables business serves as a crucial recurring revenue engine and a primary driver of gross margin expansion. Cold plates carry the highest gross margin across all company product lines. Driven by the compression of AI processor lifecycles to 1-1.5 years (down from 2-3 years historically), each test handler requires 5-10 distinct, custom-engineered cold plates tailored to specific die footprints, socket layouts, and thermal hot-spot geometries. To conduct parallel test and maintain the throughput of chip testing, test handler for system level test (SLT) requires even more cold plates, which can go up to 24 plates. As a result, cold plate tooling generates high-frequency annuity-like sales that recur with every new chip platform iteration, independent of major equipment replacements.

Hon Precision: cold plate revenue trend



Source: Company, Daiwa research

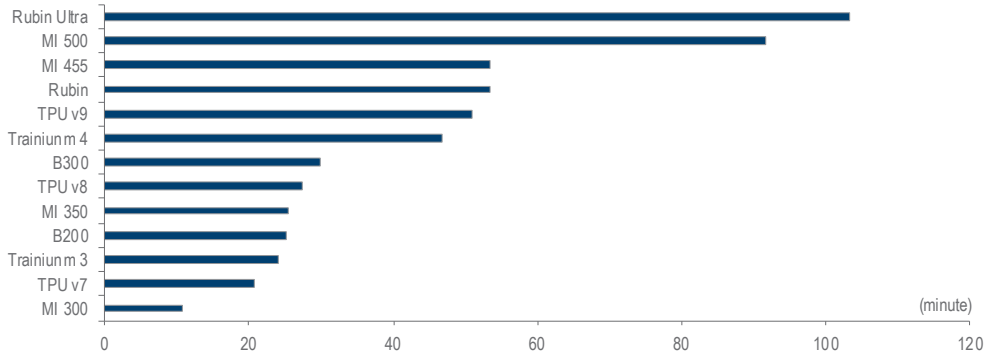
Testing duration and volume multiples

Rising test complexity to drive a multi-year expansion cycle for test handler demand, in our view

We believe the rapid rise in AI chip complexity is driving structural growth in semiconductor testing intensity, positioning Hon Precision as a key global beneficiary through its leadership in high-parallelism test handlers. Driven by the mainstream adoption of heterogeneous integration (such as TSMC's CoWoS and Intel's EMIB), verifying complex AI silicon has extended test durations by 2x to 10x vs. standard consumer chips (5 to 10 seconds). Final test durations for AI GPUs have expanded from hundreds of seconds to over 10 minutes per chip. To maintain daily manufacturing throughput despite this 10x spike, chipmakers must scale up massive parallel testing architectures and procure significantly more handlers, cementing Hon Precision as the primary test handler partner for tier-one US AI GPU and CPU players.

Concurrently, escalating chip complexity, TDP, and die costs make field return (RMA) penalties far exceed testing expenses, forcing cloud service providers (CSPs) and automotive OEMs to mandate system-level testing (SLT). Because SLT executes over extended durations ranging from minutes to hours per chip, high-volume production mandates automated parallel SLT handlers equipped with high-capacity ATC. Holding c.50% market share in AI/HPC SLT handlers alongside Chroma, Hon Precision is expanding beyond GPUs into custom CSP ASICs (eg, Google TPU and AWS) and server CPUs. As SLT adoption broadens across non-GPU devices, Hon Precision leverages this multi-year runway to transition into a full-spectrum semiconductor testing platform.

Global: growing chip complexity – testing time by AI/HPC chip



Source: Daiwa research

CPO unlocks new TAM beyond GPUs

Beyond conventional electrical testing, Co-Packaged Optics (CPO) represents a multi-year paradigm shift towards a multimodal optical-electrical testing platform. Hon Precision currently monetises initial CPO deployments by supplying Final Test (FT) handlers for pure electrical testing (E/E test) of switch ASICs and Optical Engines (OEs) on production platforms such as Nvidia's Spectrum-X and Quantum-X.

CPO optical-electrical co-testing offers a new long-term growth opportunity for Hon Precision

However, the strategic growth catalyst is anchored in next-generation Insertion 4 (package-level optical and electrical co-testing, O/E co-test). Because an undetected defect in a single optical component would force manufacturers to scrap an entire high-value CPO module, early and rigorous package-level validation is imperative for yield protection. Collaborating directly with ATE leader Teradyne and optical instrument specialists (such as Keysight), Hon Precision is developing a specialised ATC handler capable of simultaneous optical and electrical validation, including Bit Error Rate (BER), optical loopback, crosstalk, and high-power thermal management testing for integrated ASIC and Optical Engine modules in a single touchdown.

Engaged with Nvidia CPO switch programmes and actively expanding to additional ASIC clients, Hon Precision targets engineering verification in late-2026 and initial shipments in 2027, ahead of 2028 volume production. Although we expect revenue contribution will likely be relatively low (<5% in 2027-2028), it drives valuation and market expectation to serve larger total addressable market (TAM).

Market Analysis

Global testing equipment market

Global package handling equipment market set to expand at a 40.9% CAGR over 2024-27E

According to TechInsights, global testing equipment capex is projected to expand significantly from USD8.3bn in 2024 to USD26.1bn by 2027E, representing a 46.4% CAGR. Notably, while SoC test systems front-loaded strong growth in 2024-25, before tapering to 9.6% YoY in 2027E on TechInsights estimates, package handling equipment is forecasted to exhibit strong structural resilience and longevity. Based on TechInsights, market capex for package handling equipment will likely more than double from USD941m in 2024 to USD2.6bn by 2027E (40.9% CAGR), re-accelerating to 46% YoY growth in 2027E from 34% YoY in 2025. This cadence reflects the phased deployment of test infrastructure – initial tester investments are followed by high-volume back-end handling installations as advanced packaging (eg, CoWoS, Chiplets) scales into mass production.

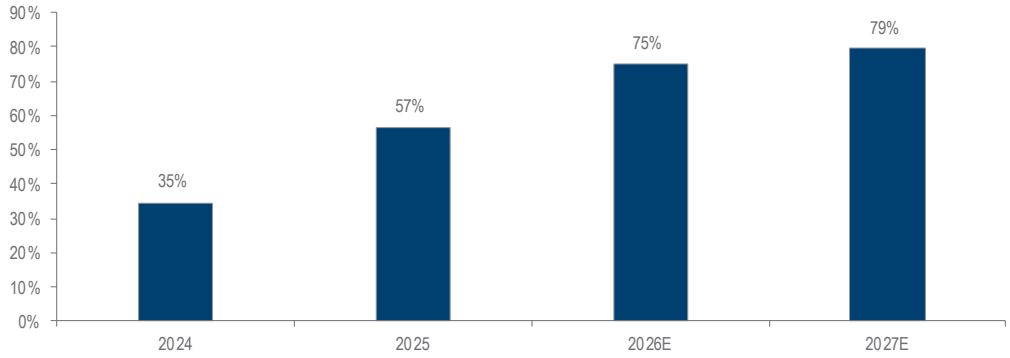
Handler market players

AI testing leadership, differentiated ATC capabilities, and growing SLT adoption support sustained market share expansion over 2026-28E

Hon Precision's overall share in the global test handler TAM rose from 35% in 2024 to 57% in 2025, and we forecast this to reach 75% in 2026E and 79% by 2027E. Within the high-value AI and HPC Final Test (FT) handler segment, Hon Precision maintains a dominant market share, exceeding 70% in both sales value and shipment volume, per management. In the rapidly expanding AI and HPC SLT handler segment, Hon Precision holds c.50% market share in terms of revenue, per management, alongside its primary peer, Chroma, establishing a duopoly in global high-end SLT testing.

Hon Precision: handler market share forecasts



Source: Daiwa research

Outside of AI and HPC logic testing, the broader test handler landscape comprises global and regional vendors, including Cohu (COHU US, NR), Advantest (6857 JP, JPY28,375, Outperform [2]; covered by Daiwa analyst Takeshi Fukuyama), and mainland Chinese suppliers such as Changchuan Technology (300604 CH, NR) and JHT Design (603061 CH, NR).

While global incumbents rely on brand prestige, standard architectures, and bundled offerings, Hon Precision excels in leading-edge AI/HPC testing through its ultra-high-power Active Thermal Control (ATC) and rapid engineering turnaround. As multi-kilowatt dynamic loads (1.5kW–3kW+) and extreme warpage on >120mm packages push standard handlers beyond their limits, Hon Precision's hyper-customised ATC fluidics, high-force micro-mechanics, and modular designs deliver superior millisecond thermal clamping and agile package adaptation. Furthermore, while giants like Advantest dominate the SoC ATE tester market (>55% share), their in-house handlers focus primarily on memory and standard logic. Consequently, tier-one chipmakers and OSATs standardly decouple tester and handler sourcing, thus pairing Advantest or Teradyne testers with Hon Precision's high-power ATC handlers. Located directly within Taiwan's advanced packaging cluster, Hon Precision provides real-time, on-site co-validation and custom cold-plate engineering that preserve formidable entry barriers against bundled solutions.

Advanced thermal control and customisation underpin competitive differentiation

Meanwhile, although Chinese competitors have expanded aggressively in domestic mature nodes and conventional Pick-and-Place handlers, Hon Precision commands a decisive generational lead in high-complexity advanced packaging applications. Chinese vendors remain largely confined to lower-wattage consumer, automotive, and industrial IC testing, lacking the proven patents, structural rigidity, and micro-level force balancing required to safely apply hundreds of kilograms of contact force onto fragile, multi-chip CoWoS packages without cracking dies or warping substrates. Moreover, because enterprise AI chips cost tens of thousands of dollars each, tier-1 global fabless leaders and North American cloud service providers (CSPs) maintain virtually zero tolerance for testing failure, establishing an entrenched validation moat for Hon Precision. Free from geopolitical export constraints, Hon Precision can seamlessly deploy across global OSAT networks in Taiwan, North America, and Southeast Asia.

Hon Precision: peers comparison

Company	Ticker	Market cap (USD bn)	Revenue mix (2025)	Handler: FT / SLT	Application focus
Hon Precision	7769 TT	22.1	ATC handlers 70-75%; cold plates 20-25 %; others 2-3%	FT 60-70%; SLT 20-30%	AI GPUs, AI ASICs, server CPUs
Chroma	2360 TT	16.2	Test instruments & ATS 48%; semiconductor/photonics test solutions 44%; turnkey 2%; others 6%	Mainly SLT	Semiconductor/IC testing; power and photonics testing
Changchuan	300604 CH	17.3	Testers 60.3%; handlers 29.6%; others 9.8%	Primarily a tester supplier	Logic/SoC, analog/mixed-signal, power/discrete
Accotest	688200 CH	6.7	Test systems 88.2%; system accessories 11.3%; others 0.5%	Primarily a tester supplier	Analog, mixed-signal and power semiconductors; expanding into SoC testing
JHT	603061 CH	3.0	Handlers 90.9%; spare parts 9.1%	Mainly FT	Automotive, consumer, connectivity/5G

Financial Analysis

AI demand to sustain strong revenue growth

Strong AI demand, capacity expansion, and ASP upgrades should sustain revenue growth over 2026-28E

In 2025, Hon Precision's top line exceeded TWD30bn (+116% YoY), driven by global AI cluster rollouts. We forecast Hon Precision to sustain its top-line growth momentum over 2026-28E. We expect this to be mainly driven by core test handler and ATC systems (70-75% of revenue), where we forecast capacity to expand 40% YoY in 2026E, and 50% YoY over 2027-28E with utilisation rate remaining above 90%. We forecast blended ASP of test handler ASP to rise from TWD14.2m in 2025 to TWD16.3m by 2028E, mainly driven by increased adoption rate of mega tray (+20-25% ASP) and AOI (+10-15%) system. High-margin cold plate consumables revenue should also benefit from test handler shipment, which we forecast to increase at a 66.1% CAGR over 2025-28E.

Margin architecture and operating leverage

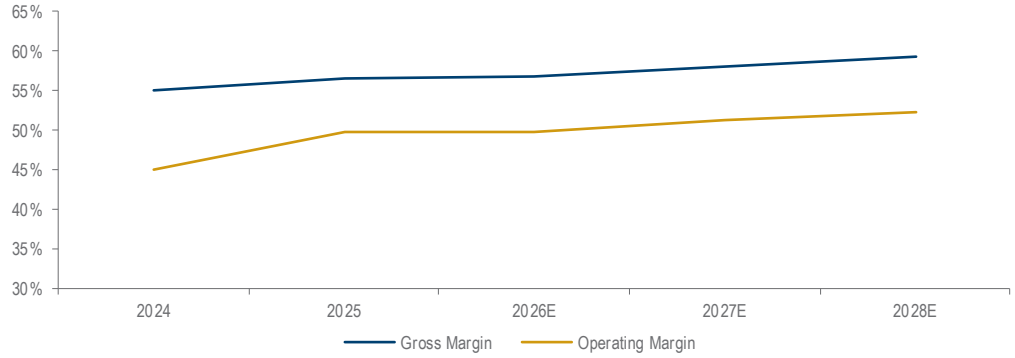
We forecast Hon Precision's gross margin to continue its upward momentum, expanding from 56.8% in 2026E to 58.1% in 2027E and 59.2% in 2028E. The new series of test handlers with more functions such as large package size, AOI, 12/25KW thermal

management, etc., will naturally drive the gross margin increase. Although proprietary cold plates command the highest gross margin across the product matrix, we expect Hon Precision to maintain revenue mix at a 22-23% level.

Product mix upgrades and operating leverage should drive continued margin expansion through 2028

With sustainable operational discipline, management believes its opex ratio over 2026-28E will remain around 5-8%. Although R&D expenditure continues to compound at over 60% annually, funding CPO Insertion 4 optical-electrical co-testing, 12/25kW thermal management, and micro-channel cold plate/lid architectures, significant top-line growth yields powerful operating leverage. We forecast operating margin to scale from 49.7% in 2026E to c.51-52% in 2027-28E, respectively.

Hon Precision: gross margin and operating margin



Source: Company, Daiwa forecasts

Balance sheet and cash flow

Strong cash generation supports capacity expansion, while we forecast dividend payout ratio to remain at around 70% over 2026-28E

Driven by surging AI/HPC testing demand, Hon Precision is actively expanding its capacity across the new Desheng facility, localised production at the Changshu site, and debottlenecking of headquarter efficiency. The company targets 40-50% capacity growth in 2026 and another 50% increase in 2027. The expansion of manufacturing space and production facilities requires an increase in capital expenditure, which we project Hon Precision will ramp up to approximately TWD2.8bn in 2026E, TWD3.8bn in 2027E, and TWD4.6bn in 2028E. The company's operating cash inflows are more than sufficient to fully fund factory expansions alongside a c.70% dividend payout ratio.

Hon Precision continues to maintain an un-levered balance sheet with zero financial bank debt. Cash and cash equivalents exceeded TWD53bn in 2025; we project this figure to surpass TWD75bn by 2028E. Its robust balance sheet underpins peer-leading shareholder returns, with ROE to expand from 34.5% in 2025 to 59.6% by 2028E. This self-funding cash engine supports management's targeted c.70% dividend payout ratio.

Valuation and recommendation

Initiating coverage with a Buy (1) rating

We initiate coverage with a Buy (1) rating, supported by compelling valuation and strong earnings growth visibility

We believe the recent share price correction offers an attractive entry point

We initiate coverage of Hon Precision with a Buy (1) rating and 12-month TP of TWD6,365, based on a target PER of 30x applied to our 2027E EPS forecast. When the stock rallied above TWD8,000 in 1H26, its forward PER multiple stretched to a cycle peak of 45-50x. However, we expect key growth catalysts, including a 50% aggregate capacity expansion, alongside higher-ASP shipments of large-form-factor mega tray handlers and co-packaged optics (CPO) test solutions, to drive its top line, primarily in 2H27. With existing production lines operating at full utilisation, investors are concerned over a potential temporary deceleration in growth momentum through 2H26-1H27, ahead of the next potential major capacity inflection in 2H27.

However, as the calendar rolls into 2027, we believe market attention will swiftly refocus on the company's multi-year structural thesis. Easing capacity bottlenecks, combined with robust ASIC-driven adoption of mega tray architectures and ramping CPO test platforms, should spark a powerful volume-and-ASP expansion cycle. The stock is currently trading at a 19x 1-year-forward PER vs. its earnings CAGR of 55% over 2026-28E, translating into a 0.35x PEG ratio. We believe the valuation now heavily discounts the near-term pause in revenue and macro noises, presenting a compelling risk-reward profile for long-term investors.

Risks to our call

1. **Slower-than-expected AI/HPC investment:** A slowdown in AI infrastructure spending or delays in GPU, ASIC and server CPU ramps could reduce demand for high-end FT/SLT handlers and thermal-control solutions, weakening order growth and revenue visibility.
2. **Slower-than-expected new product adoption**: Customer qualification delays or slower adoption of mega-tray handlers, AOI inspection systems and CPO FT solutions could delay product ramps, resulting in revenue growth below our expectations.
3. **Potential share loss**: Competitors' advances in thermal control, customer qualification of alternative suppliers or delays in meeting new testing requirements could weaken Hon Precision's position on next-generation platforms, affecting market share and pricing power.

Appendix

Company introduction

Hon Precision has emerged as a globally leading provider of test handlers, with growing exposure to AI, HPC, and advanced thermal-control applications

Hon Precision was founded in Taichung in 2015, building on the technology and industry experience of Hon Technology, which was established in 1999. The company develops semiconductor test handlers and thermal-control solutions for AI GPUs, AI ASICs, server CPUs, automotive chips and consumer electronics, supporting customers from new-product introduction (NPI) through volume production.

Hon Precision has two main product categories:

- **Semiconductor test handlers**: Final-test (FT) and system-level-test (SLT) handlers automate chip loading, positioning and sorting. These platforms can incorporate active thermal control (ATC) systems to maintain chips at specified temperatures during testing.
- **Testing fixtures and modules**: Mainly customised cold plates and socket layout kits (SLKs), which provide thermal management and mechanical interfaces for different chip packages. Customers may require replacement cold plates and kits as package designs change, even when retaining existing handlers.

Hon Precision's order mix is significantly weighted towards AI/HPC/ASIC applications, which accounted for 78% of orders in 1Q-3Q26, up from 72% in 2025. These applications include AI computing, servers and networking. Automotive represented 9% of orders, followed by mobile AP and communications at 7%, consumer electronics at 4%, and memory and MEMS at 2%.

As for capacity, Hon Precision's manufacturing footprint is primarily based in Taiwan, with Taichung serving as the group's main R&D, engineering, quality management, and equipment production hub. In addition, the company operates a Suzhou facility focused on manufacturing cold plates and related kits, while Taichung Plant 4 is expected to provide incremental production capacity to support future growth.

Shareholder structure

Hon Precision's major shareholders include several investment and development companies. As of 17 April 2026, Hung Min Development was the largest shareholder with a 17.37% stake, followed by Hongji Investment at 12.08% and Hong Yu Development at 7.80%. Chairman Wen-Ta Hsieh also directly held 1.77%. International institutional shareholders included Norges Bank and GIC, with disclosed stakes of 1.30% and 0.97%, respectively. The company has a free float of 48%, allowing broad public-market participation and supporting trading liquidity.

Hon Precision: shareholder structure (as of 17 April 2026)

Holder	Share (%)
Hung Min Development Co., Ltd.	17.37%

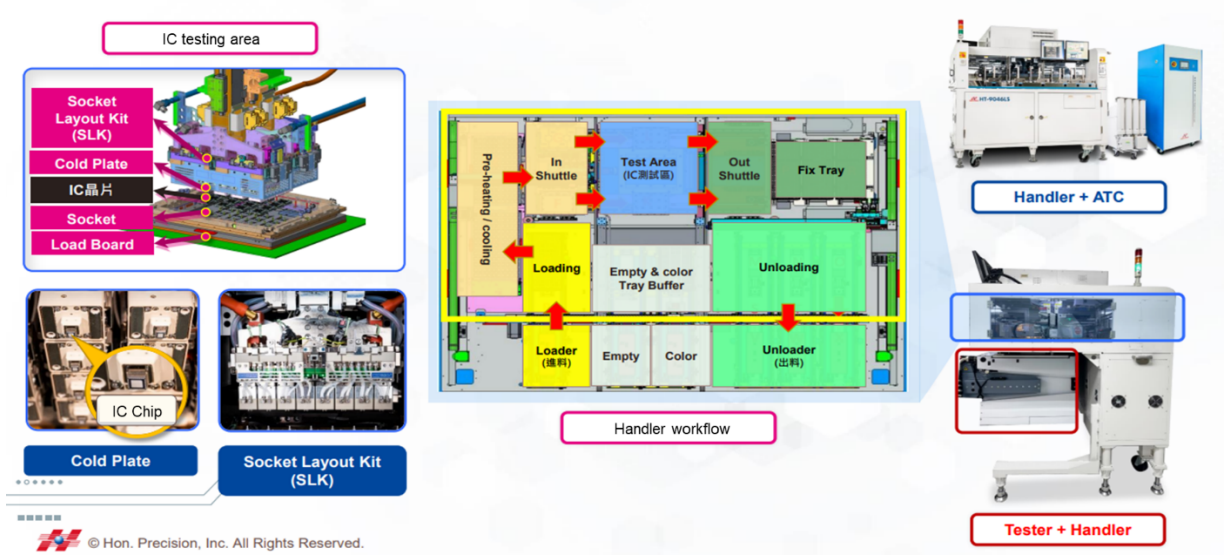
What is handler?

A semiconductor test handler automates the movement, positioning and temperature conditioning of packaged chips during testing. It places each device into a test socket, applies the required contact force and sorts the device according to the test results. The tester performs the electrical measurements, while the handler ensures consistent mechanical and thermal conditions.

The process begins with packaged chips loaded into the handler in trays. After temperature conditioning, the handler transfers each chip into a test socket connected to the tester through a load board. Once electrical contact is established, the tester applies signals and measures the chip's response. For ATC-equipped systems, a customised cold plate works with the active thermal control system to maintain the required chip temperature throughout testing. The handler then unloads and sorts the chips based on their test results.

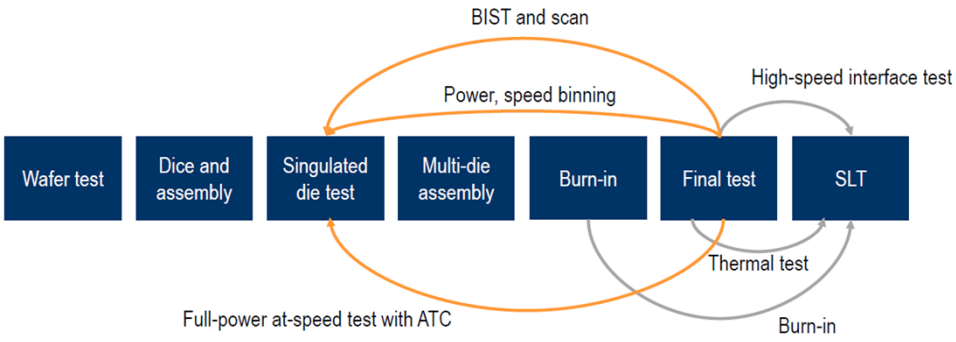
Semiconductor test handler: workflow and thermal control system



Source: Hon Precision, Daiwa research

Handlers are used in both final test (FT) and system-level test (SLT). FT handlers work with automated test equipment (ATE) to check electrical characteristics and functionality against specifications. SLT handlers place chips into test positions connected to system-level platforms, typically comprising test boards, test PCs and power supplies, to evaluate operation under conditions resembling actual use.

Semiconductor back-end testing FT workflow



Source: Semiconductor engineering

Thermal control becomes increasingly important as AI/HPC chips consume more power and adopt larger, more complex packages. Different test patterns change power consumption and heat distribution, requiring dynamic heating or cooling to keep the chip within a specified temperature range. Precise handling and temperature control support repeatable measurements, while parallel testing and efficient chip movement help improve overall test throughput.

ESG analysis

ESG risks

Risks		Management	Analyst comments
G	Executive/board quality	2	The board consists of nine directors, including three independent directors (33%) and one female director. Board oversight is supported by Audit and Compensation Committees, with directors completing 93 training hours in 2025.
	Capital management	1	The debt-to-asset ratio declined to 20.8% in 2025, reflecting a conservative balance sheet. The company continues to maintain solid profitability and financial flexibility.
	Related party & transaction	2	Related-party transactions are conducted under arm's-length principles, with conflict-of-interest disclosure and recusal mechanisms in place. No material governance concerns were disclosed.
G	Supply chain management	1	The company has established supplier qualification, audit and annual evaluation programs, incorporating RBA standards and responsible sourcing requirements into supplier management.
E	Water & wastewater management	2	Water consumption is primarily sourced from municipal supply, with wastewater treatment and recycling systems in place. No environmental violations related to water management were reported.

Note: Management score represents a company's ability to manage/benefit from certain ESG topics. The scores range from 1 to 3, with 1 being the strongest.

Bahrain

This research material is distributed in Bahrain by Daiwa Capital Markets Europe Limited, Bahrain Branch, regulated by The Central Bank of Bahrain and holds Investment Business Firm – Category 2 license and having its official place of business at the Bahrain World Trade Centre, South Tower, 7th floor, P.O. Box 30069, Manama, Kingdom of Bahrain. Tel No. +973 17534452 Fax No. +973 535113

United States

This research is distributed into the United States directly by Daiwa Capital Markets Hong Kong Limited (DCMHK) and in certain cases indirectly by Daiwa Capital Markets America Inc. (DCMA), a U.S. Securities and Exchange Commission registered broker-dealer and FINRA member firm, exclusively to "major U.S. institutional investors", as defined under Rule 15a-6 promulgated under the U.S. Securities Exchange Act of 1934, as amended, and as interpreted by the staff of the U.S. Securities and Exchange Commission (SEC). Where this is co-branded research published by Daiwa's partners in collaboration with other parties not affiliated with Daiwa, this research is distributed in the United States by DCMHK only. This report is not an offer to sell or the solicitation of any offer to buy securities. U.S. customers wishing to effect transactions in any designated investment discussed in this report should do so through a qualified salesperson of DCMA. Non-U.S. customers wishing to effect transactions in any designated investment discussed in this report should contact a Daiwa entity in their local jurisdiction. The securities or other investment products discussed in this report may not be eligible for sale in some jurisdictions.

Analysts employed outside the U.S., as specifically indicated elsewhere in this report, are not registered as research analysts with FINRA. These analysts may not be associated persons of DCMA, and therefore may not be subject to FINRA Rule 2241 restrictions on communications with a subject company, public appearances and trading securities held by a research analyst account.

Additional information may be available upon request.

Japan - Notification items pursuant to Article 37 of the Financial Instruments and Exchange Law

(This Notification is only applicable to where report is distributed by Daiwa Securities Co. Ltd.)

If you decide to enter into a business arrangement with our company based on the information described in this report, we ask you to pay close attention to the following items.

- In addition to the purchase price of a financial instrument, our company will collect a trading commission* for each transaction as agreed beforehand with you. Since commissions may be included in the purchase price or may not be charged for certain transactions, we recommend that you confirm the commission for each transaction. In some cases, our company also may charge a maximum of ¥2 million per year as a standing proxy fee for our deposit of your securities, if you are a non-resident.
- For derivative and margin transactions etc., our company may require collateral or margin requirements in accordance with an agreement made beforehand with you. Ordinarily in such cases, the amount of the transaction will be in excess of the required collateral or margin requirements**.
- There is a risk that you will incur losses on your transactions due to changes in the market price of financial instruments based on fluctuations in interest rates, exchange rates, stock prices, real estate prices, commodity prices, and others. In addition, depending on the content of the transaction, the loss could exceed the amount of the collateral or margin requirements.
- There may be a difference between bid price etc. and ask price etc. of OTC derivatives handled by our company.
- Before engaging in any trading, please thoroughly confirm accounting and tax treatments regarding your trading in financial instruments with such experts as certified public accountants.

* The amount of the trading commission cannot be stated here in advance because it will be determined between our company and you based on current market conditions and the content of each transaction etc.

** The ratio of margin requirements etc. to the amount of the transaction cannot be stated here in advance because it will be determined between our company and you based on current market conditions and the content of each transaction etc.

When making an actual transaction, please be sure to carefully read the materials presented to you prior to the execution of agreement, and to take responsibility for your own decisions regarding the signing of the agreement with our company.

Buy (unchanged)

Structural turnaround round the corner (III)

- Lowering our forecasts to reflect still suboptimal scale…
- … but expecting enriched license projects to bear fruit soon
- Reiterating our Buy (1) rating with a lower 12M TP of TWD550

Rick Hsu
(886) 2 8758 6261
rick.hsu@daiwacm-cathay.com.tw

Sam Weng
(886) 2 8758 6255
sam.weng@daiwacm-cathay.com.tw

What's new: Following on our *results Memo,* we lower our forecasts and TP for M31, as we factor in its still suboptimal scale and delayed employment bonus in 3Q26 that weigh on its trajectory of a bottom-line turnaround. That said, we remain comfortable with our Buy (1) call on the stock as we expect M31's turnaround, kicking off from 3Q26 despite at a small scale, to sustain into 2027 with meaningful incremental builds, supported by its conversion from license to royalty revenue paying off, and broadened footprint into advanced technologies for price accretion and into diversified foundry, IDM, and fabless customers for volume accretion.

What's the impact: **Forecast changes.** We lower our 2026-27E EPS for M31 by 14-43% to embed its still suboptimal scale and opex overhang in our model. Despite the cuts, its bottom-line turnaround met our expectation, and we expect the turnaround to sustain with meaningful incremental builds sequentially through 2027 to improve market confidence. We forecast its 4Q26 top line to rebound by 23% QoQ (+12% YoY) for EPS to reach TWD3.31 (TWD0.35 in 3Q26), setting a good start for M31's 2027 outlook and warranting a strong 213% EPS CAGR over 2026-28E.

Turnaround confirmed. While prolonged license project recognitions delayed M31's turnaround, depicted in *our previous Flash*, we believe its bumpy operations over the past 2 years is finally coming to an end, evidenced by management's comments of QoQ revenue growth for 4Q26 with EPS expanding to cover accumulated losses YTD. M31 has actively invested over the past years enriching its IP portfolio, accumulating more than 2,000 license projects since 2012 (chart on p.2), and setting a good foundation for converting them to royalty revenue. It aims for the royalty revenue to outgrow license revenue in the next few quarters, after years of "cooking". Meanwhile, two structural growth drivers remain intact for ASP and volume accretion: 1) for ASP, a growing number of high-value projects from advanced process nodes to enhance M31's IP portfolio for ASP accretion, and 2) for volume, an increased diversification of customer base globally to broaden its addressable markets for volume accretion.

What we recommend: Given our forecast revisions, we lower our 12M TP for M31 to TWD550 (previous: TWD645), still based on our 4-quarter forward PER of 45x. We reaffirm our Buy (1) rating with key downside risks of silicon inflation and geopolitical overhang leading to global inflation and AI capex cut to delay M31's royalty ramps.

How we differ: Our 2027E EPS is 52% above the consensus, likely due to our more positive view on royalty revenue ramp.

Company profile

Founded in 2011, M31 is an independent semiconductor IP provider in Taiwan, offering both foundation IP for specialty technology nodes and functional IP such as high-speed interface and analogue IP.

ESG analysis

ESG risks

Risks		Management	Analyst comments
G	Executive/board quality	2	M31's board of directors (BoD) has 7 members, including 3 independent directors, who represent 43% of total directors, higher than the regulatory requirement of at least 20%. Its Chairman and President are not the same person, but its President is one of the directors. M31 has the Audit Committee, Compensation Committee and Risk Control Committee under the BoD.
	Capital management	1	Although M31 is a young company (founded in 2011 and listed in 2019), its dividend payout ratio has been over the 75% level for the past 5 years. M31 is a semiconductor IP provider without onsite production activities, which would require high capex to do so. As such, we view its high dividend payout ratio to be appropriate.
	Related party & transaction	1	We do not see any meaningful impact from related-party transactions.
S	Supply chain management	2	M31's suppliers are required to comply with the Supplier Management Standards, which was set by M31 in 2013. In addition, M31 has periodical evaluations for its suppliers and onsite audits to ensure the quality and implementation of Corporate Social Responsibility (CSR), as well as Environmental Protection and Safety and Integrity Policies.
E	Water & wastewater management	1	M31 is a semiconductor IP provider without physical products, and thus no production activity to affect the environment.
E	Waste & hazardous materials management	1	The company is a semiconductor IP provider without physical products, and thus no production activity to affect the environment. It still adopts some measures to reduce waste from its operations, such as recycling and using electronic files to replace paper documents as much as possible to reduce the use of paper.
E	GHG emissions	1	M31 is a semiconductor IP provider without physical products, and thus no production activity to affect the environment.

Note: Management score represents a company's ability to manage/benefit from certain ESG topics. The scores range from 1 to 3, with 1 being the strongest.

Bahrain

This research material is distributed in Bahrain by Daiwa Capital Markets Europe Limited, Bahrain Branch, regulated by The Central Bank of Bahrain and holds Investment Business Firm – Category 2 license and having its official place of business at the Bahrain World Trade Centre, South Tower, 7th floor, P.O. Box 30069, Manama, Kingdom of Bahrain. Tel No. +973 17534452 Fax No. +973 535113

United States

This research is distributed into the United States directly by Daiwa Capital Markets Hong Kong Limited (DCMHK) and in certain cases indirectly by Daiwa Capital Markets America Inc. (DCMA), a U.S. Securities and Exchange Commission registered broker-dealer and FINRA member firm, exclusively to "major U.S. institutional investors", as defined under Rule 15a-6 promulgated under the U.S. Securities Exchange Act of 1934, as amended, and as interpreted by the staff of the U.S. Securities and Exchange Commission (SEC). Where this is co-branded research published by Daiwa's partners in collaboration with other parties not affiliated with Daiwa, this research is distributed in the United States by DCMHK only. This report is not an offer to sell or the solicitation of any offer to buy securities. U.S. customers wishing to effect transactions in any designated investment discussed in this report should do so through a qualified salesperson of DCMA. Non-U.S. customers wishing to effect transactions in any designated investment discussed in this report should contact a Daiwa entity in their local jurisdiction. The securities or other investment products discussed in this report may not be eligible for sale in some jurisdictions.

Analysts employed outside the U.S., as specifically indicated elsewhere in this report, are not registered as research analysts with FINRA. These analysts may not be associated persons of DCMA, and therefore may not be subject to FINRA Rule 2241 restrictions on communications with a subject company, public appearances and trading securities held by a research analyst account.

Japan - Notification items pursuant to Article 37 of the Financial Instruments and Exchange Law

(This Notification is only applicable to where report is distributed by Daiwa Securities Co. Ltd.)

If you decide to enter into a business arrangement with our company based on the information described in this report, we ask you to pay close attention to the following items.

- In addition to the purchase price of a financial instrument, our company will collect a trading commission* for each transaction as agreed beforehand with you. Since commissions may be included in the purchase price or may not be charged for certain transactions, we recommend that you confirm the commission for each transaction. In some cases, our company also may charge a maximum of ¥2 million per year as a standing proxy fee for our deposit of your securities, if you are a non-resident.
- For derivative and margin transactions etc., our company may require collateral or margin requirements in accordance with an agreement made beforehand with you. Ordinarily in such cases, the amount of the transaction will be in excess of the required collateral or margin requirements**.
- There is a risk that you will incur losses on your transactions due to changes in the market price of financial instruments based on fluctuations in interest rates, exchange rates, stock prices, real estate prices, commodity prices, and others. In addition, depending on the content of the transaction, the loss could exceed the amount of the collateral or margin requirements.
- There may be a difference between bid price etc. and ask price etc. of OTC derivatives handled by our company.
- Before engaging in any trading, please thoroughly confirm accounting and tax treatments regarding your trading in financial instruments with such experts as certified public accountants.

* The amount of the trading commission cannot be stated here in advance because it will be determined between our company and you based on current market conditions and the content of each transaction etc.

** The ratio of margin requirements etc. to the amount of the transaction cannot be stated here in advance because it will be determined between our company and you based on current market conditions and the content of each transaction etc.

When making an actual transaction, please be sure to carefully read the materials presented to you prior to the execution of agreement, and to take responsibility for your own decisions regarding the signing of the agreement with our company.

AWSC (8086.TWO)

Earnings Review: Material cost inflation to moderate in 4Q26, full impact of price adjustments from 1Q27; Neutral

8086.TWO	12m Price Target: **NT$136.00**	Price: **NT$99.90**	Upside: **36.1%**

AWSC's 3Q26 core business OP was NT$209mn, which was lower than both GSe/BBG consensus at NT$226mn/NT$250mn, mainly due to the ongoing increase in raw material cost, leading to a 24.3% GM (lower than GSe/BBG consensus GM at 25.6%/27.8%), despite UTR in 3Q26 remaining stable at 65-70%. Moreover, AWSC reported NI of NT$191mn, which was 3% higher than GSe but 17% lower than the BBG consensus due to the GM contraction.

Going into 4Q26, we believe the company's revenue will increase by 1% as key business lines (including WiFi, cellular and VCSEL) should remain stable in 4Q26 as we expect the company's utilization rate to remain stable at 65-70%. Moreover, we expect its GM to rise to 27.2% (up 2.9ppt QoQ) due to the material cost increase slowing down.

We continue to view rising material costs as the key risk to AWSC's profitability, as the company is now securing raw materials at higher cost as low-cost inventory has already been depleted in 1H26 amid the strong demand pull in. The company continues to negotiate price increases with clients and expects the adjustments to be fully reflected starting in 1Q27. However, we remain cautious on the low-end cellular segment, where customer demand tends to be more price-sensitive.

For the AI-related business, the company continues to ship VCSEL products for 400G/800G optical transceiver this year, with revenue contribution to be <2% in 2026E per our estimates. Meanwhile, the company continues to make progress on the new PD (Photodiode) product and is currently undergoing verification with several customers. The company expects PD products to start seeing revenue contribution starting from 2H27 or 2027-end given its long verification process, typically 6 months+, thus we expect revenue contribution to be limited at <2%/~5% in 2027E/2028E.

Source: Company data, Goldman Sachs Research estimates.

We maintain our conservative view on the cellular/WiFi PA industry (see here) as we continue to see weaker smartphone shipment (-10%/+2%/+2% in 2026/27/28, see here) as the smartphone market continues to be impacted by the elevated memory price (see here).

For AWSC, we believe the company could further gain market share among China PA design houses as Chinese clients increasingly shift toward higher-end PA products, supported by the company's superior cost control capability and higher production yield relative to peers. In addition, AWSC has continued to expand its market share with a Korean smartphone brand, which should provide further growth momentum to its cellular business in coming quarters/years. Overall, we expect AWSC to continue gaining share from its key competitors due to (1) its competitive pricing strategy, underpinned by a more favorable cost structure comparing to its key competitor, Win Semi (AWSC/Win Semi's fixed cost accounts for 30%/40% of the total, while Win Semi's COGS per wafer is ~130% higher than AWSC's) and (2) its strategic focus on China- and US-based PA design houses.

We continue to see a recovery in 2026 CAPEX plans among Taiwan PA foundry players. However, we do not view this as a signal of a meaningfully stronger demand outlook as the capital spending is more related to new AI businesses. AWSC revised up its 2026 CAPEX guidance to NT$600-650mn (from NT$500-600mn) and continues to expect CAPEX to increase in 2027/28. Also, management continues to expect UTR to reach at most ~70% in 2026, implying no need for capacity expansion in the near term while the additional capex will be spent on new optical related business.

Overall, we maintain our Neutral rating on AWSC with a new 12-m TP of NT$136 (from NT$147) as we roll over our valuation period by one quarter. Post results, we revise down our 2027E/28E earnings by 10%/10% to reflect lower revenue and the negative impact from rising material cost (GM contraction), revise up 2026E earnings by 2%, and introduce our 2029E estimates.

Earnings revisions

We revise up our 2026E revenue by 1% to factor in the 3Q26 actual results and we revise down 2027E/28E revenue by 9%/10% assuming a more conservative outlook for the cellular business; we revise down 2026E/27E/28E GM estimates by 0.4/0.7/0.8ppt to reflect the negative impact from rising material cost. Overall, we revise down 2027E/28E earnings by 10%/10% and revise up 2026E earnings by 2%.

In this report, we introduce our 2029E estimates.

Valuation

We maintain our Neutral rating and revise down our TP from NT$147 to NT$136, based on a lower 25x target P/E (from 27x previously, 0.5 STDV below the company's past 10-year forward P/E multiple), factoring in our earnings revisions and, consistent with our group coverage practices, rolling over our valuation period from 4Q26-3Q27E to 2027E.

Investment Thesis and TP & risks

AWSC is one of the largest GaAS foundries globally, with 10-15% market share in the GaAS foundry industry in 2025. We expect the company to enjoy solid share gain opportunity in the long term, considering its much lower than peers' production cost and better production efficiency. However, given the high inventory level in the supply chain, and the slower-than-expected Android smartphone PA demand in coming quarters, we expect relatively slow profit growth in the near term.

We are Neutral rated given the company's relatively slow profit growth in coming quarters. We think the stock is priced fairly, trading at its historical upcycle average P/E multiple, despite the long-term market share growth opportunity. We forecast AWSC's net income to grow at a 34% 2026E-28E CAGR. The key up/downside risks are (1) easing/rising competition in the China PA foundry market, (2) faster/slower-than-expected progress on 5G/WiFi 7 upgrade trends, and (3) faster/slower-than expected progress with new businesses, including LEO satellite, drones and datacom.

Valuation methodology: Our 12-month target price of NT$136 is based on a target 25x 2027E P/E, which is 0.5 STDV below the company's past 10-year forward P/E multiple and the inventory build-up period average P/E. We consider this multiple appropriate given the soft demand outlook and our positive view on the company's longer-term share gain opportunity.

The key up/downside risks are 1) easing/rising competition in the China PA foundry market, (2) faster/slower-than-expected progress on 5G/WiFi 7 upgrade trends, and (3) faster/slower-than expected progress with new businesses, including LEO satellite, drones and datacom.

GS Factor Profile

The Goldman Sachs Factor Profile provides investment context for a stock by comparing key attributes to the market (i.e. our universe of rated stocks) and its sector peers. The four key attributes depicted are: Growth, Financial Returns, Multiple (e.g. valuation) and Integrated (a composite of Growth, Financial Returns and Multiple). Growth, Financial Returns and Multiple are calculated by using normalized ranks for specific metrics for each stock. The normalized ranks for the metrics are then averaged and converted into percentiles for the relevant attribute. The precise calculation of each metric may vary depending on the fiscal year, industry and region, but the standard approach is as follows:

Growth is based on a stock's forward-looking sales growth, EBITDA growth and EPS growth (for financial stocks, only EPS and sales growth), with a higher percentile indicating a higher growth company. **Financial Returns** is based on a stock's forward-looking ROE, ROCE and CROCI (for financial stocks, only ROE), with a higher percentile indicating a company with higher financial returns. **Multiple** is based on a stock's forward-looking P/E, P/B, price/dividend (P/D), EV/EBITDA, EV/FCF and EV/Debt Adjusted Cash Flow (DACF) (for financial stocks, only P/E, P/B and P/D), with a higher percentile indicating a stock trading at a higher multiple. The **Integrated** percentile is calculated as the average of the Growth percentile, Financial Returns percentile and (100% - Multiple percentile).

Financial Returns and Multiple use the Goldman Sachs analyst forecasts at the fiscal year-end at least three quarters in the future. Growth uses inputs for the fiscal year at least seven quarters in the future compared with the year at least three quarters in the future (on a per-share basis for all metrics).

For a more detailed description of how we calculate the GS Factor Profile, please contact your GS representative.

M&A Rank

Across our global coverage, we examine stocks using an M&A framework, considering both qualitative factors and quantitative factors (which may vary across sectors and regions) to incorporate the potential that certain companies could be acquired. We then assign a M&A rank as a means of scoring companies under our rated coverage from 1 to 3, with 1 representing high (30%-50%) probability of the company becoming an acquisition target, 2 representing medium (15%-30%) probability and 3 representing low (0%-15%) probability. For companies ranked 1 or 2, in line with our standard departmental guidelines we incorporate an M&A component into our target price. M&A rank of 3 is considered immaterial and therefore does not factor into our price target, and may or may not be discussed in research.

Quantum

Quantum is Goldman Sachs' proprietary database providing access to detailed financial statement histories, forecasts and ratios. It can be used for in-depth analysis of a single company, or to make comparisons between companies in different sectors and markets.

Goldman Sachs (India) Securities Private Limited compliance officer and investor grievance contact details, a copy of the annual compliance audit report and other relevant information and disclosures can be found at this link: https://www.goldmansachs.com/worldwide/india/research-analyst. **Japan:** See below. **Korea:** This research, and any access to it, is intended only for "professional investors" within the meaning of the Financial Services and Capital Markets Act, unless otherwise agreed by Goldman Sachs. Further information on the subject company or companies referred to in this research may be obtained from Goldman Sachs (Asia) L.L.C., Seoul Branch. **New Zealand:** Goldman Sachs New Zealand Limited and its affiliates are neither "registered banks" nor "deposit takers" (as defined in the Reserve Bank of New Zealand Act 1989) in New Zealand. This research, and any access to it, is intended for "wholesale clients" (as defined in the Financial Advisers Act 2008) unless otherwise agreed by Goldman Sachs. A copy of certain Goldman Sachs Australia and New Zealand disclosure of interests is available at: https://www.goldmansachs.com/disclosures/australia-new-zealand/index.html. **Russia:** Research reports distributed in the Russian Federation are not advertising as defined in the Russian legislation, but are information and analysis not having product promotion as their main purpose and do not provide appraisal within the meaning of the Russian legislation on appraisal activity. Research reports do not constitute a personalized investment recommendation as defined in Russian laws and regulations, are not addressed to a specific client, and are prepared without analyzing the financial circumstances, investment profiles or risk profiles of clients. Goldman Sachs assumes no responsibility for any investment decisions that may be taken by a client or any other person based on this research report. **Singapore:** Goldman Sachs (Singapore) Pte. (Company Number: 198602165W), which is regulated by the Monetary Authority of Singapore, accepts legal responsibility for this research, and should be contacted with respect to any matters arising from, or in connection with, this research. **Taiwan:** This material is for reference only and must not be reprinted without permission. Investors should carefully consider their own investment risk. Investment results are the responsibility of the individual investor. **United Kingdom:** Persons who would be categorized as retail clients in the United Kingdom, as such term is defined in the rules of the Financial Conduct Authority, should read this research in conjunction with prior Goldman Sachs research on the covered companies referred to herein and should refer to the risk warnings that have been sent to them by Goldman Sachs International. A copy of these risks warnings, and a glossary of certain financial terms used in this report, are available from Goldman Sachs International on request.

European Union and United Kingdom: Disclosure information in relation to Article 6 (2) of the European Commission Delegated Regulation (EU) (2016/958) supplementing Regulation (EU) No 596/2014 of the European Parliament and of the Council (including as that Delegated Regulation is implemented into United Kingdom domestic law and regulation following the United Kingdom's departure from the European Union and the European Economic Area) with regard to regulatory technical standards for the technical arrangements for objective presentation of investment recommendations or other information recommending or suggesting an investment strategy and for disclosure of particular interests or indications of conflicts of interest is available at https://www.gs.com/disclosures/europeanpolicy.html which states the European Policy for Managing Conflicts of Interest in Connection with Investment Research.

Japan: Goldman Sachs Japan Co., Ltd. is a Financial Instrument Dealer registered with the Kanto Financial Bureau under registration number Kinsho 69, and a member of Japan Securities Dealers Association, Financial Futures Association of Japan Type II Financial Instruments Firms Association, and Investment Management Association of Japan. Sales and purchase of equities are subject to commission pre-determined with clients plus consumption tax. See company-specific disclosures as to any applicable disclosures required by Japanese stock exchanges, the Japanese Securities Dealers Association or the Japanese Securities Finance Company.

Ratings, coverage universe and related definitions

Buy (B), Neutral (N), Sell (S) Analysts recommend stocks as Buys or Sells for inclusion on various regional Investment Lists. Being assigned a Buy or Sell on an Investment List is determined by a stock's total return potential relative to its coverage universe. Any stock not assigned as a Buy or a Sell on an Investment List with an active rating (i.e., a stock that is not Rating Suspended, Not Rated, Early-Stage Biotech, Coverage Suspended or Not Covered), is deemed Neutral. Each region manages Regional Conviction Lists, which are selected from Buy rated stocks on the respective region's Investment Lists and represent investment recommendations focused on the size of the total return potential and/or the likelihood of the realization of the return across their respective areas of coverage. The addition or removal of stocks from such Conviction Lists are managed by the Investment Review Committee or other designated committee in each respective region and do not represent a change in the analysts' investment rating for such stocks.

Total return potential represents the upside or downside differential between the current share price and the price target, including all paid or anticipated dividends, expected during the time horizon associated with the price target. Price targets are required for all covered stocks. The total return potential, price target and associated time horizon are stated in each report adding or reiterating an Investment List membership.

Coverage Universe: A list of all stocks in each coverage universe is available by primary analyst, stock and coverage universe at https://www.gs.com/research/hedge.html.

Not Rated (NR). The investment rating, target price and earnings estimates (where relevant) are removed pursuant to Goldman Sachs policy when Goldman Sachs is acting in an advisory capacity in a merger or in a strategic transaction involving this company, when there are legal, regulatory or policy constraints due to Goldman Sachs' involvement in a transaction, and in certain other circumstances. **Early-Stage Biotech (ES).** An investment rating and a target price are not assigned pursuant to Goldman Sachs policy when this company has neither a drug, treatment or medical device that has passed a Phase II clinical trial nor a license to distribute a post-Phase II drug, treatment or medical device. **Rating Suspended (RS).** Goldman Sachs Research has suspended the investment rating and price target for this stock, because there is not a sufficient fundamental basis for determining an investment rating or target price. The previous investment rating and target price, if any, are no longer in effect for this stock and should not be relied upon. **Coverage Suspended (CS).** Goldman Sachs has suspended coverage of this company. **Not Covered (NC).** Goldman Sachs does not cover this company.

Global product; distributing entities

Goldman Sachs Global Investment Research produces and distributes research products for clients of Goldman Sachs on a global basis. Analysts based in Goldman Sachs offices around the world produce research on industries and companies, and research on macroeconomics, currencies, commodities and portfolio strategy. Available Weekdays (except holidays), from 9am to 6pm. Canal de Comunicação com o Público Goldman Sachs Brasil: 0800 727 5764 e/ou contatogoldmanbrasil@gs.com. Horário de funcionamento: segunda-feira à sexta-feira (exceto feriados), das 9h às 18h; in Canada by Goldman Sachs & Co. LLC; in Hong Kong by Goldman Sachs (Asia) L.L.C.; in India by Goldman Sachs (India) Securities Private Ltd.; in Japan by Goldman Sachs Japan Co., Ltd.; in the Republic of Korea by Goldman Sachs (Asia) L.L.C., Seoul Branch; in New Zealand by Goldman Sachs New Zealand

Limited; in Russia by OOO Goldman Sachs; in Singapore by Goldman Sachs (Singapore) Pte. (Company Number: 198602165W); and in the United States of America by Goldman Sachs & Co. LLC. Goldman Sachs International has approved this research in connection with its distribution in the United Kingdom.

Goldman Sachs International ("GSI"), authorised by the Prudential Regulation Authority ("PRA") and regulated by the Financial Conduct Authority ("FCA") and the PRA, has approved this research in connection with its distribution in the United Kingdom.

European Economic Area: Goldman Sachs Bank Europe SE ("GSBE") is a credit institution incorporated in Germany and, within the Single Supervisory Mechanism, subject to direct prudential supervision by the European Central Bank and in other respects supervised by German Federal Financial Supervisory Authority (Bundesanstalt für Finanzdienstleistungsaufsicht, BaFin) and Deutsche Bundesbank and disseminates research within the European Economic Area.

General disclosures

This research is for our clients only. Other than disclosures relating to Goldman Sachs, this research is based on current public information that we consider reliable, but we do not represent it is accurate or complete, and it should not be relied on as such. The information, opinions, estimates and forecasts contained herein are as of the date hereof and are subject to change without prior notification. We seek to update our research as appropriate, but various regulations may prevent us from doing so. Other than certain industry reports published on a periodic basis, the large majority of reports are published at irregular intervals as appropriate in the analyst's judgment.

Goldman Sachs conducts a global full-service, integrated investment banking, investment management, and brokerage business. We have investment banking and other business relationships with a substantial percentage of the companies covered by Global Investment Research. Goldman Sachs & Co. LLC, the United States broker dealer, is a member of SIPC (https://www.sipc.org).

Our salespeople, traders, and other professionals may provide oral or written market commentary or trading strategies to our clients and principal trading desks that reflect opinions that are contrary to the opinions expressed in this research. Our asset management area, principal trading desks and investing businesses may make investment decisions that are inconsistent with the recommendations or views expressed in this research.

The analysts named in this report may have from time to time discussed with our clients, including Goldman Sachs salespersons and traders, or may discuss in this report, trading strategies that reference catalysts or events that may have a near-term impact on the market price of the equity securities discussed in this report, which impact may be directionally counter to the analyst's published price target expectations for such stocks. Any such trading strategies are distinct from and do not affect the analyst's fundamental equity rating for such stocks, which rating reflects a stock's return potential relative to its coverage universe as described herein.

We and our affiliates, officers, directors, and employees will from time to time have long or short positions in, act as principal in, make a market or act as liquidity provider in, and buy or sell, any securities, derivatives, or other financial instruments referred to in this research (including any financial instruments issued by the companies referred to herein), unless otherwise prohibited by regulation or Goldman Sachs policy.

The views attributed to third party presenters at Goldman Sachs arranged conferences, including individuals from other parts of Goldman Sachs, do not necessarily reflect those of Global Investment Research and are not an official view of Goldman Sachs.

Any third party referenced herein, including any salespeople, traders and other professionals or members of their household, may have positions in the products mentioned that are inconsistent with the views expressed by analysts named in this report.

This research is not an offer to sell or the solicitation of an offer to buy any security in any jurisdiction where such an offer or solicitation would be illegal. It does not constitute a personal recommendation or take into account the particular investment objectives, financial situations, or needs of individual clients. Clients should consider whether any advice or recommendation in this research is suitable for their particular circumstances and, if appropriate, seek professional advice, including tax advice. The price and value of investments referred to in this research and the income from them may fluctuate. Past performance is not a guide to future performance, future returns are not guaranteed, and a loss of original capital may occur. Fluctuations in exchange rates could have adverse effects on the value or price of, or income derived from, certain investments.

Certain transactions, including those involving futures, options, and other derivatives, give rise to substantial risk and are not suitable for all investors. Investors should review current options and futures disclosure documents which are available from Goldman Sachs sales representatives or at https://www.theocc.com/about/publications/character-risks.jsp and https://www.goldmansachs.com/disclosures/cftc_fcm_disclosures. Transaction costs may be significant in option strategies calling for multiple purchase and sales of options such as spreads. Supporting documentation will be supplied upon request.

Differing Levels of Service provided by Global Investment Research: The level and types of services provided to you by Goldman Sachs Global Investment Research may vary as compared to that provided to internal and other external clients of GS, depending on various factors including your individual preferences as to the frequency and manner of receiving communication, your risk profile and investment focus and perspective (e.g., marketwide, sector specific, long term, short term), the size and scope of your overall client relationship with GS, and legal and regulatory constraints. As an example, certain clients may request to receive notifications when research on specific securities is published, and certain clients may request that specific data underlying analysts' fundamental analysis available on our internal client websites be delivered to them electronically through data feeds or otherwise. No change to an analyst's fundamental research views (e.g., ratings, price targets, or material changes to earnings estimates for equity securities), will be communicated to any client prior to inclusion of such information in a research report broadly disseminated through electronic publication to our internal client websites or through other means, as necessary, to all clients who are entitled to receive such reports.

All research reports are disseminated and available to all clients simultaneously through electronic publication to our internal client websites. Not all research content is redistributed to our clients or available to third-party aggregators, nor is Goldman Sachs responsible for the redistribution of our research by third party aggregators. For research, models or other data related to one or more securities, markets or asset classes (including related services) that may be available to you, please contact your GS representative or go to https://research.gs.com.

Disclosure information is also available at https://www.gs.com/research/hedge.html or from Research Compliance, 200 West Street, New York, NY 10282.

GCE (2368.TW)

GM expansion on the way with new AI project ramps in 4Q26-4Q27, despite increasing competition in the AI PCB market; Buy

2368.TW	12m Price Target: **NT$1,660.00**	Price: **NT$983.00**	Upside: **68.9%**

GCE's 3Q26 core business (OPI) was 6%/1% below GSe/BBG consensus due mainly to **(1) key AI customer's product transition period (revenue in 3Q was 4/3% lower than GSe/BBG consensus)**, and **(2) the increasing investment in R&D to improve its production capability on AI HDI and N+M MLB products)**, despite the much stronger than expected GM (0.8/1.8ppt higher than GSe/BBG consensus). For the net income in 3Q26, it was 5% below our bullish estimate, resulting from the weaker than expected operating profit, but it was 3% higher than BBG consensus, thanks to the lower than expected tax rate resulting from the increasing profit contribution from the low tax rate Thailand plant (tax rate was only at 25% in 3Q26 vs. BBG consensus at ~30%).

For 4Q26, **we expect the company's revenue to grow by 7% QoQ**, due to ongoing key AI customers' product transition, and the fewer working days due to the holiday season. **We expect GCE's GM will further expand to 39.2% (up 0.5ppt QoQ or 5.5ppt YoY)** thanks to the better product mix (high-end networking demand should ramp up more significantly from 4Q26, per GSe), despite the increasing cost from high-end CCL (see here).

Investment view - GCE will continue to deliver a better margin profile with expanding market share in AI ASIC market

We continue to expect GCE will hold the major share for Trainium 3 (70%+ from 3Q26), and see an even better market share in the next generation Trainium 4 products (as key competitors are all unable to support high-end AI HDI products) after the company ramps up its AI HDI production yield rate. We also expect the company to start supplying the new TPU v8 PCB products, which should meaningfully improve the company's market share in coming quarters (from <5% in 2026 to 20-30%+ in 2027), suggesting an even better GM outlook in the foreseeable future.

On the other hand, the company will only expand its capacity

Source: Company data, Goldman Sachs Research estimates.

volume by ~20% in 2027, without considering the product mix improvement/ASP hike (we believe after considering the better ASP for next-gen AI products, the company's capacity value should go up by 35%+ YoY in 2027), while we believe the AI PCB volume/area demand should at least increase by 50% YoY, implying a potential market share loss in coming quarters. We note Greater China peers are also expanding capacity in SEA regions to try to penetrate into GCE's key AI ASIC markets, implying increasing competition in coming quarters, which could lead to less favorable ASP in the long term, despite no significant impact for now. However, considering GCE's best in class AI PCB production technology and its proactive investment in the high-end PCB R&D for more than 10 years, as well as the company's first mover advantage in the SEA PCB market, we expect GCE will continue to have opportunities to expand its business in the most high-end PCB market, suggesting a good GM outlook in the long term.

Maintain Buy on GCE, with a new 12-m TP of NT$1,660 (from NT$1,800).

Earning and TP revision

Earnings revision

We revise down our 2026/27/28E net income estimate by 9%/6%/5% to factor in the potential slower pricing hike outlook in the PCB industry, considering the increasing competition in the AI PCB industry (cut 2026/27/28E revenue estimate by 7/6/5%). Moreover, we believe GCE will need to invest more in R&D projects in the coming quarters to improve its HDI production capability, and expect the N+M PCB R&D investment will also drive OPEX in coming years, considering the increasing adoption rate from 1H27 (revise up 2027 OPEX to sales ratio by 0.3ppt).

TP revision

Maintain Buy with a new 12-m TP of NT$1,660 (from NT$1,800), based on 15x P/E (down from 20x previously, still in line with AI PCB peers' average valuation); we also rollover our valuation base from 2027E to 2H27-1H28E, and factor in our earnings revision.

Investment thesis and Valuation & Risks

GCE is a key cloud (server+switch) PCB supplier globally with 20%+ market share in 2022. We expect cloud PCB market demand to grow at a 15% 2024-26E CAGR (far stronger than the overall RPCB+HDI market demand growth rate at 5% 2024-26E CAGR). We believe GCE's proactive capacity expansion plan (33% in 2026) and high annualized ROI (300%+) will continue to drive the company's revenue/margin level in the coming quarters/years. Additionally, we believe GCE can continue to see strong demand from the increasing content per server/switch, as we expect both markets to see a 20-50%+ layer count increase after the generation upgrade (upgrade to 400G/Eagle Stream). We are constructive on GCE's long-term growth opportunity given its solid position in the rapidly growing cloud PCB market, and we are Buy rated on the stock. GCE is trading higher than its historical P/E average level driven by strong AI server demand, but lower than the TW AI server players' average.

Price Target Risks and Methodology

Valuation methodology: Our 12m TP of NT$1,660 is based on a 15x 2H27-1H28E P/E (in line with AI PCB peers average valuation).

Key downside risks: (1) weaker-than-expected AI server market demand; (2) delays in the company's Nvidia OAM/UBB product qualification, (3) weaker-than-expected HDI demand, and (4) higher-than-expected ramp up cost for new capacity

GS Factor Profile

The Goldman Sachs Factor Profile provides investment context for a stock by comparing key attributes to the market (i.e. our universe of rated stocks) and its sector peers. The four key attributes depicted are: Growth, Financial Returns, Multiple (e.g. valuation) and Integrated (a composite of Growth, Financial Returns and Multiple). Growth, Financial Returns and Multiple are calculated by using normalized ranks for specific metrics for each stock. The normalized ranks for the metrics are then averaged and converted into percentiles for the relevant attribute. The precise calculation of each metric may vary depending on the fiscal year, industry and region, but the standard approach is as follows:

Growth is based on a stock's forward-looking sales growth, EBITDA growth and EPS growth (for financial stocks, only EPS and sales growth), with a higher percentile indicating a higher growth company. **Financial Returns** is based on a stock's forward-looking ROE, ROCE and CROCI (for financial stocks, only ROE), with a higher percentile indicating a company with higher financial returns. **Multiple** is based on a stock's forward-looking P/E, P/B, price/dividend (P/D), EV/EBITDA, EV/FCF and EV/Debt Adjusted Cash Flow (DACF) (for financial stocks, only P/E, P/B and P/D), with a higher percentile indicating a stock trading at a higher multiple. The **Integrated** percentile is calculated as the average of the Growth percentile, Financial Returns percentile and (100% - Multiple percentile).

Financial Returns and Multiple use the Goldman Sachs analyst forecasts at the fiscal year-end at least three quarters in the future. Growth uses inputs for the fiscal year at least seven quarters in the future compared with the year at least three quarters in the future (on a per-share basis for all metrics).

For a more detailed description of how we calculate the GS Factor Profile, please contact your GS representative.

M&A Rank

Across our global coverage, we examine stocks using an M&A framework, considering both qualitative factors and quantitative factors (which may vary across sectors and regions) to incorporate the potential that certain companies could be acquired. We then assign a M&A rank as a means of scoring companies under our rated coverage from 1 to 3, with 1 representing high (30%-50%) probability of the company becoming an acquisition target, 2 representing medium (15%-30%) probability and 3 representing low (0%-15%) probability. For companies ranked 1 or 2, in line with our standard departmental guidelines we incorporate an M&A component into our target price. M&A rank of 3 is considered immaterial and therefore does not factor into our price target, and may or may not be discussed in research.

Quantum

Quantum is Goldman Sachs' proprietary database providing access to detailed financial statement histories, forecasts and ratios. It can be used for in-depth analysis of a single company, or to make comparisons between companies in different sectors and markets.

Disclosures

The rating(s) for GCE is/are relative to the other companies in its/their coverage universe: AVC, AWSC, Airtac International Group, Asus, Auras, Chenbro, Co-Tech Development Corp., Compal, Delta Electronics, E Ink, Elite Material, Fositek, GCE, Gigabyte, HTC Corp., Hiwin Corp., ITEQ Corp, Inventec, Kinsus, Lotes, NYPCB, Pegatron, Quanta, Shengyi Tech, Shennan Circuits, Taiwan Union Technology Corp., Unimicron Technology, Victory Giant, WNC, WUS, Win Semiconductors Corp., Yageo Corp., Zhen Ding Technology Holding

Company-specific regulatory disclosures

The following disclosures relate to relationships between The Goldman Sachs Group, Inc. (with its affiliates, "Goldman Sachs") and companies covered by Goldman Sachs Global Investment Research and referred to in this research.

There are no company-specific disclosures for: GCE (NT$983.00)

Distribution of ratings/investment banking relationships

Goldman Sachs Investment Research global Equity coverage universe

	Rating Distribution			Investment Banking Relationships		
	Buy	Hold	Sell	Buy	Hold	Sell
Global	50%	34%	16%	65%	58%	43%

As of October 1, 2026, Goldman Sachs Global Investment Research had investment ratings on 3,094 equity securities. Goldman Sachs assigns stocks as Buys and Sells on various regional Investment Lists; stocks not so assigned are deemed Neutral. Such assignments equate to Buy, Hold and Sell for the purposes of the above disclosure required by the FINRA Rules. See 'Ratings, Coverage universe and related definitions' below. The Investment Banking Relationships chart reflects the percentage of subject companies within each rating category for whom Goldman Sachs has provided investment banking services within the previous twelve months.

Regulatory disclosures

Disclosures required by United States laws and regulations

See company-specific regulatory disclosures above for any of the following disclosures required as to companies referred to in this report: manager or co-manager in a pending transaction; 1% or other ownership; compensation for certain services; types of client relationships; managed/co-managed public offerings in prior periods; directorships; registered market maker. Goldman Sachs trades or may trade as a principal in debt securities (or in related derivatives) of issuers discussed in this report.

The following are additional required disclosures: **Ownership and material conflicts of interest:** Goldman Sachs policy prohibits its analysts, professionals reporting to analysts and members of their households from owning securities of any company in the analyst's area of coverage. **Analyst compensation:** Analysts are paid in part based on the profitability of Goldman Sachs, which includes investment banking revenues. **Analyst as officer or director:** Goldman Sachs policy generally prohibits its analysts, persons reporting to analysts or members of their households from serving as an officer, director or advisor of any company in the analyst's area of coverage. **Non-U.S. Analysts:** Non-U.S. analysts may not be associated persons of Goldman Sachs & Co. LLC and therefore may not be subject to FINRA Rule 2241 or FINRA Rule 2242 restrictions on communications with a subject company, public appearances and trading in securities covered by the analysts.

Additional disclosures required under the laws and regulations of jurisdictions other than the United States

The following disclosures are those required by the jurisdiction indicated, except to the extent already made above pursuant to United States laws and regulations. **Australia:** Goldman Sachs Australia Pty Ltd and its affiliates are not authorised deposit-taking institutions (as that term is defined in the Banking Act 1959 (Cth)) in Australia and do not provide banking services, nor carry on a banking business, in Australia. This research, and any access to it, is intended only for "wholesale clients" within the meaning of the Australian Corporations Act, unless otherwise agreed by Goldman Sachs. In producing research reports, members of Global Investment Research of Goldman Sachs Australia may attend site visits and other meetings hosted by the companies and other entities which are the subject of its research reports. In some instances the costs of such site visits or meetings may be met in part or in whole by the issuers concerned if Goldman Sachs Australia considers it is appropriate and reasonable in the specific circumstances relating to the site visit or meeting. To the extent that the contents of this document contains any financial product advice, it is general advice only and has been prepared by Goldman Sachs without taking into account a client's objectives, financial situation or needs. A client should, before acting on any such advice, consider the appropriateness of the advice having regard to the client's own objectives, financial situation and needs. A copy of certain Goldman Sachs Australia and New Zealand disclosure of interests and a copy of Goldman Sachs' Australian Sell-Side Research Independence Policy Statement are available at: https://www.goldmansachs.com/disclosures/australia-new-zealand/index.html. **Brazil:** Disclosure information in relation to CVM Resolution n. 20 is available at https://www.gs.com/worldwide/brazil/area/gir/index.html. Where applicable, the Brazil-registered analyst primarily responsible for the content of this research report, as defined in Article 20 of CVM Resolution n. 20, is the first author named at the beginning of this report, unless indicated otherwise at the end of the text. **Canada:** This information is being provided to you for information purposes only and is not, and under no circumstances should be construed as, an advertisement, offering or solicitation by Goldman Sachs & Co. LLC for purchasers of securities in Canada to trade in any Canadian security. Goldman Sachs & Co. LLC is not registered as a dealer in any jurisdiction in Canada under applicable Canadian securities laws and generally is not permitted to trade in Canadian securities and may be prohibited from selling certain securities and products in certain jurisdictions in Canada. If you wish to trade in any Canadian securities or other products in Canada please contact Goldman Sachs Canada Inc., an affiliate of The Goldman Sachs Group Inc., or another registered Canadian dealer. **Hong Kong:** Further information on the securities of covered companies referred to in this research may be obtained on request from Goldman Sachs (Asia) L.L.C. **India:** Further information on the subject company or companies referred to in this research may be obtained from Goldman Sachs (India) Securities Private Limited, Research Analyst - SEBI Registration Number INH000001493, 10th Floor, Ascent-Worli, Sudam Kalu Ahire Marg, Worli, Mumbai-400 025, India, Corporate Identity Number U74140MH2006FTC160634, Phone +91 22 6616 9000, Fax +91 22 6616 9001. Goldman Sachs may beneficially own 1% or more of the securities (as such term is defined in clause 2 (h) the Indian Securities Contracts (Regulation) Act, 1956) of the subject company or companies referred to in this research report. Registration granted by SEBI and certification from NISM in no way guarantee performance of the intermediary or provide any assurance of returns to investors. See company-specific disclosures as to any applicable disclosures required by Japanese stock exchanges, the Japanese Securities Dealers Association or the Japanese Securities Finance Company.

Ratings, coverage universe and related definitions

Buy (B), Neutral (N), Sell (S) Analysts recommend stocks as Buys or Sells for inclusion on various regional Investment Lists. Being assigned a Buy or Sell on an Investment List is determined by a stock's total return potential relative to its coverage universe. Any stock not assigned as a Buy or a Sell on an Investment List with an active rating (i.e., a stock that is not Rating Suspended, Not Rated, Early-Stage Biotech, Coverage Suspended or Not Covered), is deemed Neutral. Each region manages Regional Conviction Lists, which are selected from Buy rated stocks on the respective region's Investment Lists and represent investment recommendations focused on the size of the total return potential and/or the likelihood of the realization of the return across their respective areas of coverage. The addition or removal of stocks from such Conviction Lists are managed by the Investment Review Committee or other designated committee in each respective region and do not represent a change in the analysts' investment rating for such stocks.

Total return potential represents the upside or downside differential between the current share price and the price target, including all paid or anticipated dividends, expected during the time horizon associated with the price target. Price targets are required for all covered stocks. The total return potential, price target and associated time horizon are stated in each report adding or reiterating an Investment List membership.

Coverage Universe: A list of all stocks in each coverage universe is available by primary analyst, stock and coverage universe at https://www.gs.com/research/hedge.html.

Not Rated (NR). The investment rating, target price and earnings estimates (where relevant) are removed pursuant to Goldman Sachs policy when Goldman Sachs is acting in an advisory capacity in a merger or in a strategic transaction involving this company, when there are legal, regulatory or

policy constraints due to Goldman Sachs' involvement in a transaction, and in certain other circumstances. **Early-Stage Biotech (ES).** An investment rating and a target price are not assigned pursuant to Goldman Sachs policy when this company has neither a drug, treatment or medical device that has passed a Phase II clinical trial nor a license to distribute a post-Phase II drug, treatment or medical device. **Rating Suspended (RS).** Goldman Sachs Research has suspended the investment rating and price target for this stock, because there is not a sufficient fundamental basis for determining an investment rating or target price. The previous investment rating and target price, if any, are no longer in effect for this stock and should not be relied upon. **Coverage Suspended (CS).** Goldman Sachs has suspended coverage of this company. **Not Covered (NC).** Goldman Sachs does not cover this company.

Global product; distributing entities

Goldman Sachs Global Investment Research produces and distributes research products for clients of Goldman Sachs on a global basis. Analysts based in Goldman Sachs offices around the world produce research on industries and companies, and research on macroeconomics, currencies, commodities and portfolio strategy. This research is disseminated in Australia by Goldman Sachs Australia Pty Ltd (ABN 21 006 797 897); in Brazil by Goldman Sachs do Brasil Corretora de Títulos e Valores Mobiliários S.A.; Public Communication Channel Goldman Sachs Brazil: 0800 727 5764 and / or contatogoldmanbrasil@gs.com. Goldman Sachs International ("GSI"), authorised by the Prudential Regulation Authority ("PRA") and regulated by the Financial Conduct Authority ("FCA") and the PRA, has approved this research in connection with its distribution in the United Kingdom.

European Economic Area: Goldman Sachs Bank Europe SE ("GSBE") is a credit institution incorporated in Germany and, within the Single Supervisory Mechanism, subject to direct prudential supervision by the European Central Bank and in other respects supervised by German Federal Financial Supervisory Authority (Bundesanstalt für Finanzdienstleistungsaufsicht, BaFin) and Deutsche Bundesbank and disseminates research within the European Economic Area.

General disclosures

This research is for our clients only. Other than disclosures relating to Goldman Sachs, this research is based on current public information that we consider reliable, but we do not represent it is accurate or complete, and it should not be relied on as such. The information, opinions, estimates and forecasts contained herein are as of the date hereof and are subject to change without prior notification. We seek to update our research as appropriate, but various regulations may prevent us from doing so. Other than certain industry reports published on a periodic basis, the large majority of reports are published at irregular intervals as appropriate in the analyst's judgment.

Goldman Sachs conducts a global full-service, integrated investment banking, investment management, and brokerage business. We have investment banking and other business relationships with a substantial percentage of the companies covered by Global Investment Research. Goldman Sachs & Co. LLC, the United States broker dealer, is a member of SIPC (https://www.sipc.org).

Our salespeople, traders, and other professionals may provide oral or written market commentary or trading strategies to our clients and principal trading desks that reflect opinions that are contrary to the opinions expressed in this research. Our asset management area, principal trading desks and investing businesses may make investment decisions that are inconsistent with the recommendations or views expressed in this research.

The analysts named in this report may have from time to time discussed with our clients, including Goldman Sachs salespersons and traders, or may discuss in this report, trading strategies that reference catalysts or events that may have a near-term impact on the market price of the equity securities discussed in this report, which impact may be directionally counter to the analyst's published price target expectations for such stocks. Any such trading strategies are distinct from and do not affect the analyst's fundamental equity rating for such stocks, which rating reflects a stock's return potential relative to its coverage universe as described herein.

We and our affiliates, officers, directors, and employees will from time to time have long or short positions in, act as principal in, make a market or act as liquidity provider in, and buy or sell, any securities, derivatives, or other financial instruments referred to in this research (including any financial instruments issued by the companies referred to herein), unless otherwise prohibited by regulation or Goldman Sachs policy.

The views attributed to third party presenters at Goldman Sachs arranged conferences, including individuals from other parts of Goldman Sachs, do not necessarily reflect those of Global Investment Research and are not an official view of Goldman Sachs.

Any third party referenced herein, including any salespeople, traders and other professionals or members of their household, may have positions in the products mentioned that are inconsistent with the views expressed by analysts named in this report.

This research is not an offer to sell or the solicitation of an offer to buy any security in any jurisdiction where such an offer or solicitation would be illegal. It does not constitute a personal recommendation or take into account the particular investment objectives, financial situations, or needs of individual clients. Clients should consider whether any advice or recommendation in this research is suitable for their particular circumstances and, if appropriate, seek professional advice, including tax advice. The price and value of investments referred to in this research and the income from them may fluctuate. Past performance is not a guide to future performance, future returns are not guaranteed, and a loss of original capital may occur. Fluctuations in exchange rates could have adverse effects on the value or price of, or income derived from, certain investments.

Certain transactions, including those involving futures, options, and other derivatives, give rise to substantial risk and are not suitable for all investors. Investors should review current options and futures disclosure documents which are available from Goldman Sachs sales representatives or at https://www.theocc.com/about/publications/character-risks.jsp and https://www.goldmansachs.com/disclosures/cftc_fcm_disclosures. Transaction costs may be significant in option strategies calling for multiple purchase and sales of options such as spreads. Supporting documentation will be supplied upon request.

Differing Levels of Service provided by Global Investment Research: The level and types of services provided to you by Goldman Sachs Global Investment Research may vary as compared to that provided to internal and other external clients of GS, depending on various factors including your individual preferences as to the frequency and manner of receiving communication, your risk profile and investment focus and perspective (e.g., marketwide, sector specific, long term, short term), the size and scope of your overall client relationship with GS, and legal and regulatory constraints. As an example, certain clients may request to receive notifications when research on specific securities is published, and certain clients may request that specific data underlying analysts' fundamental analysis available on our internal client websites be delivered to them electronically through data feeds or otherwise. No change to an analyst's fundamental research views (e.g., ratings, price targets, or material changes to earnings estimates for equity securities), will be communicated to any client prior to inclusion of such information in a research report broadly disseminated through electronic publication to our internal client websites or through other means, as necessary, to all clients who are entitled to receive such reports.

All research reports are disseminated and available to all clients simultaneously through electronic publication to our internal client websites. Not all research content is redistributed to our clients or available to third-party aggregators, nor is Goldman Sachs responsible for the redistribution of our research by third party aggregators. For research, models or other data related to one or more securities, markets or asset classes (including related services) that may be available to you, please contact your GS representative or go to https://research.gs.com.

Disclosure information is also available at https://www.gs.com/research/hedge.html or from Research Compliance, 200 West Street, New York, NY 10282.

What surprised us?

Hiwin reported its 3Q26 result and hosted a result call after the close on Nov 10th. The core business (OPI) was 25%/20% higher than GSe and the BBG consensus, with GM coming in 1.9ppt higher than GSe mainly due higher UTR and greater impact from higher pricing on core products (Hiwin raised prices by 7-15% in March, which has a more material impact this quarter). Opex was in line with our expectation (NT$1,502mn in 3Q26 vs. GSe at NT$1,500mn). For earnings, Hiwin's 3Q26 net income was 36%/24% higher than GSe/BBG consensus, mainly on the GM expansion.

Moreover, the company continues to see order intake tracking faster than shipment, leading to longer lead times, with BS at 6.5+ months (was 6 months in 2Q26); the company is also seeing some orders extended into mid-2027, while LG was at 4-6 months (vs. 4 months in 2Q26), which was mainly driven by a recovery in the China market supported by government policy.

Earnings analysis and revisions

Hiwin's 3Q26 core business (OPI) was 25%/20% higher than GSe and the BBG consensus amid higher UTR as well as more positive impact from pricing. GM was 1.9/1.2ppt higher than GSe/BBG consensus in 3Q26. For net income, it was 36%/24% higher than GSe/BBG consensus due to better-than-expected GM expansion.

We maintain our conservative view on the outlook for the linear motion industry as we do not see clear signs of a significant recovery in demand across most end-applications yet (excluding semiconductor industry). We revise up our 2026E revenue by 5% to factor in 3Q26 results and revise up 2027E/28E/29E by 4%/2%/2% to factor in a higher shipment assumption, and revise up our 2026E/27E/28E/29E GM estimates by 1.7/0.4/0.2/0.1ppt as we expect the margin expansion, driven by the company's ability to pass on increased costs through price hikes and prioritize orders with a higher GM.

Investment view

We reiterate our Sell rating on the stock, based on (1) the lack of a meaningful recovery in consumer electronics demand, which could result in softer orders in 2H26/2027, as some demand may have been front-loaded into 1H26 ahead of price hikes, (2) intensifying competition from Chinese local suppliers, including AirTAC, which continues to maintain a stable pricing strategy amid rising material costs and

Goldman Sachs does and seeks to do business with companies covered in its research reports. As a result, investors should be aware that the firm may have a conflict of interest that could affect the objectivity of this report. Investors should consider this report as only a single factor in making their investment decision. For Reg AC certification and other important disclosures, see the Disclosure Appendix, or go to www.gs.com/research/hedge.html. Analysts employed by non-US affiliates are not registered/qualified as research analysts with FINRA in the U.S.

has a significantly shorter product lead time (see here), while Hiwin has implemented price hikes across its core products (including both BS and LG), potentially resulting in market share losses, (3) sustained R&D investment in new semiconductor and logistics system-level products, which we expect to keep OPEX elevated over the longer term and weigh on the GM outlook; and (4) current valuation level remaining elevated (still trading at ~35x 1-year forward P/E following a recent 15% share price pullback vs. average of 33.0x in the past 10 years), despite limited near-term growth catalysts.

Overall, we remain cautious on the outlook for Hiwin's core business (linear guide and ball screw), while highlighting increasing cash flow risk from continued investment in the semiconductor/logistics businesses, which we expect to contribute only modestly to earnings in the near term.

We maintain our Sell rating on Hiwin with a new 12m TP of NT$180 (from NT$160), based on an unchanged 20x P/E (in line with Hiwin's average downcycle valuation, or 1std lower than the historical average P/E for the past 10 years), but roll over our valuation base from 4Q26-3Q27E to 2027E, and factor in our earnings revisions.

Investment Thesis and Price Target Risks and Methodology

Investment thesis - Hiwin Corp

Hiwin is the second-largest global linear motion supplier with 18% market share in 2024. It continues to witness decelerating market share growth from 2020 when it started to pursue a deleveraging strategy.

Although we expect Hiwin to continue to benefit from rising demand from the semiconductor/EV industry given the upgrading trend, we are Sell rated, given: (1) we expect a weak end-market demand recovery and high inventory levels for the near term, leading to high pricing pressure and a stagnant utilization rate; (2) continued overcapacity issues in mainland China, where the company has higher exposure (45% in 2024) vs. peers such as THK (24%), and we expect this could lead to further deterioration in Hiwin's revenue/profitability outlook in the near term; and (3) the negative impact from its long-term deleveraging strategy. Hiwin continues to pay back long-term debt and expand capacity to better compete with peers, which we believe will further impact EPS growth and valuation. The stock is currently trading above its historical average valuation (33.0x). We expect its P/E multiple to derate once the market begins to adjust for a prolonged downcycle and expect downgrades to consensus EPS growth/ROE estimates, suggesting high downside risk to Hiwin's valuation.

Price target risks and methodology - Hiwin Corp

Valuation methodology: Our 12m TP of NT$180 is based on a target P/E of 20x 2027E EPS (in-line with Hiwin's average downcycle valuation, or 1std lower than the historical average P/E for the past 10 years).

Key upside risks: (1) Stronger-than-expected EV & semi CAPEX growth; (2) a favorable

linear motion pricing environment in the coming quarters, with a positive supply-demand outlook or longer leadtime; and (3) a faster-than-expected machine tool demand recovery.

Unless otherwise stated, the individuals listed in the Contributing Authors disclosure of this report are analysts in Goldman Sachs' Global Investment Research division.

GS Factor Profile

The Goldman Sachs Factor Profile provides investment context for a stock by comparing key attributes to the market (i.e. our universe of rated stocks) and its sector peers. The four key attributes depicted are: Growth, Financial Returns, Multiple (e.g. valuation) and Integrated (a composite of Growth, Financial Returns and Multiple). Growth, Financial Returns and Multiple are calculated by using normalized ranks for specific metrics for each stock. The normalized ranks for the metrics are then averaged and converted into percentiles for the relevant attribute. The precise calculation of each metric may vary depending on the fiscal year, industry and region, but the standard approach is as follows:

Growth is based on a stock's forward-looking sales growth, EBITDA growth and EPS growth (for financial stocks, only EPS and sales growth), with a higher percentile indicating a higher growth company. **Financial Returns** is based on a stock's forward-looking ROE, ROCE and CROCI (for financial stocks, only ROE), with a higher percentile indicating a company with higher financial returns. **Multiple** is based on a stock's forward-looking P/E, P/B, price/dividend (P/D), EV/EBITDA, EV/FCF and EV/Debt Adjusted Cash Flow (DACF) (for financial stocks, only P/E, P/B and P/D), with a higher percentile indicating a stock trading at a higher multiple. The **Integrated** percentile is calculated as the average of the Growth percentile, Financial Returns percentile and (100% - Multiple percentile).

Financial Returns and Multiple use the Goldman Sachs analyst forecasts at the fiscal year-end at least three quarters in the future. Growth uses inputs for the fiscal year at least seven quarters in the future compared with the year at least three quarters in the future (on a per-share basis for all metrics).

For a more detailed description of how we calculate the GS Factor Profile, please contact your GS representative.

M&A Rank

Across our global coverage, we examine stocks using an M&A framework, considering both qualitative factors and quantitative factors (which may vary across sectors and regions) to incorporate the potential that certain companies could be acquired. We then assign a M&A rank as a means of scoring companies under our rated coverage from 1 to 3, with 1 representing high (30%-50%) probability of the company becoming an acquisition target, 2 representing medium (15%-30%) probability and 3 representing low (0%-15%) probability. For companies ranked 1 or 2, in line with our standard departmental guidelines we incorporate an M&A component into our target price. M&A rank of 3 is considered immaterial and therefore does not factor into our price target, and may or may not be discussed in research.

Quantum

Quantum is Goldman Sachs' proprietary database providing access to detailed financial statement histories, forecasts and ratios. It can be used for in-depth analysis of a single company, or to make comparisons between companies in different sectors and markets.

Disclosures

The rating(s) for Hiwin Corp. is/are relative to the other companies in its/their coverage universe: AVC, AWSC, Airtac International Group, Asus, Auras, Chenbro, Co-Tech Development Corp., Compal, Delta Electronics, E Ink, Elite Material, Fositek, GCE, Gigabyte, HTC Corp., Hiwin Corp., ITEQ Corp, Inventec, Kinsus, Lotes, NYPCB, Pegatron, Quanta, Shengyi Tech, Shennan Circuits, Taiwan Union Technology Corp., Unimicron Technology, Victory Giant, WNC, WUS, Win Semiconductors Corp., Yageo Corp., Zhen Ding Technology Holding

Company-specific regulatory disclosures

The following disclosures relate to relationships between The Goldman Sachs Group, Inc. (with its affiliates, "Goldman Sachs") and companies covered by Goldman Sachs Global Investment Research and referred to in this research.

Goldman Sachs beneficially owned 1% or more of common equity (excluding positions managed by affiliates and business units not required to be aggregated under US securities law) as of the month end preceding this report: Hiwin Corp. (NT$291.50)

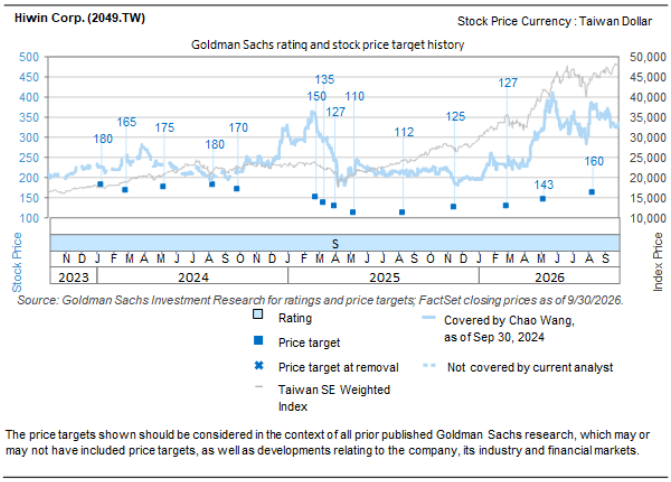
Distribution of ratings/investment banking relationships

Goldman Sachs Investment Research global Equity coverage universe

	Rating Distribution			Investment Banking Relationships		
	Buy	Hold	Sell	Buy	Hold	Sell
Global	50%	34%	16%	65%	58%	43%

As of October 1, 2026, Goldman Sachs Global Investment Research had investment ratings on 3,094 equity securities. Goldman Sachs assigns stocks as Buys and Sells on various regional Investment Lists; stocks not so assigned are deemed Neutral. Such assignments equate to Buy, Hold and Sell for the purposes of the above disclosure required by the FINRA Rules. See 'Ratings, Coverage universe and related definitions' below. The Investment Banking Relationships chart reflects the percentage of subject companies within each rating category for whom Goldman Sachs has provided investment banking services within the previous twelve months.

Price target and rating history chart(s)



The price targets shown should be considered in the context of all prior published Goldman Sachs research, which may or may not have included price targets, as well as developments relating to the company, its industry and financial markets.

Regulatory disclosures

Disclosures required by United States laws and regulations
See company-specific regulatory disclosures above for any of the following disclosures required as to companies referred to in this report: manager or co-manager in a pending transaction; 1% or other ownership; compensation for certain services; types of client relationships; managed/co-managed public offerings in prior periods; directorships; registered market maker. Goldman Sachs trades or may trade as a principal in debt securities (or in related derivatives) of issuers discussed in this report.

The following are additional required disclosures: **Ownership and material conflicts of interest:** Goldman Sachs policy prohibits its analysts, professionals reporting to analysts and members of their households from owning securities of any company in the analyst's area of coverage. **Analyst compensation:** Analysts are paid in part based on the profitability of Goldman Sachs, which includes investment banking revenues. **Analyst as officer or director:** Goldman Sachs policy generally prohibits its analysts, persons reporting to analysts or members of their households from serving as an officer, director or advisor of any company in the analyst's area of coverage. **Non-U.S. Analysts:** Non-U.S. analysts may not be associated persons of Goldman Sachs & Co. LLC and therefore may not be subject to FINRA Rule 2241 or FINRA Rule 2242 restrictions on communications with a subject company, public appearances and trading in securities covered by the analysts.

Additional disclosures required under the laws and regulations of jurisdictions other than the United States
The following disclosures are those required by the jurisdiction indicated, except to the extent already made above pursuant to United States laws and regulations. **Australia:** Goldman Sachs Australia Pty Ltd and its affiliates are not authorised deposit-taking institutions (as that term is defined in the Banking Act 1959 (Cth)) in Australia and do not provide banking services, nor carry on a banking business, in Australia. This research, and any access to it, is intended only for "wholesale clients" within the meaning of the Australian Corporations Act, unless otherwise agreed by Goldman Sachs. In producing research reports, members of Global Investment Research of Goldman Sachs Australia may attend site visits and other meetings hosted by the companies and other entities which are the subject of its research reports. In some instances the costs of such site visits or meetings may be met in part or in whole by the issuers concerned if Goldman Sachs Australia considers it is appropriate and reasonable in the specific circumstances relating to the site visit or meeting. To the extent that the contents of this document contains any financial product advice, it is general advice only and has been prepared by Goldman Sachs without taking into account a client's objectives, financial situation or needs. A client should, before acting on any such advice, consider the appropriateness of the advice having regard to the client's own objectives, financial situation and needs. A copy of certain Goldman Sachs Australia and New Zealand disclosure of interests and a copy of Goldman Sachs' Australian Sell-Side Research Independence Policy Statement are available at: https://www.goldmansachs.com/disclosures/australia-new-zealand/index.html. **Brazil:** Disclosure information in relation

to CVM Resolution n. 20 is available at https://www.gs.com/worldwide/brazil/area/gir/index.html. Where applicable, the Brazil-registered analyst primarily responsible for the content of this research report, as defined in Article 20 of CVM Resolution n. 20, is the first author named at the beginning of this report, unless indicated otherwise at the end of the text. **Canada:** This information is being provided to you for information purposes only and is not, and under no circumstances should be construed as, an advertisement, offering or solicitation by Goldman Sachs & Co. LLC for purchasers of securities in Canada to trade in any Canadian security. Goldman Sachs & Co. LLC is not registered as a dealer in any jurisdiction in Canada under applicable Canadian securities laws and generally is not permitted to trade in Canadian securities and may be prohibited from selling certain securities and products in certain jurisdictions in Canada. If you wish to trade in any Canadian securities or other products in Canada please contact Goldman Sachs Canada Inc., an affiliate of The Goldman Sachs Group Inc., or another registered Canadian dealer. **Hong Kong:** Further information on the securities of covered companies referred to in this research may be obtained on request from Goldman Sachs (Asia) L.L.C. **India:** Further information on the subject company or companies referred to in this research may be obtained from Goldman Sachs (India) Securities Private Limited, Research Analyst - SEBI Registration Number INH000001493, 10th Floor, Ascent-Worli, Sudam Kalu Ahire Marg, Worli, Mumbai-400 025, India, Corporate Identity Number U74140MH2006FTC160634, Phone +91 22 6616 9000, Fax +91 22 6616 9001. Goldman Sachs may beneficially own 1% or more of the securities (as such term is defined in clause 2 (h) the Indian Securities Contracts (Regulation) Act, 1956) of the subject company or companies referred to in this research report. Registration granted by SEBI and certification from NISM in no way guarantee performance of the intermediary or provide any assurance of returns to investors. Goldman Sachs (India) Securities Private Limited compliance officer and investor grievance contact details, a copy of the annual compliance audit report and other relevant information and disclosures can be found at this link: https://www.goldmansachs.com/worldwide/india/research-analyst. **Japan:** See below. **Korea:** This research, and any access to it, is intended only for "professional investors" within the meaning of the Financial Services and Capital Markets Act, unless otherwise agreed by Goldman Sachs. Further information on the subject company or companies referred to in this research may be obtained from Goldman Sachs (Asia) L.L.C., Seoul Branch. **New Zealand:** Goldman Sachs New Zealand Limited and its affiliates are neither "registered banks" nor "deposit takers" (as defined in the Reserve Bank of New Zealand Act 1989) in New Zealand. This research, and any access to it, is intended for "wholesale clients" (as defined in the Financial Advisers Act 2008) unless otherwise agreed by Goldman Sachs. A copy of certain Goldman Sachs Australia and New Zealand disclosure of interests is available at: https://www.goldmansachs.com/disclosures/australia-new-zealand/index.html. **Russia:** Research reports distributed in the Russian Federation are not advertising as defined in the Russian legislation, but are information and analysis not having product promotion as their main purpose and do not provide appraisal within the meaning of the Russian legislation on appraisal activity. Research reports do not constitute a personalized investment recommendation as defined in Russian laws and regulations, are not addressed to a specific client, and are prepared without analyzing the financial circumstances, investment profiles or risk profiles of clients. Goldman Sachs assumes no responsibility for any investment decisions that may be taken by a client or any other person based on this research report. **Singapore:** Goldman Sachs (Singapore) Pte. (Company Number: 198602165W), which is regulated by the Monetary Authority of Singapore, accepts legal responsibility for this research, and should be contacted with respect to any matters arising from, or in connection with, this research. **Taiwan:** This material is for reference only and must not be reprinted without permission. Investors should carefully consider their own investment risk. Investment results are the responsibility of the individual investor. **United Kingdom:** Persons who would be categorized as retail clients in the United Kingdom, as such term is defined in the rules of the Financial Conduct Authority, should read this research in conjunction with prior Goldman Sachs research on the covered companies referred to herein and should refer to the risk warnings that have been sent to them by Goldman Sachs International. A copy of these risks warnings, and a glossary of certain financial terms used in this report, are available from Goldman Sachs International on request.

European Union and United Kingdom: Disclosure information in relation to Article 6 (2) of the European Commission Delegated Regulation (EU) (2016/958) supplementing Regulation (EU) No 596/2014 of the European Parliament and of the Council (including as that Delegated Regulation is implemented into United Kingdom domestic law and regulation following the United Kingdom's departure from the European Union and the European Economic Area) with regard to regulatory technical standards for the technical arrangements for objective presentation of investment recommendations or other information recommending or suggesting an investment strategy and for disclosure of particular interests or indications of conflicts of interest is available at https://www.gs.com/disclosures/europeanpolicy.html which states the European Policy for Managing Conflicts of Interest in Connection with Investment Research.

Japan: Goldman Sachs Japan Co., Ltd. is a Financial Instrument Dealer registered with the Kanto Financial Bureau under registration number Kinsho 69, and a member of Japan Securities Dealers Association, Financial Futures Association of Japan Type II Financial Instruments Firms Association, and Investment Management Association of Japan. Sales and purchase of equities are subject to commission pre-determined with clients plus consumption tax. See company-specific disclosures as to any applicable disclosures required by Japanese stock exchanges, the Japanese Securities Dealers Association or the Japanese Securities Finance Company.

Ratings, coverage universe and related definitions

Buy (B), Neutral (N), Sell (S) Analysts recommend stocks as Buys or Sells for inclusion on various regional Investment Lists. Being assigned a Buy or Sell on an Investment List is determined by a stock's total return potential relative to its coverage universe. Any stock not assigned as a Buy or a Sell on an Investment List with an active rating (i.e., a stock that is not Rating Suspended, Not Rated, Early-Stage Biotech, Coverage Suspended or Not Covered), is deemed Neutral. Each region manages Regional Conviction Lists, which are selected from Buy rated stocks on the respective region's Investment Lists and represent investment recommendations focused on the size of the total return potential and/or the likelihood of the realization of the return across their respective areas of coverage. The addition or removal of stocks from such Conviction Lists are managed by the Investment Review Committee or other designated committee in each respective region and do not represent a change in the analysts' investment rating for such stocks.

Total return potential represents the upside or downside differential between the current share price and the price target, including all paid or anticipated dividends, expected during the time horizon associated with the price target. Price targets are required for all covered stocks. The total return potential, price target and associated time horizon are stated in each report adding or reiterating an Investment List membership.

Coverage Universe: A list of all stocks in each coverage universe is available by primary analyst, stock and coverage universe at https://www.gs.com/research/hedge.html.

Not Rated (NR). The investment rating, target price and earnings estimates (where relevant) are removed pursuant to Goldman Sachs policy when Goldman Sachs is acting in an advisory capacity in a merger or in a strategic transaction involving this company, when there are legal, regulatory or policy constraints due to Goldman Sachs' involvement in a transaction, and in certain other circumstances. **Early-Stage Biotech (ES).** An investment rating and a target price are not assigned pursuant to Goldman Sachs policy when this company has neither a drug, treatment or medical device that has passed a Phase II clinical trial nor a license to distribute a post-Phase II drug, treatment or medical device. **Rating Suspended (RS).** Goldman Sachs Research has suspended the investment rating and price target for this stock, because there is not a sufficient fundamental basis for determining an investment rating or target price. The previous investment rating and target price, if any, are no longer in effect for this stock and should not be relied upon. **Coverage Suspended (CS).** Goldman Sachs has suspended coverage of this company. **Not Covered (NC).** Goldman Sachs does not cover this company.

Global product; distributing entities

Goldman Sachs Global Investment Research produces and distributes research products for clients of Goldman Sachs on a global basis. Analysts based in Goldman Sachs offices around the world produce research on industries and companies, and research on macroeconomics, currencies, commodities and portfolio strategy. This research is disseminated in Australia by Goldman Sachs Australia Pty Ltd (ABN 21 006 797 897); in Brazil by Goldman Sachs do Brasil Corretora de Títulos e Valores Mobiliários S.A.; Public Communication Channel Goldman Sachs Brazil: 0800 727 5764 and / or

contatogoldmanbrasil@gs.com. Available Weekdays (except holidays), from 9am to 6pm. Canal de Comunicação com o Público Goldman Sachs Brasil: 0800 727 5764 e/ou contatogoldmanbrasil@gs.com. Horário de funcionamento: segunda-feira à sexta-feira (exceto feriados), das 9h às 18h; in Canada by Goldman Sachs & Co. LLC; in Hong Kong by Goldman Sachs (Asia) L.L.C.; in India by Goldman Sachs (India) Securities Private Ltd.; in Japan by Goldman Sachs Japan Co., Ltd.; in the Republic of Korea by Goldman Sachs (Asia) L.L.C., Seoul Branch; in New Zealand by Goldman Sachs New Zealand Limited; in Russia by OOO Goldman Sachs; in Singapore by Goldman Sachs (Singapore) Pte. (Company Number: 198602165W); and in the United States of America by Goldman Sachs & Co. LLC. Goldman Sachs International has approved this research in connection with its distribution in the United Kingdom.

Goldman Sachs International ("GSI"), authorised by the Prudential Regulation Authority ("PRA") and regulated by the Financial Conduct Authority ("FCA") and the PRA, has approved this research in connection with its distribution in the United Kingdom.

European Economic Area: Goldman Sachs Bank Europe SE ("GSBE") is a credit institution incorporated in Germany and, within the Single Supervisory Mechanism, subject to direct prudential supervision by the European Central Bank and in other respects supervised by German Federal Financial Supervisory Authority (Bundesanstalt für Finanzdienstleistungsaufsicht, BaFin) and Deutsche Bundesbank and disseminates research within the European Economic Area.

General disclosures

This research is for our clients only. Other than disclosures relating to Goldman Sachs, this research is based on current public information that we consider reliable, but we do not represent it is accurate or complete, and it should not be relied on as such. The information, opinions, estimates and forecasts contained herein are as of the date hereof and are subject to change without prior notification. We seek to update our research as appropriate, but various regulations may prevent us from doing so. Other than certain industry reports published on a periodic basis, the large majority of reports are published at irregular intervals as appropriate in the analyst's judgment.

Goldman Sachs conducts a global full-service, integrated investment banking, investment management, and brokerage business. We have investment banking and other business relationships with a substantial percentage of the companies covered by Global Investment Research. Goldman Sachs & Co. LLC, the United States broker dealer, is a member of SIPC (https://www.sipc.org).

Our salespeople, traders, and other professionals may provide oral or written market commentary or trading strategies to our clients and principal trading desks that reflect opinions that are contrary to the opinions expressed in this research. Our asset management area, principal trading desks and investing businesses may make investment decisions that are inconsistent with the recommendations or views expressed in this research.

The analysts named in this report may have from time to time discussed with our clients, including Goldman Sachs salespersons and traders, or may discuss in this report, trading strategies that reference catalysts or events that may have a near-term impact on the market price of the equity securities discussed in this report, which impact may be directionally counter to the analyst's published price target expectations for such stocks. Any such trading strategies are distinct from and do not affect the analyst's fundamental equity rating for such stocks, which rating reflects a stock's return potential relative to its coverage universe as described herein.

We and our affiliates, officers, directors, and employees will from time to time have long or short positions in, act as principal in, make a market or act as liquidity provider in, and buy or sell, any securities, derivatives, or other financial instruments referred to in this research (including any financial instruments issued by the companies referred to herein), unless otherwise prohibited by regulation or Goldman Sachs policy.

The views attributed to third party presenters at Goldman Sachs arranged conferences, including individuals from other parts of Goldman Sachs, do not necessarily reflect those of Global Investment Research and are not an official view of Goldman Sachs.

Any third party referenced herein, including any salespeople, traders and other professionals or members of their household, may have positions in the products mentioned that are inconsistent with the views expressed by analysts named in this report.

This research is not an offer to sell or the solicitation of an offer to buy any security in any jurisdiction where such an offer or solicitation would be illegal. It does not constitute a personal recommendation or take into account the particular investment objectives, financial situations, or needs of individual clients. Clients should consider whether any advice or recommendation in this research is suitable for their particular circumstances and, if appropriate, seek professional advice, including tax advice. The price and value of investments referred to in this research and the income from them may fluctuate. Past performance is not a guide to future performance, future returns are not guaranteed, and a loss of original capital may occur. Fluctuations in exchange rates could have adverse effects on the value or price of, or income derived from, certain investments.

Certain transactions, including those involving futures, options, and other derivatives, give rise to substantial risk and are not suitable for all investors. Investors should review current options and futures disclosure documents which are available from Goldman Sachs sales representatives or at https://www.theocc.com/about/publications/character-risks.jsp and https://www.goldmansachs.com/disclosures/cftc_fcm_disclosures. Transaction costs may be significant in option strategies calling for multiple purchase and sales of options such as spreads. Supporting documentation will be supplied upon request.

Differing Levels of Service provided by Global Investment Research: The level and types of services provided to you by Goldman Sachs Global Investment Research may vary as compared to that provided to internal and other external clients of GS, depending on various factors including your individual preferences as to the frequency and manner of receiving communication, your risk profile and investment focus and perspective (e.g., marketwide, sector specific, long term, short term), the size and scope of your overall client relationship with GS, and legal and regulatory constraints. As an example, certain clients may request to receive notifications when research on specific securities is published, and certain clients may request that specific data underlying analysts' fundamental analysis available on our internal client websites be delivered to them electronically through data feeds or otherwise. No change to an analyst's fundamental research views (e.g., ratings, price targets, or material changes to earnings estimates for equity securities), will be communicated to any client prior to inclusion of such information in a research report broadly disseminated through electronic publication to our internal client websites or through other means, as necessary, to all clients who are entitled to receive such reports.

All research reports are disseminated and available to all clients simultaneously through electronic publication to our internal client websites. Not all research content is redistributed to our clients or available to third-party aggregators, nor is Goldman Sachs responsible for the redistribution of our research by third party aggregators. For research, models or other data related to one or more securities, markets or asset classes (including related services) that may be available to you, please contact your GS representative or go to https://research.gs.com.

Disclosure information is also available at https://www.gs.com/research/hedge.html or from Research Compliance, 200 West Street, New York, NY 10282.

Kinsus (3189.TW)

GM to further expand in 2027/28 with a better high-end ABF exposure/market share, without seeing any order cut; Buy

3189.TW	12m Price Target: **NT$1,515.00**	Price: **NT$745.00**	Upside: **103.4%**

We hosted Kinsus' 3Q26 post-result follow-up call today (Nov 10th). Key takeaways include:

(1) Kinsus mentioned it is getting more market share from existing server CPU customers, AI GPU customer, and ASIC customers. Despite not having much market share gain opportunity in its AI server CPU products, the company mentioned the volume growth could still be 150% YoY in AI server CPU shipment in 2027 vs. 2026, suggesting a good revenue/GM growth outlook going into 2027/28.

(2) Kinsus guides 2027/28 revenue to go up by at least 30% YoY each year while GM should be at least 35/40% in 2027/28, considering the orders/capacity/UTR/product mix differences, despite the key upside risk will be on like for like base pricing hike (the guidance above does not include any pricing hike assumption, but this could lift the revenue growth by another 15ppt in both years although not guaranteed, per the company).

(3) For 4Q26, the company guided revenue to go up by 10% QoQ, with GM being expanded into 35% (from ~34% in 3Q26), despite a much more favorable than 3Q product mix and ~5-10% pricing hike on ABF & BT substrates. For 1Q27, the company expects some seasonal issues on consumer electronics and contact lens, and believes revenue should be flat to slightly up QoQ, despite possible GM slowdown during the low season.

(4) In terms of the future investment plan, Kinsus mentioned it will only need to invest in the land/infrastructure/construction etc. while end customers will take care of the equipment; normally, equipment accounted for 60% of the total CAPEX while the rest only accounts for 40% of the total investment.

(5) Kinsus mentioned it now holds ~70% of the AI server CPU substrate market share, and the company believes its market share should be pretty stable in this product cycle. For AI GPU, Kinsus

Source: Company data, Goldman Sachs Research estimates.

mentioned it expects its share to increase from 10% now to 30% in 2027 for its existing customer's supply chain. Kinsus also mentioned it is working on several ASIC customers' substrates product, which could also be the key revenue/profit driver for 2027 and beyond.

(6) In terms of the order forecast, the company mentioned it has not yet seen any order cut or order delay on its ABF substrates business, but the company continues to maintain its cautious but positive view on the overall substrate industry outlook.

Investment view

We are positive on Kinsus' 3Q result (GM expanded by 7.8ppt QoQ in 3Q - see here), and believe the company's GM expansion trend will continue in coming quarters, despite the company only guiding 1ppt QoQ growth on GM in 4Q (however, the company is also giving a conservative guidance on profitability. Kinsus only guided GM to be 27-28% in 3Q26, but it ended up with 33.9% in its 3Q result). Moreover, we believe Kinsus' proactive capacity expansion plan (1 new plant every year from 2025 to 2029) will start to help the company to outperform peers from 2Q27 (the new K6-B plant starts contributing revenue from 2Q27) which should also help the company to enjoy better profitability in coming quarters, as the new plants will focus on high-end projects, whose GM is generally 10ppt+ higher than the company's average level).

Overall, we maintain our Buy rating on Kinsus, and we expect the better market share in AI server CPU and its better position in the high-end ABF substrate industry to strengthen into the long term.

We maintain our Buy rating with an unchanged 12m TP of NT$1,515, based on the same 19.5x 2028E EPS, which is +2.0x STDV higher than Kinsus' past upcycle average P/E (14.2x).

Investment Thesis - Kinsus

Kinsus is one of the key IC substrates suppliers globally with ~10% ABF/BT substrates market share in 2024, with ~18% of total 2025 revenue contributed by its contact lens subsidiary, Pegavision (6941.TW, Not Covered). With our view that the ABF substrate shortage started from 2Q26 (ABF substrate return to supply demand balance from late 2025), we believe Kinsus' performance will continue to improve compared with high-end ABF peers considering the company's increasing market share in the high-end ABF substrate market; however, ~36% of the company's revenue was contributed by BT substrates in 2025 and 30% of the company's ABF revenue is from non-LTA customers, which we believe will continue to enjoy a better pricing outlook. As a result, we believe Kinsus' earnings outlook should continue to be strong (~118% 2026-29E CAGR), mainly driven by a better BT substrate and non-LTA ABF substrate pricing outlook, despite the unfavorable demand outlook before 1H26. We believe Kinsus is an experienced substrate supplier with a clear capacity expansion plan that can also upgrade its product portfolio in the long term. We believe we are at the beginning of an industry upcycle, making us positive on Kinsus' stock performance over the next 12 months.

Price Target Risks and Methodology - Kinsus

Valuation methodology: Our 12-month target price of NT$1,515 for Kinsus is based on 19.5x 2028E P/E, which is +2.0x STDV higher than Kinsus' past upcycle average P/E

(14.2x).

Key downside risks: (1) Slower-than-expected PC demand recovery, (2) Slower-than-expected ABF substrates pricing upgrading outlook, (3) Slower/Less-than-expected AI server orders from 2H26.

GS Factor Profile

The Goldman Sachs Factor Profile provides investment context for a stock by comparing key attributes to the market (i.e. our universe of rated stocks) and its sector peers. The four key attributes depicted are: Growth, Financial Returns, Multiple (e.g. valuation) and Integrated (a composite of Growth, Financial Returns and Multiple). Growth, Financial Returns and Multiple are calculated by using normalized ranks for specific metrics for each stock. The normalized ranks for the metrics are then averaged and converted into percentiles for the relevant attribute. The precise calculation of each metric may vary depending on the fiscal year, industry and region, but the standard approach is as follows:

Growth is based on a stock's forward-looking sales growth, EBITDA growth and EPS growth (for financial stocks, only EPS and sales growth), with a higher percentile indicating a higher growth company. **Financial Returns** is based on a stock's forward-looking ROE, ROCE and CROCI (for financial stocks, only ROE), with a higher percentile indicating a company with higher financial returns. **Multiple** is based on a stock's forward-looking P/E, P/B, price/dividend (P/D), EV/EBITDA, EV/FCF and EV/Debt Adjusted Cash Flow (DACF) (for financial stocks, only P/E, P/B and P/D), with a higher percentile indicating a stock trading at a higher multiple. The **Integrated** percentile is calculated as the average of the Growth percentile, Financial Returns percentile and (100% - Multiple percentile).

Financial Returns and Multiple use the Goldman Sachs analyst forecasts at the fiscal year-end at least three quarters in the future. Growth uses inputs for the fiscal year at least seven quarters in the future compared with the year at least three quarters in the future (on a per-share basis for all metrics).

For a more detailed description of how we calculate the GS Factor Profile, please contact your GS representative.

M&A Rank

Across our global coverage, we examine stocks using an M&A framework, considering both qualitative factors and quantitative factors (which may vary across sectors and regions) to incorporate the potential that certain companies could be acquired. We then assign a M&A rank as a means of scoring companies under our rated coverage from 1 to 3, with 1 representing high (30%-50%) probability of the company becoming an acquisition target, 2 representing medium (15%-30%) probability and 3 representing low (0%-15%) probability. For companies ranked 1 or 2, in line with our standard departmental guidelines we incorporate an M&A component into our target price. M&A rank of 3 is considered immaterial and therefore does not factor into our price target, and may or may not be discussed in research.

Quantum

Quantum is Goldman Sachs' proprietary database providing access to detailed financial statement histories, forecasts and ratios. It can be used for in-depth analysis of a single company, or to make comparisons between companies in different sectors and markets.

Disclosures

The rating(s) for Kinsus is/are relative to the other companies in its/their coverage universe: AVC, AWSC, Airtac International Group, Asus, Auras, Chenbro, Co-Tech Development Corp., Compal, Delta Electronics, E Ink, Elite Material, Fositek, GCE, Gigabyte, HTC Corp., Hiwin Corp., ITEQ Corp, Inventec, Kinsus, Lotes, NYPCB, Pegatron, Quanta, Shengyi Tech, Shennan Circuits, Taiwan Union Technology Corp., Unimicron Technology, Victory Giant, WNC, WUS, Win Semiconductors Corp., Yageo Corp., Zhen Ding Technology Holding

Company-specific regulatory disclosures

The following disclosures relate to relationships between The Goldman Sachs Group, Inc. (with its affiliates, "Goldman Sachs") and companies covered by Goldman Sachs Global Investment Research and referred to in this research.

Goldman Sachs beneficially owned 1% or more of common equity (excluding positions managed by affiliates and business units not required to be aggregated under US securities law) as of the month end preceding this report: Kinsus (NT$745.00)

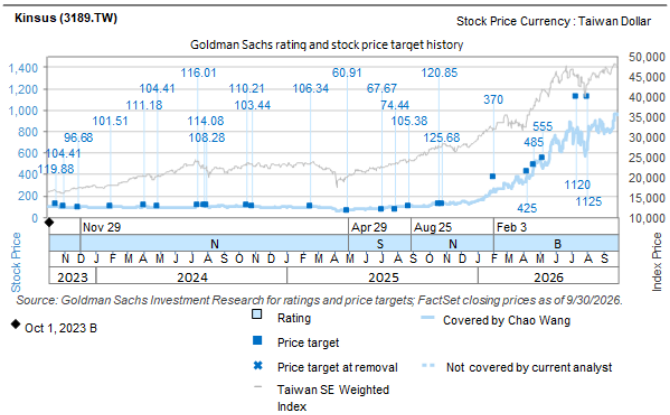
Distribution of ratings/investment banking relationships

Goldman Sachs Investment Research global Equity coverage universe

	Rating Distribution			Investment Banking Relationships		
	Buy	Hold	Sell	Buy	Hold	Sell
Global	50%	34%	16%	65%	58%	43%

As of October 1, 2026, Goldman Sachs Global Investment Research had investment ratings on 3,094 equity securities. Goldman Sachs assigns stocks as Buys and Sells on various regional Investment Lists; stocks not so assigned are deemed Neutral. Such assignments equate to Buy, Hold and Sell for the purposes of the above disclosure required by the FINRA Rules. See 'Ratings, Coverage universe and related definitions' below. The Investment Banking Relationships chart reflects the percentage of subject companies within each rating category for whom Goldman Sachs has provided investment banking services within the previous twelve months.

Price target and rating history chart(s)



The price targets shown should be considered in the context of all prior published Goldman Sachs research, which may or may not have included price targets, as well as developments relating to the company, its industry and financial markets.

Regulatory disclosures

Disclosures required by United States laws and regulations

See company-specific regulatory disclosures above for any of the following disclosures required as to companies referred to in this report: manager or co-manager in a pending transaction; 1% or other ownership; compensation for certain services; types of client relationships; managed/co-managed public offerings in prior periods; directorships; registered market maker. Goldman Sachs trades or may trade as a principal in debt securities (or in related derivatives) of issuers discussed in this report.

The following are additional required disclosures: **Ownership and material conflicts of interest:** Goldman Sachs policy prohibits its analysts, professionals reporting to analysts and members of their households from owning securities of any company in the analyst's area of coverage. **Analyst compensation:** Analysts are paid in part based on the profitability of Goldman Sachs, which includes investment banking revenues. **Analyst as officer or director:** Goldman Sachs policy generally prohibits its analysts, persons reporting to analysts or members of their households from serving as an officer, director or advisor of any company in the analyst's area of coverage. **Non-U.S. Analysts:** Non-U.S. analysts may not be associated persons of Goldman Sachs & Co. LLC and therefore may not be subject to FINRA Rule 2241 or FINRA Rule 2242 restrictions on communications with a subject company, public appearances and trading in securities covered by the analysts.

Additional disclosures required under the laws and regulations of jurisdictions other than the United States

The following disclosures are those required by the jurisdiction indicated, except to the extent already made above pursuant to United States laws and regulations. **Australia:** Goldman Sachs Australia Pty Ltd and its affiliates are not authorised deposit-taking institutions (as that term is defined in the Banking Act 1959 (Cth)) in Australia and do not provide banking services, nor carry on a banking business, in Australia. This research, and any access to it, is intended only for "wholesale clients" within the meaning of the Australian Corporations Act, unless otherwise agreed by Goldman Sachs. In producing research reports, members of Global Investment Research of Goldman Sachs Australia may attend site visits and other meetings hosted by the companies and other entities which are the subject of its research reports. In some instances the costs of such site visits or meetings may be met in part or in whole by the issuers concerned if Goldman Sachs Australia considers it is appropriate and reasonable in the specific circumstances relating to the site visit or meeting. To the extent that the contents of this document contains any financial product advice, it is general advice only and has been prepared by Goldman Sachs without taking into account a client's objectives, financial situation or needs. A client should, before acting on any such advice, consider the appropriateness of the advice having regard to the client's own objectives, financial situation and needs. A copy of certain Goldman Sachs Australia and New Zealand disclosure of interests and a copy of Goldman Sachs' Australian Sell-Side Research Independence Policy Statement are available at: https://www.goldmansachs.com/disclosures/australia-new-zealand/index.html. **Brazil:** Disclosure information in relation to CVM Resolution n. 20 is available at https://www.gs.com/worldwide/brazil/area/gir/index.html. Where applicable, the Brazil-registered analyst primarily responsible for the content of this research report, as defined in Article 20 of CVM Resolution n. 20, is the first author named at the beginning of this report, unless indicated otherwise at the end of the text. **Canada:** This information is being provided to you for information purposes only and is not, and under no circumstances should be construed as, an advertisement, offering or solicitation by Goldman Sachs & Co. LLC for purchasers of securities in Canada to trade in any Canadian security. Goldman Sachs & Co. LLC is not registered as a dealer in any jurisdiction in Canada under applicable Canadian securities laws and generally is not permitted to trade in Canadian securities and may be prohibited from selling certain securities and products in certain jurisdictions in Canada. If you wish to trade in any Canadian securities or other products in Canada please contact Goldman Sachs Canada Inc., an affiliate of The Goldman Sachs Group Inc., or another registered Canadian dealer. **Hong Kong:** Further information on the securities of covered companies referred to in this research may be obtained on request from Goldman Sachs (Asia) L.L.C. **India:** Further information on the subject company or companies referred to in this research may be obtained from Goldman Sachs (India) Securities Private Limited, Research Analyst - SEBI Registration Number INH000001493, 10th Floor, Ascent-Worli, Sudam Kalu Ahire Marg, Worli, Mumbai-400 025, India, Corporate Identity Number U74140MH2006FTC160634, Phone +91 22 6616 9000, Fax +91 22 6616 9001. Goldman Sachs may beneficially own 1% or more of the securities (as such term is defined in clause 2 (h) the Indian Securities Contracts (Regulation) Act, 1956) of the subject company or companies referred to in this research report. Registration granted by SEBI and certification from NISM in no way guarantee performance of the intermediary or provide any assurance of returns to investors. Goldman Sachs (India) Securities Private Limited compliance officer and investor grievance contact details, a copy of the annual compliance audit report and other relevant information and disclosures can be found at this link: https://www.goldmansachs.com/worldwide/india/research-analyst. **Japan:** See below. **Korea:** This research, and any access to it, is intended only for "professional investors" within the meaning of the Financial Services and Capital Markets Act, unless otherwise agreed by Goldman Sachs. Further information on the subject company or companies referred to in this research may be obtained from Goldman Sachs (Asia) L.L.C., Seoul Branch. **New Zealand:** Goldman Sachs New Zealand Limited and its affiliates are neither "registered banks" nor "deposit takers" (as defined in the Reserve Bank of New Zealand Act 1989) in New Zealand. This research, and any access to it, is intended for "wholesale clients" (as defined in the Financial Advisers Act 2008) unless otherwise agreed by Goldman Sachs. Research reports do not constitute a personalized investment recommendation as defined in Russian laws and regulations, are not addressed to a specific client, and are prepared without analyzing the financial circumstances, investment profiles or risk profiles of clients. Goldman Sachs assumes no responsibility for any investment decisions that may be taken by a client or any other person based on this research report. **Singapore:** Goldman Sachs (Singapore) Pte. (Company Number: 198602165W), which is regulated by the Monetary Authority of Singapore, accepts legal responsibility for this research, and should be contacted with respect to any matters arising from, or in connection with, this research. **Taiwan:** This material is for reference only and must not be reprinted without permission. Investors should carefully consider their own investment risk. Investment results are the responsibility of the individual investor. **United Kingdom:** Persons who would be categorized as retail clients in the United Kingdom, as such term is defined in the rules of the Financial Conduct Authority, should read this research in conjunction with prior Goldman Sachs research on the covered companies referred to herein and should refer to the risk warnings that have been sent to them by Goldman Sachs International. A copy of these risks warnings, and a glossary of certain financial terms used in this report, are available from Goldman Sachs International on request.

European Union and United Kingdom: Disclosure information in relation to Article 6 (2) of the European Commission Delegated Regulation (EU) (2016/958) supplementing Regulation (EU) No 596/2014 of the European Parliament and of the Council (including as that Delegated Regulation is implemented into United Kingdom domestic law and regulation following the United Kingdom's departure from the European Union and the European Economic Area) with regard to regulatory technical standards for the technical arrangements for objective presentation of investment recommendations or other information recommending or suggesting an investment strategy and for disclosure of particular interests or indications of conflicts of interest is available at https://www.gs.com/disclosures/europeanpolicy.html which states the European Policy for Managing Conflicts of Interest in Connection with Investment Research.

Japan: Goldman Sachs Japan Co., Ltd. is a Financial Instrument Dealer registered with the Kanto Financial Bureau under registration number Kinsho 69, and a member of Japan Securities Dealers Association, Financial Futures Association of Japan Type II Financial Instruments Firms Association, and Investment Management Association of Japan. Sales and purchase of equities are subject to commission pre-determined with clients plus consumption tax. See company-specific disclosures as to any applicable disclosures required by Japanese stock exchanges, the Japanese Securities Dealers Association or the Japanese Securities Finance Company.

Ratings, coverage universe and related definitions

Buy (B), Neutral (N), Sell (S) Analysts recommend stocks as Buys or Sells for inclusion on various regional Investment Lists. Being assigned a Buy or Sell on an Investment List is determined by a stock's total return potential relative to its coverage universe. Any stock not assigned as a Buy or a Sell on an Investment List with an active rating (i.e., a stock that is not Rating Suspended, Not Rated, Early-Stage Biotech, Coverage Suspended or Not Covered), is deemed Neutral. Each region manages Regional Conviction Lists, which are selected from Buy rated stocks on the respective region's Investment Lists and represent investment recommendations focused on the size of the total return potential and/or the likelihood of the realization of the return across their respective areas of coverage. The addition or removal of stocks from such Conviction Lists are managed by the Investment Review Committee or other designated committee in each respective region and do not represent a change in the analysts' investment rating for such stocks.

Total return potential represents the upside or downside differential between the current share price and the price target, including all paid or anticipated dividends, expected during the time horizon associated with the price target. Price targets are required for all covered stocks. The total return potential, price target and associated time horizon are stated in each report adding or reiterating an Investment List membership.

Coverage Universe: A list of all stocks in each coverage universe is available by primary analyst, stock and coverage universe at https://www.gs.com/research/hedge.html.

Not Rated (NR). The investment rating, target price and earnings estimates (where relevant) are removed pursuant to Goldman Sachs policy when Goldman Sachs is acting in an advisory capacity in a merger or in a strategic transaction involving this company, when there are legal, regulatory or

policy constraints due to Goldman Sachs' involvement in a transaction, and in certain other circumstances. **Early-Stage Biotech (ES).** An investment rating and a target price are not assigned pursuant to Goldman Sachs policy when this company has neither a drug, treatment or medical device that has passed a Phase II clinical trial nor a license to distribute a post-Phase II drug, treatment or medical device. **Rating Suspended (RS).** Goldman Sachs Research has suspended the investment rating and price target for this stock, because there is not a sufficient fundamental basis for determining an investment rating or target price. The previous investment rating and target price, if any, are no longer in effect for this stock and should not be relied upon. **Coverage Suspended (CS).** Goldman Sachs has suspended coverage of this company. **Not Covered (NC).** Goldman Sachs does not cover this company.

Global product; distributing entities

Goldman Sachs Global Investment Research produces and distributes research products for clients of Goldman Sachs on a global basis. Analysts based in Goldman Sachs offices around the world produce research on industries and companies, and research on macroeconomics, currencies, commodities and portfolio strategy. Available Weekdays (except holidays), from 9am to 6pm. Canal de Comunicação com o Público Goldman Sachs Brasil: 0800 727 5764 e/ou contatogoldmanbrasil@gs.com. Horário de funcionamento: segunda-feira à sexta-feira (exceto feriados), das 9h às 18h; in Canada by Goldman Sachs & Co. LLC; in Hong Kong by Goldman Sachs (Asia) L.L.C.; in India by Goldman Sachs (India) Securities Private Ltd.; in Japan by Goldman Sachs Japan Co., Ltd.; in the Republic of Korea by Goldman Sachs (Asia) L.L.C., Seoul Branch; in New Zealand by Goldman Sachs New Zealand Limited; in Russia by OOO Goldman Sachs; in Singapore by Goldman Sachs (Singapore) Pte. (Company Number: 198602165W); and in the United States of America by Goldman Sachs & Co. LLC. Goldman Sachs International has approved this research in connection with its distribution in the United Kingdom.

Goldman Sachs International ("GSI"), authorised by the Prudential Regulation Authority ("PRA") and regulated by the Financial Conduct Authority ("FCA") and the PRA, has approved this research in connection with its distribution in the United Kingdom.

European Economic Area: Goldman Sachs Bank Europe SE ("GSBE") is a credit institution incorporated in Germany and, within the Single Supervisory Mechanism, subject to direct prudential supervision by the European Central Bank and in other respects supervised by German Federal Financial Supervisory Authority (Bundesanstalt für Finanzdienstleistungsaufsicht, BaFin) and Deutsche Bundesbank and disseminates research within the European Economic Area.

General disclosures

This research is for our clients only. Other than disclosures relating to Goldman Sachs, this research is based on current public information that we consider reliable, but we do not represent it is accurate or complete, and it should not be relied on as such. The information, opinions, estimates and forecasts contained herein are as of the date hereof and are subject to change without prior notification. We seek to update our research as appropriate, but various regulations may prevent us from doing so. Other than certain industry reports published on a periodic basis, the large majority of reports are published at irregular intervals as appropriate in the analyst's judgment.

Goldman Sachs conducts a global full-service, integrated investment banking, investment management, and brokerage business. We have investment banking and other business relationships with a substantial percentage of the companies covered by Global Investment Research. Goldman Sachs & Co. LLC, the United States broker dealer, is a member of SIPC (https://www.sipc.org).

Our salespeople, traders, and other professionals may provide oral or written market commentary or trading strategies to our clients and principal trading desks that reflect opinions that are contrary to the opinions expressed in this research. Our asset management area, principal trading desks and investing businesses may make investment decisions that are inconsistent with the recommendations or views expressed in this research.

The analysts named in this report may have from time to time discussed with our clients, including Goldman Sachs salespersons and traders, or may discuss in this report, trading strategies that reference catalysts or events that may have a near-term impact on the market price of the equity securities discussed in this report, which impact may be directionally counter to the analyst's published price target expectations for such stocks. Any such trading strategies are distinct from and do not affect the analyst's fundamental equity rating for such stocks, which rating reflects a stock's return potential relative to its coverage universe as described herein.

We and our affiliates, officers, directors, and employees will from time to time have long or short positions in, act as principal in, make a market or act as liquidity provider in, and buy or sell, any securities, derivatives, or other financial instruments referred to in this research (including any financial instruments issued by the companies referred to herein), unless otherwise prohibited by regulation or Goldman Sachs policy.

The views attributed to third party presenters at Goldman Sachs arranged conferences, including individuals from other parts of Goldman Sachs, do not necessarily reflect those of Global Investment Research and are not an official view of Goldman Sachs.

Any third party referenced herein, including any salespeople, traders and other professionals or members of their household, may have positions in the products mentioned that are inconsistent with the views expressed by analysts named in this report.

This research is not an offer to sell or the solicitation of an offer to buy any security in any jurisdiction where such an offer or solicitation would be illegal. It does not constitute a personal recommendation or take into account the particular investment objectives, financial situations, or needs of individual clients. Clients should consider whether any advice or recommendation in this research is suitable for their particular circumstances and, if appropriate, seek professional advice, including tax advice. The price and value of investments referred to in this research and the income from them may fluctuate. Past performance is not a guide to future performance, future returns are not guaranteed, and a loss of original capital may occur. Fluctuations in exchange rates could have adverse effects on the value or price of, or income derived from, certain investments.

Certain transactions, including those involving futures, options, and other derivatives, give rise to substantial risk and are not suitable for all investors. Investors should review current options and futures disclosure documents which are available from Goldman Sachs sales representatives or at https://www.theocc.com/about/publications/character-risks.jsp and https://www.goldmansachs.com/disclosures/cftc_fcm_disclosures. Transaction costs may be significant in option strategies calling for multiple purchase and sales of options such as spreads. Supporting documentation will be supplied upon request.

Differing Levels of Service provided by Global Investment Research: The level and types of services provided to you by Goldman Sachs Global Investment Research may vary as compared to that provided to internal and other external clients of GS, depending on various factors including your individual preferences as to the frequency and manner of receiving communication, your risk profile and investment focus and perspective (e.g., marketwide, sector specific, long term, short term), the size and scope of your overall client relationship with GS, and legal and regulatory constraints. As an example, certain clients may request to receive notifications when research on specific securities is published, and certain clients may request that specific data underlying analysts' fundamental analysis available on our internal client websites be delivered to them electronically through data feeds or otherwise. No change to an analyst's fundamental research views (e.g., ratings, price targets, or material changes to earnings estimates for equity securities), will be communicated to any client prior to inclusion of such information in a research report broadly disseminated through electronic publication to our internal client websites or through other means, as necessary, to all clients who are entitled to receive such reports.

All research reports are disseminated and available to all clients simultaneously through electronic publication to our internal client websites. Not all research content is redistributed to our clients or available to third-party aggregators, nor is Goldman Sachs responsible for the redistribution of our research by third party aggregators. For research, models or other data related to one or more securities, markets or asset classes (including related services) that may be available to you, please contact your GS representative or go to https://research.gs.com.

Disclosure information is also available at https://www.gs.com/research/hedge.html or from Research Compliance, 200 West Street, New York, NY 10282.

Zhen Ding Technology Holding (4958.TW)

High margin new businesses have started to ramp up, pointing to significant GM expansion in coming years; Buy

4958.TW	12m Price Target: **NT$1,070.00**	Price: **NT$430.50**	Upside: **148.5%**

ZDT 3Q26 core business (OPI) was 10%/11% higher than GSe and BBG consensus, mainly thanks to the better than expected product mix (high margin & high growth sectors accounted for 27% of total revenue in 3Q26 vs. our estimate only at 20-25%). In 3Q26, ZDT GM was 1.8/2.6ppt higher than GSe/BBG consensus, and was 27.7% up 4.6ppt QoQ and 5.7ppt YoY, while the annual growth was only driven by the better product mix/ new business contribution (ABF/optical module/AI PCB), even considering these new businesses only accounted for 27% of total revenue.

OPEX in 3Q26 increased 24% QoQ and 56% YoY due mainly to the higher investment in the R&D projects for future new high-end AI PCB/ optical transceiver / substrates business, which was the main reason for the company to see a 0.7/1.4ppt higher than GSe/BBG consensus OPEX to sales ratio in 3Q26.

In 4Q26, we expect ZDT revenue to go up by ~29% QoQ, mainly due to the solid growth from the optical transceiver, substrates, and AI PCB businesses, with more new AI projects to ramp in 4Q26. Moreover, we expect the company's GM to further expand to ~30% (2.2ppt QoQ or 7.3ppt YoY) thanks to a better product mix (we expect high growth/high margin new business will account for 30-35% of the company's total revenue in 4Q26, whose average GM should be at least 40-45% in 4Q26).

Investment view

We remain positive on ZDT's AI business outlook, and expect the acceleration on ZDT's AI PCB/Substrates business revenue to further drive the company's overall GM level in coming years (we expect the two businesses' average GM could surpass 50% in 2027, thanks to the favorable supply demand condition) while we also expect the high GM optical transceiver (50%+ GM now) will also see at least 120% YoY growth in 2027, suggesting a significant GM expansion trend for the overall company in coming quarters/years.

Source: Company data, Goldman Sachs Research estimates.

We believe ZDT will continue to be the key share gainer in the AI PCB market. For AI GPU projects, we are seeing ZDT share increase from <5% in 2025 to ~10-15% in 2026, which, we believe, will further go up to 30%+ in long term (2028 and beyond), thanks to the company's proactive investment in the R&D on the latest PCB technology, as well as the company's solid investment in the AI grade PCB capacity. For AI ASIC projects, the company's market share is well below 10% for now, and only focus on some minor projects, but we do expect the company to become one of the major suppliers for AI ASIC projects in coming years, considering the company's more diversified production sites (mainland China + Taiwan + Thailand), while most of the AI ASIC customers are asking for non-Greater China capacity now.

For the optical transceiver business, we expect ZDT to see strong growth (50%+ 2025-29E CAGR), driven mainly by the ~50% 2026-28E volume demand CAGR and the company's proactive expansion in capacity in coming years (5x more capacity over the next two years). Moreover, ZDT currently holds an industry-leading yield of 90%+ for its optical module mSAP products (vs. peers only at 60-80% per our industry checks).

For its ABF substrate business, we believe the company will continue to have the ability to increase ABF price, supported by full UTR and strong demand, while the industry in our view remains conservative on its capacity expansion plans over the next 1-2 years relative to our forecasts. We expect ABF substrate LTA/Spot prices to increase by 10-15%/20%+ QoQ per quarter from 3Q26 through at least the end of 2027, with shortages likely extending into 2028 (see here). Overall, the business condition for ABF substrate is improving with price increase and we expect the business, which was loss making in 2025, to expand its GM to 40%+/50%+ by end of 2026/27.

Overall, we reiterate our Buy rating on ZDT, with a new 12m TP of NT$1,070 (from NT$1,025).

Earnings revisions

We revise up our 2026/27/28/29E net income estimate by 6/21/42/49% after seeing the solid GM expansion from these high-growth sectors, which we believe will continue to be the net income driver in the coming years. We believe the high growth sectors (AI PCB, substrates, optical module mSAP) will account for 50%+ of total revenue in 2028 and further expand to 60%+ in 2029, with a much higher than company average GM (50%+ in average in 2027-28), thus we revise up our 2027/28/29E GM by 5.4/10.7/12.4ppt vs. previous estimate.

Valuation

We revise up ZDT 12m TP from NT$1,025 to NT$1,070, still based on our SOTP based valuation methodology of (1) 3.5x blended P/B for ABF & BT substrate (in-line with upcycle industry average), (2) 15x P/E for high-growth AI server/switch related PCB (in line with industry average), and (3) 8x P/E for low-growth consumer electronics PCB (in-line with industry downcycle average valuation), and maintain our valuation period at 4Q26-3Q27, factoring in our earnings revision.

Source: Company data, Goldman Sachs Global Investment Research

Zhen Ding Technology (ZDT) is the global leading PCB supplier (top 1 in market share in sales) with 7-10% market share, and started its ABF substrate business from 2023 in Shenzhen, China, and has the highest ABF revenue exposure to the China market compared to all other ABF substrate suppliers. We believe ZDT will hold more than 40% ABF substrate market share in China by 2027E (up from 31% in 2024) and benefit the most from the strong and growing China ABF substrate market (53% 2025E-27E CAGR) due to the increasing in-sourcing ratio for the AI computing ASIC/GPU market in China. We also expect the increasing foldable smartphone penetration rate in the long term to drive ZDT's FPC TAM, and account for 50% of the company's total revenue in 2027E. We see further revenue upside potential from foldable phones. We are Buy rated mainly due to our positive view on the company's China ABF substrate business opportunity, which should not only drive ZDT's revenue growth, but also improve its OPM level in the long term. We see upside for the stock price considering the company's solid growth opportunity, and our TP implied P/E multiple is still lower than the company's past 10+ year P/E average, which we believe is fair considering the potential upside from China ABF substrate market and increasing foldable phone penetration rate.

Valuation: Our 12-month TP of NT$1,070 is based on a SOTP valuation methodology, including (1) 3.5x blended 2028E P/B for ABF & BT substrate, (2) 15x 2028E P/E for high-growth AI server/switch related PCB (in line with industry average), and (3) 8x 2028E P/E for low-growth consumer electronics PCB (in line with industry downcycle average valuation).

Key downside risks include: (1) weaker-than-expected iPhone demand or slower content upgrade, (2) delay in new substrate capacity or slower-than-expected yield rate ramp up progress, and (3) fiercer competition in China ABF market.

GS Factor Profile

The Goldman Sachs Factor Profile provides investment context for a stock by comparing key attributes to the market (i.e. our universe of rated stocks) and its sector peers. The four key attributes depicted are: Growth, Financial Returns, Multiple (e.g. valuation) and Integrated (a composite of Growth, Financial Returns and Multiple). Growth, Financial Returns and Multiple are calculated by using normalized ranks for specific metrics for each stock. The normalized ranks for the metrics are then averaged and converted into percentiles for the relevant attribute. The precise calculation of each metric may vary depending on the fiscal year, industry and region, but the standard approach is as follows:

Growth is based on a stock's forward-looking sales growth, EBITDA growth and EPS growth (for financial stocks, only EPS and sales growth), with a higher percentile indicating a higher growth company. **Financial Returns** is based on a stock's forward-looking ROE, ROCE and CROCI (for financial stocks, only ROE), with a higher percentile indicating a company with higher financial returns. **Multiple** is based on a stock's forward-looking P/E, P/B, price/dividend (P/D), EV/EBITDA, EV/FCF and EV/Debt Adjusted Cash Flow (DACF) (for financial stocks, only P/E, P/B and P/D), with a higher percentile indicating a stock trading at a higher multiple. The **Integrated** percentile is calculated as the average of the Growth percentile, Financial Returns percentile and (100% - Multiple percentile).

Financial Returns and Multiple use the Goldman Sachs analyst forecasts at the fiscal year-end at least three quarters in the future. Growth uses inputs for the fiscal year at least seven quarters in the future compared with the year at least three quarters in the future (on a per-share basis for all metrics).

For a more detailed description of how we calculate the GS Factor Profile, please contact your GS representative.

M&A Rank

Across our global coverage, we examine stocks using an M&A framework, considering both qualitative factors and quantitative factors (which may vary across sectors and regions) to incorporate the potential that certain companies could be acquired. We then assign a M&A rank as a means of scoring companies under our rated coverage from 1 to 3, with 1 representing high (30%-50%) probability of the company becoming an acquisition target, 2 representing medium (15%-30%) probability and 3 representing low (0%-15%) probability. For companies ranked 1 or 2, in line with our standard departmental guidelines we incorporate an M&A component into our target price. M&A rank of 3 is considered immaterial and therefore does not factor into our price target, and may or may not be discussed in research.

Quantum

Quantum is Goldman Sachs' proprietary database providing access to detailed financial statement histories, forecasts and ratios. It can be used for in-depth analysis of a single company, or to make comparisons between companies in different sectors and markets.

Disclosures

The rating(s) for Zhen Ding Technology Holding is/are relative to the other companies in its/their coverage universe: AVC, AWSC, Airtac International Group, Asus, Auras, Chenbro, Co-Tech Development Corp., Compal, Delta Electronics, E Ink, Elite Material, Fositek, GCE, Gigabyte, HTC Corp., Hiwin Corp., ITEQ Corp, Inventec, Kinsus, Lotes, NYPCB, Pegatron, Quanta, Shengyi Tech, Shennan Circuits, Taiwan Union Technology Corp., Unimicron Technology, Victory Giant, WNC, WUS, Win Semiconductors Corp., Yageo Corp., Zhen Ding Technology Holding

Company-specific regulatory disclosures

The following disclosures relate to relationships between The Goldman Sachs Group, Inc. (with its affiliates, "Goldman Sachs") and companies covered by Goldman Sachs Global Investment Research and referred to in this research.

Goldman Sachs beneficially owned 1% or more of common equity (excluding positions managed by affiliates and business units not required to be aggregated under US securities law) as of the month end preceding this report: Zhen Ding Technology Holding (NT$430.50)

Goldman Sachs expects to receive or intends to seek compensation for investment banking services in the next 3 months: Zhen Ding Technology Holding (NT$430.50)

Goldman Sachs had an investment banking services client relationship during the past 12 months with: Zhen Ding Technology Holding (NT$430.50)

Distribution of ratings/investment banking relationships

Goldman Sachs Investment Research global Equity coverage universe

	Rating Distribution			Investment Banking Relationships		
	Buy	Hold	Sell	Buy	Hold	Sell
Global	50%	34%	16%	65%	58%	43%

As of October 1, 2026, Goldman Sachs Global Investment Research had investment ratings on 3,094 equity securities. Goldman Sachs assigns stocks as Buys and Sells on various regional Investment Lists; stocks not so assigned are deemed Neutral. Such assignments equate to Buy, Hold and Sell for the purposes of the above disclosure required by the FINRA Rules. See 'Ratings, Coverage universe and related definitions' below. The Investment Banking Relationships chart reflects the percentage of subject companies within each rating category for whom Goldman Sachs has provided investment banking services within the previous twelve months.

A copy of these risks warnings, and a glossary of certain financial terms used in this report, are available from Goldman Sachs International on request.

European Union and United Kingdom: Disclosure information in relation to Article 6 (2) of the European Commission Delegated Regulation (EU) (2016/958) supplementing Regulation (EU) No 596/2014 of the European Parliament and of the Council (including as that Delegated Regulation is implemented into United Kingdom domestic law and regulation following the United Kingdom's departure from the European Union and the European Economic Area) with regard to regulatory technical standards for the technical arrangements for objective presentation of investment recommendations or other information recommending or suggesting an investment strategy and for disclosure of particular interests or indications of conflicts of interest is available at https://www.gs.com/disclosures/europeanpolicy.html which states the European Policy for Managing Conflicts of Interest in Connection with Investment Research.

Japan: Goldman Sachs Japan Co., Ltd. is a Financial Instrument Dealer registered with the Kanto Financial Bureau under registration number Kinsho 69, and a member of Japan Securities Dealers Association, Financial Futures Association of Japan Type II Financial Instruments Firms Association, and Investment Management Association of Japan. Sales and purchase of equities are subject to commission pre-determined with clients plus consumption tax. See company-specific disclosures as to any applicable disclosures required by Japanese stock exchanges, the Japanese Securities Dealers Association or the Japanese Securities Finance Company.

Ratings, coverage universe and related definitions

Buy (B), Neutral (N), Sell (S) Analysts recommend stocks as Buys or Sells for inclusion on various regional Investment Lists. Being assigned a Buy or Sell on an Investment List is determined by a stock's total return potential relative to its coverage universe. Any stock not assigned as a Buy or a Sell on an Investment List with an active rating (i.e., a stock that is not Rating Suspended, Not Rated, Early-Stage Biotech, Coverage Suspended or Not Covered), is deemed Neutral. Each region manages Regional Conviction Lists, which are selected from Buy rated stocks on the respective region's Investment Lists and represent investment recommendations focused on the size of the total return potential and/or the likelihood of the realization of the return across their respective areas of coverage. The addition or removal of stocks from such Conviction Lists are managed by the Investment Review Committee or other designated committee in each respective region and do not represent a change in the analysts' investment rating for such stocks.

Total return potential represents the upside or downside differential between the current share price and the price target, including all paid or anticipated dividends, expected during the time horizon associated with the price target. Price targets are required for all covered stocks. The total return potential, price target and associated time horizon are stated in each report adding or reiterating an Investment List membership.

Coverage Universe: A list of all stocks in each coverage universe is available by primary analyst, stock and coverage universe at https://www.gs.com/research/hedge.html.

Not Rated (NR). The investment rating, target price and earnings estimates (where relevant) are removed pursuant to Goldman Sachs policy when Goldman Sachs is acting in an advisory capacity in a merger or in a strategic transaction involving this company, when there are legal, regulatory or policy constraints due to Goldman Sachs' involvement in a transaction, and in certain other circumstances. **Early-Stage Biotech (ES).** An investment rating and a target price are not assigned pursuant to Goldman Sachs policy when this company has neither a drug, treatment or medical device that has passed a Phase II clinical trial nor a license to distribute a post-Phase II drug, treatment or medical device. **Rating Suspended (RS).** Goldman Sachs Research has suspended the investment rating and price target for this stock, because there is not a sufficient fundamental basis for determining an investment rating or target price. The previous investment rating and target price, if any, are no longer in effect for this stock and should not be relied upon. **Coverage Suspended (CS).** Goldman Sachs has suspended coverage of this company. **Not Covered (NC).** Goldman Sachs does not cover this company.

Global product; distributing entities

Goldman Sachs Global Investment Research produces and distributes research products for clients of Goldman Sachs on a global basis. Analysts based in Goldman Sachs offices around the world produce research on industries and companies, and research on macroeconomics, currencies, commodities and portfolio strategy. This research is disseminated in Australia by Goldman Sachs Australia Pty Ltd (ABN 21 006 797 897); in Brazil by Goldman Sachs

European Economic Area: Goldman Sachs Bank Europe SE ("GSBE") is a credit institution incorporated in Germany and, within the Single Supervisory Mechanism, subject to direct prudential supervision by the European Central Bank and in other respects supervised by German Federal Financial Supervisory Authority (Bundesanstalt für Finanzdienstleistungsaufsicht, BaFin) and Deutsche Bundesbank and disseminates research within the European Economic Area.

General disclosures

This research is for our clients only. Other than disclosures relating to Goldman Sachs, this research is based on current public information that we consider reliable, but we do not represent it is accurate or complete, and it should not be relied on as such. The information, opinions, estimates and forecasts contained herein are as of the date hereof and are subject to change without prior notification. We seek to update our research as appropriate, but various regulations may prevent us from doing so. Other than certain industry reports published on a periodic basis, the large majority of reports are published at irregular intervals as appropriate in the analyst's judgment.

Goldman Sachs conducts a global full-service, integrated investment banking, investment management, and brokerage business. We have investment banking and other business relationships with a substantial percentage of the companies covered by Global Investment Research. Goldman Sachs & Co. LLC, the United States broker dealer, is a member of SIPC (https://www.sipc.org).

Our salespeople, traders, and other professionals may provide oral or written market commentary or trading strategies to our clients and principal trading desks that reflect opinions that are contrary to the opinions expressed in this research. Our asset management area, principal trading desks and investing businesses may make investment decisions that are inconsistent with the recommendations or views expressed in this research.

The analysts named in this report may have from time to time discussed with our clients, including Goldman Sachs salespersons and traders, or may discuss in this report, trading strategies that reference catalysts or events that may have a near-term impact on the market price of the equity securities discussed in this report, which impact may be directionally counter to the analyst's published price target expectations for such stocks. Any such trading strategies are distinct from and do not affect the analyst's fundamental equity rating for such stocks, which rating reflects a stock's return potential relative to its coverage universe as described herein.

We and our affiliates, officers, directors, and employees will from time to time have long or short positions in, act as principal in, make a market or act as liquidity provider in, and buy or sell, any securities, derivatives, or other financial instruments referred to in this research (including any financial instruments issued by the companies referred to herein), unless otherwise prohibited by regulation or Goldman Sachs policy.

The views attributed to third party presenters at Goldman Sachs arranged conferences, including individuals from other parts of Goldman Sachs, do not necessarily reflect those of Global Investment Research and are not an official view of Goldman Sachs.

Any third party referenced herein, including any salespeople, traders and other professionals or members of their household, may have positions in the products mentioned that are inconsistent with the views expressed by analysts named in this report.

This research is not an offer to sell or the solicitation of an offer to buy any security in any jurisdiction where such an offer or solicitation would be illegal. It does not constitute a personal recommendation or take into account the particular investment objectives, financial situations, or needs of individual clients. Clients should consider whether any advice or recommendation in this research is suitable for their particular circumstances and, if appropriate, seek professional advice, including tax advice. The price and value of investments referred to in this research and the income from them may fluctuate. Past performance is not a guide to future performance, future returns are not guaranteed, and a loss of original capital may occur. Fluctuations in exchange rates could have adverse effects on the value or price of, or income derived from, certain investments.

Certain transactions, including those involving futures, options, and other derivatives, give rise to substantial risk and are not suitable for all investors. Investors should review current options and futures disclosure documents which are available from Goldman Sachs sales representatives or at https://www.theocc.com/about/publications/character-risks.jsp and https://www.goldmansachs.com/disclosures/cftc_fcm_disclosures. Transaction costs may be significant in option strategies calling for multiple purchase and sales of options such as spreads. Supporting documentation will be supplied upon request.

Differing Levels of Service provided by Global Investment Research: The level and types of services provided to you by Goldman Sachs Global Investment Research may vary as compared to that provided to internal and other external clients of GS, depending on various factors including your individual preferences as to the frequency and manner of receiving communication, your risk profile and investment focus and perspective (e.g., marketwide, sector specific, long term, short term), the size and scope of your overall client relationship with GS, and legal and regulatory constraints. As an example, certain clients may request to receive notifications when research on specific securities is published, and certain clients may request that specific data underlying analysts' fundamental analysis available on our internal client websites be delivered to them electronically through data feeds or otherwise. No change to an analyst's fundamental research views (e.g., ratings, price targets, or material changes to earnings estimates for equity securities), will be communicated to any client prior to inclusion of such information in a research report broadly disseminated through electronic publication to our internal client websites or through other means, as necessary, to all clients who are entitled to receive such reports.

All research reports are disseminated and available to all clients simultaneously through electronic publication to our internal client websites. Not all research content is redistributed to our clients or available to third-party aggregators, nor is Goldman Sachs responsible for the redistribution of our research by third party aggregators. For research, models or other data related to one or more securities, markets or asset classes (including related services) that may be available to you, please contact your GS representative or go to https://research.gs.com.

Disclosure information is also available at https://www.gs.com/research/hedge.html or from Research Compliance, 200 West Street, New York, NY 10282.

All Ring

Accelerated advanced packaging and CPO ramp optionality at attractive valuation

Reiterate Rating: BUY | PO: 1,750 TWD | Price: 1,025 TWD

2H26 strength sustains on 2.5D packaging expansion

3Q26 sales were +41% QoQ above Street estimates on solid CoWoS and FOCoS capacity expansion across its foundry and OSAT customers, backed by the accelerated capex from back-end industry to accommodate stronger cloud AI chipset demand outlook into '27. With mix shifted toward margin-diluted automation tools, 3Q26 GMs were -630 bps QoQ to 48.5% (vs. BofAe 54.1%) though OpMs held resilient QoQ at 32.9% on operating leverage, taking 3Q26 EPS to NT$8.50 (vs. BofAe/Street NT$10.74/NT$9.34.). For 4Q26, we estimate sales -9% QoQ due to CoWoS revenue recognition timing partially offset by sustained strength in FOCoS. We expect GMs in 4Q26 to recover to its long-term guidance of 50-55% range (BofAe 53.7%) on better product mix.

Diverse 2.5D/3D packaging and CPO ramp lifting '27-28

All Ring's sales are on track to +88% YoY in '26 and could see continued strength into '27 (BofAe +55% YoY), mainly led by 80-90k WPM CoWoS addition from TSMC to 200-210k WPM by 4Q27 along with ASE's accelerated FOCoS capacity expansion and CoWoS full process ramp for outsourced business. With superior throughput and yield stability vs. its peers, we expect its CPO optical coupling equipment shipment to reach 150 units in '27, backed by a solid commitment from Nvidia/SPIL to increase CPO assembly capacity by 15x (see our report: Implication from Nvidia GTC: back-end capacity constrained; CPO accelerates). Broader equipment share and content gains across diversifying advanced packaging technologies, including FOPLP, SoIC, CoPoS and US back-end solutions, alongside the ramp-up of CPO equipment should drive All Ring's advanced packaging revenue +60% YoY in 2027, lifting GM/OpM to 54.2%/33.3% from 52%/32.2% in 2026.

Reiterate Buy on decent EPS upcycle with +34% CAGR

We maintain our 2027/28 EPS unchanged at NT$49.34/54.67, our Buy rating on All Ring and PO of NT$1,750 still based on 36x 2027E P/E (vs. its 8-41x range). We believe decent sales/earnings CAGR of +30%/+34% over '26-'28E supported by solid advanced packaging capacity build and smooth CPO ramp should warrant high valuation.

Company Sector

Semiconductor Capital Equipment

Company Description

Founded in 1996, All Ring is a Taiwan-based semiconductor equipment supplier with core technologies spanning dispensing, attachment, AOI, optical coupling, and precision automation. Building on its initial expertise in passive component manufacturing equipment, the company has gradually expanded into the back-end semiconductor packaging market and established long-term partnerships with leading foundry and OSATs customers.

Investment Rationale

We have a Buy rating on All Ring, in view of its solid market position in the semiconductor advanced packaging equipment. We believe its long-standing relationships with leading foundry and OSATs, coupled with strong technology development capabilities, position the company well to capture the secular uptrend in AI-driven advanced packaging capacity expansion and rising equipment content.

BofA GLOBAL RESEARCH

Price objective basis & risk

All Ring (XNQNF)
Our PO of NT$1,750 is based on 36x 2027E P/E, positioned at the upper half of its historical trading range of 8-41x. We believe P/E based valuation is appropriate given All Ring's robust top-line visibility, stable profitability profile, and structural earnings improvement on decent exposure to AI-driven advanced packaging upcycle. The valuation multiple is underpinned by
1) 34%/37% CAGR in sales and earnings over 2026-28E and 2) sustained ROE in the 30-40% range

Downside risks are:
1) slowdown in advanced packaging capacity expansion and 2) mis-execution on equipment development

Analyst Certification

I, Haas Liu, hereby certify that the views expressed in this research report accurately reflect my personal views about the subject securities and issuers. I also certify that no part of my compensation was, is, or will be, directly or indirectly, related to the specific recommendations or view expressed in this research report.

Special Disclosures

Information on securities which are listed on the exchanges where ML Securities (Taiwan) Limited is not permitted to trade or solicit trades for clients is for informational purposes only and is not a recommendation or a solicitation to trade such securities. ML Securities (Taiwan) Limited will not execute transactions for nor accept orders from clients to trade such securities. Foreign investment in Taiwan securities is regulated and restricted. Currently, foreign investment in Taiwan securities is permitted by investment through: (1) global depository receipts, (2) convertible bonds, (3) mutual funds issued offshore of Taiwan, and (4) a special foreign institutional investors (FINIs) and foreign individual investors (FIDIs) program supervised by the Taiwan SFB whereunder FINIs/FIDIs may apply for investment ID to invest in Taiwan securities by registration with Taiwan Stock Exchange. FINIs will additionally need consent from the foreign exchange authority, ie, the Central Bank of China. In addition to the limitations above, various industry-specific percentage-based limitations on foreign ownership of Taiwan companies (and in some cases prohibitions) may apply. Investments are subject to exchange rate and currency conversion restrictions and risks. Dividends and interest earned by foreign investors' Taiwan securities/instruments are generally subject to a 20% withholding tax. Ordinary shares are not available to ML private client accounts in the U.S.

This report is distributed in Taiwan by Merrill Lynch Securities (Taiwan) Limited, which is regulated by the Taiwan SFB.

iQmethod℠ is the set of BofA Global Research standard measures that serve to maintain global consistency under three broad headings: Business Performance, Quality of Earnings, and validations. The key features of iQmethod are: A consistently structured, detailed, and transparent methodology. Guidelines to maximize the effectiveness of the comparative valuation process, and to identify some common pitfalls.

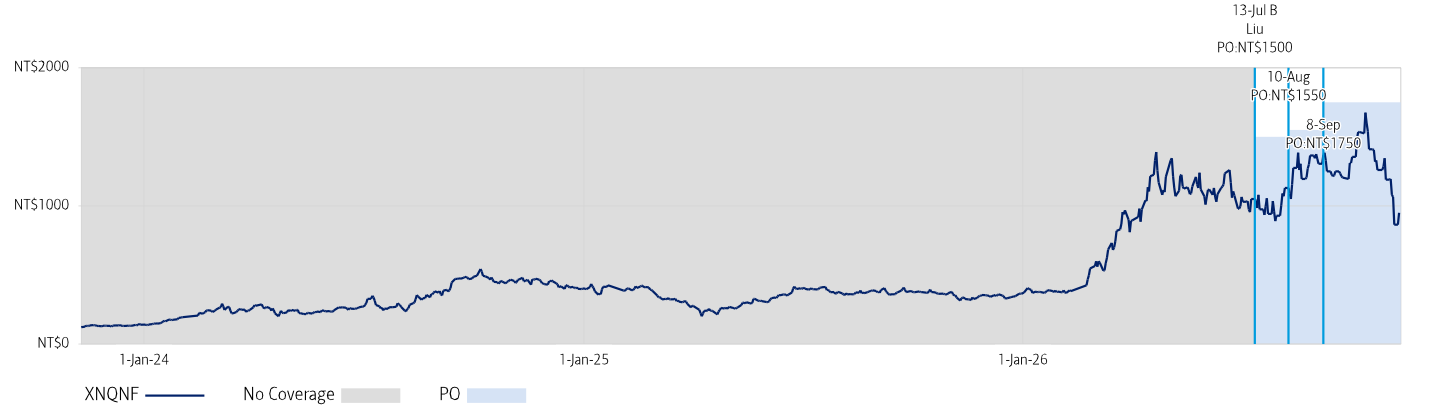
iQdatabase® is our real-time global research database that is sourced directly from our equity analysts' earnings models and includes forecasted as well as historical data for income statements, balance sheets, and cash flow statements for companies covered by BofA Global Research.

iQprofile℠, *iQmethod℠* are service marks of Bank of America Corporation. *iQdatabase®* is a registered service mark of Bank of America Corporation.

Disclosures

Important Disclosures

All Ring (XNQNF) Price Chart



B: Buy, N: Neutral, U: Underperform, PO: Price Objective, NA: No longer valid, NR: No Rating

The Investment Opinion System is contained at the end of the report under the heading "Fundamental Equity Opinion Key". Dark grey shading indicates the security is restricted with the opinion suspended. Medium grey shading indicates the security is under review with the opinion withdrawn. Light grey shading indicates the security is not covered. Chart is current as of a date no more than one trading day prior to the date of the report.

Equity Investment Rating Distribution: Technology Group (as of 30 Sep 2026)

Coverage Universe	Count	Percent	Inv. Banking Relationships [R1]	Count	Percent
Buy	255	62.04%	Buy	157	61.57%
Hold	82	19.95%	Hold	46	56.10%
Sell	74	18.00%	Sell	31	41.89%

Equity Investment Rating Distribution: Global Group (as of 30 Sep 2026)

Coverage Universe	Count	Percent	Inv. Banking Relationships [R1]	Count	Percent
Buy	2057	57.03%	Buy	1386	67.38%
Hold	806	22.35%	Hold	563	69.85%
Sell	744	20.63%	Sell	446	59.95%

[R1] Issuers that were investment banking clients of BofA Securities or one of its affiliates within the past 12 months. For purposes of this Investment Rating Distribution, the coverage universe includes only stocks. A stock rated Neutral is included as a Hold, and a stock rated Underperform is included as a Sell.

FUNDAMENTAL EQUITY OPINION KEY: Opinions include a Volatility Risk Rating, an Investment Rating and an Income Rating. VOLATILITY RISK RATINGS, indicators of potential price fluctuation, are: A - Low, B - Medium and C - High. INVESTMENT RATINGS reflect the analyst's assessment of both a stock's absolute total return potential as well as its attractiveness for investment relative to other stocks within its Coverage Cluster (defined below). Our investment ratings are: 1 - Buy stocks are expected to have a total return of at least 10% and are the most attractive stocks in the coverage cluster; 2 - Neutral stocks are expected to remain flat or increase in value and are less attractive than Buy rated stocks and 3 - Underperform stocks are the least attractive stocks in a coverage cluster. An investment rating of 6 (No Rating) indicates that a stock is no longer trading on the basis of fundamentals. Analysts assign investment ratings considering, among other things, the 0-12 month total return expectation for a stock and the firm's guidelines for ratings dispersions (shown in the table below). The current price objective for a stock should be referenced to better understand the total return expectation at any given time. The price objective reflects the analyst's view of the potential price appreciation (depreciation).

Investment rating	Total return expectation (within 12-month period of date of initial rating)	Ratings dispersion guidelines for coverage cluster[R2]
Buy	≥ 10%	≤ 70%
Neutral	≥ 0%	≤ 30%
Underperform	N/A	≥ 20%

[R2] Ratings dispersions may vary from time to time where BofA Global Research believes it better reflects the investment prospects of stocks in a Coverage Cluster.

INCOME RATINGS, indicators of potential cash dividends, are: 7 - same/higher (dividend considered to be secure), 8 - same/lower (dividend not considered to be secure) and 9 - pays no cash dividend. *Coverage Cluster* is comprised of stocks covered by a single analyst or two or more analysts sharing a common industry, sector, region or other classification(s). A stock's coverage cluster is included in the most recent BofA Global Research report referencing the stock.

Price Charts for the securities referenced in this research report are available on the Price Charts website, or call 1-800-MERRILL to have them mailed.
In the US, retail sales and/or distribution of this report may be made only in states where these securities are exempt from registration or have been qualified for sale: All Ring.
The country in which this issuer is organized has certain laws or regulations that limit or restrict ownership of the issuer's shares by nationals of other countries: All Ring.
BofA Global Research personnel (including the analyst(s) responsible for this report) receive compensation based upon, among other factors, the overall profitability of Bank of America Corporation, including profits derived from investment banking. The analyst(s) responsible for this report may also receive compensation based upon, among other factors, the overall profitability of the Bank's sales and trading businesses relating to the class of securities or financial instruments for which such analyst is responsible.

Other Important Disclosures

From time to time research analysts conduct site visits of covered issuers. BofA Global Research policies prohibit research analysts from accepting payment or reimbursement for travel

expenses from the issuer for such visits.
Prices are indicative and for information purposes only. Except as otherwise stated in the report, for any recommendation in relation to an equity security, the price referenced is the publicly traded price of the security as of close of business on the day prior to the date of the report or, if the report is published during intraday trading, the price referenced is indicative of the traded price as of the date and time of the report and in relation to a debt security (including equity preferred and CDS), prices are indicative as of the date and time of the report and are from various sources including BofA Securities trading desks.
The date and time of completion of the production of any recommendation in this report shall be the date and time of dissemination of this report as recorded in the report timestamp.

Recipients who are not institutional investors or market professionals should seek the advice of their independent financial advisor before considering information in this report in connection with any investment decision, or for a necessary explanation of its contents.
Officers of BofAS or one or more of its affiliates (other than research analysts) may have a financial interest in securities of the issuer(s) or in related investments.
Refer to BofA Global Research policies relating to conflicts of interest.
"BofA Securities" includes BofA Securities, Inc. ("BofAS") and its affiliates. Investors should contact their BofA Securities representative or Merrill Global Wealth Management financial advisor if they have questions concerning this report or concerning the appropriateness of any investment idea described herein for such investor. "BofA Securities" is a global brand for BofA Global Research.

General Investment Related Disclosures:
Taiwan Readers: Neither the information nor any opinion expressed herein constitutes an offer or a solicitation of an offer to transact in any securities or other financial instrument. No part of this report may be used or reproduced or quoted in any manner whatsoever in Taiwan by the press or any other person without the express written consent of BofA Securities.
This document provides general information only, and has been prepared for, and is intended for general distribution to, BofA Securities clients. Neither the information nor any opinion expressed constitutes an offer or an invitation to make an offer, to buy or sell any securities or other financial instrument or any derivative related to such securities or instruments (e.g., options, futures, warrants, and contracts for differences). This document is not intended to provide personal investment advice and it does not take into account the specific investment objectives, financial situation and the particular needs of, and is not directed to, any specific person(s). This document and its content do not constitute, and should not be considered to constitute, investment advice for purposes of ERISA, the US tax code, the Investment Advisers Act or otherwise. Investors should seek financial advice regarding the appropriateness of investing in financial instruments and implementing investment strategies discussed or recommended in this document and should understand that statements regarding future prospects may not be realized. Any decision to purchase or subscribe for securities in any offering must be based solely on existing public information on such security or the information in the prospectus or other offering document issued in connection with such offering, and not on this document.
Securities and other financial instruments referred to herein, or recommended, offered or sold by BofA Securities, are not insured by the Federal Deposit Insurance Corporation and are not deposits or other obligations of any insured depository institution (including, Bank of America, N.A.). Investments in general and, derivatives, in particular, involve numerous risks, including, among others, market risk, counterparty default risk and liquidity risk. No security, financial instrument or derivative is suitable for all investors. Digital assets are extremely speculative, volatile and are not regulated in a manner similar to U.S. securities markets. In some cases, securities and other financial instruments may be difficult to value or sell and reliable information about the value or risks related to the security or financial instrument may be difficult to obtain. Investors should note that income from such securities and other financial instruments, if any, may fluctuate and that price or value of such securities and instruments may rise or fall and, in some cases, investors may lose their entire principal investment. Past performance is not necessarily a guide to future performance. Levels and basis for taxation may change.
This report may contain a short-term trading idea or recommendation, which highlights a specific near-term catalyst or event impacting the issuer or the market that is anticipated to have a short-term price impact on the equity securities of the issuer. Short-term trading ideas and recommendations are different from and do not affect a stock's fundamental equity rating, which reflects both a longer term total return expectation and attractiveness for investment relative to other stocks within its Coverage Cluster. Short-term trading ideas and recommendations may

be more or less positive than a stock's fundamental equity rating.
BofA Securities is aware that the implementation of the ideas expressed in this report may depend upon an investor's ability to "short" securities or other financial instruments and that such action may be limited by regulations prohibiting or restricting "shortselling" in many jurisdictions. Investors are urged to seek advice regarding the applicability of such regulations prior to executing any short idea contained in this report.
Foreign currency rates of exchange may adversely affect the value, price or income of any security or financial instrument mentioned herein. Investors in such securities and instruments, including ADRs, effectively assume currency risk.
BofAS or one of its affiliates is a regular issuer of traded financial instruments linked to securities or digital assets that may have been recommended or discussed in this report. BofAS or one of its affiliates may, at any time, hold a trading position (long or short) in the securities and financial instruments recommended or discussed in this report.
BofA Securities, through business units other than BofA Global Research, may have issued and may in the future issue trading ideas or recommendations that are inconsistent with, and reach different conclusions from, the information presented herein. Such ideas or recommendations may reflect different time frames, assumptions, views and analytical methods of the persons who prepared them, and BofA Securities is under no obligation to ensure that such other trading ideas or recommendations are brought to the attention of any recipient of this information.
In the event that the recipient received this information pursuant to a contract between the recipient and BofAS for the provision of research services for a separate fee, and in connection therewith BofAS may be deemed to be acting as an investment adviser, such status relates, if at all, solely to the person with whom BofAS has contracted directly and does not extend beyond the delivery of this report (unless otherwise agreed specifically in writing by BofAS). If such recipient uses the services of BofAS in connection with the sale or purchase of a security referred to herein, BofAS may act as principal for its own account or as agent for another person. BofAS is and continues to act solely as a broker-dealer in connection with the execution of any transactions, including transactions in any securities referred to herein.

BofA Securities is under no obligation to update this information and BofA Securities ability to publish information on the subject issuer(s) in the future is subject to applicable quiet periods. You should therefore assume that BofA Securities will not update any fact, circumstance or opinion contained herein.
Subject to the quiet period applicable under laws of the various jurisdictions in which we distribute research reports and other legal and BofA Securities policy-related restrictions on the publication of research reports, fundamental equity reports are produced on a regular basis as necessary to keep the investment recommendation current.
Certain outstanding reports or investment opinions relating to securities, financial instruments and/or issuers may no longer be current. Always refer to the most recent research report relating to an issuer prior to making an investment decision.
In some cases, an issuer may be classified as Restricted or may be Under Review or Extended Review. In each case, investors should consider any investment opinion relating to such issuer (or its security and/or financial instruments) to be suspended or withdrawn and should not rely on the analyses and investment opinion(s) pertaining to such issuer (or its securities and/or financial instruments) nor should the analyses or opinion(s) be considered a solicitation of any kind. Sales persons and financial advisors affiliated with BofAS or any of its affiliates may not solicit purchases of securities or financial instruments that are Restricted or Under Review and may only solicit securities under Extended Review in accordance with firm policies.
Neither BofA Securities nor any officer or employee of BofA Securities accepts any liability whatsoever for any direct, indirect or consequential damages or losses arising from any use of this information.

BofA SECURITIES

Asia Vital Components

Solid 3Q26 results; positive tone to 4Q26/ 2027; reiterate Buy; trim PO to NT$3,650

Reiterate Rating: BUY | PO: 3,650 TWD | Price: 2,790 TWD

3Q26: record-high GM/OPM for five straight quarters

Asia Vital Components (AVC)'s 3Q26 GM/OPM of 33.9%/28.5% hit a record high for the fifth straight quarter, exceeding BofAe of 33.0%/27.5% and consensus of 33.3%/27.9%. OP (+25% QoQ, +108% YoY) was 7%/4% above BofAe/consensus, with higher sales (+20% QoQ, +52% YoY; 3%/2% above BofAe/consensus). We attribute the results beat to solid product mix (server and networking comprised 66% of 3Q26 sales, same as 1Q-2Q26) and improving production efficiency. Despite a non-operating loss (mainly FX loss), NP was 10%/3% above consensus (Exhibit 3).

Positive tone to 4Q26/2027; ongoing capacity expansion

We expect 4Q26 sales to rise 19% QoQ and 2027 sales to grow 40% YoY, with mgmt.'s still positive tone to 4Q26/2027, mainly driven by AI liquid cooling projects. AVC indicated full support to clients' platform upgrade and shipment pipeline. It should be able to pass through the higher raw material cost. In 2027, mgmt. targets ASIC sales mix to surpass GPU. AVC also sees solid sales momentum from chassis/rack and CDU, acting as the solution provider. Mgmt. maintained 2026 capex guidance at NT$15bn and guided NT$15-20bn for 2027 (BofAe unchanged at NT$17bn), mainly for capacity expansion in Vietnam. Mgmt. now targets another 50% cold plate capacity expansion in 2027.

Trim PO to NT$3,650 for a lower P/E set-up; reiterate Buy

We lift 2026-28E EPS by 3-10%, mainly to reflect the 3Q26 results beat and higher margins, driven by ongoing server/networking project ramp-up. Yet, we cut our PO to NT$3,650 (23x 2027E EPS), with a lower P/E multiple (2SD above average since 2020; Exhibit 5) from NT$3,888 (was 27x; 3SD above) on AI supply chain's potentially higher shipment/pipeline uncertainty due to component shortage. Nevertheless, we reiterate Buy on AVC as we believe it should remain one of the key beneficiaries from rising liquid-cooling adoption and ongoing GPU/ASIC platform/spec upgrade. We also highlight solid sales/margin growth under broad product base and diversified project/client base.

Company Sector

IT Hardware

Company Description

AVC is the leading system-level thermal/cooling component maker globally. Key end markets include server, PC, smartphone. Key end clients include global CSPs, PC brands, smartphone brands. AVC was founded in 1991 and went publicly listed on Taiwan Stock Exchange on 27 Sep 2002. It is headquartered in Taiwan. Its main production sites are located in China (Shenzhen, Wuhan, Shanghai, Dongguan, Chengdu), with ongoing capacity expansion in Vietnam.

Investment Rationale

We assign a Buy rating to AVC given its leading position in thermal/cooling component and total solution strategy to ride on strong AI market demand, double-digit sales/EPS CAGR in 2026-28 with rising liquid cooling sales mix and ASP/margin increase.

BofA GLOBAL RESEARCH

Price objective basis & risk

Asia Vital Components (AVMPF)
Our PO of NT$3,650 is based on 23x 2027E EPS. We use 23x P/E multiple (2SD above P/E average since 2020) in view of AVC's double-digit sales/EPS CAGR in 2026-28E. We believe AVC's leading position in thermal/cooling component market and strong AI market demand will drive rising liquid cooling sales mix and ASP/margin increase.

Upside risks to our PO are: (1) stronger demand in AI server, server, PC, smartphone, (2) better operating leverage with larger revenue scale, (3) less intensive competition, (4) faster product certification, (5) faster capacity expansion, (6) favorable FX movement (USD/RMB and/or USD/NTD) to help on GM and/or non-operating items.

Downside risks to our PO are: (1) softer AI server demand due to GPU/component shortage, (2) weaker server/PC/smartphone market demand amid inflation/macro uncertainties, (3) GM pressure due to higher material/labor/utility cost, (4) more intensive competition, (5) delayed product certification, (6) slower capacity expansion, (7) unfavorable FX movement (USD/RMB and/or USD/NTD) to weigh on GM and/or non-operating items.

Analyst Certification

I, Doris Kao, hereby certify that the views expressed in this research report accurately reflect my personal views about the subject securities and issuers. I also certify that no part of my compensation was, is, or will be, directly or indirectly, related to the specific recommendations or view expressed in this research report.

Special Disclosures

Information on securities which are listed on the exchanges where ML Securities (Taiwan) Limited is not permitted to trade or solicit trades for clients is for informational purposes only and is not a recommendation or a solicitation to trade such securities. ML Securities (Taiwan) Limited will not execute transactions for nor accept orders from clients to trade such securities. Foreign investment in Taiwan securities is regulated and restricted. Currently, foreign investment in Taiwan securities is permitted by investment through: (1) global depository receipts, (2) convertible bonds, (3) mutual funds issued offshore of Taiwan, and (4) a special foreign institutional investors (FINIs) and foreign individual investors (FIDIs) program supervised by the Taiwan SFB whereunder FINIs/FIDIs may apply for investment ID to invest in Taiwan securities by registration with Taiwan Stock Exchange. FINIs will additionally need consent from the foreign exchange authority, ie, the Central Bank of China. In addition to the limitations above, various industry-specific percentage-based limitations on foreign ownership of Taiwan companies (and in some cases prohibitions) may apply. Investments are subject to exchange rate and currency conversion restrictions and risks. Dividends and interest earned by foreign investors' Taiwan securities/instruments are generally subject to a 20% withholding tax. Ordinary shares are not available to ML private client accounts in the U.S.

This report is distributed in Taiwan by Merrill Lynch Securities (Taiwan) Limited, which is regulated by the Taiwan SFB.

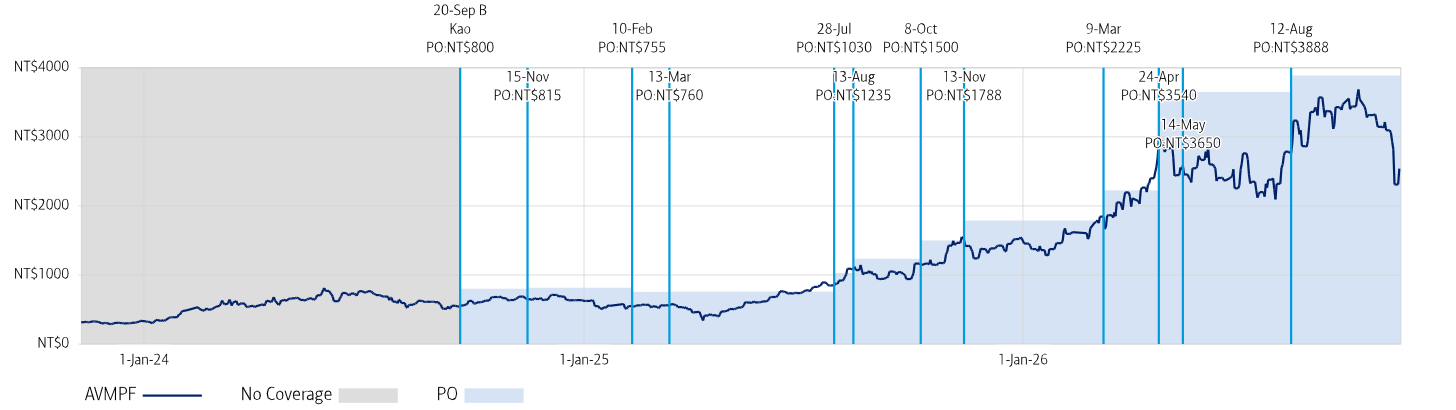
Asia Vital Component (AVMPF) Price Chart



B: Buy, N: Neutral, U: Underperform, PO: Price Objective, NA: No longer valid, NR: No Rating

The Investment Opinion System is contained at the end of the report under the heading "Fundamental Equity Opinion Key". Dark grey shading indicates the security is restricted with the opinion suspended. Medium grey shading indicates the security is under review with the opinion withdrawn. Light grey shading indicates the security is not covered. Chart is current as of a date no more than one trading day prior to the date of the report.

Equity Investment Rating Distribution: Technology Group (as of 30 Sep 2026)

Coverage Universe	Count	Percent	Inv. Banking Relationships [R1]	Count	Percent
Buy	255	62.04%	Buy	157	61.57%
Hold	82	19.95%	Hold	46	56.10%
Sell	74	18.00%	Sell	31	41.89%

Equity Investment Rating Distribution: Global Group (as of 30 Sep 2026)

Coverage Universe	Count	Percent	Inv. Banking Relationships [R1]	Count	Percent
Buy	2057	57.03%	Buy	1386	67.38%
Hold	806	22.35%	Hold	563	69.85%
Sell	744	20.63%	Sell	446	59.95%

[R1] Issuers that were investment banking clients of BofA Securities or one of its affiliates within the past 12 months. For purposes of this Investment Rating Distribution, the coverage universe includes only stocks. A stock rated Neutral is included as a Hold, and a stock rated Underperform is included as a Sell.

FUNDAMENTAL EQUITY OPINION KEY: Opinions include a Volatility Risk Rating, an Investment Rating and an Income Rating. VOLATILITY RISK RATINGS, indicators of potential price fluctuation, are: A - Low, B - Medium and C - High. INVESTMENT RATINGS reflect the analyst's assessment of both a stock's absolute total return potential as well as its attractiveness for investment relative to other stocks within its Coverage Cluster (defined below). Our investment ratings are: 1 - Buy stocks are expected to have a total return of at least 10% and are the most attractive stocks in the coverage cluster; 2 - Neutral stocks are expected to remain flat or increase in value and are less attractive than Buy rated stocks and 3 - Underperform stocks are the least attractive stocks in a coverage cluster. An investment rating of 6 (No Rating) indicates that a stock is no longer trading on the basis of fundamentals. Analysts assign investment ratings considering, among other things, the 0-12 month total return expectation for a stock and the firm's guidelines for ratings dispersions (shown in the table below). The current price objective for a stock should be referenced to better understand the total return expectation at any given time. The price objective reflects the analyst's view of the potential price appreciation (depreciation).

Investment rating	Total return expectation (within 12-month period of date of initial rating)	Ratings dispersion guidelines for coverage cluster[R2]
Buy	≥ 10%	≤ 70%
Neutral	≥ 0%	≤ 30%
Underperform	N/A	≥ 20%

[R2] Ratings dispersions may vary from time to time where BofA Global Research believes it better reflects the investment prospects of stocks in a Coverage Cluster.

INCOME RATINGS, indicators of potential cash dividends, are: 7 - same/higher (dividend considered to be secure), 8 - same/lower (dividend not considered to be secure) and 9 - pays no cash dividend. *Coverage Cluster* is comprised of stocks covered by a single analyst or two or more analysts sharing a common industry, sector, region or other classification(s). A stock's coverage cluster is included in the most recent BofA Global Research report referencing the stock.

Price Charts for the securities referenced in this research report are available on the Price Charts website, or call 1-800-MERRILL to have them mailed.
BofAS or an affiliate has received compensation from the issuer for non-investment banking services or products within the past 12 months: Asia Vital Component.
The issuer is or was, within the last 12 months, a non-securities business client of BofAS and/or one or more of its affiliates: Asia Vital Component.
In the US, retail sales and/or distribution of this report may be made only in states where these securities are exempt from registration or have been qualified for sale: Asia Vital Component.
The country in which this issuer is organized has certain laws or regulations that limit or restrict ownership of the issuer's shares by nationals of other countries: Asia Vital Component.
BofA Global Research personnel (including the analyst(s) responsible for this report) receive compensation based upon, among other factors, the overall profitability of Bank of America Corporation, including profits derived from investment banking. The analyst(s) responsible for this report may also receive compensation based upon, among other factors, the overall profitability of the Bank's sales and trading businesses relating to the class of securities or financial instruments for which such analyst is responsible.

Other Important Disclosures

From time to time research analysts conduct site visits of covered issuers. BofA Global Research policies prohibit research analysts from accepting payment or reimbursement for travel expenses from the issuer for such visits.
Prices are indicative and for information purposes only. Except as otherwise stated in the report, for any recommendation in relation to an equity security, the price referenced is the publicly traded price of the security as of close of business on the day prior to the date of the report or, if the report is published during intraday trading, the price referenced is indicative of the traded price as of the date and time of the report and in relation to a debt security (including equity preferred and CDS), prices are indicative as of the date and time of the report and are from various sources including BofA Securities trading desks.
The date and time of completion of the production of any recommendation in this report shall be the date and time of dissemination of this report as recorded in the report timestamp.

Recipients who are not institutional investors or market professionals should seek the advice of their independent financial advisor before considering information in this report in connection with any investment decision, or for a necessary explanation of its contents.
Officers of BofAS or one or more of its affiliates (other than research analysts) may have a financial interest in securities of the issuer(s) or in related investments.
Refer to BofA Global Research policies relating to conflicts of interest.
"BofA Securities" includes BofA Securities, Inc. ("BofAS") and its affiliates. Investors should contact their BofA Securities representative or Merrill Global Wealth Management financial advisor if they have questions concerning this report or concerning the appropriateness of any investment idea described herein for such investor. "BofA Securities" is a global brand for BofA Global Research.
Information relating to Non-US affiliates of BofA Securities and Distribution of Affiliate Research Reports:

General Investment Related Disclosures:
Taiwan Readers: Neither the information nor any opinion expressed herein constitutes an offer or a solicitation of an offer to transact in any securities or other financial instrument. No part of this report may be used or reproduced or quoted in any manner whatsoever in Taiwan by the press or any other person without the express written consent of BofA Securities.
This document provides general information only, and has been prepared for, and is intended for general distribution to, BofA Securities clients. Neither the information nor any opinion expressed constitutes an offer or an invitation to make an offer, to buy or sell any securities or other financial instrument or any derivative related to such securities or instruments (e.g., options, futures, warrants, and contracts for differences). This document is not intended to provide personal investment advice and it does not take into account the specific investment objectives, financial situation and the particular needs of, and is not directed to, any specific person(s). This document and its content do not constitute, and should not be considered to constitute, investment advice for purposes of ERISA, the US tax code, the Investment Advisers Act or otherwise. Investors should seek financial advice regarding the appropriateness of investing in financial instruments and implementing investment strategies discussed or recommended in this document and should understand that statements regarding future prospects may not be realized. Any decision to purchase or subscribe for securities in any offering must be based solely on existing public information on such security or the information in the prospectus or other offering document issued in connection with such offering, and not on this document.
Securities and other financial instruments referred to herein, or recommended, offered or sold by BofA Securities, are not insured by the Federal Deposit Insurance Corporation and are not deposits or other obligations of any insured depository institution (including, Bank of America, N.A.). Investments in general and, derivatives, in particular, involve numerous risks, including, among others, market risk, counterparty default risk and liquidity risk. No security, financial instrument or derivative is suitable for all investors. Digital assets are extremely speculative, volatile and are not regulated in a manner similar to U.S. securities markets. In some cases, securities and other financial instruments may be difficult to value or sell and reliable information about the value or risks related to the security or financial instrument may be difficult to obtain. Investors should note that income from such securities and other financial instruments, if any, may

fluctuate and that price or value of such securities and instruments may rise or fall and, in some cases, investors may lose their entire principal investment. Past performance is not necessarily a guide to future performance. Levels and basis for taxation may change.
This report may contain a short-term trading idea or recommendation, which highlights a specific near-term catalyst or event impacting the issuer or the market that is anticipated to have a short-term price impact on the equity securities of the issuer. Short-term trading ideas and recommendations are different from and do not affect a stock's fundamental equity rating, which reflects both a longer term total return expectation and attractiveness for investment relative to other stocks within its Coverage Cluster. Short-term trading ideas and recommendations may be more or less positive than a stock's fundamental equity rating.
BofA Securities is aware that the implementation of the ideas expressed in this report may depend upon an investor's ability to "short" securities or other financial instruments and that such action may be limited by regulations prohibiting or restricting "shortselling" in many jurisdictions. Investors are urged to seek advice regarding the applicability of such regulations prior to executing any short idea contained in this report.
Foreign currency rates of exchange may adversely affect the value, price or income of any security or financial instrument mentioned herein. Investors in such securities and instruments, including ADRs, effectively assume currency risk.
BofAS or one of its affiliates is a regular issuer of traded financial instruments linked to securities or digital assets that may have been recommended or discussed in this report. BofAS or one of its affiliates may, at any time, hold a trading position (long or short) in the securities and financial instruments recommended or discussed in this report.
BofA Securities, through business units other than BofA Global Research, may have issued and may in the future issue trading ideas or recommendations that are inconsistent with, and reach different conclusions from, the information presented herein. Such ideas or recommendations may reflect different time frames, assumptions, views and analytical methods of the persons who prepared them, and BofA Securities is under no obligation to ensure that such other trading ideas or recommendations are brought to the attention of any recipient of this information.
In the event that the recipient received this information pursuant to a contract between the recipient and BofAS for the provision of research services for a separate fee, and in connection therewith BofAS may be deemed to be acting as an investment adviser, such status relates, if at all, solely to the person with whom BofAS has contracted directly and does not extend beyond the delivery of this report (unless otherwise agreed specifically in writing by BofAS). If such recipient uses the services of BofAS in connection with the sale or purchase of a security referred to herein, BofAS may act as principal for its own account or as agent for another person. BofAS is and continues to act solely as a broker-dealer in connection with the execution of any transactions, including transactions in any securities referred to herein.

BofA Global Research utilizes AI, including machine learning and other technologies, to enhance the services we provide to our clients. These technologies assist our analysts in various aspects of their work, including but not limited to data analysis, content extraction, content creation, data aggregation and summarization and identifying relevant information from diverse sources. All AI-driven processes are subject to review by BofA Global Research employees. BofA Global Research information is distributed simultaneously to internal and client websites and other portals by BofA Securities and is not publicly-available material. Any unauthorized use or disclosure is prohibited. Receipt and review of this information constitutes your agreement not to redistribute, retransmit, or disclose to others the contents, opinions, conclusion, or information contained herein (including any investment recommendations, estimates or price targets) without first obtaining express permission from an authorized officer of BofA Securities.
Materials prepared by BofA Global Research personnel are based on public information. Facts and views presented in this material have not been reviewed by, and may not reflect information known to, professionals in other business areas of BofA Securities, including investment banking personnel. BofA Securities has established information barriers between BofA Global Research and certain business groups. As a result, BofA Securities does not disclose certain client relationships with, or compensation received from, such issuers. To the extent this material discusses any legal proceeding or issues, it has not been prepared as nor is it intended to express any legal conclusion, opinion or advice. Investors should consult their own legal advisers as to issues of law relating to the subject matter of this material. BofA Global Research personnel's knowledge of legal proceedings in which any BofA Securities entity and/or its directors, officers and employees may be plaintiffs, defendants, co-defendants or co-plaintiffs with or involving issuers mentioned in this material is based on public information. Facts and views presented in this material that relate to any such proceedings have not been reviewed by, discussed with, and may not reflect information known to, professionals in other business areas of BofA Securities in connection with the legal proceedings or matters relevant to such proceedings.
This information has been prepared independently of any issuer of securities mentioned herein and not in connection with any proposed offering of securities or as agent of any issuer of any securities. None of BofAS any of its affiliates or their research analysts has any authority whatsoever to make any representation or warranty on behalf of the issuer(s). BofA Global Research policy prohibits research personnel from disclosing a recommendation, investment rating, or investment thesis for review by an issuer prior to the publication of a research report containing such rating, recommendation or investment thesis.
Any information relating to sustainability in this material is limited as discussed herein and is not intended to provide a comprehensive view on any sustainability claim with respect to any issuer or security.
Any information relating to the tax status of financial instruments discussed herein is not intended to provide tax advice or to be used by anyone to provide tax advice. Investors are urged to seek tax advice based on their particular circumstances from an independent tax professional.
The information herein (other than disclosure information relating to BofA Securities and its affiliates) was obtained from various sources and we do not guarantee its accuracy. This information may contain links to third-party websites. BofA Securities is not responsible for the content of any third-party website or any linked content contained in a third-party website. Content contained on such third-party websites is not part of this information and is not incorporated by reference. The inclusion of a link does not imply any endorsement by or any affiliation with BofA Securities. Access to any third-party website is at your own risk, and you should always review the terms and privacy policies at third-party websites before submitting any personal information to them. BofA Securities is not responsible for such terms and privacy policies and expressly disclaims any liability for them.
All opinions, projections and estimates constitute the judgment of the author as of the date of publication and are subject to change without notice. Prices also are subject to change without notice. BofA Securities is under no obligation to update this information and BofA Securities ability to publish information on the subject issuer(s) in the future is subject to applicable quiet periods. You should therefore assume that BofA Securities will not update any fact, circumstance or opinion contained herein.
Subject to the quiet period applicable under laws of the various jurisdictions in which we distribute research reports and other legal and BofA Securities policy-related restrictions on the publication of research reports, fundamental equity reports are produced on a regular basis as necessary to keep the investment recommendation current.
Certain outstanding reports or investment opinions relating to securities, financial instruments and/or issuers may no longer be current. Always refer to the most recent research report relating to an issuer prior to making an investment decision.
In some cases, an issuer may be classified as Restricted or may be Under Review or Extended Review. In each case, investors should consider any investment opinion relating to such issuer (or its security and/or financial instruments) to be suspended or withdrawn and should not rely on the analyses and investment opinion(s) pertaining to such issuer (or its securities and/or financial instruments) nor should the analyses or opinion(s) be considered a solicitation of any kind. Sales persons and financial advisors affiliated with BofAS or any of its affiliates may not solicit purchases of securities or financial instruments that are Restricted or Under Review and may only solicit securities under Extended Review in accordance with firm policies.
Neither BofA Securities nor any officer or employee of BofA Securities accepts any liability whatsoever for any direct, indirect or consequential damages or losses arising from any use of this information.

BofA SECURITIES

Gold Circuit

Reiterate Buy: 3Q26 margin beat; ongoing sales/margin growth; trim PO to NT$1,250

Reiterate Rating: BUY | PO: 1,250 TWD | Price: 983.00 TWD

3Q26 beat: solid margins despite lighter sales

Gold Circuit (GCE)'s 3Q26 GM/OPM of 38.7%/30.6% exceeded BofAe of 35.9%/27.8% and consensus of 36.9%/28.9%, despite lighter sales (+22% QoQ, +67% YoY; 5%/3% below BofAe/consensus). OP (+48% QoQ, +95% YoY) was 4%/3% above BofAe/consensus. We attribute the strong core results to a still favorable mix and lower material cost burden. In 3Q26, AI made up 50%+ of sales, vs. 30-40%/40-50% in 1Q/2Q26. Server/networking comprised 77%/17% of 3Q26 sales, vs. 72-78%/15-20% in 1Q-2Q26. With a non-operating loss (details to be disclosed; likely FX loss in our view) amid a lighter tax rate, NP was 9%/7% above BofAe/consensus (Exhibit 3).

Sales momentum intact; margin expansion continues

We now expect 4Q26/1Q27 sales to rise 2%/3% QoQ & 2027/28 sales to rise 41%/31% YoY, driven by ASP growth (for spec upgrade and higher material cost) and ongoing capacity expansion in Taiwan/Thailand/China. GCE's Oct sales (+6% MoM, +76% YoY) reinforce our confidence in its order and project pipeline. We also note that the impacts from AWS' project pipeline change and shipping disruptions due to the flood in Thailand are fading. We now assume GM to expand from 36.8% in 2026E to 38.0%/38.3% in 2027/28E, after considering higher material cost pass-through, higher depreciation costs from new facilities, and higher upfront costs for making next-generation HDI products.

Cut PO to NT$1,250 with a lower P/E set-up; reiterate Buy

We trim 2026-27E EPS by 1-4% but lift 2028E EPS by 4%, mainly to reflect the 3Q26 results beat, stronger margin profile, but higher share count. We lower our PO to NT$1,250 (21x 2027E EPS) from NT$1,500 (25x 2027E EPS), with the valuation base unchanged and a lower P/E multiple. We apply 21x (c.1.5SD above P/E average since 2020), vs. prior 25x (2.5SD above) on valuation de-rating across AI supply chain amid macro uncertainty. Nevertheless, we reiterate Buy on GCE as a top ASIC server PCB maker, with all-time focus on high-end AI server/networking and expanding margins.

Company Sector

Electronics

Company Description

Gold Circuit (GCE) is a PCB company in Taiwan with high exposure in server (74% of 2025 sales) and networking (15%). Key end-clients are global CSPs and US top networking/telecom names. Besides its headquarters, the company has production sites in Taoyuan (Taiwan), Suzhou (China), Jiangsu (China), and Thailand, with ongoing capacity expansion. GCE was established in 1981 and listed on the Taiwan stock market in March 1998.

Investment Rationale

We have a Buy rating on Gold Circuit, given (1) its high exposure and focus on better-margin server/networking business amid rising AI applications globally to keep high ASP/margin, (2) strong competitive advantages and high entry barrier as focusing on high-end products, (3) higher production flexibility after adding capacity in Thailand, (4) positive FCF/OCF since 2007/2019, respectively, with an improving balance sheet (from net debt to net cash) and expanding ROE.

BofA GLOBAL RESEARCH

Price objective basis & risk

Gold Circuit (GOCCF)
Our PO of NT$1,250 is based on 21x 2027E EPS. The 21x valuation multiple is around 1.5SD above the average level since 2020 when better-margin server business started to account for 50%+ of total sales, leading to an improved 20%+ GM profile. We believe the P/E multiple target can be justified by (1) strong AI PCB market demand, (2) GCE's high AI server exposure, (3) solid sales mix from better-margin server/networking business, and (4) ongoing margin expansion to historical high level.

Upside risks: (1) stronger server/networking market demand to drive ASP/margins, (2) better utilization rate, (3) faster capacity expansion in Thailand, (4) lower raw material/labor/logistics costs, and (5) favorable FX movement.

Downside risks: (1) ASIC platform delay, (2) weaker market demand amid inflation/macro uncertainties, (3) softer AI server demand due to AI chip short supply, (4) GM pressure from lower utilization rate, higher raw material/labor/logistics costs, and (5) unfavorable FX movement.

Analyst Certification

I, Doris Kao, hereby certify that the views expressed in this research report accurately reflect my personal views about the subject securities and issuers. I also certify that no part of my compensation was, is, or will be, directly or indirectly, related to the specific recommendations or view expressed in this research report.

Special Disclosures

Information on securities which are listed on the exchanges where ML Securities (Taiwan) Limited is not permitted to trade or solicit trades for clients is for informational purposes only and is not a recommendation or a solicitation to trade such securities. ML Securities (Taiwan) Limited will not execute transactions for nor accept orders from clients to trade such securities. Foreign investment in Taiwan securities is regulated and restricted. Currently, foreign investment in Taiwan securities is permitted by investment through: (1) global depository receipts, (2) convertible bonds, (3) mutual funds issued offshore of Taiwan, and (4) a special foreign institutional investors (FINIs) and foreign individual investors (FIDIs) program supervised by the Taiwan SFB whereunder FINIs/FIDIs may apply for investment ID to invest in Taiwan securities by registration with Taiwan Stock Exchange. FINIs will additionally need consent from the foreign exchange authority, ie, the Central Bank of China. In addition to the limitations above, various industry-specific percentage-based limitations on foreign ownership of Taiwan companies (and in some cases prohibitions) may apply. Investments are subject to exchange rate and currency conversion restrictions and risks. Dividends and interest earned by foreign investors' Taiwan securities/instruments are generally subject to a 20% withholding tax. Ordinary shares are not available to ML private client accounts in the U.S.

This report is distributed in Taiwan by Merrill Lynch Securities (Taiwan) Limited, which is regulated by the Taiwan SFB.

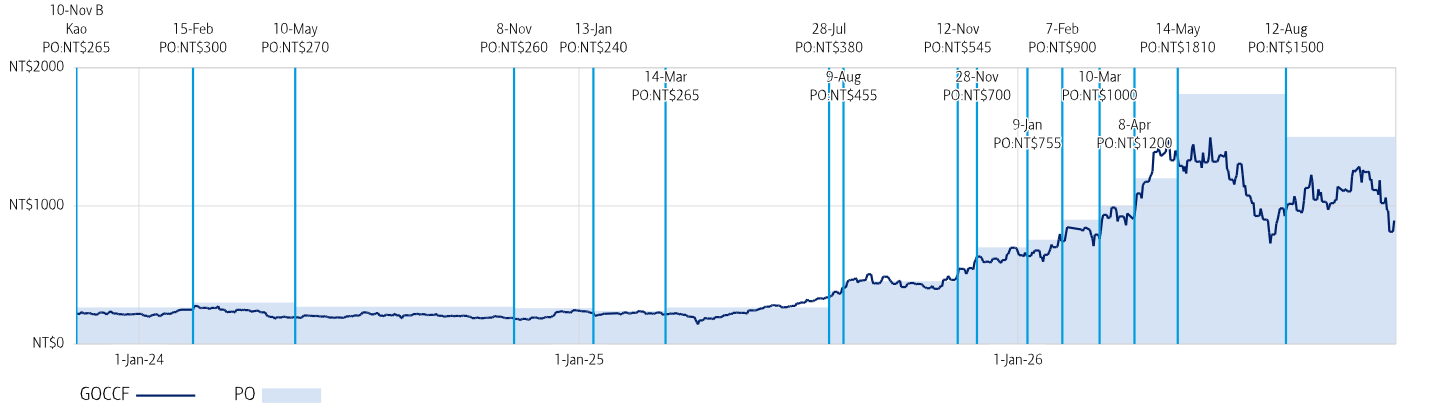
Gold Circuit (GOCCF) Price Chart



B: Buy, N: Neutral, U: Underperform, PO: Price Objective, NA: No longer valid, NR: No Rating

The Investment Opinion System is contained at the end of the report under the heading "Fundamental Equity Opinion Key". Dark grey shading indicates the security is restricted with the opinion suspended. Medium grey shading indicates the security is under review with the opinion withdrawn. Light grey shading indicates the security is not covered. Chart is current as of a date no more than one trading day prior to the date of the report.

Equity Investment Rating Distribution: Electronics Group (as of 30 Sep 2026)

Coverage Universe	Count	Percent	Inv. Banking Relationships [R1]	Count	Percent
Buy	41	65.08%	Buy	20	48.78%
Hold	9	14.29%	Hold	1	11.11%
Sell	13	20.63%	Sell	7	53.85%

Equity Investment Rating Distribution: Global Group (as of 30 Sep 2026)

Coverage Universe	Count	Percent	Inv. Banking Relationships [R1]	Count	Percent
Buy	2057	57.03%	Buy	1386	67.38%
Hold	806	22.35%	Hold	563	69.85%
Sell	744	20.63%	Sell	446	59.95%

[R1] Issuers that were investment banking clients of BofA Securities or one of its affiliates within the past 12 months. For purposes of this Investment Rating Distribution, the coverage universe includes only stocks. A stock rated Neutral is included as a Hold, and a stock rated Underperform is included as a Sell.

FUNDAMENTAL EQUITY OPINION KEY: Opinions include a Volatility Risk Rating, an Investment Rating and an Income Rating. VOLATILITY RISK RATINGS, indicators of potential price fluctuation, are: A - Low, B - Medium and C - High. INVESTMENT RATINGS reflect the analyst's assessment of both a stock's absolute total return potential as well as its attractiveness for investment relative to other stocks within its Coverage Cluster (defined below). Our investment ratings are: 1 - Buy stocks are expected to have a total return of at least 10% and are the most attractive stocks in the coverage cluster; 2 - Neutral stocks are expected to remain flat or increase in value and are less attractive than Buy rated stocks and 3 - Underperform stocks are the least attractive stocks in a coverage cluster. An investment rating of 6 (No Rating) indicates that a stock is no longer trading on the basis of fundamentals. Analysts assign investment ratings considering, among other things, the 0-12 month total return expectation for a stock and the firm's guidelines for ratings dispersions (shown in the table below). The current price objective for a stock should be referenced to better understand the total return expectation at any given time. The price objective reflects the analyst's view of the potential price appreciation (depreciation).

Investment rating	Total return expectation (within 12-month period of date of initial rating)	Ratings dispersion guidelines for coverage cluster[R2]
Buy	≥ 10%	≤ 70%
Neutral	≥ 0%	≤ 30%
Underperform	N/A	≥ 20%

[R2] Ratings dispersions may vary from time to time where BofA Global Research believes it better reflects the investment prospects of stocks in a Coverage Cluster.

INCOME RATINGS, indicators of potential cash dividends, are: 7 - same/higher (dividend considered to be secure), 8 - same/lower (dividend not considered to be secure) and 9 - pays no cash dividend. *Coverage Cluster* is comprised of stocks covered by a single analyst or two or more analysts sharing a common industry, sector, region or other classification(s). A stock's coverage cluster is included in the most recent BofA Global Research report referencing the stock.

Price Charts for the securities referenced in this research report are available on the Price Charts website, or call 1-800-MERRILL to have them mailed.
In the US, retail sales and/or distribution of this report may be made only in states where these securities are exempt from registration or have been qualified for sale: Gold Circuit.
The country in which this issuer is organized has certain laws or regulations that limit or restrict ownership of the issuer's shares by nationals of other countries: Gold Circuit.
BofA Global Research personnel (including the analyst(s) responsible for this report) receive compensation based upon, among other factors, the overall profitability of Bank of America Corporation, including profits derived from investment banking. The analyst(s) responsible for this report may also receive compensation based upon, among other factors, the overall profitability of the Bank's sales and trading businesses relating to the class of securities or financial instruments for which such analyst is responsible.

Other Important Disclosures

From time to time research analysts conduct site visits of covered issuers. BofA Global Research policies prohibit research analysts from accepting payment or reimbursement for travel

expenses from the issuer for such visits.
Prices are indicative and for information purposes only. Except as otherwise stated in the report, for any recommendation in relation to an equity security, the price referenced is the publicly traded price of the security as of close of business on the day prior to the date of the report or, if the report is published during intraday trading, the price referenced is indicative of the traded price as of the date and time of the report and in relation to a debt security (including equity preferred and CDS), prices are indicative as of the date and time of the report and are from various sources including BofA Securities trading desks.
The date and time of completion of the production of any recommendation in this report shall be the date and time of dissemination of this report as recorded in the report timestamp.

Recipients who are not institutional investors or market professionals should seek the advice of their independent financial advisor before considering information in this report in connection with any investment decision, or for a necessary explanation of its contents.
Officers of BofAS or one or more of its affiliates (other than research analysts) may have a financial interest in securities of the issuer(s) or in related investments.
Refer to BofA Global Research policies relating to conflicts of interest.
"BofA Securities" includes BofA Securities, Inc. ("BofAS") and its affiliates. Investors should contact their BofA Securities representative or Merrill Global Wealth Management financial advisor if they have questions concerning this report or concerning the appropriateness of any investment idea described herein for such investor. "BofA Securities" is a global brand for BofA Global Research.

General Investment Related Disclosures:
Taiwan Readers: Neither the information nor any opinion expressed herein constitutes an offer or a solicitation of an offer to transact in any securities or other financial instrument. No part of this report may be used or reproduced or quoted in any manner whatsoever in Taiwan by the press or any other person without the express written consent of BofA Securities.
This document provides general information only, and has been prepared for, and is intended for general distribution to, BofA Securities clients. Neither the information nor any opinion expressed constitutes an offer or an invitation to make an offer, to buy or sell any securities or other financial instrument or any derivative related to such securities or instruments (e.g., options, futures, warrants, and contracts for differences). This document is not intended to provide personal investment advice and it does not take into account the specific investment objectives, financial situation and the particular needs of, and is not directed to, any specific person(s). This document and its content do not constitute, and should not be considered to constitute, investment advice for purposes of ERISA, the US tax code, the Investment Advisers Act or otherwise. Investors should seek financial advice regarding the appropriateness of investing in financial instruments and implementing investment strategies discussed or recommended in this document and should understand that statements regarding future prospects may not be realized. Any decision to purchase or subscribe for securities in any offering must be based solely on existing public information on such security or the information in the prospectus or other offering document issued in connection with such offering, and not on this document.
Securities and other financial instruments referred to herein, or recommended, offered or sold by BofA Securities, are not insured by the Federal Deposit Insurance Corporation and are not deposits or other obligations of any insured depository institution (including, Bank of America, N.A.). Investments in general and, derivatives, in particular, involve numerous risks, including, among others, market risk, counterparty default risk and liquidity risk. No security, financial instrument or derivative is suitable for all investors. Digital assets are extremely speculative, volatile and are not regulated in a manner similar to U.S. securities markets. In some cases, securities and other financial instruments may be difficult to value or sell and reliable information about the value or risks related to the security or financial instrument may be difficult to obtain. Investors should note that income from such securities and other financial instruments, if any, may fluctuate and that price or value of such securities and instruments may rise or fall and, in some cases, investors may lose their entire principal investment. Past performance is not necessarily a guide to future performance. Levels and basis for taxation may change.
This report may contain a short-term trading idea or recommendation, which highlights a specific near-term catalyst or event impacting the issuer or the market that is anticipated to have a short-term price impact on the equity securities of the issuer. Short-term trading ideas and recommendations are different from and do not affect a stock's fundamental equity rating, which reflects both a longer term total return expectation and attractiveness for investment relative to other stocks within its Coverage Cluster. Short-term trading ideas and recommendations may

be more or less positive than a stock's fundamental equity rating.
BofA Securities is aware that the implementation of the ideas expressed in this report may depend upon an investor's ability to "short" securities or other financial instruments and that such action may be limited by regulations prohibiting or restricting "shortselling" in many jurisdictions. Investors are urged to seek advice regarding the applicability of such regulations prior to executing any short idea contained in this report.
Foreign currency rates of exchange may adversely affect the value, price or income of any security or financial instrument mentioned herein. Investors in such securities and instruments, including ADRs, effectively assume currency risk.
BofAS or one of its affiliates is a regular issuer of traded financial instruments linked to securities or digital assets that may have been recommended or discussed in this report. BofAS or one of its affiliates may, at any time, hold a trading position (long or short) in the securities and financial instruments recommended or discussed in this report.
BofA Securities, through business units other than BofA Global Research, may have issued and may in the future issue trading ideas or recommendations that are inconsistent with, and reach different conclusions from, the information presented herein. Such ideas or recommendations may reflect different time frames, assumptions, views and analytical methods of the persons who prepared them, and BofA Securities is under no obligation to ensure that such other trading ideas or recommendations are brought to the attention of any recipient of this information.
In the event that the recipient received this information pursuant to a contract between the recipient and BofAS for the provision of research services for a separate fee, and in connection therewith BofAS may be deemed to be acting as an investment adviser, such status relates, if at all, solely to the person with whom BofAS has contracted directly and does not extend beyond the delivery of this report (unless otherwise agreed specifically in writing by BofAS). If such recipient uses the services of BofAS in connection with the sale or purchase of a security referred to herein, BofAS may act as principal for its own account or as agent for another person. BofAS is and continues to act solely as a broker-dealer in connection with the execution of any transactions, including transactions in any securities referred to herein.

Receipt and review of this information constitutes your agreement not to redistribute, retransmit, or disclose to others the contents, opinions, conclusion, or information contained herein (including any investment recommendations, estimates or price targets) without first obtaining express permission from an authorized officer of BofA Securities.
Materials prepared by BofA Global Research personnel are based on public information. Facts and views presented in this material have not been reviewed by, and may not reflect information known to, professionals in other business areas of BofA Securities, including investment banking personnel. BofA Securities has established information barriers between BofA Global Research and certain business groups. As a result, BofA Securities does not disclose certain client relationships with, or compensation received from, such issuers. To the extent this material discusses any legal proceeding or issues, it has not been prepared as nor is it intended to express any legal conclusion, opinion or advice. Investors should consult their own legal advisers as to issues of law relating to the subject matter of this material. BofA Global Research personnel's knowledge of legal proceedings in which any BofA Securities entity and/or its directors, officers and employees may be plaintiffs, defendants, co-defendants or co-plaintiffs with or involving issuers mentioned in this material is based on public information. Facts and views presented in this material that relate to any such proceedings have not been reviewed by, discussed with, and may not reflect information known to, professionals in other business areas of BofA Securities in connection with the legal proceedings or matters relevant to such proceedings.
This information has been prepared independently of any issuer of securities mentioned herein and not in connection with any proposed offering of securities or as agent of any issuer of any securities. None of BofAS any of its affiliates or their research analysts has any authority whatsoever to make any representation or warranty on behalf of the issuer(s). BofA Global Research policy prohibits research personnel from disclosing a recommendation, investment rating, or investment thesis for review by an issuer prior to the publication of a research report containing such rating, recommendation or investment thesis.
Any information relating to sustainability in this material is limited as discussed herein and is not intended to provide a comprehensive view on any sustainability claim with respect to any issuer or security.
Any information relating to the tax status of financial instruments discussed herein is not intended to provide tax advice or to be used by anyone to provide tax advice. Investors are urged to seek tax advice based on their particular circumstances from an independent tax professional.
The information herein (other than disclosure information relating to BofA Securities and its affiliates) was obtained from various sources and we do not guarantee its accuracy. This information may contain links to third-party websites. BofA Securities is not responsible for the content of any third-party website or any linked content contained in a third-party website. Content contained on such third-party websites is not part of this information and is not incorporated by reference. The inclusion of a link does not imply any endorsement by or any affiliation with BofA Securities. Access to any third-party website is at your own risk, and you should always review the terms and privacy policies at third-party websites before submitting any personal information to them. BofA Securities is not responsible for such terms and privacy policies and expressly disclaims any liability for them.
All opinions, projections and estimates constitute the judgment of the author as of the date of publication and are subject to change without notice. Prices also are subject to change without notice. BofA Securities is under no obligation to update this information and BofA Securities ability to publish information on the subject issuer(s) in the future is subject to applicable quiet periods. You should therefore assume that BofA Securities will not update any fact, circumstance or opinion contained herein.
Subject to the quiet period applicable under laws of the various jurisdictions in which we distribute research reports and other legal and BofA Securities policy-related restrictions on the publication of research reports, fundamental equity reports are produced on a regular basis as necessary to keep the investment recommendation current.
Certain outstanding reports or investment opinions relating to securities, financial instruments and/or issuers may no longer be current. Always refer to the most recent research report relating to an issuer prior to making an investment decision.
In some cases, an issuer may be classified as Restricted or may be Under Review or Extended Review. In each case, investors should consider any investment opinion relating to such issuer (or its security and/or financial instruments) to be suspended or withdrawn and should not rely on the analyses and investment opinion(s) pertaining to such issuer (or its securities and/or financial instruments) nor should the analyses or opinion(s) be considered a solicitation of any kind. Sales persons and financial advisors affiliated with BofAS or any of its affiliates may not solicit purchases of securities or financial instruments that are Restricted or Under Review and may only solicit securities under Extended Review in accordance with firm policies.
Neither BofA Securities nor any officer or employee of BofA Securities accepts any liability whatsoever for any direct, indirect or consequential damages or losses arising from any use of this information.

Vanguard International Semiconductor Co

Robust 8" demand and pricing with solid 12" fab ramp

Reiterate Rating: BUY | PO: 250.00 TWD | Price: 132.00 TWD

3Q sales/margin supported by PMIC strength

Vanguard's 3Q26 sales rose 10.2% QoQ on the back of increased wafer shipments (up 5% QoQ), particularly for server and smartphone PMIC, and rising wafer prices (up 3% QoQ). As higher utilization of around 90% and a more favorable pricing and product mix more than offset rising manufacturing costs, the 3Q26 gross margin improved by 130bps QoQ, to 33.6%, bringing 3Q26 EPS to NT$1.62 (vs. BofAe/Street of NT$1.67/1.58).

4Q capacity bottleneck offset by ASP uplift

The company guided to 4Q26 sales growth of 5% QoQ at the midpoint, driven by a 1% QoQ increase in wafer shipments, with strong demand capped to some degree by tight capacity, and 4% higher ASPs QoQ, the stronger pricing reflecting rising costs. Assuming further utilization improvement above 90% amid this pricing strength, Vanguard expects the 4Q26 gross margin to expand to 35% at the midpoint, in line with BofAe.

Solid 8" growth and smooth 12" ramp drive '27-28 growth

We believe Vanguard's 8-inch utilization is on track to improve to the mid- to high 90s (%) in 1H27 and remain fully loaded from 2H27 on solid demand related to power IC for computing applications, while 12-inch VSMC should enter mass production from 1Q27, with utilization staying above 90% as capacity gradually expands to 44k WPM by 4Q28. Given the solid commitment from TSMC (interposer demand), the 12-inch margin profile should fare better than previously expected. This, coupled with an 8-inch price hike amid tight supply should drive GM expansion to 36% in 2027 (vs. 32.8% in 2026).

Decent EPS CAGR of 72% supports high valuation

Our EPS forecasts are largely unchanged at NT$6.17 in 2026, NT$10.33 in 2027, and NT$18.15 in 2028. We reiterate our Buy rating and PO of NT$250, still based on 17x 2H27-1H28e EPS (vs. the stock's historical 10-32x range) as a benign 8-inch supply-demand landscape and smooth 12-inch ramp-up support a 45% sales and 72% earnings CAGR over 2026-28e.

Company Sector

Semiconductors

Company Description

Vanguard International Semiconductor Co is a pure 8-inch foundry headquartered in Hsinchu, Taiwan. The company has five fabs, one of which is in Singapore. Collectively, the capacity is now about 280k WPM, and the company focuses on fabricating power semiconductors and driver IC for both IDMs (integrated device manufacturers) and fabless customers.

Investment Rationale

We have a Buy rating on Vanguard as we expect an improvement in the overall 8-inch foundry supply/demand landscape from TSMC's retirement of some legacy capacity and limited new industry capacity additions. The higher utilization and pricing upcycle in 8-inch, coupled with enhanced mix from market share gains in Power IC, are likely to support sales and gross margin expansion.

BofA GLOBAL RESEARCH

Price objective basis & risk

Vanguard International Semiconductor Co (VGILF)
Our PO of NT$250 is based on 17x 2H27-1H28 EPS. This target multiple is slightly below the midpoint of Vanguard's historical range of 10-32x, reflecting both depreciation associated with the Singapore fab and Vanguard's increasing share in the Power IC market amid a utilization and pricing uptrend.

Downside risks:
(1) Higher cost burden if customers demand to move the production base to US and/or Europe.
(2) Slowdown of growth in auto market where the company has 10-20% revenue exposure.

Upside risks:
(1) Stronger-than-expected end market demand for power management IC (PMIC) and/or display driver IC (DDIC).
(2) Expedited market share gain due to the order shift by customers from China-based foundries.

Analyst Certification

I, Haas Liu, hereby certify that the views expressed in this research report accurately reflect my personal views about the subject securities and issuers. I also certify that no part of my compensation was, is, or will be, directly or indirectly, related to the specific recommendations or view expressed in this research report.

Special Disclosures

Information on securities which are listed on the exchanges where ML Securities (Taiwan) Limited is not permitted to trade or solicit trades for clients is for informational purposes only and is not a recommendation or a solicitation to trade such securities. ML Securities (Taiwan) Limited will not execute transactions for nor accept orders from clients to trade such securities. Foreign investment in Taiwan securities is regulated and restricted. Currently, foreign investment in Taiwan securities is permitted by investment through: (1) global depository receipts, (2) convertible bonds, (3) mutual funds issued offshore of Taiwan, and (4) a special foreign institutional investors (FINIs) and foreign individual investors (FIDIs) program supervised by the Taiwan SFB whereunder FINIs/FIDIs may apply for investment ID to invest in Taiwan securities by registration with Taiwan Stock Exchange. FINIs will additionally need consent from the foreign exchange authority, ie, the Central Bank of China. In addition to the limitations above, various industry-specific percentage-based limitations on foreign ownership of Taiwan companies (and in some cases prohibitions) may apply. Investments are subject to exchange rate and currency conversion restrictions and risks. Dividends and interest earned by foreign investors' Taiwan securities/instruments are generally subject to a 20% withholding tax. Ordinary shares are not available to ML private client accounts in the U.S.

This report is distributed in Taiwan by Merrill Lynch Securities (Taiwan) Limited, which is regulated by the Taiwan SFB.

Sell	74	18.00%	Sell	31	41.89%

Equity Investment Rating Distribution: Global Group (as of 30 Sep 2026)

Coverage Universe	Count	Percent	Inv. Banking Relationships [R1]	Count	Percent
Buy	2057	57.03%	Buy	1386	67.38%
Hold	806	22.35%	Hold	563	69.85%
Sell	744	20.63%	Sell	446	59.95%

[R1] Issuers that were investment banking clients of BofA Securities or one of its affiliates within the past 12 months. For purposes of this Investment Rating Distribution, the coverage universe includes only stocks. A stock rated Neutral is included as a Hold, and a stock rated Underperform is included as a Sell.

FUNDAMENTAL EQUITY OPINION KEY: Opinions include a Volatility Risk Rating, an Investment Rating and an Income Rating. VOLATILITY RISK RATINGS, indicators of potential price fluctuation, are: A - Low, B - Medium and C - High. INVESTMENT RATINGS reflect the analyst's assessment of both a stock's absolute total return potential as well as its attractiveness for investment relative to other stocks within its Coverage Cluster (defined below). Our investment ratings are: 1 - Buy stocks are expected to have a total return of at least 10% and are the most attractive stocks in the coverage cluster; 2 - Neutral stocks are expected to remain flat or increase in value and are less attractive than Buy rated stocks and 3 - Underperform stocks are the least attractive stocks in a coverage cluster. An investment rating of 6 (No Rating) indicates that a stock is no longer trading on the basis of fundamentals. Analysts assign investment ratings considering, among other things, the 0-12 month total return expectation for a stock and the firm's guidelines for ratings dispersions (shown in the table below). The current price objective for a stock should be referenced to better understand the total return expectation at any given time. The price objective reflects the analyst's view of the potential price appreciation (depreciation).

Investment rating	Total return expectation (within 12-month period of date of initial rating)	Ratings dispersion guidelines for coverage cluster[R2]
Buy	≥ 10%	≤ 70%
Neutral	≥ 0%	≤ 30%
Underperform	N/A	≥ 20%

[R2] Ratings dispersions may vary from time to time where BofA Global Research believes it better reflects the investment prospects of stocks in a Coverage Cluster.

INCOME RATINGS, indicators of potential cash dividends, are: 7 - same/higher (dividend considered to be secure), 8 - same/lower (dividend not considered to be secure) and 9 - pays no cash dividend. *Coverage Cluster* is comprised of stocks covered by a single analyst or two or more analysts sharing a common industry, sector, region or other classification(s). A stock's coverage cluster is included in the most recent BofA Global Research report referencing the stock.

Price Charts for the securities referenced in this research report are available on the Price Charts website, or call 1-800-MERRILL to have them mailed.

General Investment Related Disclosures:
Taiwan Readers: Neither the information nor any opinion expressed herein constitutes an offer or a solicitation of an offer to transact in any securities or other financial instrument. No part of this report may be used or reproduced or quoted in any manner whatsoever in Taiwan by the press or any other person without the express written consent of BofA Securities.
This document provides general information only, and has been prepared for, and is intended for general distribution to, BofA Securities clients. Neither the information nor any opinion expressed constitutes an offer or an invitation to make an offer, to buy or sell any securities or other financial instrument or any derivative related to such securities or instruments (e.g., options, futures, warrants, and contracts for differences). This document is not intended to provide personal investment advice and it does not take into account the specific investment objectives, financial situation and the particular needs of, and is not directed to, any specific person(s). This document and its content do not constitute, and should not be considered to constitute, investment advice for purposes of ERISA, the US tax code, the Investment Advisers Act or otherwise. Investors should seek financial advice regarding the appropriateness of investing in financial instruments and implementing investment strategies discussed or recommended in this document and should understand that statements regarding future prospects may not be realized. Any decision to purchase or subscribe for securities in any offering must be based solely on existing public information on such security or the information in the prospectus or other offering document issued in connection with such offering, and not on this document.
Securities and other financial instruments referred to herein, or recommended, offered or sold by BofA Securities, are not insured by the Federal Deposit Insurance Corporation and are not deposits or other obligations of any insured depository institution (including, Bank of America, N.A.). Investments in general and, derivatives, in particular, involve numerous risks, including, among others, market risk, counterparty default risk and liquidity risk. No security, financial instrument or derivative is suitable for all investors. Digital assets are extremely speculative, volatile and are not regulated in a manner similar to U.S. securities markets. In some cases, securities and other financial instruments may be difficult to value or sell and reliable information about the value or risks related to the security or financial instrument may be difficult to obtain. Investors should note that income from such securities and other financial instruments, if any, may fluctuate and that price or value of such securities and instruments may rise or fall and, in some cases, investors may lose their entire principal investment. Past performance is not necessarily a guide to future performance. Levels and basis for taxation may change.
This report may contain a short-term trading idea or recommendation, which highlights a specific near-term catalyst or event impacting the issuer or the market that is anticipated to have a short-term price impact on the equity securities of the issuer. Short-term trading ideas and recommendations are different from and do not affect a stock's fundamental equity rating, which reflects both a longer term total return expectation and attractiveness for investment relative to other stocks within its Coverage Cluster. Short-term trading ideas and recommendations may

be more or less positive than a stock's fundamental equity rating.
BofA Securities is aware that the implementation of the ideas expressed in this report may depend upon an investor's ability to "short" securities or other financial instruments and that such action may be limited by regulations prohibiting or restricting "shortselling" in many jurisdictions. Investors are urged to seek advice regarding the applicability of such regulations prior to executing any short idea contained in this report.
Foreign currency rates of exchange may adversely affect the value, price or income of any security or financial instrument mentioned herein. Investors in such securities and instruments, including ADRs, effectively assume currency risk.
BofAS or one of its affiliates is a regular issuer of traded financial instruments linked to securities or digital assets that may have been recommended or discussed in this report. BofAS or one of its affiliates may, at any time, hold a trading position (long or short) in the securities and financial instruments recommended or discussed in this report.
BofA Securities, through business units other than BofA Global Research, may have issued and may in the future issue trading ideas or recommendations that are inconsistent with, and reach different conclusions from, the information presented herein. Such ideas or recommendations may reflect different time frames, assumptions, views and analytical methods of the persons who prepared them, and BofA Securities is under no obligation to ensure that such other trading ideas or recommendations are brought to the attention of any recipient of this information.
In the event that the recipient received this information pursuant to a contract between the recipient and BofAS for the provision of research services for a separate fee, and in connection therewith BofAS may be deemed to be acting as an investment adviser, such status relates, if at all, solely to the person with whom BofAS has contracted directly and does not extend beyond the delivery of this report (unless otherwise agreed specifically in writing by BofAS). If such recipient uses the services of BofAS in connection with the sale or purchase of a security referred to herein, BofAS may act as principal for its own account or as agent for another person. BofAS is and continues to act solely as a broker-dealer in connection with the execution of any transactions, including transactions in any securities referred to herein.

Any attempt to utilize this document or any of its content in connection with an AI tool without explicit written permission from BofA Global Research is strictly prohibited. BofA Global Research utilizes AI, including machine learning and other technologies, to enhance the services we provide to our clients. These technologies assist our analysts in various aspects of their work, including but not limited to data analysis, content extraction, content creation, data aggregation and summarization and identifying relevant information from diverse sources. All AI-driven processes are subject to review by BofA Global Research employees. BofA Global Research information is distributed simultaneously to internal and client websites and other portals by BofA Securities and is not publicly-available material. Any unauthorized use or disclosure is prohibited. Receipt and review of this information constitutes your agreement not to redistribute, retransmit, or disclose to others the contents, opinions, conclusion, or information contained herein (including any investment recommendations, estimates or price targets) without first obtaining express permission from an authorized officer of BofA Securities.
Materials prepared by BofA Global Research personnel are based on public information. Facts and views presented in this material have not been reviewed by, and may not reflect information known to, professionals in other business areas of BofA Securities, including investment banking personnel. BofA Securities has established information barriers between BofA Global Research and certain business groups. As a result, BofA Securities does not disclose certain client relationships with, or compensation received from, such issuers. To the extent this material discusses any legal proceeding or issues, it has not been prepared as nor is it intended to express any legal conclusion, opinion or advice. Investors should consult their own legal advisers as to issues of law relating to the subject matter of this material. BofA Global Research personnel's knowledge of legal proceedings in which any BofA Securities entity and/or its directors, officers and employees may be plaintiffs, defendants, co-defendants or co-plaintiffs with or involving issuers mentioned in this material is based on public information. Facts and views presented in this material that relate to any such proceedings have not been reviewed by, discussed with, and may not reflect information known to, professionals in other business areas of BofA Securities in connection with the legal proceedings or matters relevant to such proceedings.
This information has been prepared independently of any issuer of securities mentioned herein and not in connection with any proposed offering of securities or as agent of any issuer of any securities. None of BofAS any of its affiliates or their research analysts has any authority whatsoever to make any representation or warranty on behalf of the issuer(s). BofA Global Research policy prohibits research personnel from disclosing a recommendation, investment rating, or investment thesis for review by an issuer prior to the publication of a research report containing such rating, recommendation or investment thesis.
Any information relating to sustainability in this material is limited as discussed herein and is not intended to provide a comprehensive view on any sustainability claim with respect to any issuer or security.
Any information relating to the tax status of financial instruments discussed herein is not intended to provide tax advice or to be used by anyone to provide tax advice. Investors are urged to seek tax advice based on their particular circumstances from an independent tax professional.
The information herein (other than disclosure information relating to BofA Securities and its affiliates) was obtained from various sources and we do not guarantee its accuracy. This information may contain links to third-party websites. BofA Securities is not responsible for the content of any third-party website or any linked content contained in a third-party website. Content contained on such third-party websites is not part of this information and is not incorporated by reference. The inclusion of a link does not imply any endorsement by or any affiliation with BofA Securities. Access to any third-party website is at your own risk, and you should always review the terms and privacy policies at third-party websites before submitting any personal information to them. BofA Securities is not responsible for such terms and privacy policies and expressly disclaims any liability for them.
All opinions, projections and estimates constitute the judgment of the author as of the date of publication and are subject to change without notice. Prices also are subject to change without notice. BofA Securities is under no obligation to update this information and BofA Securities ability to publish information on the subject issuer(s) in the future is subject to applicable quiet periods. You should therefore assume that BofA Securities will not update any fact, circumstance or opinion contained herein.
Subject to the quiet period applicable under laws of the various jurisdictions in which we distribute research reports and other legal and BofA Securities policy-related restrictions on the publication of research reports, fundamental equity reports are produced on a regular basis as necessary to keep the investment recommendation current.
Certain outstanding reports or investment opinions relating to securities, financial instruments and/or issuers may no longer be current. Always refer to the most recent research report relating to an issuer prior to making an investment decision.
In some cases, an issuer may be classified as Restricted or may be Under Review or Extended Review. In each case, investors should consider any investment opinion relating to such issuer (or its security and/or financial instruments) to be suspended or withdrawn and should not rely on the analyses and investment opinion(s) pertaining to such issuer (or its securities and/or financial instruments) nor should the analyses or opinion(s) be considered a solicitation of any kind. Sales persons and financial advisors affiliated with BofAS or any of its affiliates may not solicit purchases of securities or financial instruments that are Restricted or Under Review and may only solicit securities under Extended Review in accordance with firm policies.
Neither BofA Securities nor any officer or employee of BofA Securities accepts any liability whatsoever for any direct, indirect or consequential damages or losses arising from any use of this information.

UPDATE

November 10, 2026 03:35 PM GMT

AllRing Tech Co. | Asia Pacific

3Q26 margin miss from product mix

AlphaSignals Earnings Reaction

Unchanged	Modest shortfall	Largely unchanged
Impact to our thesis	Financial results versus consensus	Direction of next 12-month consensus EPS

Source: Company data, Morgan Stanley Research

Key Takeaways

- 2027 revenue still mostly comes from CoWoS demand, with several new customers and tool shipment starting.
- We view valuation as attractive: P/E of 21x our 2027 estimate, with 2026-2028e revenue CAGR >40%.
- Thus, we stay OW on AllRing.

3Q26 earnings missed our estimate by 13% and consensus by 16%, given less favorable product mix... There was less inspection (gross margin >60%) but more automation tools (gross margin ~40%).

...as well as weaker subsidiary company performance.

Looking into 4Q26, we expect gross margin to recover to >50% from improving product mix: However, this will still be slightly offset by new product shipped to the OSATs, which carries lower margin in the early ramping phase.

We think CoWoS should still account for 70-80% of 2027e total revenue – with other new customers and tools, including a US customer, CPO, and CoW process. We think CPO could account for 15-20% of 2027e revenue, with shipments up >10x from 2026.

Exhibit 1: AllRing: 3Q26 Earnings Review

NT$ mn	Actual 3Q26	QoQ	YoY	MS 3Q26e	Diff.%	Consensus	Diff.%

Valuation Methodology and Risks

AllRing Tech Co. (6187.TWO)

Base case, residual income model. Our key assumptions are:

- Cost of equity (CoE) of 8%, derived from a risk-free rate of 2.0%, beta of 1.0, and a market risk premium of 6.0%.
- Intermediate growth rate of 16%.
- Cash dividend payout of 65%
- Terminal growth rate of 4.5%.

Risks to Upside

- Stronger-than-expected CoWoS capacity expansion
- Faster-than-expected adoption of silicon photonics
- Market share gains from peers, led by continuous R&D and China's localization trend

Risks to Downside

- Slowdown in CoWoS capacity expansion
- Allring's "WoS" market share declining
- Slowdown in technology migration such as SoIC and silicon photonics adoption

Important Regulatory Disclosures on Subject Companies

As of October 30, 2026, Morgan Stanley beneficially owned 1% or more of a class of common equity securities of the following companies covered in Morgan Stanley Research: ACM Research Inc, Advanced Micro-Fabrication Equipment Inc, Advanced Wireless Semiconductor Co, Alchip Technologies Ltd, **AllRing Tech Co.**, AP Memory Technology Corp, ASE Technology Holding Co. Ltd., ASMedia Technology Inc, ASMPT Ltd, Aspeed Technology, Cambricon Technology Corporation, eMemory Technology Inc, GigaDevice Semiconductor Beijing Inc, Gudeng Precision, Hua Hong Semiconductor Ltd, Macronix International Co Ltd, Montage Technology Co Ltd, NAURA Technology Group Co Ltd, Nuvoton Technology Corporation, Parade Technologies Ltd, Phison Electronics Corp, Powerchip Semiconductor Manufacturing Co, SG Micro Corp., Shanghai Fudan Microelectronics, SICC Co Ltd, Silergy Corp., Silicon Motion, StarPower Semiconductor Ltd, TSMC, UMC, Vanguard International Semiconductor, WIN Semiconductors Corp, WPG Holdings, WT Microelectronics Co. Ltd..

Within the last 12 months, Morgan Stanley managed or co-managed a public offering (or 144A offering) of securities of Alchip Technologies Ltd, Iluvatar CoreX Semiconductor Co., Ltd., MediaTek, Montage Technology Co Ltd, Powerchip Semiconductor Manufacturing Co, UMC.

Within the last 12 months, Morgan Stanley has received compensation for investment banking services from ASMPT Ltd, Iluvatar CoreX Semiconductor Co., Ltd., MediaTek, Montage Technology Co Ltd, Powerchip Semiconductor Manufacturing Co, Silicon Motion, UMC.

In the next 3 months, Morgan Stanley expects to receive or intends to seek compensation for investment banking services from Advanced Micro-Fabrication Equipment Inc, Alchip Technologies Ltd, AP Memory Technology Corp, ASE Technology Holding Co. Ltd., ASMedia Technology Inc, ASMPT Ltd, Aspeed Technology, CXMT Corp, Espressif Systems, GigaDevice Semiconductor Beijing Inc, GlobalWafers Co Ltd, Gudeng Precision, Himax Technologies Inc, Hua Hong Semiconductor Ltd, Iluvatar CoreX Semiconductor Co., Ltd., Innoscience, King Yuan Electronics Co Ltd, Macronix International Co Ltd, MediaTek, MetaX Integrated Circuits, Montage Technology Co Ltd, Novatek, Parade Technologies Ltd, Phison Electronics Corp, Powerchip Semiconductor Manufacturing Co, Realtek Semiconductor, SG Micro Corp., SICC Co Ltd, Silergy Corp., Silicon Motion, TSMC, UMC, Universal Scientific Ind. (Shanghai), Vanguard International Semiconductor, Winbond Electronics Corp, WPG Holdings, WT Microelectronics Co. Ltd..

Within the last 12 months, Morgan Stanley has received compensation for products and services other than investment banking services from ASE Technology Holding Co. Ltd., King Yuan Electronics Co Ltd, MediaTek, Nanya Technology Corp., Novatek, Nuvoton Technology Corporation, Realtek Semiconductor, Silicon Motion, SMIC, TSMC, UMC, Universal Scientific Ind. (Shanghai), Winbond Electronics Corp, WT Microelectronics Co. Ltd..

Within the last 12 months, Morgan Stanley has provided or is providing investment banking services to, or has an investment banking client relationship with, the following company: Advanced Micro-Fabrication Equipment Inc, Alchip Technologies Ltd, AP Memory Technology Corp, ASE Technology Holding Co. Ltd., ASMedia Technology Inc, ASMPT Ltd, Aspeed Technology, CXMT Corp, Espressif Systems, GigaDevice Semiconductor Beijing Inc, GlobalWafers Co Ltd, Gudeng Precision, Himax Technologies Inc, Hua Hong Semiconductor Ltd, Iluvatar CoreX Semiconductor Co., Ltd., Innoscience, King Yuan Electronics Co Ltd, Macronix International Co Ltd, MediaTek, MetaX Integrated Circuits, Montage Technology Co Ltd, Novatek, Parade Technologies Ltd, Phison Electronics Corp, Powerchip Semiconductor Manufacturing Co, Realtek Semiconductor, SG Micro Corp., SICC Co Ltd, Silergy Corp., Silicon Motion, TSMC, UMC, Universal Scientific Ind. (Shanghai), Vanguard International Semiconductor, Winbond Electronics Corp, WPG Holdings, WT Microelectronics Co. Ltd..

Within the last 12 months, Morgan Stanley has either provided or is providing non-investment banking, securities-related services to and/or in the past has entered into an agreement to provide services or has a client relationship with the following company: ASE Technology Holding Co. Ltd., Iluvatar CoreX Semiconductor Co., Ltd., King Yuan Electronics Co Ltd, MediaTek, Montage Technology Co Ltd, Nanya Technology Corp., Novatek, Nuvoton Technology Corporation, Realtek Semiconductor, Silicon Motion, SMIC, TSMC, UMC, Universal Scientific Ind. (Shanghai), Winbond Electronics Corp, WT Microelectronics Co. Ltd..

Morgan Stanley & Co. LLC makes a market in the securities of ACM Research Inc.

The equity research analysts or strategists principally responsible for the preparation of Morgan Stanley Research have received compensation based upon various factors, including quality

of research, investor client feedback, stock picking, competitive factors, firm revenues and overall investment banking revenues. Equity Research analysts' or strategists' compensation is not linked to investment banking or capital markets transactions performed by Morgan Stanley or the profitability or revenues of particular trading desks.
Morgan Stanley and its affiliates do business that relates to companies/instruments covered in Morgan Stanley Research, including market making, providing liquidity, fund management, commercial banking, extension of credit, investment services and investment banking. Morgan Stanley sells to and buys from customers the securities/instruments of companies covered in Morgan Stanley Research on a principal basis. Morgan Stanley may have a position in the debt of the Company or instruments discussed in this report. Morgan Stanley trades or may trade as principal in the debt securities (or in related derivatives) that are the subject of the debt research report.
Certain disclosures listed above are also for compliance with applicable regulations in non-US jurisdictions.

STOCK RATINGS

Morgan Stanley uses a relative rating system using terms such as Overweight, Equal-weight, Not-Rated or Underweight (see definitions below). Morgan Stanley does not assign ratings of Buy, Hold or Sell to the stocks we cover. Overweight, Equal-weight, Not-Rated and Underweight are not the equivalent of buy, hold and sell. Investors should carefully read the definitions of all ratings used in Morgan Stanley Research. In addition, since Morgan Stanley Research contains more complete information concerning the analyst's views, investors should carefully read Morgan Stanley Research, in its entirety, and not infer the contents from the rating alone. In any case, ratings (or research) should not be used or relied upon as investment advice. An investor's decision to buy or sell a stock should depend on individual circumstances (such as the investor's existing holdings) and other considerations.

Global Stock Ratings Distribution

(as of October 31, 2026)
The Stock Ratings described below apply to Morgan Stanley's Fundamental Equity Research and do not apply to Debt Research produced by the Firm.
For disclosure purposes only (in accordance with FINRA requirements), we include the category headings of Buy, Hold, and Sell alongside our ratings of Overweight, Equal-weight, Not-Rated and Underweight. Morgan Stanley does not assign ratings of Buy, Hold or Sell to the stocks we cover. Overweight, Equal-weight, Not-Rated and Underweight are not the equivalent of buy, hold, and sell but represent recommended relative weightings (see definitions below). To satisfy regulatory requirements, we correspond Overweight, our most positive stock rating, with a buy recommendation; we correspond Equal-weight and Not-Rated to hold and Underweight to sell recommendations, respectively.

	Coverage Universe		Investment Banking Clients (IBC)			Other Material Investment Services Clients (MISC)	
Stock Rating Category	Count	% of Total	Count	% of Total IBC	% of Rating Category	Count	% of Total Other MISC
Overweight/Buy	1575	43%	460	49%	29%	742	44%
Equal-weight/Hold	1537	42%	393	42%	26%	720	43%
Not-Rated/Hold	2	0%	1	0%	50%	1	0%
Underweight/Sell	570	15%	92	10%	16%	218	13%
Total	3,684		946			1681	

Data include common stock and ADRs currently assigned ratings. Investment Banking Clients are companies from whom Morgan Stanley received investment banking compensation in the last 12 months. Due to rounding off of decimals, the percentages provided in the "% of total" column may not add up to exactly 100 percent.

Analyst Stock Ratings

Overweight (O). The stock's total return is expected to exceed the average total return of the analyst's industry (or industry team's) coverage universe, on a risk-adjusted basis, over the next 12-18 months.
Equal-weight (E). The stock's total return is expected to be in line with the average total return of the analyst's industry (or industry team's) coverage universe, on a risk-adjusted basis, over the next 12-18 months.
Not-Rated (NR). Currently the analyst does not have adequate conviction about the stock's total return relative to the average total return of the analyst's industry (or industry team's) coverage universe, on a risk-adjusted basis, over the next 12-18 months.
Underweight (U). The stock's total return is expected to be below the average total return of the analyst's industry (or industry team's) coverage universe, on a risk-adjusted basis, over the next 12-18 months.
Unless otherwise specified, the time frame for price targets included in Morgan Stanley Research is 12 to 18 months.

Analyst Industry Views

Attractive (A): The analyst expects the performance of his or her industry coverage universe over the next 12-18 months to be attractive vs. the relevant broad market benchmark, as indicated below.
In-Line (I): The analyst expects the performance of his or her industry coverage universe over the next 12-18 months to be in line with the relevant broad market benchmark, as indicated below.
Cautious (C): The analyst views the performance of his or her industry coverage universe over the next 12-18 months with caution vs. the relevant broad market benchmark, as indicated below.
Benchmarks for each region are as follows: North America - S&P 500; Latin America - relevant MSCI country index or MSCI Latin America Index; Europe - MSCI Europe; Japan - TOPIX; Asia - relevant MSCI country index or MSCI sub-regional index or MSCI AC Asia Pacific ex Japan Index.

Effective January 13, 2014, the industry view benchmarks for Morgan Stanley Asia Pacific are as follows: relevant MSCI country index or MSCI sub-regional index or MSCI AC Asia Pacific ex Japan Index.

Important Disclosures for Morgan Stanley Smith Barney LLC Customers

Important disclosures regarding any material conflict of interest that can reasonably be expected to have influenced Morgan Stanley Smith Barney LLC's choice of a third-party research provider or the subject company of a third-party research report, are available on the Morgan Stanley Wealth Management disclosure website at www.morganstanley.com/online/researchdisclosures. For Morgan Stanley specific disclosures, you may refer to https://www.morganstanley.com/eqr/disclosures/webapp/generalresearch.

Each Morgan Stanley research report is reviewed and approved on behalf of Morgan Stanley Smith Barney LLC. This review and approval is conducted by the same person who reviews the research report on behalf of Morgan Stanley. This could create a conflict of interest.

Other Important Disclosures

Morgan Stanley Research policy is to update research reports as and when the Research Analyst and Research Management deem appropriate, based on developments with the issuer, the sector, or the market that may have a material impact on the research views or opinions stated therein. In addition, certain Research publications are intended to be updated on a regular periodic basis (weekly/monthly/quarterly/annual) and will ordinarily be updated with that frequency, unless the Research Analyst and Research Management determine that a different publication schedule is appropriate based on current conditions.

Morgan Stanley is not acting as a municipal advisor and the opinions or views contained herein are not intended to be, and do not constitute, advice within the meaning of Section 975 of the Dodd-Frank Wall Street Reform and Consumer Protection Act.

Morgan Stanley produces an equity research product called a "Tactical Idea." Views contained in a "Tactical Idea" on a particular stock may be contrary to the recommendations or views expressed in research on the same stock. This may be the result of differing time horizons, methodologies, market events, or other factors. For all research available on a particular stock, please contact your sales representative or go to Matrix at http://www.morganstanley.com/matrix.

Morgan Stanley Research is provided to our clients through our proprietary research portal on Matrix and also distributed electronically by Morgan Stanley to clients. Certain, but not all, Morgan Stanley Research products are also made available to clients through third-party vendors or redistributed to clients through alternate electronic means as a convenience. For access to all available Morgan Stanley Research, please contact your sales representative or go to Matrix at http://www.morganstanley.com/matrix.

Any access and/or use of Morgan Stanley Research is subject to Morgan Stanley's Terms of Use (http://www.morganstanley.com/terms.html). By accessing and/or using Morgan Stanley Research, you are indicating that you have read and agree to be bound by our Terms of Use (http://www.morganstanley.com/terms.html). In addition you consent to Morgan Stanley processing your personal data and using cookies in accordance with our Privacy Policy and our Global Cookies Policy (http://www.morganstanley.com/privacy_pledge.html), including for the purposes of setting your preferences and to collect readership data so that we can deliver better and more personalized service and products to you. To find out more information about how Morgan Stanley processes personal data, how we use cookies and how to reject cookies see our Privacy Policy and our Global Cookies Policy (http://www.morganstanley.com/privacy_pledge.html). Please use the provided link to review the Terms and Conditions and Most Important Terms and Conditions for Morgan Stanley India Company Private Limited (https://www.morganstanley.com/assets/pdfs/about-us-global-offices/india/Terms_and_conditions.pdf) and the following link to review the audit report (https://ny.matrix.ms.com/eqr/research/webapp/researchdocs/MSICPL_Morgan_Stanley_Research_Audit_Report.pdf).

If you do not agree to our Terms of Use and/or if you do not wish to provide your consent to Morgan Stanley processing your personal data or using cookies please do not access our research. Morgan Stanley Research does not provide individually tailored investment advice. Morgan Stanley Research has been prepared without regard to the circumstances and objectives of those who receive it. Morgan Stanley recommends that investors independently evaluate particular investments and strategies, and encourages investors to seek the advice of a financial adviser.

The appropriateness of an investment or strategy will depend on an investor's circumstances and objectives. The securities, instruments, or strategies discussed in Morgan Stanley Research may not be suitable for all investors, and certain investors may not be eligible to purchase or participate in some or all of them. Morgan Stanley Research is not an offer to buy or sell or the solicitation of an offer to buy or sell any security/instrument or to participate in any particular trading strategy. The value of and income from your investments may vary because of changes in interest rates, foreign exchange rates, default rates, prepayment rates, securities/instruments prices, market indexes, operational or financial conditions of companies or other factors. There may be time limitations on the exercise of options or other rights in securities/instruments transactions. Past performance is not necessarily a guide to future performance. Estimates of future performance are based on assumptions that may not be realized. If provided, and unless otherwise stated, the closing price on the cover page is that of the primary exchange for the subject company's securities/instruments.

The fixed income research analysts, strategists or economists principally responsible for the preparation of Morgan Stanley Research have received compensation based upon various factors, including quality, accuracy and value of research, firm profitability or revenues (which include fixed income trading and capital markets profitability or revenues), client feedback and competitive factors. Fixed Income Research analysts', strategists' or economists' compensation is not linked to investment banking or capital markets transactions performed by Morgan Stanley or the profitability or revenues of particular trading desks.

The "Important Regulatory Disclosures on Subject Companies" section in Morgan Stanley Research lists all companies mentioned where Morgan Stanley owns 1% or more of a class of common equity securities of the companies. For all other companies mentioned in Morgan Stanley Research, Morgan Stanley may have an investment of less than 1% in securities/instruments or derivatives of securities/instruments of companies and may trade them in ways different from those discussed in Morgan Stanley Research. Employees of Morgan Stanley not involved in the preparation of Morgan Stanley Research may have investments in securities/instruments or derivatives of securities/instruments of companies mentioned and may trade them in ways different from those discussed in Morgan Stanley Research. Derivatives may be issued by Morgan Stanley or associated persons.

With the exception of information regarding Morgan Stanley, Morgan Stanley Research is based on public information. Morgan Stanley makes every effort to use reliable, comprehensive information, but we make no representation that it is accurate or complete. We have no obligation to tell you when opinions or information in Morgan Stanley Research change apart from when we intend to discontinue equity research coverage of a subject company. Facts and views presented in Morgan Stanley Research have not been reviewed by, and may not reflect information known to, professionals in other Morgan Stanley business areas, including investment banking personnel.

Morgan Stanley Research personnel may participate in company events such as site visits and are generally prohibited from accepting payment by the company of associated expenses unless pre-approved by authorized members of Research management.

Morgan Stanley may make investment decisions that are inconsistent with the recommendations or views in this report.

To our readers based in Taiwan or trading in Taiwan securities/instruments: Information on securities/instruments that trade in Taiwan is distributed by Morgan Stanley Taiwan Limited ("MSTL"). Such information is for your reference only. The reader should independently evaluate the investment risks and is solely responsible for their investment decisions. Morgan Stanley Research may not be distributed to the public media or quoted or used by the public media without the express written consent of Morgan Stanley. Any non-customer reader within the scope of Article 7-1 of the Taiwan Stock Exchange Recommendation Regulations accessing and/or receiving Morgan Stanley Research is not permitted to provide Morgan Stanley Research to any third party (including but not limited to related parties, affiliated companies and any other third parties) or engage in any activities regarding Morgan Stanley Research which may create or give the appearance of creating a conflict of interest. Information on securities/instruments that do not trade in Taiwan is for informational purposes only and is not to be construed as a recommendation or a solicitation to trade in such securities/instruments. MSTL may not execute transactions for clients in these securities/instruments.

We expect ongoing margin expansion in 4Q26 and 2027, on improving product mix and pricing adjustments, but we lower our medium-term growth rate to bake in some conservatism. The stock still looks attractive at ~13.5x 2027e P/E. Stay OW.

See our 3Q26 results recap: 3Q26 Results Summary

4Q preview – revenue growth and margin expansion: We estimate 4Q revenue will rise ~8% q/q, to NT$31.8bn (+94% y/y), driven by higher ASPs and shipments deferred from Sep – Oct following flood-related logistics disruptions in Thailand. We expect sequential revenue growth across all major product segments except PC/NB, with networking delivering the largest increase, followed by AI/ASIC servers and general servers. We forecast margin expansion of ~100bps q/q, to 39.7% (+600bps y/y), supported by continued mix improvement and pricing adjustments to pass through higher copper-clad laminate (CCL) costs. This should translate into net profit of ~NT$7bn (+9% q/q, +130% y/y) and EPS of NT$13.82.

GCE's Suzhou 2 and Thailand 2 plants remain on track to begin mass production (MP) from 3Q27 and reach full ramp-up by end-CY27. Both facilities will support advanced high-density interconnect (HDI) production for a key customer's next-gen compute board, which we think could adopt a 34-layer (3+28+3) advanced HDI design using M9-grade CCL. While details remain subject to finalization, we expect each plant to add monthly output value of ~NT$1bn or more. We also expect at least one additional plant to begin advanced HDI MP in CY28, although details have yet to be finalized. This would give GCE at least three plants capable of advanced HDI production to meet demand from existing ASIC, and potential new, customers.

Reiterate OW with PT slightly lowered to NT$1,400, on our reduced medium-term growth assumption (from 12% to 11%), as we bake in some conservatism on concerns over a potential slowdown in data center build-out post the US midterm election (see our Global Team's view), despite our marginally higher EPS estimates for 2026-28e. Our new PT implies ~19x 2027e P/E, or ~14x 2028e P/E, slightly lowered but still above GCE's 3Y P/E avg. of ~14x, which we view as fair, driven by its capacity expansion plans and strong demand for AI servers and networking, with room for margin expansion.

OVERWEIGHT THESIS

- We stay OW because we think GCE is well positioned to benefit from rising demand for AI server PCBs and high-speed networking PCBs.
- We see 800G networking PCB demand increasing in the coming years, which should be a tailwind for gross margin in the longer term.
- Our price target implies ~19x 2027e P/E vs. GCE's three-year historical 6-26x range, which we still find attractive. GCE is benefiting from a favorable mix and should show margin expansion in the coming years.

BULL CASE NT$1,995.00

27.5x 2027e EPS

Much stronger server and switch growth in 2026; NB demand continues to grow y/y; gains more traction for IC testing boards: Server and switch demand continues to grow y/y in 2026, driven by new data center construction and replacements along with AI infrastructure build-outs. NB demand also shows y/y growth in 2026. In addition, GCE gains more traction for IC testing boards, even penetrating into probe card PCBs faster than expected.

BASE CASE NT$1,400.00

19x 2027e P/E

Server demand remains on growth track in 2026; NB demand shows flat to mild growth: We forecast a total sales CAGR of ~47%, 2025-28, with server business CAGR reaching 50% and networking business CAGR reaching 57%. We project that operating profit margin will reach ~35% by 2028 vs. ~23% in 2025.

BEAR CASE NT$850.00

11.7x 2027e EPS

Much weaker server and switch demand in 2026; NB demand deteriorates, and shipments fall y/y in 2026; IC testing board business takes longer than expected to develop: Server and switch demand falls in 2026, hampered by a weakening macro backdrop and hyperscalers cutting capex to preserve cash. NB business faces even weaker demand, at down ~15% y/y in 2026. GCE takes longer to ramp up its IC testing board business.

Risk Reward – Gold Circuit Electronics Ltd. (2368.TW)

KEY EARNINGS INPUTS

Drivers	Dec 2025	Dec 2026e	Dec 2027e	Dec 2028e
Server Revenue Contribution (%)	74.3	76.4	77.7	78.6

INVESTMENT DRIVERS

- Server/switch volume growth driven by US hyperscalers and enterprise customers
- Server/switch PCB content growth driven by CCL spec and PCB layer count
- IC testing board project wins
- NB demand

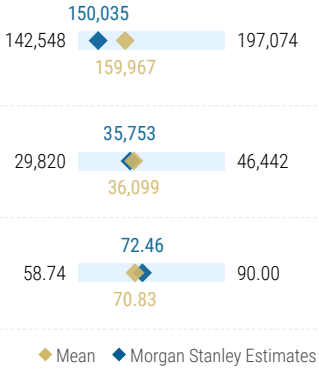
MS ESTIMATES VS. CONSENSUS

FY Dec 2027e



Source: Refinitiv, Morgan Stanley Research

3Q26 Results Summary

- GCE reported 3Q26 gross margin of 38.7% (+400bp q/q, +310bp y/y), 180bp above MSe and 190bps above the Street forecast. Management attributed the gross margin improvement to successful cost pass-through, more favorable product mix (AI mix was over 50% in the quarter; 800G switch mix also continued to increase within Networking) and better profitability of the Thailand plant.
- Recall that we noted although GCE is able to fully pass through the additional material costs to its customers, there will always be a timing difference (GCE seeing higher input costs vs. reflecting the higher costs in new prices), which might result in margin fluctuation.

- Operating expenses were again higher than expected, primarily due to higher employee bonuses for talent retention and sales expenses. Thus, operating profit came in at NT$8.8B (+36% q/q, +88% y/y), in line with MSe but 1% below consensus forecasts, for operating margin of 29.6%.
- Non-operating losses of NT$238mn, primarily consisting of FX losses, were higher than our and Street estimates of non-operating gains.
- Net profit was NT$6.4B (+33% q/q, +98% y/y), 2% above our estimate and the Street, for EPS of NT$12.39.
- The differences between net profit variances and EPS variances reflect share count changes.

Price Target Discussion and Valuation Methodology

We lower our price target slightly, to NT$1,400.00 from NT$1,450.00: We derive our price target, which is also our base-case scenario value, from a residual income (RI) model, similar to the rest of our tech hardware coverage. The decrease in our price target is driven by our slightly lowered medium-term growth assumption.

Our key assumptions include a cost of equity of 9.2% (beta of 1.0, equity risk premium of 8.7% and risk-free rate of 1.0%), a medium-term growth rate of 11% (lowered from 12%) and a terminal growth rate of 3%.

Our price target implies ~19x 2027e P/E, or ~14x 2028e P/E, vs. GCE's three-year historical average 14.2x. We view the higher multiple as justified because GCE is showing longer-term margin expansion, driven by a favorable mix shift toward more AI server PCBs and high-speed networking PCBs (400G/800G/1.6T) alike. Some of its AI component peers are trading at 20x+ 2027e multiple, which leads us to view GCE's valuation as fair.

Our bull- and bear-case scenario values decrease at magnitudes similar to the decline in our base-case value, to NT$1,995.00 and NT$850.00, respectively.

Important Regulatory Disclosures on Subject Companies

As of October 30, 2026, Morgan Stanley beneficially owned 1% or more of a class of common equity securities of the following companies covered in Morgan Stanley Research: AAC Technologies Holdings, Accelink Technologies Co. Ltd., Accton Technology Corporation, Acer Inc., AirTAC International, Asustek Computer Inc., Auras Technology Co Ltd, Bizlink, Catcher Technology, Co-Tech Development Corp., Compal Electronics, E Ink Holdings Inc., Elite Material Co., Ennostar Inc, Eoptolink Technology Inc Ltd, Fositek Corp, Genius Electronic Optical Co. Ltd., Giga-Byte Technology Co. Ltd., Hiwin Technologies Corp., Largan Precision, Lens Technology, LianChuang Electronic Technology Co Ltd, Lingyi Itech Guangdong Co, Lite-On Technology, Lotes Co. Ltd., Nan Ya PCB, Quectel Wireless Solutions Co Ltd, Sunny Optical, Suzhou TFC Optical Communication Co Ltd., Taiwan Union Technology Corporation, Unimicron, Visual Photonics Epitaxy Co Ltd, Wistron Corporation, Wiwynn Corp, Xiaomi Corp, Yageo Corp., Yangtze Optical Fibre and Cable JSC Ltd, Zhejiang Crystal-Optech Co Ltd, Zhen Ding, Zhongji Innolight Co Ltd, ZTE Corporation.

Within the last 12 months, Morgan Stanley managed or co-managed a public offering (or 144A offering) of securities of Asustek Computer Inc., Unimicron, Wistron Corporation, Wiwynn Corp, Zhen Ding, Zhongji Innolight Co Ltd.

Within the last 12 months, Morgan Stanley has received compensation for investment banking services from Asustek Computer Inc., Lenovo, Unimicron, Wistron Corporation, Wiwynn Corp, Xiaomi Corp, Yageo Corp., Zhen Ding, Zhongji Innolight Co Ltd.

In the next 3 months, Morgan Stanley expects to receive or intends to seek compensation for investment banking services from AAC Technologies Holdings, Accton Technology Corporation, Acer Inc., Advantech, AirTAC International, Asustek Computer Inc., AU Optronics, Bizlink, BOE Technology, Catcher Technology, Chenbro, Compal Electronics, Delta Electronics Inc., E Ink Holdings Inc., Elite Material Co., Ennostar Inc, Eoptolink Technology Inc Ltd, FIT Hon Teng Ltd, Giga-Byte Technology Co. Ltd., **Gold Circuit Electronics Ltd.**, Hon Hai Precision, Huaqin Co.,Ltd., Innolux, Lenovo, Lens Technology, Lingyi Itech Guangdong Co, Lite-On Technology, Lotes Co. Ltd., Luxshare Precision Industry Co., Ltd., Pegatron Corporation, Q Technology (Group) Company Ltd, Quanta Computer Inc., Shanghai Conant Optical Co Ltd, Shenzhen Transsion Holdings Co Ltd, Suzhou TFC Optical Communication Co Ltd., TCL Corp., Unimicron, Wistron Corporation, Wiwynn Corp, Xiaomi Corp, Yageo Corp., Yangtze Optical Fibre and Cable JSC Ltd, Zhejiang Crystal-Optech Co Ltd, Zhen Ding, Zhongji Innolight Co Ltd.

Within the last 12 months, Morgan Stanley has received compensation for products and services other than investment banking services from AAC Technologies Holdings, Accton Technology Corporation, Acer Inc., Asustek Computer Inc., AU Optronics, BYD Electronics, Compal Electronics, E Ink Holdings Inc., Eoptolink Technology Inc Ltd, Giga-Byte Technology Co. Ltd., GoerTek Inc, Hon Hai Precision, Innolux, Lenovo, Lingyi Itech Guangdong Co, Quanta Computer Inc., Xiaomi Corp, Yageo Corp..

Within the last 12 months, Morgan Stanley has provided or is providing investment banking services to, or has an investment banking client relationship with, the following company: AAC Technologies Holdings, Accton Technology Corporation, Acer Inc., Advantech, AirTAC International, Asustek Computer Inc., AU Optronics, Bizlink, BOE Technology, Catcher Technology, Chenbro, Compal Electronics, Delta Electronics Inc., E Ink Holdings Inc., Elite Material Co., Ennostar Inc, Eoptolink Technology Inc Ltd, FIT Hon Teng Ltd, Giga-Byte Technology Co. Ltd., **Gold Circuit Electronics Ltd.**, Hon Hai Precision, Huaqin Co.,Ltd., Innolux, Lenovo, Lens Technology, Lingyi Itech Guangdong Co, Lite-On Technology, Lotes Co. Ltd., Luxshare Precision Industry Co., Ltd., Pegatron Corporation, Q Technology (Group) Company Ltd, Quanta Computer Inc., Shanghai Conant Optical Co Ltd, Shenzhen Transsion Holdings Co Ltd, Suzhou TFC Optical Communication Co Ltd., TCL Corp., Unimicron, Wistron Corporation, Wiwynn Corp, Xiaomi Corp, Yageo Corp., Yangtze Optical Fibre and Cable JSC Ltd, Zhejiang Crystal-Optech Co Ltd, Zhen Ding, Zhongji Innolight Co Ltd.

Within the last 12 months, Morgan Stanley has either provided or is providing non-investment banking, securities-related services to and/or in the past has entered into an agreement to provide services or has a client relationship with the following company: AAC Technologies Holdings, Accton Technology Corporation, Acer Inc., Asustek Computer Inc., AU Optronics, BYD Electronics, Compal Electronics, E Ink Holdings Inc., Eoptolink Technology Inc Ltd, Giga-Byte Technology Co. Ltd., GoerTek Inc, Hon Hai Precision, Innolux, Lenovo, Lingyi Itech Guangdong Co, Quanta Computer Inc., Xiaomi Corp, Yageo Corp., Zhen Ding.

The equity research analysts or strategists principally responsible for the preparation of Morgan Stanley Research have received compensation based upon various factors, including quality of research, investor client feedback, stock picking, competitive factors, firm revenues and overall investment banking revenues. Equity Research analysts' or strategists' compensation is not linked to investment banking or capital markets transactions performed by Morgan Stanley or the profitability or revenues of particular trading desks.
Morgan Stanley and its affiliates do business that relates to companies/instruments covered in Morgan Stanley Research, including market making, providing liquidity, fund management, commercial banking, extension of credit, investment services and investment banking. Morgan Stanley sells to and buys from customers the securities/instruments of companies covered in Morgan Stanley Research on a principal basis. Morgan Stanley may have a position in the debt of the Company or instruments discussed in this report. Morgan Stanley trades or may trade as principal in the debt securities (or in related derivatives) that are the subject of the debt research report.
Certain disclosures listed above are also for compliance with applicable regulations in non-US jurisdictions.

STOCK RATINGS

Morgan Stanley uses a relative rating system using terms such as Overweight, Equal-weight, Not-Rated or Underweight (see definitions below). Morgan Stanley does not assign ratings of Buy, Hold or Sell to the stocks we cover. Overweight, Equal-weight, Not-Rated and Underweight are not the equivalent of buy, hold and sell. Investors should carefully read the definitions of all ratings used in Morgan Stanley Research. In addition, since Morgan Stanley Research contains more complete information concerning the analyst's views, investors should carefully read Morgan Stanley Research, in its entirety, and not infer the contents from the rating alone. In any case, ratings (or research) should not be used or relied upon as investment advice. An investor's decision to buy or sell a stock should depend on individual circumstances (such as the investor's existing holdings) and other considerations.

Global Stock Ratings Distribution

(as of October 31, 2026)
The Stock Ratings described below apply to Morgan Stanley's Fundamental Equity Research and do not apply to Debt Research produced by the Firm.
For disclosure purposes only (in accordance with FINRA requirements), we include the category headings of Buy, Hold, and Sell alongside our ratings of Overweight, Equal-weight, Not-Rated and Underweight. Morgan Stanley does not assign ratings of Buy, Hold or Sell to the stocks we cover. Overweight, Equal-weight, Not-Rated and Underweight are not the equivalent of buy, hold, and sell but represent recommended relative weightings (see definitions below). To satisfy regulatory requirements, we correspond Overweight, our most positive stock rating, with a buy recommendation; we correspond Equal-weight and Not-Rated to hold and Underweight to sell recommendations, respectively.

	Coverage Universe		Investment Banking Clients (IBC)			Other Material Investment Services Clients (MISC)	
Stock Rating Category	Count	% of Total	Count	% of Total IBC	% of Rating Category	Count	% of Total Other MISC
Overweight/Buy	1575	43%	460	49%	29%	742	44%
Equal-weight/Hold	1537	42%	393	42%	26%	720	43%
Not-Rated/Hold	2	0%	1	0%	50%	1	0%
Underweight/Sell	570	15%	92	10%	16%	218	13%
Total	3,684		946			1681	

Data include common stock and ADRs currently assigned ratings. Investment Banking Clients are companies from whom Morgan Stanley received investment banking compensation in the last 12 months. Due to rounding off of decimals, the percentages provided in the "% of total" column may not add up to exactly 100 percent.

Analyst Stock Ratings

Overweight (O). The stock's total return is expected to exceed the average total return of the analyst's industry (or industry team's) coverage universe, on a risk-adjusted basis, over the next 12-18 months.
Equal-weight (E). The stock's total return is expected to be in line with the average total return of the analyst's industry (or industry team's) coverage universe, on a risk-adjusted basis, over the next 12-18 months.
Not-Rated (NR). Currently the analyst does not have adequate conviction about the stock's total return relative to the average total return of the analyst's industry (or industry team's) coverage universe, on a risk-adjusted basis, over the next 12-18 months.
Underweight (U). The stock's total return is expected to be below the average total return of the analyst's industry (or industry team's) coverage universe, on a risk-adjusted basis, over the next 12-18 months.
Unless otherwise specified, the time frame for price targets included in Morgan Stanley Research is 12 to 18 months.

Analyst Industry Views

Attractive (A): The analyst expects the performance of his or her industry coverage universe over the next 12-18 months to be attractive vs. the relevant broad market benchmark, as indicated below.
In-Line (I): The analyst expects the performance of his or her industry coverage universe over the next 12-18 months to be in line with the relevant broad market benchmark, as indicated below.
Cautious (C): The analyst views the performance of his or her industry coverage universe over the next 12-18 months with caution vs. the relevant broad market benchmark, as indicated below.
Benchmarks for each region are as follows: North America - S&P 500; Latin America - relevant MSCI country index or MSCI Latin America Index; Europe - MSCI Europe; Japan - TOPIX; Asia - relevant MSCI country index or MSCI sub-regional index or MSCI AC Asia Pacific ex Japan Index.

Important Disclosures for Morgan Stanley Smith Barney LLC Customers

Important disclosures regarding any material conflict of interest that can reasonably be expected to have influenced Morgan Stanley Smith Barney LLC's choice of a third-party research provider or the subject company of a third-party research report, are available on the Morgan Stanley Wealth Management disclosure website at www.morganstanley.com/online/researchdisclosures.

For Morgan Stanley specific disclosures, you may refer to https://www.morganstanley.com/eqr/disclosures/webapp/generalresearch.

Each Morgan Stanley research report is reviewed and approved on behalf of Morgan Stanley Smith Barney LLC. This review and approval is conducted by the same person who reviews the research report on behalf of Morgan Stanley. This could create a conflict of interest.

Other Important Disclosures

Morgan Stanley Research policy is to update research reports as and when the Research Analyst and Research Management deem appropriate, based on developments with the issuer, the sector, or the market that may have a material impact on the research views or opinions stated therein. In addition, certain Research publications are intended to be updated on a regular periodic basis (weekly/monthly/quarterly/annual) and will ordinarily be updated with that frequency, unless the Research Analyst and Research Management determine that a different publication schedule is appropriate based on current conditions.

Morgan Stanley is not acting as a municipal advisor and the opinions or views contained herein are not intended to be, and do not constitute, advice within the meaning of Section 975 of the Dodd-Frank Wall Street Reform and Consumer Protection Act.

Morgan Stanley produces an equity research product called a "Tactical Idea." Views contained in a "Tactical Idea" on a particular stock may be contrary to the recommendations or views expressed in research on the same stock. This may be the result of differing time horizons, methodologies, market events, or other factors. For all research available on a particular stock, please contact your sales representative or go to Matrix at http://www.morganstanley.com/matrix.

Morgan Stanley Research is provided to our clients through our proprietary research portal on Matrix and also distributed electronically by Morgan Stanley to clients. Certain, but not all, Morgan Stanley Research products are also made available to clients through third-party vendors or redistributed to clients through alternate electronic means as a convenience. For access to all available Morgan Stanley Research, please contact your sales representative or go to Matrix at http://www.morganstanley.com/matrix.

Morgan Stanley Research does not provide individually tailored investment advice. Morgan Stanley Research has been prepared without regard to the circumstances and objectives of those who receive it. Morgan Stanley recommends that investors independently evaluate particular investments and strategies, and encourages investors to seek the advice of a financial adviser. The appropriateness of an investment or strategy will depend on an investor's circumstances and objectives. The securities, instruments, or strategies discussed in Morgan Stanley Research may not be suitable for all investors, and certain investors may not be eligible to purchase or participate in some or all of them. Morgan Stanley Research is not an offer to buy or sell or the solicitation of an offer to buy or sell any security/instrument or to participate in any particular trading strategy. The value of and income from your investments may vary because of changes in interest rates, foreign exchange rates, default rates, prepayment rates, securities/instruments prices, market indexes, operational or financial conditions of companies or other factors. There may be time limitations on the exercise of options or other rights in securities/instruments transactions. Past performance is not necessarily a guide to future performance. Estimates of future performance are based on assumptions that may not be realized. If provided, and unless otherwise stated, the closing price on the cover page is that of the primary exchange for the subject company's securities/instruments.

The fixed income research analysts, strategists or economists principally responsible for the preparation of Morgan Stanley Research have received compensation based upon various factors, including quality, accuracy and value of research, firm profitability or revenues (which include fixed income trading and capital markets profitability or revenues), client feedback and competitive factors. Fixed Income Research analysts', strategists' or economists' compensation is not linked to investment banking or capital markets transactions performed by Morgan Stanley or the profitability or revenues of particular trading desks.

The "Important Regulatory Disclosures on Subject Companies" section in Morgan Stanley Research lists all companies mentioned where Morgan Stanley owns 1% or more of a class of common equity securities of the companies. For all other companies mentioned in Morgan Stanley Research, Morgan Stanley may have an investment of less than 1% in securities/instruments or derivatives of securities/instruments of companies and may trade them in ways different from those discussed in Morgan Stanley Research. Employees of Morgan Stanley not involved in the preparation of Morgan Stanley Research may have investments in securities/instruments or derivatives of securities/instruments of companies mentioned and may trade them in ways different from those discussed in Morgan Stanley Research. Derivatives may be issued by Morgan Stanley or associated persons.

With the exception of information regarding Morgan Stanley, Morgan Stanley Research is based on public information. Morgan Stanley makes every effort to use reliable, comprehensive information, but we make no representation that it is accurate or complete. We have no obligation to tell you when opinions or information in Morgan Stanley Research change apart from when we intend to discontinue equity research coverage of a subject company. Facts and views presented in Morgan Stanley Research have not been reviewed by, and may not reflect information known to, professionals in other Morgan Stanley business areas, including investment banking personnel.

Morgan Stanley Research personnel may participate in company events such as site visits and are generally prohibited from accepting payment by the company of associated expenses unless pre-approved by authorized members of Research management.

Morgan Stanley may make investment decisions that are inconsistent with the recommendations or views in this report.

To our readers based in Taiwan or trading in Taiwan securities/instruments: Information on securities/instruments that trade in Taiwan is distributed by Morgan Stanley Taiwan Limited ("MSTL"). Such information is for your reference only. The reader should independently evaluate the investment risks and is solely responsible for their investment decisions. Morgan Stanley Research may not be distributed to the public media or quoted or used by the public media without the express written consent of Morgan Stanley. Any non-customer reader within the scope of Article 7-1 of the Taiwan Stock Exchange Recommendation Regulations accessing and/or receiving Morgan Stanley Research is not permitted to provide Morgan Stanley Research to any third party (including but not limited to related parties, affiliated companies and any other third parties) or engage in any activities regarding Morgan Stanley Research which may create or give the appearance of creating a conflict of interest. Information on securities/instruments that do not trade in Taiwan is for informational purposes only and is not to be construed as a recommendation or a solicitation to trade in such securities/instruments. MSTL may not execute transactions for clients in these securities/instruments.

Morgan Stanley | RESEARCH

UPDATE

November 10, 2026 10:00 PM GMT

Hiwin Technologies Corp. | Asia Pacific

3Q26 Beat on Margin; Up-cycle Continues to Play Out

AlphaSignals Earnings Reaction

Unchanged	⬆ **Modest upside**	⬆ **Modest revision higher**
Impact to our thesis	Financial results versus consensus	Direction of next 12-month consensus EPS

Source: Company data, Morgan Stanley Research

Signs are pointing to ongoing revenue growth and decent GM heading into 2027. Stay OW.

3Q26 earnings beat thanks to better GM: See Results Summary .

Momentum being sustained into 2027: Management guides for 4Q26 sales to grow QoQ (vs. seasonality of down QoQ) and 2027 to be better than 2026, supported by strong order momentum and slightly lengthening delivery lead time of 6.5 months for ball screws and 4-6 months for linear guides. That said, Hiwin is not able to fulfill all of the orders on hand because of the labor supply constraints. Meanwhile, It holds a positive view on the margin outlook because the revenue mix should be optimized amid solid demand, though it has no plan to raise prices again in the near term.

More sub-system level shipments: Besides the traditional linear guides and ball screws, Hiwin is increasing its sub-systems offerings integrated with motors, sensors, etc., for precise positioning systems in CPO alignment and multiple axis rotary tables in military, satellite, and material processing applications. These solutions have gained more and more traction among Japanese and Chinese machine tool customers

Robotics business one of the key drivers: The robotics segment has been Hiwin's fastest-growing segment in the past few years and will remain one of the major drivers. It has risen from 7% of the revenue mix in 2024 to 10% in 2025 and is on track for 12% in 2026 and higher in future. First, wafer transport systems are riding on the strong demand from semiconductor fabs. For humanoid robots, it can supply various components including ball screws, linear guides, reducers, motors, drivers, etc.; it has received small volume orders from one major US customer. Last, the logistics robot project, originally scheduled for late 2026, will be pushed out because of spec change.

Stay OW: We remain constructive on Hiwin stock. Near-term sentiment should remain favorable and the up-cycle continues to play out..

Results Summary

Off revenue of NT$8,110mn (+8% QoQ/+35% YoY), GM expanded 2.2ppt QoQ, to 36.3%, surpassing both our estimate and consensus at 35.2%, driven by the tariff reimbursement (0.6ppt boost), higher utilization, price hike tailwinds, and more favorable FX (0.5ppt help).

Opex was well controlled at NT$1,502mn (opex ratio 18.5%), leading to operating profit of NT$1,446mn (OPM 17.8%), 19% above our estimate at NT$1,210mn (OPM 15.1%) and 18% above consensus at NT$1,227mn (OPM 15.2%).

With non-op gains of NT$134mn, NP reached NT$1,230mn (EPS NT$3.48), 23% above both our estimate and consensus at NT$998mn (EPS NT$2.82) and NT$1,001mn (EPS NT $2.83), respectively.

Valuation Methodology and Risks

Hiwin Technologies Corp. (2049.TW)

Base case, P/E. We think this valuation methodology better captures Hiwin's earnings growth momentum, as its valuation tends to move with the business cycle. We apply a target multiple of 38x to our 2027 EPS estimate. We view this multiple as justified by the 47% operating profit CAGR we project for 2025-28.

Risks to Upside

- Stronger industrial automation demand pickup.
- Market share gains.
- Earlier-than-expected revenue contribution from humanoids.

Risks to Downside

- Weaker industrial automation demand.
- More pricing pressure.
- Market share loss.
- More broad-based impact on the global economy from geopolitical risks.

Ltd., Luxshare Precision Industry Co., Ltd., Pegatron Corporation, Q Technology (Group) Company Ltd, Quanta Computer Inc., Shanghai Conant Optical Co Ltd, Shenzhen Transsion Holdings Co Ltd, Suzhou TFC Optical Communication Co Ltd., TCL Corp., Unimicron, Wistron Corporation, Wiwynn Corp, Xiaomi Corp, Yageo Corp., Yangtze Optical Fibre and Cable JSC Ltd, Zhejiang Crystal-Optech Co Ltd, Zhen Ding, Zhongji Innolight Co Ltd.

Within the last 12 months, Morgan Stanley has either provided or is providing non-investment banking, securities-related services to and/or in the past has entered into an agreement to provide services or has a client relationship with the following company: AAC Technologies Holdings, Accton Technology Corporation, Acer Inc., Asustek Computer Inc., AU Optronics, BYD Electronics, Compal Electronics, E Ink Holdings Inc., Eoptolink Technology Inc Ltd, Giga-Byte Technology Co. Ltd., GoerTek Inc, Hon Hai Precision, Innolux, Lenovo, Lingyi Itech Guangdong Co, Quanta Computer Inc., Xiaomi Corp, Yageo Corp., Zhen Ding.

The equity research analysts or strategists principally responsible for the preparation of Morgan Stanley Research have received compensation based upon various factors, including quality of research, investor client feedback, stock picking, competitive factors, firm revenues and overall investment banking revenues. Equity Research analysts' or strategists' compensation is not linked to investment banking or capital markets transactions performed by Morgan Stanley or the profitability or revenues of particular trading desks.
Morgan Stanley and its affiliates do business that relates to companies/instruments covered in Morgan Stanley Research, including market making, providing liquidity, fund management, commercial banking, extension of credit, investment services and investment banking. Morgan Stanley sells to and buys from customers the securities/instruments of companies covered in Morgan Stanley Research on a principal basis. Morgan Stanley may have a position in the debt of the Company or instruments discussed in this report. Morgan Stanley trades or may trade as principal in the debt securities (or in related derivatives) that are the subject of the debt research report.
Certain disclosures listed above are also for compliance with applicable regulations in non-US jurisdictions.

STOCK RATINGS

Morgan Stanley uses a relative rating system using terms such as Overweight, Equal-weight, Not-Rated or Underweight (see definitions below). Morgan Stanley does not assign ratings of Buy, Hold or Sell to the stocks we cover. Overweight, Equal-weight, Not-Rated and Underweight are not the equivalent of buy, hold and sell. Investors should carefully read the definitions of all ratings used in Morgan Stanley Research. In addition, since Morgan Stanley Research contains more complete information concerning the analyst's views, investors should carefully read Morgan Stanley Research, in its entirety, and not infer the contents from the rating alone. In any case, ratings (or research) should not be used or relied upon as investment advice. An investor's decision to buy or sell a stock should depend on individual circumstances (such as the investor's existing holdings) and other considerations.

Global Stock Ratings Distribution

(as of October 31, 2026)
The Stock Ratings described below apply to Morgan Stanley's Fundamental Equity Research and do not apply to Debt Research produced by the Firm.
For disclosure purposes only (in accordance with FINRA requirements), we include the category headings of Buy, Hold, and Sell alongside our ratings of Overweight, Equal-weight, Not-Rated and Underweight. Morgan Stanley does not assign ratings of Buy, Hold or Sell to the stocks we cover. Overweight, Equal-weight, Not-Rated and Underweight are not the equivalent of buy, hold, and sell but represent recommended relative weightings (see definitions below). To satisfy regulatory requirements, we correspond Overweight, our most positive stock rating, with a buy recommendation; we correspond Equal-weight and Not-Rated to hold and Underweight to sell recommendations, respectively.

	Coverage Universe		Investment Banking Clients (IBC)			Other Material Investment Services Clients (MISC)	
Stock Rating Category	Count	% of Total	Count	% of Total IBC	% of Rating Category	Count	% of Total Other MISC
Overweight/Buy	1575	43%	460	49%	29%	742	44%
Equal-weight/Hold	1537	42%	393	42%	26%	720	43%
Not-Rated/Hold	2	0%	1	0%	50%	1	0%
Underweight/Sell	570	15%	92	10%	16%	218	13%
Total	3,684		946			1681	

Data include common stock and ADRs currently assigned ratings. Investment Banking Clients are companies from whom Morgan Stanley received investment banking compensation in the last 12 months. Due to rounding off of decimals, the percentages provided in the "% of total" column may not add up to exactly 100 percent.

Analyst Stock Ratings

Overweight (O). The stock's total return is expected to exceed the average total return of the analyst's industry (or industry team's) coverage universe, on a risk-adjusted basis, over the next 12-18 months.
Equal-weight (E). The stock's total return is expected to be in line with the average total return of the analyst's industry (or industry team's) coverage universe, on a risk-adjusted basis, over the next 12-18 months.
Not-Rated (NR). Currently the analyst does not have adequate conviction about the stock's total return relative to the average total return of the analyst's industry (or industry team's) coverage universe, on a risk-adjusted basis, over the next 12-18 months.
Underweight (U). The stock's total return is expected to be below the average total return of the analyst's industry (or industry team's) coverage universe, on a risk-adjusted basis, over the next 12-18 months.
Unless otherwise specified, the time frame for price targets included in Morgan Stanley Research is 12 to 18 months.

Analyst Industry Views

Attractive (A): The analyst expects the performance of his or her industry coverage universe over the next 12-18 months to be attractive vs. the relevant broad market benchmark, as indicated below.

Important Disclosures for Morgan Stanley Smith Barney LLC Customers

Important disclosures regarding any material conflict of interest that can reasonably be expected to have influenced Morgan Stanley Smith Barney LLC's choice of a third-party research provider or the subject company of a third-party research report, are available on the Morgan Stanley Wealth Management disclosure website at www.morganstanley.com/online/researchdisclosures. For Morgan Stanley specific disclosures, you may refer to https://www.morganstanley.com/eqr/disclosures/webapp/generalresearch.

Each Morgan Stanley research report is reviewed and approved on behalf of Morgan Stanley Smith Barney LLC. This review and approval is conducted by the same person who reviews the research report on behalf of Morgan Stanley. This could create a conflict of interest.

Other Important Disclosures

Morgan Stanley Research policy is to update research reports as and when the Research Analyst and Research Management deem appropriate, based on developments with the issuer, the sector, or the market that may have a material impact on the research views or opinions stated therein. In addition, certain Research publications are intended to be updated on a regular periodic basis (weekly/monthly/quarterly/annual) and will ordinarily be updated with that frequency, unless the Research Analyst and Research Management determine that a different publication schedule is appropriate based on current conditions.

Morgan Stanley is not acting as a municipal advisor and the opinions or views contained herein are not intended to be, and do not constitute, advice within the meaning of Section 975 of the Dodd-Frank Wall Street Reform and Consumer Protection Act.

Morgan Stanley produces an equity research product called a "Tactical Idea." Views contained in a "Tactical Idea" on a particular stock may be contrary to the recommendations or views expressed in research on the same stock. This may be the result of differing time horizons, methodologies, market events, or other factors. For all research available on a particular stock, please contact your sales representative or go to Matrix at http://www.morganstanley.com/matrix.

Morgan Stanley Research is provided to our clients through our proprietary research portal on Matrix and also distributed electronically by Morgan Stanley to clients. Certain, but not all, Morgan Stanley Research products are also made available to clients through third-party vendors or redistributed to clients through alternate electronic means as a convenience. For access to all available Morgan Stanley Research, please contact your sales representative or go to Matrix at http://www.morganstanley.com/matrix.

Any access and/or use of Morgan Stanley Research is subject to Morgan Stanley's Terms of Use (http://www.morganstanley.com/terms.html). If you do not agree to our Terms of Use and/or if you do not wish to provide your consent to Morgan Stanley processing your personal data or using cookies please do not access our research. Morgan Stanley Research does not provide individually tailored investment advice. Morgan Stanley Research has been prepared without regard to the circumstances and objectives of those

who receive it. Morgan Stanley recommends that investors independently evaluate particular investments and strategies, and encourages investors to seek the advice of a financial adviser. The appropriateness of an investment or strategy will depend on an investor's circumstances and objectives. The securities, instruments, or strategies discussed in Morgan Stanley Research may not be suitable for all investors, and certain investors may not be eligible to purchase or participate in some or all of them. Morgan Stanley Research is not an offer to buy or sell or the solicitation of an offer to buy or sell any security/instrument or to participate in any particular trading strategy. The value of and income from your investments may vary because of changes in interest rates, foreign exchange rates, default rates, prepayment rates, securities/instruments prices, market indexes, operational or financial conditions of companies or other factors. There may be time limitations on the exercise of options or other rights in securities/instruments transactions. Past performance is not necessarily a guide to future performance. Estimates of future performance are based on assumptions that may not be realized. If provided, and unless otherwise stated, the closing price on the cover page is that of the primary exchange for the subject company's securities/instruments.

The fixed income research analysts, strategists or economists principally responsible for the preparation of Morgan Stanley Research have received compensation based upon various factors, including quality, accuracy and value of research, firm profitability or revenues (which include fixed income trading and capital markets profitability or revenues), client feedback and competitive factors. Fixed Income Research analysts', strategists' or economists' compensation is not linked to investment banking or capital markets transactions performed by Morgan Stanley or the profitability or revenues of particular trading desks.

The "Important Regulatory Disclosures on Subject Companies" section in Morgan Stanley Research lists all companies mentioned where Morgan Stanley owns 1% or more of a class of common equity securities of the companies. For all other companies mentioned in Morgan Stanley Research, Morgan Stanley may have an investment of less than 1% in securities/instruments or derivatives of securities/instruments of companies and may trade them in ways different from those discussed in Morgan Stanley Research. Employees of Morgan Stanley not involved in the preparation of Morgan Stanley Research may have investments in securities/instruments or derivatives of securities/instruments of companies mentioned and may trade them in ways different from those discussed in Morgan Stanley Research. Derivatives may be issued by Morgan Stanley or associated persons.

With the exception of information regarding Morgan Stanley, Morgan Stanley Research is based on public information. Morgan Stanley makes every effort to use reliable, comprehensive information, but we make no representation that it is accurate or complete. We have no obligation to tell you when opinions or information in Morgan Stanley Research change apart from when we intend to discontinue equity research coverage of a subject company. Facts and views presented in Morgan Stanley Research have not been reviewed by, and may not reflect information known to, professionals in other Morgan Stanley business areas, including investment banking personnel.

Morgan Stanley Research personnel may participate in company events such as site visits and are generally prohibited from accepting payment by the company of associated expenses unless pre-approved by authorized members of Research management.

Morgan Stanley may make investment decisions that are inconsistent with the recommendations or views in this report.

To our readers based in Taiwan or trading in Taiwan securities/instruments: Information on securities/instruments that trade in Taiwan is distributed by Morgan Stanley Taiwan Limited ("MSTL"). Such information is for your reference only. The reader should independently evaluate the investment risks and is solely responsible for their investment decisions. Morgan Stanley Research may not be distributed to the public media or quoted or used by the public media without the express written consent of Morgan Stanley. Any non-customer reader within the scope of Article 7-1 of the Taiwan Stock Exchange Recommendation Regulations accessing and/or receiving Morgan Stanley Research is not permitted to provide Morgan Stanley Research to any third party (including but not limited to related parties, affiliated companies and any other third parties) or engage in any activities regarding Morgan Stanley Research which may create or give the appearance of creating a conflict of interest. Information on securities/instruments that do not trade in Taiwan is for informational purposes only and is not to be construed as a recommendation or a solicitation to trade in such securities/instruments. MSTL may not execute transactions for clients in these securities/instruments.

NVL72 Racks Shipment in October 2026; 2027 Rack Forecast is Unchanged

We provide monthly/quarterly rack shipment forecasts for ODMs. Within the major Server ODMs, our order of preference is Wistron > Quanta > Hon Hai, based on upside to PT.

Key Takeaways

- We estimate GB200/300 rack output in October at ~7.5K (+16% m/m).
- Quanta shipped ~1.80K GB200/GB300 racks.
- Wistron shipped ~1.60K GB200/GB300 racks.
- Hon Hai shipped ~2.90K GB200/300 racks.
- We keep our 2027 rack production forecast unchanged at 90.4K racks (+11% y/y).

We introduce 2027 forecast at 90.4K racks (+10% y/y) vs. our 2026 forecast now at 82K racks: This year is a strong one for downstream rack assemblers, with rack shipments up ~209% y/y, but we expect rack shipments to grow another ~10% y/y to reach 90.4K in 2027. For 2027, our forecast implies Hon Hai will be a share gainer with rack share up to 43% (from 37% in 2026), with Quanta staying unchanged at 26% and Wistron's share up slightly to 24% (from 23% in 2026).

Quanta (2382.TW, OW): October revenue was NT$353.3bn (+9% m/m, +104% y/y). We attribute the m/m growth mainly to higher GB200/300 rack shipments at ~1.8K racks (+24% m/m), despite being offset by lower NB shipments at 2.7M units (-36% m/m, -23% y/y). For 2026, we forecast Quanta to ship 20.9K racks, and our 2027 rack production forecast for Quanta is at 23.5K (+12% y/y).

Wistron (3231.TW, OW): October revenue was NT$402.6B (+6% m/m, +108% y/y). We attribute the m/m growth to: 1) higher GB200/300 compute tray shipments (1.60K rack equivalents, by our estimates, up ~22% m/m), despite lower Wiwynn revenue at ~NT$165.1bn (-4% m/m, +81% y/y) and lower NB shipments at 1.2mn units (-20% m/m, -43% y/y), flat DT shipments at 500K (flat m/m, -44% y/y), and lower monitor shipments at 850K (-11% m/m, -6% y/y). For 2026, we forecast Wistron to ship 18.7K racks, and our 2027 rack production forecast is at 22K (+18% y/y).

Hon Hai (2317.TW, OW): October revenue was NT$1,305.3bn (+13% m/m, +46% y/y), with consumer segment revenue seeing the strongest m/m growth, followed by computing products, and lastly, components and other products, while cloud and networking products were down m/m due to a rise in consignment mix; however, overall rack production volumes are up m/m. We model HH's October GB200/300 rack production at 2.9K (+7% m/m). For 2026, we forecast Foxconn to ship 30.3K racks, and our rack production 2027 forecast at 38.8K (+28% y/y).

NVL72 Exhibits

We believe actual rack deliveries to end-customers are likely lower than these numbers because we include Wistron's computing tray (L10) rack equivalent (without accounting for rack assembly and test times for L11).

Valuation Methodology and Risks

Hon Hai Precision (2317.TW)

Base case scenario value, derived from a residual income valuation model. Our key assumptions include a cost of equity of 8.5%, a medium-term growth rate of 13%, and a terminal growth rate of 3%.

Risks to Upside

- Better-than-expected iPhone sell-through
- Faster progress in AI server business
- Faster EV business development progress
- Any new M&A activity that could improve sentiment

Risks to Downside

- Lower iPhone sell-through
- Smaller profit contribution from AI business
- Slower EV business development progress
- Geopolitical developments that could negatively affect foreign investment

Quanta Computer Inc. (2382.TW)

Base case, residual income model. Key assumptions include a cost of equity of 9.0% (beta of 1.2, equity premium of 6.0% and risk-free rate of 1.5%), an 8.5% medium-term growth rate, and a 3% terminal growth rate.

Risks to Upside

- Stronger-than-expected NB demand
- Stronger-than-expected Apple Watch demand
- Stronger-than-expected server demand
- Faster-than-expected AI server penetration

Risks to Downside

- Weaker-than-expected NB demand
- Softer-than-expected Apple Watch demand
- Weak margin performance owing to rising labor costs and sales shortfalls
- Fierce price competition in the mega data center segment
- Slower-than-expected AI server penetration

Wistron Corporation (3231.TW)

Base case, residual income valuation. Key assumptions: 8.7% cost of equity, 7.0% medium-term growth rate and 3% terminal growth rate.

Risks to Upside

- Faster-than-expected divestiture of consumer electronics business
- Stronger-than-expected NB demand

- Margin expansion from better product mix
- Faster-than-expected AI server penetration

Risks to Downside

- Slower-than-expected divestiture of consumer electronics business
- Weaker-than-expected NB demand
- Margin contraction from sales shortfall and fierce competition
- Slower-than-expected AI server penetration

Within the last 12 months, Morgan Stanley has either provided or is providing non-investment banking, securities-related services to and/or in the past has entered into an agreement to provide services or has a client relationship with the following company: AAC Technologies Holdings, Accton Technology Corporation, Acer Inc., Asustek Computer Inc., AU Optronics, BYD Electronics, Compal Electronics, E Ink Holdings Inc., Eoptolink Technology Inc Ltd, Foxconn Technology, Giga-Byte Technology Co. Ltd., GoerTek Inc, Hon Hai Precision, Innolux, Lenovo, Lingyi Itech Guangdong Co, Quanta Computer Inc., Xiaomi Corp, Yageo Corp., Zhen Ding.

The equity research analysts or strategists principally responsible for the preparation of Morgan Stanley Research have received compensation based upon various factors, including quality of research, investor client feedback, stock picking, competitive factors, firm revenues and overall investment banking revenues. Equity Research analysts' or strategists' compensation is not linked to investment banking or capital markets transactions performed by Morgan Stanley or the profitability or revenues of particular trading desks.
Morgan Stanley and its affiliates do business that relates to companies/instruments covered in Morgan Stanley Research, including market making, providing liquidity, fund management, commercial banking, extension of credit, investment services and investment banking. Morgan Stanley sells to and buys from customers the securities/instruments of companies covered in Morgan Stanley Research on a principal basis. Morgan Stanley may have a position in the debt of the Company or instruments discussed in this report. Morgan Stanley trades or may trade as principal in the debt securities (or in related derivatives) that are the subject of the debt research report.
Certain disclosures listed above are also for compliance with applicable regulations in non-US jurisdictions.

STOCK RATINGS

Morgan Stanley uses a relative rating system using terms such as Overweight, Equal-weight, Not-Rated or Underweight (see definitions below). Morgan Stanley does not assign ratings of Buy, Hold or Sell to the stocks we cover. Overweight, Equal-weight, Not-Rated and Underweight are not the equivalent of buy, hold and sell. Investors should carefully read the definitions of all ratings used in Morgan Stanley Research. In addition, since Morgan Stanley Research contains more complete information concerning the analyst's views, investors should carefully read Morgan Stanley Research, in its entirety, and not infer the contents from the rating alone. In any case, ratings (or research) should not be used or relied upon as investment advice. An investor's decision to buy or sell a stock should depend on individual circumstances (such as the investor's existing holdings) and other considerations.

Global Stock Ratings Distribution

(as of October 31, 2026)
The Stock Ratings described below apply to Morgan Stanley's Fundamental Equity Research and do not apply to Debt Research produced by the Firm.
For disclosure purposes only (in accordance with FINRA requirements), we include the category headings of Buy, Hold, and Sell alongside our ratings of Overweight, Equal-weight, Not-Rated and Underweight. Morgan Stanley does not assign ratings of Buy, Hold or Sell to the stocks we cover. Overweight, Equal-weight, Not-Rated and Underweight are not the equivalent of buy, hold, and sell but represent recommended relative weightings (see definitions below). To satisfy regulatory requirements, we correspond Overweight, our most positive stock rating, with a buy recommendation; we correspond Equal-weight and Not-Rated to hold and Underweight to sell recommendations, respectively.

	Coverage Universe		Investment Banking Clients (IBC)			Other Material Investment Services Clients (MISC)	
Stock Rating Category	Count	% of Total	Count	% of Total IBC	% of Rating Category	Count	% of Total Other MISC
Overweight/Buy	1575	43%	460	49%	29%	742	44%
Equal-weight/Hold	1537	42%	393	42%	26%	720	43%
Not-Rated/Hold	2	0%	1	0%	50%	1	0%
Underweight/Sell	570	15%	92	10%	16%	218	13%
Total	3,684		946			1681	

Data include common stock and ADRs currently assigned ratings. Investment Banking Clients are companies from whom Morgan Stanley received investment banking compensation in the last 12 months. Due to rounding off of decimals, the percentages provided in the "% of total" column may not add up to exactly 100 percent.

Analyst Stock Ratings

Overweight (O). The stock's total return is expected to exceed the average total return of the analyst's industry (or industry team's) coverage universe, on a risk-adjusted basis, over the next 12-18 months.
Equal-weight (E). The stock's total return is expected to be in line with the average total return of the analyst's industry (or industry team's) coverage universe, on a risk-adjusted basis, over the next 12-18 months.
Not-Rated (NR). Currently the analyst does not have adequate conviction about the stock's total return relative to the average total return of the analyst's industry (or industry team's) coverage universe, on a risk-adjusted basis, over the next 12-18 months.
Underweight (U). The stock's total return is expected to be below the average total return of the analyst's industry (or industry team's) coverage universe, on a risk-adjusted basis, over the next 12-18 months.
Unless otherwise specified, the time frame for price targets included in Morgan Stanley Research is 12 to 18 months.

Analyst Industry Views

Attractive (A): The analyst expects the performance of his or her industry coverage universe over the next 12-18 months to be attractive vs. the relevant broad market benchmark, as indicated below.
In-Line (I): The analyst expects the performance of his or her industry coverage universe over the next 12-18 months to be in line with the relevant broad market benchmark, as indicated below.
Cautious (C): The analyst views the performance of his or her industry coverage universe over the next 12-18 months with caution vs. the relevant broad market benchmark, as indicated below.
Benchmarks for each region are as follows: North America - S&P 500; Latin America - relevant MSCI country index or MSCI Latin America Index; Europe - MSCI Europe; Japan - TOPIX; Asia - relevant MSCI country index or MSCI sub-regional index or MSCI AC Asia Pacific ex Japan Index.

Important Disclosures for Morgan Stanley Smith Barney LLC Customers

Important disclosures regarding any material conflict of interest that can reasonably be expected to have influenced Morgan Stanley Smith Barney LLC's choice of a third-party research provider or the subject company of a third-party research report, are available on the Morgan Stanley Wealth Management disclosure website at www.morganstanley.com/online/researchdisclosures. For Morgan Stanley specific disclosures, you may refer to https://www.morganstanley.com/eqr/disclosures/webapp/generalresearch.

Each Morgan Stanley research report is reviewed and approved on behalf of Morgan Stanley Smith Barney LLC. This review and approval is conducted by the same person who reviews the research report on behalf of Morgan Stanley. This could create a conflict of interest.

Other Important Disclosures

Morgan Stanley Research policy is to update research reports as and when the Research Analyst and Research Management deem appropriate, based on developments with the issuer, the sector, or the market that may have a material impact on the research views or opinions stated therein. In addition, certain Research publications are intended to be updated on a regular periodic basis (weekly/monthly/quarterly/annual) and will ordinarily be updated with that frequency, unless the Research Analyst and Research Management determine that a different publication schedule is appropriate based on current conditions.

Morgan Stanley is not acting as a municipal advisor and the opinions or views contained herein are not intended to be, and do not constitute, advice within the meaning of Section 975 of the Dodd-Frank Wall Street Reform and Consumer Protection Act.

Morgan Stanley produces an equity research product called a "Tactical Idea." Views contained in a "Tactical Idea" on a particular stock may be contrary to the recommendations or views expressed in research on the same stock. This may be the result of differing time horizons, methodologies, market events, or other factors. For all research available on a particular stock, please contact your sales representative or go to Matrix at http://www.morganstanley.com/matrix.

Morgan Stanley Research is provided to our clients through our proprietary research portal on Matrix and also distributed electronically by Morgan Stanley to clients. Certain, but not all, Morgan Stanley Research products are also made available to clients through third-party vendors or redistributed to clients through alternate electronic means as a convenience. For access to all available Morgan Stanley Research, please contact your sales representative or go to Matrix at http://www.morganstanley.com/matrix.

Any access and/or use of Morgan Stanley Research is subject to Morgan Stanley's Terms of Use (http://www.morganstanley.com/terms.html). By accessing and/or using Morgan Stanley Research, you are indicating that you have read and agree to be bound by our Terms of Use (http://www.morganstanley.com/terms.html). In addition you consent to Morgan Stanley processing your personal data and using cookies in accordance with our Privacy Policy and our Global Cookies Policy (http://www.morganstanley.com/privacy_pledge.html), including for the purposes of setting your preferences and to collect readership data so that we can deliver better and more personalized service and products to you. To find out more information about how Morgan Stanley processes personal data, how we use cookies and how to reject cookies see our Privacy Policy and our Global Cookies Policy (http://www.morganstanley.com/privacy_pledge.html). If you do not agree to our Terms of Use and/or if you do not wish to provide your consent to Morgan Stanley processing your personal data or using cookies please do not access our research.

Morgan Stanley Research does not provide individually tailored investment advice. Morgan Stanley Research has been prepared without regard to the circumstances and objectives of those who receive it. Morgan Stanley recommends that investors independently evaluate particular investments and strategies, and encourages investors to seek the advice of a financial adviser. The appropriateness of an investment or strategy will depend on an investor's circumstances and objectives. The securities, instruments, or strategies discussed in Morgan Stanley Research may not be suitable for all investors, and certain investors may not be eligible to purchase or participate in some or all of them. Morgan Stanley Research is not an offer to buy or sell or the solicitation of an offer to buy or sell any security/instrument or to participate in any particular trading strategy. The value of and income from your investments may vary because of changes in interest rates, foreign exchange rates, default rates, prepayment rates, securities/instruments prices, market indexes, operational or financial conditions of companies or other factors. There may be time limitations on the exercise of options or other rights in securities/instruments transactions. Past performance is not necessarily a guide to future performance. Estimates of future performance are based on assumptions that may not be realized. If provided, and unless otherwise stated, the closing price on the cover page is that of the primary exchange for the subject company's securities/instruments.

The fixed income research analysts, strategists or economists principally responsible for the preparation of Morgan Stanley Research have received compensation based upon various factors, including quality, accuracy and value of research, firm profitability or revenues (which include fixed income trading and capital markets profitability or revenues), client feedback and competitive factors. Fixed Income Research analysts', strategists' or economists' compensation is not linked to investment banking or capital markets transactions performed by Morgan Stanley or the profitability or revenues of particular trading desks.

The "Important Regulatory Disclosures on Subject Companies" section in Morgan Stanley Research lists all companies mentioned where Morgan Stanley owns 1% or more of a class of common equity securities of the companies. For all other companies mentioned in Morgan Stanley Research, Morgan Stanley may have an investment of less than 1% in securities/instruments or derivatives of securities/instruments of companies and may trade them in ways different from those discussed in Morgan Stanley Research. Employees of Morgan Stanley not involved in the preparation of Morgan Stanley Research may have investments in securities/instruments or derivatives of securities/instruments of companies mentioned and may trade them in ways different from those discussed in Morgan Stanley Research. Derivatives may be issued by Morgan Stanley or associated persons.

With the exception of information regarding Morgan Stanley, Morgan Stanley Research is based on public information. Morgan Stanley makes every effort to use reliable, comprehensive information, but we make no representation that it is accurate or complete. We have no obligation to tell you when opinions or information in Morgan Stanley Research change apart from when we intend to discontinue equity research coverage of a subject company. Facts and views presented in Morgan Stanley Research have not been reviewed by, and may not reflect information known to, professionals in other Morgan Stanley business areas, including investment banking personnel.

Morgan Stanley Research personnel may participate in company events such as site visits and are generally prohibited from accepting payment by the company of associated expenses unless pre-approved by authorized members of Research management.

Morgan Stanley may make investment decisions that are inconsistent with the recommendations or views in this report.

To our readers based in Taiwan or trading in Taiwan securities/instruments: Information on securities/instruments that trade in Taiwan is distributed by Morgan Stanley Taiwan Limited ("MSTL"). Such information is for your reference only. The reader should independently evaluate the investment risks and is solely responsible for their investment decisions. Morgan Stanley Research may not be distributed to the public media or quoted or used by the public media without the express written consent of Morgan Stanley. Any non-customer reader within the scope of Article 7-1 of the Taiwan Stock Exchange Recommendation Regulations accessing and/or receiving Morgan Stanley Research is not permitted to provide Morgan Stanley Research to any third party (including but not limited to related parties, affiliated companies and any other third parties) or engage in any activities regarding Morgan Stanley Research which may create or give the appearance of creating a conflict of interest. Information on securities/instruments that do not trade in Taiwan is for informational purposes only and is not to be construed as a recommendation or a solicitation to trade in such securities/instruments. MSTL may not execute transactions for clients in these securities/instruments.

Old Memory: Peak Pricing Power?

Reduce exposure. Niche memory's pricing advantage is no longer enough. Rising cloud spending uncertainty, weaker consumer demand, and supply-demand normalization into 2028 shift the balance from earnings upside to downside protection.

Key Takeaways

- This report only expresses our view on niche memory (DDR3/4, SLC/MLC, NOR). It does NOT pertain to the global mainstream DDR5 or TLC/QLC NAND market.
- Pricing flexibility cuts both ways. Limited fixed-price LTAs supported faster price hikes vs. mainstream memory – but offer less protection as demand weakens.
- Demand risks are broadening. Cloud spending visibility is deteriorating; our PC semis work points to a deeper consumer correction.
- Scarcity should fade. Updated SLC NAND, MLC NAND, NOR and DDR4 models point to supply-demand normalization, particularly into 2028.

Fundamental snapshot – see the following section for a closer look.

Why we changed our minds – March caution, May upside surprise .

What has changed :

- Pricing power cannot offset weaker demand indefinitely.
- After the US midterms, our US team now expects ~20% of 2028e US data center capacity additions to shift to 2029.
- This could create an air pocket across the tech supply chain in 2028, potentially reducing pricing power and leading to an inventory build.

Supply-demand update – looking beyond the shortage .

Stock implications – downside support, not a reason to stay bullish:

- We downgrade PSMC, Winbond, GigaDevice, and Macronix to EW, downgrade Phison to UW, and lower price targets for AP Memory and Nanya Tech.
- We use 1.0x P/B as our downside valuation anchor, rather than treating peak earnings as a floor. Our July work highlighted book value support for memory IDMs; this is a downside framework, not a guaranteed trading floor or a uniform valuation methodology for fabless companies.
- Slower price hikes, order cuts, and inventory digestion are downside catalysts.
- Renewed cloud-order strength or delayed supply additions are the principal upside risks.

A Closer Look at the Fundamentals

Why we changed our minds – March caution, May upside surprise

We downgraded Winbond and Nanya Tech in March (Old Memory: Turning Selective) as elevated DDR4 pricing encouraged supply responses and customer pushback, pointing to narrower shortages and moderating price hikes. In May, we reversed those calls as lower expected supply from Micron and Hynix, alongside stronger server and enterprise SSD demand, widened the projected supply-demand gap (Old Memory: Upside Surprise Ahead). The distinction matters: March was a selective DDR4 call; today, we see a broader challenge to old memory's pricing durability.

What has changed

Pricing power cannot offset weaker demand indefinitely

Our constructive thesis was that niche memory, with limited fixed-price LTA constraints, could reprice faster and outperform mainstream memory. We now see that flexibility becoming a two-way risk. Rising uncertainty over cloud spending weakens confidence in incremental enterprise demand, while much weaker consumer demand challenges customers' ability to absorb further hikes.

After the US midterms, our US team now expects ~20% of 2028e US data center capacity additions to shift to 2029

This include some projects in Texas and Ohio, as governors introduce new data center legislation (refer to Buy the Drop: AI Investment Opportunities Post the US Midterms by Stephen Byrd). Stephen has shifted ~5GW of US data center capacity additions from 2028 to 2029 (Exhibit 11) – equivalent to 20% of US and 10% of global 2028 capacity additions. This implies a 4% Y/Y decline in US data center GW additions in 2028 before a 38% Y/Y rise in 2029. We now expect global data center additions to increase 9% in 2028 and 20% Y/Y in 2029.

This could create an air pocket across the tech supply chain in 2028, potentially reducing pricing power and leading to an inventory build

Our latest PC semis work highlights procurement pull-ins in 1Q–3Q26, followed by a deeper correction in 4Q, reinforcing the risk that earlier orders overstated underlying consumption (PC Semis: More Divergent Outlooks).

Supply-demand update – looking beyond the shortage

Our revised models for SLC NAND, MLC NAND, NOR, and DDR4 point to progressively more balanced markets, particularly into 2028. We now expect 2028 supply-demand deficits of -3%, -5%, and -1% for SLC NAND, MLC NAND, NOR, with a +1% excess for DDR4. Near-term tightness need not disappear immediately for stocks to de-rate: a narrowing shortage can reduce incremental pricing power before earnings peak. We therefore place

less weight on extrapolating recent ASP gains and more on normalized demand and supply responses and sustainable profitability.

Key Charts and Exhibits

Exhibit 1: What's changed

Company	EPS estimate changes	Reason for EPS estimate changes	Rating/price target changes	Reason for price target changes
Winbond	2026, 2027, 2028 EPS estimates revised +8%, -9%, and -22%	Incorporating 3Q26 actual results; changing dynamics in pricing power	Downgraded to EW; price target down from NT$288 to NT$120	Lower target P/BV multiple, reflecting segment volatility; slightly lower BV estimate
GigaDevice	2026, 2027, 2028 EPS estimates reduced 25%, 36%, and 33%	Changing dynamics in pricing power	Downgraded to EW; price target down from Rmb750 to Rmb259	Earnings estimate revisions; intermediate growth rate down to 8.0% from 11.3% to reflect changing dynamics in pricing power; beta raised to 1.50 from 1.14 to reflect segment volatility
Powerchip	2026, 2027, 2028 EPS estimates revised +10%, -11%, and -11%	Incorporating 2Q26 and 3Q26 actual results; changing dynamics in pricing power	Downgraded to EW; price target down from NT$111 to NT$54	Lower target P/BV multiple, reflecting segment volatility; slightly lower BV estimate
Macronix	2026, 2027, 2028 EPS estimates reduced 14%, 20%, and 21%	Changing dynamics in pricing power	Downgraded to EW; price target down from NT $220 to NT$90	Target P/BV multiple reduced to reflect segment volatility; BV estimate reduced
Nanya Tech	2026 EPS estimate unchanged; 2027 and 2028 EPS estimates lowered 7% and 9%	Changing dynamics in pricing power	Remain OW; PT down from NT $600 to NT$550	Target P/BV multiple reduced to reflect segment volatility; slightly lower BV estimate

AP Memory	2026, 2027, 2028 EPS estimates revised +21%, +2%, and -12%	Incorporating 3Q26 preliminary results; supply chain uncertainties into 2028	Remain OW but removed as Top Pick; price target down from NT$1,666 to NT$1,465	Earnings estimate revisions
Phison	2026, 2027, 2028 EPS estimates revised	Revised GM assumptions	Downgrade to UW; price target down from NT $2,588 to NT $1,357	Earnings estimate revisions, lower terminal growth rate, correction of prior RI model error

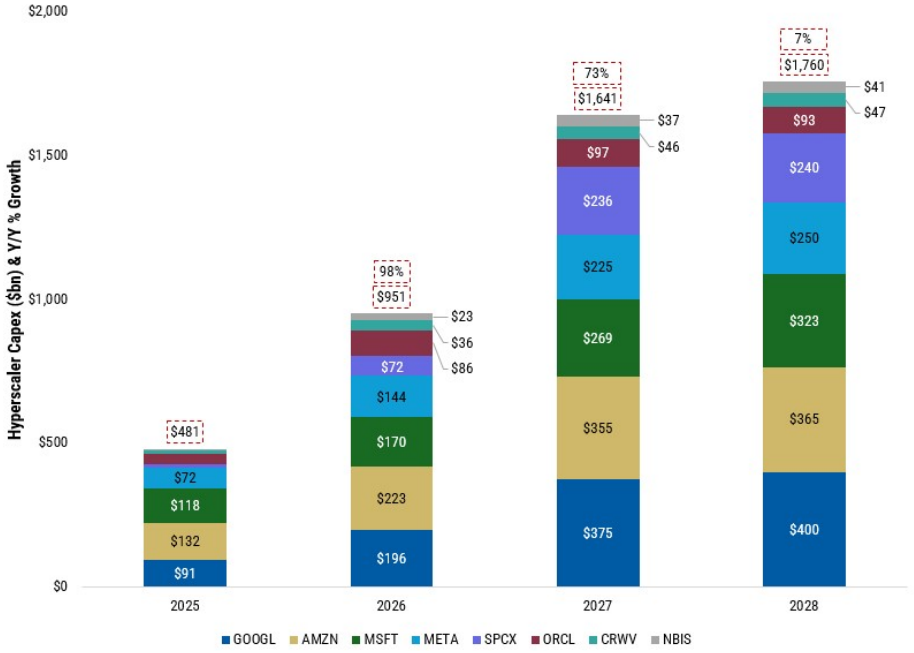
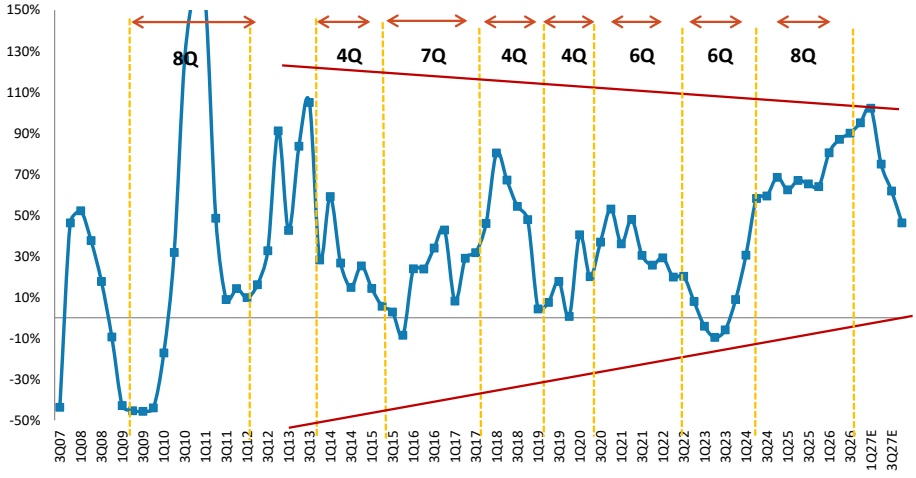
Our hyperscaler capex forecasts remain unchanged at $1.6 trillion in 2027 and $1.8 trillion in 2028…with potential downward bias in 2028 if builds are delayed



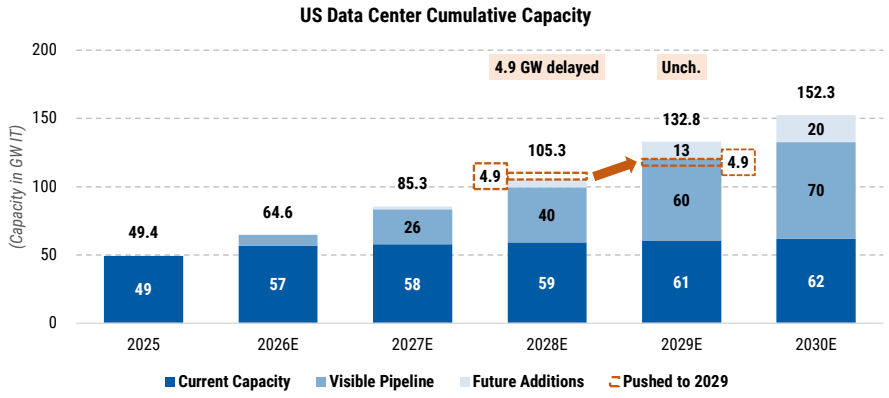
Source: Company data, Morgan Stanley US Research

Exhibit 10: US cloud capex was +90% Y/Y in 3Q26, up from +87% in 2Q26



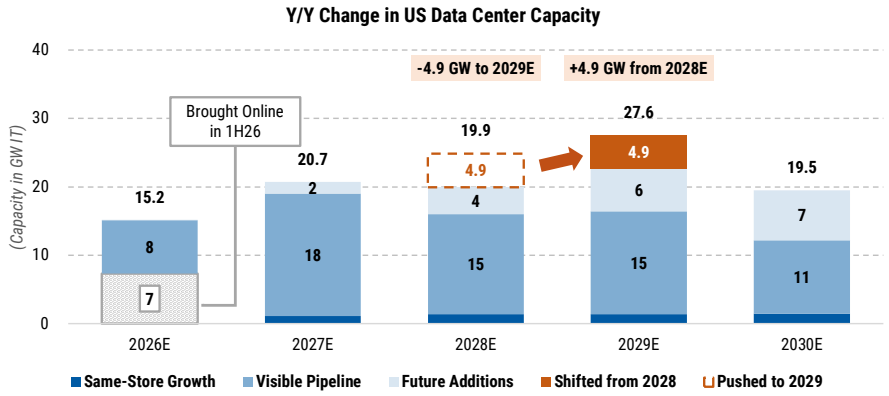
Source: Company data, Morgan Stanley US Research estimates; US cloud capex calculated from Alphabet, Microsoft, Amazon, and Meta

Exhibit 11: Our US team now expects~5 GW of capacity to be delayed from 2028 to 2029, reducing capacity estimates in 2028 while leaving 2029+ unchanged



Source: Morgan Stanley US Research estimates

Exhibit 12: Our US team now expects a y/y incremental 19.9 GW to come online in the US in 2028 and 27.6 GW in 2029; te build-out projection for 2030 is unchanged



Source: Morgan Stanley US Research estimates

Winbond: Estimate Revisions and Quarterly Financials

We adjust our EPS estimates +8% for 2026, -9% for 2027, and -22% for 2028: The 2026 EPS increase reflects 3Q26 actual results. We also factor in a potential peak in pricing power across NOR, SLC, and DDR4. Compared to the previous estimate, we now reduce our flash wafer ASP assumptions throughout 2027-2028 and 26% into 4Q28, and reduce our DRAM ASP per bit estimates throughout 2027-2028 and 23% into 4Q28, without changing our flash or DRAM shipment estimates. Apart from reduced revenue estimates, we also lower our gross margin estimates to account for the reduced ASP estimates. Our changes in net income/EPS estimates are largely a function of changes in our revenue and gross profit estimates. We believe it is a good time to make these changes now as a result of the narrower shortages, moderating price hikes, and potentially delays in 2028 US cloud capex.

Winbond: Valuation Methodology

We cut our price target to NT$120

We continue to apply P/B multiple methodology to derive our price target, in line with our approach for Greater China memory IDM peers and in view of the industry's high earnings volatility. Our price target (base case scenario value) is set at 1.2x 2027e BVPS vs. our prior target multiple of 2.9x 2027e BVPS, to reflect the potential peak in pricing power. Our 1.2x target P/B is above our 1.0x P/B valuation anchor – we still favor the company's CUBE and S-SiCap businesses for their long-term potential. We see 1.0x P/B as the downside valuation anchor because book value provides a psychological support level for capital-intensive IDM/foundry stocks during cyclical downturns. When earnings are temporarily depressed, investors typically place greater weight on the underlying net asset base.

Our base case value/price target cut of 58% is almost entirely a function of reduced target multiple, rather than change in 2027e BVPS, which declines only 2% in our new estimate.

Our bull case value is reduced from NT$342 to NT$180, and our bear case value is reduced from NT$118 to NT$50, based on 1.8x and 0.5x 2027e BVPS, respectively (previously 3.4x and 1.2x).

We downgrade Winbond to EW

We continue to like the CUBE and S-SiCap businesses for longer-term potential, but we see near-term pressure from NOR, SLC NAND, and DDR4 businesses, in all of which industry supply is ramping faster than demand is increasing, especially as global cloud capex may face partial delay from 2028 to 2029. We believe the stock still has strong valuation support at 1.0-1.2x P/B, and therefore we believe an EW rating is fair.

Risk Reward – Winbond Electronics Corp (2344.TW)

Pricing power may be peaking; still positive on CUBE and SiCap; EW

PRICE TARGET NT$120.00

Base case, 1.2x 2027e P/B. This method is in line with the approach we adopt for Greater China memory IDM peers, in view of the industry's high volatility. Our target P/B is above our 1.0x P/B valuation anchor becaiuse we still favor the company's CUBE and S-SiCap businesses for their long-term potential.

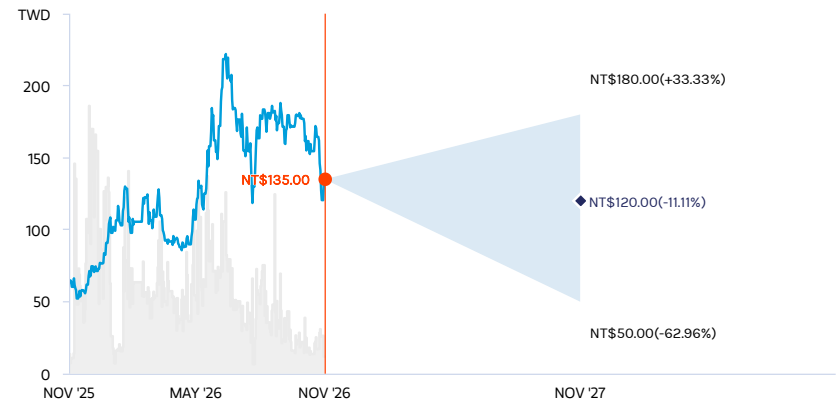
RISK REWARD CHART



Key: Historical Stock Performance Current Stock Price Price Target

Source: Refinitiv, Morgan Stanley Research

EQUAL-WEIGHT THESIS

- Rising uncertainty over cloud spending weakens confidence in incremental enterprise demand, while much weaker consumer demand challenges customers' ability to absorb further price hikes
- Capacity expansion captures market upside but may create utilization or margin issues should pricing peak.
- We share management's view that CUBE could be meaningful in 2026, given engagement with multiple foundry partners and customers.
- We see potential for several headwinds for the logic business.
- Our price target implies 1.2x 2027e P/B, above our 1.0x P/B valuation anchor. Wwe still favor the company's CUBE and S-SiCap businesses for their long term potential

GigaDevice: Estimate Revisions and Quarterly Financials

We cut our EPS estimates 25% for 2026, 36% for 2027, and 33% for 2028: The 2026e EPS change mainly reflects actual 2Q26 and 3Q26 results. The 2027e and 2028e EPS changes reflect a potential peak in pricing power across DDR4, NOR Flash, and SLC NAND. We now reduce our DRAM and others revenue estimates throughout 2027-2028 and 43% into 4Q28, mainly reflecting changes in our DDR4 ASP estimates. We also reduce our Flash (including NOR and SLC NAND) ASP estimates throughout 2027-2028 and 25% into 4Q28, without changing our Flash shipment estimates. We did not materially change our GM assumptions. Our changes in net income/EPS estimates are largely a function of changes in our revenue and gross profit estimates. We believe it is a good time to make these changes now as a result of the narrower shortages, moderating price hikes, and potential delay in 2028 US cloud capex.

GigaDevice: Valuation Methodology

We cut our price target to Rmb259

We continue to derive our price target, which is our base case value, from a residual income model. We believe this best captures the stock's long-term value.

Our base case value cut of 65% can be attributed ~33% to earnings estimate revisions, as has been elaborated, and ~33% from multiple compression, driven by intermediate growth rate cut and beta increase. (Note: the overall price target change is calculated from the fully revised RI model. The individual contribution estimates are illustrative and should not be added together or compounded to derive the overall change.).

We cut our intermediate growth rate to 8.0% from 11.3% to reflect stronger changes in the supply environment compared to the end market demand over the medium to long term. The potential peak in pricing power for niche memory (DDR4, SLC, MLC, NOR) and the potential delay of 2028 US cloud capex now suggest slower revenue growth for GigaDevice from 2026 to 2036. We think a 3.3ppt p.a. growth rate cut reflects the new supply/demand dynamics with a closer gap.

We also raise our beta to 1.50 from 1.14, leading our cost of equity assumption to rise to 11.8% from 9.4%. This reflects a cautious valuation scenario, to account for the recent memory segment volatility, 70%+ correction from the stock price peak in June, and the fabless model, which does not provide a floor support for valuation similar to the IDM model. The elevated beta reflects the company's exposure to rapidly changing niche memory pricing dynamics that could severely affect earnings with a downward bias compared to our financial forecasts.

Our other key assumptions remain unchanged, including equity risk premium of 6.5%, risk-free rate of 2% and payout ratio of 40%.

Our bull case value falls to Rmb448 from Rmb1,300, and our bear case value to Rmb112 from Rmb324.

We downgrade GigaDevice to EW

We still see the company as a domestic leader in MCU localization and believe its customized DRAM business could show a revenue ramp over the next 1-2 years. We also still like its strategic partnership with CXMT, which provides both capacity support and process tech improvements. However, we see near-term pressure from the NOR, SLC NAND, and DDR4 businesses, in all of which industry supply is ramping faster than demand increase, especially as global cloud capex may face partial delay from 2028 to 2029. Fabless design houses do not face depreciation and utilization issues during a down-cycle, but at the same time they lack a similar valuation anchor as IDM/foundry players from their book value, and therefore we see potentially continued high volatility ahead.

Our new price target implies a 2027e P/E of 9x, below the historical average of 38x since 2016, owing to changes in pricing power.

Risk Reward – GigaDevice Semiconductor Beijing Inc (603986.SS)

Cautious on peaking niche DRAM pricing power; EW

PRICE TARGET Rmb259.00

Base case value, derived from our residual income model. Key assumptions: cost of equity of 11.8% (beta 1.5, risk-free rate 2%, and risk premium 6.5%), a payout ratio of 40%, medium-term growth rate of 8.0%, and a terminal growth rate of 2.5%.

Consensus Price Target Distribution

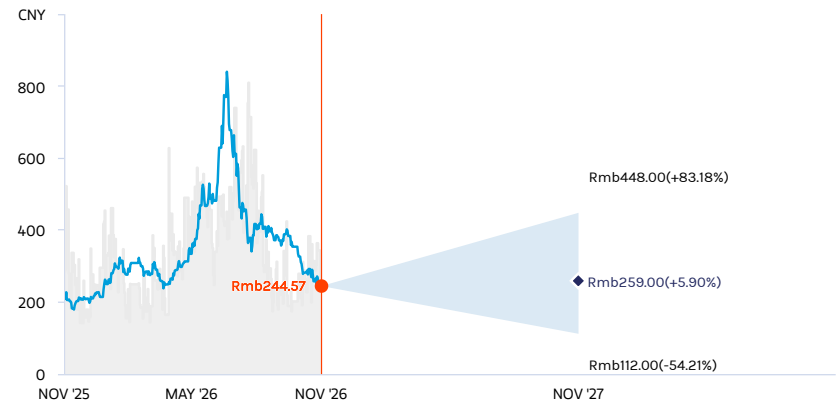
RISK REWARD CHART



Key: Historical Stock Performance Current Stock Price Price Target

Source: Refinitiv, Morgan Stanley Research

EQUAL-WEIGHT THESIS

- We expect GigaDevice to continue to gain share in China's MCU market. Auto MCUs offer bigger opportunities as local self-sufficiency is low.
- Rising uncertainty over cloud spending weakens confidence in incremental enterprise demand, while much weaker consumer demand challenges customers' ability to absorb further hikes
- We believe GigaDevice will ramp up 16G LPDDR4 and 32G DDR4 at CXMT's Gen 4 platform in 2027.
- Our price target implies 2027e P/E of 9x, below the historical average of 38x from 2016, reflecting multiple compression amid growth uncertainties.

BULL CASE Rmb448.00

15x 2027e EPS

NOR, SLC, and DRAM prices continue rising into 2027-28; MCU growth accelerates; meaningful WoW contribution: 1) Flash sales rise 80% and 20% Y/Y in 2027 abd 2028; 2) MCU rises 30% and 20% in 2027 and 2028; 3) meaningful contribution from WoW into 2028; 4) DRAM and others grows 60% and 40% in 2027 and 2028.

BASE CASE Rmb259.00

9x 2027e EPS

NOR, SLC, and DRAM prices stabilizes into 2027/28; MCU growth continues; moderate WoW contribution: 1) Flash sales rise 54% Y/Y in 2027 and 0% Y/Y in 2028; 2) MCU rises 16% and 23% in 2027 and 2028%; 3) moderate contribution from WoW into 2028; 4) DRAM and others rises 36% in 2027 but drops 7% in 2028.

BEAR CASE Rmb112.00

4x 2027e EPS

NOR, SLC, and DRAM prices decline in 2027-28; MCU growth stalls; WoW contribution delays: 1) Flash sales grow 20% Y/Y in 2027 but drop 10% Y/Y in 2028; 2) MCU rises 10% in 2027 but 0% in 2028; 3) limited contribution from WoW into 2028; 4) DRAM and others grows 20% in 2027 but drops 20% in 2028.

Risk Reward – GigaDevice Semiconductor Beijing Inc (603986.SS)

KEY EARNINGS INPUTS

Drivers	Dec 2025	Dec 2026e	Dec 2027e	Dec 2028e
NOR Flash ASP growth (%)	4	159	36	0
MCU ASP growth (%)	(8)	0	0	0
Gross margin (%)	40	77	58	58

INVESTMENT DRIVERS

- Beneficiary of MCU localization
- Decreasing opex burden
- Development of AI glasses market

RISKS TO PT/RATING

RISKS TO UPSIDE

- NOR up-cycle driven by stronger demand
- Superior chip design, leading to increasing exposure to low-density NOR
- Faster-than-expected DRAM development

RISKS TO DOWNSIDE

- NOR down-cycle driven by weaker demand
- Inferior chip design, leading to increasing exposure to mid-/high-density NOR
- Slower-than-expected DRAM development

PSMC: Earnings Estimate Revisions

We adjust our EPS forecasts +10% for 2026 and -11% each for 2027 and 2028: The 2026e EPS change mainly reflects actual 2Q26 and 3Q26 results. The 2027e and 2028e EPS changes reflect a potential peak in pricing power across DDR3/3 and SLC NAND. We now reduce our DRAM wafer ASP estimates throughout 2027-2028 and 19% into 4Q28, without changing our DRAM wafer shipment estimates. We did not materially change our GM assumptions. Our changes in net income/EPS estimates are largely a function of changes in our revenue and gross profit estimates. We believe it is a good time to make these changes now as a result of the narrower shortages, moderating price hikes, and potential delay in 2028 US cloud capex.

PSMC: Valuation Methodology

Our price target is cut to NT$54

We incorporate our revised estimates and maintain our P/B valuation methodology. Our new target, which is our base case value, is based on a 2027e P/B of 1.0x, down from 2.0x previously – below the historical average of 1.5x since 2021, to reflect pricing uncertainties.

Our base case value/price target cut of 51% is almost entirely a result of target multiple reduction, rather than change in 2027e BVPS, which declined only 1.5% in our new estimate. For PSMC, we use 1.0x P/B as the downside valuation anchor – book value provides a psychological support level for capital-intensive IDM/foundry stocks during cyclical downturns. When earnings are temporarily depressed, investors typically place greater weight on the underlying net asset base.

We decrease our bull case value from NT$177 to NT$86 and our bear case value from NT $55 to NT$27, implying 1.6x and 0.5x 2027e P/B, respectively.

We downgrade PSMC to EW

We are positive on the company's emerging 3D AI foundry business, and we believe PSMC is well positioned to benefit from its Micron partnership, including front-end migration to the one-year process node and back-end opportunities in advanced DRAM production (e.g., HBM). The company is also catching up with the DRAM pricing up-cycle.

At the same time, its logic foundry business is set to enjoy continued price hikes into 2027. However, on its memory foundry side, we see near-term pressure from DDR3/4, in which industry supply is ramping faster than demand is increasing, especially as global cloud capex may face partial delay from 2028 to 2029.

We believe the stock still has strong valuation support at 1.0x P/B, and therefore we believe an EW rating is fair.

Risk Reward – Powerchip Semiconductor Manufacturing Co (6770.TW)

Pricing power uncertain, while 3D AI foundry offers upside; EW

PRICE TARGET NT$54.00

Base case, 1.0x 2027e P/B. This method is in line with our approach for Greater China memory IDM players, in view of the industry's high volatility. Our 1.0x target P/B is lower than the historical average of 1.5x since 2021, reflecting DDR3/4 pricing uncertainties. We use 1.0x P/B as the downside valuation anchor. Book value provides a psychological support level for capital-intensive IDM/foundry stocks during cyclical downturns.

Consensus Price Target Distribution

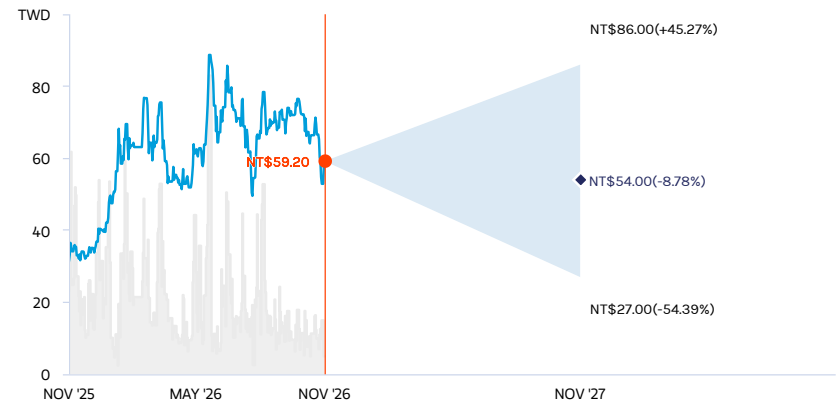
RISK REWARD CHART



Key: Historical Stock Performance Current Stock Price Price Target

Source: Refinitiv, Morgan Stanley Research

EQUAL-WEIGHT THESIS

- We expect a mature node capacity shortage in 2H27, reflecting fast growth of AI power ICs as a key part of future AI infrastructure.
- 3D AI foundry business is expected to be a major revenue contributor - we expect it to make up 5%, 10% and 14% of total revenue in 2026-28, respectively.
- However, DDR3/4 pricing power may be peaking .
- Our new target is based on 2027e P/B of 1.0x, below the historical average of 1.5x since 2021, reflecting DDR3/4 pricing uncertainties. We use 1.0x P/B as the downside valuation anchor - book value provides a psychological support level for capital-intensive IDM/foundry stocks during cyclical downturns.

BULL CASE NT$86.00

1.6x 2027e BVPS

Strong sales growth with gross margin expansion: Our assumptions include: 1) a revenue CAGR of >40% in 2025-28; 2) gross margin expanding to 45%+ by 2028; 3) mature node foundry up-cycle longer than expected; 4) faster revenue ramp-up of 3D AI foundry business; 5) specialty DRAM pricing stronger than expected, with PSMC's DRAM foundry ASP rising +30% and +5% in 2027/28 respectively.

BASE CASE NT$54.00

1.0x 2027e BVPS

Revenue growth with gross margin improvement: Our assumptions include: 1) a revenue CAGR of 36% in 2025-28; 2) a gross margin increase to 43% by 2028; 3) a mature node foundry up-cycle; 4) additional contribution from 3D AI foundry business; 5) specialty DRAM pricing stabilizing, with PSMC's DRAM foundry ASP growing +14.0% in 2027 and declining 5.4% in 2028.

BEAR CASE NT$27.00

0.5x 2027e BVPS

Revenue decline with gross margin erosion: Our assumptions include: 1) a revenue CAGR in the single digits (%) in 2025-28; 2) gross margin of <10% by 2028; 3) mature node foundry capacity no longer in shortage; 4) delays in revenue contribution from 3D AI foundry business; 5) specialty DRAM pricing decreasing sharply, with PSMC's DRAM foundry ASP rising +5% in 2027 but dropping 15% in 2028.

MS ALPHA MODELS

2/5 MOST — 3 Month Horizon

Source: Refinitiv, FactSet, Morgan Stanley Research; 1 is the highest favored Quintile and 5 is the least favored Quintile

RISKS TO PT/RATING

RISKS TO UPSIDE

- AI data center capacity globally holds up strongly.
- Pricing power is sustained in 2027 and 2028.
- Listing on main board attracts fund flows.
- Aluminum process enjoys higher margins.

RISKS TO DOWNSIDE

- AI data center additions face delays.
- Competition from China intensifies.
- Prices erode faster than expected.
- Demand from consumer electronics clients weakens further.
- Supply chain inventory takes longer to digest.

Macronix: Earnings Estimate Revisions

We cut our 2026, 2027, and 2028 EPS forecasts 14%, 20%, and 21%, respectively: The 2026e EPS change mainly reflects actual 3Q26 results. The 2027e and 2028e EPS changes reflect a potential peak in pricing power across NOR and MLC/SLC NAND. We now reduce our NAND and /NOR wafer ASP estimates throughout 2027-2028 and 15% and 8% into 4Q28 respectively, without changing our wafer shipment estimates. We did not materially change our GM assumptions. Our changes in net income/EPS estimates are largely a function of changes in our revenue and gross profit estimates. We believe it is a good time to make these changes now as a result of the narrower shortages, moderating price hikes, and potential delay in 2028 US cloud capex.

Macronix: Valuation Methodology

We cut our price target to NT$90 from NT$220

We continue to use a P/B multiple methodology to derive our price target, which is our base case value, in line with our approach for Greater China memory IDM peers and in view of the industry's high volatility. Our new target is based on a 2027e P/B of 1.0x, down from 2.1x previously – below the average of 1.5x since 2017, given the potential peak in pricing power for NOR and SLC/MLC NAND. For Macronix, we now use 1.0x P/B as the downside valuation anchor because book value provides a psychological support level for capital-intensive IDM/foundry stocks during cyclical downturns. When earnings are temporarily depressed, investors typically place greater weight on the underlying net asset base.

Our base case value/price target cut of 59% reflects both target multiple reduction and a 15% 2027 BVPS estimate reduction (relatively large because of a smaller base).

We cut our bull case value from NT$355 to NT$145, which is 1.6x our 2027e BVPS. We cut our bear case value from NT$100 to NT$41, which is 0.5x our 2027e BVPS.

We downgrade Macronix to EW

We continue to like its unique position in MLC NAND as the only major supplier still ramping up capacity. However, we do see near-term pressure from NOR, DDR3/4, and even SLC/MLC NAND, in all of which industry supply is ramping faster than demand is increasing, especially as global cloud capex may face partial delay from 2028 to 2029. We believe the stock still has strong valuation support at 1.0x P/B, and therefore we believe an EW rating is fair.

Exhibit 31: Forward P/B vs. ROAE

Risk Reward – Macronix International Co Ltd (2337.TW)

Pricing power may be peaking; EW

PRICE TARGET NT$90.00

Base case, P/B, in line with our Greater China memory coverage, given the industry's cyclical nature. We apply a target multiple of 1.0x to our 2027 BVPS estimate vs. its historical average of 1.5x since 2017, given the potential peak in pricing power of NOR and SLC/MLC NAND. We use 1.0x P/B as the downside valuation anchor. Book value provides a psychological support level for capital-intensive IDM/foundry stocks during cyclical downturns.

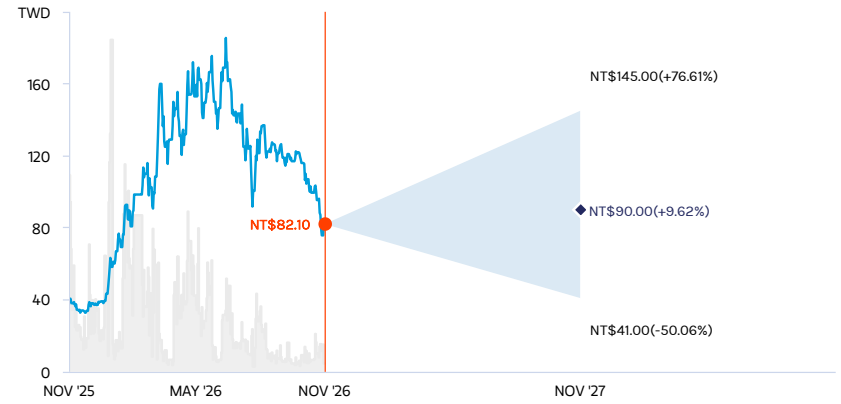
RISK REWARD CHART



Key: Historical Stock Performance Current Stock Price Price Target

Source: Refinitiv, Morgan Stanley Research

EQUAL-WEIGHT THESIS

- Rising uncertainty over cloud spending weakens confidence in incremental enterprise demand, while much weaker consumer demand challenges customers' ability to absorb further price hikes
- Capacity expansion captures market upside but may create utilization or margin issues should pricing peak.
- Our price target is set at 1.0x 2027e P/B, vs the average of 1.5x since 2017, given the potential peak in pricing power of NOR and SLC/MLC NAND. For Macronix, we now use 1.0x P/B as the downside valuation anchor - book value provides a psychological support level for capital-intensive IDM/foundry stocks during cyclical downturns.

Risk Reward Themes

Secular Growth: *Negative*

View descriptions of Risk Rewards Themes here

BULL CASE NT$145.00

1.6x 2027e BVPS

Pricing power remains stronger for longer: NAND wafer ASP rises 40% and 20% in 2027 and 2028, while NOR wafer ASP rises 40% and 20% in 2027/28.

BASE CASE NT$90.00

1.0x 2027e BVPS

Pricing power may be peaking into 2027: NAND wafer ASP rises 18% and 0% in 2027 and 2028, while NOR wafer ASP rises 25% and 0% in 2027 and 2028.

BEAR CASE NT$41.00

0.5x 2027e BVPS

Pricing significantly declines beyond 2027: NAND wafer ASP grows 10% in 2027 but drops 10% in 2028, while NOR wafer ASP rises 10% in 2027 but drops 110% in 2028.

RISKS TO PT/RATING

RISKS TO UPSIDE

- Wider legacy NAND supply/demand gap
- NOR up-cycle, driven by limited supply expansion and/or stronger demand
- Faster growth for Switch hardware and core titles
- Healthy utilization; sustained margins

RISKS TO DOWNSIDE

- Less severe legacy NAND supply/demand gap
- NOR down-cycle, driven by faster supply expansion and/or demand weakness
- Slower growth for Switch hardware and core titles
- Weak utilization; margin erosion

Nanya Tech: Estimate Revisions and Quarterly Financials

Our 2026 estimates are unchanged; we cut our 2027 and 2028 EPS estimates 7% and 9%,respectively: We factor in a potential peak in DDR3/4 pricing power, which affects Nanya Tech's top line and margins. We now reduce our Nanya Tech DRAM ASP per bit estimates throughout 2027-2028 and 6% into 4Q28, without changing our wafer shipment estimates. We did not materially change our GM assumptions. Our changes in net income/EPS estimates are largely a function of changes in our revenue and gross profit estimates. We believe it is a good time to make these changes now as a result of the narrower shortages, moderating price hikes, and potential delay in 2028 US cloud capex.

Nanya Tech: Valuation Methodology

We cut our price target from NT$600 to NT$550

Our price target (base case scenario value) reflects a target BVPS multiple of 2.04x for 2027 (was 4.47x) versus ROE of 59% for 2027. We lower our target multiple to reflect potential peak in DDR4 pricing power and recent memory segment volatility. For Nanya Tech, our new base case target P/B multiple of 2.04x P/B is stronger than our downside valuation anchor of 1.0x P/B for capital-intensive IDM/foundry stocks. This is because we expect Nanya to remain relatively resilient compared to other DDR4 players in our coverage, given stronger process technology and potential DDR5 migration.

Our base case value/price target cut of 8% reflects both target multiple reduction and BVPS estimate adjustment of 3% arising from earnings estimate revisions.

We cut our bull and bear case values from NT$1,270 and NT$330 to NT$1,150 and NT $300, respectively -- 4.27x and 1.12x 2027e BVPS.

We remain OW

Despite potentially peaking pricing power seen in DDR4, we remain positive on DDR5 in view of continued strong demand from servers. Nanya is already producing DDR5 on its second-generation 10-nm process, with DDR5 contributing ~10% of revenue; its next process enters customer qualification in 1Q27, and EUV implementation is targeted for 2028. This establishes its edge in process technology vs the other DDR4 vendors in our coverage and a stronger position in DDR5 migration. Valuation is also attractive, in our view. Therefore, we remain OW on Nanya Tech.

Risk Reward – Nanya Technology Corp. (2408.TW)

Still resilient during a DDR4 pricing power debate; OW

PRICE TARGET NT$550.00

Base case, P/B. We expect the stock to trade at 2.04x 2027e BVPS, justified by 2027e ROE of 59%. We think NTC is well positioned compared to other DDR4 players given stronger process technology and the DDR5 migration. Thus, we ascribe a multiple stronger than our downside valuation anchor of 1.0x P/B for capital-intensive IDM/foundry stocks.

Consensus Price Target Distribution NT$150.00 — NT$632.64 — MS PT — NT$800.00

Source: Refinitiv, Morgan Stanley Research

◆ Mean ◆ Morgan Stanley Estimates

OVERWEIGHT THESIS

- Major memory suppliers are gradually exiting the DDR4 market, benefiting existing Taiwanese players, including Nanya Tech.
- We factor in a potential peak in DDR4 pricing power. However, we expect Nanya to remain relatively resilient compared to other DDR4 players in our coverage, given stronger process technology and potential DDR5 migration.
- Thus, we set our price target at P/B of 2.04x for 2027e, stronger than our downside valuation anchor of 1.0x P/B for capital-intensive IDM/foundry stocks.

View descriptions of Risk Rewards Themes here

BULL CASE NT$1,150.00

4.3x 2027e BVPS

DDR4 pricing continues to rise: Supply ramp is slower than expected. 1a/1b ramp and DDR5 migration are faster than expected.

BASE CASE NT$550.00

2.0x 2027e BVPS

DDR4 pricing remains stable: Supply ramp is offset by demand improvement. 1a/1b ramp and DDR5 migration continue, providing upside.

BEAR CASE NT$300.00

1.1x 2027e BVPS

DDR4 pricing declines drastically: Supply ramp is faster than expected. 1a/1b ramp and DDR5 migration are slower than expected.

AP Memory: Estimate revisions summary

We adjust our EPS estimates +21% for 2026, +2% for 2027, and -12% for 2028: We factor in 3Q26 preliminary results. We adjust our 2028 forecasts mainly to account for supply chain risks. We note that the company's IoTRAM is less affected by volatility of typical commodity DRAM pricing. The 2027e and 2028e EPS changes mainly reflect supply chain uncertainties around S-SiCap. We now reduce our S-SiCap unit shipment estimates throughout 2027-2028 and 50%+ into 4Q28. We also slightly reduced our IoT RAM ASP estimates throughout 2027-28 to reflect peaking DDR3/4 pricing power. In addition, we reduced our GM assumptions across product lines to reflect potential peak in pricing power and supply chain uncertainties. Our changes in net income/EPS estimates are largely a function of changes in our revenue and gross profit estimates. We believe it is a good time to make these changes now as a result of the narrower shortages, moderating price hikes, and potential delay in 2028 US cloud capex.

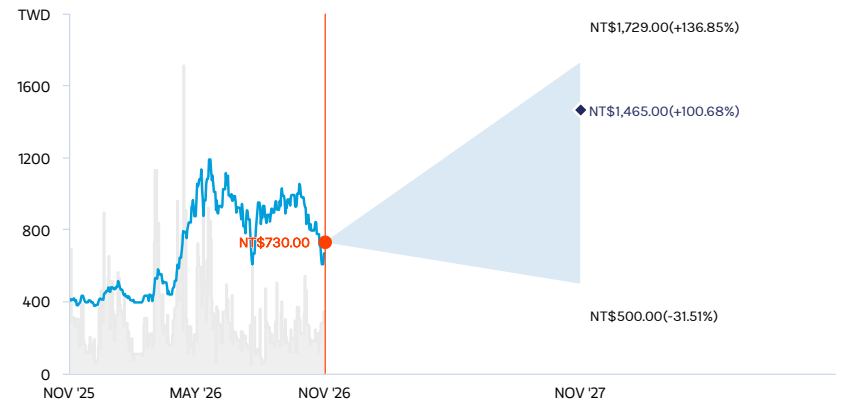
Risk Reward – AP Memory Technology Corp (6531.TW)

Multiple growth drivers ahead; OW

PRICE TARGET NT$1,465.00

Base case, derived from a residual income model. Key RI model assumptions include cost of equity constant at 9.2% (2.0% risk-free rate, 6.0% risk premium, 1.2 beta); medium-term growth rate of 16.0%; terminal growth rate of 3.0%; and payout ratio of 67%.

RISK REWARD CHART



Key: Historical Stock Performance ● Current Stock Price ◆ Price Target

Source: Refinitiv, Morgan Stanley Research

OVERWEIGHT THESIS

- S-SiCap revenue is likely to ramp in 2026-27, and be further driven by new IPD interposer opportunities into 2028.
- Memory bandwidth and power consumption are the next issues to be resolved in AI computing, and we believe AP Memory's wafer-on wafer (WoW) packaging technology could be an effective solution.
- The company expects memory business to be stable in the near term.
- Overall AI business should continue to rise in the mix – a positive read for the margin profile.
- Our price target implies 41x 2027e P/E, roughly in line with the historical average since 2020. On this basis, we find valuation attractive.

BULL CASE NT$1,729.00

48x 2027e EPS

Faster-than-expected AI and IPD business progress with PSRAM generating more cash flow: We assume: 1) WoW packaging revenue to reach >NT$10bn, and S-SiCap revenue to reach >NT$10bn by 2028; 2) total revenue to rise at a 55%+ CAGR, 2025-28; and 3) gross margin to increase from 46.5% in 2025 to 60%+ by 2028.

BASE CASE NT$1,465.00

41x 2027e EPS

Fast-growing AI and IPD business, with PSRAM generating stable cash flows: We expect: 1) WoW revenue to reach NT$11bn+, and S-SiCap revenue to reach NT$6bn+ by 2028; 2) total revenue to rise at a ~80% CAGR, 2025-28; and 3) gross margin to increase from 46.5% in 2025 to ~50% in 2028.

BEAR CASE NT$500.00

14x 2027e EPS

Slower-than-expected AI and IPD business progress, with PSRAM facing intensifying competition: We assume: 1) WoW packaging revenue of ~NT$1.5bn, and S-SiCap revenue of ~NT$2bn by 2028; 2) total revenue to rise at a 10-15% CAGR, 2025-28; and 3) gross margin to remain at ~51% by 2028.

Risk Reward – AP Memory Technology Corp (6531.TW)

KEY EARNINGS INPUTS

Drivers	Dec 2025	Dec 2026e	Dec 2027e	Dec 2028e

Phison: Estimate Revisions

We adjust our 2026, 2027, and 2028 EPS estimates: We factor in 3Q26 results, which demonstrated continued revenue growth (+27% Q/Q) but also gross margin decline (59.7% in 3Q, down from 65.3% in 2Q). In 4Q26 and 2027, we expect emerging weakness from consumer tech and a more moderate pricing environment to result in 4Q revenue decline, with GM starting to normalize. We think normalized GM is likely to extend into 2028.

We present further discussion of our EPS estimates under Valuation Methodology.

Phison: Valuation Methodology

We cut our price target from NT$2,588 to NT$1,357

Our price target is our base case value, derived from a residual income (RI) model. Our cut reflects our latest earnings estimates. We also cut our terminal growth rate assumption from 4.0% to 3.0% to be broadly in line with a conservative estimate of long-term nominal economic growth in developed economies. We believe this is appropriate for Phison because rising storage demand should support continued growth, while declining NAND prices per bit, competition, and maturing SSD penetration should limit the conversion of volume growth into earnings growth, bringing its growth closer to that of the broader economy over time.

Our other RI parameters are unchanged, including a cost of equity of 9.0%, a medium-term growth rate of 9.0%, and a dividend payout ratio assumption of 50.0%.

Apart from the earnings estimate revisions and terminal growth rate change, a material part of the price target change is driven by an error in the previously published residual income model (August 2026). The error has now been corrected. In the previous RI model, the 2028e net income was mistakenly calculated as 2027e net income * (1+ intermediate growth rate), where it should have been linked to the actual 2028e net income forecast. This overstated the previous price target.

Our earnings estimates have also changed materially from the previously published version: they increase 12% for 2026, 60% for 2027, and 37% for 2028. This mainly reflects higher GM assumptions of 61.2%, 51.9%, and 42.0%, respectively; previously we assumed 60.1%, 43.4%, and 39.5%.

Our base case value/price target is lowered 48%, of which roughly +37% is contributed by earnings estimate revisions, -6% is contributed by terminal growth rate reduction, and -83% is contributed by the correction of the prior RI model error. (The overall price target change is calculated from the fully revised RI model. The individual contribution estimates are illustrative and should not be added together or compounded to derive the overall change.)

We cut our bull and bear case values from NT$3,400 and NT$1,250 to NT$1,782 and NT $655, respectively, implying 8.4x 2027e EPS in the bull case and 3.1x 2027e EPS in the bear case.

We downgrade Phison to UW

The company hopes its AiDaptive module and service business can pick up and offset the margin pressure in the conventional module business in the coming quarters, which we believe is worth monitoring. However, its 3Q GM of 59% missed the Street estimate of 60.3%; we see this as a potential sign that the previously strong margin profile supported by low-cost inventory may start to face more downside. Specifically, the AI storage part of its business (eSSD, and cSSD for AI PC, together 40% of revenue) may face margin decline. This is what we have been cautious about, and we see the 3Q margin miss as having provided a good opportunity to downgrade this stock, which we view as

overvalued based on our revised assumptions.

Risk Reward – Phison Electronics Corp (8299.TWO)

AI still drives NAND market, but caution on GM decline; UW

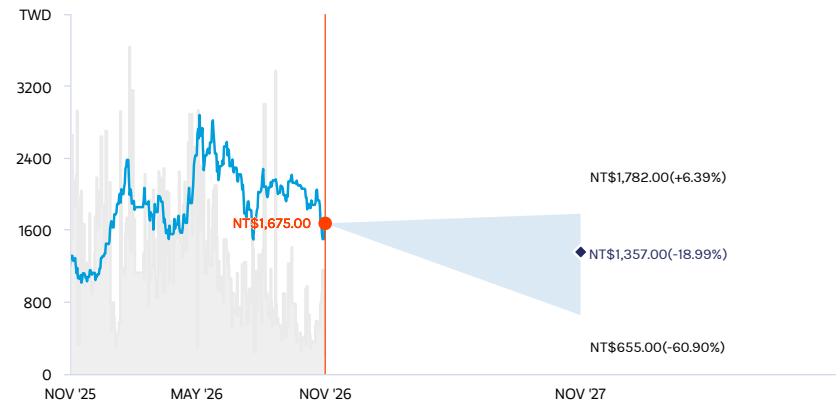
PRICE TARGET NT$1,357.00

Base case, residual income model. Key assumptions: a cost of equity of 9.0%, a medium-term growth rate of 9.0%, a terminal growth rate of 3.0%, and a dividend payout ratio assumption of 50%.

Consensus Price Target Distribution

Source: Refinitiv, Morgan Stanley Research

RISK REWARD CHART



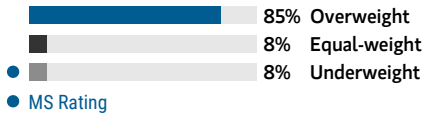
Key: Historical Stock Performance ● Current Stock Price ◆ Price Target

Source: Refinitiv, Morgan Stanley Research

UNDERWEIGHT THESIS

- AI-driven storage demand is extending the industry up-cycle, but we see limited upside for module vendors given constrained NAND supply, FIFO-driven margin normalization, and weakening consumer SSD demand amid elevated NAND prices.
- eSSD and AI-related storage form meaningful growth opportunities for Asian module house vendors such as Phison. Even so, we believe the scale remains insufficient to offset broader consumer SSD weakness.
- We see risks in execution as raw NAND suppliers are looking to cut support further to module houses to prioritize their other customers. Industry average for shipments is -40% YoY, which could create risks for Phison.
- We find valuation unattractive.

Consensus Rating Distribution



Source: Refinitiv, Morgan Stanley Research

BULL CASE NT$1,782.00

8.4x 2027e EPS

Growing SSD demand and limited supply growth prompt NAND flash shortages; SSD market growth accelerates: 1) Revenue increases at a CAGR of >40% over 2025-28; 2) gross margin is at 50-60% in 2028 vs. 61% in 2026.

BASE CASE NT$1,357.00

6.4x 2027e EPS

A good year for NAND modules in 2026, but we doubt it can be sustained into 2027: 1) Revenue increases at a CAGR of 29% over 2025-28e; 2) gross margin decreases to 42% in 2028 from 61% in 2026, as NAND pricing normalizes and low cost inventory is depleted.

BEAR CASE NT$655.00

3.1x 2027e EPS

No outsourcing from Micron, low SSD market growth, NAND flash prices drop more than in our base case: 1) Revenue increases at a CAGR of <10% in 2025-28; 2) gross margin faces more significant erosion, to <30% in 2028 from 61% in 2026, as NAND pricing decreases faster than expected.

Risk Reward – Phison Electronics Corp (8299.TWO)

KEY EARNINGS INPUTS

Drivers	Dec 2025	Dec 2026e	Dec 2027e	Dec 2028e
Flash module revenue Y/Y (%)	22.0	354.0	(19.0)	(28.1)
Flash controller IC revenue Y/Y (%)	44.7	22.4	(28.2)	(3.1)
Flash module gross margin (%)	33.5	63.0	52.3	41.8
Flash controller IC gross margin (%)	43.9	44.2	43.2	43.3

INVESTMENT DRIVERS

- Rising NAND flash prices
- Higher SSD penetration rate
- Adoption of solution by key OEMs

GLOBAL REVENUE EXPOSURE

MS ALPHA MODELS

1/5 MOST — 3 Month Horizon

Source: Refinitiv, FactSet, Morgan Stanley Research; 1 is the highest favored Quintile and 5 is the least favored Quintile

RISKS TO PT/RATING

RISKS TO UPSIDE

- Faster-than-expected eMMC controller IC outsourcing rate
- Faster SSD market growth
- Market share gain in ultrabooks and SSDs

RISKS TO DOWNSIDE

- Weaker-than expected NAND demand
- Milder impact on global NAND supply
- Non-acceptance of price hikes on NAND modules
- Risks in execution as raw NAND suppliers reprioritize

Important Regulatory Disclosures on Subject Companies

As of October 30, 2026, Morgan Stanley beneficially owned 1% or more of a class of common equity securities of the following companies covered in Morgan Stanley Research: ACM Research Inc, Advanced Micro-Fabrication Equipment Inc, Advanced Wireless Semiconductor Co, Alchip Technologies Ltd, AllRing Tech Co., AP Memory Technology Corp, ASE Technology Holding Co. Ltd., ASMedia Technology Inc, ASMPT Ltd, Aspeed Technology, Cambricon Technology Corporation, eMemory Technology Inc, GigaDevice Semiconductor Beijing Inc, Gudeng Precision, Hua Hong Semiconductor Ltd, Macronix International Co Ltd, Montage Technology Co Ltd, NAURA Technology Group Co Ltd, Nuvoton Technology Corporation, Parade Technologies Ltd, Phison Electronics Corp, Powerchip Semiconductor Manufacturing Co, SG Micro Corp., Shanghai Fudan Microelectronics, SICC Co Ltd, Silergy Corp., Silicon Motion, StarPower Semiconductor Ltd, TSMC, UMC, Vanguard International Semiconductor, WIN Semiconductors Corp, WPG Holdings, WT Microelectronics Co. Ltd..

Within the last 12 months, Morgan Stanley managed or co-managed a public offering (or 144A offering) of securities of Alchip Technologies Ltd, Iluvatar CoreX Semiconductor Co., Ltd., MediaTek, Montage Technology Co Ltd, Powerchip Semiconductor Manufacturing Co, UMC.

Within the last 12 months, Morgan Stanley has received compensation for investment banking services from ASMPT Ltd, Iluvatar CoreX Semiconductor Co., Ltd., MediaTek, Montage Technology Co Ltd, Powerchip Semiconductor Manufacturing Co, Silicon Motion, UMC.

In the next 3 months, Morgan Stanley expects to receive or intends to seek compensation for investment banking services from Advanced Micro-Fabrication Equipment Inc, Alchip Technologies Ltd, AP Memory Technology Corp, ASE Technology Holding Co. Ltd., ASMedia Technology Inc, ASMPT Ltd, Aspeed Technology, CXMT Corp, Espressif Systems, GigaDevice Semiconductor Beijing Inc, GlobalWafers Co Ltd, Gudeng Precision, Himax Technologies Inc, Hua Hong Semiconductor Ltd, Iluvatar CoreX Semiconductor Co., Ltd., Innoscience, King Yuan Electronics Co Ltd, Macronix International Co Ltd, MediaTek, MetaX Integrated Circuits, Montage Technology Co Ltd, Novatek, Parade Technologies Ltd, Phison Electronics Corp, Powerchip Semiconductor Manufacturing Co, Realtek Semiconductor, SG Micro Corp., SICC Co Ltd, Silergy Corp., Silicon Motion, TSMC, UMC, Universal Scientific Ind. (Shanghai), Vanguard International Semiconductor, Winbond Electronics Corp, WPG Holdings, WT Microelectronics Co. Ltd..

Within the last 12 months, Morgan Stanley has received compensation for products and services other than investment banking services from ASE Technology Holding Co. Ltd., King Yuan Electronics Co Ltd, MediaTek, Nanya Technology Corp., Novatek, Nuvoton Technology Corporation, Realtek Semiconductor, Silicon Motion, SMIC, TSMC, UMC, Universal Scientific Ind. (Shanghai), Winbond Electronics Corp, WT Microelectronics Co. Ltd..

Within the last 12 months, Morgan Stanley has provided or is providing investment banking services to, or has an investment banking client relationship with, the following company: Advanced Micro-Fabrication Equipment Inc, Alchip Technologies Ltd, AP Memory Technology Corp, ASE Technology Holding Co. Ltd., ASMedia Technology Inc, ASMPT Ltd, Aspeed Technology, CXMT Corp, Espressif Systems, GigaDevice Semiconductor Beijing Inc, GlobalWafers Co Ltd, Gudeng Precision, Himax Technologies Inc, Hua Hong Semiconductor Ltd, Iluvatar CoreX Semiconductor Co., Ltd., Innoscience, King Yuan Electronics Co Ltd, Macronix International Co Ltd, MediaTek, MetaX Integrated Circuits, Montage Technology Co Ltd, Novatek, Parade Technologies Ltd, Phison Electronics Corp, Powerchip Semiconductor Manufacturing Co, Realtek Semiconductor, SG Micro Corp., SICC Co Ltd, Silergy Corp., Silicon Motion, TSMC, UMC, Universal Scientific Ind. (Shanghai), Vanguard International Semiconductor, Winbond Electronics Corp, WPG Holdings, WT Microelectronics Co. Ltd..

Within the last 12 months, Morgan Stanley has either provided or is providing non-investment banking, securities-related services to and/or in the past has entered into an agreement to provide services or has a client relationship with the following company: ASE Technology Holding Co. Ltd., Iluvatar CoreX Semiconductor Co., Ltd., King Yuan Electronics Co Ltd, MediaTek, Montage Technology Co Ltd, Nanya Technology Corp., Novatek, Nuvoton Technology Corporation, Realtek Semiconductor, Silicon Motion, SMIC, TSMC, UMC, Universal Scientific Ind. (Shanghai), Winbond Electronics Corp, WT Microelectronics Co. Ltd..

Morgan Stanley & Co. LLC makes a market in the securities of ACM Research Inc.

The equity research analysts or strategists principally responsible for the preparation of Morgan Stanley Research have received compensation based upon various factors, including quality

of research, investor client feedback, stock picking, competitive factors, firm revenues and overall investment banking revenues. Equity Research analysts' or strategists' compensation is not linked to investment banking or capital markets transactions performed by Morgan Stanley or the profitability or revenues of particular trading desks.
Morgan Stanley and its affiliates do business that relates to companies/instruments covered in Morgan Stanley Research, including market making, providing liquidity, fund management, commercial banking, extension of credit, investment services and investment banking. Morgan Stanley sells to and buys from customers the securities/instruments of companies covered in Morgan Stanley Research on a principal basis. Morgan Stanley may have a position in the debt of the Company or instruments discussed in this report. Morgan Stanley trades or may trade as principal in the debt securities (or in related derivatives) that are the subject of the debt research report.
Certain disclosures listed above are also for compliance with applicable regulations in non-US jurisdictions.

STOCK RATINGS

Morgan Stanley uses a relative rating system using terms such as Overweight, Equal-weight, Not-Rated or Underweight (see definitions below). Morgan Stanley does not assign ratings of Buy, Hold or Sell to the stocks we cover. Overweight, Equal-weight, Not-Rated and Underweight are not the equivalent of buy, hold and sell. Investors should carefully read the definitions of all ratings used in Morgan Stanley Research. In addition, since Morgan Stanley Research contains more complete information concerning the analyst's views, investors should carefully read Morgan Stanley Research, in its entirety, and not infer the contents from the rating alone. In any case, ratings (or research) should not be used or relied upon as investment advice. An investor's decision to buy or sell a stock should depend on individual circumstances (such as the investor's existing holdings) and other considerations.

Global Stock Ratings Distribution

(as of October 31, 2026)
The Stock Ratings described below apply to Morgan Stanley's Fundamental Equity Research and do not apply to Debt Research produced by the Firm.
For disclosure purposes only (in accordance with FINRA requirements), we include the category headings of Buy, Hold, and Sell alongside our ratings of Overweight, Equal-weight, Not-Rated and Underweight. Morgan Stanley does not assign ratings of Buy, Hold or Sell to the stocks we cover. Overweight, Equal-weight, Not-Rated and Underweight are not the equivalent of buy, hold, and sell but represent recommended relative weightings (see definitions below). To satisfy regulatory requirements, we correspond Overweight, our most positive stock rating, with a buy recommendation; we correspond Equal-weight and Not-Rated to hold and Underweight to sell recommendations, respectively.

	Coverage Universe		Investment Banking Clients (IBC)			Other Material Investment Services Clients (MISC)	
Stock Rating Category	Count	% of Total	Count	% of Total IBC	% of Rating Category	Count	% of Total Other MISC
Overweight/Buy	1575	43%	460	49%	29%	742	44%
Equal-weight/Hold	1537	42%	393	42%	26%	720	43%
Not-Rated/Hold	2	0%	1	0%	50%	1	0%
Underweight/Sell	570	15%	92	10%	16%	218	13%
Total	3,684		946			1681	

Data include common stock and ADRs currently assigned ratings. Investment Banking Clients are companies from whom Morgan Stanley received investment banking compensation in the last 12 months. Due to rounding off of decimals, the percentages provided in the "% of total" column may not add up to exactly 100 percent.

Analyst Stock Ratings

Overweight (O). The stock's total return is expected to exceed the average total return of the analyst's industry (or industry team's) coverage universe, on a risk-adjusted basis, over the next 12-18 months.
Equal-weight (E). The stock's total return is expected to be in line with the average total return of the analyst's industry (or industry team's) coverage universe, on a risk-adjusted basis, over the next 12-18 months.
Not-Rated (NR). Currently the analyst does not have adequate conviction about the stock's total return relative to the average total return of the analyst's industry (or industry team's) coverage universe, on a risk-adjusted basis, over the next 12-18 months.
Underweight (U). The stock's total return is expected to be below the average total return of the analyst's industry (or industry team's) coverage universe, on a risk-adjusted basis, over the next 12-18 months.
Unless otherwise specified, the time frame for price targets included in Morgan Stanley Research is 12 to 18 months.

Analyst Industry Views

Attractive (A): The analyst expects the performance of his or her industry coverage universe over the next 12-18 months to be attractive vs. the relevant broad market benchmark, as indicated below.
In-Line (I): The analyst expects the performance of his or her industry coverage universe over the next 12-18 months to be in line with the relevant broad market benchmark, as indicated below.
Cautious (C): The analyst views the performance of his or her industry coverage universe over the next 12-18 months with caution vs. the relevant broad market benchmark, as indicated below.
Benchmarks for each region are as follows: North America - S&P 500; Latin America - relevant MSCI country index or MSCI Latin America Index; Europe - MSCI Europe; Japan - TOPIX; Asia - relevant MSCI country index or MSCI sub-regional index or MSCI AC Asia Pacific ex Japan Index.

Important Disclosures for Morgan Stanley Smith Barney LLC Customers

Important disclosures regarding any material conflict of interest that can reasonably be expected to have influenced Morgan Stanley Smith Barney LLC's choice of a third-party research provider or the subject company of a third-party research report, are available on the Morgan Stanley Wealth Management disclosure website at www.morganstanley.com/online/researchdisclosures.
For Morgan Stanley specific disclosures, you may refer to https://www.morganstanley.com/eqr/disclosures/webapp/generalresearch.
Each Morgan Stanley research report is reviewed and approved on behalf of Morgan Stanley Smith Barney LLC. This review and approval is conducted by the same person who reviews the research report on behalf of Morgan Stanley. This could create a conflict of interest.

Other Important Disclosures

Morgan Stanley Research policy is to update research reports as and when the Research Analyst and Research Management deem appropriate, based on developments with the issuer, the sector, or the market that may have a material impact on the research views or opinions stated therein. In addition, certain Research publications are intended to be updated on a regular periodic basis (weekly/monthly/quarterly/annual) and will ordinarily be updated with that frequency, unless the Research Analyst and Research Management determine that a different publication schedule is appropriate based on current conditions.

Morgan Stanley is not acting as a municipal advisor and the opinions or views contained herein are not intended to be, and do not constitute, advice within the meaning of Section 975 of the Dodd-Frank Wall Street Reform and Consumer Protection Act.

Morgan Stanley produces an equity research product called a "Tactical Idea." Views contained in a "Tactical Idea" on a particular stock may be contrary to the recommendations or views expressed in research on the same stock. This may be the result of differing time horizons, methodologies, market events, or other factors. For all research available on a particular stock, please contact your sales representative or go to Matrix at http://www.morganstanley.com/matrix.

Morgan Stanley Research is provided to our clients through our proprietary research portal on Matrix and also distributed electronically by Morgan Stanley to clients. Certain, but not all, Morgan Stanley Research products are also made available to clients through third-party vendors or redistributed to clients through alternate electronic means as a convenience. For access to all available Morgan Stanley Research, please contact your sales representative or go to Matrix at http://www.morganstanley.com/matrix.

Any access and/or use of Morgan Stanley Research is subject to Morgan Stanley's Terms of Use (http://www.morganstanley.com/terms.html). Morgan Stanley Research does not provide individually tailored investment advice. Morgan Stanley Research has been prepared without regard to the circumstances and objectives of those who receive it. Morgan Stanley recommends that investors independently evaluate particular investments and strategies, and encourages investors to seek the advice of a financial adviser. The appropriateness of an investment or strategy will depend on an investor's circumstances and objectives. The securities, instruments, or strategies discussed in Morgan Stanley Research may not be suitable for all investors, and certain investors may not be eligible to purchase or participate in some or all of them. Morgan Stanley Research is not an offer to buy or sell or the solicitation of an offer to buy or sell any security/instrument or to participate in any particular trading strategy. The value of and income from your investments may vary because of changes in interest rates, foreign exchange rates, default rates, prepayment rates, securities/instruments prices, market indexes, operational or financial conditions of companies or other factors. There may be time limitations on the exercise of options or other rights in securities/instruments transactions. Past performance is not necessarily a guide to future performance. Estimates of future performance are based on assumptions that may not be realized. If provided, and unless otherwise stated, the closing price on the cover page is that of the primary exchange for the subject company's securities/instruments.

The fixed income research analysts, strategists or economists principally responsible for the preparation of Morgan Stanley Research have received compensation based upon various factors, including quality, accuracy and value of research, firm profitability or revenues (which include fixed income trading and capital markets profitability or revenues), client feedback and competitive factors. Fixed Income Research analysts', strategists' or economists' compensation is not linked to investment banking or capital markets transactions performed by Morgan Stanley or the profitability or revenues of particular trading desks.

The "Important Regulatory Disclosures on Subject Companies" section in Morgan Stanley Research lists all companies mentioned where Morgan Stanley owns 1% or more of a class of common equity securities of the companies. For all other companies mentioned in Morgan Stanley Research, Morgan Stanley may have an investment of less than 1% in securities/instruments or derivatives of securities/instruments of companies and may trade them in ways different from those discussed in Morgan Stanley Research. Employees of Morgan Stanley not involved in the preparation of Morgan Stanley Research may have investments in securities/instruments or derivatives of securities/instruments of companies mentioned and may trade them in ways different from those discussed in Morgan Stanley Research. Derivatives may be issued by Morgan Stanley or associated persons.

With the exception of information regarding Morgan Stanley, Morgan Stanley Research is based on public information. Morgan Stanley makes every effort to use reliable, comprehensive information, but we make no representation that it is accurate or complete. We have no obligation to tell you when opinions or information in Morgan Stanley Research change apart from when we intend to discontinue equity research coverage of a subject company. Facts and views presented in Morgan Stanley Research have not been reviewed by, and may not reflect information known to, professionals in other Morgan Stanley business areas, including investment banking personnel.

Morgan Stanley Research personnel may participate in company events such as site visits and are generally prohibited from accepting payment by the company of associated expenses unless pre-approved by authorized members of Research management.

Morgan Stanley may make investment decisions that are inconsistent with the recommendations or views in this report.

To our readers based in Taiwan or trading in Taiwan securities/instruments: Information on securities/instruments that trade in Taiwan is distributed by Morgan Stanley Taiwan Limited ("MSTL"). Such information is for your reference only. The reader should independently evaluate the investment risks and is solely responsible for their investment decisions. Morgan Stanley Research may not be distributed to the public media or quoted or used by the public media without the express written consent of Morgan Stanley. Any non-customer reader within the scope of Article 7-1 of the Taiwan Stock Exchange Recommendation Regulations accessing and/or receiving Morgan Stanley Research is not permitted to provide Morgan Stanley Research to any third party (including but not limited to related parties, affiliated companies and any other third parties) or engage in any activities regarding Morgan Stanley Research which may create or give the appearance of creating a conflict of interest. Information on securities/instruments that do not trade in Taiwan is for informational purposes only and is not to be construed as a recommendation or a solicitation to trade in such securities/instruments. MSTL may not execute transactions for clients in these securities/instruments.

12/28E	76.31	76.71	1	58.06

Intact 2027 outlook

All Ring's 2027 outlook is robust, supported by three key drivers. 1) We expect TSMC and ASE to continue accelerating **CoWoS** capacity expansion, with industry capacity reaching ~270kwpm by end-2027E, up from ~160kwpm by end-2026. We estimate TSMC and ASE's capacity could reach ~180kwpm and ~70kwpm, respectively, by 2027E. 2) Second, with **Intel's EMIB-T** progressing on track toward volume production by early 2028, we expect related equipment demand to begin ramping in 2027, providing a new growth driver for All Ring. 3) **CPO**'s fiber array unit (FAU) coupling tools start contributing to All Ring's 2027 revenue, with demand from Nvidia and AMD.

More concrete CPO development in 2027-28

Our industry feedback suggests Nvidia is taking the lead to aggressively push CPO mass production in 2027 for scale up switch solution. AMD is also engaging with key equipment suppliers, in preparation for competing CPO solution. Competition among the equipment vendors is fierce, but we believe All Ring is well positioned in FAU coupling as a tier 1 supplier, given the superior execution in driving higher tool throughput versus peers. Considering the meaningful tool demand in 2027-28, we forecast All Ring to recognize ~100 tools for revenue in 2027E, contributing ~12% of All Ring's sales next year. Potential upside to our current estimates could come from larger TAM for faster capacity expansion, All Ring securing higher share / ASP through better tool performance.

Lower Q3 gross margin due to mix

Q3 EPS came in below LSEG consensus by -10% as gross margin of 48.5% missed consensus of 54.2%. Lower gross margin could be due to a higher mix of automation products, which carries a lower margin vs corporate average. For Q4, considering lighter seasonality and current visibility, we model sales to decline by -28% from Q3 with gross margin of 53% and EPS of NT$7.57.

Valuation: Maintain Buy and target of $1700

Post Q3 results, we fine-tune 2026 EPS by -4% due to lower gross margin in the quarter, though our estimates for 2027/28 are largely kept unchanged. Our 2027E/2028E EPS are 3%/30% ahead of Consensus pre-earnings. We maintain our Buy rating and price target of $1700 based on 27x average 2027-28E PE.

Company Description

Founded in 1996, All Ring is a Taiwan-based supplier of automation equipment for the semiconductor back-end packaging and passive component manufacturing industries. The company's products include underfill dispensers, heatsink placement and automated optical inspection (AOI) tools for advanced packaging equipment, particularly for heterogeneous integration. Revenue is generated primarily from sales of semiconductor and electronic manufacturing equipment and related automation solutions, with more than 90% of revenue derived from Taiwan.

Valuation Method and Risk Statement

We value All Ring based on PE methodology.
Risks for All Ring and the semis industry:
- Geopolitical uncertainties: Geopolitical uncertainties including tariffs and more export control could negatively impact semis cycle, and a downturn would lead to slower demand in the overall market and moderating capacity expansion.
- Meaningful deceleration of new technology development: Slower demand and less investment are expected If there is meaningful deceleration of new technology development such as Cloud AI, autonomous driving, etc.
- Rising utility cost: Larger-than-expected utility cost increases would further pressure profitability. Rising utility costs in Taiwan have negatively impacted margins for Taiwan tech companies.
Company risks:
- Faster- or slower-than-expected CoWoS capacity expansion: This could result in All Ring gaining/losing equipment orders from major foundries and OSATs.
- Competitors achieving technological advancement: Potential risk of competition (from either local or foreign companies) achieving technological advancements could result in All Ring losing market share from major foundries and OSATs.
- Better- or worse-than-expected AI growth: Better- or worse-than-expected AI growth could lead to a ramp-up or a slowdown of equipment orders from major foundries and OSATs to All Ring, affecting long-term revenue growth potential.
- Slowdown or delay of new technological advancement: A potential slowdown or delay of the rollout for technological advancements for technologies such as SoIC, CoPoS, and CPO, would limit future equipment orders.
- Increase of raw material costs: Rising raw material costs may directly impact All Ring's margins for equipment shipments.

Quantitative Research Review

UBS Global Research publishes a quantitative assessment of its analysts' responses to certain questions about the likelihood of an occurrence of a number of short term factors in a product known as the 'Quantitative Research Review'. The views for this month can be found below. Views contained in this assessment on a particular stock reflect only the views on those short term factors which are a different timeframe to the 12-month timeframe reflected in any equity rating set out in this note. For previous responses please make reference to (i) previous UBS Global Research reports; and (ii) where no applicable research report was published that month, the Quantitative Research Review which can be found at https://neo.ubs.com/quantitative, or contact your UBS sales representative for access to the report or the Quantitative Research Team on ubs-quant-answers@ubs.com. A consolidated report which contains all responses is also available and again you should contact your UBS sales representative for details and pricing or the Quantitative Research Team on the email above.

All Ring Tech

Question	Response
1. Is the industry structure facing the firm likely to improve or deteriorate over the next six months? Rate on a scale of 1-5 (1 = getting worse, 3 = no change, 5 = getting better, N/A = no view)	4
2. Is the regulatory/government environment facing the firm likely to improve or deteriorate over the next six months? Rate on a scale of 1-5 (1 = getting tougher 3 = no change, 5 = getting better, N/A = no view)	3
3. Over the last 3-6 months in broad terms have things been improving/no change/getting worse for this stock? Rate on a scale of 1-5 (1 = getting a lot worse, 3 = not much change, 5 = getting a lot better, N/A = no view)	4
4. Relative to the current CONSENSUS EPS forecast, is the next company EPS update likely to lead to: (1 = negative surprise vs consensus, 3 = in-line with consensus, 5 = positive surprise vs consensus expectations, N/A = no view)	3
5. What's driving the difference?	
6. Relative to YOUR current earnings forecast, is there relatively greater risk at the next earnings result of:(1 = downside skew risk to earnings, 3 = equal upside or downside risk to earnings, 5 = upside skew risk to earnings, N/A = no view)	3
7. What's driving the difference?	
8. Is there an upcoming catalyst for the company over the next three months?	
9. Is there an actual or approximate date for the catalyst?	
10. Is the catalyst date an actual or approximate date?	
11. What is the catalyst?	

Required Disclosures

This document has been prepared by UBS Securities Pte. Ltd., Taipei Branch, an affiliate of UBS AG. UBS AG, its subsidiaries, branches and affiliates, including former Credit Suisse AG and its subsidiaries, branches and affiliates are referred to herein as "UBS".

For information on how UBS manages conflicts and maintains the independence of its UBS Global Research product; historical performance information; certain additional disclosures concerning UBS Global Research recommendations; and terms and conditions for certain third party data used in research report, please visit https://www.ubs.com/disclosures. Unless otherwise indicated, information and data in this report are based on company disclosures including annual, interim and quarterly reports and other company announcements. Figures in performance charts refer to the past; past performance is not a reliable indicator of future results. Additional information will be made available on request. UBS Securities Co. Limited is licensed by the China Securities Regulatory Commission to conduct securities investment consultancy businesses. UBS acts or may act as principal in the debt securities (or in related derivatives) that may be the subject of this report. This recommendation was finalized on: 10 November 2026 12:21 PM GMT. UBS has designated certain UBS Global Research department members as Derivatives Research Analysts where they publish research principally on the analysis of the price or market for a derivative, and provide information reasonably sufficient on which to base a decision to enter into a derivatives transaction. Where Derivatives Research Analysts co-author research reports with Equity Research Analysts or Economists, the Derivatives Research Analyst is responsible for the derivatives investment views, forecasts, and/or recommendations. **Quantitative Research Review:** UBS Global Research publishes a quantitative assessment of its analysts' responses to certain questions about the likelihood of a number of short term factors occurring, in a product known as the 'Quantitative Research Review'. Views in this assessment on a particular stock reflect only those short term factors and a timeframe different to the 12-month timeframe reflected in any equity rating set out in this document. For the latest responses, please see the Quantitative Research Review Addendum at the back of this document, where applicable. For previous responses, please refer to: (i) previous UBS Global Research reports and (ii) where no applicable research report was published that month, the Quantitative Research Review at https://neo.ubs.com/quantitative, or contact your UBS sales representative for access to the report or the Quantitative Research Team at ubs-quant-answers@ubs.com. A consolidated report containing all responses is also available; for details and pricing, please contact your UBS sales representative or the Quantitative Research team at the above email.

Analyst Certification:
Each research analyst primarily responsible for the content of this research report, in whole or in part, certifies that, with respect to each security or issuer that the analyst covered in this report: (1) all views expressed accurately reflect their personal views about those securities or issuers and were prepared independently, including with respect to UBS, and (2) no part of their compensation was, is, or will be, directly or indirectly, related to the specific recommendations or views expressed by that research analyst in the research report.

UBS Global Research: Global Equity Rating Definitions

12-Month Rating	Definition	Coverage[1]	IB Services[2]
Buy	FSR is > 6% above the MRA.	55%	24%
Neutral	FSR is between -6% and 6% of the MRA.	39%	20%
Sell	FSR is > 6% below the MRA.	6%	21%

Source: UBS. Rating allocations are as of 30 September 2026.
1:Percentage of companies under coverage globally within the 12-month rating category.
2:Percentage of companies within the 12-month rating category for which investment banking (IB) services were provided within the past 12 months.

KEY DEFINITIONS:Forecast Stock Return (FSR) is expected percentage price appreciation plus gross dividend yield over the next 12 months. In some cases, this yield may be based on accrued dividends. **Market Return Assumption (MRA)** is the one-year local market interest rate plus 5% (a proxy for, and not a forecast of, the equity risk premium). **Under Review (UR)** Stocks may be flagged by the analyst to indicate that the stock's price target and/or rating may change in the near term, usually in response to an event that may affect the investment case or valuation. **Equity Price Targets** have a 12-month investment horizon.

EXCEPTIONS AND SPECIAL CASES:UK and European Investment Fund ratings and definitions are: Buy: Positive on factors such as structure, management, performance record and discount; **Neutral:** Neutral on factors such as structure, management, performance record and discount; **Sell:** Negative on factors such as structure, management, performance record and discount. **Core Banding Exceptions (CBE):** Exceptions to the standard +/-6% bands may be granted by the Investment Review Consultation (IRC). Factors considered by the IRC include the stock's volatility and the credit spread of the respective company's debt. As a result, stocks deemed very high or low risk may be subject to higher or lower bands for rating purposes. Where such exceptions apply, they will be identified in the Company Disclosures table in the relevant research piece.

Research analysts contributing to this report who are employed by a non-US affiliate of UBS Securities LLC are not registered or qualified as research analysts with FINRA. Such analysts may not be associated persons of UBS Securities LLC and therefore are not subject to FINRA restrictions on communications with a subject company, public appearances, and trading securities held by a research analyst account. The name of each affiliate and analyst employed by that affiliate contributing to this report, if any, follows.

UBS Securities Pte. Ltd., Taipei Branch: Christine Chen, CFA, Ryan Sun, Sunny Lin.

UBS Global Research Disclaimer

This document has been prepared by UBS Securities Pte. Ltd., Taipei Branch, an affiliate of UBS AG. UBS AG, its subsidiaries, branches and affiliates, including former Credit Suisse AG and its subsidiaries, branches and affiliates are referred to herein as "UBS".

Any opinions in this document may change without notice and are current only as of the publication date. Different areas, groups, and personnel within UBS may independently produce and distribute separate research products. For example, research publications from **UBS CIO** are produced by UBS Global Wealth Management. **UBS Global Research** is produced by UBS Investment Bank. Each research organization may use different methodologies and rating systems, including investment recommendations, investment horizon, model assumptions, and valuation methods. Accordingly, except for certain economic forecasts on which UBS CIO and UBS Global Research may collaborate, investment recommendations, ratings, price targets, and valuations from those research organizations may differ or be inconsistent. You should refer to each relevant research product for details of its methodology and rating system. Not all clients may have access to all products from every organization. Each research product is subject to the policies and procedures of the organization that produces it.

UBS Global Research is primarily intended for institutional/professional/wholesale clients, and not for retail clients or private individuals (excluding via any UBS approved distribution channel for such clients), as defined under the governing law and regulation of the relevant client jurisdiction.

This document is provided solely to recipients who are expressly authorized by UBS to receive it. If you are not so authorized you must immediately destroy it.

UBS Global Research is provided to our clients through UBS Neo and, in certain instances, UBS.com and any other system or distribution method specifically identified in one or more communications distributed through UBS Neo or UBS.com (each, a "System") as an approved means of distributing UBS Global Research. It may also be made available through third party vendors and distributed by UBS and/or third parties by e-mail or other electronic means.

All UBS Global Research is available on UBS Neo. Please contact your UBS sales representative if you wish to discuss access to UBS Neo. Where UBS Global Research refers to "UBS Evidence Lab Inside" or uses data provided by UBS Evidence Lab, and you would like access to that data, please contact your UBS sales representative. UBS Evidence Lab data is available on UBS Neo. The level and types of services provided by UBS Global Research and UBS Evidence Lab to a client may vary depending on factors including a client's preferences as to the frequency and manner of receiving communications, risk profile, and investment focus and perspective (e.g., market wide, sector specific, long-term, short-term), the size and scope of the overall client relationship with UBS Global Research and UBS Evidence Lab, and legal and regulatory constraints. UBS HOLT and UBS Pharma Values are offerings of UBS Global Research. HOLT Lens is a corporate performance platform offering that provides an objective accounting-led framework for comparing and valuing companies and is available to clients of UBS Global Research; for details and pricing, please contact your UBS Sales representative. In particular, HOLT has a variety of warranted prices based on the scenario chosen; if you are interested in the warranted price for a particular company, please mail UBS Securities LLC, 11 Madison Avenue, New York, NY 10010, USA, Attention: Investment Research, subject again to commercial considerations. UBS Pharma Values is an analytical tool involving individual product net present value calculations based on published forecasts of pharmaceutical sales, and is available to clients of UBS Global Research; for details and pricing, please contact your UBS Sales representative. For all other specific disclaimers, please see https://www.ubs.com/disclosures.

When you receive UBS Global Research through a System, your access to and/or use of it is subject to this UBS Global Research Disclaimer, the UBS Neo Platform Use Agreement (the "Neo Terms"), and any other relevant terms of use governing the applicable System.

When you receive UBS Global Research via a third party vendor, e-mail or other electronic means, you agree that use shall be subject to this UBS Global Research Disclaimer, the Neo Terms and where applicable the UBS Investment Bank terms of business (https://www.ubs.com/global/en/investment-bank/regulatory.html) and to UBS's Terms of Use/ Disclaimer (https://www.ubs.com/global/en/legalinfo2/disclaimer.html). In addition, you consent to UBS processing your personal data and using cookies in accordance with our Privacy Statement (https://www.ubs.com/global/en/legalinfo2/privacy.html) and Cookie Notice (https://www.ubs.com/global/en/legal/privacy/users.html).

If you receive UBS Global Research, whether through a System or otherwise, you agree not to copy, revise, amend, create derivative works, provide to any third party, or in any way commercially exploit any UBS research provided via UBS Global Research or otherwise, and not to extract data from any research or estimates provided to you via UBS Global Research or otherwise, without UBS's prior written consent. You also agree not to use UBS Global Research in any artificial intelligence system without UBS's prior written consent.

In certain circumstances, you may receive UBS Global Research other than in your capacity as a UBS client and, you understand and agree that in those circumstances: (i) UBS Global Research is provided to you for information purposes only; (ii) for the purpose of receiving it, you are not intended to be and will not be treated as a "client" of UBS for any legal or regulatory purpose; (iii) UBS Global Research must not be relied on or acted upon for any purpose; and (iv) such content is subject to the relevant disclaimers that follow.

This document may be distributed only as permitted by law. It is not directed to, or intended for distribution to or use by, any person or entity that is a citizen or resident of, or located in, any locality, state, country or other jurisdiction where such distribution, publication, availability or use would be contrary to law or regulation or would subject UBS to any registration or licensing requirement in that jurisdiction.

This document is a general communication and educational in nature; it is not an advertisement, solicitation or offer to buy or sell any financial instrument or to participate in any particular trading strategy. Nothing in this document constitutes a representation that any investment strategy or recommendation is suitable or appropriate to an investor's individual circumstances or otherwise constitutes a personal recommendation. By providing this document, neither UBS nor its representatives has any responsibility or authority to provide, or to have provided, investment advice in a fiduciary or any other capacity. Investments involve risks, and investors should exercise prudence and their own judgment in making investment decisions. Neither UBS nor its representatives is suggesting that the recipient or any other person take a specific course of action, or any action at all. The recipient should read this document carefully and in full and not draw inferences or conclusions from the rating alone. By receiving this document, the recipient acknowledges and agrees with the intended purpose described above and further disclaims any expectation or belief that the information constitutes investment advice to the recipient or otherwise purports to meet the recipient's investment objectives. The financial instruments described in this document may not be eligible for sale in all jurisdictions or to certain categories of investors.

Options, structured derivative products and futures (including OTC derivatives) are not suitable for all investors. Trading in these instruments is risky and may be appropriate only for sophisticated investors. Before buying or selling an option, you must receive a copy of "The Characteristics and Risks of Standardized Options" for a full description of options risks. You may read it at https://www.theocc.com/publications/risks/riskchap1.jsp or ask your salesperson for a copy. Various theoretical explanations of the risks of these instruments have been published. Supporting documentation for any claims, comparisons, recommendations, statistics or other technical data will be supplied on request. Past performance is not necessarily indicative of future results. Transaction costs may be significant in option strategies involving multiple purchases and sales, such as spreads and straddles. As tax considerations are important to many options transactions, investors considering options should consult their tax advisor on how taxes affect the outcome of contemplated options transactions.

Mortgage- and asset-backed securities may involve a high degree of risk and be highly volatile in response to interest rate fluctuations or other market conditions. Foreign currency exchange rates may adversely affect the value, price or income of any security or related instrument referred to in this document. For investment advice, trade execution or other inquiries, clients should contact their local sales representative.

UBS notes that no globally accepted framework or definition (legal, regulatory or otherwise) currently exists, and there is no market consensus, as to what constitutes "ESG" (Environmental, Social or Governance) or an equivalent label, or what precise attributes are required for the Information (as defined below) to be defined as ESG or equivalently labelled. Any information, data or other content, including from third party sources, contained or referred to herein or used by UBS or a third party for any purpose ("Information"), in relation to any actual or potential ESG objective, issue or consideration, is not intended to be relied upon for ESG classification, regulatory regime or industry initiative purposes ("ESG Regimes"). Nothing in this document is intended to convey, suggest or indicate that UBS considers or represents any product, service, person or body mentioned in it to meet or qualify for any ESG classification, labelling or similar standards that may exist under ESG Regimes. UBS has not assessed compliance with ESG Regimes. Parties should make their own assessments for these purposes.

The value of any investment or income may go down as well as up, and investors may not get back the full (or any) amount invested. Past performance is not necessarily a guide to future performance. Neither UBS nor any of its directors, employees or agents accepts liability for any loss (including investment loss) or damage arising out of the use of any of the Information.

Before making any investment or financial decision, any recipient of this document or the information should take steps to understand the investment's risk and return and seek individualized advice from their personal financial, legal, tax and other professional advisors, taking into account all relevant facts and circumstances of their investment objectives.

Any prices stated in this document are for information purposes only and do not represent valuations of individual securities or other financial instruments. There is no representation that any transaction can or could have been effected at those prices. They do not necessarily reflect UBS's internal books and records or theoretical model-based valuations and may be based on certain assumptions. Different assumptions by UBS or any other source may yield substantially different results.

No representation or warranty, express or implied, is given as to the accuracy, completeness or reliability of the information contained in any materials to which this document relates (the "Information"), except with respect to Information concerning UBS. The Information is not intended to be a complete statement or summary of the securities, markets or developments referred to in this document. UBS does not undertake to update or keep current the Information. Any statements contained in this document attributed to a third party represent UBS's interpretation of data, information and/or opinions provided by that third party,

publicly or through a subscription service, and such use and interpretation have not been reviewed by that third party. In no circumstances may this document or any Information, including any forecast, value, index or other calculated amount ("Values"), be used for: (i) valuation or accounting purposes; (ii) determining amounts due or payable, or the price or value of any financial instrument or financial contract; or (iii) measuring the performance of any financial instrument, including without limitation tracking the return or performance of any Value, defining the asset allocation of a portfolio or computing performance fees.

By receiving this document and the Information you will be deemed to represent and warrant to UBS that you will not use this document or any of the Information for any of those purposes or otherwise rely upon this document or any of the Information.

UBS has policies and procedures, including without limitation independence policies and permanent information barriers, intended, and relied on by UBS, to manage potential conflicts of interest and control the flow of information within UBS divisions and among its subsidiaries, branches and affiliates. UBS does and seeks to do business with companies covered in its research documents. As a result, investors should be aware that UBS may have a conflict of interest that could affect this document's objectivity. Investors should consider this document as only one factor in making an investment decision. For further information on how UBS Global Research manages conflicts and maintains the independence of its research products, historical performance information and certain additional disclosures concerning UBS Global Research recommendations, please visit https://www.ubs.com/disclosures.

UBS Global Research will initiate, update and cease coverage solely at the discretion of UBS Global Research Management, which also has sole discretion over the timing and frequency of any published research product. The analysis in this document is based on numerous assumptions. All material information relating to published research documents, such as valuation methodology, risk statements, underlying assumptions (including sensitivity analysis of those assumptions), ratings history and other information required by the Market Abuse Regulation, can be found on UBS Neo. Different assumptions could produce materially different results.

UBS Global Research may use artificial intelligence tools in the preparation of this document. Notwithstanding any such use, this document has undergone human review.

The analyst(s) responsible for preparing this document may interact with trading desk personnel, sales personnel and other parties to gather, apply and interpret market information. UBS relies on information barriers to control the flow of information from one or more areas within UBS to other areas, units, groups or affiliates. Compensation of the analyst(s) who prepared this document is determined exclusively by UBS Global Research management and senior management (excluding investment banking). It is not based on investment banking revenues; however, it may relate to the revenues of UBS and/or its divisions as a whole, including investment banking, sales and trading, and UBS as a whole.

For financial instruments admitted to trading on an EU regulated market: UBS (excluding UBS Securities LLC) acts as a market maker or liquidity provider (as those terms are interpreted under English law or, if the activity is not carried out by UBS in the UK, under the law of the relevant jurisdiction in which UBS determines it carries out the activity) in the issuer's financial instruments, except where liquidity provider activity is carried out in accordance with the definition under the laws and regulations of another EU jurisdiction, in which case it is separately disclosed in this document. For financial instruments admitted to trading on a non-EU regulated market: UBS may act as a market maker, except where that activity is carried out in the US in accordance with the definition under applicable laws and regulations, in which case it will be specifically disclosed in this document. UBS may have issued a warrant whose value is based on one or more financial instruments referred to in this document. UBS and its affiliates and employees may have long or short positions, trade as principal, and buy and sell instruments or derivatives identified herein; such transactions or positions may be inconsistent with the opinions expressed in this document.

Within the past 12 months, UBS may have received or provided investment services and activities or ancillary services under MiFID II that may have given rise to a payment or promise of payment in relation to those services from or to this company.

Please note that all transactions conducted by UBS are consistent with sanctions imposed by Switzerland, the European Union, the United Nations, the United Kingdom and the United States, in accordance with UBS's global sanctions policy. UBS's opinions as to future investment worthiness assume no new sanctions are imposed.

US persons are prohibited from purchasing or selling securities of certain companies designated as associated with the Chinese Military in accordance with amended US Presidential Executive Order 13959.

United Kingdom: Distributed by UBS AG, London Branch to eligible counterparties or professional clients. UBS AG, London Branch is authorised by the Prudential Regulation Authority ("PRA") and subject to regulation by the Financial Conduct Authority (FCA) and limited regulation by the PRA. **Europe:** Except as otherwise specified, distributed by UBS Europe SE, a subsidiary of UBS AG, to eligible counterparties or professional clients (as defined under the Bundesanstalt fur Finanzdienstleistungsaufsicht ("BaFin") Rules and MIFID II) and are available only to such persons. The information in this document does not apply to, and should not be relied on by, retail clients. UBS Europe SE is authorised by the European Central Bank ("ECB") and regulated by BaFin and the ECB. **Germany, Luxembourg, the Netherlands, Belgium and Ireland:** Where an analyst of UBS Europe SE has contributed to this document, it is also deemed to have been prepared by UBS Europe SE. In all cases, it is distributed by UBS Europe SE and UBS AG, London Branch. **Turkey:** Distributed by UBS AG, London Branch. No information in this document is provided for offering, marketing or sale by any means of any capital market instruments or services in the Republic of Turkey. Therefore, this document may not be considered an offer made or to be made to residents of the Republic of Turkey. UBS AG, London Branch is not licensed by the Turkish Capital Market Board under the Capital Market Law (Law No. 6362). Accordingly, neither this document nor any other offering material related to the instruments/services may be used in connection with providing capital market services to persons within the Republic of Turkey without the prior approval of the Capital Market Board. However, under article 15(d)(ii) of Decree No. 32, there is no restriction on the purchase or sale of securities abroad by residents of the Republic of Turkey. **Poland:** Distributed by UBS Europe SE (spolka z ograniczona odpowiedzialnoscia) Oddzial w Polsce ("UBS Poland"). Where an analyst of UBS Poland has contributed to this document, the document is also deemed to have been prepared by UBS Poland. **Russia:** Prepared and distributed by UBS Bank (OOO). It should not be construed as an individual Investment Recommendation for the purposes of articles 6.1 and 6.2 of Russian Federal Law No. 39-FZ "On the Securities Market". **Switzerland:** Distributed by UBS AG to institutional investors only. UBS AG is regulated by the Swiss Financial Market Supervisory Authority (FINMA). **Italy:** Prepared by UBS Europe SE and distributed by UBS Europe SE and UBS Europe SE, Italy Branch. Where an analyst of UBS Europe SE, Italy Branch has contributed to this document, it is also deemed to have been prepared by UBS Europe SE, Italy Branch. **France:** Prepared by UBS Europe SE and distributed by UBS Europe SE and UBS Europe SE, France Branch. Where an analyst of UBS Europe SE, France Branch has contributed to this document, it is also deemed to have been prepared by UBS Europe SE, France Branch. **Spain:** Prepared by UBS Europe SE and distributed by UBS Europe SE and UBS Europe SE, Spain Branch. Where an analyst of UBS Europe SE, Spain Branch has contributed to this document, it is also deemed to have been prepared by UBS Europe SE, Spain Branch. **Sweden:** Prepared by UBS Europe SE and distributed by UBS Europe SE and UBS Europe SE, Sweden Branch. Where an analyst of UBS Europe SE, Sweden Branch has contributed to this document, it is also deemed to have been prepared by UBS Europe SE, Sweden Branch. **South Africa:** Distributed by UBS South Africa (Pty) Limited (Registration No. 1995/011140/07), an authorised user of the JSE and an authorised Financial Services Provider (FSP 7328). **Saudi Arabia:** This document has been issued by UBS AG (and/or any of its subsidiaries, branches or affiliates), a public company limited by shares, incorporated in Switzerland with its registered offices at Aeschenvorstadt 1, CH-4051 Basel and Bahnhofstrasse 45, CH-8001 Zurich. This publication has been approved by UBS Saudi Arabia (a subsidiary of UBS AG), a Saudi closed joint stock company incorporated in the Kingdom of Saudi Arabia under commercial register number 1010257812 having its registered office at Tatweer Towers, P.O. Box 75724, Riyadh 11588, Kingdom of Saudi Arabia. UBS Saudi Arabia is authorized and regulated by the Capital Market Authority to conduct securities business under license number 08113-37. **UAE / Dubai:** Information distributed by UBS AG Dubai Branch is only intended for Professional Clients and/or Market Counterparties as classified under the DFSA rulebook. No other person should act on this document/communication. The information is not for further distribution within the United Arab Emirates. UBS AG Dubai Branch is regulated by the DFSA in the DIFC. UBS is not licensed to provide banking services in the UAE, nor by the UAE Securities and Commodities Authority. **Israel:** This document is distributed by UBS AG, London Branch. UBS Securities Israel Ltd is a licensed Investment Marketer supervised by the Israel Securities Authority (ISA). UBS AG, London Branch and its affiliates incorporated outside Israel are not licensed under the Israeli Advisory Law. UBS may engage among others in issuance of Financial Assets or distribution of Financial Assets of other issuers for fees or other benefits. UBS AG, London Branch and its affiliates may prefer various Financial Assets to which they have or may have an Affiliation (as defined under the Israeli Advisory Law). Nothing in this document should be considered investment advice under the Israeli Advisory Law. This document is only issued to and/or directed at persons who are Eligible Clients (within the meaning of the Israeli Advisory Law), and must not be furnished to, relied on or acted upon by any other person. **United States:** Distributed to US persons by UBS Securities LLC or UBS Financial Services Inc., subsidiaries of UBS AG, or by a group, subsidiary or affiliate of UBS AG not registered as a US broker-dealer (a "non-US affiliate") to major US institutional investors only. UBS Securities LLC or UBS Financial Services Inc. accepts responsibility for the content of a report prepared by another non-US affiliate when distributed to US persons by UBS Securities LLC or UBS Financial Services Inc. All transactions by a US person in the securities mentioned in this document must be effected through UBS Securities LLC or UBS Financial Services Inc., and not through a non-US affiliate. UBS Securities LLC is not acting as a municipal advisor to any municipal entity or obligated person within the meaning of Section 15B of the Securities Exchange Act (the "Municipal Advisor Rule"), and the opinions or views contained herein are not intended to be, and do not constitute, advice within the meaning of that rule. **Canada:** Distributed by UBS Securities Canada Inc., a registered investment dealer in Canada and a Member-Canadian Investor Protection Fund, or by another affiliate of UBS AG registered to conduct business in Canada or otherwise exempt from registration. **Brazil:** Except as otherwise specified herein, this document is prepared by UBS BB Corretora de Câmbio, Títulos e Valores Mobiliários S.A. ("UBS BB CCTVM") for eligible investors residing in Brazil who are considered Professional Investors (Investidores Profissionais) under applicable regulation, primarily CVM Resolution No. 30 of 11 May 2021 (which determines the duty to verify the suitability of products, services and transactions to the client's profile). UBS BB CCTVM is a subsidiary of UBS BB Servicos de Assessoria Financeira e Participacoes S.A. ("UBS BB"). UBS BB is an association between UBS AG and Banco do Brasil (through its subsidiary BB Banco de Investimentos S.A.), of which UBS AG is the majority owner, and provides investment banking services and coverage in Brazil, Argentina, Chile, Paraguay, Peru and Uruguay. UBS BB CCTVM is regulated by the Comissao de Valores Mobiliarios (CVM) and the Central Bank of Brazil. Ombudsman: 0800-940-0266 / https://www.ubs.com/br/pt/ubsbb-investment-bank/ombudsman.html**Hong Kong:** Distributed by UBS Securities Asia Limited. Please contact local licensed persons of UBS Securities Asia Limited in respect of any matters arising from, or in connection with, the analysis or document. **Singapore:** Distributed by UBS Securities Pte. Ltd. (Co. Reg. No.: 198500648C] or UBS AG, Singapore Branch. Please contact UBS Securities Pte. Ltd., an exempt

financial adviser under the Singapore Financial Advisers Act (Cap. 110), or UBS AG, Singapore Branch, an exempt financial adviser under the Singapore Financial Advisers Act (Cap. 110) and a wholesale bank licensed under the Singapore Banking Act (Cap. 19) and regulated by the Monetary Authority of Singapore, regarding any matters arising from, or in connection with, the analysis or document. Recipients of this document represent and warrant that they are accredited and institutional investors as defined in the Securities and Futures Act (Cap. 289). **Japan:** Distributed by UBS Securities Japan Co., Ltd. to professional investors (except as otherwise permitted). Where this document has been prepared by UBS Securities Japan Co., Ltd., UBS Securities Japan Co., Ltd. is the author, publisher and distributor of the document. Distributed by UBS AG, Tokyo Branch to professional investors (except as otherwise permitted) in relation to foreign exchange and other banking businesses, where relevant. **Australia:** Recipients through a superannuation fund: Distributed by UBS AG, Australia Branch (ABN 47 088 129 613 and holder of Australian Financial Service Licence No. 231087). For all other recipients: Distributed by UBS Securities Australia Limited (ABN 62 008 586 481 and holder of Australian Financial Services Licence No. 231098). This document contains general information and/or general advice only and does not constitute personal financial product advice. As such, the Information in this document has been prepared without taking into account any investor's objectives, financial situation or needs, and investors should, before acting on the Information, consider the appropriateness of the Information, having regard to their objectives, financial situation and needs. If the Information contained in this document relates to the acquisition, or potential acquisition of a particular financial product by a 'Retail' client as defined by section 761G of the Corporations Act 2001 where a Product Disclosure Statement would be required, the retail client should obtain and consider the Product Disclosure Statement relating to the product before making any decision about whether to acquire the product. **New Zealand:** Distributed by UBS New Zealand Ltd. UBS New Zealand Ltd is not a registered bank in New Zealand. You are being provided with this document because you have indicated to UBS that you are a "wholesale client" within the meaning of clause 4 of schedule 5 of the Financial Markets Conduct Act 2013 of New Zealand ("Permitted Client"). This document is not intended for clients who are not Permitted Clients ("non-Permitted Clients"). If you are a non-Permitted Client, you must not rely on this document. If, despite this warning, you nevertheless rely on it, you hereby: (i) acknowledge that you may not rely on its content and that any recommendations or opinions in it are not made or provided to you; and (ii) to the maximum extent permitted by law, (a) indemnify UBS and its associates or related entities (and their respective directors, officers, agents and advisors) (each a "Relevant Person") for any loss, damage, liability or claim any of them may incur or suffer as a result of, or in connection with, your unauthorised reliance on this document, and (b) waive any rights or remedies you may have against any Relevant Person for any loss, damage, liability or claim you may incur or suffer as a result of, or in connection with, your unauthorised reliance on this publication or document. **Korea:** Distributed in Korea by UBS Securities Pte. Ltd., Seoul Branch. This document may from time to time have been edited or contributed to by affiliates of UBS Securities Pte. Ltd., Seoul Branch. This document is intended for professional/institutional clients only and not for distribution to any retail clients. **Malaysia:** This document is authorized for distribution in Malaysia by UBS Securities Malaysia Sdn. Bhd (Capital Markets Services License No.: CMSL/A0063/2007). Global Wealth Management Disclaimer

You receive this document in your capacity as a client of UBS Global Wealth Management. This publication has been distributed to you by UBS Switzerland AG (regulated by FINMA in Switzerland) or its affiliates (**"UBS"**) with whom you have a banking relationship with. The full name of the distributing affiliate and its competent authority can be found in the country-specific disclaimer at the end of this document. UBS may utilise artificial intelligence tools ("AI Tools") in the preparation of this document. Notwithstanding any such use of AI Tools, this document has undergone human review.

The date and time of the first dissemination of this publication is the same as the date and time of its publication.

Risk information:

You agree that you shall not copy, revise, amend, create a derivative work, provide to any third party, or in any way commercially exploit any UBS research, and that you shall not extract data from any research or estimates, without the prior written consent of UBS.

This document is for distribution only as may be permitted by law. It is not directed to, or intended for distribution to or use by, any person or entity who is a citizen or resident of or located in any locality, state, country or other jurisdiction where such distribution, publication, availability or use would be contrary to law or regulation or would subject UBS to any registration or licensing requirement within such jurisdiction.

This document is **for your information only**; it is not an advertisement nor is it a solicitation or an offer to buy or sell any financial instruments or to participate in any particular trading strategy. Nothing in this document constitutes a representation that any investment strategy or recommendation is suitable or appropriate to an investor's individual circumstances or otherwise constitutes a personal recommendation. By providing this document, none of UBS or its representatives has any responsibility or authority to provide or have provided investment advice in a fiduciary capacity or otherwise. Investments involve risks, and investors should exercise prudence and their own judgment in making their investment decisions. None of UBS or its representatives is suggesting that the recipient or any other person take a specific course of action or any action at all. By receiving this document, the recipient acknowledges and agrees with the intended purpose described above and further disclaims any expectation or belief that the information constitutes investment advice to the recipient or otherwise purports to meet the investment objectives of the recipient. The financial instruments described in the document may not be eligible for sale in all jurisdictions or to certain categories of investors.

Options, derivative products and futures are not suitable for all investors, and trading in these instruments is considered risky. Mortgage and asset-backed securities may involve a high degree of risk and may be highly volatile in response to fluctuations in interest rates or other market conditions. Foreign currency rates of exchange may adversely affect the value, price or income of any security or related instrument referred to in the document. For investment advice, trade execution or other enquiries, clients should contact their local sales representative.

The value of any investment or income may go down as well as up, and investors may not get back the full (or any) amount invested. Past performance is not necessarily a guide to future performance. Neither UBS nor any of its directors, employees or agents accepts any liability for any loss (including investment loss) or damage arising out of the use of all or any of the information (as defined below).

Prior to making any investment or financial decisions, any recipient of this document or the information should take steps to understand the risk and return of the investment and seek individualized advice from his or her personal financial, legal, tax and other professional advisors that takes into account all the particular facts and circumstances of his or her investment objectives.

Any prices stated in this document are for information purposes only and do not represent valuations for individual securities or other financial instruments. There is no representation that any transaction can or could have been effected at those prices, and any prices do not necessarily reflect UBS's internal books and records or theoretical

model-based valuations and may be based on certain assumptions. Different assumptions by UBS or any other source may yield substantially different results.

No representation or warranty, either expressed or implied, is provided in relation to the accuracy, completeness or reliability of the information contained in any materials to which this document relates (the "Information"), except with respect to Information concerning UBS. The Information is not intended to be a complete statement or summary of the securities, markets or developments referred to in the document. UBS does not undertake to update or keep current the Information. Any opinions expressed in this document may change without notice and may differ or be contrary to opinions expressed by other business areas or groups, personnel or other representative of UBS. Any statements contained in this report attributed to a third party represent UBS's interpretation of the data, information and/or opinions provided by that third party either publicly or through a subscription service, and such use and interpretation have not been reviewed by the third party. In no circumstances may this document or any of the Information (including any forecast, value, index or other calculated amount ("Values")) be used for any of the following purposes: (i) valuation or accounting purposes; (ii) to determine the amounts due or payable, the price or the value of any financial instrument or financial contract; or (iii) to measure the performance of any financial instrument including, without limitation, for the purpose of tracking the return or performance of any Value or of defining the asset allocation of portfolio or of computing performance fees.

By receiving this document and the Information you will be deemed to represent and warrant to UBS that you will not use this document or any of the Information for any of the above purposes or otherwise rely upon this document or any of the Information.

UBS has policies and procedures, which include, without limitation, independence policies and permanent information barriers, that are intended, and upon which UBS relies, to manage potential conflicts of interest and control the flow of information within divisions of UBS (including between Global Wealth Management and UBS Global Research) and among its subsidiaries, branches and affiliates. For further information on the ways in which UBS manages conflicts and maintains independence of its research products, historical performance information and certain additional disclosures concerning UBS research recommendations, please visit https://www.ubs.com/research-methodology.

Research will initiate, update and cease coverage solely at the discretion of research management, which will also have sole discretion on the timing and frequency of any published research product. The analysis contained in this document is based on numerous assumptions. Different assumptions could result in materially different results.

The analyst(s) responsible for the preparation of this document may interact with trading desk personnel, sales personnel and other parties for the purpose of gathering, applying and interpreting market information. UBS relies on information barriers to control the flow of information contained in one or more areas within UBS into other areas, units, groups or affiliates of UBS. The compensation of the analyst who prepared this document is determined exclusively by research management and senior management (not including investment banking). Analyst compensation is not based on investment banking revenues; however, compensation may relate to the revenues of UBS and/or its divisions as a whole, of which investment banking, sales and trading are a part, and UBS's subsidiaries, branches and affiliates as a whole.

For financial instruments admitted to trading on an EU regulated market: UBS AG, its affiliates or subsidiaries (excluding UBS Securities LLC) acts as a market maker or liquidity provider (in accordance with the interpretation of these terms in the UK) in the financial instruments of the issuer save that where the activity of liquidity provider is carried out in accordance with the definition given to it by the laws and regulations of any other EU jurisdictions, such information is separately disclosed in this document. For financial instruments admitted to trading on a non-EU regulated market: UBS may act as a market maker save that where this activity is carried out in the US in accordance with the definition given to it by the relevant laws and regulations, such activity will be specifically disclosed in this document. UBS may have issued a warrant the value of which is based on one or more of the financial instruments referred to in the document. UBS and its affiliates and employees may have long or short positions, trade as principal and buy and sell in instruments or derivatives identified herein; such transactions or positions may be inconsistent with the opinions expressed in this document.

Options and futures are not suitable for all investors, and trading in these instruments is considered risky and may be appropriate only for sophisticated investors. Prior to buying or selling an option, and for the complete risks relating to options, you must receive a copy of "Characteristics and Risks of Standardized Options". You may read the document at https://www.theocc.com/about/publications/character-risks.jsp or ask your financial advisor for a copy.

Investing in structured investments involves significant risks. For a detailed discussion of the risks involved in investing in any particular structured investment, you must read the relevant offering materials for that investment. Structured investments are unsecured obligations of a particular issuer with returns linked to the performance of an underlying asset. Depending on the terms of the investment, investors could lose all or a substantial portion of their investment based on the performance of the underlying asset. Investors could also lose their entire investment if the issuer becomes insolvent. UBS does not guarantee in any way the obligations or the financial condition of any issuer or the accuracy of any financial information provided by any issuer. Structured investments are not traditional investments and investing in a structured investment is not equivalent to investing directly in the underlying asset. Structured investments may have limited or no liquidity, and investors should be prepared to hold their investment to maturity. The return of structured investments may be limited by a maximum gain, participation rate or other feature. Structured investments may include call features and, if a structured investment is called early, investors would not earn any further return and may not be able to reinvest in similar investments with similar terms. Structured investments include costs and fees which are generally embedded in the price of the investment. The tax treatment of a structured investment may be complex and may differ from a direct investment in the underlying asset. UBS and its employees do not provide tax advice. Investors should consult their own tax advisor about their own tax situation before investing in any securities.

Important Information About Sustainable Investing Strategies: This terminology refers to definitions in the UBS Sustainable Investing Framework and does not refer or relate to any product specific regulatory labelling regime or naming conventions. Sustainable investing strategies aim to consider and incorporate environmental, social and governance (ESG) factors into investment process and portfolio construction. Strategies across geographies approach ESG analysis and incorporate the findings in a variety of ways. Incorporating ESG factors or sustainable investing considerations may inhibit the portfolio manager's ability to participate in certain investment opportunities that otherwise would be consistent with its investment objective and other principal investment strategies. The returns on a portfolio incorporating ESG factors or sustainable investing considerations may be lower or higher than portfolios where ESG factors, exclusions, or other sustainability issues are not considered by the portfolio manager, and the investment opportunities available to such portfolios may differ.

Within the past 12 months UBS Switzerland AG, its affiliates or subsidiaries may have received or provided investment services and activities or ancillary services as per MiFID II which may have given rise to a payment or promise of a payment in relation to these services from or to this company.

Disclosures: If you require detailed information on disclosures of interest or conflict of interest as required by Market Abuse Regulation please contact the mailbox MAR_disclosure_twopager@ubs.com. Please note that e-mail communication is unsecured.

External Asset Managers / External Financial Consultants: In case this research or publication is provided to an External Asset Manager or an External Financial Consultant, UBS expressly prohibits that it is redistributed by the External Asset Manager or the External Financial Consultant and is made available to their clients and/or third parties.

Argentina: All securities that will be offered to you by UBS are not authorized by the Argentine Securities and Exchange Commission (CNV) and are not subject to its reporting, periodic information requirements, or oversight. Furthermore, the CNV has not reviewed or endorsed the information provided in any securities offering document, nor the accuracy of any accounting, financial, economic data, or any other information disclosed therein, which remains the sole responsibility of the respective issuer and the other parties involved. **Australia:** This document is provided by UBS Switzerland AG. UBS Switzerland AG does not hold an Australian Financial Services Licence (AFSL) and relies on an exemption to provide financial services to persons in Australia. This document is intended only for distribution to wholesale clients under the Corporations Act 2001 (Cth). UBS Switzerland AG is a related body corporate of UBS AG, Australia Branch and UBS Securities Australia Limited. This document may be distributed to clients by those entities, but it is provided by UBS Switzerland AG and is not provided under any of the other entities' AFSL. The information in this document is general in nature and is not intended to address the objectives, financial situation or needs of any particular individual or entity. Each recipient should consider their own objectives, financial situation or needs before acting on the advice and obtain the relevant Product Disclosure Statement (if required) before making any decision whether to acquire any product. In Australia, UBS entities, other than UBS AG, Australia Branch, are not authorized deposit-taking institutions for the purposes of the Banking Act 1959 (Cth.) and their obligations do not represent deposits or other liabilities of UBS AG, Australia Branch. UBS AG, Australia Branch does not guarantee or otherwise provide assurance in respect of the obligations of such UBS entities or the funds. An investor is exposed to investment risk including possible delays in repayment and loss of income and principal invested, as relevant. If you do not wish to receive marketing materials from UBS, please contact your UBS representative or the contact details listed in the Australia Privacy Notice: https://www.ubs.com/global/en/legal/privacy.html. Your personal data will be processed in accordance with this notice. **Bahrain**: This report is being distributed by UBS AG, Bahrain Branch, duly licensed and regulated by the Central Bank of Bahrain (CBB) as an Investment Business Firm - Category 2 (Branch). Related financial services or products are only made available to Accredited Investors, as defined by the CBB, and are not intended for any other persons. UBS AG, Bahrain Branch is a Foreign Branch of UBS AG, Zurich/Switzerland and is located on Level 21, East Tower, Bahrain World Trade Centre, Manama, Kingdom of Bahrain. **Brazil**: This report is distributed in Brazil by UBS BB Corretora de Câmbio, Títulos e Valores Mobiliários S.A. or its affiliates ("UBS"). Pursuant to CVM Resolution No. 20/2021, of February 25, 2021, the author(s) of the report hereby certify(ies) that the views expressed in this report solely and exclusively reflect their personal opinions and have been prepared independently, including with respect to UBS. Part of the author(s)'s compensation is based on various factors, including the total revenues of the relevant UBS Group entity of which they are in employment of, but no part of the compensation has been, is, or will be related to the specific recommendations or views expressed in this report. In addition, UBS declares that: UBS has provided, and/or may in the future provide investment banking, brokerage, asset management, commercial banking and other financial services to the subject company/companies or its affiliates, for which they have received or may receive customary fees and commissions, and which constituted or may constitute relevant financial or commercial interests in relation to the subject company/companies or the subject securities. **Canada**: This publication is for your information only and is not intended as an offer, or a solicitation of an offer, to buy or sell any investment or other specific product. Although all information and opinions expressed in this publication were obtained from sources believed to be reliable and in good faith, no representation or warranty, express or implied, is made as to its accuracy or

completeness. All information and opinions as well as any figures indicated herein are subject to change without notice. At any time, UBS AG ("UBS") and other companies in the UBS group (or employees thereof) may have a long or short position, or deal as principal or agent, in relevant securities or provide advisory or other services to the issuer of relevant securities or to a company connected with an issuer. Some investments may not be readily realizable since the market in the securities is illiquid and therefore valuing the investment and identifying the risk to which you are exposed may be difficult to quantify. Past performance of investments is not a guarantee of future results, and the value of investments may fluctuate over time. There is no guarantee that investment objectives risk or return targets discussed in this publication will be received or attained. For clients and prospective clients of UBS Bank (Canada), please note that this publication has no regard to the specific investment objectives, financial situation or particular needs of any recipient. Neither UBS Bank (Canada) nor UBS Investment Management Canada Inc. is acting as an adviser or fiduciary to or for any recipient of this report unless otherwise agreed upon in writing. Not all products or services may be available at UBS Bank (Canada). Some products and services may be legally restricted for residents of certain countries. Should you have any questions, please contact UBS Bank (Canada) and ask to speak to a member of our Wealth Management Team. UBS Wealth Management is a registered trade-mark of UBS AG. UBS Bank (Canada) is a subsidiary of UBS AG. Investment advisory and portfolio management services are provided through UBS Investment Management Canada Inc., a wholly-owned subsidiary of UBS Bank (Canada). UBS Investment Management Canada Inc. is a registered portfolio manager and exempt market dealer in all the provinces with the exception of P.E.I. and the territories. This publication may not be reproduced, or copies circulated without prior authority of UBS Bank (Canada). **China**: This report and any offering material such as term sheet, research report, other product or service documentation or any other information (the "Material") sent with this report was done so as a result of a request received by UBS from you and/or persons entitled to make the request on your behalf. Should you have received the material erroneously, UBS asks that you kindly delete it and inform UBS immediately. This report is prepared by UBS Switzerland AG or its offshore subsidiary or affiliate (collectively as "UBS Offshore"). UBS Offshore is an entity incorporated out of China and is not licensed, supervised or regulated in China to carry out banking or securities business. The recipient should not contact the analysts or UBS Offshore which produced this report for advice as they are not licensed to provide securities investment advice in China. UBS Investment Bank (including Research) has its own wholly independent research and views which at times may vary from the views of UBS Global Wealth Management. The recipient should not use this document or otherwise rely on any of the information contained in this report in making investment decisions and UBS takes no responsibility in this regard. **Denmark**: This publication is not intended to constitute a public offer under Danish law. UBS Europe SE Succursale de France is subject to the joint supervision of the European Central Bank, the German Central Bank (Deutsche Bundesbank), the German Federal Financial Services Supervisory Authority (Bundesanstalt für Finanzdienstleistungsaufsicht, "BaFin"), as well as of the French "Autorité de contrôle prudentiel et de résolution" and "Autorité des marchés financiers", to which this publication has not been submitted for approval. UBS Europe SE is a credit institution constituted under German law in the form of a Societas Europaea, duly authorized by BaFin. **Germany**: This publication is not intended to constitute a public offer under German law. It is distributed only for information purposes to clients of UBS Europe SE, Germany, with place of business at Bockenheimer Landstrasse 2-4, 60306 Frankfurt am Main. UBS Europe SE is a credit institution constituted under German law in the form of a Societas Europaea, duly authorized by the German Federal Financial Services Supervisory Authority (Bundesanstalt für Finanzdienstleistungsaufsicht, "BaFin") and supervised jointly by the European Central Bank, the German Central Bank (Deutsche Bundesbank) and BaFin, to which this publication has not been submitted for approval. **Hong Kong SAR**: This publication is distributed to clients of UBS AG Hong Kong Branch by UBS AG Hong Kong Branch, a licensed bank under the Hong Kong Banking Ordinance and a registered institution under the Securities and Futures Ordinance. UBS AG Hong Kong Branch is incorporated in Switzerland with limited liability. The contents of this material have not been reviewed by any regulatory authority in Hong Kong. **Indonesia**: This communication and any offering material term sheet, research report, other product or service documentation or any other information (the "Material") sent with this communication was done so as a result of a request received by UBS from you and/or persons entitled to make the request on your behalf. Should you have received the Material erroneously, UBS asks that you kindly delete/destroy the communication and Material and inform UBS immediately. The Material, where provided, was provided for your information only and is not to be further distributed in whole or in part in or into your jurisdiction without the consent of UBS. The Material may not have been reviewed, approved, disapproved, endorsed, registered or filed with any financial or regulatory authority in your jurisdiction. UBS has not, by virtue of the Material, made available, issued any invitation to subscribe for or to purchase any investment (including securities or derivatives products). The Material is neither an offer nor a solicitation to enter into any transaction or contract (including futures contracts) nor is it an offer to buy or to sell any securities or derivatives products. The relevant investments will be subject to restrictions and obligations on transfer as set forth in the Material, and by receiving the Material you undertake to comply fully with such restrictions and obligations. You should carefully study and ensure that you understand and exercise due care and discretion in considering your investment objective, risk appetite and personal circumstances against the risk of the investment. You are advised to seek independent professional advice in case of doubt. Any and all advice provided on and/or trades executed by UBS pursuant to the Material will only have been provided upon your specific request or executed upon your specific instructions, as the case may be, and may be deemed as such by UBS and you. **Israel**: UBS is a premier global financial firm offering wealth management, asset management and investment banking services from its headquarters in Switzerland and its operations in over 50 countries worldwide to individual, corporate and institutional investors. This publication is intended for information only and is not intended as an offer to buy or solicitation of an offer. Furthermore, this publication is not intended as an investment advice. Nothing contrary to the above, no action has been, or will be, taken in Israel that would permit an offering of the product(s) mentioned in this document or a distribution of this document to the public in Israel. In particular, this document has not been reviewed or approved by the Israeli Securities Authority. The product(s) mentioned in this document is/are being offered to a limited number of sophisticated investors who qualify as one of the investors listed in the first supplement to the Israeli Securities Law, 5728-1968. This document may not be reproduced or used for any other purpose, nor be furnished to any other person other than those to whom copies have been sent. Anyone who purchases the product(s) mentioned herein shall do so for its own benefit and for its own account and not with the aim or intention of distributing or offering the product(s) to other parties. Anyone who purchases the product(s) shall do so in accordance with its own understanding and discretion and after it has received any relevant financial, legal, business, tax or other advice or opinion required by it in connection with such purchase(s). The word "advice" and/or any of its equivalent terms shall be read and construed in conjunction with the definition of the term "investment marketing" as defined under the Israeli Regulation of Investment Advice, Investment Marketing and Portfolio Management Law. The Swiss laws and regulations require a number of mandatory disclosures to be made in independent financial research reports or recommendations. Pursuant to the Swiss Financial Market Infrastructure Act and the Financial Market Infrastructure Ordinance-FINMA, banks must disclose the percentage of voting rights they hold in companies being researched, if these holdings are equal to or exceed the statutory thresholds. In addition, the Directives on the Independence of Financial Research, issued by the Swiss Bankers Association, mandate a number of disclosures, including the disclosure of potential conflicts of interest, the participation within previous 12 months in any securities issues on behalf of the company being researched, as well as the fact that remuneration paid to the financial analysts is based generally upon the performance of (i) the new issues department or investment banking; or (ii) securities trading performance (including proprietary trading) or sales. **Italy**: This publication is not intended to constitute a public offer under Italian law. It is distributed only for information purposes to clients of UBS Europe SE, Succursale Italia, with place of business at Via del Vecchio Politecnico, 3-20121 Milano. UBS Europe SE, Succursale Italia is subject to the joint supervision of the European Central Bank, the German Central Bank (Deutsche Bundesbank), the German Federal Financial Services Supervisory Authority (Bundesanstalt für Finanzdienstleistungsaufsicht, "BaFin"), as well as of the Bank of Italy (Banca d'Italia) and the Italian Financial Markets Supervisory Authority (CONSOB - Commissione Nazionale per le Società e la Borsa), to which this publication has not been submitted for approval. This material is strictly intended for Eligible Counterparties and/or Business Customers only as classified under the QFCRA's Customer and Investor Protection Rules 2019. No other person should act upon this material. **Russia**: This document or information contained therein is for information purposes only and constitutes neither a public nor a private offering, is not an invitation to make offers, to sell, exchange or otherwise transfer any financial instruments in the Russian Federation to or for the benefit of any Russian person or entity and does not constitute an advertisement or offering of securities in the Russian Federation within the meaning of Russian securities laws. The information contained herein is not an "individual investment recommendation" as defined in Federal Law of 22 April 1996 No 39-FZ "On Securities Market" (as amended) and the financial instruments and operations specified herein may not be suitable for your investment profile or your investment goals or expectations. The determination of whether or not such financial instruments and operations are in your interests or are suitable for your investment goals, investment horizon or the acceptable risk level is your responsibility. We assume no liability for any losses connected with making any such operations or investing into any such financial instruments and we do not recommend to use such information as the only source of information for making an investment decision. **Saudi Arabia**: This material is for marketing and information purposes by UBS Saudi Arabia only. It has been distributed by UBS Saudi Arabia or reviewed and approved by UBS Saudi Arabia if it was issued by UBS Switzerland AG, by UBS AG, or any of its subsidiaries or branches. UBS Switzerland AG is a public company limited by shares, incorporated in Switzerland with its registered offices at Bahnhofstrasse 45, CH-8001 Zurich. UBS Saudi Arabia (a subsidiary of UBS AG) is a Saudi closed joint stock company incorporated in the Kingdom of Saudi Arabia with a paid capital of 110,000,000 Saudi Riyals under commercial register number 1010257812 having its registered office at Laysen Valley, P.O. Box 75724, Riyadh 11588, Kingdom of Saudi Arabia. UBS Saudi Arabia is authorized and regulated by the Capital Market Authority to conduct securities business under license number 08113-37. This document is distributed only under such circumstances as may be permitted by applicable laws and regulations. The information and – if any - opinions contained in this document have been compiled or arrived at based upon information obtained from sources believed to be reliable and in good faith, but is not guaranteed as being accurate, nor is it a complete statement or summary of the securities, markets or developments referred to in the document. All such information and opinions are subject to changes without notice. Past performance of investments (whether simulated or actual) is not necessarily an indicator of future results. Forward looking data is based on estimates that are subject to changes. Should the currency of a financial product or service not match your reference currency, performance may rise or fall due to currency fluctuations. UBS Switzerland AG and / or other members of the UBS Group may have a position in and may make a purchase and/or sale of any of the securities or other financial instruments mentioned in this document While statements that constitute "forward-looking statements", including, but not limited to, statements relating to our future business development represent UBS judgments and future expectations concerning the development of our business, a number of risks, uncertainties and other important factors could cause actual developments and results to differ materially from our expectations. This document may not be forwarded, reproduced, redistributed or republished for any purpose without the written permission of UBS Saudi Arabia. Source for all data and charts (if not indicated otherwise) is UBS Switzerland AG. **Singapore**: Where applicable, this material is distributed in Singapore by UBS AG, Singapore Branch, which is licensed by the Monetary Authority of Singapore under the Banking Act 1970 to carry on banking business. UBS AG is incorporated in Switzerland with limited liability. UBS AG has a branch registered in Singapore (UEN S98FC5560C). This material has been prepared and issued for distribution in Singapore to institutional investors, accredited investors and expert investors (each as defined under the Financial Advisers Regulations (the "FAR")) only. By virtue of your status as an institutional investor, accredited investor, or expert investor, UBS AG is exempted from complying with certain requirements under the Financial Advisers Act 2001 (the "FAA"), the FAR and the relevant Notices and Guidelines issued thereunder, in respect of any financial advisory service which UBS AG may provide to you. These include exemptions from complying with: Section 34 of the FAA (pursuant to Regulation 33(1) of the FAR); Section 36 of the FAA (pursuant to Regulation 34(1) of the FAR); and Section 45 of the FAA (pursuant to Regulation 35(1) of the FAR). Singapore recipients and clients of UBS AG, Singapore Branch should contact UBS AG, Singapore Branch for any matters arising from, or in connection with, this material. Where applicable, this communication and any offering material term sheet, research report, other product or service documentation or any other information (the "Material") sent with this communication was done so as a result of a request received by UBS from you and/or persons entitled to make the request on your behalf. Should you have received the Material erroneously, UBS asks that you kindly delete/destroy the communication and Material and inform UBS immediately. The Material, where provided, was provided for your information only and is not to be further distributed in whole or in part in or into your jurisdiction without the consent of UBS. The Material may not have been reviewed, approved, disapproved or endorsed by any financial or regulatory authority in your jurisdiction. UBS has not, by virtue of the Material, made available, issued any invitation to subscribe for or to purchase any investment (including securities or products or futures contracts). The Material is neither an offer nor a solicitation to enter into any transaction or contract (including future contracts) nor is it an offer to buy or to sell any securities or products. The relevant investments will be subject to restrictions and obligations on transfer as set forth in the Material, and by receiving the Material you undertake to comply fully with such restrictions and obligations. You should carefully study and ensure that you understand and exercise due care and discretion in considering your investment objective, risk appetite and personal circumstances against the risk of the investment. You are advised to seek independent professional advice in case of doubt. Any and all advice provided on and/or trades executed by UBS pursuant to the Material will only have been provided upon your specific request or executed upon your specific instructions, as the case may be, and may be deemed as such by UBS and you. **Spain:** This report is distributed in Spain by UBS AG, Sucursal en España, authorized under number 1460 in the Register by the Banco de España. **Sweden**: This publication is not intended to constitute a public offer under Swedish law. Q326 earnings broadly in line; PC demand remains weak

ASMedia reported Q326 EPS of NT$26.39, broadly in line with UBSe but above Street, helped by ~NT$1.5bn of non-op income mainly from WT Micro. Q326 sales of NT $2.66bn declined 2% QoQ and 33% YoY, reflecting continued weakness in PC demand amid elevated memory prices and the shift at its major customer from AM5 back to the lower-cost AM4 platform. Q326 GM came in at 51.6% (+1.3ppt QoQ), helped by a more favorable product mix and pricing adjustments. Opex increased to NT$795mn on higher R&D spending including 12nm chip tape-out and a 10-15% increase in headcount expansion, resulting in OpM declining 2.1ppt QoQ to 21.7%. Q326 sales mix was 74% for host controllers, ~21% automotive and ~5% device.

Sell-through improving, but inventory adjustment to weigh through Q127F

ASMedia is seeing improving PC motherboard demand, with Q326 motherboard production up >20% QoQ and management viewing H126 as the near-term trough. However, elevated memory prices have driven AMD's product mix back toward the lower-ASP AM4 platform (AM4 >70% of Q326 chipset shipments up from >50% in Q226), while AMD continues to digest inventory. It noted AMD's sales contribution has already declined from >50% of sales in H126 to <50% in Q326, and management expects the inventory correction to continue through Q127, delaying the benefit from improving motherboard sell-through. We expect October to mark the trough (monthly sales down 43% MoM) and will remain muted on AMD's inventory control, resulting in Q426 sales declining~33% QoQ while GM should decline by 1.6ppt QoQ to 50.0% as slower pull in of AM5 could lead to inventory provision, despite a reversal in H127E.

2027E recovery more back-end-loaded

ASMedia remains confident in retaining its sole-supplier position for AMD's next-generation Olympic (AM5.5) chipset platform, with contribution expected from H227 and ASP ~50-60% higher than AM4. We expect USB4 demand to recover alongside the Olympic ramp, with additional upside from a new US robotics customer from H227. Separately, we expect AM5 shipments to recover and potential inventory writebacks to provide upside to GM. We believe PCIe packet-switch contribution could be more gradual given slower design-in progress. Overall, we estimate ASMedia's 2027E sales to grow ~5% YoY (vs. previous 17% YoY expectations), with growth skewed to H227.

Valuation: Retain Buy with PT of NT$1,500

We lower our 2026/27/28E EPS by 2%/1%/2% primarily on softer PC demand and inventory adjustment, offset by higher better earnings contribution from WT Micro. We cut our PT to NT$1,500 (from NT$1,700), based on our SOTP valuation (18x for core earnings and 11.5x for non-core), implying 13x 2027E PE. Maintain Buy rating as stock is trading near trough 14x NTM PE vs an 11-48x historical range, while its diversification into non-PC should support its topline/OP to recover from 2027E.

Company Description

ASMedia is a Taiwan-based fabless IC design house founded by parent company Asustek Computer Inc. in 2004. ASMedia is dedicated to high-speed input/output (I/O) controllers, such as USB, PCIe and SATA, and its products are mainly used in desktop PCs, motherboards and add-on cards. In 2024, ASMedia generated 84% of its revenue from host controllers and 16% from device controllers. The company collaborates with Advanced Micro Devices (AMD) to design southbridge chipsets for Zen-based desktop central processing units (CPUs). AMD is the company's largest client account, contributing 58% of revenue in 2024.

Valuation Method and Risk Statement

We base our price target on sum-of-the-parts methodology. We value ASMedia's core and non-core businesses based on a target PE multiple.
Fabless integrated circuit (IC) design houses face a variety of uncertainty, including rapidly changing technology, end-market demand, competition, employee turnover and foundry wafer costs. They are also vulnerable to legal disputes over intellectual property rights.
We believe risks for ASMedia include: 1) AMD's chipset insourcing or other design houses entering AMD's chipset business; 2) faster penetration of USB4 native support in chipsets; 3) more entrants in the USB device controller market; 4) continued suspension of China tender projects; and 5) increased US export controls impacting China's computing capability.

Quantitative Research Review

UBS Global Research publishes a quantitative assessment of its analysts' responses to certain questions about the likelihood of an occurrence of a number of short term factors in a product known as the 'Quantitative Research Review'. The views for this month can be found below. Views contained in this assessment on a particular stock reflect only the views on those short term factors which are a different timeframe to the 12-month timeframe reflected in any equity rating set out in this note. For previous responses please make reference to (i) previous UBS Global Research reports; and (ii) where no applicable research report was published that month, the Quantitative Research Review which can be found at https://neo.ubs.com/quantitative, or contact your UBS sales representative for access to the report or the Quantitative Research Team on ubs-quant-answers@ubs.com. A consolidated report which contains all responses is also available and again you should contact your UBS sales representative for details and pricing or the Quantitative Research Team on the email above.

ASMedia Technology Inc

Question	Response
1. Is the industry structure facing the firm likely to improve or deteriorate over the next six months? Rate on a scale of 1-5 (1 = getting worse, 3 = no change, 5 = getting better, N/A = no view)	3
2. Is the regulatory/government environment facing the firm likely to improve or deteriorate over the next six months? Rate on a scale of 1-5 (1 = getting tougher 3 = no change, 5 = getting better, N/A = no view)	3
3. Over the last 3-6 months in broad terms have things been improving/no change/getting worse for this stock? Rate on a scale of 1-5 (1 = getting a lot worse, 3 = not much change, 5 = getting a lot better, N/A = no view)	4
4. Relative to the current CONSENSUS EPS forecast, is the next company EPS update likely to lead to: (1 = negative surprise vs consensus, 3 = in-line with consensus, 5 = positive surprise vs consensus expectations, N/A = no view)	3
5. What's driving the difference?	
6. Relative to YOUR current earnings forecast, is there relatively greater risk at the next earnings result of:(1 = downside skew risk to earnings, 3 = equal upside or downside risk to earnings, 5 = upside skew risk to earnings, N/A = no view)	3
7. What's driving the difference?	
8. Is there an upcoming catalyst for the company over the next three months?	
9. Is there an actual or approximate date for the catalyst?	
10. Is the catalyst date an actual or approximate date?	
11. What is the catalyst?	

Required Disclosures

This document has been prepared by UBS Securities Pte. Ltd., Taipei Branch, an affiliate of UBS AG. UBS AG, its subsidiaries, branches and affiliates, including former Credit Suisse AG and its subsidiaries, branches and affiliates are referred to herein as "UBS".

For information on how UBS manages conflicts and maintains the independence of its UBS Global Research product; historical performance information; certain additional disclosures concerning UBS Global Research recommendations; and terms and conditions for certain third party data used in research report, please visit https://www.ubs.com/disclosures. Unless otherwise indicated, information and data in this report are based on company disclosures including annual, interim and quarterly reports and other company announcements. Figures in performance charts refer to the past; past performance is not a reliable indicator of future results. Additional information will be made available on request. UBS Securities Co. Limited is licensed by the China Securities Regulatory Commission to conduct securities investment consultancy businesses. UBS acts or may act as principal in the debt securities (or in related derivatives) that may be the subject of this report. This recommendation was finalized on: 10 November 2026 12:00 PM GMT. UBS has designated certain UBS Global Research department members as Derivatives Research Analysts where they publish research principally on the analysis of the price or market for a derivative, and provide information reasonably sufficient on which to base a decision to enter into a derivatives transaction. Where Derivatives Research Analysts co-author research reports with Equity Research Analysts or Economists, the Derivatives Research Analyst is responsible for the derivatives investment views, forecasts, and/or recommendations. **Quantitative Research Review:** UBS Global Research publishes a quantitative assessment of its analysts' responses to certain questions about the likelihood of a number of short term factors occurring, in a product known as the 'Quantitative Research Review'. Views in this assessment on a particular stock reflect only those short term factors and a timeframe different to the 12-month timeframe reflected in any equity rating set out in this document. For the latest responses, please see the Quantitative Research Review Addendum at the back of this document, where applicable. For previous responses, please refer to: (i) previous UBS Global Research reports and (ii) where no applicable research report was published that month, the Quantitative Research Review at https://neo.ubs.com/quantitative, or contact your UBS sales representative for access to the report or the Quantitative Research Team at ubs-quant-answers@ubs.com. A consolidated report containing all responses is also available; for details and pricing, please contact your UBS sales representative or the Quantitative Research team at the above email.

Analyst Certification:
Each research analyst primarily responsible for the content of this research report, in whole or in part, certifies that, with respect to each security or issuer that the analyst covered in this report: (1) all views expressed accurately reflect their personal views about those securities or issuers and were prepared independently, including with respect to UBS, and (2) no part of their compensation was, is, or will be, directly or indirectly, related to the specific recommendations or views expressed by that research analyst in the research report.

UBS Global Research: Global Equity Rating Definitions

12-Month Rating	Definition	Coverage[1]	IB Services[2]
Buy	FSR is > 6% above the MRA.	55%	24%
Neutral	FSR is between -6% and 6% of the MRA.	39%	20%
Sell	FSR is > 6% below the MRA.	6%	21%

Source: UBS. Rating allocations are as of 30 September 2026.
1:Percentage of companies under coverage globally within the 12-month rating category.
2:Percentage of companies within the 12-month rating category for which investment banking (IB) services were provided within the past 12 months.

KEY DEFINITIONS:Forecast Stock Return (FSR) is expected percentage price appreciation plus gross dividend yield over the next 12 months. In some cases, this yield may be based on accrued dividends. **Market Return Assumption (MRA)** is the one-year local market interest rate plus 5% (a proxy for, and not a forecast of, the equity risk premium). **Under Review (UR)** Stocks may be flagged by the analyst to indicate that the stock's price target and/or rating may change in the near term, usually in response to an event that may affect the investment case or valuation. **Equity Price Targets** have a 12-month investment horizon.

EXCEPTIONS AND SPECIAL CASES:UK and European Investment Fund ratings and definitions are: Buy: Positive on factors such as structure, management, performance record and discount; **Neutral:** Neutral on factors such as structure, management, performance record and discount; **Sell:** Negative on factors such as structure, management, performance record and discount. **Core Banding Exceptions (CBE):** Exceptions to the standard +/-6% bands may be granted by the Investment Review Consultation (IRC). Factors considered by the IRC include the stock's volatility and the credit spread of the respective company's debt. As a result, stocks deemed very high or low risk may be subject to higher or lower bands for rating purposes. Where such exceptions apply, they will be identified in the Company Disclosures table in the relevant research piece.

Research analysts contributing to this report who are employed by a non-US affiliate of UBS Securities LLC are not registered or qualified as research analysts with FINRA. Such analysts may not be associated persons of UBS Securities LLC and therefore are not subject to FINRA restrictions on communications with a subject company, public appearances, and trading securities held by a research analyst account. The Disclaimer relevant to Global Wealth Management clients follows the Global Research Disclaimer.

UBS Global Research Disclaimer

This document has been prepared by UBS Securities Pte. Ltd., Taipei Branch, an affiliate of UBS AG. UBS AG, its subsidiaries, branches and affiliates, including former Credit Suisse AG and its subsidiaries, branches and affiliates are referred to herein as "UBS".

Any opinions in this document may change without notice and are current only as of the publication date. Different areas, groups, and personnel within UBS may independently produce and distribute separate research products. For example, research publications from **UBS CIO** are produced by UBS Global Wealth Management. **UBS Global Research** is produced by UBS Investment Bank. Each research organization may use different methodologies and rating systems, including investment recommendations, investment horizon, model assumptions, and valuation methods. Accordingly, except for certain economic forecasts on which UBS CIO and UBS Global Research may collaborate, investment recommendations, ratings, price targets, and valuations from those research organizations may differ or be inconsistent. You should refer to each relevant research product for details of its methodology and rating system. Not all clients may have access to all products from every organization. Each research product is subject to the policies and procedures of the organization that produces it.

UBS Global Research is primarily intended for institutional/professional/wholesale clients, and not for retail clients or private individuals (excluding via any UBS approved distribution channel for such clients), as defined under the governing law and regulation of the relevant client jurisdiction.

This document is provided solely to recipients who are expressly authorized by UBS to receive it. If you are not so authorized you must immediately destroy it.

UBS Global Research is provided to our clients through UBS Neo and, in certain instances, UBS.com and any other system or distribution method specifically identified in one or more communications distributed through UBS Neo or UBS.com (each, a "System") as an approved means of distributing UBS Global Research. It may also be made available through third party vendors and distributed by UBS and/or third parties by e-mail or other electronic means.

All UBS Global Research is available on UBS Neo. Please contact your UBS sales representative if you wish to discuss access to UBS Neo. Where UBS Global Research refers to "UBS Evidence Lab Inside" or uses data provided by UBS Evidence Lab, and you would like access to that data, please contact your UBS sales representative. UBS Evidence Lab data is available on UBS Neo. The level and types of services provided by UBS Global Research and UBS Evidence Lab to a client may vary depending on factors including a client's preferences as to the frequency and manner of receiving communications, risk profile, and investment focus and perspective (e.g., market wide, sector specific, long-term, short-term), the size and scope of the overall client relationship with UBS Global Research and UBS Evidence Lab, and legal and regulatory constraints. UBS HOLT and UBS Pharma Values are offerings of UBS Global Research. HOLT Lens is a corporate performance platform offering that provides an objective accounting-led framework for comparing and valuing companies and is available to clients of UBS Global Research; for details and pricing, please contact your UBS Sales representative. In particular, HOLT has a variety of warranted prices based on the scenario chosen; if you are interested in the warranted price for a particular company, please mail UBS Securities LLC, 11 Madison Avenue, New York, NY 10010, USA, Attention: Investment Research, subject again to commercial considerations. UBS Pharma Values is an analytical tool involving individual product net present value calculations based on published forecasts of pharmaceutical sales, and is available to clients of UBS Global Research; for details and pricing, please contact your UBS Sales representative. For all other specific disclaimers, please see https://www.ubs.com/disclosures.

When you receive UBS Global Research through a System, your access to and/or use of it is subject to this UBS Global Research Disclaimer, the UBS Neo Platform Use Agreement (the "Neo Terms"), and any other relevant terms of use governing the applicable System.

When you receive UBS Global Research via a third party vendor, e-mail or other electronic means, you agree that use shall be subject to this UBS Global Research Disclaimer, the Neo Terms and where applicable the UBS Investment Bank terms of business (https://www.ubs.com/global/en/investment-bank/regulatory.html) and to UBS's Terms of Use/ Disclaimer (https://www.ubs.com/global/en/legalinfo2/disclaimer.html). In addition, you consent to UBS processing your personal data and using cookies in accordance with our Privacy Statement (https://www.ubs.com/global/en/legalinfo2/privacy.html) and Cookie Notice (https://www.ubs.com/global/en/legal/privacy/users.html).

If you receive UBS Global Research, whether through a System or otherwise, you agree not to copy, revise, amend, create derivative works, provide to any third party, or in any way commercially exploit any UBS research provided via UBS Global Research or otherwise, and not to extract data from any research or estimates provided to you via UBS Global Research or otherwise, without UBS's prior written consent. You also agree not to use UBS Global Research in any artificial intelligence system without UBS's prior written consent.

In certain circumstances, you may receive UBS Global Research other than in your capacity as a UBS client and, you understand and agree that in those circumstances: (i) UBS Global Research is provided to you for information purposes only; (ii) for the purpose of receiving it, you are not intended to be and will not be treated as a "client" of UBS for any legal or regulatory purpose; (iii) UBS Global Research must not be relied on or acted upon for any purpose; and (iv) such content is subject to the relevant disclaimers that follow.

This document may be distributed only as permitted by law. It is not directed to, or intended for distribution to or use by, any person or entity that is a citizen or resident of, or located in, any locality, state, country or other jurisdiction where such distribution, publication, availability or use would be contrary to law or regulation or would subject UBS to any registration or licensing requirement in that jurisdiction.

This document is a general communication and educational in nature; it is not an advertisement, solicitation or offer to buy or sell any financial instrument or to participate in any particular trading strategy. Nothing in this document constitutes a representation that any investment strategy or recommendation is suitable or appropriate to an investor's individual circumstances or otherwise constitutes a personal recommendation. By providing this document, neither UBS nor its representatives has any responsibility or authority to provide, or to have provided, investment advice in a fiduciary or any other capacity. Investments involve risks, and investors should exercise prudence and their own judgment in making investment decisions. Neither UBS nor its representatives is suggesting that the recipient or any other person take a specific course of action, or any action at all. The recipient should read this document carefully and in full and not draw inferences or conclusions from the rating alone. By receiving this document, the recipient acknowledges and agrees with the intended purpose described above and further disclaims any expectation or belief that the information constitutes investment advice to the recipient or otherwise purports to meet the recipient's investment objectives. The financial instruments described in this document may not be eligible for sale in all jurisdictions or to certain categories of investors.

Options, structured derivative products and futures (including OTC derivatives) are not suitable for all investors. Trading in these instruments is risky and may be appropriate only for sophisticated investors. Before buying or selling an option, you must receive a copy of "The Characteristics and Risks of Standardized Options" for a full description of options risks. You may read it at https://www.theocc.com/publications/risks/riskchap1.jsp or ask your salesperson for a copy. Various theoretical explanations of the risks of these instruments have been published. Supporting documentation for any claims, comparisons, recommendations, statistics or other technical data will be supplied on request. Past performance is not necessarily indicative of future results. Transaction costs may be significant in option strategies involving multiple purchases and sales, such as spreads and straddles. As tax considerations are important to many options transactions, investors considering options should consult their tax advisor on how taxes affect the outcome of contemplated options transactions.

Mortgage- and asset-backed securities may involve a high degree of risk and be highly volatile in response to interest rate fluctuations or other market conditions. Foreign currency exchange rates may adversely affect the value, price or income of any security or related instrument referred to in this document. For investment advice, trade execution or other inquiries, clients should contact their local sales representative.

UBS notes that no globally accepted framework or definition (legal, regulatory or otherwise) currently exists, and there is no market consensus, as to what constitutes "ESG" (Environmental, Social or Governance) or an equivalent label, or what precise attributes are required for the Information (as defined below) to be defined as ESG or equivalently labelled. Any information, data or other content, including from third party sources, contained or referred to herein or used by UBS or a third party for any purpose ("Information"), in relation to any actual or potential ESG objective, issue or consideration, is not intended to be relied upon for ESG classification, regulatory regime or industry initiative purposes ("ESG Regimes"). Nothing in this document is intended to convey, suggest or indicate that UBS considers or represents any product, service, person or body mentioned in it to meet or qualify for any ESG classification, labelling or similar standards that may exist under ESG Regimes. UBS has not assessed compliance with ESG Regimes. Parties should make their own assessments for these purposes.

The value of any investment or income may go down as well as up, and investors may not get back the full (or any) amount invested. Past performance is not necessarily a guide to future performance. Neither UBS nor any of its directors, employees or agents accepts liability for any loss (including investment loss) or damage arising out of the use of any of the Information.

Before making any investment or financial decision, any recipient of this document or the information should take steps to understand the investment's risk and return and seek individualized advice from their personal financial, legal, tax and other professional advisors, taking into account all relevant facts and circumstances of their investment objectives.

Any prices stated in this document are for information purposes only and do not represent valuations of individual securities or other financial instruments. There is no representation that any transaction can or could have been effected at those prices. They do not necessarily reflect UBS's internal books and records or theoretical model-based valuations and may be based on certain assumptions. Different assumptions by UBS or any other source may yield substantially different results.

No representation or warranty, express or implied, is given as to the accuracy, completeness or reliability of the information contained in any materials to which this document relates (the "Information"), except with respect to Information concerning UBS. The Information is not intended to be a complete statement or summary of the securities, markets or developments referred to in this document. UBS does not undertake to update or keep current the Information. Any statements contained in this document attributed to a third party represent UBS's interpretation of data, information and/or opinions provided by that third party,

publicly or through a subscription service, and such use and interpretation have not been reviewed by that third party. In no circumstances may this document or any Information, including any forecast, value, index or other calculated amount ("Values"), be used for: (i) valuation or accounting purposes; (ii) determining amounts due or payable, or the price or value of any financial instrument or financial contract; or (iii) measuring the performance of any financial instrument, including without limitation tracking the return or performance of any Value, defining the asset allocation of a portfolio or computing performance fees.

By receiving this document and the Information you will be deemed to represent and warrant to UBS that you will not use this document or any of the Information for any of those purposes or otherwise rely upon this document or any of the Information.

UBS has policies and procedures, including without limitation independence policies and permanent information barriers, intended, and relied on by UBS, to manage potential conflicts of interest and control the flow of information within UBS divisions and among its subsidiaries, branches and affiliates. UBS does and seeks to do business with companies covered in its research documents. As a result, investors should be aware that UBS may have a conflict of interest that could affect this document's objectivity. Investors should consider this document as only one factor in making an investment decision. For further information on how UBS Global Research manages conflicts and maintains the independence of its research products, historical performance information and certain additional disclosures concerning UBS Global Research recommendations, please visit https://www.ubs.com/disclosures.

UBS Global Research will initiate, update and cease coverage solely at the discretion of UBS Global Research Management, which also has sole discretion over the timing and frequency of any published research product. The analysis in this document is based on numerous assumptions. All material information relating to published research documents, such as valuation methodology, risk statements, underlying assumptions (including sensitivity analysis of those assumptions), ratings history and other information required by the Market Abuse Regulation, can be found on UBS Neo. Different assumptions could produce materially different results.

UBS Global Research may use artificial intelligence tools in the preparation of this document. Notwithstanding any such use, this document has undergone human review.

The analyst(s) responsible for preparing this document may interact with trading desk personnel, sales personnel and other parties to gather, apply and interpret market information. UBS relies on information barriers to control the flow of information from one or more areas within UBS to other areas, units, groups or affiliates. Compensation of the analyst(s) who prepared this document is determined exclusively by UBS Global Research management and senior management (excluding investment banking). It is not based on investment banking revenues; however, it may relate to the revenues of UBS and/or its divisions as a whole, including investment banking, sales and trading, and UBS as a whole.

For financial instruments admitted to trading on an EU regulated market: UBS (excluding UBS Securities LLC) acts as a market maker or liquidity provider (as those terms are interpreted under English law or, if the activity is not carried out by UBS in the UK, under the law of the relevant jurisdiction in which UBS determines it carries out the activity) in the issuer's financial instruments, except where liquidity provider activity is carried out in accordance with the definition under the laws and regulations of another EU jurisdiction, in which case it is separately disclosed in this document. For financial instruments admitted to trading on a non-EU regulated market: UBS may act as a market maker, except where that activity is carried out in the US in accordance with the definition under applicable laws and regulations, in which case it will be specifically disclosed in this document. UBS may have issued a warrant whose value is based on one or more financial instruments referred to in this document. UBS and its affiliates and employees may have long or short positions, trade as principal, and buy and sell instruments or derivatives identified herein; such transactions or positions may be inconsistent with the opinions expressed in this document.

Within the past 12 months, UBS may have received or provided investment services and activities or ancillary services under MiFID II that may have given rise to a payment or promise of payment in relation to those services from or to this company.

Please note that all transactions conducted by UBS are consistent with sanctions imposed by Switzerland, the European Union, the United Nations, the United Kingdom and the United States, in accordance with UBS's global sanctions policy. UBS's opinions as to future investment worthiness assume no new sanctions are imposed.

US persons are prohibited from purchasing or selling securities of certain companies designated as associated with the Chinese Military in accordance with amended US Presidential Executive Order 13959.

United Kingdom: Distributed by UBS AG, London Branch to eligible counterparties or professional clients. UBS AG, London Branch is authorised by the Prudential Regulation Authority ("PRA") and subject to regulation by the Financial Conduct Authority (FCA) and limited regulation by the PRA. **Europe:** Except as otherwise specified, distributed by UBS Europe SE, a subsidiary of UBS AG, to eligible counterparties or professional clients (as defined under the Bundesanstalt fur Finanzdienstleistungsaufsicht ("BaFin") Rules and MIFID II) and are available only to such persons. The information in this document does not apply to, and should not be relied on by, retail clients. UBS Europe SE is authorised by the European Central Bank ("ECB") and regulated by BaFin and the ECB. **Germany, Luxembourg, the Netherlands, Belgium and Ireland:** Where an analyst of UBS Europe SE has contributed to this document, it is also deemed to have been prepared by UBS Europe SE. In all cases, it is distributed by UBS Europe SE and UBS AG, London Branch. **Turkey:** Distributed by UBS AG, London Branch. No information in this document is provided for offering, marketing or sale by any means of any capital market instruments or services in the Republic of Turkey. Therefore, this document may not be considered an offer made or to be made to residents of the Republic of Turkey. UBS AG, London Branch is not licensed by the Turkish Capital Market Board under the Capital Market Law (Law No. 6362). Accordingly, neither this document nor any other offering material related to the instruments/services may be used in connection with providing capital market services to persons within the Republic of Turkey without the prior approval of the Capital Market Board. However, under article 15(d)(ii) of Decree No. 32, there is no restriction on the purchase or sale of securities abroad by residents of the Republic of Turkey. **Poland:** Distributed by UBS Europe SE (spolka z ograniczona odpowiedzialnoscia) Oddzial w Polsce ("UBS Poland"). Where an analyst of UBS Poland has contributed to this document, the document is also deemed to have been prepared by UBS Poland. **Russia:** Prepared and distributed by UBS Bank (OOO). It should not be construed as an individual Investment Recommendation for the purposes of articles 6.1 and 6.2 of Russian Federal Law No. 39-FZ "On the Securities Market". **Switzerland:** Distributed by UBS AG to institutional investors only. UBS AG is regulated by the Swiss Financial Market Supervisory Authority (FINMA). **Italy:** Prepared by UBS Europe SE and distributed by UBS Europe SE and UBS Europe SE, Italy Branch. Where an analyst of UBS Europe SE, Italy Branch has contributed to this document, it is also deemed to have been prepared by UBS Europe SE, Italy Branch. **France:** Prepared by UBS Europe SE and distributed by UBS Europe SE and UBS Europe SE, France Branch. Where an analyst of UBS Europe SE, France Branch has contributed to this document, it is also deemed to have been prepared by UBS Europe SE, France Branch. **Spain:** Prepared by UBS Europe SE and distributed by UBS Europe SE and UBS Europe SE, Spain Branch. Where an analyst of UBS Europe SE, Spain Branch has contributed to this document, it is also deemed to have been prepared by UBS Europe SE, Spain Branch. **Sweden:** Prepared by UBS Europe SE and distributed by UBS Europe SE and UBS Europe SE, Sweden Branch. Where an analyst of UBS Europe SE, Sweden Branch has contributed to this document, it is also deemed to have been prepared by UBS Europe SE, Sweden Branch. **South Africa:** Distributed by UBS South Africa (Pty) Limited (Registration No. 1995/011140/07), an authorised user of the JSE and an authorised Financial Services Provider (FSP 7328). **Saudi Arabia:** This document has been issued by UBS AG (and/or any of its subsidiaries, branches or affiliates), a public company limited by shares, incorporated in Switzerland with its registered offices at Aeschenvorstadt 1, CH-4051 Basel and Bahnhofstrasse 45, CH-8001 Zurich. This publication has been approved by UBS Saudi Arabia (a subsidiary of UBS AG), a Saudi closed joint stock company incorporated in the Kingdom of Saudi Arabia under commercial register number 1010257812 having its registered office at Tatweer Towers, P.O. Box 75724, Riyadh 11588, Kingdom of Saudi Arabia. UBS Saudi Arabia is authorized and regulated by the Capital Market Authority to conduct securities business under license number 08113-37. **UAE / Dubai:** Information distributed by UBS AG Dubai Branch is only intended for Professional Clients and/or Market Counterparties as classified under the DFSA rulebook. No other person should act on this document/communication. The information is not for further distribution within the United Arab Emirates. UBS AG Dubai Branch is regulated by the DFSA in the DIFC. UBS is not licensed to provide banking services in the UAE, nor by the UAE Securities and Commodities Authority. **Israel:** This document is distributed by UBS AG, London Branch. UBS Securities Israel Ltd is a licensed Investment Marketer supervised by the Israel Securities Authority (ISA). UBS AG, London Branch and its affiliates incorporated outside Israel are not licensed under the Israeli Advisory Law. UBS may engage among others in issuance of Financial Assets or distribution of Financial Assets of other issuers for fees or other benefits. UBS AG, London Branch and its affiliates may prefer various Financial Assets to which they have or may have an Affiliation (as defined under the Israeli Advisory Law). Nothing in this document should be considered investment advice under the Israeli Advisory Law. This document is only issued to and/or directed at persons who are Eligible Clients (within the meaning of the Israeli Advisory Law), and must not be furnished to, relied on or acted upon by any other person. **United States:** Distributed to US persons by UBS Securities LLC or UBS Financial Services Inc., subsidiaries of UBS AG, or by a group, subsidiary or affiliate of UBS AG not registered as a US broker-dealer (a "non-US affiliate") to major US institutional investors only. UBS Securities LLC or UBS Financial Services Inc. accepts responsibility for the content of a report prepared by another non-US affiliate when distributed to US persons by UBS Securities LLC or UBS Financial Services Inc. All transactions by a US person in the securities mentioned in this document must be effected through UBS Securities LLC or UBS Financial Services Inc., and not through a non-US affiliate. UBS Securities LLC is not acting as a municipal advisor to any municipal entity or obligated person within the meaning of Section 15B of the Securities Exchange Act (the "Municipal Advisor Rule"), and the opinions or views contained herein are not intended to be, and do not constitute, advice within the meaning of that rule. **Canada:** Distributed by UBS Securities Canada Inc., a registered investment dealer in Canada and a Member-Canadian Investor Protection Fund, or by another affiliate of UBS AG registered to conduct business in Canada or otherwise exempt from registration. **Brazil:** Except as otherwise specified herein, this document is prepared by UBS BB Corretora de Câmbio, Títulos e Valores Mobiliários S.A. ("UBS BB CCTVM") for eligible investors residing in Brazil who are considered Professional Investors (Investidores Profissionais) under applicable regulation, primarily CVM Resolution No. 30 of 11 May 2021 (which determines the duty to verify the suitability of products, services and transactions to the client's profile). UBS BB CCTVM is a subsidiary of UBS BB Servicos de Assessoria Financeira e Participacoes S.A. ("UBS BB"). UBS BB is an association between UBS AG and Banco do Brasil (through its subsidiary BB Banco de Investimentos S.A.), of which UBS AG is the majority owner, and provides investment banking services and coverage in Brazil, Argentina, Chile, Paraguay, Peru and Uruguay. UBS BB CCTVM is regulated by the Comissao de Valores Mobiliarios (CVM) and the Central Bank of Brazil. Ombudsman: 0800-940-0266 / https://www.ubs.com/br/pt/ubsbb-investment-bank/ombudsman.html**Hong Kong:** Distributed by UBS Securities Asia Limited. Please contact local licensed persons of UBS Securities Asia Limited in respect of any matters arising from, or in connection with, the analysis or document. **Singapore:** Distributed by UBS Securities Pte. Ltd. (Co. Reg. No.: 198500648C] or UBS AG, Singapore Branch. Please contact UBS Securities Pte. Ltd., an exempt

financial adviser under the Singapore Financial Advisers Act (Cap. 110), or UBS AG, Singapore Branch, an exempt financial adviser under the Singapore Financial Advisers Act (Cap. 110) and a wholesale bank licensed under the Singapore Banking Act (Cap. 19) and regulated by the Monetary Authority of Singapore, regarding any matters arising from, or in connection with, the analysis or document. Recipients of this document represent and warrant that they are accredited and institutional investors as defined in the Securities and Futures Act (Cap. 289). **Japan:** Distributed by UBS Securities Japan Co., Ltd. to professional investors (except as otherwise permitted). Where this document has been prepared by UBS Securities Japan Co., Ltd., UBS Securities Japan Co., Ltd. is the author, publisher and distributor of the document. Distributed by UBS AG, Tokyo Branch to professional investors (except as otherwise permitted) in relation to foreign exchange and other banking businesses, where relevant. **Australia:** Recipients through a superannuation fund: Distributed by UBS AG, Australia Branch (ABN 47 088 129 613 and holder of Australian Financial Service Licence No. 231087). For all other recipients: Distributed by UBS Securities Australia Limited (ABN 62 008 586 481 and holder of Australian Financial Services Licence No. 231098). This document contains general information and/or general advice only and does not constitute personal financial product advice. As such, the Information in this document has been prepared without taking into account any investor's objectives, financial situation or needs, and investors should, before acting on the Information, consider the appropriateness of the Information, having regard to their objectives, financial situation and needs. If the Information contained in this document relates to the acquisition, or potential acquisition of a particular financial product by a 'Retail' client as defined by section 761G of the Corporations Act 2001 where a Product Disclosure Statement would be required, the retail client should obtain and consider the Product Disclosure Statement relating to the product before making any decision about whether to acquire the product. **New Zealand:** Distributed by UBS New Zealand Ltd. UBS New Zealand Ltd is not a registered bank in New Zealand. You are being provided with this document because you have indicated to UBS that you are a "wholesale client" within the meaning of clause 4 of schedule 5 of the Financial Markets Conduct Act 2013 of New Zealand ("Permitted Client"). This document is not intended for clients who are not Permitted Clients ("non-Permitted Clients"). If you are a non-Permitted Client, you must not rely on this document. If, despite this warning, you nevertheless rely on it, you hereby: (i) acknowledge that you may not rely on its content and that any recommendations or opinions in it are not made or provided to you; and (ii) to the maximum extent permitted by law, (a) indemnify UBS and its associates or related entities (and their respective directors, officers, agents and advisors) (each a "Relevant Person") for any loss, damage, liability or claim any of them may incur or suffer as a result of, or in connection with, your unauthorised reliance on this document, and (b) waive any rights or remedies you may have against any Relevant Person for any loss, damage, liability or claim you may incur or suffer as a result of, or in connection with, your unauthorised reliance on this publication or document. **Korea:** Distributed in Korea by UBS Securities Pte. Ltd., Seoul Branch. This document may from time to time have been edited or contributed to by affiliates of UBS Securities Pte. Ltd., Seoul Branch. This document is intended for professional/institutional clients only and not for distribution to any retail clients. **Malaysia:** This document is authorized for distribution in Malaysia by UBS Securities Malaysia Sdn. Bhd (Capital Markets Services License No.: CMSL/A0063/2007). This document is intended for professional/institutional clients only and not for distribution to any retail clients. **India:** Distributed by UBS Securities India Private Ltd. Global Wealth Management Disclaimer

You receive this document in your capacity as a client of UBS Global Wealth Management. This publication has been distributed to you by UBS Switzerland AG (regulated by FINMA in Switzerland) or its affiliates (**"UBS"**) with whom you have a banking relationship with. The full name of the distributing affiliate and its competent authority can be found in the country-specific disclaimer at the end of this document. UBS may utilise artificial intelligence tools ("AI Tools") in the preparation of this document. Notwithstanding any such use of AI Tools, this document has undergone human review.

The date and time of the first dissemination of this publication is the same as the date and time of its publication.

Risk information:

You agree that you shall not copy, revise, amend, create a derivative work, provide to any third party, or in any way commercially exploit any UBS research, and that you shall not extract data from any research or estimates, without the prior written consent of UBS.

This document is for distribution only as may be permitted by law. It is not directed to, or intended for distribution to or use by, any person or entity who is a citizen or resident of or located in any locality, state, country or other jurisdiction where such distribution, publication, availability or use would be contrary to law or regulation or would subject UBS to any registration or licensing requirement within such jurisdiction.

This document is **for your information only**; it is not an advertisement nor is it a solicitation or an offer to buy or sell any financial instruments or to participate in any particular trading strategy. Nothing in this document constitutes a representation that any investment strategy or recommendation is suitable or appropriate to an investor's individual circumstances or otherwise constitutes a personal recommendation. By providing this document, none of UBS or its representatives has any responsibility or authority to provide or have provided investment advice in a fiduciary capacity or otherwise. Investments involve risks, and investors should exercise prudence and their own judgment in making their investment decisions. None of UBS or its representatives is suggesting that the recipient or any other person take a specific course of action or any action at all. By receiving this document, the recipient acknowledges and agrees with the intended purpose described above and further disclaims any expectation or belief that the information constitutes investment advice to the recipient or otherwise purports to meet the investment objectives of the recipient. The financial instruments described in the document may not be eligible for sale in all jurisdictions or to certain categories of investors.

Options, derivative products and futures are not suitable for all investors, and trading in these instruments is considered risky. Mortgage and asset-backed securities may involve a high degree of risk and may be highly volatile in response to fluctuations in interest rates or other market conditions. Foreign currency rates of exchange may adversely affect the value, price or income of any security or related instrument referred to in the document. For investment advice, trade execution or other enquiries, clients should contact their local sales representative.

The value of any investment or income may go down as well as up, and investors may not get back the full (or any) amount invested. Past performance is not necessarily a guide to future performance. Neither UBS nor any of its directors, employees or agents accepts any liability for any loss (including investment loss) or damage arising out of the use of all or any of the information (as defined below).

Prior to making any investment or financial decisions, any recipient of this document or the information should take steps to understand the risk and return of the investment and seek individualized advice from his or her personal financial, legal, tax and other professional advisors that takes into account all the particular facts and circumstances of his or her investment objectives.

Any prices stated in this document are for information purposes only and do not represent valuations for individual securities or other financial instruments. There is no representation that any transaction can or could have been effected at those prices, and any prices do not necessarily reflect UBS's internal books and records or theoretical

model-based valuations and may be based on certain assumptions. Different assumptions by UBS or any other source may yield substantially different results.

No representation or warranty, either expressed or implied, is provided in relation to the accuracy, completeness or reliability of the information contained in any materials to which this document relates (the "Information"), except with respect to Information concerning UBS. The Information is not intended to be a complete statement or summary of the securities, markets or developments referred to in the document. UBS does not undertake to update or keep current the Information. Any opinions expressed in this document may change without notice and may differ or be contrary to opinions expressed by other business areas or groups, personnel or other representative of UBS. Any statements contained in this report attributed to a third party represent UBS's interpretation of the data, information and/or opinions provided by that third party either publicly or through a subscription service, and such use and interpretation have not been reviewed by the third party. In no circumstances may this document or any of the Information (including any forecast, value, index or other calculated amount ("Values")) be used for any of the following purposes: (i) valuation or accounting purposes; (ii) to determine the amounts due or payable, the price or the value of any financial instrument or financial contract; or (iii) to measure the performance of any financial instrument including, without limitation, for the purpose of tracking the return or performance of any Value or of defining the asset allocation of portfolio or of computing performance fees.

By receiving this document and the Information you will be deemed to represent and warrant to UBS that you will not use this document or any of the Information for any of the above purposes or otherwise rely upon this document or any of the Information.

UBS has policies and procedures, which include, without limitation, independence policies and permanent information barriers, that are intended, and upon which UBS relies, to manage potential conflicts of interest and control the flow of information within divisions of UBS (including between Global Wealth Management and UBS Global Research) and among its subsidiaries, branches and affiliates. For further information on the ways in which UBS manages conflicts and maintains independence of its research products, historical performance information and certain additional disclosures concerning UBS research recommendations, please visit https://www.ubs.com/research-methodology.

Research will initiate, update and cease coverage solely at the discretion of research management, which will also have sole discretion on the timing and frequency of any published research product. The analysis contained in this document is based on numerous assumptions. Different assumptions could result in materially different results.

The analyst(s) responsible for the preparation of this document may interact with trading desk personnel, sales personnel and other parties for the purpose of gathering, applying and interpreting market information. UBS relies on information barriers to control the flow of information contained in one or more areas within UBS into other areas, units, groups or affiliates of UBS. The compensation of the analyst who prepared this document is determined exclusively by research management and senior management (not including investment banking). Analyst compensation is not based on investment banking revenues; however, compensation may relate to the revenues of UBS and/or its divisions as a whole, of which investment banking, sales and trading are a part, and UBS's subsidiaries, branches and affiliates as a whole.

For financial instruments admitted to trading on an EU regulated market: UBS AG, its affiliates or subsidiaries (excluding UBS Securities LLC) acts as a market maker or liquidity provider (in accordance with the interpretation of these terms in the UK) in the financial instruments of the issuer save that where the activity of liquidity provider is carried out in accordance with the definition given to it by the laws and regulations of any other EU jurisdictions, such information is separately disclosed in this document. For financial instruments admitted to trading on a non-EU regulated market: UBS may act as a market maker save that where this activity is carried out in the US in accordance with the definition given to it by the relevant laws and regulations, such activity will be specifically disclosed in this document. UBS may have issued a warrant the value of which is based on one or more of the financial instruments referred to in the document. UBS and its affiliates and employees may have long or short positions, trade as principal and buy and sell in instruments or derivatives identified herein; such transactions or positions may be inconsistent with the opinions expressed in this document.

Options and futures are not suitable for all investors, and trading in these instruments is considered risky and may be appropriate only for sophisticated investors. Prior to buying or selling an option, and for the complete risks relating to options, you must receive a copy of "Characteristics and Risks of Standardized Options". You may read the document at https://www.theocc.com/about/publications/character-risks.jsp or ask your financial advisor for a copy.

Investing in structured investments involves significant risks. For a detailed discussion of the risks involved in investing in any particular structured investment, you must read the relevant offering materials for that investment. Structured investments are unsecured obligations of a particular issuer with returns linked to the performance of an underlying asset. Depending on the terms of the investment, investors could lose all or a substantial portion of their investment based on the performance of the underlying asset. Investors could also lose their entire investment if the issuer becomes insolvent. UBS does not guarantee in any way the obligations or the financial condition of any issuer or the accuracy of any financial information provided by any issuer. Structured investments are not traditional investments and investing in a structured investment is not equivalent to investing directly in the underlying asset. Structured investments may have limited or no liquidity, and investors should be prepared to hold their investment to maturity. The return of structured investments may be limited by a maximum gain, participation rate or other feature. Structured investments may include call features and, if a structured investment is called early, investors would not earn any further return and may not be able to reinvest in similar investments with similar terms. Structured investments include costs and fees which are generally embedded in the price of the investment. The tax treatment of a structured investment may be complex and may differ from a direct investment in the underlying asset. UBS and its employees do not provide tax advice. Investors should consult their own tax advisor about their own tax situation before investing in any securities.

Important Information About Sustainable Investing Strategies: This terminology refers to definitions in the UBS Sustainable Investing Framework and does not refer or relate to any product specific regulatory labelling regime or naming conventions. Sustainable investing strategies aim to consider and incorporate environmental, social and governance (ESG) factors into investment process and portfolio construction. Strategies across geographies approach ESG analysis and incorporate the findings in a variety of ways. Incorporating ESG factors or sustainable investing considerations may inhibit the portfolio manager's ability to participate in certain investment opportunities that otherwise would be consistent with its investment objective and other principal investment strategies. The returns on a portfolio incorporating ESG factors or sustainable investing considerations may be lower or higher than portfolios where ESG factors, exclusions, or other sustainability issues are not considered by the portfolio manager, and the investment opportunities available to such portfolios may differ.

Within the past 12 months UBS Switzerland AG, its affiliates or subsidiaries may have received or provided investment services and activities or ancillary services as per MiFID II which may have given rise to a payment or promise of a payment in relation to these services from or to this company.

Disclosures: If you require detailed information on disclosures of interest or conflict of interest as required by Market Abuse Regulation please contact the mailbox MAR_disclosure_twopager@ubs.com. Please note that e-mail communication is unsecured.

External Asset Managers / External Financial Consultants: In case this research or publication is provided to an External Asset Manager or an External Financial Consultant, UBS expressly prohibits that it is redistributed by the External Asset Manager or the External Financial Consultant and is made available to their clients and/or third parties.

Argentina: All securities that will be offered to you by UBS are not authorized by the Argentine Securities and Exchange Commission (CNV) and are not subject to its reporting, periodic information requirements, or oversight. Furthermore, the CNV has not reviewed or endorsed the information provided in any securities offering document, nor the accuracy of any accounting, financial, economic data, or any other information disclosed therein, which remains the sole responsibility of the respective issuer and the other parties involved. **Australia:** This document is provided by UBS Switzerland AG. UBS Switzerland AG does not hold an Australian Financial Services Licence (AFSL) and relies on an exemption to provide financial services to persons in Australia. This document is intended only for distribution to wholesale clients under the Corporations Act 2001 (Cth). UBS Switzerland AG is a related body corporate of UBS AG, Australia Branch and UBS Securities Australia Limited. This document may be distributed to clients by those entities, but it is provided by UBS Switzerland AG and is not provided under any of the other entities' AFSL. The information in this document is general in nature and is not intended to address the objectives, financial situation or needs of any particular individual or entity. Each recipient should consider their own objectives, financial situation or needs before acting on the advice and obtain the relevant Product Disclosure Statement (if required) before making any decision whether to acquire any product. In Australia, UBS entities, other than UBS AG, Australia Branch, are not authorized deposit-taking institutions for the purposes of the Banking Act 1959 (Cth.) and their obligations do not represent deposits or other liabilities of UBS AG, Australia Branch. UBS AG, Australia Branch does not guarantee or otherwise provide assurance in respect of the obligations of such UBS entities or the funds. An investor is exposed to investment risk including possible delays in repayment and loss of income and principal invested, as relevant. If you do not wish to receive marketing materials from UBS, please contact your UBS representative or the contact details listed in the Australia Privacy Notice: https://www.ubs.com/global/en/legal/privacy.html. Your personal data will be processed in accordance with this notice. **Bahrain**: This report is being distributed by UBS AG, Bahrain Branch, duly licensed and regulated by the Central Bank of Bahrain (CBB) as an Investment Business Firm - Category 2 (Branch). Related financial services or products are only made available to Accredited Investors, as defined by the CBB, and are not intended for any other persons. UBS AG, Bahrain Branch is a Foreign Branch of UBS AG, Zurich/Switzerland and is located on Level 21, East Tower, Bahrain World Trade Centre, Manama, Kingdom of Bahrain. **Brazil**: This report is distributed in Brazil by UBS BB Corretora de Câmbio, Títulos e Valores Mobiliários S.A. or its affiliates ("UBS"). Pursuant to CVM Resolution No. 20/2021, of February 25, 2021, the author(s) of the report hereby certify(ies) that the views expressed in this report solely and exclusively reflect their personal opinions and have been prepared independently, including with respect to UBS. Part of the author(s)'s compensation is based on various factors, including the total revenues of the relevant UBS Group entity of which they are in employment of, but no part of the compensation has been, is, or will be related to the specific recommendations or views expressed in this report. In addition, UBS declares that: UBS has provided, and/or may in the future provide investment banking, brokerage, asset management, commercial banking and other financial services to the subject company/companies or its affiliates, for which they have received or may receive customary fees and commissions, and which constituted or may constitute relevant financial or commercial interests in relation to the subject company/companies or the subject securities. **Canada**: This publication is for your information only and is not intended as an offer, or a solicitation of an offer, to buy or sell any investment or other specific product. Although all information and opinions expressed in this publication were obtained from sources believed to be reliable and in good faith, no representation or warranty, express or implied, is made as to its accuracy or

completeness. All information and opinions as well as any figures indicated herein are subject to change without notice. At any time, UBS AG ("UBS") and other companies in the UBS group (or employees thereof) may have a long or short position, or deal as principal or agent, in relevant securities or provide advisory or other services to the issuer of relevant securities or to a company connected with an issuer. Some investments may not be readily realizable since the market in the securities is illiquid and therefore valuing the investment and identifying the risk to which you are exposed may be difficult to quantify. Past performance of investments is not a guarantee of future results, and the value of investments may fluctuate over time. There is no guarantee that investment objectives risk or return targets discussed in this publication will be received or attained. For clients and prospective clients of UBS Bank (Canada), please note that this publication has no regard to the specific investment objectives, financial situation or particular needs of any recipient. Neither UBS Bank (Canada) nor UBS Investment Management Canada Inc. is acting as an adviser or fiduciary to or for any recipient of this report unless otherwise agreed upon in writing. Not all products or services may be available at UBS Bank (Canada). Some products and services may be legally restricted for residents of certain countries. Should you have any questions, please contact UBS Bank (Canada) and ask to speak to a member of our Wealth Management Team. UBS Wealth Management is a registered trade-mark of UBS AG. UBS Bank (Canada) is a subsidiary of UBS AG. Investment advisory and portfolio management services are provided through UBS Investment Management Canada Inc., a wholly-owned subsidiary of UBS Bank (Canada). UBS Investment Management Canada Inc. is a registered portfolio manager and exempt market dealer in all the provinces with the exception of P.E.I. and the territories. This publication may not be reproduced, or copies circulated without prior authority of UBS Bank (Canada). **China**: This report and any offering material such as term sheet, research report, other product or service documentation or any other information (the "Material") sent with this report was done so as a result of a request received by UBS from you and/or persons entitled to make the request on your behalf. Should you have received the material erroneously, UBS asks that you kindly delete it and inform UBS immediately. This report is prepared by UBS Switzerland AG or its offshore subsidiary or affiliate (collectively as "UBS Offshore"). UBS Offshore is an entity incorporated out of China and is not licensed, supervised or regulated in China to carry out banking or securities business. The recipient should not contact the analysts or UBS Offshore which produced this report for advice as they are not licensed to provide securities investment advice in China. UBS Investment Bank (including Research) has its own wholly independent research and views which at times may vary from the views of UBS Global Wealth Management. The recipient should not use this document or otherwise rely on any of the information contained in this report in making investment decisions and UBS takes no responsibility in this regard. **Denmark**: This publication is not intended to constitute a public offer under Danish law. It is distributed only for information purposes to clients of UBS Europe SE, Denmark Branch, filial af UBS Europe SE, with place of business at Sankt Annae Plads 13, 1250 Copenhagen, Denmark, registered with the Danish Commerce and Companies Agency, under No. 38 17 24 33. UBS Europe SE is a credit institution constituted under German law in the form of a Societas Europaea, duly authorized by BaFin. **Egypt**: Securities or other investment products are not being offered or sold by UBS to the public in Egypt and they have not been and will not be registered with the Egyptian Financial Regulatory Authority (FRA). **France**: This publication is not intended to constitute a public offer under French law, it does not constitute a personal recommendation as it is distributed only for information purposes to clients of UBS Europe SE Succursale de France (a branch of UBS Europe SE), having its registered office at 39, rue du Colisée, 75008 Paris, France, registered with the "Registre du Commerce et des Sociétés" of Paris under N°844 425 629. UBS Europe SE Succursale de France is subject to the joint supervision of the European Central Bank, the German Central Bank (Deutsche Bundesbank), the German Federal Financial Services Supervisory Authority (Bundesanstalt für Finanzdienstleistungsaufsicht, "BaFin"), as well as of the French "Autorité de contrôle prudentiel et de résolution" and "Autorité des marchés financiers", to which this publication has not been submitted for approval. UBS Europe SE is a credit institution constituted under German law in the form of a Societas Europaea, duly authorized by BaFin. **Germany**: This publication is not intended to constitute a public offer under German law. It is distributed only for information purposes to clients of UBS Europe SE, Germany, with place of business at Bockenheimer Landstrasse 2-4, 60306 Frankfurt am Main. UBS Europe SE is a credit institution constituted under German law in the form of a Societas Europaea, duly authorized by the German Federal Financial Services Supervisory Authority (Bundesanstalt für Finanzdienstleistungsaufsicht, "BaFin") and supervised jointly by the European Central Bank, the German Central Bank (Deutsche Bundesbank) and BaFin, to which this publication has not been submitted for approval. **Hong Kong SAR**: This publication is distributed to clients of UBS AG Hong Kong Branch by UBS AG Hong Kong Branch, a licensed bank under the Hong Kong Banking Ordinance and a registered institution under the Securities and Futures Ordinance. UBS AG Hong Kong Branch is incorporated in Switzerland with limited liability. The contents of this material have not been reviewed by any regulatory authority in Hong Kong. **Indonesia**: This communication and any offering material term sheet, research report, other product or service documentation or any other information (the "Material") sent with this communication was done so as a result of a request received by UBS from you and/or persons entitled to make the request on your behalf. Should you have received the Material erroneously, UBS asks that you kindly delete/destroy the communication and Material and inform UBS immediately. The Material, where provided, was provided for your information only and is not to be further distributed in whole or in part in or into your jurisdiction without the consent of UBS. The Material may not have been reviewed, approved, disapproved, endorsed, registered or filed with any financial or regulatory authority in your jurisdiction. UBS has not, by virtue of the Material, made available, issued any invitation to subscribe for or to purchase any investment (including securities or derivatives products). The Material is neither an offer nor a solicitation to enter into any transaction or contract (including futures contracts) nor is it an offer to buy or to sell any securities or derivatives products. The relevant investments will be subject to restrictions and obligations on transfer as set forth in the Material, and by receiving the Material you undertake to comply fully with such restrictions and obligations. You should carefully study and ensure that you understand and exercise due care and discretion in considering your investment objective, risk appetite and personal circumstances against the risk of the investment. You are advised to seek independent professional advice in case of doubt. Any and all advice provided on and/or trades executed by UBS pursuant to the Material will only have been provided upon your specific request or executed upon your specific instructions, as the case may be, and may be deemed as such by UBS and you. **Israel**: UBS is a premier global financial firm offering wealth management, asset management and investment banking services from its headquarters in Switzerland and its operations in over 50 countries worldwide to individual, corporate and institutional investors. This publication is intended for information only and is not intended as an offer to buy or solicitation of an offer. Furthermore, this publication is not intended as an investment advice. Nothing contrary to the above, no action has been, or will be, taken in Israel that would permit an offering of the product(s) mentioned in this document or a distribution of this document to the public in Israel. In particular, this document has not been reviewed or approved by the Israeli Securities Authority. The product(s) mentioned in this document is/are being offered to a limited number of sophisticated investors who qualify as one of the investors listed in the first supplement to the Israeli Securities Law, 5728-1968. This document may not be reproduced or used for any other purpose, nor be furnished to any other person other than those to whom copies have been sent. Anyone who purchases the product(s) mentioned herein shall do so for its own benefit and for its own account and not with the aim or intention of distributing or offering the product(s) to other parties. Anyone who purchases the product(s) shall do so in accordance with its own understanding and discretion and after it has received any relevant financial, legal, business, tax or other advice or opinion required by it in connection with such purchase(s). The word "advice" and/or any of its equivalent terms shall be read and construed in conjunction with the definition of the term "investment marketing" as defined under the Israeli Regulation of Investment Advice, Investment Marketing and Portfolio Management Law. The Swiss laws and regulations require a number of mandatory disclosures to be made in independent financial research reports or recommendations. Pursuant to the Swiss Financial Market Infrastructure Act and the Financial Market Infrastructure Ordinance-FINMA, banks must disclose the percentage of voting rights they hold in companies being researched, if these holdings are equal to or exceed the statutory thresholds. In addition, the Directives on the Independence of Financial Research, issued by the Swiss Bankers Association, mandate a number of disclosures, including the disclosure of potential conflicts of interest, the participation within previous 12 months in any securities issues on behalf of the company being researched, as well as the fact that remuneration paid to the financial analysts is based generally upon the performance of (i) the new issues department or investment banking; or (ii) securities trading performance (including proprietary trading) or sales. **Italy**: This publication is not intended to constitute a public offer under Italian law. It is distributed only for information purposes to clients of UBS Europe SE, Succursale Italia, with place of business at Via del Vecchio Politecnico, 3-20121 Milano. UBS Europe SE, Succursale Italia is subject to the joint supervision of the European Central Bank, the German Central Bank (Deutsche Bundesbank), the German Federal Financial Services Supervisory Authority (Bundesanstalt für Finanzdienstleistungsaufsicht, "BaFin"), as well as of the Bank of Italy (Banca d'Italia) and the Italian Financial Markets Supervisory Authority (CONSOB - Commissione Nazionale per le Società e la Borsa), to which this publication has not been submitted for approval. UBS Europe SE is a credit institution constituted under German law in the form of a Societas Europaea, duly authorized by BaFin. **Japan**: This report is solely distributed in Japan by UBS SuMi TRUST Wealth Management Co., Ltd, Financial Instruments Dealer, Director-General of Kanto Local Finance Bureau (Kinsho) No. 3233, a member of the Japan Securities Dealers Association, Financial Futures Association of Japan, Investment Management Association of Japan. UBS SuMi TRUST Wealth Management Co., Ltd will not distribute or forward this report outside Japan. **Jersey**: UBS AG, Jersey Branch, is regulated and authorized by the Jersey Financial Services Commission for the conduct of banking, funds and investment business. Where services are provided from outside Jersey, they will not be covered by the Jersey regulatory regime. UBS AG, Jersey Branch is a branch of UBS AG a public company limited by shares, incorporated in Switzerland whose registered offices are at Aeschenvorstadt 1, CH-4051 Basel and Bahnhofstrasse 45, CH 8001 Zurich. UBS AG, Jersey Branch's principal place of business is 1, IFC Jersey, St Helier, Jersey, JE2 3BX. **Luxembourg**: This publication is not intended to constitute a public offer under Luxembourg law. It is distributed only for information purposes to clients of UBS Europe SE, Luxembourg Branch ("UBS Luxembourg"), R.C.S. Luxembourg n° B209123, with registered office at 33A, Avenue J. F. Kennedy, L-1855 Luxembourg. UBS Luxembourg is furthermore supervised by the Luxembourg prudential supervisory authority (Commission de Surveillance du Secteur Financier), in its role as host member state authority. This publication has not been submitted for approval to any public supervisory authority. **Malaysia**: This communication and any offering material term sheet, research report, other product or service documentation or any other information (the "Material") sent with this communication was done so as a result of a request received by UBS from you and/or persons entitled to make the request on your behalf. Should you have received the Material erroneously, UBS asks that you kindly delete/destroy the communication and Material and inform UBS immediately. The Material, where provided, was provided for your information only and is not to be further distributed in whole or in part in or into your jurisdiction without the consent of UBS. The Material may not have been reviewed, approved, disapproved, endorsed, registered or filed with any financial or regulatory authority in your jurisdiction. UBS has not, by virtue of the Material, made available, issued any invitation to subscribe for or to purchase any investment (including securities or derivatives products). The Material is neither an offer nor a solicitation to enter into any transaction or contract (including future contracts) nor is it an offer to buy or to sell any securities or derivatives products. The relevant

investments will be subject to restrictions and obligations on transfer as set forth in the Material, and by receiving the Material you undertake to comply fully with such restrictions and obligations. You should carefully study and ensure that you understand and exercise due care and discretion in considering your investment objective, risk appetite and personal circumstances against the risk of the investment. You are advised to seek independent professional advice in case of doubt. Any and all advice provided on and/or trades executed by UBS pursuant to the Material will only have been provided upon your specific request or executed upon your specific instructions, as the case may be, and may be deemed as such by UBS and you. **Mexico**: This information is distributed by UBS Asesores México, S.A. de C.V. ("UBS Asesores"), an affiliate of UBS Switzerland AG, incorporated as a non-independent investment advisor under the Mexican regulation due to the relation with a Foreign Bank. UBS Asesores is registered under number 30060-001-(14115)-21/06/2016 and subject to the supervision of the Mexican Banking and Securities Commission ("CNBV") exclusively regarding the rendering of (i) portfolio management services, (ii) securities investment advisory services, analysis and issuance of individual investment recommendations, and (iii) anti-money laundering and terrorism financing matters. This UBS publication or any material related thereto is addressed only to Sophisticated or Institutional Investors located in Mexico. Research reports only reflect the views of the analysts responsible for the report. The compensation of the analyst(s) who prepared this report is determined exclusively by research management and senior management of any entity of UBS Group to which such analyst(s) render(s) services. **Monaco**: This document is not intended to constitute a public offering or a comparable solicitation under the Principality of Monaco laws, but might be made available for information purposes to clients of UBS (Monaco) S.A., a regulated bank having its registered office at 2 avenue de Grande Bretagne 98000 Monaco operating under a banking license granted by the "Autorité de Contrôle Prudentiel et de Résolution" (ACPR) and the Monegasque government which authorizes the provision of banking services in Monaco. UBS (Monaco) S.A. is also licensed by the "Commission de Contrôle des Activités Financières" (CCAF) to provide investment services in Monaco. The latter has not approved this publication. **Philippines:** This communication was done so as a result of a request received by UBS from you and/or persons entitled to make the request on your behalf. Should you have received the Material erroneously, UBS asks that you kindly delete/destroy the communication and Material and inform UBS immediately. The Material, where provided, was provided for your information only and is not to be further distributed in whole or in part in or into your jurisdiction without the consent of UBS. The Material may not have been reviewed, approved, disapproved, endorsed, registered or filed with any financial or regulatory authority in your jurisdiction. UBS has not, by virtue of the Material, made available, issued any invitation to subscribe for or to purchase any investment (including securities or derivatives products). The Material is neither an offer nor a solicitation to enter into any transaction or contract (including future contracts) nor is it an offer to buy or to sell any securities or derivatives products. The relevant investments will be subject to restrictions and obligations on transfer as set forth in the Material, and by receiving the Material you undertake to comply fully with such restrictions and obligations. You should carefully study and ensure that you understand and exercise due care and discretion in considering your investment objective, risk appetite and personal circumstances against the risk of the investment. You are advised to seek independent professional advice in case of doubt. Any and all advice provided on and/or trades executed by UBS pursuant to the Material will only have been provided upon your specific request or executed upon your specific instructions, as the case may be, and may be deemed as such by UBS and you. **Portugal**: This publication is not intended to constitute a public offer under Portuguese law. It is distributed only for information purposes by UBS Europe SE, Sucursal em Portugal (UBS Portugal), Commercial Register of Lisbon (Conservatoria do Registo comercial de Lisboa) no. 980492491, with registered office at Avenida da Liberdade, n. 0 180-A, 8.0 andar, 1250-146 Lisboa. UBS Portugal is a branch of UBS Europe SE, a credit institution constituted under German law in the form of a Societas Europaea (HRB n° 107046), with registered office at Bockenheimer Landstrasse 2-4, D-60306 Frankfurt am Main, Germany, duly authorized by the German Federal Financial Supervisory Authority (Bundesanstalt für Finanzdienstleistungsaufsicht – "BaFin") and subject to the joint prudential supervision of BaFin, the central bank of Germany (Deutsche Bundesbank) and the European Central Bank. UBS Portugal is furthermore supervised by the Portuguese banking and financial authorities as the "Banco de Portugal" and the "Comissão do Mercado dos Valores Mobiliários" in their role as host member state authority. This publication has not been submitted for approval to any public supervisory authority. **Qatar**: UBS Qatar LLC is licensed by the Qatar Financial Centre Authority and authorized by the QFC Regulatory Authority, with QFC no. 01169, and has its registered office at Lusail - Qatar, 14th Floor, Office No. 5 and 6, Building No. 157, Burj Alfardan, Al Majdami. This material is strictly intended for Eligible Counterparties and/or Business Customers only as classified under the QFCRA's Customer and Investor Protection Rules 2019. No other person should act upon this material. **Russia**: This document or information contained therein is for information purposes only and constitutes neither a public nor a private offering, is not an invitation to make offers, to sell, exchange or otherwise transfer any financial instruments in the Russian Federation to or for the benefit of any Russian person or entity and does not constitute an advertisement or offering of securities in the Russian Federation within the meaning of Russian securities laws. The information contained herein is not an "individual investment recommendation" as defined in Federal Law of 22 April 1996 No 39-FZ "On Securities Market" (as amended) and the financial instruments and operations specified herein may not be suitable for your investment profile or your investment goals or expectations. The determination of whether or not such financial instruments and operations are in your interests or are suitable for your investment goals, investment horizon or the acceptable risk level is your responsibility. We assume no liability for any losses connected with making any such operations or investing into any such financial instruments and we do not recommend to use such information as the only source of information for making an investment decision. **Saudi Arabia**: This material is for marketing and information purposes by UBS Saudi Arabia only. It has been distributed by UBS Saudi Arabia or reviewed and approved by UBS Saudi Arabia if it was issued by UBS Switzerland AG, by UBS AG, or any of its subsidiaries or branches. UBS Switzerland AG is a public company limited by shares, incorporated in Switzerland with its registered offices at Bahnhofstrasse 45, CH-8001 Zurich. UBS Saudi Arabia (a subsidiary of UBS AG) is a Saudi closed joint stock company incorporated in the Kingdom of Saudi Arabia with a paid capital of 110,000,000 Saudi Riyals under commercial register number 1010257812 having its registered office at Laysen Valley, P.O. Box 75724, Riyadh 11588, Kingdom of Saudi Arabia. UBS Saudi Arabia is authorized and regulated by the Capital Market Authority to conduct securities business under license number 08113-37. This document is distributed only under such circumstances as may be permitted by applicable laws and regulations. The information and – if any - opinions contained in this document have been compiled or arrived at based upon information obtained from sources believed to be reliable and in good faith, but is not guaranteed as being accurate, nor is it a complete statement or summary of the securities, markets or developments referred to in the document. All such information and opinions are subject to changes without notice. Past performance of investments (whether simulated or actual) is not necessarily an indicator of future results. Forward looking data is based on estimates that are subject to changes. Should the currency of a financial product or service not match your reference currency, performance may rise or fall due to currency fluctuations. UBS Switzerland AG and / or other members of the UBS Group may have a position in and may make a purchase and/or sale of any of the securities or other financial instruments mentioned in this document While statements that constitute "forward-looking statements", including, but not limited to, statements relating to our future business development represent UBS judgments and future expectations concerning the development of our business, a number of risks, uncertainties and other important factors could cause actual developments and results to differ materially from our expectations. This document may not be forwarded, reproduced, redistributed or republished for any purpose without the written permission of UBS Saudi Arabia. Source for all data and charts (if not indicated otherwise) is UBS Switzerland AG. **Singapore**: Where applicable, this material is distributed in Singapore by UBS AG, Singapore Branch, which is licensed by the Monetary Authority of Singapore under the Banking Act 1970 to carry on banking business. UBS AG is incorporated in Switzerland with limited liability. UBS AG has a branch registered in Singapore (UEN S98FC5560C). This material has been prepared and issued for distribution in Singapore to institutional investors, accredited investors and expert investors (each as defined under the Financial Advisers Regulations (the "FAR")) only. By virtue of your status as an institutional investor, accredited investor, or expert investor, UBS AG is exempted from complying with certain requirements under the Financial Advisers Act 2001 (the "FAA"), the FAR and the relevant Notices and Guidelines issued thereunder, in respect of any financial advisory service which UBS AG may provide to you. These include exemptions from complying with: Section 34 of the FAA (pursuant to Regulation 33(1) of the FAR); Section 36 of the FAA (pursuant to Regulation 34(1) of the FAR); and Section 45 of the FAA (pursuant to Regulation 35(1) of the FAR). Singapore recipients and clients of UBS AG, Singapore Branch should contact UBS AG, Singapore Branch for any matters arising from, or in connection with, this material. Where applicable, this communication and any offering material term sheet, research report, other product or service documentation or any other information (the "Material") sent with this communication was done so as a result of a request received by UBS from you and/or persons entitled to make the request on your behalf. Should you have received the Material erroneously, UBS asks that you kindly delete/destroy the communication and Material and inform UBS immediately. The Material, where provided, was provided for your information only and is not to be further distributed in whole or in part in or into your jurisdiction without the consent of UBS. Strong margin recovery drives Q326 EPS beat

Q326 EPS came in ahead at NT$1.89 vs. UBSe/street of NT$1.27/1.47 due to higher margins. Q326 sales was already posted through monthly sales at NT$8.4bn, +14% QoQ, supported by robust demand from memory (51% of sales, +13% QoQ) on improving commodity DRAM volume and better momentum from driver IC due to OLED iPhone ramp (27% of DDIC sales, +46% QoQ), while it also raised memory backend ASP to reflect rising component cost. Q326 GM improved to 21.7% (+3.7ppt QoQ) on better pricing, lower pass through for bumping and higher loading, and exceeded our estimate of 18.6%. Q326 OPEX remains well controlled at 6.4% of sales, while it also booked one-off other operating income of NT$373mn, resulting in better OPM of 19.7%.

Memory and OLED momentum to sustain into Q426

ChipMOS sees better momentum for memory over driver IC business into Q426F on continued strength from commodity DRAM and improving NAND Flash outlook. For its DDIC/bumping business, despite softer end-demand for consumer electronics, particularly PC and Android smartphone, ChipMOS noted the seasonal build for OLED iPhone should provide some cushion for its driver IC sales. Management noted it will continue to optimize its product portfolio and divest lower-end capacity, while negotiates with its customers on pass through higher component cost if needed. We forecast ChipMOS's Q426E sales to grow 2% QoQ, with GM expanding by 0.3ppt QoQ to 22.0% on better product mix and normalized electricity cost.

Optics and AI ASIC testing support 2027E growth

Management noted its copper bumping for US customers' next-generation products remain under qualification and expects to see more meaningful revenue contribution by late-2027F or 2028F. In the meantime, it is working with the customer on producing some legacy products in 2027F, although revenue contribution remains limited. As optics-related business carries significantly better pricing than traditional DDIC bumping, ChipMOS will prioritize its driver IC/bumping resource for optics and OLED DDI, instead for Korean customer's outsourcing. Separately, ChipMOS continues to expand its ASIC testing roadmap, having already entered mass production for smartphone AP and expecting to progress to smartphone SoC testing, followed by ASIC final test opportunities if the current program ramps successfully through H127.

Valuation: Reiterate Buy rating with price target of NT$155

We raise our 2026-28E EPS by 6-23% on improving GM profile driven by more favorable mix but trim our PT from NT$166 to NT$155 as we apply a lower multiple of 20x 2027-28E average PE (from 23x) given the recent market valuation contraction. Reiterate Buy rating on improving margin profiles new AI (optics and logic testing) initiatives.

Company Description

ChipMOS is a semiconductor back-end supplier with 45-50% of its sales from display driver IC (~40% from TV and 40% from smartphone and IT and 20% from automotive), 35-40% from memory (~40% DRAM, ~40% from specialty flash and ~20% from mainstream NAND) and 10-15% from logic (TV SoC) and mixed signal IC (MEMS, PMIC).

Valuation Method and Risk Statement

Our price target for ChipMOS is based on a target PE multiple. Downside risks include a weaker-than-expected tech end-market demand recovery, growing China competition, failure to diversify into the SiPh/optical component bumping business and a slower ramp of its logic testing business.

Quantitative Research Review

UBS Global Research publishes a quantitative assessment of its analysts' responses to certain questions about the likelihood of an occurrence of a number of short term factors in a product known as the 'Quantitative Research Review'. The views for this month can be found below. Views contained in this assessment on a particular stock reflect only the views on those short term factors which are a different timeframe to the 12-month timeframe reflected in any equity rating set out in this note. For previous responses please make reference to (i) previous UBS Global Research reports; and (ii) where no applicable research report was published that month, the Quantitative Research Review which can be found at https://neo.ubs.com/quantitative, or contact your UBS sales representative for access to the report or the Quantitative Research Team on ubs-quant-answers@ubs.com. A consolidated report which contains all responses is also available and again you should contact your UBS sales representative for details and pricing or the Quantitative Research Team on the email above.

ChipMOS Technologies

Question	Response
1. Is the industry structure facing the firm likely to improve or deteriorate over the next six months? Rate on a scale of 1-5 (1 = getting worse, 3 = no change, 5 = getting better, N/A = no view)	4
2. Is the regulatory/government environment facing the firm likely to improve or deteriorate over the next six months? Rate on a scale of 1-5 (1 = getting tougher 3 = no change, 5 = getting better, N/A = no view)	3
3. Over the last 3-6 months in broad terms have things been improving/no change/getting worse for this stock? Rate on a scale of 1-5 (1 = getting a lot worse, 3 = not much change, 5 = getting a lot better, N/A = no view)	4
4. Relative to the current CONSENSUS EPS forecast, is the next company EPS update likely to lead to: (1 = negative surprise vs consensus, 3 = in-line with consensus, 5 = positive surprise vs consensus expectations, N/A = no view)	4
5. What's driving the difference?	
6. Relative to YOUR current earnings forecast, is there relatively greater risk at the next earnings result of:(1 = downside skew risk to earnings, 3 = equal upside or downside risk to earnings, 5 = upside skew risk to earnings, N/A = no view)	3
7. What's driving the difference?	
8. Is there an upcoming catalyst for the company over the next three months?	
9. Is there an actual or approximate date for the catalyst?	
10. Is the catalyst date an actual or approximate date?	
11. What is the catalyst?	

Required Disclosures

This document has been prepared by UBS Securities Pte. Ltd., Taipei Branch, an affiliate of UBS AG. UBS AG, its subsidiaries, branches and affiliates, including former Credit Suisse AG and its subsidiaries, branches and affiliates are referred to herein as "UBS".

For information on how UBS manages conflicts and maintains the independence of its UBS Global Research product; historical performance information; certain additional disclosures concerning UBS Global Research recommendations; and terms and conditions for certain third party data used in research report, please visit https://www.ubs.com/disclosures. Unless otherwise indicated, information and data in this report are based on company disclosures including annual, interim and quarterly reports and other company announcements. Figures in performance charts refer to the past; past performance is not a reliable indicator of future results. Additional information will be made available on request. UBS Securities Co. Limited is licensed by the China Securities Regulatory Commission to conduct securities investment consultancy businesses. UBS acts or may act as principal in the debt securities (or in related derivatives) that may be the subject of this report. This recommendation was finalized on: 10 November 2026 01:34 PM GMT. UBS has designated certain UBS Global Research department members as Derivatives Research Analysts where they publish research principally on the analysis of the price or market for a derivative, and provide information reasonably sufficient on which to base a decision to enter into a derivatives transaction. Where Derivatives Research Analysts co-author research reports with Equity Research Analysts or Economists, the Derivatives Research Analyst is responsible for the derivatives investment views, forecasts, and/or recommendations. **Quantitative Research Review:** UBS Global Research publishes a quantitative assessment of its analysts' responses to certain questions about the likelihood of a number of short term factors occurring, in a product known as the 'Quantitative Research Review'. Views in this assessment on a particular stock reflect only those short term factors and a timeframe different to the 12-month timeframe reflected in any equity rating set out in this document. For the latest responses, please see the Quantitative Research Review Addendum at the back of this document, where applicable. For previous responses, please refer to: (i) previous UBS Global Research reports and (ii) where no applicable research report was published that month, the Quantitative Research Review at https://neo.ubs.com/quantitative, or contact your UBS sales representative for access to the report or the Quantitative Research Team at ubs-quant-answers@ubs.com. A consolidated report containing all responses is also available; for details and pricing, please contact your UBS sales representative or the Quantitative Research team at the above email.

Analyst Certification:
Each research analyst primarily responsible for the content of this research report, in whole or in part, certifies that, with respect to each security or issuer that the analyst covered in this report: (1) all views expressed accurately reflect their personal views about those securities or issuers and were prepared independently, including with respect to UBS, and (2) no part of their compensation was, is, or will be, directly or indirectly, related to the specific recommendations or views expressed by that research analyst in the research report.

UBS Global Research: Global Equity Rating Definitions

12-Month Rating	Definition	Coverage[1]	IB Services[2]
Buy	FSR is > 6% above the MRA.	55%	24%
Neutral	FSR is between -6% and 6% of the MRA.	39%	20%
Sell	FSR is > 6% below the MRA.	6%	21%

Source: UBS. Rating allocations are as of 30 September 2026.
1:Percentage of companies under coverage globally within the 12-month rating category.
2:Percentage of companies within the 12-month rating category for which investment banking (IB) services were provided within the past 12 months.

KEY DEFINITIONS:Forecast Stock Return (FSR) is expected percentage price appreciation plus gross dividend yield over the next 12 months. In some cases, this yield may be based on accrued dividends. **Market Return Assumption (MRA)** is the one-year local market interest rate plus 5% (a proxy for, and not a forecast of, the equity risk premium). **Under Review (UR)** Stocks may be flagged by the analyst to indicate that the stock's price target and/or rating may change in the near term, usually in response to an event that may affect the investment case or valuation. **Equity Price Targets** have a 12-month investment horizon.

EXCEPTIONS AND SPECIAL CASES:UK and European Investment Fund ratings and definitions are: Buy: Positive on factors such as structure, management, performance record and discount; **Neutral:** Neutral on factors such as structure, management, performance record and discount; **Sell:** Negative on factors such as structure, management, performance record and discount. **Core Banding Exceptions (CBE):** Exceptions to the standard +/-6% bands may be granted by the Investment Review Consultation (IRC). Factors considered by the IRC include the stock's volatility and the credit spread of the respective company's debt. As a result, stocks deemed very high or low risk may be subject to higher or lower bands for rating purposes. Where such exceptions apply, they will be identified in the Company Disclosures table in the relevant research piece.

Research analysts contributing to this report who are employed by a non-US affiliate of UBS Securities LLC are not registered or qualified as research analysts with FINRA. Such analysts may not be associated persons of UBS Securities LLC and therefore are not subject to FINRA restrictions on communications with a subject company, public appearances, and trading securities held by a research analyst account. The name of each affiliate and analyst employed by that affiliate contributing to this report, if any, follows.

UBS Securities Pte. Ltd., Taipei Branch: Annie Chen, Jerry Su.

UBS Global Research Disclaimer

This document has been prepared by UBS Securities Pte. Ltd., Taipei Branch, an affiliate of UBS AG. UBS AG, its subsidiaries, branches and affiliates, including former Credit Suisse AG and its subsidiaries, branches and affiliates are referred to herein as "UBS".

Any opinions in this document may change without notice and are current only as of the publication date. Different areas, groups, and personnel within UBS may independently produce and distribute separate research products. For example, research publications from **UBS CIO** are produced by UBS Global Wealth Management. **UBS Global Research** is produced by UBS Investment Bank. Each research organization may use different methodologies and rating systems, including investment recommendations, investment horizon, model assumptions, and valuation methods. Accordingly, except for certain economic forecasts on which UBS CIO and UBS Global Research may collaborate, investment recommendations, ratings, price targets, and valuations from those research organizations may differ or be inconsistent. You should refer to each relevant research product for details of its methodology and rating system. Not all clients may have access to all products from every organization. Each research product is subject to the policies and procedures of the organization that produces it.

UBS Global Research is primarily intended for institutional/professional/wholesale clients, and not for retail clients or private individuals (excluding via any UBS approved distribution channel for such clients), as defined under the governing law and regulation of the relevant client jurisdiction.

This document is provided solely to recipients who are expressly authorized by UBS to receive it. If you are not so authorized you must immediately destroy it.

UBS Global Research is provided to our clients through UBS Neo and, in certain instances, UBS.com and any other system or distribution method specifically identified in one or more communications distributed through UBS Neo or UBS.com (each, a "System") as an approved means of distributing UBS Global Research. It may also be made available through third party vendors and distributed by UBS and/or third parties by e-mail or other electronic means.

All UBS Global Research is available on UBS Neo. Please contact your UBS sales representative if you wish to discuss access to UBS Neo. Where UBS Global Research refers to "UBS Evidence Lab Inside" or uses data provided by UBS Evidence Lab, and you would like access to that data, please contact your UBS sales representative. UBS Evidence Lab data is available on UBS Neo. The level and types of services provided by UBS Global Research and UBS Evidence Lab to a client may vary depending on factors including a client's preferences as to the frequency and manner of receiving communications, risk profile, and investment focus and perspective (e.g., market wide, sector specific, long-term, short-term), the size and scope of the overall client relationship with UBS Global Research and UBS Evidence Lab, and legal and regulatory constraints. UBS HOLT and UBS Pharma Values are offerings of UBS Global Research. HOLT Lens is a corporate performance platform offering that provides an objective accounting-led framework for comparing and valuing companies and is available to clients of UBS Global Research; for details and pricing, please contact your UBS Sales representative. In particular, HOLT has a variety of warranted prices based on the scenario chosen; if you are interested in the warranted price for a particular company, please mail UBS Securities LLC, 11 Madison Avenue, New York, NY 10010, USA, Attention: Investment Research, subject again to commercial considerations. UBS Pharma Values is an analytical tool involving individual product net present value calculations based on published forecasts of pharmaceutical sales, and is available to clients of UBS Global Research; for details and pricing, please contact your UBS Sales representative. For all other specific disclaimers, please see https://www.ubs.com/disclosures.

When you receive UBS Global Research through a System, your access to and/or use of it is subject to this UBS Global Research Disclaimer, the UBS Neo Platform Use Agreement (the "Neo Terms"), and any other relevant terms of use governing the applicable System.

When you receive UBS Global Research via a third party vendor, e-mail or other electronic means, you agree that use shall be subject to this UBS Global Research Disclaimer, the Neo Terms and where applicable the UBS Investment Bank terms of business (https://www.ubs.com/global/en/investment-bank/regulatory.html) and to UBS's Terms of Use/ Disclaimer (https://www.ubs.com/global/en/legalinfo2/disclaimer.html). In addition, you consent to UBS processing your personal data and using cookies in accordance with our Privacy Statement (https://www.ubs.com/global/en/legalinfo2/privacy.html) and Cookie Notice (https://www.ubs.com/global/en/legal/privacy/users.html).

If you receive UBS Global Research, whether through a System or otherwise, you agree not to copy, revise, amend, create derivative works, provide to any third party, or in any way commercially exploit any UBS research provided via UBS Global Research or otherwise, and not to extract data from any research or estimates provided to you via UBS Global Research or otherwise, without UBS's prior written consent. You also agree not to use UBS Global Research in any artificial intelligence system without UBS's prior written consent.

In certain circumstances, you may receive UBS Global Research other than in your capacity as a UBS client and, you understand and agree that in those circumstances: (i) UBS Global Research is provided to you for information purposes only; (ii) for the purpose of receiving it, you are not intended to be and will not be treated as a "client" of UBS for any legal or regulatory purpose; (iii) UBS Global Research must not be relied on or acted upon for any purpose; and (iv) such content is subject to the relevant disclaimers that follow.

This document may be distributed only as permitted by law. It is not directed to, or intended for distribution to or use by, any person or entity that is a citizen or resident of, or located in, any locality, state, country or other jurisdiction where such distribution, publication, availability or use would be contrary to law or regulation or would subject UBS to any registration or licensing requirement in that jurisdiction.

This document is a general communication and educational in nature; it is not an advertisement, solicitation or offer to buy or sell any financial instrument or to participate in any particular trading strategy. Nothing in this document constitutes a representation that any investment strategy or recommendation is suitable or appropriate to an investor's individual circumstances or otherwise constitutes a personal recommendation. By providing this document, neither UBS nor its representatives has any responsibility or authority to provide, or to have provided, investment advice in a fiduciary or any other capacity. Investments involve risks, and investors should exercise prudence and their own judgment in making investment decisions. Neither UBS nor its representatives is suggesting that the recipient or any other person take a specific course of action, or any action at all. The recipient should read this document carefully and in full and not draw inferences or conclusions from the rating alone. By receiving this document, the recipient acknowledges and agrees with the intended purpose described above and further disclaims any expectation or belief that the information constitutes investment advice to the recipient or otherwise purports to meet the recipient's investment objectives. The financial instruments described in this document may not be eligible for sale in all jurisdictions or to certain categories of investors.

Options, structured derivative products and futures (including OTC derivatives) are not suitable for all investors. Trading in these instruments is risky and may be appropriate only for sophisticated investors. Before buying or selling an option, you must receive a copy of "The Characteristics and Risks of Standardized Options" for a full description of options risks. You may read it at https://www.theocc.com/publications/risks/riskchap1.jsp or ask your salesperson for a copy. Various theoretical explanations of the risks of these instruments have been published. Supporting documentation for any claims, comparisons, recommendations, statistics or other technical data will be supplied on request. Past performance is not necessarily indicative of future results. Transaction costs may be significant in option strategies involving multiple purchases and sales, such as spreads and straddles. As tax considerations are important to many options transactions, investors considering options should consult their tax advisor on how taxes affect the outcome of contemplated options transactions.

Mortgage- and asset-backed securities may involve a high degree of risk and be highly volatile in response to interest rate fluctuations or other market conditions. Foreign currency exchange rates may adversely affect the value, price or income of any security or related instrument referred to in this document. For investment advice, trade execution or other inquiries, clients should contact their local sales representative.

UBS notes that no globally accepted framework or definition (legal, regulatory or otherwise) currently exists, and there is no market consensus, as to what constitutes "ESG" (Environmental, Social or Governance) or an equivalent label, or what precise attributes are required for the Information (as defined below) to be defined as ESG or equivalently labelled. Any information, data or other content, including from third party sources, contained or referred to herein or used by UBS or a third party for any purpose ("Information"), in relation to any actual or potential ESG objective, issue or consideration, is not intended to be relied upon for ESG classification, regulatory regime or industry initiative purposes ("ESG Regimes"). Nothing in this document is intended to convey, suggest or indicate that UBS considers or represents any product, service, person or body mentioned in it to meet or qualify for any ESG classification, labelling or similar standards that may exist under ESG Regimes. UBS has not assessed compliance with ESG Regimes. Parties should make their own assessments for these purposes.

The value of any investment or income may go down as well as up, and investors may not get back the full (or any) amount invested. Past performance is not necessarily a guide to future performance. Neither UBS nor any of its directors, employees or agents accepts liability for any loss (including investment loss) or damage arising out of the use of any of the Information.

Before making any investment or financial decision, any recipient of this document or the information should take steps to understand the investment's risk and return and seek individualized advice from their personal financial, legal, tax and other professional advisors, taking into account all relevant facts and circumstances of their investment objectives.

Any prices stated in this document are for information purposes only and do not represent valuations of individual securities or other financial instruments. There is no representation that any transaction can or could have been effected at those prices. They do not necessarily reflect UBS's internal books and records or theoretical model-based valuations and may be based on certain assumptions. Different assumptions by UBS or any other source may yield substantially different results.

No representation or warranty, express or implied, is given as to the accuracy, completeness or reliability of the information contained in any materials to which this document relates (the "Information"), except with respect to Information concerning UBS. The Information is not intended to be a complete statement or summary of the securities, markets or developments referred to in this document. UBS does not undertake to update or keep current the Information. Any statements contained in this document attributed to a third party represent UBS's interpretation of data, information and/or opinions provided by that third party,

publicly or through a subscription service, and such use and interpretation have not been reviewed by that third party. In no circumstances may this document or any Information, including any forecast, value, index or other calculated amount ("Values"), be used for: (i) valuation or accounting purposes; (ii) determining amounts due or payable, or the price or value of any financial instrument or financial contract; or (iii) measuring the performance of any financial instrument, including without limitation tracking the return or performance of any Value, defining the asset allocation of a portfolio or computing performance fees.

By receiving this document and the Information you will be deemed to represent and warrant to UBS that you will not use this document or any of the Information for any of those purposes or otherwise rely upon this document or any of the Information.

UBS has policies and procedures, including without limitation independence policies and permanent information barriers, intended, and relied on by UBS, to manage potential conflicts of interest and control the flow of information within UBS divisions and among its subsidiaries, branches and affiliates. UBS does and seeks to do business with companies covered in its research documents. As a result, investors should be aware that UBS may have a conflict of interest that could affect this document's objectivity. Investors should consider this document as only one factor in making an investment decision. For further information on how UBS Global Research manages conflicts and maintains the independence of its research products, historical performance information and certain additional disclosures concerning UBS Global Research recommendations, please visit https://www.ubs.com/disclosures.

UBS Global Research will initiate, update and cease coverage solely at the discretion of UBS Global Research Management, which also has sole discretion over the timing and frequency of any published research product. The analysis in this document is based on numerous assumptions. All material information relating to published research documents, such as valuation methodology, risk statements, underlying assumptions (including sensitivity analysis of those assumptions), ratings history and other information required by the Market Abuse Regulation, can be found on UBS Neo. Different assumptions could produce materially different results.

UBS Global Research may use artificial intelligence tools in the preparation of this document. Notwithstanding any such use, this document has undergone human review.

The analyst(s) responsible for preparing this document may interact with trading desk personnel, sales personnel and other parties to gather, apply and interpret market information. UBS relies on information barriers to control the flow of information from one or more areas within UBS to other areas, units, groups or affiliates. Compensation of the analyst(s) who prepared this document is determined exclusively by UBS Global Research management and senior management (excluding investment banking). It is not based on investment banking revenues; however, it may relate to the revenues of UBS and/or its divisions as a whole, including investment banking, sales and trading, and UBS as a whole.

For financial instruments admitted to trading on an EU regulated market: UBS (excluding UBS Securities LLC) acts as a market maker or liquidity provider (as those terms are interpreted under English law or, if the activity is not carried out by UBS in the UK, under the law of the relevant jurisdiction in which UBS determines it carries out the activity) in the issuer's financial instruments, except where liquidity provider activity is carried out in accordance with the definition under the laws and regulations of another EU jurisdiction, in which case it is separately disclosed in this document. For financial instruments admitted to trading on a non-EU regulated market: UBS may act as a market maker, except where that activity is carried out in the US in accordance with the definition under applicable laws and regulations, in which case it will be specifically disclosed in this document. UBS may have issued a warrant whose value is based on one or more financial instruments referred to in this document. UBS and its affiliates and employees may have long or short positions, trade as principal, and buy and sell instruments or derivatives identified herein; such transactions or positions may be inconsistent with the opinions expressed in this document.

Within the past 12 months, UBS may have received or provided investment services and activities or ancillary services under MiFID II that may have given rise to a payment or promise of payment in relation to those services from or to this company.

Please note that all transactions conducted by UBS are consistent with sanctions imposed by Switzerland, the European Union, the United Nations, the United Kingdom and the United States, in accordance with UBS's global sanctions policy. UBS's opinions as to future investment worthiness assume no new sanctions are imposed.

US persons are prohibited from purchasing or selling securities of certain companies designated as associated with the Chinese Military in accordance with amended US Presidential Executive Order 13959.

United Kingdom: Distributed by UBS AG, London Branch to eligible counterparties or professional clients. UBS AG, London Branch is authorised by the Prudential Regulation Authority ("PRA") and subject to regulation by the Financial Conduct Authority (FCA) and limited regulation by the PRA. **Europe:** Except as otherwise specified, distributed by UBS Europe SE, a subsidiary of UBS AG, to eligible counterparties or professional clients (as defined under the Bundesanstalt fur Finanzdienstleistungsaufsicht ("BaFin") Rules and MIFID II) and are available only to such persons. The information in this document does not apply to, and should not be relied on by, retail clients. UBS Europe SE is authorised by the European Central Bank ("ECB") and regulated by BaFin and the ECB. **Germany, Luxembourg, the Netherlands, Belgium and Ireland:** Where an analyst of UBS Europe SE has contributed to this document, it is also deemed to have been prepared by UBS Europe SE. In all cases, it is distributed by UBS Europe SE and UBS AG, London Branch. **Turkey:** Distributed by UBS AG, London Branch. No information in this document is provided for offering, marketing or sale by any means of any capital market instruments or services in the Republic of Turkey. Therefore, this document may not be considered an offer made or to be made to residents of the Republic of Turkey. UBS AG, London Branch is not licensed by the Turkish Capital Market Board under the Capital Market Law (Law No. 6362). Accordingly, neither this document nor any other offering material related to the instruments/services may be used in connection with providing capital market services to persons within the Republic of Turkey without the prior approval of the Capital Market Board. However, under article 15(d)(ii) of Decree No. 32, there is no restriction on the purchase or sale of securities abroad by residents of the Republic of Turkey. **Poland:** Distributed by UBS Europe SE (spolka z ograniczona odpowiedzialnoscia) Oddzial w Polsce ("UBS Poland"). Where an analyst of UBS Poland has contributed to this document, the document is also deemed to have been prepared by UBS Poland. **Russia:** Prepared and distributed by UBS Bank (OOO). It should not be construed as an individual Investment Recommendation for the purposes of articles 6.1 and 6.2 of Russian Federal Law No. 39-FZ "On the Securities Market". **Switzerland:** Distributed by UBS AG to institutional investors only. UBS AG is regulated by the Swiss Financial Market Supervisory Authority (FINMA). **Italy:** Prepared by UBS Europe SE and distributed by UBS Europe SE and UBS Europe SE, Italy Branch. Where an analyst of UBS Europe SE, Italy Branch has contributed to this document, it is also deemed to have been prepared by UBS Europe SE, Italy Branch. **France:** Prepared by UBS Europe SE and distributed by UBS Europe SE and UBS Europe SE, France Branch. Where an analyst of UBS Europe SE, France Branch has contributed to this document, it is also deemed to have been prepared by UBS Europe SE, France Branch. **Spain:** Prepared by UBS Europe SE and distributed by UBS Europe SE and UBS Europe SE, Spain Branch. Where an analyst of UBS Europe SE, Spain Branch has contributed to this document, it is also deemed to have been prepared by UBS Europe SE, Spain Branch. **Sweden:** Prepared by UBS Europe SE and distributed by UBS Europe SE and UBS Europe SE, Sweden Branch. Where an analyst of UBS Europe SE, Sweden Branch has contributed to this document, it is also deemed to have been prepared by UBS Europe SE, Sweden Branch. **South Africa:** Distributed by UBS South Africa (Pty) Limited (Registration No. 1995/011140/07), an authorised user of the JSE and an authorised Financial Services Provider (FSP 7328). **Saudi Arabia:** This document has been issued by UBS AG (and/or any of its subsidiaries, branches or affiliates), a public company limited by shares, incorporated in Switzerland with its registered offices at Aeschenvorstadt 1, CH-4051 Basel and Bahnhofstrasse 45, CH-8001 Zurich. This publication has been approved by UBS Saudi Arabia (a subsidiary of UBS AG), a Saudi closed joint stock company incorporated in the Kingdom of Saudi Arabia under commercial register number 1010257812 having its registered office at Tatweer Towers, P.O. Box 75724, Riyadh 11588, Kingdom of Saudi Arabia. UBS Saudi Arabia is authorized and regulated by the Capital Market Authority to conduct securities business under license number 08113-37. **UAE / Dubai:** Information distributed by UBS AG Dubai Branch is only intended for Professional Clients and/or Market Counterparties as classified under the DFSA rulebook. No other person should act on this document/communication. The information is not for further distribution within the United Arab Emirates. UBS AG Dubai Branch is regulated by the DFSA in the DIFC. UBS is not licensed to provide banking services in the UAE, nor by the UAE Securities and Commodities Authority. **Israel:** This document is distributed by UBS AG, London Branch. UBS Securities Israel Ltd is a licensed Investment Marketer supervised by the Israel Securities Authority (ISA). UBS AG, London Branch and its affiliates incorporated outside Israel are not licensed under the Israeli Advisory Law. UBS may engage among others in issuance of Financial Assets or distribution of Financial Assets of other issuers for fees or other benefits. UBS AG, London Branch and its affiliates may prefer various Financial Assets to which they have or may have an Affiliation (as defined under the Israeli Advisory Law). Nothing in this document should be considered investment advice under the Israeli Advisory Law. This document is only issued to and/or directed at persons who are Eligible Clients (within the meaning of the Israeli Advisory Law), and must not be furnished to, relied on or acted upon by any other person. **United States:** Distributed to US persons by UBS Securities LLC or UBS Financial Services Inc., subsidiaries of UBS AG, or by a group, subsidiary or affiliate of UBS AG not registered as a US broker-dealer (a "non-US affiliate") to major US institutional investors only. UBS Securities LLC or UBS Financial Services Inc. accepts responsibility for the content of a report prepared by another non-US affiliate when distributed to US persons by UBS Securities LLC or UBS Financial Services Inc. All transactions by a US person in the securities mentioned in this document must be effected through UBS Securities LLC or UBS Financial Services Inc., and not through a non-US affiliate. UBS Securities LLC is not acting as a municipal advisor to any municipal entity or obligated person within the meaning of Section 15B of the Securities Exchange Act (the "Municipal Advisor Rule"), and the opinions or views contained herein are not intended to be, and do not constitute, advice within the meaning of that rule. **Canada:** Distributed by UBS Securities Canada Inc., a registered investment dealer in Canada and a Member-Canadian Investor Protection Fund, or by another affiliate of UBS AG registered to conduct business in Canada or otherwise exempt from registration. **Brazil:** Except as otherwise specified herein, this document is prepared by UBS BB Corretora de Câmbio, Títulos e Valores Mobiliários S.A. ("UBS BB CCTVM") for eligible investors residing in Brazil who are considered Professional Investors (Investidores Profissionais) under applicable regulation, primarily CVM Resolution No. 30 of 11 May 2021 (which determines the duty to verify the suitability of products, services and transactions to the client's profile). UBS BB CCTVM is a subsidiary of UBS BB Servicos de Assessoria Financeira e Participacoes S.A. ("UBS BB"). UBS BB is an association between UBS AG and Banco do Brasil (through its subsidiary BB Banco de Investimentos S.A.), of which UBS AG is the majority owner, and provides investment banking services and coverage in Brazil, Argentina, Chile, Paraguay, Peru and Uruguay. UBS BB CCTVM is regulated by the Comissao de Valores Mobiliarios (CVM) and the Central Bank of Brazil. Ombudsman: 0800-940-0266 / https://www.ubs.com/br/pt/ubsbb-investment-bank/ombudsman.html**Hong Kong:** Distributed by UBS Securities Asia Limited. Global Wealth Management Disclaimer

You receive this document in your capacity as a client of UBS Global Wealth Management. This publication has been distributed to you by UBS Switzerland AG (regulated by FINMA in Switzerland) or its affiliates (**"UBS"**) with whom you have a banking relationship with. The full name of the distributing affiliate and its competent authority can be found in the country-specific disclaimer at the end of this document. UBS may utilise artificial intelligence tools ("AI Tools") in the preparation of this document. Notwithstanding any such use of AI Tools, this document has undergone human review.

The date and time of the first dissemination of this publication is the same as the date and time of its publication.

Risk information:

You agree that you shall not copy, revise, amend, create a derivative work, provide to any third party, or in any way commercially exploit any UBS research, and that you shall not extract data from any research or estimates, without the prior written consent of UBS.

This document is for distribution only as may be permitted by law. It is not directed to, or intended for distribution to or use by, any person or entity who is a citizen or resident of or located in any locality, state, country or other jurisdiction where such distribution, publication, availability or use would be contrary to law or regulation or would subject UBS to any registration or licensing requirement within such jurisdiction.

This document is **for your information only**; it is not an advertisement nor is it a solicitation or an offer to buy or sell any financial instruments or to participate in any particular trading strategy. Nothing in this document constitutes a representation that any investment strategy or recommendation is suitable or appropriate to an investor's individual circumstances or otherwise constitutes a personal recommendation. By providing this document, none of UBS or its representatives has any responsibility or authority to provide or have provided investment advice in a fiduciary capacity or otherwise. Investments involve risks, and investors should exercise prudence and their own judgment in making their investment decisions. None of UBS or its representatives is suggesting that the recipient or any other person take a specific course of action or any action at all. By receiving this document, the recipient acknowledges and agrees with the intended purpose described above and further disclaims any expectation or belief that the information constitutes investment advice to the recipient or otherwise purports to meet the investment objectives of the recipient. The financial instruments described in the document may not be eligible for sale in all jurisdictions or to certain categories of investors.

Options, derivative products and futures are not suitable for all investors, and trading in these instruments is considered risky. Mortgage and asset-backed securities may involve a high degree of risk and may be highly volatile in response to fluctuations in interest rates or other market conditions. Foreign currency rates of exchange may adversely affect the value, price or income of any security or related instrument referred to in the document. For investment advice, trade execution or other enquiries, clients should contact their local sales representative.

The value of any investment or income may go down as well as up, and investors may not get back the full (or any) amount invested. Past performance is not necessarily a guide to future performance. Neither UBS nor any of its directors, employees or agents accepts any liability for any loss (including investment loss) or damage arising out of the use of all or any of the information (as defined below).

Prior to making any investment or financial decisions, any recipient of this document or the information should take steps to understand the risk and return of the investment and seek individualized advice from his or her personal financial, legal, tax and other professional advisors that takes into account all the particular facts and circumstances of his or her investment objectives.

Any prices stated in this document are for information purposes only and do not represent valuations for individual securities or other financial instruments. There is no representation that any transaction can or could have been effected at those prices, and any prices do not necessarily reflect UBS's internal books and records or theoretical

model-based valuations and may be based on certain assumptions. Different assumptions by UBS or any other source may yield substantially different results.

No representation or warranty, either expressed or implied, is provided in relation to the accuracy, completeness or reliability of the information contained in any materials to which this document relates (the "Information"), except with respect to Information concerning UBS. The Information is not intended to be a complete statement or summary of the securities, markets or developments referred to in the document. UBS does not undertake to update or keep current the Information. Any opinions expressed in this document may change without notice and may differ or be contrary to opinions expressed by other business areas or groups, personnel or other representative of UBS. Any statements contained in this report attributed to a third party represent UBS's interpretation of the data, information and/or opinions provided by that third party either publicly or through a subscription service, and such use and interpretation have not been reviewed by the third party. In no circumstances may this document or any of the Information (including any forecast, value, index or other calculated amount ("Values")) be used for any of the following purposes: (i) valuation or accounting purposes; (ii) to determine the amounts due or payable, the price or the value of any financial instrument or financial contract; or (iii) to measure the performance of any financial instrument including, without limitation, for the purpose of tracking the return or performance of any Value or of defining the asset allocation of portfolio or of computing performance fees.

By receiving this document and the Information you will be deemed to represent and warrant to UBS that you will not use this document or any of the Information for any of the above purposes or otherwise rely upon this document or any of the Information.

UBS has policies and procedures, which include, without limitation, independence policies and permanent information barriers, that are intended, and upon which UBS relies, to manage potential conflicts of interest and control the flow of information within divisions of UBS (including between Global Wealth Management and UBS Global Research) and among its subsidiaries, branches and affiliates. For further information on the ways in which UBS manages conflicts and maintains independence of its research products, historical performance information and certain additional disclosures concerning UBS research recommendations, please visit https://www.ubs.com/research-methodology.

Research will initiate, update and cease coverage solely at the discretion of research management, which will also have sole discretion on the timing and frequency of any published research product. The analysis contained in this document is based on numerous assumptions. Different assumptions could result in materially different results.

The analyst(s) responsible for the preparation of this document may interact with trading desk personnel, sales personnel and other parties for the purpose of gathering, applying and interpreting market information. UBS relies on information barriers to control the flow of information contained in one or more areas within UBS into other areas, units, groups or affiliates of UBS. The compensation of the analyst who prepared this document is determined exclusively by research management and senior management (not including investment banking). Analyst compensation is not based on investment banking revenues; however, compensation may relate to the revenues of UBS and/or its divisions as a whole, of which investment banking, sales and trading are a part, and UBS's subsidiaries, branches and affiliates as a whole.

For financial instruments admitted to trading on an EU regulated market: UBS AG, its affiliates or subsidiaries (excluding UBS Securities LLC) acts as a market maker or liquidity provider (in accordance with the interpretation of these terms in the UK) in the financial instruments of the issuer save that where the activity of liquidity provider is carried out in accordance with the definition given to it by the laws and regulations of any other EU jurisdictions, such information is separately disclosed in this document. For financial instruments admitted to trading on a non-EU regulated market: UBS may act as a market maker save that where this activity is carried out in the US in accordance with the definition given to it by the relevant laws and regulations, such activity will be specifically disclosed in this document. UBS may have issued a warrant the value of which is based on one or more of the financial instruments referred to in the document. UBS and its affiliates and employees may have long or short positions, trade as principal and buy and sell in instruments or derivatives identified herein; such transactions or positions may be inconsistent with the opinions expressed in this document.

Options and futures are not suitable for all investors, and trading in these instruments is considered risky and may be appropriate only for sophisticated investors. Prior to buying or selling an option, and for the complete risks relating to options, you must receive a copy of "Characteristics and Risks of Standardized Options". You may read the document at https://www.theocc.com/about/publications/character-risks.jsp or ask your financial advisor for a copy.

Investing in structured investments involves significant risks. For a detailed discussion of the risks involved in investing in any particular structured investment, you must read the relevant offering materials for that investment. Structured investments are unsecured obligations of a particular issuer with returns linked to the performance of an underlying asset. Depending on the terms of the investment, investors could lose all or a substantial portion of their investment based on the performance of the underlying asset. Investors could also lose their entire investment if the issuer becomes insolvent. UBS does not guarantee in any way the obligations or the financial condition of any issuer or the accuracy of any financial information provided by any issuer. Structured investments are not traditional investments and investing in a structured investment is not equivalent to investing directly in the underlying asset. Structured investments may have limited or no liquidity, and investors should be prepared to hold their investment to maturity. The return of structured investments may be limited by a maximum gain, participation rate or other feature. Structured investments may include call features and, if a structured investment is called early, investors would not earn any further return and may not be able to reinvest in similar investments with similar terms. Structured investments include costs and fees which are generally embedded in the price of the investment. The tax treatment of a structured investment may be complex and may differ from a direct investment in the underlying asset. UBS and its employees do not provide tax advice. Investors should consult their own tax advisor about their own tax situation before investing in any securities.

Important Information About Sustainable Investing Strategies: This terminology refers to definitions in the UBS Sustainable Investing Framework and does not refer or relate to any product specific regulatory labelling regime or naming conventions. Sustainable investing strategies aim to consider and incorporate environmental, social and governance (ESG) factors into investment process and portfolio construction. Strategies across geographies approach ESG analysis and incorporate the findings in a variety of ways. Incorporating ESG factors or sustainable investing considerations may inhibit the portfolio manager's ability to participate in certain investment opportunities that otherwise would be consistent with its investment objective and other principal investment strategies. The returns on a portfolio incorporating ESG factors or sustainable investing considerations may be lower or higher than portfolios where ESG factors, exclusions, or other sustainability issues are not considered by the portfolio manager, and the investment opportunities available to such portfolios may differ.

Within the past 12 months UBS Switzerland AG, its affiliates or subsidiaries may have received or provided investment services and activities or ancillary services as per MiFID II which may have given rise to a payment or promise of a payment in relation to these services from or to this company.

Disclosures: If you require detailed information on disclosures of interest or conflict of interest as required by Market Abuse Regulation please contact the mailbox MAR_disclosure_twopager@ubs.com. Please note that e-mail communication is unsecured.

External Asset Managers / External Financial Consultants: In case this research or publication is provided to an External Asset Manager or an External Financial Consultant, UBS expressly prohibits that it is redistributed by the External Asset Manager or the External Financial Consultant and is made available to their clients and/or third parties.

Argentina: All securities that will be offered to you by UBS are not authorized by the Argentine Securities and Exchange Commission (CNV) and are not subject to its reporting, periodic information requirements, or oversight. Furthermore, the CNV has not reviewed or endorsed the information provided in any securities offering document, nor the accuracy of any accounting, financial, economic data, or any other information disclosed therein, which remains the sole responsibility of the respective issuer and the other parties involved. **Australia:** This document is provided by UBS Switzerland AG. UBS Switzerland AG does not hold an Australian Financial Services Licence (AFSL) and relies on an exemption to provide financial services to persons in Australia. This document is intended only for distribution to wholesale clients under the Corporations Act 2001 (Cth). UBS Switzerland AG is a related body corporate of UBS AG, Australia Branch and UBS Securities Australia Limited. This document may be distributed to clients by those entities, but it is provided by UBS Switzerland AG and is not provided under any of the other entities' AFSL. The information in this document is general in nature and is not intended to address the objectives, financial situation or needs of any particular individual or entity. Each recipient should consider their own objectives, financial situation or needs before acting on the advice and obtain the relevant Product Disclosure Statement (if required) before making any decision whether to acquire any product. In Australia, UBS entities, other than UBS AG, Australia Branch, are not authorized deposit-taking institutions for the purposes of the Banking Act 1959 (Cth.) and their obligations do not represent deposits or other liabilities of UBS AG, Australia Branch. UBS AG, Australia Branch does not guarantee or otherwise provide assurance in respect of the obligations of such UBS entities or the funds. An investor is exposed to investment risk including possible delays in repayment and loss of income and principal invested, as relevant. If you do not wish to receive marketing materials from UBS, please contact your UBS representative or the contact details listed in the Australia Privacy Notice: https://www.ubs.com/global/en/legal/privacy.html. Your personal data will be processed in accordance with this notice. **Bahrain**: This report is being distributed by UBS AG, Bahrain Branch, duly licensed and regulated by the Central Bank of Bahrain (CBB) as an Investment Business Firm - Category 2 (Branch). Related financial services or products are only made available to Accredited Investors, as defined by the CBB, and are not intended for any other persons. UBS AG, Bahrain Branch is a Foreign Branch of UBS AG, Zurich/Switzerland and is located on Level 21, East Tower, Bahrain World Trade Centre, Manama, Kingdom of Bahrain. **Brazil**: This report is distributed in Brazil by UBS BB Corretora de Câmbio, Títulos e Valores Mobiliários S.A. or its affiliates ("UBS"). Pursuant to CVM Resolution No. 20/2021, of February 25, 2021, the author(s) of the report hereby certify(ies) that the views expressed in this report solely and exclusively reflect their personal opinions and have been prepared independently, including with respect to UBS. Part of the author(s)'s compensation is based on various factors, including the total revenues of the relevant UBS Group entity of which they are in employment of, but no part of the compensation has been, is, or will be related to the specific recommendations or views expressed in this report. In addition, UBS declares that: UBS has provided, and/or may in the future provide investment banking, brokerage, asset management, commercial banking and other financial services to the subject company/companies or its affiliates, for which they have received or may receive customary fees and commissions, and which constituted or may constitute relevant financial or commercial interests in relation to the subject company/companies or the subject securities. **Canada**: This publication is for your information only and is not intended as an offer, or a solicitation of an offer, to buy or sell any investment or other specific product. Although all information and opinions expressed in this publication were obtained from sources believed to be reliable and in good faith, no representation or warranty, express or implied, is made as to its accuracy or

completeness. All information and opinions as well as any figures indicated herein are subject to change without notice. At any time, UBS AG ("UBS") and other companies in the UBS group (or employees thereof) may have a long or short position, or deal as principal or agent, in relevant securities or provide advisory or other services to the issuer of relevant securities or to a company connected with an issuer. Some investments may not be readily realizable since the market in the securities is illiquid and therefore valuing the investment and identifying the risk to which you are exposed may be difficult to quantify. Past performance of investments is not a guarantee of future results, and the value of investments may fluctuate over time. There is no guarantee that investment objectives risk or return targets discussed in this publication will be received or attained. For clients and prospective clients of UBS Bank (Canada), please note that this publication has no regard to the specific investment objectives, financial situation or particular needs of any recipient. Neither UBS Bank (Canada) nor UBS Investment Management Canada Inc. is acting as an adviser or fiduciary to or for any recipient of this report unless otherwise agreed upon in writing. Not all products or services may be available at UBS Bank (Canada). Some products and services may be legally restricted for residents of certain countries. Should you have any questions, please contact UBS Bank (Canada) and ask to speak to a member of our Wealth Management Team. UBS Wealth Management is a registered trade-mark of UBS AG. UBS Bank (Canada) is a subsidiary of UBS AG. Investment advisory and portfolio management services are provided through UBS Investment Management Canada Inc., a wholly-owned subsidiary of UBS Bank (Canada). UBS Investment Management Canada Inc. is a registered portfolio manager and exempt market dealer in all the provinces with the exception of P.E.I. and the territories. This publication may not be reproduced, or copies circulated without prior authority of UBS Bank (Canada). **China**: This report and any offering material such as term sheet, research report, other product or service documentation or any other information (the "Material") sent with this report was done so as a result of a request received by UBS from you and/or persons entitled to make the request on your behalf. Should you have received the material erroneously, UBS asks that you kindly delete it and inform UBS immediately. This report is prepared by UBS Switzerland AG or its offshore subsidiary or affiliate (collectively as "UBS Offshore"). UBS Offshore is an entity incorporated out of China and is not licensed, supervised or regulated in China to carry out banking or securities business. The recipient should not contact the analysts or UBS Offshore which produced this report for advice as they are not licensed to provide securities investment advice in China. UBS Investment Bank (including Research) has its own wholly independent research and views which at times may vary from the views of UBS Global Wealth Management. The recipient should not use this document or otherwise rely on any of the information contained in this report in making investment decisions and UBS takes no responsibility in this regard. **Denmark**: This publication is not intended to constitute a public offer under Danish law. It is distributed only for information purposes to clients of UBS Europe SE, Denmark Branch, filial af UBS Europe SE, with place of business at Sankt Annae Plads 13, 1250 Copenhagen, Denmark, registered with the Danish Commerce and Companies Agency, under No. 38 17 24 33. UBS Europe SE, Denmark Branch, filial af UBS Europe SE is subject to the joint supervision of the European Central Bank, the German Central Bank (Deutsche Bundesbank), the German Federal Financial Services Supervisory Authority (Bundesanstalt für Finanzdienstleistungsaufsicht, "BaFin"), as well as of the Danish Financial Supervisory Authority (Finanstilsynet), to which this publication has not been submitted for approval. UBS Europe SE is a credit institution constituted under German law in the form of a Societas Europaea, duly authorized by BaFin. **Egypt**: Securities or other investment products are not being offered or sold by UBS to the public in Egypt and they have not been and will not be registered with the Egyptian Financial Regulatory Authority (FRA). **France**: This publication is not intended to constitute a public offer under French law, it does not constitute a personal recommendation as it is distributed only for information purposes to clients of UBS Europe SE Succursale de France (a branch of UBS Europe SE), having its registered office at 39, rue du Colisée, 75008 Paris, France, registered with the "Registre du Commerce et des Sociétés" of Paris under N°844 425 629. UBS Europe SE Succursale de France is subject to the joint supervision of the European Central Bank, the German Central Bank (Deutsche Bundesbank), the German Federal Financial Services Supervisory Authority (Bundesanstalt für Finanzdienstleistungsaufsicht, "BaFin"), as well as of the French "Autorité de contrôle prudentiel et de résolution" and "Autorité des marchés financiers", to which this publication has not been submitted for approval. UBS Europe SE is a credit institution constituted under German law in the form of a Societas Europaea, duly authorized by BaFin. **Germany**: This publication is not intended to constitute a public offer under German law. It is distributed only for information purposes to clients of UBS Europe SE, Germany, with place of business at Bockenheimer Landstrasse 2-4, 60306 Frankfurt am Main. UBS Europe SE is a credit institution constituted under German law in the form of a Societas Europaea, duly authorized by the German Federal Financial Services Supervisory Authority (Bundesanstalt für Finanzdienstleistungsaufsicht, "BaFin") and supervised jointly by the European Central Bank, the German Central Bank (Deutsche Bundesbank) and BaFin, to which this publication has not been submitted for approval. **Hong Kong SAR**: This publication is distributed to clients of UBS AG Hong Kong Branch by UBS AG Hong Kong Branch, a licensed bank under the Hong Kong Banking Ordinance and a registered institution under the Securities and Futures Ordinance. UBS AG Hong Kong Branch is incorporated in Switzerland with limited liability. The contents of this material have not been reviewed by any regulatory authority in Hong Kong. **Indonesia**: This communication and any offering material term sheet, research report, other product or service documentation or any other information (the "Material") sent with this communication was done so as a result of a request received by UBS from you and/or persons entitled to make the request on your behalf. Should you have received the Material erroneously, UBS asks that you kindly delete/destroy the communication and Material and inform UBS immediately. The Material, where provided, was provided for your information only and is not to be further distributed in whole or in part in or into your jurisdiction without the consent of UBS. The Material may not have been reviewed, approved, disapproved, endorsed, registered or filed with any financial or regulatory authority in your jurisdiction. UBS has not, by virtue of the Material, made available, issued any invitation to subscribe for or to purchase any investment (including securities or derivatives products). The Material is neither an offer nor a solicitation to enter into any transaction or contract (including futures contracts) nor is it an offer to buy or to sell any securities or derivatives products. The relevant investments will be subject to restrictions and obligations on transfer as set forth in the Material, and by receiving the Material you undertake to comply fully with such restrictions and obligations. You should carefully study and ensure that you understand and exercise due care and discretion in considering your investment objective, risk appetite and personal circumstances against the risk of the investment. You are advised to seek independent professional advice in case of doubt. Any and all advice provided on and/or trades executed by UBS pursuant to the Material will only have been provided upon your specific request or executed upon your specific instructions, as the case may be, and may be deemed as such by UBS and you. **Israel**: UBS is a premier global financial firm offering wealth management, asset management and investment banking services from its headquarters in Switzerland and its operations in over 50 countries worldwide to individual, corporate and institutional investors. This publication is intended for information only and is not intended as an offer to buy or solicitation of an offer. Furthermore, this publication is not intended as an investment advice. Nothing contrary to the above, no action has been, or will be, taken in Israel that would permit an offering of the product(s) mentioned in this document or a distribution of this document to the public in Israel. In particular, this document has not been reviewed or approved by the Israeli Securities Authority. The product(s) mentioned in this document is/are being offered to a limited number of sophisticated investors who qualify as one of the investors listed in the first supplement to the Israeli Securities Law, 5728-1968. This document may not be reproduced or used for any other purpose, nor be furnished to any other person other than those to whom copies have been sent. Anyone who purchases the product(s) mentioned herein shall do so for its own benefit and for its own account and not with the aim or intention of distributing or offering the product(s) to other parties. Anyone who purchases the product(s) shall do so in accordance with its own understanding and discretion and after it has received any relevant financial, legal, business, tax or other advice or opinion required by it in connection with such purchase(s). The word "advice" and/or any of its equivalent terms shall be read and construed in conjunction with the definition of the term "investment marketing" as defined under the Israeli Regulation of Investment Advice, Investment Marketing and Portfolio Management Law. The Swiss laws and regulations require a number of mandatory disclosures to be made in independent financial research reports or recommendations. Pursuant to the Swiss Financial Market Infrastructure Act and the Financial Market Infrastructure Ordinance-FINMA, banks must disclose the percentage of voting rights they hold in companies being researched, if these holdings are equal to or exceed the statutory thresholds. In addition, the Directives on the Independence of Financial Research, issued by the Swiss Bankers Association, mandate a number of disclosures, including the disclosure of potential conflicts of interest, the participation within previous 12 months in any securities issues on behalf of the company being researched, as well as the fact that remuneration paid to the financial analysts is based generally upon the performance of (i) the new issues department or investment banking; or (ii) securities trading performance (including proprietary trading) or sales. **Italy**: This publication is not intended to constitute a public offer under Italian law. It is distributed only for information purposes to clients of UBS Europe SE, Succursale Italia, with place of business at Via del Vecchio Politecnico, 3-20121 Milano. UBS Europe SE, Succursale Italia is subject to the joint supervision of the European Central Bank, the German Central Bank (Deutsche Bundesbank), the German Federal Financial Services Supervisory Authority (Bundesanstalt für Finanzdienstleistungsaufsicht, "BaFin"), as well as of the Bank of Italy (Banca d'Italia) and the Italian Financial Markets Supervisory Authority (CONSOB - Commissione Nazionale per le Società e la Borsa), to which this publication has not been submitted for approval. UBS Europe SE is a credit institution constituted under German law in the form of a Societas Europaea, duly authorized by BaFin. **Japan**: This report is solely distributed in Japan by UBS SuMi TRUST Wealth Management Co., Ltd, Financial Instruments Dealer, Director-General of Kanto Local Finance Bureau (Kinsho) No. 3233, a member of the Japan Securities Dealers Association, Financial Futures Association of Japan, Investment Management Association of Japan. UBS SuMi TRUST Wealth Management Co., Ltd will not distribute or forward this report outside Japan. **Jersey**: UBS AG, Jersey Branch, is regulated and authorized by the Jersey Financial Services Commission for the conduct of banking, funds and investment business. Where services are provided from outside Jersey, they will not be covered by the Jersey regulatory regime. UBS AG, Jersey Branch is a branch of UBS AG a public company limited by shares, incorporated in Switzerland whose registered offices are at Aeschenvorstadt 1, CH-4051 Basel and Bahnhofstrasse 45, CH 8001 Zurich. UBS AG, Jersey Branch's principal place of business is 1, IFC Jersey, St Helier, Jersey, JE2 3BX. **Luxembourg**: This publication is not intended to constitute a public offer under Luxembourg law. It is distributed only for information purposes to clients of UBS Europe SE, Luxembourg Branch ("UBS Luxembourg"), R.C.S. Luxembourg n° B209123, with registered office at 33A, Avenue J. F. Kennedy, L-1855 Luxembourg. UBS Europe SE is a credit institution constituted under German law in the form of a Societas Europaea (HRB n° 107046), with registered office at Bockenheimer Landstrasse 2-4, D-60306 Frankfurt am Main, Germany, duly authorized by the German Federal Financial Services Supervisory Authority (Bundesanstalt für Finanzdienstleistungsaufsicht, "BaFin") and subject to the joint prudential supervision of BaFin, the European Central Bank and the central bank of Germany (Deutsche Bundesbank). UBS Luxembourg is furthermore supervised by the Luxembourg prudential supervisory authority (Commission de Surveillance du Secteur Financier), in its role as host member state authority. This publication has not been submitted for approval to any public supervisory authority. **Malaysia**: This communication and any offering material term sheet, research report, other product or service documentation or any other information (the "Material") sent with this communication was done so as a result of a request received by UBS from you and/or persons entitled to make the request on your behalf. Should you have received the Material erroneously, UBS asks that you kindly delete/destroy the communication and Material and inform UBS immediately. The Material, where provided, was provided for your information only and is not to be further distributed in whole or in part in or into your jurisdiction without the consent of UBS. The Material may not have been reviewed, approved, disapproved, endorsed, registered or filed with any financial or regulatory authority in your jurisdiction. UBS has not, by virtue of the Material, made available, issued any invitation to subscribe for or to purchase any investment (including securities or derivatives products). The Material is neither an offer nor a solicitation to enter into any transaction or contract (including future contracts) nor is it an offer to buy or to sell any securities or derivatives products. The relevant

investments will be subject to restrictions and obligations on transfer as set forth in the Material, and by receiving the Material you undertake to comply fully with such restrictions and obligations. You should carefully study and ensure that you understand and exercise due care and discretion in considering your investment objective, risk appetite and personal circumstances against the risk of the investment. You are advised to seek independent professional advice in case of doubt. Any and all advice provided on and/or trades executed by UBS pursuant to the Material will only have been provided upon your specific request or executed upon your specific instructions, as the case may be, and may be deemed as such by UBS and you. **Mexico**: This information is distributed by UBS Asesores México, S.A. de C.V. ("UBS Asesores"), an affiliate of UBS Switzerland AG, incorporated as a non-independent investment advisor under the Mexican regulation due to the relation with a Foreign Bank. UBS Asesores is registered under number 30060-001-(14115)-21/06/2016 and subject to the supervision of the Mexican Banking and Securities Commission ("CNBV") exclusively regarding the rendering of (i) portfolio management services, (ii) securities investment advisory services, analysis and issuance of individual investment recommendations, and (iii) anti-money laundering and terrorism financing matters. This UBS publication or any material related thereto is addressed only to Sophisticated or Institutional Investors located in Mexico. Research reports only reflect the views of the analysts responsible for the report. The compensation of the analyst(s) who prepared this report is determined exclusively by research management and senior management of any entity of UBS Group to which such analyst(s) render(s) services. **Monaco**: This document is not intended to constitute a public offering or a comparable solicitation under the Principality of Monaco laws, but might be made available for information purposes to clients of UBS (Monaco) S.A., a regulated bank having its registered office at 2 avenue de Grande Bretagne 98000 Monaco operating under a banking license granted by the "Autorité de Contrôle Prudentiel et de Résolution" (ACPR) and the Monegasque government which authorizes the provision of banking services in Monaco. UBS (Monaco) S.A. is also licensed by the "Commission de Contrôle des Activités Financières" (CCAF) to provide investment services in Monaco. The latter has not approved this publication. **Philippines:** This communication was done so as a result of a request received by UBS from you and/or persons entitled to make the request on your behalf. Should you have received the Material erroneously, UBS asks that you kindly delete/destroy the communication and Material and inform UBS immediately. The Material, where provided, was provided for your information only and is not to be further distributed in whole or in part in or into your jurisdiction without the consent of UBS. The Material may not have been reviewed, approved, disapproved, endorsed, registered or filed with any financial or regulatory authority in your jurisdiction. UBS has not, by virtue of the Material, made available, issued any invitation to subscribe for or to purchase any investment (including securities or derivatives products). The Material is neither an offer nor a solicitation to enter into any transaction or contract (including future contracts) nor is it an offer to buy or to sell any securities or derivatives products. The relevant investments will be subject to restrictions and obligations on transfer as set forth in the Material, and by receiving the Material you undertake to comply fully with such restrictions and obligations. You should carefully study and ensure that you understand and exercise due care and discretion in considering your investment objective, risk appetite and personal circumstances against the risk of the investment. You are advised to seek independent professional advice in case of doubt. Any and all advice provided on and/or trades executed by UBS pursuant to the Material will only have been provided upon your specific request or executed upon your specific instructions, as the case may be, and may be deemed as such by UBS and you. **Portugal**: This publication is not intended to constitute a public offer under Portuguese law. Q326 mixed as GPU server ramps dampened margins

Inventec hosted its Q3 results Tues with sales NT$272.1bn, +1% QoQ broadly in-line with UBSe/street flat/-2%. Servers surpassed PCs to reach 51% of Q3 sales, with more than 50% from rack-level AI GPU servers (B300, HGX, NVL72) and ASIC L6 boards (TPU, Axion, Graviton), while general servers were constrained by components. Notebook shipments were 4.9mn in Q3, -9% QoQ/YoY with revenue -5% QoQ to 47% of sales, while smart devices remained 2%. Mix shift to lower margin GPU servers, higher pass-through component costs from inflation and overseas facility ramp costs dampened GM/OpM to 4.2%/1.6% below Street 4.6%/2.0%, dampening EPS to NT$0.71, below UBSe/Street NT$0.76/NT$0.94. Inventory grew NT$32bn to NT$162bn QoQ, lifting days from 46 to 57 as end customers require more buffer stock.

Q4 a transition quarter for AI GPU ramps

We lower Q4 from flat to -9% QoQ and below prior street +1% QoQ as GPU servers slow ahead of the VR200 ramp ramping more in Q127 and notebooks drop a further low-mid-teens. General server mix is improving on healthy demand from CSP customers securing better priority component allocation. The positive mix should improve GM/OpM to +30bp/+10bp to 4.5%/1.7%. For the full year, server units are growing 25-30% YoY and revenue 55% YoY while notebook units are now trending down 6% YoY although higher ASPs passing on memory are lifting sales +35% YoY.

2027 growth drivers stay solid

We lift 2027E sales from +25% YoY to +29% YoY, above prior street +23% YoY with growth from general server ramps from its two ASIC CPU programs, ramp of L6 boards for AMD Helios from Q426, and R200 NVIDIA orders ramping up at higher ASPs alongside VR200 racks to a top 5 CSP. We keep 2027E GMs/OpMs fairly stable at 4.5%/1.9% with component costs staying elevated with AI capex already projected up sharply again next year and keeping the supply chain tight. For 2028, we have some moderation to +20% YoY growth to allow for some moderation to capex from power availability and funding. For Inventec, capex is set to lower from US$1bn in 2026 to US $500mn in 2027, allowing mgmt to fund with debt over additional equity.

Valuation: Maintain Neutral and trim our PT

We reflect component inflation and trim 2026-27E reported EPS from NT$3.50/NT$4.25 to NT$3.40/NT$4.15. We trim our PT from NT$65 to NT$59, also lowering from 15x 2027E to 14x, +1 STD Deviation above its 12x average as it increases its server mix over low margin NBs. We maintain Neutral balancing growth potentially above street on leverage to AI, ASIC and general servers but offset by muted margins and valuation already at the high-end of its peer group at 13x 2027 vs. group trading at 9-13x P/E.

Company Description

Founded in 1975, Inventec Corporation is an electronics contract manufacturer supporting customers' engineering design, product development, assembly and distribution. It is primarily engaged in the design and manufacturing of servers, personal computers and mobile devices. In 1998, it acquired Digital Equipment Corporation's Taiwan assets to expand its server R&D and manufacturing capabilities, allowing it to become a global top-three server supplier. Inventec is also a global top-five notebook PC manufacturer. During 9M20, PC accounted for 52% of its sales; servers 39%; mobile devices 8%; and others 1%.

UBS EPS and Consensus EPS

The UBS EPS is an adjusted diluted EPS metric. It is calculated using the UBS analyst's interpretation of earnings suitable for valuation purposes divided by the diluted number of shares. This may differ to the way the consensus EPS metric has been calculated.

Valuation Method and Risk Statement

We value Inventec based on PE multiple methodology. Downside risks for Inventec include: 1) a lower-than-expected notebook market share recovery; 2) weaker-than-expected growth in server markets; and 3) unfavourable FX movement. Upside risks for Inventec include: 1) a higher-than-expected notebook market share recovery; 2) stronger-than-expected growth in server markets; and 3) favourable FX movement.

Quantitative Research Review

UBS Global Research publishes a quantitative assessment of its analysts' responses to certain questions about the likelihood of an occurrence of a number of short term factors in a product known as the 'Quantitative Research Review'. The views for this month can be found below. Views contained in this assessment on a particular stock reflect only the views on those short term factors which are a different timeframe to the 12-month timeframe reflected in any equity rating set out in this note. For previous responses please make reference to (i) previous UBS Global Research reports; and (ii) where no applicable research report was published that month, the Quantitative Research Review which can be found at https://neo.ubs.com/quantitative, or contact your UBS sales representative for access to the report or the Quantitative Research Team on ubs-quant-answers@ubs.com. A consolidated report which contains all responses is also available and again you should contact your UBS sales representative for details and pricing or the Quantitative Research Team on the email above.

Inventec

Question	Response
1. Is the industry structure facing the firm likely to improve or deteriorate over the next six months? Rate on a scale of 1-5 (1 = getting worse, 3 = no change, 5 = getting better, N/A = no view)	4
2. Is the regulatory/government environment facing the firm likely to improve or deteriorate over the next six months? Rate on a scale of 1-5 (1 = getting tougher 3 = no change, 5 = getting better, N/A = no view)	3
3. Over the last 3-6 months in broad terms have things been improving/no change/getting worse for this stock? Rate on a scale of 1-5 (1 = getting a lot worse, 3 = not much change, 5 = getting a lot better, N/A = no view)	4
4. Relative to the current CONSENSUS EPS forecast, is the next company EPS update likely to lead to: (1 = negative surprise vs consensus, 3 = in-line with consensus, 5 = positive surprise vs consensus expectations, N/A = no view)	4
5. What's driving the difference?	
6. Relative to YOUR current earnings forecast, is there relatively greater risk at the next earnings result of:(1 = downside skew risk to earnings, 3 = equal upside or downside risk to earnings, 5 = upside skew risk to earnings, N/A = no view)	4
7. What's driving the difference?	
8. Is there an upcoming catalyst for the company over the next three months?	
9. Is there an actual or approximate date for the catalyst?	
10. Is the catalyst date an actual or approximate date?	
11. What is the catalyst?	

Required Disclosures

Limited is licensed by the China Securities Regulatory Commission to conduct securities investment consultancy businesses. UBS acts or may act as principal in the debt securities (or in related derivatives) that may be the subject of this report. This recommendation was finalized on: 10 November 2026 12:14 PM GMT. UBS has designated certain UBS Global Research department members as Derivatives Research Analysts where they publish research principally on the analysis of the price or market for a derivative, and provide information reasonably sufficient on which to base a decision to enter into a derivatives transaction. Where Derivatives Research Analysts co-author research reports with Equity Research Analysts or Economists, the Derivatives Research Analyst is responsible for the derivatives investment views, forecasts, and/or recommendations. **Quantitative Research Review:** UBS Global Research publishes a quantitative assessment of its analysts' responses to certain questions about the likelihood of a number of short term factors occurring, in a product known as the 'Quantitative Research Review'. Views in this assessment on a particular stock reflect only those short term factors and a timeframe different to the 12-month timeframe reflected in any equity rating set out in this document. For the latest responses, please see the Quantitative Research Review Addendum at the back of this document, where applicable. For previous responses, please refer to: (i) previous UBS Global Research reports and (ii) where no applicable research report was published that month, the Quantitative Research Review at https://neo.ubs.com/quantitative, or contact your UBS sales representative for access to the report or the Quantitative Research Team at ubs-quant-answers@ubs.com. A consolidated report containing all responses is also available; for details and pricing, please contact your UBS sales representative or the Quantitative Research team at the above email.

Analyst Certification:
Each research analyst primarily responsible for the content of this research report, in whole or in part, certifies that, with respect to each security or issuer that the analyst covered in this report: (1) all views expressed accurately reflect their personal views about those securities or issuers and were prepared independently, including with respect to UBS, and (2) no part of their compensation was, is, or will be, directly or indirectly, related to the specific recommendations or views expressed by that research analyst in the research report.

UBS Global Research: Global Equity Rating Definitions

12-Month Rating	Definition	Coverage[1]	IB Services[2]
Buy	FSR is > 6% above the MRA.	55%	24%
Neutral	FSR is between -6% and 6% of the MRA.	39%	20%
Sell	FSR is > 6% below the MRA.	6%	21%

Source: UBS. Rating allocations are as of 30 September 2026.
1:Percentage of companies under coverage globally within the 12-month rating category.
2:Percentage of companies within the 12-month rating category for which investment banking (IB) services were provided within the past 12 months.

KEY DEFINITIONS:Forecast Stock Return (FSR) is expected percentage price appreciation plus gross dividend yield over the next 12 months. In some cases, this yield may be based on accrued dividends. **Market Return Assumption (MRA)** is the one-year local market interest rate plus 5% (a proxy for, and not a forecast of, the equity risk premium). **Under Review (UR)** Stocks may be flagged by the analyst to indicate that the stock's price target and/or rating may change in the near term, usually in response to an event that may affect the investment case or valuation. **Equity Price Targets** have a 12-month investment horizon.

EXCEPTIONS AND SPECIAL CASES:UK and European Investment Fund ratings and definitions are: Buy: Positive on factors such as structure, management, performance record and discount; **Neutral:** Neutral on factors such as structure, management, performance record and discount; **Sell:** Negative on factors such as structure, management, performance record and discount. **Core Banding Exceptions (CBE):** Exceptions to the standard +/-6% bands may be granted by the Investment Review Consultation (IRC). Factors considered by the IRC include the stock's volatility and the credit spread of the respective company's debt. As a result, stocks deemed very high or low risk may be subject to higher or lower bands for rating purposes. Where such exceptions apply, they will be identified in the Company Disclosures table in the relevant research piece.

Research analysts contributing to this report who are employed by a non-US affiliate of UBS Securities LLC are not registered or qualified as research analysts with FINRA. Such analysts may not be associated persons of UBS Securities LLC and therefore are not subject to FINRA restrictions on communications with a subject company, public appearances, and trading securities held by a research analyst account. The name of each affiliate and analyst employed by that affiliate contributing to this report, if any, follows.

UBS Securities Pte. Ltd., Taipei Branch: Irene Chang, Randy Abrams.

The Disclaimer relevant to Global Wealth Management clients follows the Global Research Disclaimer.

UBS Global Research Disclaimer

This document has been prepared by UBS Securities Pte. Ltd., Taipei Branch, an affiliate of UBS AG. UBS AG, its subsidiaries, branches and affiliates, including former Credit Suisse AG and its subsidiaries, branches and affiliates are referred to herein as "UBS".

Any opinions in this document may change without notice and are current only as of the publication date. Different areas, groups, and personnel within UBS may independently produce and distribute separate research products. For example, research publications from **UBS CIO** are produced by UBS Global Wealth Management. **UBS Global Research** is produced by UBS Investment Bank. Each research organization may use different methodologies and rating systems, including investment recommendations, investment horizon, model assumptions, and valuation methods. Accordingly, except for certain economic forecasts on which UBS CIO and UBS Global Research may collaborate, investment recommendations, ratings, price targets, and valuations from those research organizations may differ or be inconsistent. You should refer to each relevant research product for details of its methodology and rating system. Not all clients may have access to all products from every organization. Each research product is subject to the policies and procedures of the organization that produces it.

UBS Global Research is primarily intended for institutional/professional/wholesale clients, and not for retail clients or private individuals (excluding via any UBS approved distribution channel for such clients), as defined under the governing law and regulation of the relevant client jurisdiction.

This document is provided solely to recipients who are expressly authorized by UBS to receive it. If you are not so authorized you must immediately destroy it.

UBS Global Research is provided to our clients through UBS Neo and, in certain instances, UBS.com and any other system or distribution method specifically identified in one or more communications distributed through UBS Neo or UBS.com (each, a "System") as an approved means of distributing UBS Global Research. It may also be made available through third party vendors and distributed by UBS and/or third parties by e-mail or other electronic means.

All UBS Global Research is available on UBS Neo. Please contact your UBS sales representative if you wish to discuss access to UBS Neo. Where UBS Global Research refers to "UBS Evidence Lab Inside" or uses data provided by UBS Evidence Lab, and you would like access to that data, please contact your UBS sales representative. UBS Evidence Lab data is available on UBS Neo. The level and types of services provided by UBS Global Research and UBS Evidence Lab to a client may vary depending on factors including a client's preferences as to the frequency and manner of receiving communications, risk profile, and investment focus and perspective (e.g., market wide, sector specific, long-term, short-term), the size and scope of the overall client relationship with UBS Global Research and UBS Evidence Lab, and legal and regulatory constraints. UBS HOLT and UBS Pharma Values are offerings of UBS Global Research. HOLT Lens is a corporate performance platform offering that provides an objective accounting-led framework for comparing and valuing companies and is available to clients of UBS Global Research; for details and pricing, please contact your UBS Sales representative. In particular, HOLT has a variety of warranted prices based on the scenario chosen; if you are interested in the warranted price for a particular company, please mail UBS Securities LLC, 11 Madison Avenue, New York, NY 10010, USA, Attention: Investment Research, subject again to commercial considerations. UBS Pharma Values is an analytical tool involving individual product net present value calculations based on published forecasts of pharmaceutical sales, and is available to clients of UBS Global Research; for details and pricing, please contact your UBS Sales representative. For all other specific disclaimers, please see https://www.ubs.com/disclosures.

When you receive UBS Global Research through a System, your access to and/or use of it is subject to this UBS Global Research Disclaimer, the UBS Neo Platform Use Agreement (the "Neo Terms"), and any other relevant terms of use governing the applicable System.

When you receive UBS Global Research via a third party vendor, e-mail or other electronic means, you agree that use shall be subject to this UBS Global Research Disclaimer, the Neo Terms and where applicable the UBS Investment Bank terms of business (https://www.ubs.com/global/en/investment-bank/regulatory.html) and to UBS's Terms of Use/ Disclaimer (https://www.ubs.com/global/en/legalinfo2/disclaimer.html). In addition, you consent to UBS processing your personal data and using cookies in accordance with our Privacy Statement (https://www.ubs.com/global/en/legalinfo2/privacy.html) and Cookie Notice (https://www.ubs.com/global/en/legal/privacy/users.html).

If you receive UBS Global Research, whether through a System or otherwise, you agree not to copy, revise, amend, create derivative works, provide to any third party, or in any way commercially exploit any UBS research provided via UBS Global Research or otherwise, and not to extract data from any research or estimates provided to you via UBS Global Research or otherwise, without UBS's prior written consent. You also agree not to use UBS Global Research in any artificial intelligence system without UBS's prior written consent.

In certain circumstances, you may receive UBS Global Research other than in your capacity as a UBS client and, you understand and agree that in those circumstances: (i) UBS Global Research is provided to you for information purposes only; (ii) for the purpose of receiving it, you are not intended to be and will not be treated as a "client" of UBS for any legal or regulatory purpose; (iii) UBS Global Research must not be relied on or acted upon for any purpose; and (iv) such content is subject to the relevant disclaimers that follow.

This document may be distributed only as permitted by law. It is not directed to, or intended for distribution to or use by, any person or entity that is a citizen or resident of, or located in, any locality, state, country or other jurisdiction where such distribution, publication, availability or use would be contrary to law or regulation or would subject UBS to any registration or licensing requirement in that jurisdiction.

This document is a general communication and educational in nature; it is not an advertisement, solicitation or offer to buy or sell any financial instrument or to participate in any particular trading strategy. Nothing in this document constitutes a representation that any investment strategy or recommendation is suitable or appropriate to an investor's individual circumstances or otherwise constitutes a personal recommendation. By providing this document, neither UBS nor its representatives has any responsibility or authority to provide, or to have provided, investment advice in a fiduciary or any other capacity. Investments involve risks, and investors should exercise prudence and their own judgment in making investment decisions. Neither UBS nor its representatives is suggesting that the recipient or any other person take a specific course of action, or any action at all. The recipient should read this document carefully and in full and not draw inferences or conclusions from the rating alone. By receiving this document, the recipient acknowledges and agrees with the intended purpose described above and further disclaims any expectation or belief that the information constitutes investment advice to the recipient or otherwise purports to meet the recipient's investment objectives. The financial instruments described in this document may not be eligible for sale in all jurisdictions or to certain categories of investors.

Options, structured derivative products and futures (including OTC derivatives) are not suitable for all investors. Trading in these instruments is risky and may be appropriate only for sophisticated investors. Before buying or selling an option, you must receive a copy of "The Characteristics and Risks of Standardized Options" for a full description of options risks. You may read it at https://www.theocc.com/publications/risks/riskchap1.jsp or ask your salesperson for a copy. Various theoretical explanations of the risks of these instruments have been published. Supporting documentation for any claims, comparisons, recommendations, statistics or other technical data will be supplied on request. Past performance is not necessarily indicative of future results. Transaction costs may be significant in option strategies involving multiple purchases and sales, such as spreads and straddles. As tax considerations are important to many options transactions, investors considering options should consult their tax advisor on how taxes affect the outcome of contemplated options transactions.

Mortgage- and asset-backed securities may involve a high degree of risk and be highly volatile in response to interest rate fluctuations or other market conditions. Foreign currency exchange rates may adversely affect the value, price or income of any security or related instrument referred to in this document. For investment advice, trade execution or other inquiries, clients should contact their local sales representative.

UBS notes that no globally accepted framework or definition (legal, regulatory or otherwise) currently exists, and there is no market consensus, as to what constitutes "ESG" (Environmental, Social or Governance) or an equivalent label, or what precise attributes are required for the Information (as defined below) to be defined as ESG or equivalently labelled. Any information, data or other content, including from third party sources, contained or referred to herein or used by UBS or a third party for any purpose ("Information"), in relation to any actual or potential ESG objective, issue or consideration, is not intended to be relied upon for ESG classification, regulatory regime or industry initiative purposes ("ESG Regimes"). Nothing in this document is intended to convey, suggest or indicate that UBS considers or represents any product, service, person or body mentioned in it to meet or qualify for any ESG classification, labelling or similar standards that may exist under ESG Regimes. UBS has not assessed compliance with ESG Regimes. Parties should make their own assessments for these purposes.

The value of any investment or income may go down as well as up, and investors may not get back the full (or any) amount invested. Past performance is not necessarily a guide to future performance. Neither UBS nor any of its directors, employees or agents accepts liability for any loss (including investment loss) or damage arising out of the use of any of the Information.

Before making any investment or financial decision, any recipient of this document or the information should take steps to understand the investment's risk and return and seek individualized advice from their personal financial, legal, tax and other professional advisors, taking into account all relevant facts and circumstances of their investment objectives.

Any prices stated in this document are for information purposes only and do not represent valuations of individual securities or other financial instruments. There is no representation that any transaction can or could have been effected at those prices. They do not necessarily reflect UBS's internal books and records or theoretical model-based valuations and may be based on certain assumptions. Different assumptions by UBS or any other source may yield substantially different results.

No representation or warranty, express or implied, is given as to the accuracy, completeness or reliability of the information contained in any materials to which this document relates (the "Information"), except with respect to Information concerning UBS. The Information is not intended to be a complete statement or summary of the securities, markets or developments referred to in this document. UBS does not undertake to update or keep current the Information. Any statements contained in this document attributed to a third party represent UBS's interpretation of data, information and/or opinions provided by that third party,

publicly or through a subscription service, and such use and interpretation have not been reviewed by that third party. In no circumstances may this document or any Information, including any forecast, value, index or other calculated amount ("Values"), be used for: (i) valuation or accounting purposes; (ii) determining amounts due or payable, or the price or value of any financial instrument or financial contract; or (iii) measuring the performance of any financial instrument, including without limitation tracking the return or performance of any Value, defining the asset allocation of a portfolio or computing performance fees.

By receiving this document and the Information you will be deemed to represent and warrant to UBS that you will not use this document or any of the Information for any of those purposes or otherwise rely upon this document or any of the Information.

UBS has policies and procedures, including without limitation independence policies and permanent information barriers, intended, and relied on by UBS, to manage potential conflicts of interest and control the flow of information within UBS divisions and among its subsidiaries, branches and affiliates. UBS does and seeks to do business with companies covered in its research documents. As a result, investors should be aware that UBS may have a conflict of interest that could affect this document's objectivity. Investors should consider this document as only one factor in making an investment decision. For further information on how UBS Global Research manages conflicts and maintains the independence of its research products, historical performance information and certain additional disclosures concerning UBS Global Research recommendations, please visit https://www.ubs.com/disclosures.

UBS Global Research will initiate, update and cease coverage solely at the discretion of UBS Global Research Management, which also has sole discretion over the timing and frequency of any published research product. The analysis in this document is based on numerous assumptions. All material information relating to published research documents, such as valuation methodology, risk statements, underlying assumptions (including sensitivity analysis of those assumptions), ratings history and other information required by the Market Abuse Regulation, can be found on UBS Neo. Different assumptions could produce materially different results.

UBS Global Research may use artificial intelligence tools in the preparation of this document. Notwithstanding any such use, this document has undergone human review.

The analyst(s) responsible for preparing this document may interact with trading desk personnel, sales personnel and other parties to gather, apply and interpret market information. UBS relies on information barriers to control the flow of information from one or more areas within UBS to other areas, units, groups or affiliates. Compensation of the analyst(s) who prepared this document is determined exclusively by UBS Global Research management and senior management (excluding investment banking). It is not based on investment banking revenues; however, it may relate to the revenues of UBS and/or its divisions as a whole, including investment banking, sales and trading, and UBS as a whole.

For financial instruments admitted to trading on an EU regulated market: UBS (excluding UBS Securities LLC) acts as a market maker or liquidity provider (as those terms are interpreted under English law or, if the activity is not carried out by UBS in the UK, under the law of the relevant jurisdiction in which UBS determines it carries out the activity) in the issuer's financial instruments, except where liquidity provider activity is carried out in accordance with the definition under the laws and regulations of another EU jurisdiction, in which case it is separately disclosed in this document. For financial instruments admitted to trading on a non-EU regulated market: UBS may act as a market maker, except where that activity is carried out in the US in accordance with the definition under applicable laws and regulations, in which case it will be specifically disclosed in this document. UBS may have issued a warrant whose value is based on one or more financial instruments referred to in this document. UBS and its affiliates and employees may have long or short positions, trade as principal, and buy and sell instruments or derivatives identified herein; such transactions or positions may be inconsistent with the opinions expressed in this document.

Within the past 12 months, UBS may have received or provided investment services and activities or ancillary services under MiFID II that may have given rise to a payment or promise of payment in relation to those services from or to this company.

Please note that all transactions conducted by UBS are consistent with sanctions imposed by Switzerland, the European Union, the United Nations, the United Kingdom and the United States, in accordance with UBS's global sanctions policy. UBS's opinions as to future investment worthiness assume no new sanctions are imposed.

US persons are prohibited from purchasing or selling securities of certain companies designated as associated with the Chinese Military in accordance with amended US Presidential Executive Order 13959.

United Kingdom: Distributed by UBS AG, London Branch to eligible counterparties or professional clients. UBS AG, London Branch is authorised by the Prudential Regulation Authority ("PRA") and subject to regulation by the Financial Conduct Authority (FCA) and limited regulation by the PRA. **Europe:** Except as otherwise specified, distributed by UBS Europe SE, a subsidiary of UBS AG, to eligible counterparties or professional clients (as defined under the Bundesanstalt fur Finanzdienstleistungsaufsicht ("BaFin") Rules and MIFID II) and are available only to such persons. The information in this document does not apply to, and should not be relied on by, retail clients. UBS Europe SE is authorised by the European Central Bank ("ECB") and regulated by BaFin and the ECB. **Germany, Luxembourg, the Netherlands, Belgium and Ireland:** Where an analyst of UBS Europe SE has contributed to this document, it is also deemed to have been prepared by UBS Europe SE. In all cases, it is distributed by UBS Europe SE and UBS AG, London Branch. **Turkey:** Distributed by UBS AG, London Branch. No information in this document is provided for offering, marketing or sale by any means of any capital market instruments or services in the Republic of Turkey. Therefore, this document may not be considered an offer made or to be made to residents of the Republic of Turkey. UBS AG, London Branch is not licensed by the Turkish Capital Market Board under the Capital Market Law (Law No. 6362). Accordingly, neither this document nor any other offering material related to the instruments/services may be used in connection with providing capital market services to persons within the Republic of Turkey without the prior approval of the Capital Market Board. However, under article 15(d)(ii) of Decree No. 32, there is no restriction on the purchase or sale of securities abroad by residents of the Republic of Turkey. **Poland:** Distributed by UBS Europe SE (spolka z ograniczona odpowiedzialnoscia) Oddzial w Polsce ("UBS Poland"). Where an analyst of UBS Poland has contributed to this document, the document is also deemed to have been prepared by UBS Poland. **Russia:** Prepared and distributed by UBS Bank (OOO). It should not be construed as an individual Investment Recommendation for the purposes of articles 6.1 and 6.2 of Russian Federal Law No. 39-FZ "On the Securities Market". **Switzerland:** Distributed by UBS AG to institutional investors only. UBS AG is regulated by the Swiss Financial Market Supervisory Authority (FINMA). **Italy:** Prepared by UBS Europe SE and distributed by UBS Europe SE and UBS Europe SE, Italy Branch. Where an analyst of UBS Europe SE, Italy Branch has contributed to this document, it is also deemed to have been prepared by UBS Europe SE, Italy Branch. **France:** Prepared by UBS Europe SE and distributed by UBS Europe SE and UBS Europe SE, France Branch. Where an analyst of UBS Europe SE, France Branch has contributed to this document, it is also deemed to have been prepared by UBS Europe SE, France Branch. **Spain:** Prepared by UBS Europe SE and distributed by UBS Europe SE and UBS Europe SE, Spain Branch. Where an analyst of UBS Europe SE, Spain Branch has contributed to this document, it is also deemed to have been prepared by UBS Europe SE, Spain Branch. **Sweden:** Prepared by UBS Europe SE and distributed by UBS Europe SE and UBS Europe SE, Sweden Branch. Where an analyst of UBS Europe SE, Sweden Branch has contributed to this document, it is also deemed to have been prepared by UBS Europe SE, Sweden Branch. **South Africa:** Distributed by UBS South Africa (Pty) Limited (Registration No. 1995/011140/07), an authorised user of the JSE and an authorised Financial Services Provider (FSP 7328). **Saudi Arabia:** This document has been issued by UBS AG (and/or any of its subsidiaries, branches or affiliates), a public company limited by shares, incorporated in Switzerland with its registered offices at Aeschenvorstadt 1, CH-4051 Basel and Bahnhofstrasse 45, CH-8001 Zurich. This publication has been approved by UBS Saudi Arabia (a subsidiary of UBS AG), a Saudi closed joint stock company incorporated in the Kingdom of Saudi Arabia under commercial register number 1010257812 having its registered office at Tatweer Towers, P.O. Box 75724, Riyadh 11588, Kingdom of Saudi Arabia. UBS Saudi Arabia is authorized and regulated by the Capital Market Authority to conduct securities business under license number 08113-37. **UAE / Dubai:** Information distributed by UBS AG Dubai Branch is only intended for Professional Clients and/or Market Counterparties as classified under the DFSA rulebook. No other person should act on this document/communication. The information is not for further distribution within the United Arab Emirates. UBS AG Dubai Branch is regulated by the DFSA in the DIFC. UBS is not licensed to provide banking services in the UAE, nor by the UAE Securities and Commodities Authority. **Israel:** This document is distributed by UBS AG, London Branch. UBS Securities Israel Ltd is a licensed Investment Marketer supervised by the Israel Securities Authority (ISA). UBS AG, London Branch and its affiliates incorporated outside Israel are not licensed under the Israeli Advisory Law. UBS may engage among others in issuance of Financial Assets or distribution of Financial Assets of other issuers for fees or other benefits. UBS AG, London Branch and its affiliates may prefer various Financial Assets to which they have or may have an Affiliation (as defined under the Israeli Advisory Law). Nothing in this document should be considered investment advice under the Israeli Advisory Law. This document is only issued to and/or directed at persons who are Eligible Clients (within the meaning of the Israeli Advisory Law), and must not be furnished to, relied on or acted upon by any other person. **United States:** Distributed to US persons by UBS Securities LLC or UBS Financial Services Inc., subsidiaries of UBS AG, or by a group, subsidiary or affiliate of UBS AG not registered as a US broker-dealer (a "non-US affiliate") to major US institutional investors only. UBS Securities LLC or UBS Financial Services Inc. accepts responsibility for the content of a report prepared by another non-US affiliate when distributed to US persons by UBS Securities LLC or UBS Financial Services Inc. All transactions by a US person in the securities mentioned in this document must be effected through UBS Securities LLC or UBS Financial Services Inc., and not through a non-US affiliate. UBS Securities LLC is not acting as a municipal advisor to any municipal entity or obligated person within the meaning of Section 15B of the Securities Exchange Act (the "Municipal Advisor Rule"), and the opinions or views contained herein are not intended to be, and do not constitute, advice within the meaning of that rule. **Canada:** Distributed by UBS Securities Canada Inc., a registered investment dealer in Canada and a Member-Canadian Investor Protection Fund, or by another affiliate of UBS AG registered to conduct business in Canada or otherwise exempt from registration. **Brazil:** Except as otherwise specified herein, this document is prepared by UBS BB Corretora de Câmbio, Títulos e Valores Mobiliários S.A. ("UBS BB CCTVM") for eligible investors residing in Brazil who are considered Professional Investors (Investidores Profissionais) under applicable regulation, primarily CVM Resolution No. 30 of 11 May 2021 (which determines the duty to verify the suitability of products, services and transactions to the client's profile). UBS BB CCTVM is a subsidiary of UBS BB Servicos de Assessoria Financeira e Participacoes S.A. ("UBS BB"). UBS BB is an association between UBS AG and Banco do Brasil (through its subsidiary BB Banco de Investimentos S.A.), of which UBS AG is the majority owner, and provides investment banking services and coverage in Brazil, Argentina, Chile, Paraguay, Peru and Uruguay. UBS BB CCTVM is regulated by the Comissao de Valores Mobiliarios (CVM) and the Central Bank of Brazil. Ombudsman: 0800-940-0266 / https://www.ubs.com/br/pt/ubsbb-investment-bank/ombudsman.html**Hong Kong:** Distributed by UBS Securities Asia Limited. Please contact local licensed persons of UBS Securities Asia Limited in respect of any matters arising from, or in connection with, the analysis or document. **Singapore:** Distributed by UBS Securities Pte. Ltd. (Co. Reg. No.: 198500648C] or UBS AG, Singapore Branch. Please contact UBS Securities Pte. Ltd., an exempt

financial adviser under the Singapore Financial Advisers Act (Cap. 110), or UBS AG, Singapore Branch, an exempt financial adviser under the Singapore Financial Advisers Act (Cap. 110) and a wholesale bank licensed under the Singapore Banking Act (Cap. 19) and regulated by the Monetary Authority of Singapore, regarding any matters arising from, or in connection with, the analysis or document. Recipients of this document represent and warrant that they are accredited and institutional investors as defined in the Securities and Futures Act (Cap. 289). **Japan:** Distributed by UBS Securities Japan Co., Ltd. to professional investors (except as otherwise permitted). Where this document has been prepared by UBS Securities Japan Co., Ltd., UBS Securities Japan Co., Ltd. is the author, publisher and distributor of the document. Distributed by UBS AG, Tokyo Branch to professional investors (except as otherwise permitted) in relation to foreign exchange and other banking businesses, where relevant. **Australia:** Recipients through a superannuation fund: Distributed by UBS AG, Australia Branch (ABN 47 088 129 613 and holder of Australian Financial Service Licence No. 231087). For all other recipients: Distributed by UBS Securities Australia Limited (ABN 62 008 586 481 and holder of Australian Financial Services Licence No. 231098). This document contains general information and/or general advice only and does not constitute personal financial product advice. As such, the Information in this document has been prepared without taking into account any investor's objectives, financial situation or needs, and investors should, before acting on the Information, consider the appropriateness of the Information, having regard to their objectives, financial situation and needs. If the Information contained in this document relates to the acquisition, or potential acquisition of a particular financial product by a 'Retail' client as defined by section 761G of the Corporations Act 2001 where a Product Disclosure Statement would be required, the retail client should obtain and consider the Product Disclosure Statement relating to the product before making any decision about whether to acquire the product. **New Zealand:** Distributed by UBS New Zealand Ltd. UBS New Zealand Ltd is not a registered bank in New Zealand. You are being provided with this document because you have indicated to UBS that you are a "wholesale client" within the meaning of clause 4 of schedule 5 of the Financial Markets Conduct Act 2013 of New Zealand ("Permitted Client"). This document is not intended for clients who are not Permitted Clients ("non-Permitted Clients"). If you are a non-Permitted Client, you must not rely on this document. If, despite this warning, you nevertheless rely on it, you hereby: (i) acknowledge that you may not rely on its content and that any recommendations or opinions in it are not made or provided to you; and (ii) to the maximum extent permitted by law, (a) indemnify UBS and its associates or related entities (and their respective directors, officers, agents and advisors) (each a "Relevant Person") for any loss, damage, liability or claim any of them may incur or suffer as a result of, or in connection with, your unauthorised reliance on this document, and (b) waive any rights or remedies you may have against any Relevant Person for any loss, damage, liability or claim you may incur or suffer as a result of, or in connection with, your unauthorised reliance on this publication or document. **Korea:** Distributed in Korea by UBS Securities Pte. Ltd., Seoul Branch. This document may from time to time have been edited or contributed to by affiliates of UBS Securities Pte. Ltd., Seoul Branch. Global Wealth Management Disclaimer

You receive this document in your capacity as a client of UBS Global Wealth Management. This publication has been distributed to you by UBS Switzerland AG (regulated by FINMA in Switzerland) or its affiliates (**"UBS"**) with whom you have a banking relationship with. The full name of the distributing affiliate and its competent authority can be found in the country-specific disclaimer at the end of this document. UBS may utilise artificial intelligence tools ("AI Tools") in the preparation of this document. Notwithstanding any such use of AI Tools, this document has undergone human review.

The date and time of the first dissemination of this publication is the same as the date and time of its publication.

Risk information:

You agree that you shall not copy, revise, amend, create a derivative work, provide to any third party, or in any way commercially exploit any UBS research, and that you shall not extract data from any research or estimates, without the prior written consent of UBS.

This document is for distribution only as may be permitted by law. It is not directed to, or intended for distribution to or use by, any person or entity who is a citizen or resident of or located in any locality, state, country or other jurisdiction where such distribution, publication, availability or use would be contrary to law or regulation or would subject UBS to any registration or licensing requirement within such jurisdiction.

This document is **for your information only**; it is not an advertisement nor is it a solicitation or an offer to buy or sell any financial instruments or to participate in any particular trading strategy. Nothing in this document constitutes a representation that any investment strategy or recommendation is suitable or appropriate to an investor's individual circumstances or otherwise constitutes a personal recommendation. By providing this document, none of UBS or its representatives has any responsibility or authority to provide or have provided investment advice in a fiduciary capacity or otherwise. Investments involve risks, and investors should exercise prudence and their own judgment in making their investment decisions. None of UBS or its representatives is suggesting that the recipient or any other person take a specific course of action or any action at all. By receiving this document, the recipient acknowledges and agrees with the intended purpose described above and further disclaims any expectation or belief that the information constitutes investment advice to the recipient or otherwise purports to meet the investment objectives of the recipient. The financial instruments described in the document may not be eligible for sale in all jurisdictions or to certain categories of investors.

Options, derivative products and futures are not suitable for all investors, and trading in these instruments is considered risky. Mortgage and asset-backed securities may involve a high degree of risk and may be highly volatile in response to fluctuations in interest rates or other market conditions. Foreign currency rates of exchange may adversely affect the value, price or income of any security or related instrument referred to in the document. For investment advice, trade execution or other enquiries, clients should contact their local sales representative.

The value of any investment or income may go down as well as up, and investors may not get back the full (or any) amount invested. Past performance is not necessarily a guide to future performance. Neither UBS nor any of its directors, employees or agents accepts any liability for any loss (including investment loss) or damage arising out of the use of all or any of the information (as defined below).

Prior to making any investment or financial decisions, any recipient of this document or the information should take steps to understand the risk and return of the investment and seek individualized advice from his or her personal financial, legal, tax and other professional advisors that takes into account all the particular facts and circumstances of his or her investment objectives.

Any prices stated in this document are for information purposes only and do not represent valuations for individual securities or other financial instruments. There is no representation that any transaction can or could have been effected at those prices, and any prices do not necessarily reflect UBS's internal books and records or theoretical

model-based valuations and may be based on certain assumptions. Different assumptions by UBS or any other source may yield substantially different results.

No representation or warranty, either expressed or implied, is provided in relation to the accuracy, completeness or reliability of the information contained in any materials to which this document relates (the "Information"), except with respect to Information concerning UBS. The Information is not intended to be a complete statement or summary of the securities, markets or developments referred to in the document. UBS does not undertake to update or keep current the Information. Any opinions expressed in this document may change without notice and may differ or be contrary to opinions expressed by other business areas or groups, personnel or other representative of UBS. Any statements contained in this report attributed to a third party represent UBS's interpretation of the data, information and/or opinions provided by that third party either publicly or through a subscription service, and such use and interpretation have not been reviewed by the third party. In no circumstances may this document or any of the Information (including any forecast, value, index or other calculated amount ("Values")) be used for any of the following purposes: (i) valuation or accounting purposes; (ii) to determine the amounts due or payable, the price or the value of any financial instrument or financial contract; or (iii) to measure the performance of any financial instrument including, without limitation, for the purpose of tracking the return or performance of any Value or of defining the asset allocation of portfolio or of computing performance fees.

By receiving this document and the Information you will be deemed to represent and warrant to UBS that you will not use this document or any of the Information for any of the above purposes or otherwise rely upon this document or any of the Information.

UBS has policies and procedures, which include, without limitation, independence policies and permanent information barriers, that are intended, and upon which UBS relies, to manage potential conflicts of interest and control the flow of information within divisions of UBS (including between Global Wealth Management and UBS Global Research) and among its subsidiaries, branches and affiliates. For further information on the ways in which UBS manages conflicts and maintains independence of its research products, historical performance information and certain additional disclosures concerning UBS research recommendations, please visit https://www.ubs.com/research-methodology.

Research will initiate, update and cease coverage solely at the discretion of research management, which will also have sole discretion on the timing and frequency of any published research product. The analysis contained in this document is based on numerous assumptions. Different assumptions could result in materially different results.

The analyst(s) responsible for the preparation of this document may interact with trading desk personnel, sales personnel and other parties for the purpose of gathering, applying and interpreting market information. UBS relies on information barriers to control the flow of information contained in one or more areas within UBS into other areas, units, groups or affiliates of UBS. The compensation of the analyst who prepared this document is determined exclusively by research management and senior management (not including investment banking). Analyst compensation is not based on investment banking revenues; however, compensation may relate to the revenues of UBS and/or its divisions as a whole, of which investment banking, sales and trading are a part, and UBS's subsidiaries, branches and affiliates as a whole.

For financial instruments admitted to trading on an EU regulated market: UBS AG, its affiliates or subsidiaries (excluding UBS Securities LLC) acts as a market maker or liquidity provider (in accordance with the interpretation of these terms in the UK) in the financial instruments of the issuer save that where the activity of liquidity provider is carried out in accordance with the definition given to it by the laws and regulations of any other EU jurisdictions, such information is separately disclosed in this document. For financial instruments admitted to trading on a non-EU regulated market: UBS may act as a market maker save that where this activity is carried out in the US in accordance with the definition given to it by the relevant laws and regulations, such activity will be specifically disclosed in this document. UBS may have issued a warrant the value of which is based on one or more of the financial instruments referred to in the document. UBS and its affiliates and employees may have long or short positions, trade as principal and buy and sell in instruments or derivatives identified herein; such transactions or positions may be inconsistent with the opinions expressed in this document.

Options and futures are not suitable for all investors, and trading in these instruments is considered risky and may be appropriate only for sophisticated investors. Prior to buying or selling an option, and for the complete risks relating to options, you must receive a copy of "Characteristics and Risks of Standardized Options". You may read the document at https://www.theocc.com/about/publications/character-risks.jsp or ask your financial advisor for a copy.

Investing in structured investments involves significant risks. For a detailed discussion of the risks involved in investing in any particular structured investment, you must read the relevant offering materials for that investment. Structured investments are unsecured obligations of a particular issuer with returns linked to the performance of an underlying asset. Depending on the terms of the investment, investors could lose all or a substantial portion of their investment based on the performance of the underlying asset. Investors could also lose their entire investment if the issuer becomes insolvent. UBS does not guarantee in any way the obligations or the financial condition of any issuer or the accuracy of any financial information provided by any issuer. Structured investments are not traditional investments and investing in a structured investment is not equivalent to investing directly in the underlying asset. Structured investments may have limited or no liquidity, and investors should be prepared to hold their investment to maturity. The return of structured investments may be limited by a maximum gain, participation rate or other feature. Structured investments may include call features and, if a structured investment is called early, investors would not earn any further return and may not be able to reinvest in similar investments with similar terms. Structured investments include costs and fees which are generally embedded in the price of the investment. The tax treatment of a structured investment may be complex and may differ from a direct investment in the underlying asset. UBS and its employees do not provide tax advice. Investors should consult their own tax advisor about their own tax situation before investing in any securities.

Important Information About Sustainable Investing Strategies: This terminology refers to definitions in the UBS Sustainable Investing Framework and does not refer or relate to any product specific regulatory labelling regime or naming conventions. Sustainable investing strategies aim to consider and incorporate environmental, social and governance (ESG) factors into investment process and portfolio construction. Strategies across geographies approach ESG analysis and incorporate the findings in a variety of ways. Incorporating ESG factors or sustainable investing considerations may inhibit the portfolio manager's ability to participate in certain investment opportunities that otherwise would be consistent with its investment objective and other principal investment strategies. The returns on a portfolio incorporating ESG factors or sustainable investing considerations may be lower or higher than portfolios where ESG factors, exclusions, or other sustainability issues are not considered by the portfolio manager, and the investment opportunities available to such portfolios may differ.

Within the past 12 months UBS Switzerland AG, its affiliates or subsidiaries may have received or provided investment services and activities or ancillary services as per MiFID II which may have given rise to a payment or promise of a payment in relation to these services from or to this company.

Disclosures: If you require detailed information on disclosures of interest or conflict of interest as required by Market Abuse Regulation please contact the mailbox MAR_disclosure_twopager@ubs.com. Please note that e-mail communication is unsecured.

External Asset Managers / External Financial Consultants: In case this research or publication is provided to an External Asset Manager or an External Financial Consultant, UBS expressly prohibits that it is redistributed by the External Asset Manager or the External Financial Consultant and is made available to their clients and/or third parties.

Argentina: All securities that will be offered to you by UBS are not authorized by the Argentine Securities and Exchange Commission (CNV) and are not subject to its reporting, periodic information requirements, or oversight. Furthermore, the CNV has not reviewed or endorsed the information provided in any securities offering document, nor the accuracy of any accounting, financial, economic data, or any other information disclosed therein, which remains the sole responsibility of the respective issuer and the other parties involved. **Australia:** This document is provided by UBS Switzerland AG. UBS Switzerland AG does not hold an Australian Financial Services Licence (AFSL) and relies on an exemption to provide financial services to persons in Australia. This document is intended only for distribution to wholesale clients under the Corporations Act 2001 (Cth). UBS Switzerland AG is a related body corporate of UBS AG, Australia Branch and UBS Securities Australia Limited. This document may be distributed to clients by those entities, but it is provided by UBS Switzerland AG and is not provided under any of the other entities' AFSL. The information in this document is general in nature and is not intended to address the objectives, financial situation or needs of any particular individual or entity. Each recipient should consider their own objectives, financial situation or needs before acting on the advice and obtain the relevant Product Disclosure Statement (if required) before making any decision whether to acquire any product. In Australia, UBS entities, other than UBS AG, Australia Branch, are not authorized deposit-taking institutions for the purposes of the Banking Act 1959 (Cth.) and their obligations do not represent deposits or other liabilities of UBS AG, Australia Branch. UBS AG, Australia Branch does not guarantee or otherwise provide assurance in respect of the obligations of such UBS entities or the funds. An investor is exposed to investment risk including possible delays in repayment and loss of income and principal invested, as relevant. If you do not wish to receive marketing materials from UBS, please contact your UBS representative or the contact details listed in the Australia Privacy Notice: https://www.ubs.com/global/en/legal/privacy.html. Your personal data will be processed in accordance with this notice. **Bahrain**: This report is being distributed by UBS AG, Bahrain Branch, duly licensed and regulated by the Central Bank of Bahrain (CBB) as an Investment Business Firm - Category 2 (Branch). Related financial services or products are only made available to Accredited Investors, as defined by the CBB, and are not intended for any other persons. UBS AG, Bahrain Branch is a Foreign Branch of UBS AG, Zurich/Switzerland and is located on Level 21, East Tower, Bahrain World Trade Centre, Manama, Kingdom of Bahrain. **Brazil**: This report is distributed in Brazil by UBS BB Corretora de Câmbio, Títulos e Valores Mobiliários S.A. or its affiliates ("UBS"). Pursuant to CVM Resolution No. 20/2021, of February 25, 2021, the author(s) of the report hereby certify(ies) that the views expressed in this report solely and exclusively reflect their personal opinions and have been prepared independently, including with respect to UBS. Part of the author(s)'s compensation is based on various factors, including the total revenues of the relevant UBS Group entity of which they are in employment of, but no part of the compensation has been, is, or will be related to the specific recommendations or views expressed in this report. In addition, UBS declares that: UBS has provided, and/or may in the future provide investment banking, brokerage, asset management, commercial banking and other financial services to the subject company/companies or its affiliates, for which they have received or may receive customary fees and commissions, and which constituted or may constitute relevant financial or commercial interests in relation to the subject company/companies or the subject securities. **Canada**: This publication is for your information only and is not intended as an offer, or a solicitation of an offer, to buy or sell any investment or other specific product. Although all information and opinions expressed in this publication were obtained from sources believed to be reliable and in good faith, no representation or warranty, express or implied, is made as to its accuracy or

completeness. All information and opinions as well as any figures indicated herein are subject to change without notice. At any time, UBS AG ("UBS") and other companies in the UBS group (or employees thereof) may have a long or short position, or deal as principal or agent, in relevant securities or provide advisory or other services to the issuer of relevant securities or to a company connected with an issuer. Some investments may not be readily realizable since the market in the securities is illiquid and therefore valuing the investment and identifying the risk to which you are exposed may be difficult to quantify. Past performance of investments is not a guarantee of future results, and the value of investments may fluctuate over time. There is no guarantee that investment objectives risk or return targets discussed in this publication will be received or attained. For clients and prospective clients of UBS Bank (Canada), please note that this publication has no regard to the specific investment objectives, financial situation or particular needs of any recipient. Neither UBS Bank (Canada) nor UBS Investment Management Canada Inc. is acting as an adviser or fiduciary to or for any recipient of this report unless otherwise agreed upon in writing. Not all products or services may be available at UBS Bank (Canada). Some products and services may be legally restricted for residents of certain countries. Should you have any questions, please contact UBS Bank (Canada) and ask to speak to a member of our Wealth Management Team. UBS Wealth Management is a registered trade-mark of UBS AG. UBS Bank (Canada) is a subsidiary of UBS AG. Investment advisory and portfolio management services are provided through UBS Investment Management Canada Inc., a wholly-owned subsidiary of UBS Bank (Canada). UBS Investment Management Canada Inc. is a registered portfolio manager and exempt market dealer in all the provinces with the exception of P.E.I. and the territories. This publication may not be reproduced, or copies circulated without prior authority of UBS Bank (Canada). **China**: This report and any offering material such as term sheet, research report, other product or service documentation or any other information (the "Material") sent with this report was done so as a result of a request received by UBS from you and/or persons entitled to make the request on your behalf. Should you have received the material erroneously, UBS asks that you kindly delete it and inform UBS immediately. This report is prepared by UBS Switzerland AG or its offshore subsidiary or affiliate (collectively as "UBS Offshore"). UBS Offshore is an entity incorporated out of China and is not licensed, supervised or regulated in China to carry out banking or securities business. The recipient should not contact the analysts or UBS Offshore which produced this report for advice as they are not licensed to provide securities investment advice in China. UBS Investment Bank (including Research) has its own wholly independent research and views which at times may vary from the views of UBS Global Wealth Management. The recipient should not use this document or otherwise rely on any of the information contained in this report in making investment decisions and UBS takes no responsibility in this regard. **Denmark**: This publication is not intended to constitute a public offer under Danish law. It is distributed only for information purposes to clients of UBS Europe SE, Denmark Branch, filial af UBS Europe SE, with place of business at Sankt Annae Plads 13, 1250 Copenhagen, Denmark, registered with the Danish Commerce and Companies Agency, under No. 38 17 24 33. UBS Europe SE, Denmark Branch, filial af UBS Europe SE is subject to the joint supervision of the European Central Bank, the German Central Bank (Deutsche Bundesbank), the German Federal Financial Services Supervisory Authority (Bundesanstalt für Finanzdienstleistungsaufsicht, "BaFin"), as well as of the Danish Financial Supervisory Authority (Finanstilsynet), to which this publication has not been submitted for approval. UBS Europe SE is a credit institution constituted under German law in the form of a Societas Europaea, duly authorized by BaFin. **Egypt**: Securities or other investment products are not being offered or sold by UBS to the public in Egypt and they have not been and will not be registered with the Egyptian Financial Regulatory Authority (FRA). **France**: This publication is not intended to constitute a public offer under French law, it does not constitute a personal recommendation as it is distributed only for information purposes to clients of UBS Europe SE Succursale de France (a branch of UBS Europe SE), having its registered office at 39, rue du Colisée, 75008 Paris, France, registered with the "Registre du Commerce et des Sociétés" of Paris under N°844 425 629. UBS Europe SE Succursale de France is subject to the joint supervision of the European Central Bank, the German Central Bank (Deutsche Bundesbank), the German Federal Financial Services Supervisory Authority (Bundesanstalt für Finanzdienstleistungsaufsicht, "BaFin"), as well as of the French "Autorité de contrôle prudentiel et de résolution" and "Autorité des marchés financiers", to which this publication has not been submitted for approval. UBS Europe SE is a credit institution constituted under German law in the form of a Societas Europaea, duly authorized by BaFin. **Germany**: This publication is not intended to constitute a public offer under German law. It is distributed only for information purposes to clients of UBS Europe SE, Germany, with place of business at Bockenheimer Landstrasse 2-4, 60306 Frankfurt am Main. UBS Europe SE is a credit institution constituted under German law in the form of a Societas Europaea, duly authorized by the German Federal Financial Services Supervisory Authority (Bundesanstalt für Finanzdienstleistungsaufsicht, "BaFin") and supervised jointly by the European Central Bank, the German Central Bank (Deutsche Bundesbank) and BaFin, to which this publication has not been submitted for approval. **Hong Kong SAR**: This publication is distributed to clients of UBS AG Hong Kong Branch by UBS AG Hong Kong Branch, a licensed bank under the Hong Kong Banking Ordinance and a registered institution under the Securities and Futures Ordinance. UBS AG Hong Kong Branch is incorporated in Switzerland with limited liability. The contents of this material have not been reviewed by any regulatory authority in Hong Kong. **Indonesia**: This communication and any offering material term sheet, research report, other product or service documentation or any other information (the "Material") sent with this communication was done so as a result of a request received by UBS from you and/or persons entitled to make the request on your behalf. Should you have received the Material erroneously, UBS asks that you kindly delete/destroy the communication and Material and inform UBS immediately. The Material, where provided, was provided for your information only and is not to be further distributed in whole or in part in or into your jurisdiction without the consent of UBS. The Material may not have been reviewed, approved, disapproved, endorsed, registered or filed with any financial or regulatory authority in your jurisdiction. UBS has not, by virtue of the Material, made available, issued any invitation to subscribe for or to purchase any investment (including securities or derivatives products). The Material is neither an offer nor a solicitation to enter into any transaction or contract (including futures contracts) nor is it an offer to buy or to sell any securities or derivatives products. The relevant investments will be subject to restrictions and obligations on transfer as set forth in the Material, and by receiving the Material you undertake to comply fully with such restrictions and obligations. You should carefully study and ensure that you understand and exercise due care and discretion in considering your investment objective, risk appetite and personal circumstances against the risk of the investment. You are advised to seek independent professional advice in case of doubt. Any and all advice provided on and/or trades executed by UBS pursuant to the Material will only have been provided upon your specific request or executed upon your specific instructions, as the case may be, and may be deemed as such by UBS and you. **Israel**: UBS is a premier global financial firm offering wealth management, asset management and investment banking services from its headquarters in Switzerland and its operations in over 50 countries worldwide to individual, corporate and institutional investors. This publication is intended for information only and is not intended as an offer to buy or solicitation of an offer. Furthermore, this publication is not intended as an investment advice. Nothing contrary to the above, no action has been, or will be, taken in Israel that would permit an offering of the product(s) mentioned in this document or a distribution of this document to the public in Israel. In particular, this document has not been reviewed or approved by the Israeli Securities Authority. The product(s) mentioned in this document is/are being offered to a limited number of sophisticated investors who qualify as one of the investors listed in the first supplement to the Israeli Securities Law, 5728-1968. This document may not be reproduced or used for any other purpose, nor be furnished to any other person other than those to whom copies have been sent. Anyone who purchases the product(s) mentioned herein shall do so for its own benefit and for its own account and not with the aim or intention of distributing or offering the product(s) to other parties. Anyone who purchases the product(s) shall do so in accordance with its own understanding and discretion and after it has received any relevant financial, legal, business, tax or other advice or opinion required by it in connection with such purchase(s). The word "advice" and/or any of its equivalent terms shall be read and construed in conjunction with the definition of the term "investment marketing" as defined under the Israeli Regulation of Investment Advice, Investment Marketing and Portfolio Management Law. The Swiss laws and regulations require a number of mandatory disclosures to be made in independent financial research reports or recommendations. Pursuant to the Swiss Financial Market Infrastructure Act and the Financial Market Infrastructure Ordinance-FINMA, banks must disclose the percentage of voting rights they hold in companies being researched, if these holdings are equal to or exceed the statutory thresholds. In addition, the Directives on the Independence of Financial Research, issued by the Swiss Bankers Association, mandate a number of disclosures, including the disclosure of potential conflicts of interest, the participation within previous 12 months in any securities issues on behalf of the company being researched, as well as the fact that remuneration paid to the financial analysts is based generally upon the performance of (i) the new issues department or investment banking; or (ii) securities trading performance (including proprietary trading) or sales. **Italy**: This publication is not intended to constitute a public offer under Italian law. It is distributed only for information purposes to clients of UBS Europe SE, Succursale Italia, with place of business at Via del Vecchio Politecnico, 3-20121 Milano. UBS Europe SE, Succursale Italia is subject to the joint supervision of the European Central Bank, the German Central Bank (Deutsche Bundesbank), the German Federal Financial Services Supervisory Authority (Bundesanstalt für Finanzdienstleistungsaufsicht, "BaFin"), as well as of the Bank of Italy (Banca d'Italia) and the Italian Financial Markets Supervisory Authority (CONSOB - Commissione Nazionale per le Società e la Borsa), to which this publication has not been submitted for approval. UBS Europe SE is a credit institution constituted under German law in the form of a Societas Europaea, duly authorized by BaFin. **Japan**: This report is solely distributed in Japan by UBS SuMi TRUST Wealth Management Co., Ltd, Financial Instruments Dealer, Director-General of Kanto Local Finance Bureau (Kinsho) No. 3233, a member of the Japan Securities Dealers Association, Financial Futures Association of Japan, Investment Management Association of Japan. UBS SuMi TRUST Wealth Management Co., Ltd will not distribute or forward this report outside Japan. **Jersey**: UBS AG, Jersey Branch, is regulated and authorized by the Jersey Financial Services Commission for the conduct of banking, funds and investment business. Where services are provided from outside Jersey, they will not be covered by the Jersey regulatory regime. UBS AG, Jersey Branch is a branch of UBS AG a public company limited by shares, incorporated in Switzerland whose registered offices are at Aeschenvorstadt 1, CH-4051 Basel and Bahnhofstrasse 45, CH 8001 Zurich. UBS AG, Jersey Branch's principal place of business is 1, IFC Jersey, St Helier, Jersey, JE2 3BX. **Luxembourg**: This publication is not intended to constitute a public offer under Luxembourg law. It is distributed only for information purposes to clients of UBS Europe SE, Luxembourg Branch ("UBS Luxembourg"), R.C.S. Luxembourg n° B209123, with registered office at 33A, Avenue J. F. Kennedy, L-1855 Luxembourg. UBS Europe SE is a credit institution constituted under German law in the form of a Societas Europaea (HRB n° 107046), with registered office at Bockenheimer Landstrasse 2-4, D-60306 Frankfurt am Main, Germany, duly authorized by the German Federal Financial Services Supervisory Authority (Bundesanstalt für Finanzdienstleistungsaufsicht, "BaFin") and subject to the joint prudential supervision of BaFin, the European Central Bank and the central bank of Germany (Deutsche Bundesbank). UBS Luxembourg is furthermore supervised by the Luxembourg prudential supervisory authority (Commission de Surveillance du Secteur Financier), in its role as host member state authority. This publication has not been submitted for approval to any public supervisory authority. **Malaysia**: This communication and any offering material term sheet, research report, other product or service documentation or any other information (the "Material") sent with this communication was done so as a result of a request received by UBS from you and/or persons entitled to make the request on your behalf. Should you have received the Material erroneously, UBS asks that you kindly delete/destroy the communication and Material and inform UBS immediately. The Material, where provided, was provided for your information only and is not to be further distributed in whole or in part in or into your jurisdiction without the consent of UBS. The Material may not have been reviewed, approved, disapproved, endorsed, registered or filed with any financial or regulatory authority in your jurisdiction. UBS has not, by virtue of the Material, made available, issued any invitation to subscribe for or to purchase any investment (including securities or derivatives products). The Material is neither an offer nor a solicitation to enter into any transaction or contract (including future contracts) nor is it an offer to buy or to sell any securities or derivatives products. The relevant

investments will be subject to restrictions and obligations on transfer as set forth in the Material, and by receiving the Material you undertake to comply fully with such restrictions and obligations. You should carefully study and ensure that you understand and exercise due care and discretion in considering your investment objective, risk appetite and personal circumstances against the risk of the investment. You are advised to seek independent professional advice in case of doubt. Any and all advice provided on and/or trades executed by UBS pursuant to the Material will only have been provided upon your specific request or executed upon your specific instructions, as the case may be, and may be deemed as such by UBS and you. **Mexico**: This information is distributed by UBS Asesores México, S.A. de C.V. ("UBS Asesores"), an affiliate of UBS Switzerland AG, incorporated as a non-independent investment advisor under the Mexican regulation due to the relation with a Foreign Bank. UBS Asesores is registered under number 30060-001-(14115)-21/06/2016 and subject to the supervision of the Mexican Banking and Securities Commission ("CNBV") exclusively regarding the rendering of (i) portfolio management services, (ii) securities investment advisory services, analysis and issuance of individual investment recommendations, and (iii) anti-money laundering and terrorism financing matters. This UBS publication or any material related thereto is addressed only to Sophisticated or Institutional Investors located in Mexico. Research reports only reflect the views of the analysts responsible for the report. The compensation of the analyst(s) who prepared this report is determined exclusively by research management and senior management of any entity of UBS Group to which such analyst(s) render(s) services. **Monaco**: This document is not intended to constitute a public offering or a comparable solicitation under the Principality of Monaco laws, but might be made available for information purposes to clients of UBS (Monaco) S.A., a regulated bank having its registered office at 2 avenue de Grande Bretagne 98000 Monaco operating under a banking license granted by the "Autorité de Contrôle Prudentiel et de Résolution" (ACPR) and the Monegasque government which authorizes the provision of banking services in Monaco. UBS (Monaco) S.A. is also licensed by the "Commission de Contrôle des Activités Financières" (CCAF) to provide investment services in Monaco. The latter has not approved this publication. **Philippines:** This communication was done so as a result of a request received by UBS from you and/or persons entitled to make the request on your behalf. Should you have received the Material erroneously, UBS asks that you kindly delete/destroy the communication and Material and inform UBS immediately. The Material, where provided, was provided for your information only and is not to be further distributed in whole or in part in or into your jurisdiction without the consent of UBS. The Material may not have been reviewed, approved, disapproved, endorsed, registered or filed with any financial or regulatory authority in your jurisdiction. UBS has not, by virtue of the Material, made available, issued any invitation to subscribe for or to purchase any investment (including securities or derivatives products). The Material is neither an offer nor a solicitation to enter into any transaction or contract (including future contracts) nor is it an offer to buy or to sell any securities or derivatives products. The relevant investments will be subject to restrictions and obligations on transfer as set forth in the Material, and by receiving the Material you undertake to comply fully with such restrictions and obligations. You should carefully study and ensure that you understand and exercise due care and discretion in considering your investment objective, risk appetite and personal circumstances against the risk of the investment. You are advised to seek independent professional advice in case of doubt. Any and all advice provided on and/or trades executed by UBS pursuant to the Material will only have been provided upon your specific request or executed upon your specific instructions, as the case may be, and may be deemed as such by UBS and you. **Portugal**: This publication is not intended to constitute a public offer under Portuguese law. It is distributed only for information purposes by UBS Europe SE, Sucursal em Portugal (UBS Portugal), Commercial Register of Lisbon (Conservatoria do Registo comercial de Lisboa) no. 980492491, with registered office at Avenida da Liberdade, n. 0 180-A, 8.0 andar, 1250-146 Lisboa. UBS Portugal is a branch of UBS Europe SE, a credit institution constituted under German law in the form of a Societas Europaea (HRB n° 107046), with registered office at Bockenheimer Landstrasse 2-4, D-60306 Frankfurt am Main, Germany, duly authorized by the German Federal Financial Supervisory Authority (Bundesanstalt für Finanzdienstleistungsaufsicht – "BaFin") and subject to the joint prudential supervision of BaFin, the central bank of Germany (Deutsche Bundesbank) and the European Central Bank. UBS Portugal is furthermore supervised by the Portuguese banking and financial authorities as the "Banco de Portugal" and the "Comissão do Mercado dos Valores Mobiliários" in their role as host member state authority. GIS-KY(6456 TT)　　法說/座談摘要

前日收盤價	76.6 元

許哲豪
Jeff.syu@ctbcsis.com

雷射封裝業務進展順利，2Q27 有望顯著放量

- **公司積極轉型自傳統觸控模組轉向半導體光學**
- **雷射封測試量產進行中，預期年底出貨，2027 將有顯著貢獻**

結論：GIS-KY 3Q26 營收有起色，但仍受終端市場需求不振及客戶端記憶體缺貨的影響，但整體財務結構與淨現金部位仍穩健。公司目前正積極推動業務轉型，從傳統觸控模組轉向半導體光學領域，並已擴大資本支出佈局光通訊雷射光源封測與 AR/VR 等新產品，預計這些新事業將於 2027 至 2028 年成為公司顯著的營收成長動能。

3Q26 財務數據

- 營收 144 億元(QoQ+37.6%，YoY-10.5%)，主要受到終端市場需求不振及客戶端記憶體缺貨的影響。
- 毛利率 4.02%(QoQ+0.68ppts，YoY-2.46ppts)
- 營業費用 12.11 億元，前三季單季皆維持在 11.2 億元左右的水準。因公司處於轉型期，於 R&D 的投資相對較多。
- 營業利益-6.3 億元
- 稅前淨利-6.69 億元
- 單季 EPS -3.15 元
- 稅後淨利-7.25 億元
- 單季 EPS -2.17 元。

產品營收占比

- 3Q26：平板佔 40%、筆電佔 28%、指紋辨識模組佔 13%、其他佔 19%。
- 1Q-3Q26：平板佔 32%、筆電佔 21%、指紋辨識模組佔 9%、其他佔 38%。

法說會內容摘要

1. 公司中長期轉型策略：半導體光學(Semi Optics)

• 光學元件：主要應用於 AR/VR 眼鏡、Waveguide 及抬頭顯示器（HUD），涵蓋奈米壓印、蝕刻及鍍膜等製程，目前擁有多個國際大廠專案。預期 AR/VR 軟硬體需至 2027 至 2028 年才會成熟發酵。

• 雷射封裝：為近期資本支出重點方向，主力產品為 CW Laser CoC 以及未來的 VCSEL VOD。

- 光通訊元件：發展被動光學元件，不排除整合 FAU、Metalens 及上下游模零組件整合。
- Micro OLED / Micro LED：Micro OLED 在顯示器應用發展符合預期，並積極研發 Micro LED 在光通訊領域的應用。

Q&A 內容摘要

1. Q：新世代半導體光學產品的資本支出目前的廠區規劃及進度為何？後續大客戶的營收比重是否會下降？

A：公告約 80 億元的資本支出中，雷射封裝相關預計佔 40 至 50 億元，約三分之一投入台灣廠區，其餘投入海外越南新廠。剩下的資本支出將用於 Micro LED、AR/VR 波導及大客戶新產品（廠區分散於大陸及台灣）。與大陸大客戶合作近 20 年互信基礎深厚，只要有觸控與顯示的新產品皆會參與，大客戶仍是重要客戶，但隨新業務逐步發酵，其營收佔比的確會漸漸下降。

2. Q：10 月份營收跳升破百億元的原因？這是一次性的嗎？這是否會佔用過多營運資金？

A：10 月營收達 130 億元，主因為客戶委託進行手機關鍵零組件的加工與精密對位貼合，這是相對長期的專案，並非一次性。營收跳升主力來自高單價材料，若純看加工費，實際營收佔比並不高。材料確實會佔用較大營運資金，但因週期短，銀行額度支持無虞；先前提出的增資案主要是為支撐長期營運資金及較大資本支出。

3. Q：雷射封裝產線何時建好並貢獻營收？GIS 在此領域相對於現有供應商的優勢在哪？

A：產線今年 2Q26 已陸續建置，4Q26 客戶原材料供應及認證趨於成熟，量產預計在 11 月或 12 月從小量往上衝。GIS 的優勢在於：(1)長期與國際大廠合作累積的製造管理能力。(2)擁有充足現金流與財務實力，能支撐數十億的資本支出。

4. Q：雷射出貨的規格？今明兩年的資本支出預估？

A：目前專注於大於 300mW、400mW 的高功率雷射（不涉獵傳統 100mW），主要應用於 ELSFP 等 200G 以上高階領域，材料主力為磷化銦，同時也開發 CW Laser 及 VCSEL 封裝。今年已核准資本支出約 80 億元，明年資本支出將視新產品狀況及客戶需求而定，預計今年底或明年初會較明確。

5. Q：明年筆電與平板的記憶體缺貨狀況會好轉嗎？

A：據業界交流，因新產能開出尚需時間，記憶體缺貨狀況到 2027 年底前改善幅度可能有限，許多人預估缺貨可能持續到 2028 年。

6. Q：FAU 的佈局？與集團內的訊芯有無合作？

A：集團內公司皆獨立營運，訊芯比較接近光模塊加工。GIS 初期不會聚焦整套 FAU 模組組裝，而是先從 passive component（如 Fiber holder、V 型槽、透鏡陣列、超透鏡）做起，未來若元件做得不錯，才會考慮後段的模組。

7. Q：大客戶即將推出搭載 OLED 及觸控功能的筆電，貴司是否有參與？ A：不便針對單一客戶產品發表評論。但只要是分離式的觸控模組（非內嵌式 In-cell Touch），公司都會積極爭取並參與。

8. Q：雷射封裝做到 300mW 以上，在技術或設備上有何門檻與優勢？ A：100mW 提升到 300mW 或 400mW，封裝的製程流程基本相同，但測試項目及設備必須大幅更新，這也是新資本支出的重點。基於過去在顯示器背光模組及指紋辨識貼合所累積的光學製程經驗，跨入此領域對公司來說並非太難。

9. Q：設備交期似乎很長，何時能滿產？

A：固晶機、打線機是泛用的，依照現有機台去挪動不難，主要是測試設備（如測試設備外掛的電流計、頻譜分析儀）交期確實較長，預計 2Q27 季底到 3Q27 初產能可完全開出。2Q27 量產時預計會有一到兩家客戶。

10. Q：滿產能時的營收貢獻預估？何時能回收資本支出？

A：雷射封裝商業模式以加工費為主，營收絕對金額佔比看似較小，但扣除材料費後，純加工毛利率遠高於傳統觸控顯示業務。董事會對資本支出有嚴格的財務紀律，原則上必須在少數幾年內完成回收。

11. Q：到 2H27 可能 300mW 以上的雷射市場變成熟，公司屆時產能到位可以拿下多少市佔?

A：公司有接觸多位 high power 的客戶，每個客戶需求都很可觀，即便現在因為選舉政治議題等潛在變數可能改變 AI 的需求，但以整個產業來看，公司建置的產能僅占需求面的一部分比例，仍有很大的增加產能的空間。

12. Q：與富采的 Micro LED 及光通訊發展有何競爭或關聯？

A：富采沒有做到封裝，GIS 做封裝，雙方可能為上下游關係。富采 Micro LED 偏向 TV 巨量轉移應用，GIS 則聚焦 AR 投影機光機應用，兩者 Micro LED 大小差異很大。公司也與客戶在探討 Micro LED 或 Micro VCSEL 在光通訊領域的潛力，均處於樣品開發階段。另外公司今年 4Q26 或 1Q27 AR projector 可能會有小量出貨。

13. Q：光通訊相關的研發專案進度？以及信賴性測試（如 5000 小時）的狀況？FAU 會朝模組發展嗎？

A：不便針對單一客戶及具體的信賴性測試時數評論。關於 FAU，初期聚焦於光學元件（如 Fiber holder、波導、V 型槽、超透鏡）。公司已具備 Metalens 自行設計及製造的能力，因其製程與目前開發的 AR 眼鏡波導製程十分相近。

重要訊息

中砂公布 3Q26 財報，並進一步揭露新產品進展。

評論及分析

3Q26 財報不如預期，主要受營業費用拖累。中砂 3Q26 營收 26.9 億元，季增 8.1%、年增 28.8%，主要受惠 DBU (先進封裝業務季增 57.3%)及 SBU 成長，惟因漲價效益低於原先預估，營收低於凱基預估 6%。毛利率季增 2.2 個百分點至 42.2%，符合凱基預估，但優於市場共識 1.3 個百分點，主要受惠 DBU 及 ABU 毛利率分別超過 55%及 35%。隨 ABF 需求強勁，鑽石砂輪占台灣 ABU 營收比重由 2Q26 的 40%提升至近 50%，帶動 ABU 毛利率改善。然而，因營收成長不如預期，營運槓桿效益低於原先估計，營益率僅 27%，低於凱基預估 2 個百分點。3Q26 稅後淨利 5.9 億元，分別低於凱基預估及市場共識 14.6%及 3.1%。

調升資本支出及產能規劃指引。中砂將 2026 年資本支出由 16-17 億元上修至 23 億元，主要考量：(1)主要晶圓代工客戶持續擴產；(2)美國記憶體及 IDM 客戶需求強勁；以及(3)新增鑽石減薄砂輪業務的投資需求。此外，中砂同步上調 DBU 產能規劃，預期 2026 年底月產能將由原先的 7 萬顆提高至 8 萬顆，2027 年底則由 9 萬顆提高至 11 萬顆，鶯歌及樹林廠最大月產能可達 13-14 萬顆。SBU 擴產規劃則維持不變，預計 2026 年底及 2Q27 底月產能分別達 40 萬片及 43 萬片。公司預期 4Q26 營收將小幅優於 3Q26，且隨產品漲價及組合改善，獲利率可望進一步提升。

新業務將成為 2028 年主要成長動能。儘管需求展望強勁，我們仍下修 2026-27 年獲利預估 8-10%，主要考量：(1)產品漲價有滯後效應，且主要集中於低階產品，實際效益低於原先預估；以及(2)營收規模低於我們原先樂觀假設，可能使營運槓桿效益低於先前估計。然而，我們上修 2028 年每股盈餘預估 7%，係因：(1)產能持續上修，尤其是 DBU 業務；以及(2)切入鑽石減薄砂輪的新市場。鑽石減薄砂輪主要應用於：(1) HBM 堆疊；(2)先進封裝所需的薄化製程(包括矽晶圓及化合物模封材料)；以及(3)晶背供電技術(SPR)。隨在地採購趨勢發展，我們認為中砂最快有望於 2H27 切入相關市場，並假設初期市占率可達 5-15%。

投資建議

我們維持「增加持股」評等，並將目標價上調至 940 元，主要反映 2028 年獲利預估上修(已納入可轉債轉換對股數的稀釋影響)。目標價仍以 2028 年每股盈餘 30 倍本益比推估。我們對 2028 年每股盈餘預估高於市場共識 16%，2026-27 年則與市場共識相當。

投資風險

晶圓代工廠產能利用率下滑；先進製程產能爬升較預期緩慢。

訂單動能強勁

重要訊息

上銀 3Q26 每股盈餘達 3.48 元，較市場共識高 24%，亦超前我們預估 20%，主因利潤率顯著優於預期。管理層表示接單動能持續強勁，展望 4Q26 營收將季增，表現優於過往季節性。目前訂單能見度已延伸至 2027 年年中，公司預期明年營收可望維持雙位數成長。

評論及分析

3Q26 財報大幅超前，主因利潤率改善。受惠半導體及 AI 相關應用訂單暢旺，3Q26 營收達 81 億元，年增幅度加速至 35%。毛利率攀升至 36.3%，創下 4 年新高，年增 7.7 個百分點、季增 2.2 個百分點，優於我們預估的 35.0%，主因包括美國關稅退稅（貢獻 0.6 個百分點）、產能滿載、產品漲價，以及匯率有利（貢獻 0.5 個百分點）。營益率達 17.8%（3Q22 以來新高），顯著優於市場共識的 15.1%及我們預估的 14.7%。此外，人民幣升值帶來 1.2 億元匯兌利益，亦挹注獲利表現。

4Q26 營收可望淡季不淡。上銀表示截至 10 月需求仍相當強勁，儘管公司已增聘人力並延長加班工時，訂單仍明顯高於現有產能，主要受惠半導體、AI 相關應用及自動化需求帶動。目前滾珠螺桿交期已超過 6.5 個月，線性滑軌交期則為 4-6 個月，顯示訂單能見度已延伸至 2027 年年中。管理層預期 4Q26 營收可望季增，表現優於傳統淡季，印證產業正處上升週期。在供需結構有利的情況下，公司能擇優承接訂單，有助於毛利率延續擴張趨勢。

市場獲利預估上修在即。我們認為上銀 3Q26 利潤率大幅優於預期，加上管理層對 2027 年訂單成長展望樂觀，可望帶動市場獲利預估在過去三個月上修 10%後，進一步上調並帶來評價重估。反映利潤率優於預期及營運環境有利，我們上修 2026 年獲利預估 9.6%。我們目前預估今年每股盈餘將年增 139%至 10.28 元，2027 年再成長 25%至 12.80 元。我們看好上銀在機器人零組件領域提供整體解決方案的能力，可望為 2027 年營收增添上檔。

投資建議

我們認為上銀強勁的 3Q26 財報及訂單能見度延長，再次印證產業正處供需結構有利的上升循環。我們預期市場獲利預估持續上修將帶動股價與評價上檔。重申「增加持股」評等及目標價 482 元。

投資風險

下檔風險包括資本支出週期延宕、新台幣升值。

ESG 圖表定義

項目	定義	說明
能源消耗	直接與間接能源消耗總量(十億焦耳) - 公司運營範圍內消耗之能源總量 - 能源使用總量 = 直接能源消耗總量 + 間接能源消耗量 - 總能源使用量包括購買的能源、生產的能源 - 就公用事業而言，輸電/電網損耗為其業務活動之一部分，被視為總能源消耗，數據不包括為滿足能源使用而生產的電力（公用事業為出售而生產） - 就公用事業而言，用於能源生產的煤、天然氣或核能等原料不屬於「總能源使用」項下	
購買之再生能源	再生能源購買總量(十億焦耳) - 公司各種來源之能源消耗量與購買的能源中屬於自然界可再生者（太陽能、風能、水能、生物質能、地熱能）之量 - 如無證據顯示再生能源由公司生產，則所報告的能源數據視為購買的再生能源	
再生能源使用率	再生能源占總能源消耗量之比例	
約當二氧化碳排放量	直接 CO2 與 CO2 約當排放量(公噸) - 公司擁有或控制的來源的直接排放量（範圍 1 排放量） - 相關氣體：二氧化碳 (CO2)、甲烷 (CH4)、一氧化二氮 (N2O)、氫氟碳化物 (HFCS)、全氟化合物 (PFCS)、六氟化硫 (SF6)、三氟化氮 (NF3)	
單位營收碳排量	直接 CO2 與 CO2 約當排放量（公噸）銷售（百萬元）比 - 公司擁有或控制的來源的直接排放量（範圍 1 排放量） - 相關氣體：二氧化碳 (CO2)、甲烷 (CH4)、一氧化二氮 (N2O)、氫氟碳化物 (HFCS)、全氟化合物 (PFCS)、六氟化硫 (SF6)、三氟化氮 (NF3)	
廢棄物總量	廢棄物總量(公噸) - 總廢棄物 = 無害廢棄物 + 有害廢棄物 - 僅考慮固體廢棄物，但如液體廢棄物以公噸為單位呈報，則會將其加入求得包含液體廢棄物之總量 - 對於採礦、石油與天然氣等行業，tailings、廢石、煤、飛灰等廢棄物亦考慮在內	
廢棄物回收比例	公司呈報的廢棄物回收比例 - 廢棄物回收比例 = 廢棄物回收量/總廢棄物*100 - 廢棄物轉化為能源或經由廢棄物焚燒產生能源視為廢棄物回收 - 經由堆肥回收的廢棄物視為回收之廢棄物	
耗水量	耗水量(立方公尺) - 由呈報組織直接或經水公司等中介機構從任何水源抽取的總水量 - 水井、城鎮/公用事業/市政用水、河水、地表水等不同之水源均予以考慮	
環保支出	環保支出總金額 - 所有用於環境保護，或防止、減少、控制環境因素、影響、危害的投資與支出，亦包括處置、處理、衛生、清理支出	
員工流動率	員工流動率 - 包括任何原因（自願或非自願）離開公司的員工，如辭職、退休、自然離職/死亡、醫療失能、冗員、裁員、重組、解僱、裁減或定期合約到期 - 員工流動率 =（離開之員工/平均員工人數）*100 - 平均員工人數 =（本年末員工人數 + 去年末員工人數）/2 - 本財年末員工數 =上個財年末員工數 + 新員工數 - 離開之員工數	
女性主管	女性主管百分比 - 女性主管占公司主管的百分比 - 如有不同階層之百分比，如最高階、高階、中階、初階，則會考慮中階女性主管之百分比 - 女性主管百分比 = 女性主管人數/主管總數*100	
女性員工	女性員工百分比 - 女性員工占公司員工總數的百分比 - 女性員工百分比 = 女性人數/員工總數*100	
教育訓練總時數	所有員工教育訓練總時數 - 僅考慮員工教育訓練時數 - 包括一般員工所有類型的教育訓練（如健康與安全、環境、急難事件救援、技能與職業發展） - 如果數據以天為單位，則乘以 8，係假設 1 天 = 8 小時工作	
每位員工教育訓練時數	平均每年每位員工總教育訓練時數

股價說明

等級	定義
增加持股 (OP)	對個股持正面看法，預期個股未來十二個月的表現超越凱基證券集團所追蹤的相關市場的總報酬。
持有 (N)	對個股持中性看法，預期個股未來十二個月的表現符合凱基證券集團所追蹤的相關市場的總報酬。
降低持股 (U)	對個股持負面看法，預期個股未來十二個月的表現低於凱基證券集團所追蹤的相關市場的總報酬。
未評等 (NR)	凱基證券未對該個股加以評等。
受法規限制未評等 (R)	受凱基證券集團內部政策和/或相關法令限制使凱基證券集團無法進行某些形式的資訊交流，其中包括提供評等給投資人參考。
	*總報酬 = (十二個月目標價-現價)/現價

12 個月目標價 (NT$)	54.00
前次目標價 (NT$)	65.00
調降 (%)	16.9
下跌空間 (%)	-1.6

焦點內容

1. 3Q26 EPS 為 0.71 元,低於凱基預估及市場共識,主因毛利率、營業利益率雙雙低於預期。
2. 4Q26 營收可能季減，但可望於 1Q27 反彈。2027 年展望正向，在取得多項 AI 專案的情況下，伺服器業務將成為明年營運成長主力。
3. 伺服器營收成長動能主要將由 AI 機種挹注 (2027 年 L10/L11 系統出貨佔比可望攀升)，整體營收或將年增逾 50%，惟毛利率可能遭到稀釋。

2027 年 AI 伺服器系統出貨量可望攀升

重要訊息

英業達公告 3Q26 每股盈餘 0.71 元，落後凱基和市場預估，主要因獲利率不如預期。管理層預估 2027 年伺服器、筆電與智慧裝置營收、出貨量都將較 2026 年成長。

評論及分析

3Q26 財報不如預期。3Q26 EPS 為 0.71 元，季減 35%、年減 7%，低於凱基預估及市場共識。毛利率 4.2%、營業利益率 1.6%，均弱於凱基預期。儘管 3Q26 伺服器營收占比由 2Q26 的 48% 升至 51%，毛利率仍季持平，因高 ASP 的 AI 伺服器機櫃 (B300 與 GB300) 貢獻增加而稀釋毛利率，同時出貨量成長有限。此外，零組件成本上升使 NB ASP 提高，同樣拖累毛利率，加上出貨量季減 9% (至 490 萬台)。同時營業費用上揚，因而營利率季減且年減。加上利息支出增加，3Q26 業外虧損高於預期，因此 3Q26 EPS 不如預期。1Q-3Q26 EPS 為 2.47 元，年增 34%。

4Q26 進入產品過渡期與傳統淡季；然 2027 年展望正向。受零組件供給受限影響 (記憶體、CPU 與伺服器 PCB)，預期英業達 4Q26 出貨與營收受限，凱基預估營收季減。NB 出貨預期季減雙位數，而伺服器營收將有更多貢獻來自 ASP 較低的 ASIC 與通用型伺服器，因此伺服器營收可能季減，但有利毛利率。凱基預估 4Q26 營收將季減 14%，弱於先前預估。為反映 2H26 營收與利潤率較預期弱，將 2026 年 EPS 預估下修至 2.99 元，年增 23%。展望 2027 年，管理層表示伺服器將是主要成長動能，營收年增雙位數，NB 與智慧裝置出貨及營收則年增個位數。伺服器營收將因明年取得多項 AI 伺服器專案而成長，涵蓋 ASIC (自建) 與 GPU (Nvidia (美)、AMD (美)) 平台。不過，通用型伺服器出貨成長來自 CSP 將 強於企業端，因企業端將有預算排擠。預期公司 2027 年 L10/L11 AI 伺服器出貨增加，AI 伺服器營收明年預估年增逾 50%，占伺服器營收逾 70%。據此預估伺服器營收占比將由 2026 年的約 47% 擴大至 2027 年的 59-60%。然而，毛利率將承受壓力，但毛利額仍將增加有利獲利成長，為反映較低的營收預期，將 2027 年 EPS 預估下修至 4.16 元 (年增 39%)，並預期 1Q27 營收季增。公司中長期營業利益率目標為 2%，可能於 2H27-2028 年達成。

投資建議

有鑑於目前評價與同業相比不具吸引力，凱基維持英業達「持有」評等，目標價則由 65 元下修至 54 元，相當於 2027 年下修後每股盈餘的 13 倍。

投資風險

零組件供應緊俏；通膨影響終端需求、台幣升值。

圖 4：公司概況

成立於 1975 年，英業達在台灣高科技業佔有舉足輕重的地位。英業達原以生產電子計算機起家，現已邁入高科技電子產品的設計與製造，包括筆電、商用伺服器。英業達也併入英華達，以整合旗下智慧型裝置產品，另投資太陽能事業，以擴展業務範疇。2025 年營收約 51%來自筆電，3%來自智慧型裝置，46%來自伺服器，2024 年佔比則分別為 50%、4%與 46%。

ESG 圖表定義

項目	定義	說明
能源使用	直接與間接能源消耗總量(十億焦耳) - 公司運營範圍內消耗之能源總量 - 能源使用總量 = 直接能源消耗總量 + 間接能源消耗量 - 總能源使用量包括購買的能源、生產的能源 - 就公用事業而言，輸電/電網損耗為其業務活動之一部分，被視為總能源消耗，數據不包括為滿足能源使用而生產的電力（公用事業為出售而生產） - 就公用事業而言，用於能源生產的煤、天然氣或核能等原料不屬於「總能源使用」項下	
購買之再生能源	Primary 再生能源購買總量(十億焦耳) - 公司各種來源之能源消耗量與購買的能源中屬於自然界可再生者（太陽能、風能、水能、生物質能、地熱能）之量 - 如無證據顯示再生能源由公司生產，則所報告的能源數據視為購買的再生能源	
再生能源使用率	再生能源占總能源消耗量之比例	
CO2 約當排放量	直接 CO2 與 CO2 約當排放量(公噸) - 公司擁有或控制的來源的直接排放量（範圍 1 排放量） - 相關氣體：二氧化碳 (CO2)、甲烷 (CH4)、一氧化二氮 (N2O)、氫氟碳化物 (HFCS)、全氟化合物 (PFCS)、六氟化硫 (SF6)、三氟化氮 (NF3)	
CO2 約當排放量營收比	直接 CO2 與 CO2 約當排放量（公噸）銷售（百萬元）比 - 公司擁有或控制的來源的直接排放量（範圍 1 排放量） - 相關氣體：二氧化碳 (CO2)、甲烷 (CH4)、一氧化二氮 (N2O)、氫氟碳化物 (HFCS)、全氟化合物 (PFCS)、六氟化硫 (SF6)、三氟化氮 (NF3)	
廢棄物總量	廢棄物總量(公噸) - 總廢棄物 = 無害廢棄物 + 有害廢棄物 - 僅考慮固體廢棄物，但如液體廢棄物以公噸為單位呈報，則會將其加入求得包含液體廢棄物之總量 - 對於採礦、石油與天然氣等行業，tailings、廢石、煤、飛灰等廢棄物亦考慮在內	
廢棄物回收率	公司呈報的廢棄物回收率 - 廢棄物回收率 = 廢棄物回收量/總廢棄物*100 - 廢棄物轉化為能源或經由廢棄物焚燒產生能源視為廢棄物回收 - 經由堆肥回收的廢棄物視為回收之廢棄物	
總取水量	總取水量(立方公尺) - 由呈報組織直接或經水公司等中介機構從任何水源抽取的總水量 - 水井、城鎮/公用事業/市政用水、河水、地表水等不同之水源均予以考慮	
環保支出	環保支出總金額 - 所有用於環境保護，或防止、減少、控制環境因素、影響、危害的投資與支出，亦包括處置、處理、衛生、清理支出	
員工流動率	員工流動率 - 包括任何原因（自願或非自願）離開公司的員工，如辭職、退休、自然離職/死亡、醫療失能、冗員、裁員、重組、解僱、裁減或定期合約到期 - 員工流動率 =（離開之員工/平均員工人數）*100 - 平均員工人數 =（本年末員工人數 + 去年末員工人數）/2 - 本財年末員工數 =上個財年末員工數 + 新員工數 - 離開之員工數	
女性經理	女性經理百分比 - 女性經理占公司經理的百分比 - 如有不同階層之百分比，如最高階、高階、中階、初階，則會考慮中階女性經理之百分比 - 女性經理百分比 = 女性經理人數/經理總數*100	
女性員工	女性員工百分比 - 女性員工占公司員工總數的百分比 - 女性員工百分比 = 女性人數/員工總數*100	
教育訓練總時數	所有員工教育訓練總時數 - 僅考慮員工教育訓練時數 - 包括一般員工所有類型的教育訓練（如健康與安全、環境、急難事件救援、技能與職業發展） - 如果數據以天為單位，則乘以 8，係假設 1 天 = 8 小時工作	
每位員工教育訓練時數	平均每年每位員工總教育訓練時數

3Q26 毛利率超預期，獲利上修

增加持股 · 維持

收盤價 November 10 (NT$)	163.5
12 個月目標價 (NT$)	208.0
前次目標價 (NT$)	213.0
調降 (%)	2.3
上漲空間 (%)	27.2

焦點內容

1. 3Q26 毛利率跳升，財報獲利大幅超越市場預期。MRO 及製造兩大業務毛利率分別達歷史次高及新高水準。
2. 製造二廠預計於 3Q27 投入量產，將用於生產空巴零件訂單。預估 2027 年製造業務營收可成長 13.3%至 53.4 億元。

重要訊息

長榮航太 3Q26 EPS 為 2.56 元、YoY+31.1%，達歷史次高。

評論及分析

毛利率跳升，3Q26 財報大幅超越市場預期。長榮航太 3Q26 營收 52.75 億元、YoY+17.5%，營業利益 11.8 億元、YoY+45%，稅後淨利 9.6 億元、YoY+31.1%，EPS 為 2.56 元，分別高於凱基預估及市場共識 23.8%、20.7%。獲利大幅超預期主要來自毛利率，3Q26 毛利率跳增至 26.0%，分別高於凱基及市場共識 3.9ppts、3.6ppts，創歷史次高。MRO 及製造兩大業務毛利率均較 2Q26 顯著提升。其中 MRO 受益於漲價及長工時特檢較多，毛利率提升至 31%、QoQ+5ppts，達歷史次高水準；製造則受惠於待料改善及規模經濟效益，毛利率翻倍提升至 11%、QoQ+6ppts，創歷史新高，並大幅優於過往 5%以下的水準，為本次財報最大亮點。

製造二廠加入及無人機為 2027 年主要成長動能。展望 2027 年，全球機隊老化趨勢延續，MRO 需求仍將強勁。不過，長榮航太受制於維修棚廠場地限制及人力招募緩慢，MRO 產能提升有限，預期營收成長將較今年放緩。同時，供不應求為長榮航太創造強勢訂價權，有助毛利率維持 25~30%高檔，預估 2027 年 MRO 貢獻營收 170.1 億元、YoY+7.0%。製造業務部分，製造二廠預計於 2Q27 啓用、3Q27 通過驗證開始量產，公司規畫二廠主要 For 空巴，目前已確認有 A321 零組件訂單。須注意產能爬坡初期將對毛利率造成負面影響。預估 2027 年製造業務貢獻營收 53.4 億元、YoY+13.3%(不含無人機之 12.8 億元)。

投資建議

3Q26 財報毛利率表現大幅超越凱基預估及市場預期，我們將長榮航太 2026-27 年獲利預估分別上修 7.2%、1.8%。我們看好長榮航太長期成長動能，MRO、航太零件製造及無人機多線並進。維持長榮航太「增加持股」投資評等，目標價調整為 208 元，基於 2027 年 23 倍本益比計算而得。

投資風險

奇異(美)賠償金、航太供應鏈不順及待料問題、客戶發生重大飛安事件。

營益率擴張趨勢不變

增加持股 · 維持

收盤價 November 10 (NT$)	81.50
12 個月目標價 (NT$)	92.00
前次目標價 (NT$)	92.00
維持 (%)	0.0
上漲空間 (%)	12.9

焦點內容

1. 3Q26 獲利低於市場共識及我們預估，主因香港結束營運及中國市場虧損拖累營益率表現
2. 美國展店步伐加快，可望支撐營益率延續年增趨勢
3. 營益率進一步回升且獲利復甦，評價上檔可期

重要訊息

3Q26 獲利分別較市場共識及我們預估低 18%及 7%，主因香港結束營運認列一次性費用，以及中國業務出現營業虧損。展望後市，儘管中國市場經營環境仍具挑戰，我們認為美國展店效益持續發酵，將有助延續公司營益率年增趨勢。

評論及分析

3Q26 獲利不如預期，主因利潤率落後。因美國及台灣市場營收分別年增 16%及 14%，部分抵銷中國市場衰退的影響，3Q26 營收年減 2.2%，較 1H26 的 13%年減幅度收斂。毛利率年增 1.6 個百分點至 60.6%，與市場共識的 60.5%及我們預估的 60.0%大致相符。然而，營益率為 6.6%，季減 3.4 個百分點，低於預期，主因：(1) 香港結束營運認列一次性損失，影響 1 個百分點；以及 (2) 中國業務因同店銷售衰退幅度擴大，加上消費環境疲弱導致月餅銷售平淡，轉為營業虧損。因此 3Q26 獲利為 2 億元，季減 41%，折合每股盈餘為 1.11 元，低於我們預估的 1.17 元及市場共識的 1.35 元。

美國展店步伐加快。公司 3Q26 在美國新開 6 家門市，進一步拓展至科羅拉多州與新墨西哥州，總店數達 101 家，優於我們預期。管理層規劃 4Q26 再開設 2 家門市，且明年拓展 10-15 個新據點。我們認為這將帶動美國市場營收佔比從目前 58%進一步提升，並支撐公司營益率年增趨勢。台灣市場方面，受惠導入亮黃色主題新店型、生甜甜圈以及新品上市，營收已連續兩季雙位數年增。儘管中國消費環境仍顯疲弱，我們預期美國持續展店及台灣來客數增加，將帶動公司 2027 年營收恢復年成長。

營益率年增趨勢無虞。儘管我們因香港營運結束的一次性費用而下修 2026 年營業利益預估 5%，但我們認為美食-KY 營益率年增擴張趨勢明確，主要受惠高利潤率的美國市場營收佔比持續提升，以及台灣同店銷售成長改善。我們維持 2027-28 年預估大致不變，預期營益率進一步回升將帶動未來兩年獲利年複合成長 10%。我們認為利潤率結構更佳且獲利能見度提升，可望帶來評價上調契機。

投資建議

儘管 3Q26 財報不如預期，我們認為美食-KY 營益率持續復甦的投資邏輯並未改變，且有助於提升獲利能見度並支撐評價。重申「增加持股」評等及目標價 92 元，係根據 15 倍本益比。

投資風險

美國展店延宕與中國同店營收復甦落後。

股價說明

等級	定義
增加持股 (OP)	對個股持正面看法，預期個股未來十二個月的表現超越凱基證券集團所追蹤的相關市場的總報酬。
持有 (N)	對個股持中性看法，預期個股未來十二個月的表現符合凱基證券集團所追蹤的相關市場的總報酬。
降低持股 (U)	對個股持負面看法，預期個股未來十二個月的表現低於凱基證券集團所追蹤的相關市場的總報酬。
未評等 (NR)	凱基證券未對該個股加以評等。
受法規限制未評等 (R)	受凱基證券集團內部政策和/或相關法令限制使凱基證券集團無法進行某些形式的資訊交流，其中包括提供評等給投資人參考。

*總報酬 = (十二個月目標價-現價)/現價

奇鋐

(3017.TW/3017 TT)

液冷趨勢持續推升 2027-28 年 EPS 成長

增加持股・維持

收盤價 November 10 (NT$)	2,790
12 個月目標價 (NT$)	4,335
前次目標價 (NT$)	4,340
調降 (%)	0.1
上漲空間 (%)	55.4

焦點內容

1. 3Q26 EPS 29.32 元，大致符合預期，優於預期的獲利率遭匯損所抵銷。
2. 水冷板滲透率將由 GPU 擴展至 ASIC，並由 AI 伺服器延伸至通用型伺服器、由運算端擴大至通訊端，進一步擴大整體市場規模，並有助於奇鋐伺服器業務營收成長。
3. 因應 AI 伺服器需求強勁，奇鋐將在越南擴充水冷板、歧管與機殼產能。我們預期 2027 年獲利率與每股盈餘將雙雙走揚。

重要免責聲明，詳見最終頁

重要訊息

奇鋐公布 3Q26 EPS 29.32 元，大致符合預期。我們預期 4Q26 營收將季增，且隨著液冷業務持續擴張，2027 年成長展望正向。

評論及分析

3Q26 EPS 符合預期，利潤率優於預估。3Q26 EPS 為 29.32 元 (季增 20%、年增 117%),符合凱基預估,並較市場共識高出 3%。毛利率 33.9% 及營業利益率 28.5% 均優於凱基預估,因產品組合改善及生產效率提升,惟遭 3.04 億元匯兌損失抵銷,3Q26 EPS 大致符合預期。伺服器業務為 3Q26 營收及毛利率成長的主要動能,營收年增 84%,營收占比 66%。另一方面,3C 及富世達 (6805 TT,NT$1,990,增加持股) 營收亦年增 20-30%,分別因 Apple (美) iPhone 及 iPad 超薄 VC (均熱板) 以及快接頭 (QD) 出貨成長帶動。1Q-3Q26 伺服器營收年增 122%,帶動 EPS 年增 129%至 73.86 元,同時伴隨利潤率擴大。凱基預期上述成長動能將持續為 4Q26 至 2027 年 EPS 成長動能。

液冷由 GPU 擴展至 ASIC，由 AI 伺服器延伸至通用型伺服器，並由運算端擴大至網通傳輸端。Nvidia (美) GB300 與 VR200 AI GPU 的設計全面採用水冷板模組,且預期 HGX 及 CPU 機櫃亦將轉向液冷設計。隨著 Helios、Trainium 及 TPU 機櫃採用液冷,且 CPU、通用型伺服器、交換器 (1.6T)、電源供應器、光晶片及光收發模組的液冷採用率提升,液冷 TAM 成長將使奇鋐受惠。為滿足更高的需求,奇鋐正於越南擴充液冷產能,涵蓋水冷板、歧管、機殼及冷卻液分配單元 (CDU),2027 年將擴增逾 50%。而液冷設計於 2027 年在 AI 伺服器應用上，雙面水冷板出貨將增加,用於 ASIC 晶片設計。此外,水冷板加入鑽石銅等新材料或縮小流道,也可能是提升散熱效能的潛在趨勢,將提高 ASP。奇鋐在所有主要美系 CSP,以及多數企業客戶與 neocloud 的液冷供應上居領先地位，因此預期其液冷營收將於 2027-28 年大幅成長逾 50%，基於產能與 ASP 擴增。加計機殼因需求與產能成長帶動，營收成長，凱基預期奇鋐 2027 年伺服器營收將年增 65-70%,優於公司整體營收成長，使伺服器營收占比由 2026 年的 65-70% 提升至 2027 年的 70-75%。在產品組合改善下,預期 2027 年毛利率及營業利益率將擴大。奇鋐指引 2026 年資本支出為 150 億元，2027 年為 150-200 億元。此外，公司為 iPhone/iPad 超薄 VC 主要供應商，將推升 3C 營收成長，使該業務營收占比由 2026 年的 4-5% 升至 2027 年的 8-10%。凱基看好奇鋐營收與 EPS 的上升趨勢，微調 2026-27 年 EPS 預估至 106.63 元及 173.39 元。

投資建議

凱基維持奇鋐「增加持股」評等，並將目標價調整為 4,335 元，隱含 25 倍 2027 年本益比，反映 AI 伺服器液冷產品需求進入上升週期。

投資風險

AI 伺服器迭代時程延遲、新台幣與人民幣升值、原料成本攀升。

股價說明

等級	定義
增加持股 (OP)	對個股持正面看法，預期個股未來十二個月的表現超越凱基證券集團所追蹤的相關市場的總報酬。
持有 (N)	對個股持中性看法，預期個股未來十二個月的表現符合凱基證券集團所追蹤的相關市場的總報酬。
降低持股 (U)	對個股持負面看法，預期個股未來十二個月的表現低於凱基證券集團所追蹤的相關市場的總報酬。
未評等 (NR)	凱基證券未對該個股加以評等。
受法規限制未評等 (R)	受凱基證券集團內部政策和/或相關法令限制使凱基證券集團無法進行某些形式的資訊交流，其中包括提供評等給投資人參考。
	*總報酬 = (十二個月目標價-現價)/現價

禾伸堂

(3026. TW/3026 TT)

NP0 及 Class 2 MLCC 雙引擎，成為中長期主要動能

增加持股 · 維持

收盤價 November 10 (NT$)	510
12 個月目標價 (NT$)	960
前次目標價 (NT$)	1,000
調降 (%)	4.0
上漲空間 (%)	88.2

焦點內容

1. 產業進入門檻高，預期禾伸堂 2026-27 年在 AI 伺服器 PSU NP0 MLCC 仍可維持 65%、50%的市占率。
2. 功率提升但板端面積有限，預期大尺寸耐高壓且高容值之 Class 2 MLCC 將成為第二成長動能。
3. 供不應求持續，NP0 及 Class 2 MLCC 同步成長，預估 2025-27 年 EPS CAGR 達 141%。

重要訊息

公司召開 3Q26 法說會。

評論及分析

產業進入門檻高，核心供應地位穩固。管理層表示 3Q26 在 AI 營收比重達 35%，並目標 4Q26 達 38%。據了解，目前 333 1kV NP0 尚未成為主要出貨規格，我們預期隨下一代伺服器平台出貨逐漸放量，加上其開始導入三相電源設計，規格及用量將大幅提升；雖日系廠商亦有相同技術，但其更聚焦在其他領域。另一方面，由於 PSU 內被動元件需滿足低溫升、低耗損及高可靠度，客戶對於新進供應商採用更為保守，加上伺服器規格升級趨勢持續加速，大幅提升進入門檻。據此，我們預期禾伸堂 2026-27 年市占率將維持至少 65%、50%的主導地位。

Class 2 MLCC 成為第二成長動能。管理層表示未來在板端 100V 10uF X7R 規格之輸出電容部分將迎來快速成長，主因現行架構下面積有限，故須改採 MLCC 分壓以降低體積；禾伸堂過往即深耕相關電壓領域，且因測試環節繁複，目前仍以日廠及禾伸堂為主要供應商，但考量單位時間及產值，日廠更聚焦市場規模更大之小尺寸高容值產品，我們認為該類 MLCC 將成為除 NP0 外禾伸堂另一成長動能。

預估 2025-27 年 EPS CAGR 達 141%。管理層表示 2026-27 年產能將分別增加 30%、40%，設備將於 4Q26 起陸續進駐，同時透過良率提升及產能調整盡力滿足客戶需求，雖近期電源廠恐受缺料、HVDC 遞延影響，但在高度供不應求下我們認為對公司影響有限。我們保守下修 2027 年出貨量假設，故小幅下調 2027 年營收 3%至 256 億元，其中 AI 相關 MLCC 比重將達到 64%，惟因公司持續進行產能調整並聚焦高階產品，毛利率預估將年增 13.1ppts 至 41.1%，帶動 EPS 年增 141%至 38.51 元。

投資建議

即便我們下修 2027 年獲利展望，但目前股價僅交易於 2027 年 EPS 預估之 13 倍本益比，我們認為在公司產業地位穩固且具備高度成長趨勢下評價仍偏低。我們維持禾伸堂「增加持股」評等，但小幅下修 12 個月目標價至 960 元，係基於 2027 年 EPS 預估的 25 倍。

投資風險

伺服器規格下降且出貨不如預期；日系同業積極擴產搶佔市佔率。

重要訊息

我們上調創意 2027 年獲利預估並新增 2028 年預估，主因：(1) CPU 客戶 2027 年需求預估達 2026 年的兩倍以上，次世代 CPU 的 ASP 約為現世代的約兩倍；(2)新募資有助爭取更多 wafer allocation；(3)美系電動車專案 2H27 量產，2028 年起完整貢獻；(4)量產規模放大帶動營運槓桿。

評論及分析

財務空間擴大，有助取得更多 wafer allocation。我們預估 CPU 客戶 2027 年需求達 2026 年的兩倍以上；創意亦已取得次世代 CPU 專案，預計於今年底或明年初 tape-out，採 two-die chiplet 架構，ASP 約為現世代的兩倍，我們預期將於 2027 年底至 2028 年初進入量產。我們認為 wafer allocation 是營收上修的關鍵變數，而創意在這方面較同業具優勢，主因：(1)董事會已通過上限 8 億美元海外轉換公司債與新台幣 400 億元聯貸，可支應至 2028 年前後，使創意在產能釋出時能迅速下單並預付晶圓款項；(2)創意與晶圓代工龍頭關係緊密並負責溝通客戶需求，今年整體 fulfillment rate 已較年初逐漸改善，創意及其客戶取得的重新分配產能亦優於平均。我們預估美系 CSP CPU 專案將占 2027 年總營收的 48-50%。

美系車用專案 2H27 量產，TK1 模式推升獲利。美系電動車客戶相關設計服務由創意支援，下一代專案亦已取得。此案預計 2H27 量產。我們預期此案將推升 2027-28 年獲利，主因：(1)量產後出貨快速攀升；(2) wafer order 約自 2027 年初開始，仍有時間協調產能，財務空間有助提高 fulfillment rate；(3)此案屬創意的 TK1 模式，毛利率應高於屬 TK3 模式的 CPU 專案。我們預期車用營收占比將由 2026 年的個位數提升至 2027 年的雙位數。

中國 ADAS 專案帶來上行空間，創意在車用市場布局優於同業。中國 ADAS 專案採 5nm 製程，wafer fulfillment rate 可能優於部分 3nm 產品，可望自 4Q26 開始貢獻 turnkey 營收並於 2027 年完整貢獻，下一代 3nm 產品亦預計於 2026 年底前 tape-out。我們認為創意的布局優於同業的車用專案，主因創意的中國 ADAS 客戶可供應多個車廠生態系。管理層指出，大型 fabless 的 back-end 團隊多為各產品線共用，資源不足的產品線即會委外，正呼應我們在設計服務產業報告中認為 front-end 能力強但 back-end 人力不足的客戶將推動分段委外的看法。

投資建議

我們在產業報告中看好台系 ASIC 業者 2027-28 年的獲利成長，並指出創意受惠雲端 AI 晶片量產，加上車用與記憶體介面等成長引擎，成長來源較為分散。我們上調 2027 年 EPS 預估至 175.43 元，年增 178.6%，並新增 2028 年 EPS 預估 302.59 元，年增 72.5%。目標價由 5,870 元(45 倍 2027 年 EPS)上調至 9,900 元(40 倍 2H27-1H28 EPS；五年均值)，維持「增加持股」評等。

投資風險

競爭加劇；需求轉弱；客戶集中度偏高；wafer allocation 不如預期。

資料來源：公司資料，凱基預估

新客戶陸續加入，AI 推論專案延續性仍待觀察。AI 推論專案於 3Q26 放量，成長率居各應用之冠，客戶已躋身前五大。不過，該產品規格特殊，單季營收貢獻雖然可觀，出貨卻可能在某一季達到高峰後快速回落，因此我們視其為短期營收挹注，而非長期成長動能。BMC 專案出貨符合預期，同為前五大客戶之一，HBF 專案亦按計畫進行，量產貢獻較可能落在 2028 年。此外，隨 CSP 提高自研比例並引進第二家 ASIC 供應商，管理層以 SoIC、3DIC 及 UCIe 等 die-to-die IP 為敲門磚，積極爭取四大 CSP 的其他 AI ASIC、CPU 及 AI 加速器專案，若能取得將進一步分散對單一雲端客戶的依賴。

營運槓桿顯現，毛利率稀釋不改獲利成長。3Q26 營收年增 117.7%，毛利率由 3Q25 的 24.2%降至 20.6%，但營業費用僅年增 26.9%，營業利益年增 141.9%，營益率由 3Q25 的 12.2%升至 13.6%。若與 2Q26 相比，3Q26 毛利率大致持平，營益率則進一步提升。CPU 專案屬 TK3 模式，毛利率雖較低，但新增人力與研發投入也較少，大量出貨可在固定費用下創造營運槓桿；圖靈運算中心折舊使 2026 年營業費用雙位數成長，2027 年增幅則將明顯收斂。如我們在產業報告中所述，評估設計服務業者應以營業利益金額與 EPS 為主。我們預估 2026-28 年營收將分別年增 106.0%、168.5%及 59.3%，營業費用則分別年增 29.2%、17.8%及 17.2%。儘管 turnkey 比重提高將稀釋毛利率，2027 年營益率仍可望升至 14.5%。

股價說明

等級	定義
增加持股 (OP)	對個股持正面看法，預期個股未來十二個月的表現超越凱基證券集團所追蹤的相關市場的總報酬。
持有 (N)	對個股持中性看法，預期個股未來十二個月的表現符合凱基證券集團所追蹤的相關市場的總報酬。
降低持股 (U)	對個股持負面看法，預期個股未來十二個月的表現低於凱基證券集團所追蹤的相關市場的總報酬。
未評等 (NR)	凱基證券未對該個股加以評等。
受法規限制未評等 (R)	受凱基證券集團內部政策和/或相關法令限制使凱基證券集團無法進行某些形式的資訊交流，其中包括提供評等給投資人參考。
	*總報酬 = (十二個月目標價-現價)/現價

世芯-KY

(3661.TW/3661 TT)

2027 年營收倍增可期，2nm 接棒 2028 年成長

重要訊息

世芯-KY 3Q26 EPS 創歷史新高，並宣布再取得 10 億美元等級的大型設計案。公司預期 4Q26 營收再創新高，2027 年營收將呈三位數成長，2nm 專案亦將如期於 4Q26 開始 tape-out，我們認為世芯 2027-28 年的成長能見度明顯提高。

評論及分析

3nm 專案 allocation 提高。美系 CSP 3nm AI 加速器已順利進入大量生產，晶片符合所有測試標準且良率合理。公司預期此專案 2027 年營收將年增三位數，優於先前指引，主要來自客戶提高對世芯的 allocation。公司亦表示 3nm 將量產約兩年才交棒下一代，加上雲端晶片走向對外銷售使單一平台的生命週期拉長，我們預期出貨將延續至 2028 年並與 2nm 量產銜接。

2nm 專案如期推進，地位較 3nm 更強。次世代 2nm AI 加速器已進入 final implementation 階段，4Q26 起展開一系列 tape-out，目標 4Q27 小量量產、2028 年初大量量產。2nm 採 chiplet 架構與 GAA 製程，設計附加價值明顯高於 3nm，世芯負責包含 I/O die 在內所有 die 的 physical design 與整合，且客戶目前承諾 2nm 晶圓將只由客戶本身與世芯兩家下單，世芯的量產份額將有望優於 3nm。我們估計 2nm 專案 ASP 將達 3nm 專案的 2 倍以上。此外，我們預期 A14 專案的 NRE 將自 2027 年開始貢獻，並估計美系 CSP 專案的 turnkey 營收將占 2027 年總營收的 68-70%。

新取得 10 億美元等級大型設計案，2Q27 起貢獻量產營收。此案合約已簽署，客戶為首次合作的美系企業，晶片用於 HPC。公司預期此案自 2Q27 起貢獻量產營收並逐季延續，毛利率合理，2027 年即成為第二大營收來源，且屬可持續的新商業模式。公司表示產業工程人力全面短缺，許多專案需要 physical design 支援，世芯即以工程能力切入。我們在設計服務產業報告中指出，客戶自建團隊的速度跟不上工作量成長，front-end 能力強但 back-end 人力不足的客戶，最適合將 back-end physical design 與量產委由設計服務業者，此案正反映此一分段委外趨勢。

投資建議

市場對世芯最大的疑慮在於營收集中於大客戶，以及世代交替造成的營收波動，法說會兩項疑慮皆獲正面回應，而關鍵在資產負債表可承接的規模。公司指出產業持續走向 COT 模式，屬長期結構性趨勢且有利世芯，與我們在產業報告中提出客戶由全包轉向分段委外的看法一致。我們調整 2026-27 年 EPS 預估為 124.20 元及 219.12 元，並預估 2028 年 EPS 為 409.40 元。我們目標價 6,600 元係基於 30 倍(五年均值)2027 年 EPS。目前股價約當 16 倍 2027 年 EPS 預估，我們認為評價具吸引力，維持「增加持股」評等。

投資風險

美系 CSP 對 AI ASIC 需求轉弱；2nm 專案 tape-out 或量產時程遞延；新客戶量產進度不如預期；供應鏈瓶頸延續；競爭態勢激烈。

增加持股 · 維持

收盤價 November 10 (NT$)	3,420
12 個月目標價 (NT$)	6,600
前次目標價 (NT$)	6,180
調升 (%)	6.8
上漲空間 (%)	93.0

焦點內容

1. 3nm 專案 allocation 提高。
2. 2nm 專案如期推進，地位較 3nm 更強。
3. 新取得 10 億美元等級大型設計案，2Q27 起貢獻量產營收。
4. 其他專案如期推進，供應瓶頸逐步改善。
5. 毛利率稀釋並非負面訊號，營運槓桿推升獲利。

資料來源：公司資料，凱基預估

其他專案如期推進，供應瓶頸逐步改善。網通與 CPU 專案皆如期進行，我們預期網通 3nm 專案於 2027 年量產，2nm 於 2027 年 tape-out 並自 2028 年起貢獻營收。中國車廠 ADAS 專案需求穩健，次世代設計將如期於 4Q26 tape-out，我們預期採 5nm 車用製程。不過，載板與封裝產能優先供應 CSP 業務，使車用與消費性等業務出貨受限，公司估計若無此限制，3Q26 營收可再多約 1 億美元，目前情況正逐步改善。

毛利率稀釋並非負面訊號，營運槓桿推升獲利。相較 1Q26，3Q26 毛利率因 3nm 營收占比偏高、高毛利量產業務受限及部分 NRE 認列遞延而降至 20%以下，但受惠營運槓桿，營益率僅溫和下滑。公司認為 3Q26 毛利率已接近此營收組合下的最差情境，4Q26 將與 3Q26 相近，長期營益率目標為 high-teens。如我們在產業報告中所述，評估設計服務業者應以營業利益金額與 EPS 為主。我們預估 2027 年營收將年增 100.0%至新台幣 1,384 億元，毛利率雖稀釋至 18.8%，但營業利益、營益率將分別年增 90.8%及年減 0.7 個百分點。

重要免責聲明，詳見最終頁

重要訊息

公司公佈 3Q26 毛利及營利率 27.7%、13.5%優共識 25.1%、12.3%，在業外(主要匯損)損失下，淨利達 45 億略低共識 48.7 億。

評論及分析

3Q26 毛利率創新高，表現亮眼優預期；4Q26 在新廠陸續貢獻下營收可季增 20%。毛利率優於共識 2.6 個百分點，來自於漲價效應、組合提升下(伺服器、光模塊、載板佔比由上季 23%提升至 27%)，但在新品開發需求、新建廠房前置費用支出下，營業費用率僅下降 1 百分點至 14.2%，導致營利率僅優預期 1.2 個百分點，在業外損失 6.9 億、儘管稅率降至 13.8%下，淨利仍略低共識 4.5%，我們預估在漲價效應延續、新廠營收陸續挹注下，4Q26 營收可季增 20%以上，毛利率持續季增。

2028 年提前實現將 AI 應用佔比進一步提升至 45-50%。管理層將 2030 年前規劃新廠數增加至 31 座，總廠房數達 59 座，目前已開工廠房 22 座(11 座為 HDI 廠、7 座為載板)，其中 7 座已開始裝機，推估在 10 座工廠陸續在 3Q26-3Q27 加入生產下，同步考量載板漲價效應及切入 AWS 及 Google 伺服器，我們預估 26-28 AI 應用佔比為 25%、42.6%、56.9%。

投資建議

3Q26 毛利率及 4Q26 展望優預期下，我們上調 2027 獲利 0.7%，維持「增加持股」評等，目標價上調至 780 元，相當於 2027 每股盈餘預估的 26 倍本益比。

投資風險

美系客戶智慧型手機銷售不如預期，競爭者技術追趕超越預期。

ESG 圖表定義

項目	定義	說明
能源使用	直接與間接能源消耗總量(十億焦耳) - 公司運營範圍內消耗之能源總量 - 能源使用總量 = 直接能源消耗總量 + 間接能源消耗量 - 總能源使用量包括購買的能源、生產的能源 - 就公用事業而言，輸電/電網損耗為其業務活動之一部分，被視為總能源消耗，數據不包括為滿足能源使用而生產的電力（公用事業為出售而生產） - 就公用事業而言，用於能源生產的煤、天然氣或核能等原料不屬於「總能源使用」項下	
購買之再生能源	Primary 再生能源購買總量(十億焦耳) - 公司各種來源之能源消耗量與購買的能源中屬於自然界可再生者（太陽能、風能、水能、生物質能、地熱能）之量 - 如無證據顯示再生能源由公司生產，則所報告的能源數據視為購買的再生能源	
再生能源使用率	再生能源占總能源消耗量之比例	
CO2 約當排放量	直接 CO2 與 CO2 約當排放量(公噸) - 公司擁有或控制的來源的直接排放量（範圍 1 排放量） - 相關氣體：二氧化碳 (CO2)、甲烷 (CH4)、一氧化二氮 (N2O)、氫氟碳化物 (HFCS)、全氟化合物 (PFCS)、六氟化硫 (SF6)、三氟化氮 (NF3)	
CO2 約當排放量營收比	直接 CO2 與 CO2 約當排放量（公噸）銷售（百萬元）比 - 公司擁有或控制的來源的直接排放量（範圍 1 排放量） - 相關氣體：二氧化碳 (CO2)、甲烷 (CH4)、一氧化二氮 (N2O)、氫氟碳化物 (HFCS)、全氟化合物 (PFCS)、六氟化硫 (SF6)、三氟化氮 (NF3)	
廢棄物總量	廢棄物總量(公噸) - 總廢棄物 = 無害廢棄物 + 有害廢棄物 - 僅考慮固體廢棄物，但如液體廢棄物以公噸為單位呈報，則會將其加入求得包含液體廢棄物之總量 - 對於採礦、石油與天然氣等行業，tailings、廢石、煤、飛灰等廢棄物亦考慮在內	
廢棄物回收率	公司呈報的廢棄物回收率 - 廢棄物回收率 = 廢棄物回收量/總廢棄物*100 - 廢棄物轉化為能源或經由廢棄物焚燒產生能源視為廢棄物回收 - 經由堆肥回收的廢棄物視為回收之廢棄物	
總取水量	總取水量(立方公尺) - 由呈報組織直接或經水公司等中介機構從任何水源抽取的總水量 - 水井、城鎮/公用事業/市政用水、河水、地表水等不同之水源均予以考慮	
環保支出	環保支出總金額 - 所有用於環境保護，或防止、減少、控制環境因素、影響、危害的投資與支出，亦包括處置、處理、衛生、清理支出	
員工流動率	員工流動率 - 包括任何原因（自願或非自願）離開公司的員工，如辭職、退休、自然離職/死亡、醫療失能、冗員、裁員、重組、解僱、裁減或定期合約到期 - 員工流動率 =（離開之員工/平均員工人數）*100 - 平均員工人數 =（本年末員工人數 + 去年末員工人數）/2 - 本財年末員工數 =上個財年末員工數 + 新員工數 - 離開之員工數	
女性經理	女性經理百分比 - 女性經理占公司經理的百分比 - 如有不同階層之百分比，如最高階、高階、中階、初階，則會考慮中階女性經理之百分比 - 女性經理百分比 = 女性經理人數/經理總數*100	
女性員工	女性員工百分比 - 女性員工占公司員工總數的百分比 - 女性員工百分比 = 女性人數/員工總數*100	
教育訓練總時數	所有員工教育訓練總時數 - 僅考慮員工教育訓練時數 - 包括一般員工所有類型的教育訓練（如健康與安全、環境、急難事件救援、技能與職業發展） - 如果數據以天為單位，則乘以 8，係假設 1 天 = 8 小時工作	
每位員工教育訓練時數	平均每年每位員工總教育訓練時數

重要免責聲明，詳見最終頁

Neutron 火箭訂單已排至 2030 年

重要訊息

Rocket Lab 公告 3Q26 EPS 虧損 0.12 美元，低於市場共識，且公司並未給出 2027 年 Neutron 火箭確切的試射時程，盤後股價下跌約 5%。

評論及分析

3Q26 EPS 虧損 0.12 美元，獲利低於市場共識。Rocket Lab 3Q26 營收季增 14%、年增 73%至 2.68 億美元，主要成長動能來自太空系統業務承接更多衛星製造訂單，以及 Electron 火箭發射次數自 2Q26 之 6 次提升至 3Q26 之 8 次；惟因 Iridium 收購案相關交易費用與業外損失，3Q26 EPS 為-0.12 美元，低於 2Q26 之-0.08 美元與市場共識之-0.06 美元。

4Q26 Neutron 火箭測試費用預期使本業維持虧損。公司展望 3Q26 營收 2.7-2.9 億美元，中位數季增 5%、年增 56%，動能來自火箭發射次數預期增加；Non-GAAP 毛利率為 39-41%，中位數季增 1.5ppts、年減 4.3ppts，主要受惠毛利率較佳的火箭發射業務帶動產品組合轉佳。因 Neutron 火箭試射前的測試費用較高，本業虧損預期仍達 2,700 萬美元、符合市場共識；業外則在利息收益預期達 4,500 萬美元下，使整體 EPS 可望轉盈。

預估 Rocket Lab 2027/2028 年 EPS 轉正至 0.07/0.41 美元。Rocket Lab 原規劃 Neutron 火箭在 4Q26 進行試射，但因火箭在檢測中發現缺陷與氣泡，將試射計劃推延至 2027 年；公司目前已解決此缺陷，並提及 Neutron 火箭新訂單須排到 2030 年後，供不應求使發射價格自原訂之 5,000-5,500 萬美元上漲至 7,000 萬美元，有利於後續火箭業務獲利性提升。此次財務預估雖考量 Rocket Lab 火箭業務訂單與獲利性優於預期，但基於 Neutron 火箭試射時程預期遞延，預期使 2028 年發射次數低於原預估，故將 Rocket Lab 2027/2028 年 EPS 自原先預估之-0.10/0.90 美元調整至 0.07/0.41 美元。

投資建議

維持「增加持股」評等，目標價 84 美元 (20 X 2028F RPS)。

投資風險

Neutron 火箭發射進度不如預期；短期財報獲利低於市場預期。

資料來源：公司資料；彭博；凱基

Rocket Lab 提供各式太空衛星零組件與火箭發射服務。Rocket Lab 主要提供小型火箭發射服務和太空系統解決方案，3Q26 約 80%營收來自太空系統解決方案，20%來自火箭發射服務，太空系統解決方案的毛利率約 30%-35%，而火箭發射服務毛利率則約 40%上下，主要客戶包括美國與歐洲政府、商業衛星營運商以及研究機構，如美國太空發展局 (SDA)、美國國防部 (DoD)、美國國家航空暨太空總署 (NASA)、美國太空軍 (USSF)、行星實驗室 (Planet Labs)、Amazon Leo 等。Rocket Lab 提供的太空系統解決方案涵蓋衛星設計與製造、太空船零組件、提供在軌解決方案等，公司掌握垂直整合與量產能力，且近年來透過併購與內部研發，逐步掌握影像觀測、雷射通訊與電力推進系統等關鍵技術，使公司提升對關鍵零組件的掌握度與成本控制能力，並可深度參與客戶整個部署衛星的計劃，提升其服務的附加價值。

公司目前提供 Electron 火箭與 HASTE (Hypersonic Accelerator Suborbital Test Electron) 火箭的發射服務。Electron 火箭的載重能力約 300 公斤，可將小型衛星送入 LEO 軌道進行部署，單次發射報價約 800 萬美元，換算每公斤發射成本約 2.7 萬美元。HASTE 火箭則主要用於次軌道級任務，發射速度較低、無法用於衛星部署，主要用於國防訂單測試，可檢視飛彈在此速度下是否會損毀、訊號是否被屏蔽等；HASTE 火箭報價約 950 萬美元，換算每公斤發射成本約 1.4 萬美元。Rocket Lab Electron 火箭與 HASTE 火箭雖皆可回收第一節推進器，但因回收的成本效益不如中大型火箭，因此公司當前發射火箭以一次性任務為主。

Neutron 火箭載重能力自 Electron 火箭之 300 公斤提升至 13 公噸。公司規劃 2027 年推出中型火箭 Neutron 後將能回收第一節推進器與整流罩，其報價原先預計為 5,000-5,500 萬美元，目前因前 16 次發射已全數售罄、訂單已排到 2030 年，每次發射的平均價格已上漲至 7,000 萬美元，而相關硬體成本推估僅約 2,200 萬美元，有助於 Rocket Lab 火箭發射業務的獲利性轉佳。Neutron 火箭的特色在於其第一節推進器與整流罩結合為一體，完成發射任務並返回地球後可於陸地上回收，減少後續復用所需時間並降低維修成本；且 Neutron 火箭採用碳纖維複合材料，可有效降低火箭重量並使其更堅固。Neutron 火箭載重能力可達約 13 公噸，換算每公斤發射成本約 1,692 美元，與當前 SpaceX Falcon 9 水準相當，並較其 Electron 火箭降低約 94%。

圖 1: Rocket Lab Neutron 火箭之載重能力大幅提升，並可望使每公斤發射成本相較 Electron 降低 94%

火箭名稱	火箭類型	載重能力	單次發射報價	每公斤發射成本	主要用途	回收機制
Electron	小型軌道級火箭	約 300 公斤	約 800 萬美元	約 2.7 萬美元	小型衛星部署	以一次性任務為主
HASTE	小型次軌道級測試火箭	約 700 公斤	約 950 萬美元	約 1.4 萬美元	國防測試	以一次性任務為主
Neutron	中型軌道級火箭	約 13 公噸	約 5,000 萬美元	約 1,692 美元	中大型星座部署與商業發射	規劃第一節推進器與整流罩將重複使用

資料來源：公司資料；凱基預估

圖 2: Rocket Lab Neutron 火箭回收再使用與一次性使用之成本結構

	成本(百萬美元)
第一節推進器	8
第二節太空船	4
燃料與推進劑	2
地面設備、維護與折舊	5
其他（保險、物流、發射場費用）	3
總成本	22
對外報價	50

資料來源：公司資料；凱基預估

Rocket Lab 可望憑藉 Neutron 拓展中型火箭市場，有助於訂單維持成長。過往中大型火箭市場由 SpaceX 寡占，但多數衛星營運商與美國政府都傾向尋找第二供應商，若在 Neutron 火箭與 Falcon 9 性價比接近的情況下，將有助於部分火箭發射訂單轉移至 Rocket Lab。在營運規模提升以及獲利性較佳的 Neutron 火箭貢獻下，Rocket Lab 可望逐步降低目前高額研發費用對公司的壓力，並帶動整體營運在 2028 年逐步轉盈。Rocket Lab 原先規劃 Neutron 火箭將在 4Q26 進行試射，但因火箭推進器的碳纖維複合材料前封頭(Forward Dome)的夾層在檢測中發現缺陷與氣泡，而推延試射計劃；公司目前已解決此缺陷，第一級推進器已進入組裝階段並將進行水壓測試，阿基米德引擎亦已完成低溫測試，待後續通過靜態壓力測試與低溫液態推進液測試(Cryogenic Test Campaign)後才會公告試射日期，凱基預期 Neutron 火箭首次試射將遞延至 2027 年中進行。

Rocket Lab 3Q26 積壓訂單季增 52%至 35.7 億美元，其中火箭發射業務占 52%、太空系統占 48%，整體積壓訂單金額的 32.9%、約 11.7 億美元預計於未來 12 個月內認列營收。目前公司已累積 117 次火箭發射訂單，發射 Election 火箭的頻率最高可達到每週一次，評估未來三年內足以滿足當前訂單的多數需求；而若客戶需求進一步成長，公司亦可在短時間內完成新廠建造並擴充產能。凱基預估 Rocket Lab 2026/2027/2028 年發射火箭次數分別達 28/34/42 次，其中預期 Neutron 火箭於 2027 年完成試射後將在 2028 年開始執行任務並貢獻營收；公司目前已累積 16 次以上 Neutron 火箭發射訂單，可望逐步成為公司主要營運動能之一。

Iridium 的部分，該公司股東會已通過收購案，待主管機關核准後，可望於 3Q27 開始併入損益表，進度維持先前規劃。Iridium 2025 年營收約 8.7 億美元、淨利約 1.1 億美元，營收主要來自: (1) 商業語音與訊息傳送；(2) 商業 IoT 資料傳輸；(3) 美國政府與軍隊衛星通訊等。Iridium 的衛星通訊是透過 L-band 傳輸，速度僅數百 Kbps，主要應用於需要穩定傳輸少量資料的場景，需求較穩定，與 SpaceX 切入家用寬頻市場的定位不同；故預期 Rocket Lab 在收購 Iridium 後，初期在衛星通訊領域的營運成長性仍將維持相對平穩。公司規劃 Neutron 火箭未來或將有 50%用於對外任務，50%用於部署 Iridium 衛星，評估此收購案之綜效在於 Iridium 後續可降低衛星部署成本，而 Rocket Lab 亦可憑藉更穩固之營運現金流，加速在火箭研發的進展。

圖 3: 多家國防客戶訂單有助於 Rocket Lab 營收規模逐年提升

客戶 / 計畫名稱	合約金額	業務項目	簽約時間	預計營收貢獻期間
SDA (美國太空發展局)	5.15 億美元	18 顆衛星製造與維運、用於軍事通訊	2023/12	2025-2027
Synspective	未揭露(推估約1.6億美元)	發射Electron火箭21次	2024/06	2025-2027
未揭露	未揭露(推估應達1億美元以上)	發射Neutron火箭2次並部署衛星	2024/11	2027-2028

資料來源：Bloomberg；凱基預估

Rocket Lab 評等維持「增加持股」，目標價為 84 美元。此次評價基於 Rocket Lab Neutron 火箭試射時程預估自 2026 年底遞延至 2027 年中，預期 Neutron 火箭於 2027/2028 年發射次數將自先前預估之 3/6 次降至 1/3 次，故凱基下調 2027/2028 年營收預估分別約 8%/6%至 18.8/29.8 億美元；獲利性則考量目前火箭發射服務嚴重供不應求，Neutron 火箭訂單已排至 2030 年，價格上漲逾 30%，而 Electron 與 HASTE 火箭報價亦可望提升，故上調 2027/2028 年毛利率預估分別約 0.3ppt/1.4ppts 至 51.3%/56.0%，將 Rocket Lab 2027/2028 年 EPS 自原先預估之-0.10/0.90 美元調整至 0.07/0.41 美元，相較市場共識為-0.05/0.15 美元。

評價面考量 Rocket Lab 整體獲利受到高額研發費用稀釋，且公司屬性非重資產，以 P/E 或 P/B 評價方法無法完全反應公司價值，故以 P/S 作為評價方法。以 2028 年預估營收達 29.8 億美元以及合併 Iridium 後預計使在外流通股數提升約 6%至 7.24 億股計算，RPS (Revenue per share)約 4.12 美元，

目前 P/S 比率達到約 14 倍，處於過往五年多落於 10-40 倍區間之中下緣。考量: (1) Rocket Lab 目前已掌握約 35 億美元的火箭發射國防訂單，相較於 2025 年火箭業務營收貢獻僅約 2 億美元，預期公司在 2026-2028 年火箭發射頻率將逐年提升並帶動營收高速成長；(2) Rocket Lab Neutron 火箭可望於 2027 年開始試射，並在 2028 年逐步轉向商用，有助於公司拓展中型火箭市場；(3) Rocket Lab 收購 Iridium 後，對公司現金流與獲利具正面貢獻，並有助於 Iridium 降低衛星部署成本、提升後續爭取企業與國防衛星通訊訂單的競爭力。基於 Rocket Lab 當前評價偏低，維持「增加持股」評等，目標價則基於財務預估下修而調降至 84 美元 (20 X 2028F RPS)。

法說重點摘要

儒鴻

(1476 TT, NT$348.5, 增加持股)

重點摘要

1. 目前訂單能見度保持 6 個月水準；預計 4Q26 旺季營收季增。明年營收及毛利率展望初步審慎樂觀看待。
2. 美國期中選舉後，短期尚未看到明顯追加訂單；但中期而言，隨著關稅壁壘政策趨穩與通膨控制政策可能推出，不確定性因素下降。管理層預期，品牌商最快 1Q27 才會作出訂單因應變化。
3. 當前產能利用率達滿載。印尼三期擴廠如計畫進行。預計 2026 年資本支出 6-8 億美元，2027 年進一步增加至 10-12 美元。

結論

憑藉著新客戶加入與新產品採用增加，儒鴻營收及獲利成長動能有望延伸至 2027 年。目前我們給予「增加持股」評等及目標價 447 元。

3Q26 財報

- 3Q26 稅後淨利 17.4 億元，或每股盈餘 6.36 元，年增 6%、季增 12%，符合預期。
- 3Q26 營收年增 10%、季增 5%至 105.7 億元，動能來自成衣銷售年增 16%，抵銷布料 1%衰退。
- 受惠新產品與新客戶帶動平均銷售單價提升，及匯率有利，3Q26 毛利率年增 2.5、季增 1.2 個百分點至 31.2%；然而，員工季獎金增加推升費用率，營利率 20.7%，年增收斂至 1.6 個百分點。

營運展望更新

- 目前訂單能見度保持 6 個月水準；預計 4Q26 旺季營收季增。
- 2027 年營收及毛利率展望初步審慎樂觀看待，細節將於 11 月底至 12 月初經內部確認後提供。
- 美國期中選舉後，短期尚未看到明顯追加訂單；但中期而言，隨著關稅壁壘政策趨穩與通膨控制政策可能推出，不確定性因素下降。管理層預期，品牌商最快 1Q27 才會作出訂單因應變化。
- 新客戶銷售佔比近月來從 10%提升至約 11%，反映消費者對創新產品需求熱絡。此外，當前仍有數個潛在新客戶洽談中，部分案件成功機率較高。
- 前幾大客戶營收佔比無重大變化。品牌商仍著重於新品開發，走在市場前端；通路商則尚在觀望期中選舉後消費者動向。
- 公司採購策略傾向與長期供應商配合，以降低原料成本波動影響。
- 當前產能利用率達滿載。印尼三期擴廠如計畫進行。

請將您珍貴的一票投給凱基！

凱基投顧

劉昊恩

tseen.liu@kgi.com

張育程
886 2 2181 8735
eden.chang@kgi.com

- 印尼產品組合與越南差距已較過往縮小；但整體而言，越南對複雜產品線掌握度還是較高，工人技術較成熟。
- 印尼物流時間較長，不確定性因素也較多。
- 預計 2026 年資本支出 6-8 億美元 (對比 1Q-3Q26 約 4-5 億美元)，並於 2027 年進一步增加至 10-12 美元，主要用於印尼新廠擴建，其次為越南及柬埔寨廠產線調整與自動化導入。
- 目前協力廠商供貨佔比 27-28%。
- 成衣產業庫存在過去一段時間緩慢減少，而零售價格呈走升趨勢。
- 隨著美國關稅退款給品牌商，品牌也可能討論並制定進一步退還給供應商之方案。
- 股利政策將延續過往水準 (過去五年配息率約 65-75%)。

法說會重點摘要

智易

(3596 TT, NT$137, 未評等)

重點摘要

1. 3Q26 營收 146.4 億元，QoQ +5%、YoY +6%，毛利率 14.9%，季減 0.3ppts，費用率降至 8.0%帶動營益率升至 6.9%，EPS 3.46 元與 1-9M26 EPS 9.96 元，皆創歷史新高。為因應記憶體漲價，公司策略性備料，3Q26 底存貨 393.8 億元、約一半為記憶體，短期借款升至 86.9 億元
2. 公司對 2027 年看法為「樂觀審慎」。北美 Tier 1 電信商與 MSO 新客戶將於 2027 年分別出貨 PON 與 Cable Modem，Broadband YoY 雙位數以上成長無虞；5G FWA 穩定成長；企業端 Switch 有 3-4 家美系新客戶出貨，企業端占比目標由 2026 年低於 5%提升至雙位數
3. Wi-Fi 8 與 50G PON 專案於 2028 年陸續出貨，衛星代工、車用與 Edge AI 為 2028 年接棒動能。我們認為北美新客戶機種生命週期可延續至 2028-2029 年，加上企業端低基期放量，2027-2028 年成長具延續性；2027 年記憶體需求約 9 成已備齊，可降低記憶體續漲對毛利率的衝擊

結論

我們看好智易 2027 年在北美電信與 MSO 新客戶同步放量、企業端 Switch 低基期翻倍成長帶動下，營收成長重回加速軌道，惟主晶片與 PCB 等成本上漲仍為 2027 年毛利率主要壓力，公司以營益率維持 6.5-7%為目標，後續驗證點為漲價轉嫁進度與北美新客戶出貨節奏；中長期 Wi-Fi 8、50G PON 升級與衛星、車用、Edge AI 布局發酵，可望使成長延續至 2028 年

3Q26 營運與財務概況

- 3Q26 營收 146.4 億元，QoQ +5%、YoY +6%；營業毛利 21.9 億元，毛利率 14.9%，低於 2Q26 的 15.2%與 3Q25 的 15.3%
- 3Q26 費用率 8.0%，低於 2Q26 的 8.5%；營業淨利 10.1 億元，QoQ +9%、YoY +13%，營益率 6.9%，QoQ +0.2ppts；本期淨利 7.6 億元，EPS 3.46 元，創單季歷史新高
- 1-9M26 營收 413.1 億元，YoY +3%，毛利率 15.1%，營益率 6.7%與 1-9M25 持平；本期淨利 21.9 億元，YoY +5%，EPS 9.96 元，同創歷史新高
- 3Q26 產品組合：
  - 行動通訊 42%（2Q26 38%），主因 5G FWA 銷售較佳
  - 智慧家庭 29%（2Q26 32%），主因 Wi-Fi Extender 銷量較低
    寬頻固網 27%（2Q26 26%）

請將您珍貴的一票投給凱基！

重要免責聲明，詳見最終頁

- 3Q26 區域組合：美洲 60%仍為最大營收來源，歐洲 28%，亞洲及其他 12%（2Q26 10%），為本季成長最多的區域

記憶體策略性備料與零組件漲價

- 3Q26 底存貨 393.8 億元，占總資產 64%（2Q26 底 51%、3Q25 底 31%），其中接近 200 億元為記憶體；短期借款 86.9 億元，3Q25 底為 0，全數用於記憶體備料；每股淨值 78.11 元
- 2027 年所需記憶體約 9 成已備齊，是記憶體漲價期間毛利率得以維持穩定的重要因素
- 現金流轉負主因囤積記憶體；若記憶體價格反轉、或決定不再為 2028 年積極備料，出貨後即可償還借款、回到現金充裕狀態
- 漲價不只記憶體：
  - 主晶片自 4Q26 開始漲價，漲幅接近兩位數、約 1 成
  - PCB 漲價且交期延長

Broadband：北美新客戶 2027 年同步放量

- AI 應用帶動企業與家用網通在連線穩定度、頻寬與延遲上同步升級，升級節奏由 Wi-Fi 6 走向 Wi-Fi 7；Wi-Fi 8 與光纖 10G 升至 50G PON 的專案已於 2026 年開案，2028 年陸續出貨
- 2026 年 Wi-Fi 7 出貨比重約 5 成多、接近 6 成，2027 年有機會達 8 成左右，2H27 會有 Wi-Fi 8
- 北美耕耘多年，2027 年北美大型電信商與 MSO 業者將同步出貨，含新客戶與新專案，新增客戶皆為北美 Tier 1，且皆為客戶的重要機種：
  - 電信商出貨 PON 產品
  - MSO 業者出貨 Cable Modem，2027 年新導入北美大型 MSO 客戶
- Broadband 為 2027 年最主要成長來源，該產品線 YoY 雙位數以上成長無虞；機種生命週期長，2027 年出貨產品部分可賣到 2029 年才換代
- 策略為提高 Tier 1 大客戶的產品滲透率，同一客戶除 FWA 外還有 PON、Gateway Router、Extender 等產品，目標在既有客戶身上多拿機種

5G FWA：穩定成長

- 3Q26 行動通訊不論占比或金額成長幅度皆較大，美國電信商在既有 5G 基礎建設上搶市占，FWA 訂閱用戶數近幾季快速成長
- 2027 年 5G FWA 成長幅度不會像 Broadband 那麼大，定調為穩定成長；歐洲量體較小，但同樣逐步成長

Enterprise：資安客戶穩健、Switch 新客戶翻倍成長

- 美系資安客戶為企業端量最大的客戶，2027 年給的案子越來越多，訂單量逐步上升；公司負責硬體與整合，不碰軟體
- Switch 2026 年僅樣品出貨，第一個新客戶自 2026 年底開始量產出貨；2026 年底至 2027 年將有 3-4 家美國新客戶出貨，2027 年 Switch 營收翻倍以上成長
- Switch 主攻 400G 以下市場，包括政府機關、TAA（美國政府標案）、機構與中小企業需求，公司手上已有 TAA 案
- 企業端占比 2026 年低於 5%，2027 年目標突破兩位數

衛星、車用與 Edge AI 布局

- 衛星：近期多家客戶來公司與工廠參訪，首要目標為以工廠能力承接代工，2027 年有機會拿下代工案但貢獻不大
- 車用：由商用車 ADAS 轉為與母公司仁寶車用部門整合，以仁寶紅外線相機模組搭配公司雷達做長距離輔助，日系車廠已有案子給仁寶；2027 年有機會進入 Trial Run、出 sample 量，2028 年放量，目標轉向一般轎車前裝市場
- Edge AI：除既有電信商外，高齡照護、資安防護，以及賣場、餐廳等場域客戶主動洽談，1-2 家已在場域測試，第一個產品預計 2H27 進入商轉

QA

- 4Q26 營運展望？
  - 記憶體持續漲價，毛利率仍有壓力，努力維持在目前水準
  - 營收小幅下滑 low single digit，各產品都只掉一點
  - 費用率與 3Q26 的 8.0%持平或略低
- 2027 年全公司營收能否達雙位數成長？
  - 一定比 2026 年好，2027-2028 年 YoY 成長相較 2025-2026 年都會增加
- 2027 年毛利率展望？
  - 客戶在記憶體漲價一波已受傷，仍自行吸收成本；晶片自 4Q26 開始漲價，若未能轉嫁，1Q27 毛利率就會受影響
  - 公司已準備與客戶協商，2027 年情況不至於很嚴重，但組裝廠毛利率一定會有壓力，目標努力維持 3Q-4Q26 水準
- 各產品線毛利率高低？
  - Mobility 最好，其次 Broadband，Smart Home 受 Set-top Box 拖累，記憶體漲價後 Set-top Box 因記憶體用量大、毛利率大幅下滑
- 2027 年產品線與區域成長排序？
  - 產品線：Broadband > Mobility，Broadband 主要來自美國與歐洲光纖升級，5G FWA 則為穩定成長

- 區域：美洲為最主要成長來源，歐洲勝過亞洲；亞洲競爭激烈，搶單對毛利不一定是好事

- Smart Home 下滑原因？
  - Set-top Box 下滑最明顯，占比已降至約 5%；Extender 自 3Q26 起轉弱，主要是 1-2 個客戶出貨量下滑
  - Extender 並非必要設備，不像 PON、Cable Modem 每戶一定要裝一台
- 3Q26 亞洲比重上升的原因？
  - 南亞客戶受記憶體影響拉貨仍放緩，3Q26 成長主要來自東北亞客戶的 Wireless Module，2026 年出貨穩定增加
  - 印度、南亞 2026 年跌幅大，2027 年客戶庫存去化後仍需出新產品，預期較 2026 年復甦
- 5G FWA 是否北美三大電信商都是客戶？
  - 目前為 2 家，努力爭取第 3 家
- 2027 年費用展望？
  - 新竹二期工程已完工，主要作為研發與實驗室，2026 年底開始提列折舊；車用、衛星、Edge AI 擴編研發人力，管銷研費用都會增加
  - 希望在營收成長帶動下費用率持平或下降，維持營益率 6.5-7%
- 股利政策？
  - 過往配發率約 60-70%，2027 年發放時程原則上在 4 月底，以 6 成配發率計算約 7-8 元
- 南亞市場價格競爭？
  - 一個案子十幾家台廠競標，價格壓力嚴峻，公司會挑案子，不會每案都搶

半導體產業

設計服務產業：AI 晶片走向分段委外，量產紅利可期

焦點內容

1. 雲端自研晶片進入放量期，客製化晶片市場 2027-28 年維持高成長。
2. 先進製程與先進封裝同步升級，單顆晶片價值與設計複雜度持續提高。
3. 客戶由全包轉向分段委外，價值由全包廠移向客戶與多個分工夥伴。
4. 營收放大但毛利率下滑，評估應以營業利益金額與 EPS 為主。
5. 產能與資金成為承接大型案件的門票。

重要訊息

我們認為，AI 客製化晶片正由「向全包廠購買整顆晶片」轉向「客戶分段委外」，價值由全包廠移向客戶與多個分工夥伴；雖然 turnkey 比重提高使毛利率下滑，但量產規模放大帶來的營運槓桿，將使營業利益與 EPS 持續成長。台系 ASIC 業者將成為 2027-28 年 AI 基礎建設的主要受惠者之一。

評論及分析

雲端自研晶片進入放量期，客製化晶片市場 2027-28 年維持高成長。四大雲端業者 2026 年資本支出指引合計達 7,200-7,400 億美元，雲端晶片並由內部使用擴大至對外銷售。聯發科(2454 TT，NT$3,830，增加持股)估計 2027 年資料中心 ASIC 可服務市場達 800 億美元，Marvell (美)估計 2030 年客製化晶片 TAM 約 2,350 億美元，我們認為 2027-28 年客製化晶片市場可維持約 25%或以上的年複合成長。

先進製程與先進封裝同步升級，單顆晶片價值與設計複雜度持續提高。台積電(2330 TT，NT$2,285，受法規限制未評等)的 CoWoS 將由 2026 年的 5 倍光罩尺寸擴大至 2028 年量產的 9.5 倍，而後放大到 14 倍，2029 年以後的 SoW-X 更達 40 倍。封裝內的 die 與 HBM 數量持續增加，提高單顆晶片的 turnkey 價值，也使 back-end physical design 與封裝整合的工作量大幅增加。

客戶由全包轉向分段委外，價值由全包廠移向客戶與多個分工夥伴。Google (美)自第八代訓練用 TPU 起自行完成 compute die 的全部設計並自行採購 HBM，以避開全包廠的加價，I/O die、封裝整合與量產管理則全數交由聯發科；其他客戶多半 back-end 人力吃緊，back-end physical design、封裝整合與量產管理仍須委由分工夥伴。我們認為全包廠設定接案門檻後，門檻以下的案件將有機會「讓出來」給設計服務業者。

營收放大但毛利率下滑，評估應以營業利益金額與 EPS 為主。turnkey 比重提高與記憶體成本轉嫁使毛利率結構性下滑，但量產規模放大後，營運槓桿將推升營業利益與 EPS。以創意(3443 TT，NT$7,170，增加持股)為例，3Q26 營收年增 117.7%，毛利率由 24.2%降至 20.6%，但營業費用僅年增 26.9%，營業利益年增 141.9%，營益率由 12.2%升至 13.6%，EPS 由 6.47 元增至 16.95 元。

產能與資金成為承接大型案件的門票。AI 加速器的晶圓、CoWoS 與 HBM 成本大幅提高，turnkey 業務須預付晶圓與封裝款項並承擔存貨。聯發科完成 39 億美元零息海外轉換公司債訂價，創意董事會通過新台幣 400 億元聯貸及上限 8 億美元海外轉換公司債，世芯-KY (3661 TT，NT$3,420，增加持股)亦完成 5.1 億美元 GDS 募資；與台積電關係緊密、資金充足的業者在爭取下一代案件時更具優勢。

投資建議

我們看好台系 ASIC 業者 2027-28 年的獲利成長，推薦聯發科、創意及世芯-KY。聯發科承接 Google TPU 的 I/O die、封裝整合與量產管理，公司預期 4Q26 相關營收達 25 億美元，2027 年將達約 160 億美元營收目標區間的高端，約占 AI 加速器 ASIC 市場 20%；創意受惠客製化 CPU 等雲端 AI 晶片量產，turnkey 營收快速放大，加上車用與記憶體介面等成長引擎，以及記憶體控制、die-to-die 互連及 3D 整合等介面 IP，成長來源較為分散；世芯-KY 受惠美系 CSP 3nm AI 加速器放量，預期 2027 年獲利將創新高，2nm 專案預計 4Q26 開始 tape-out，為 2028 年接棒成長的動能。

投資風險

聯發科手機出貨衰退與 AI 晶片量產不如預期；創意及世芯-KY 營業利益未能隨營收成長與競爭加劇；三家皆有客戶集中與雲端資本支出放緩風險。

請將您珍貴的一票投給凱基！

資料來源：Bloomberg，凱基預估

投資摘要

我們認為，AI 客製化晶片正由「向全包廠購買整顆晶片」轉向「客戶分段委外」，此一結構性轉變將使價值由全包廠移向客戶與多個分工夥伴，台系 ASIC 業者將成為 2027-28 年 AI 基礎建設的主要受惠者之一。

量的方面，四大雲端業者 2026 年資本支出指引合計達 7,200-7,400 億美元，市場共識預估 2027 年將超過 1.1 兆美元，雲端自研晶片已由試行階段進入放量期，聯發科(2454 TT，NT$3,830，增加持股)估計 2027 年資料中心 ASIC 可服務市場達 800 億美元，Marvell (美)則估計 2030 年客製化晶片 TAM 約 2,350 億美元。分工方面，Google (美)自第八代訓練用 TPU (TPU v8t)起自行完成 compute die 的全部設計，並自行採購 HBM，I/O die、封裝整合與量產管理則全數交由聯發科，顯示大型客戶開始避開全包廠的加價，但即使是設計能力最完整的客戶，封裝整合與量產管理仍須仰賴分工夥伴，而這正是台系 ASIC 業者的核心能力。獲利方面，turnkey 營收放大雖稀釋毛利率，但量產規模放大後，營業費用成長低於毛利金額成長，營運槓桿將推升營業利益與 EPS。

我們看好台系 ASIC 業者 2027-28 年的獲利成長，推薦聯發科、創意(3443 TT，NT$7,170，增加持股)及世芯-KY (3661 TT，NT$3,420，增加持股)。聯發科承接 Google TPU 的 I/O die、封裝整合與量產管理，首顆 AI 加速器已於 2026 年 9 月開始出貨，公司於 3Q26 法說會預期 4Q26 相關營收達 25 億美元，2027 年將達約 160 億美元營收目標區間的高端，約占 AI 加速器 ASIC 市場 20%，第二代產品預計 1Q28 量產，第二個 AI ASIC 客戶亦將於 2028 年開始貢獻營收。我們估計 2028 年 AI 加速器 ASIC 將占其營收約 60-65%，TPU 業務可望重塑其營收結構。創意受惠客製化 CPU 等雲端 AI 晶片量產，turnkey 營收快速放大，2026 年前三季營收年增 102.8%，3Q26 晶圓產品營收年增 189.7%，雲端應用占營收比重達 86%，合約負債亦由 2025 年底的新台幣 73.4 億元增至 154.8 億元，顯示後續量產案源持續累積，加上車用與記憶體介面等成長引擎，以及記憶體控制、die-to-die 互連及 3D 整合等介面 IP，成長來源較為分散。世芯-KY 則受惠美系 CSP 3nm AI 加速器自 2Q26 起放量，我們預期 2027 年獲利將創新高，2nm AI 加速器亦預計於 2026 年底前完成晶片第一版本的 tape-out，為 2028 年接棒成長的主要動能，是台系設計服務業者中對北美 AI 加速器量產受惠程度最高的標的。

聯發科的主要風險為智慧型手機出貨衰退、AI 晶片量產爬坡不如預期，以及 AI ASIC 營收集中於單一客戶。創意及世芯-KY 等台系設計服務業者的主要風險則包括客戶集中與世代交替造成的營收波動；量產規模不如預期使營業利益未能隨營收成長；聯發科、Arm (英)與其他 ASIC 業者在新案件上的競爭；先進製程與封裝產能分配不如預期；以及雲端資本支出循環變化。

ASIC 設計服務由代工代管走向 AI 系統分工

ASIC 設計服務業者的角色，是替缺乏完整晶片設計或製造管理團隊的客戶，將產品規格轉為可量產的晶片。收入主要分為兩類，一是設計階段向客戶收取的一次性工程費用(NRE)，依開發里程碑認列，金額相對小但毛利率高；二是量產階段代客戶向晶圓代工及封測廠下單，再將成品晶片銷售給客戶的 turnkey 營收，金額大但毛利率低。

回顧產業發展，第一階段以消費性電子及網通 ASIC 為主，客戶多為缺乏晶片團隊的系統廠，2002 年 Cisco (美)即曾將高量產品改採 Customer-owned tooling (COT)模式直接與台積電(2330 TT，NT$2,285，受法規限制未評等)合作，僅將低量產品留給 ASIC 業者；第二階段始於雲端業者自研 AI 加速器，由於晶片規模大且需要高速傳輸 IP 與先進封裝，主要由 Broadcom (美)等全

包式 ASIC 業者主導；第三階段則自 2025 年後逐步成形，隨單一晶片平台出貨量放大，客戶開始自行掌握架構、front-end 設計與記憶體採購，再依自身能力將 back-end physical design、I/O die、封裝整合與量產管理委外，compute die 與 I/O die 甚至可由客戶與不同業者分別負責(見圖 13)。我們認為，第三階段的分工模式，使設計服務業者由過去的代工代管角色，轉為 AI 系統分工中的關鍵夥伴；台系的聯發科、創意及世芯-KY 皆為此一分工模式的主要受惠者，聯發科承接 Google TPU 的 I/O die、封裝整合與量產管理，創意與世芯-KY 則承接其他客戶的 back-end physical design、封裝整合與量產管理。

圖 13：三種分工模式下，客製化晶片各步驟由誰負責

Step	What it involves	Full-service ASIC	Design service	Customer-owned tooling (COT)
1. Architecture definition	Application, clock & TDP	Customer-led	Customer	Customer
2. Front-end design	Turn the architecture into logic and verify it	Mostly vendor	**Mostly CSP customers, smaller customers may outsource**	Customer
3. Key IP	SerDes, memory interfaces, die-to-die links	Vendor IP	Design service firm or third party	**Customer licenses or partner-supplied**
4. Back-end physical design	Transistor placement, timing & power	Vendor	Design service firm	**Customer or subcontractor**
5. Tape-out	Send the final design to the foundry for masks	Vendor	Design service firm	Customer deals directly with the foundry
6. Memory procurement	Sourcing HBM	Vendor buys and marks up	**Customer supplies or firm sources**	Customer buys directly
7. Advanced packaging	Combine several dies and HBM into one package	Vendor	Design service firm coordinates with OSATs	**Customer-led, split with partners**
8. Test and production management	Manage yield, capacity and inventory	Vendor	Design service firm	**Customer-led, partners assist**
Pricing and examples		Customer pays the full chip price e.g. Broadcom's traditional model	NRE plus turnkey e.g. GUC, Alchip, Socionext	Paid by work package e.g. Google's v8t TPU

雲端自研晶片進入放量期，2027-28 年客製化晶片市場維持高成長

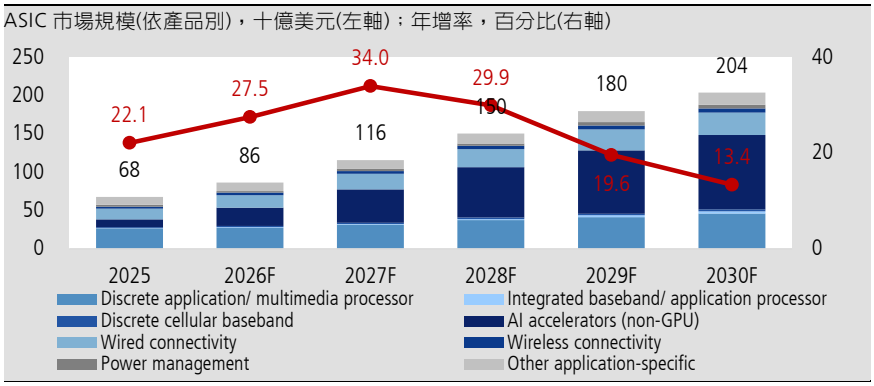
由於各機構對市場的定義不同，客製化晶片市場規模的估計差異甚大。聯發科估計 2027 年資料中心 ASIC 可服務市場達 800 億美元，並於 3Q26 法說會表示，2027 年營收目標約占 AI 加速器 ASIC 市場 20%；Marvell 於 2026 年投資人日將 2030 年客製化晶片 TAM 上調至約 2,350 億美元，2025-30 年複合成長約 55%，惟其口徑包含網卡、記憶體擴充及儲存控制等 XPU 周邊晶片；世芯-KY 估計 AI ASIC 市場將由 2024 年約 130 億美元成長至 2030 年逾 1,500 億美元；Gartner 資料則顯示，涵蓋手機、車用及網通等各類客製化晶片的 ASIC 市場，將由 2025 年 677 億美元成長至 2030 年 2,036 億美元，年複合成長約 25%。各家估計的差異，主要來自是否包含晶片內的 HBM 與整櫃系統、是否包含周邊晶片、可服務市場與總市場的差別，以及預測發布的時點。我們認為，不論採用何種口徑，2027-28 年客製化晶片市場皆可維持約 25%或以上的年複合成長，其中 AI 加速器為主要成長引擎，對聯發科、創意及世芯-KY 形成長期營運支撐。

圖 14：個別公司、機構對客製化晶片市場規模的估計與口徑

Source	What is estimated	Size (US$bn)	Scope
MediaTek	2027 data center ASIC serviceable market	US$80bn	Only the part MediaTek itself can address (SAM)
Marvell	2030 custom silicon TAM	US$235bn	Includes XPU-attach chips, 55% CAGR
Alchip	2030 AI ASIC market	>US$150bn	Up from US$13bn in 2024
Broadcom	FY2028 AI revenue target	US$230bn	One company, incl. HBM in the package, networking and some full racks; US$115bn in FY2027
Gartner	2030 ASIC market	US$203.6bn	All custom chips incl. handset, auto and networking; US$67.7bn in 2025

資料來源：聯發科，Marvell，世芯-KY，Broadcom，Gartner，凱基預估

圖 15：Gartner 估計 ASIC 市場 2030 年將達 2,036 億美元，AI 加速器成為最大產品類別



資料來源：Gartner，凱基預估

需求面，雲端業者的資本支出與自研晶片同步放大。四大雲端業者 2025 年資本支出合計約 4,100 億美元，2026 年最新指引合計達 7,200-7,400 億美元，市場共識預估 2027 年將超過 1.1 兆美元(見圖 16)。Amazon (美)自研晶片業務年化營收已逾 250 億美元，Trainium 營收承諾逾 2,250 億美元，Trainium3 接近全數被預訂，OpenAI (美)亦將自 2027 年起使用 2GW 的 Trainium 算力；Google 自 2Q26 開始將 TPU 系統交付至客戶自有機房，相關營收多數於 2027 年認列，並與 Blackstone (美)合組 TPU 雲端，預計 2027 年上線 500MW，我們估計 Google TPU 出貨量將由 2026 年約 364 萬顆增至 2027 年近 788 萬顆；Meta (美)於兩年內推出四代 MTIA，Microsoft (美)亦推出 Maia 200 及 Cobalt 200。此外，Broadcom 預期 AI 實驗室 Anthropic (美)將於 2027 年成為其最大 XPU 客戶。我們認為，雲端晶片已由內部使用擴大至對外銷售，將使客製化晶片量產營收的天花板持續提高。

先進製程與先進封裝同步升級，單顆晶片價值與設計複雜度持續提高

供給面，台積電於 3Q26 法說會預估 2026 年營收年增約 44%，董事長並表示 AI 加速器營收 2024-29 年複合成長可能高於原先 55%至近 60%的目標，2026 年資本支出維持 600-640 億美元，且 2026-28 年資本支出將明顯高於過去三年。製程方面，N2 已有逾 20 個客戶 tape-out、逾 70 個在規劃，A16 量產延至 2027 年，A14 預計 2028 年量產；封裝方面，CoWoS 於 2026 年量產 5 倍光罩尺寸，2028 年量產 9.5 倍，而後放大到 14 倍，2029 年以後的 SoW-X 更達 40 倍(見圖 17)。Marvell 亦指出新一代 XPU 封裝內已超過 10 顆 die，基板邊長由 100mm 走向 150mm。學術研究顯示，5nm、800mm²的大型 die，缺陷成本已超過製造成本一半，拆成兩到三顆 chiplet 通常最具效益，但須有足夠出貨量才能攤提多顆 die 的光罩與設計成本。我們認為，製程微縮與封裝擴大，一方面提高單顆晶片的 turnkey 價值，另一方面也使 back-end physical design、die-to-die 互連、電源與散熱設計，以及 multi-die 封裝整合的工作量大幅增加，有利於承接封裝整合與量產管理的聯發科、具備 die-to-die 互連與封裝整合 IP 的創意，以及具備先進製程 physical design 經驗的世芯-KY。我們估計世芯-KY 2nm AI 加速器的 ASP 將達 3nm 的 2 倍以上，即為單顆晶片價值提高的例證。

** 下方為可整合的 HBM 顆數與規格*

量大之後客戶開始分段委外，價值由全包廠移向客戶與多個分工夥伴

我們認為，2027-28 年 ASIC 設計服務產業最重要的結構性變化，是大型客戶由全包式採購轉向分段委外。出貨量小時，將整顆晶片交由全包廠負責最為省事；但當單一客戶每年採購數十萬至數百萬顆晶片，全包廠在邏輯晶片與記憶體上的加價，即成為每年數十億美元的成本。Google 自 TPU v8t 起自行完成 compute die 的全部設計，並將 HBM 採購收回自行處理，省下全包廠約 5-20%的 HBM 加價，I/O die、封裝整合與量產管理則全數交由聯發科(見圖 18)。值得注意的是，客戶收回的範圍依自身能力而定，Google 屬於設計能力最完整的少數客戶，多數客戶則僅收回架構、front-end 設計與記憶體採購，back-end physical design、封裝整合、測試及量產管理仍須委由設計服務業者等分工夥伴執行，使原本由單一全包廠取得的價值，重新分配至客戶與多個分工夥伴；聯發科正是因此取得 TPU 的 I/O die、封裝整合與量產管理，為分段委外的直接受惠者。

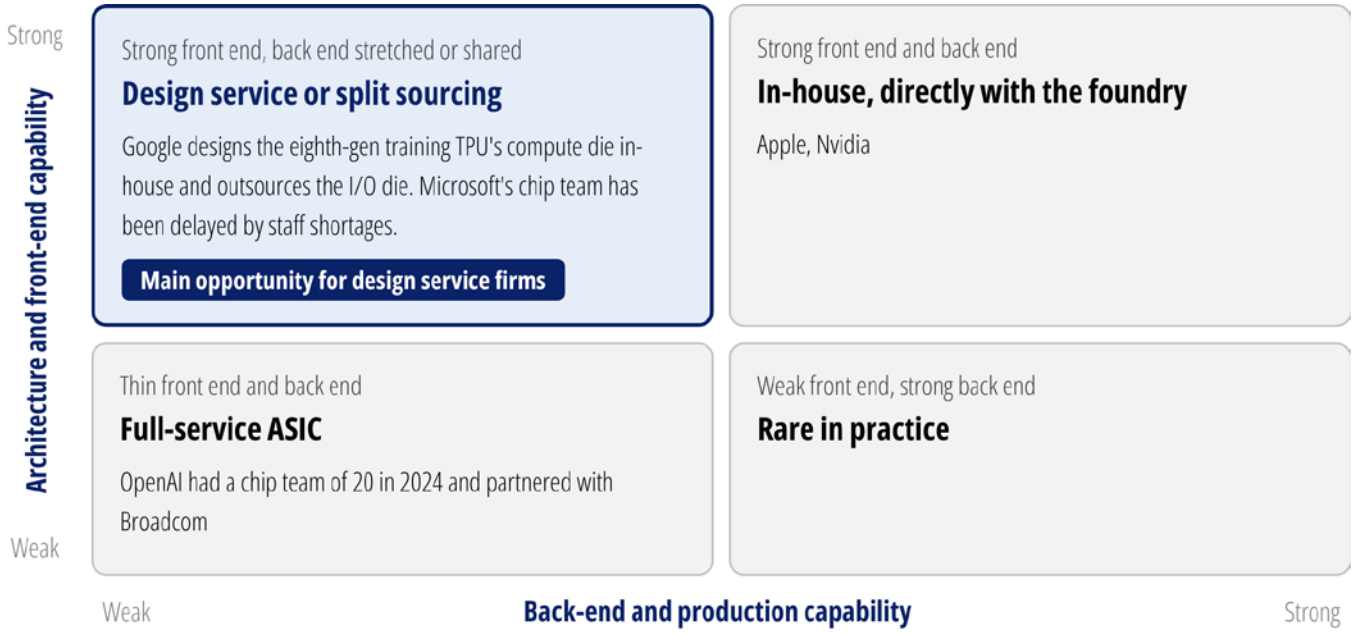
圖 18：Google 第八代訓練用 TPU (TPU v8t)的分工方式

Item	Traditional full-service model	Eighth-gen training TPU
Compute die	Designed by the vendor	Designed by Google
I/O die	Vendor	**MediaTek**
HBM	Bought by the vendor and marked up	Bought directly by Google
Overall	The vendor handles design, IP, memory buying and production, and the customer pays the full chip price.	Per Counterpoint, Google avoids the vendor's 5-20% markup on HBM.

資料來源：Counterpoint，凱基

對設計服務業者而言，客戶分段委外代表每顆晶片可收取的金額下降，但可參與的案件與量產規模擴大。世芯-KY 於 2026 年 2 月的新聞稿即指出，AI 提高了量產管理在 ASIC 價值鏈中的重要性，並將自身定位為比轉進 ASIC 市場的標準品大廠更具彈性的選擇。另一方面，客戶自建團隊的速度跟不上工作量成長，Microsoft 下一代 Maia 因設計變更與人力流失延後至少六個月，Meta 則透過收購 Rivos (美)補強晶片團隊。此外，雲端業者在提高自研比例的同時，也開始引進第二家 ASIC 供應商。我們認為，front-end 能力強、但 back-end 人力不足或需要共用 back-end 團隊的客戶，最適合將 back-end 與量產委由設計服務業者，或拆分給多家夥伴分工，創意在介面 IP 與封裝整合、世芯-KY 在先進製程 physical design 與量產管理，分別對應此一分工趨勢。

圖 19：客戶的 front-end 與 back-end 能力，決定最適合的外包模式



資料來源：Counterpoint，DatacenterDynamics，凱基

雲端晶片對外銷售與晶片走向封裝系統，擴大量產規模與整合需求

另外兩項結構性變化，同樣有利設計服務業者擴大營收規模。其一是雲端晶片由內部使用走向對外銷售，Google 將 TPU 系統交付至客戶機房並與 Blackstone 合組 TPU 雲端，Amazon 則將 Trainium 供應給 OpenAI 及 Anthropic 等 AI 實驗室，使單一晶片平台的出貨量擴大、生命週期拉長。其二是晶片走向封裝系統，單一封裝內的 compute die、I/O die 與 HBM 數量持續增加，die-to-die 互連、HBM 介面與 2.5D/3D 封裝設計成為新的設計重點。不過，單一平台放量也代表買家更加集中，Nvidia (美)亦透過 NVLink Fusion 將客製化晶片接入自家機櫃，競合關係更趨複雜。

產能與資金成為門票，營收放大但毛利率結構性下滑

隨 AI 加速器的晶圓、CoWoS 與 HBM 成本大幅提高，turnkey 業務需要預付晶圓與封裝款項並承擔存貨，產能取得與資金實力成為承接大型案件的門檻。世芯-KY 即表示，載板與封裝產能優先供應雲端業者，使車用與消費性業務出貨受限，若無此限制，3Q26 營收可再多約 1 億美元；我們亦認為 wafer allocation 是創意營收上修的關鍵變數。聯發科於 2026 年 8 月完成 39 億美元零息海外轉換公司債訂價以確保供應鏈產能，創意於 2026 年 8 月董事會通過新台幣 400 億元聯貸及上限 8 億美元的海外轉換公司債，世芯-KY 亦於 2026 年 6 月完成 5.1 億美元 GDS 募資；客戶端則開始以股權綁定供應，Google 取得約 5,897 萬股 Marvell 認股權證。我們認為，與台積電關係緊密、具備產能協調經驗與充足資金的業者，在爭取下一代大型案件時更具優勢，惟募資造成的股本稀釋亦須納入考量。

另一方面，turnkey 比重提高與記憶體成本轉嫁，使產業呈現營收放大但毛利率下滑的現象，全包廠亦不例外，Broadcom 預估 FY4Q26 合併毛利率約 73%，低於去年同期的 78%，主因 XPU 內含的記憶體比重提高。設計服務業者的情況更為明顯，我們預估世芯-KY 毛利率將由 2026 年的 21.7%降至 2028 年的 18.0%，但營益率將保持於 15-16%之間；創意 3Q26 的實際數字亦呈現相同趨勢，營收年增 117.7%至 187.5 億元，毛利率由 24.2%降至 20.6%，但營業費用僅年增 26.9%，營業利益年增 141.9%至 25.5 億元，營益率由 12.2%升至 13.6%，EPS 由 6.47 元增至 16.95 元。我們認為，評估設計服務業者應以營業利益金額與 EPS 為主，量產規模放大後，營業費用成長低於毛利金額成長所帶來的營運槓桿，才是獲利成長的關鍵；毛利率下滑本身並非負面訊號，營業利益同步下滑才是需要警惕的訊號。

訓練與推論分家，雲端業者晶片型號增加，NRE 成長具結構性

雲端業者晶片型號增加已是確定趨勢，主要來自三股力量。一是訓練與推論需求分家，Google 第八代 TPU 拆分為訓練用的 TPU v8t 與推論用的 TPU v8i，Meta 的 MTIA 400、450 及 500 以生成式 AI 推論為主，Microsoft Maia 200 專為推論設計，OpenAI 首顆自研晶片 Jalapeño 亦鎖定推論；二是改版週期縮短，Meta 採模組化、可重用的設計，兩年內推出四代 MTIA，新晶片每六個月或更短即可推出，遠快於業界一至兩年的節奏；三是晶片拆成多顆 die 後，衍生型號更容易推出。我們認為，型號增加將帶動 tape-out 數與 NRE 成長；惟型號增加主要集中於前四、五大雲端業者與 AI 實驗室，新增型號亦多為衍生型號，出貨仍集中於旗艦平台，NRE 總額的成長幅度可能低於 tape-out 數成長。由於單季 NRE 隨專案里程碑認列而波動較大，且常集中於年底認列，宜以年度趨勢觀察，我們預估創意 2026-28 年 NRE 及 IP 營收年增率分別為 18.4%、15.5%及 12.8%，世芯-KY 的 NRE 營收年增率分別為 10.5%、10.0%及 9.6%。

資料來源：凱基預估

客戶類型擴大至 AI 實驗室、車廠與非雲端業者，客製化 CPU 與客製化記憶體帶來新案源

AI ASIC 的量產預算仍集中於少數雲端業者，Marvell 指出美國前四大雲端業者占資料中心資本支出一半以上，Counterpoint 則估計前十大雲端業者的 AI 伺服器 ASIC 出貨量 2024-27 年將成長為三倍。另一方面，AI 實驗室、車廠與大型企業亦加入自研行列，Broadcom 的六個 XPU 客戶中即包含兩家 AI 實驗室；車用方面，Tesla (美)的 AI5 已於 2026 年 4 月完成 tape-out，預計 2027 年中量產，並由台積電與三星(韓)生產，Rivian (美)自研 5nm RAP1 預計 2026 年底隨 R2 出貨，理想汽車(中)自研 M100 亦於 2026 年上車。我們認為，客戶類型擴大有助設計服務業者分散對單一雲端客戶的依賴，且非雲端客戶多半缺乏完整的 back-end 與量產團隊，對設計服務的需求更高；世芯-KY 即於 3Q26 法說會宣布取得 10 億美元等級的 HPC 設計案，客戶為首次合作的美系企業，預計 2Q27 起貢獻量產營收，公司並指出產業工程人力全面短缺，許多專案需要 physical design 支援。創意的中國車用 ADAS 專案可望自 4Q26 開始貢獻營收，美系電動車專案亦預計 2H27 量產，世芯-KY 的中國車用 ADAS 需求穩健，次世代設計亦將於 4Q26 tape-out，皆可望受惠。

客製化 CPU 與客製化記憶體則是另外兩個新案源。代理型 AI 帶動 CPU 需求回升，AWS (美)新增運算力已有一半以上採用自研 Graviton，Counterpoint 估計 2029 年 AI ASIC 伺服器所用 CPU 將有九成為 Arm 架構，而 Microsoft Cobalt 200 由兩顆各 66 核的 die 組成，顯示客製化 CPU 同樣走向 multi-die 設計。創意的次世代 CPU 專案亦採 two-die chiplet 架構，ASP 約為現世代的兩倍。記憶體方面，Micron (美)的 HBM4E 預計 2027 年量產並提供客製化版本，base logic die 交由台積電生產，Nvidia 則推出將記憶體控制器移入 HBM base die 的 NVHBM，Sandisk (美)與 SK hynix (韓)推動的高頻寬快閃記憶體(HBF)預計 2027 年初送樣，具備記憶體介面 IP 與先進製程設計能力的業者可望受惠，創意的 HBM4 控制器與 PHY IP 即屬此類。

分工讓各家取得不同區塊，設計服務業者受惠 compute die 的 back-end、量產管理與大廠讓出的案件

我們認為，客製化晶片市場並非由單一業者通吃，而是依客戶能力與案件規模形成分工。全包式業者以 SerDes 等自有 IP 與規模承接最大型的案件，Counterpoint 估計 2027 年前十大雲端業者的 AI ASIC 出貨中，Broadcom 約占 60%、Marvell 約 8%；Broadcom 走少數超大客戶路線，2024 年底 XPU 客戶 3 家，2026 年增加至 6 家，並開始銷售整櫃及替 AI 實驗室安排融資；Marvell 則於 2026 年投資人日表示自身並非 ASIC 供應商，客製化業務重心轉向以 IP 為主的半客製與 XPU 周邊晶片，其 2025 年追蹤的逾 50 個機會合計約 750 億美元終身營收，平均每案約 15 億美元，顯示大廠承接案件的規模門檻。世芯-KY 則表示，美系 CSP 客戶已提高 3nm 專案給公司的 allocation，2nm 專案更由公司負責包含 I/O die 在內所有 die 的 physical design，且客戶目前承諾 2nm 晶圓只由客戶本身與世芯-KY 兩家下單。聯發科則承接 Google TPU 的 I/O die、封裝整合與量產管理並快速放大，我們估計 2028 年 AI 加速器 ASIC 將占其營收約 60-65%，聯發科既是分段委外的直接受惠者，也是設計服務業者潛在的最直接對手；聯發科與設計服務業者在 I/O die、封裝整合與量產管理環節雖有競爭，但承接的客戶與案件規模不同，因此同時持有聯發科、創意及世芯-KY，可涵蓋分段委外後不同客戶與規模的案件。

在此格局下，設計服務業者的機會主要來自三處，一是 back-end 人力不足的客戶自行設計 compute die 後，委外的 back-end physical design 與量產管理，二是大廠門檻以下、由客戶自行尋找設計夥伴的案件，三是需要 multi-die 整合與先進封裝設計的新案。我們認為，設計服務產業也可能出現外溢，

但形式與封測不同。封測外溢是同一道製程的產能不足，客戶仍屬於台積電；設計案則綁定 IP、多代路線圖與客戶關係，大廠不會將案件轉包給設計服務業者，比較可能的形式是大廠設定門檻、選擇性接案，門檻以下的案件有機會由客戶自行委託設計服務業者，屬於「讓出來」而非「分出去」。不過，爭取門檻以下案件的業者不只設計服務業者，聯發科、Qualcomm (美)及 Arm 皆積極布局，且獨立的高速 SerDes IP 供應商因 Alphawave (英)被 Qualcomm 併購而減少，設計服務業者承接 I/O die 時須仰賴 Synopsys (美)、Cadence (美)或自有 IP，具備自有介面 IP 的創意相對具優勢。

產業成長轉化為獲利的關鍵在量產規模與營運槓桿，而非毛利率

將產業變化落到設計服務業者的損益表，主要可拆為五個項目。NRE 營收取決於 tape-out 數與每案工程費，受惠製程技術升級、設計複雜度提高、型號增加與客戶類型擴大；turnkey 營收取決於出貨顆數與每顆轉手價值，受惠雲端資本支出、製程由 3nm 走向 2nm 與 A16，以及封裝面積擴大；毛利金額須將 NRE 與 turnkey 分開估算，分段委外使每顆收入下降、量產比重提高使毛利率下滑；營業費用主要由工程師人數、EDA 與算力成本驅動，宜以人數而非營收占比推估，才能呈現營運槓桿；股數與資金則反映募資稀釋，以及預付晶圓與封裝款項。

我們認為，2027-28 年設計服務業者的獲利成長，將主要來自 turnkey 出貨量與單價提升所帶動的量產規模放大，以及營業費用成長低於毛利金額成長所帶來的營運槓桿，NRE 隨 tape-out 數增加則提供穩定的基礎。以創意 3Q26 為例，營收年增 117.7%，研發費用僅年增 27.7%，營業費用占營收比重由 12.0%降至 7.0%，即為營運槓桿的具體表現。

我們預估創意 2027-28 年營收將分別年增 168.5%及 59.3%，毛利率由 2026 年的 21.0%降至 2028 年的 18.2%，但營益率將由 2026 年的 13.5%升至 2028 年的 15.8%，EPS 分別達 175.43 元及 302.59 元；世芯-KY 2027-28 年營收將分別年增 100.0%及 87.3%，毛利率由 2026 年的 21.7%降至 2028 年的 18.0%，營益率則保持於 15-16%之間，EPS 分別達 219.12 元及 409.40 元。兩家公司毛利率雖持續下滑，但營業費用成長低於毛利金額成長，營益率與 EPS 仍將隨量產規模放大而提升，顯示營運槓桿將是 2027-28 年獲利成長的主要來源。

圖 22：產業變化如何對應到設計服務業者的損益表

P&L line	How to build it	Industry shift behind it
NRE	Tape-outs × fee per project	Node migration; rising design complexity; more chip variants; more customer types
Turnkey	By project, units shipped × pass-through value per unit	Hyperscaler capex; migration to N2 and A16; larger packages
Gross profit	Separate margins for NRE and turnkey	Unbundled buying lowers revenue per unit; and a higher production mix dilutes margin
Opex	Engineers × cost per head, plus EDA and compute	Back-end talent shortage; AI design tools
Shares and funding	Equity dilution; pre-payments for wafers and packaging	Capacity and capital become the price of entry

資料來源：凱基

市場疑慮集中於分段委外、客戶集中、毛利率與競爭，我們認為皆有可追蹤的觀察指標

市場對設計服務產業的疑慮主要有四項。其一是客戶分段委外後是否會直接跳過設計服務業者。以 Google 為例，compute die 的設計全由自身完成，I/O die、封裝整合與量產管理則交由聯發科，設計服務業者並未參與，顯示設計能力最完整的客戶確實可能跳過設計服務業者；但我們認為多數客戶 back-end 人力吃緊，back-end physical design、封裝整合與量產管理仍需委外，設計服務業者的角色反而提高；若更多客戶比照 Google 自行完成 compute die 的全部設計，或自建 back-end 團隊並直接面對晶圓廠，則代表此一看法需要修正。其二是客戶集中與世代交替，我們認為世芯-KY 前一次低谷期間營業利益仍能維持在 11.5 億元，2nm 專案預計 2026 年底前完成晶片第一版本的 tape-out，公司亦預期成長可延續至少三至四年；惟若 2nm tape-out 延後或下一世代未能取得，則需下修預期。聯發科的 AI ASIC 營收目前集中於 Google TPU，第二個 AI ASIC 客戶預計 2028 年開始貢獻營收，可望降低客戶集中度。

其三是毛利率持續下滑，我們認為應以營業利益金額與 EPS 評估，量產規模放大帶來的營運槓桿可抵銷毛利率下滑，如前述創意 3Q26 營益率不降反升即為例證；惟若營業利益連續兩季季減，則代表新增營收的獲利貢獻不足。其四是聯發科、全包廠與 Arm 等業者的競爭，我們認為分工使各家取得不同區塊，聯發科主要承接 Google TPU 的 I/O die、封裝整合與量產管理，設計服務業者則承接其他客戶與大廠門檻以下的案件，大型雲端業者亦持續自研 CPU 並走向 multi-die 設計；若雲端客戶改採 Arm 自有 CPU，則競爭壓力將明顯升高；若全包廠降低接案門檻、轉而爭取中型案件，競爭壓力亦將升高。此外，雲端資本支出循環為產業共同風險，若資本市場對 AI 投資報酬失去耐心，量產訂單將首當其衝。

投資建議

我們看好台系 ASIC 業者 2027-28 年的獲利成長，推薦聯發科、創意及世芯-KY。我們認為，雲端自研晶片放量、客戶由全包轉向分段委外，以及晶片走向 multi-die 封裝系統三項變化，將使產業價值由全包廠移向客戶與多個分工夥伴，台系 ASIC 業者可望受惠，其中聯發科受惠於 Google TPU 的 I/O die、封裝整合與量產管理，創意與世芯-KY 則受惠其他客戶的 back-end physical design、封裝整合與量產管理；雖然 turnkey 比重提高使毛利率下滑，但量產規模放大帶來的營運槓桿，將使營業利益與 EPS 持續成長。

創意

CPU 與車用雙引擎，營運槓桿推升獲利

重要訊息

我們上調創意 2027 年獲利預估並新增 2028 年預估，主因：(1) CPU 客戶 2027 年需求預估達 2026 年的兩倍以上，次世代 CPU 的 ASP 約為現世代的約兩倍；(2)新募資有助爭取更多 wafer allocation；(3)美系電動車專案 2H27 量產，2028 年起完整貢獻；(4)量產規模放大帶動營運槓桿。

評論及分析

財務空間擴大，有助取得更多 wafer allocation。我們預估 CPU 客戶 2027 年需求達 2026 年的兩倍以上；創意亦已取得次世代 CPU 專案，預計於今年底或明年初 tape-out，採 two-die chiplet 架構，ASP 約為現世代的兩倍，我們預期將於 2027 年底至 2028 年初進入量產。我們認為 wafer allocation 是營收上修的關鍵變數，而創意在這方面較同業具優勢，主因：(1)董事會已通過上限 8 億美元海外轉換公司債與新台幣 400 億元聯貸，可支應至 2028 年前後，使創意在產能釋出時能迅速下單並預付晶圓款項；(2)創意與晶圓代工龍頭關係緊密並負責溝通客戶需求，今年整體 fulfillment rate 已較年初逐漸改善，創意及其客戶取得的重新分配產能亦優於平均。我們預估美系 CSP CPU 專案將占 2027 年總營收的 48-50%。

美系車用專案 2H27 量產，TK1 模式推升獲利。美系電動車客戶相關設計服務由創意支援，下一代專案亦已取得。此案預計 2H27 量產。我們預期此案將推升 2027-28 年獲利，主因：(1)量產後出貨快速攀升；(2) wafer order 約自 2027 年初開始，仍有時間協調產能，財務空間有助提高 fulfillment rate；(3)此案屬創意的 TK1 模式，毛利率應高於屬 TK3 模式的 CPU 專案。我們預期車用營收占比將由 2026 年的個位數提升至 2027 年的雙位數。

中國 ADAS 專案帶來上行空間，創意在車用市場布局優於同業。中國 ADAS 專案採 5nm 製程，wafer fulfillment rate 可能優於部分 3nm 產品，可望自 4Q26 開始貢獻 turnkey 營收並於 2027 年完整貢獻，下一代 3nm 產品亦預計於 2026 年底前 tape-out。我們認為創意的布局優於同業的車用專案，主因創意的中國 ADAS 客戶可供應多個車廠生態系。管理層指出，大型 fabless 的 back-end 團隊多為各產品線共用，資源不足的產品線即會委外，正呼應我們在設計服務產業報告中認為 front-end 能力強但 back-end 人力不足的客戶將推動分段委外的看法。

投資建議

我們在產業報告中看好台系 ASIC 業者 2027-28 年的獲利成長，並指出創意受惠雲端 AI 晶片量產，加上車用與記憶體介面等成長引擎，成長來源較為分散。我們上調 2027 年 EPS 預估至 175.43 元，年增 178.6%，並新增 2028 年 EPS 預估 302.59 元，年增 72.5%。目標價由 5,870 元(45 倍 2027 年 EPS)上調至 9,900 元(40 倍 2H27-1H28 EPS；五年均值)，維持「增加持股」評等。

投資風險

競爭加劇；需求轉弱；客戶集中度偏高；wafer allocation 不如預期。

新客戶陸續加入，AI 推論專案延續性仍待觀察。AI 推論專案於 3Q26 放量，成長率居各應用之冠，客戶已躋身前五大。不過，該產品規格特殊，單季營收貢獻雖然可觀，出貨卻可能在某一季達到高峰後快速回落，因此我們視其為短期營收挹注，而非長期成長動能。BMC 專案出貨符合預期，同為前五大客戶之一，HBF 專案亦按計畫進行，量產貢獻較可能落在 2028 年。此外，隨 CSP 提高自研比例並引進第二家 ASIC 供應商，管理層以 SoIC、3DIC 及 UCIe 等 die-to-die IP 為敲門磚，積極爭取四大 CSP 的其他 AI ASIC、CPU 及 AI 加速器專案，若能取得將進一步分散對單一雲端客戶的依賴。

營運槓桿顯現，毛利率稀釋不改獲利成長。3Q26 營收年增 117.7%，毛利率由 3Q25 的 24.2%降至 20.6%，但營業費用僅年增 26.9%，營業利益年增 141.9%，營益率由 3Q25 的 12.2%升至 13.6%。若與 2Q26 相比，3Q26 毛利率大致持平，營益率則進一步提升。CPU 專案屬 TK3 模式，毛利率雖較低，但新增人力與研發投入也較少，大量出貨可在固定費用下創造營運槓桿；圖靈運算中心折舊使 2026 年營業費用雙位數成長，2027 年增幅則將明顯收斂。如我們在產業報告中所述，評估設計服務業者應以營業利益金額與 EPS 為主。我們預估 2026-28 年營收將分別年增 106.0%、168.5%及 59.3%，營業費用則分別年增 29.2%、17.8%及 17.2%。儘管 turnkey 比重提高將稀釋毛利率，2027 年營益率仍可望升至 14.5%。

重要訊息

世芯-KY 3Q26 EPS 創歷史新高，並宣布再取得 10 億美元等級的大型設計案。公司預期 4Q26 營收再創新高，2027 年營收將呈三位數成長，2nm 專案亦將如期於 4Q26 開始 tape-out，我們認為世芯 2027-28 年的成長能見度明顯提高。

評論及分析

3nm 專案 allocation 提高。美系 CSP 3nm AI 加速器已順利進入大量生產，晶片符合所有測試標準且良率合理。公司預期此專案 2027 年營收將年增三位數，優於先前指引，主要來自客戶提高對世芯的 allocation。公司亦表示 3nm 將量產約兩年才交棒下一代，加上雲端晶片走向對外銷售使單一平台的生命週期拉長，我們預期出貨將延續至 2028 年並與 2nm 量產銜接。

2nm 專案如期推進，地位較 3nm 更強。次世代 2nm AI 加速器已進入 final implementation 階段，4Q26 起展開一系列 tape-out，目標 4Q27 小量量產、2028 年初大量量產。2nm 採 chiplet 架構與 GAA 製程，設計附加價值明顯高於 3nm，世芯負責包含 I/O die 在內所有 die 的 physical design 與整合，且客戶目前承諾 2nm 晶圓將只由客戶本身與世芯兩家下單，世芯的量產份額將有望優於 3nm。我們估計 2nm 專案 ASP 將達 3nm 專案的 2 倍以上。此外，我們預期 A14 專案的 NRE 將自 2027 年開始貢獻，並估計美系 CSP 專案的 turnkey 營收將占 2027 年總營收的 68-70%。

新取得 10 億美元等級大型設計案，2Q27 起貢獻量產營收。此案合約已簽署，客戶為首次合作的美系企業，晶片用於 HPC。公司預期此案自 2Q27 起貢獻量產營收並逐季延續，毛利率合理，2027 年即成為第二大營收來源，且屬可持續的新商業模式。公司表示產業工程人力全面短缺，許多專案需要 physical design 支援，世芯即以工程能力切入。我們在設計服務產業報告中指出，客戶自建團隊的速度跟不上工作量成長，front-end 能力強但 back-end 人力不足的客戶，最適合將 back-end physical design 與量產委由設計服務業者，此案正反映此一分段委外趨勢。

投資建議

市場對世芯最大的疑慮在於營收集中於大客戶，以及世代交替造成的營收波動，法說會兩項疑慮皆獲正面回應，而關鍵在資產負債表可承接的規模。公司指出產業持續走向 COT 模式，屬長期結構性趨勢且有利世芯，與我們在產業報告中提出客戶由全包轉向分段委外的看法一致。我們調整 2026-27 年 EPS 預估為 124.20 元及 219.12 元，並預估 2028 年 EPS 為 409.40 元。我們目標價 6,600 元係基於 30 倍(五年均值)2027 年 EPS。目前股價約當 16 倍 2027 年 EPS 預估，我們認為評價具吸引力，維持「增加持股」評等。

投資風險

美系 CSP 對 AI ASIC 需求轉弱；2nm 專案 tape-out 或量產時程遞延；新客戶量產進度不如預期；供應鏈瓶頸延續；競爭態勢激烈。

重要免責聲明，詳見最終頁

其他專案如期推進，供應瓶頸逐步改善。網通與 CPU 專案皆如期進行，我們預期網通 3nm 專案於 2027 年量產，2nm 於 2027 年 tape-out 並自 2028 年起貢獻營收。中國車廠 ADAS 專案需求穩健，次世代設計將如期於 4Q26 tape-out，我們預期採 5nm 車用製程。不過，載板與封裝產能優先供應 CSP 業務，使車用與消費性等業務出貨受限，公司估計若無此限制，3Q26 營收可再多約 1 億美元，目前情況正逐步改善。

毛利率稀釋並非負面訊號，營運槓桿推升獲利。相較 1Q26，3Q26 毛利率因 3nm 營收占比偏高、高毛利量產業務受限及部分 NRE 認列遞延而降至 20%以下，但受惠營運槓桿，營益率僅溫和下滑。公司認為 3Q26 毛利率已接近此營收組合下的最差情境，4Q26 將與 3Q26 相近，長期營益率目標為 high-teens。如我們在產業報告中所述，評估設計服務業者應以營業利益金額與 EPS 為主。我們預估 2027 年營收將年增 100.0%至新台幣 1,384 億元，毛利率雖稀釋至 18.8%，但營業利益、營益率將分別年增 90.8%及年減 0.7 個百分點。

美國運動休閒產業

絕地大反攻

焦點內容

1. 美國期中選舉強烈體現「生活成本決定選票」。我們認未來 1-2 個月油價下跌之預期心理將助力消費者信心改善，驅動全球運動休閒產業評價谷底反彈。
2. 1H27 財報恐失利，但已大致被市場反應。未來投資人將更加關注終端庫存去化進展與 2H27 購物旺季展望潛在上檔空間。
3. 我們對全球運動休閒產業全面翻多，預計全球運動休閒廠商基本面復甦最快將始於 3Q27。

重要訊息

美國期中選舉變天，民眾經濟負擔能力可能成為兩黨未來一年少數有望達成合作的「狹窄通道」，我們預期這將驅動全球運動休閒產業評價谷底彈升。

評論及分析

美國期中選舉可能成為關鍵轉折點。隨著美國民主黨在期中選舉大勝，過去一週油價呈雪崩式暴跌，全球運動品牌及零售商股價也出現明顯反彈。本次選舉強烈體現出選民對通膨與高昂的生活成本極度不滿，尤其將關稅政策與油價飆漲視為核心源頭。儘管這樣的選舉結果將使民主黨控制的國會與白宮陷入政策互相掣肘之政治僵局，且川普總統至今仍堅稱對伊朗開戰有其必要性，但選後市場各項數據顯示，投資人更相信「民意的力量」會帶來改變。在政策走向實際影響基本面之前，我們認為未來 1-2 個月油價下跌預期心理將先行助力消費者信心改善 (圖 2)，驅動全球運動休閒產業評價谷底反彈。

放眼 1H27 之後。全球運動休閒品牌及零售商 2Q26 庫存週轉天數攀升至 142 天，年增 8%、季增 13%，創疫後新高水準 (圖 4)。截至目前已公布的 3Q26 財報顯示，產品平均成本與售價上揚正導致客流量及商品轉換率面臨壓力，因此前述數據尚未有顯著改善。Deckers (美)、Adidas (德) 和 Under Armour (美) 皆指出，當前鞋類領域促銷競爭激烈，庫存去化可能至少延伸至 1Q27。加上 1H26 提前拉貨與美國關稅退款墊高基期，1H27 獲利展望仍不利。然而，這一切已大致被市場反應。我們預期投資人未來半年關注焦點將從財報轉移至：(1) 油價走勢與消費者信心變化對 1H27 庫存去化和 2H27 購物旺季展望之潛在影響；及 (2) 各業者間營運復甦動能之差異。

零售銷售動能回穩尚待考驗。長期而言，美國消費動能真正要扭轉，取決於「實質薪資成長率再度超越通膨率」，這在當前就業市場冷暖不均、戰爭與關稅不確定性尚未完全解除、股債市動盪削弱財富效果之背景下，解決道上將佈滿荊棘。隨著美國政治進入分裂政府狀態，我們大膽推測，民生與經濟負擔能力將是兩黨未來一年少數可能達成合作的「狹窄通道」，醞釀非必需消費類股絕處逢生契機。我們建議未來半年密切關注油價走勢，並預計全球運動休閒廠商基本面復甦最快將始於 3Q27。

投資建議

我們對全球運動休閒產業全面翻多，主因看好美國期中選舉很可能成為扭轉民眾經濟負擔能力之關鍵轉捩點。短期而言，我們預期低基期個股評價反彈空間更大。考量產業庫存水準與市佔率變化，我們偏好高端運動休閒及戶外品牌>大眾運動休閒品牌。同業評價比較請參見附表。

投資風險

下檔風險為戰事擴大、消費趨緩及經濟衰退。

股價說明

等級	定義
增加持股 (OP)	對個股持正面看法，預期個股未來十二個月的表現超越凱基證券集團所追蹤的相關市場的總報酬。
持有 (N)	對個股持中性看法，預期個股未來十二個月的表現符合凱基證券集團所追蹤的相關市場的總報酬。
降低持股 (U)	對個股持負面看法，預期個股未來十二個月的表現低於凱基證券集團所追蹤的相關市場的總報酬。
未評等 (NR)	凱基證券未對該個股加以評等。
受法規限制未評等 (R)	受凱基證券集團內部政策和/或相關法令限制使凱基證券集團無法進行某些形式的資訊交流，其中包括提供評等給投資人參考。
	*總報酬 = (十二個月目標價-現價)/現價

定穎投控 (3715 TT)　買進(Buy))

泰國廠邁入收割期

- **產品組合優化加上漲價，3Q26 毛利率顯著提升**
- **ASIC 高層板放量，泰國廠 1Q27 可望滿載**
- **客戶基礎擴大，2027 年泰國產能全數預訂**

產品組合優化加上漲價，3Q26 毛利率顯著提升：定穎 3Q26 營收 87.05 億元(QoQ+26.7%)，主要受惠汽車板、儲存裝置及網通伺服器需求增加。毛利率 22.2%(QoQ+8.2ppts)，主要受惠產品組合優化，HDI 占比提升至 50%，加上因應上游 CCL 漲價的價格調整，以及泰國廠稼動率提升至約 70%。營業利益率 9.9%，惟受匯損約 3.3 億元影響，歸屬母公司稅後淨利 0.30 億元，EPS 為 0.11 元；值得注意的是，本季成長尚未包含 AI Server 貢獻。展望 4Q26，隨泰國廠稼動率維持約 70%，以及 20 層以上 AI Server 板於 12 月開始出貨並認列營收，我們預估營收可達 117.57 億元(QoQ+35.1%)，毛利率提升至 24.9%，EPS 為 2.72 元。

泰國廠 1Q27 可望滿載：泰國廠 20 層以上 AI Server 板已進入量產，預計 12 月開始出貨；30/40 層以上 HLC 於 12 月投產，因生產前置時間約 8 週，預計 1Q27 末開始出貨並認列營收。根據供應鏈調查，相關 ASIC 產品主要應用於 Google TPU v8i(Sunfish)及 v8t(Zebrafish)。公司預期 1Q27 泰國廠產品將完全轉換為目標產品並達到滿載，AI 相關產品比重達 80~90%，屆時可達損益平衡並轉為獲利。加上黃石 P3 新產能 3Q27 起陸續開出，我們預估 2027/2028 年營收分別為 583.56 億元及 670.92 億元(YoY+77.0%，YoY+15.0%)。

客戶基礎擴大，2027 年泰國產能全數預訂：市場關注的 NVIDIA Vera Rubin 平台主板，公司本次未說明認證結果，但不影響泰國廠產能布局。目前其他 AI 客戶已足以支撐產能，2027 年泰國廠產能已全數被客戶預訂，依需求比例依序為 ASIC、GPU、Switch 及車用。公司策略在於持續擴大客戶基礎，預期 2028 年將有新客戶加入。在 AI 終端客戶朝向多供應商策略的趨勢下，我們認為此策略有助於強化營運穩定性；加上 2027/2028 年泰國及黃石新產能陸續開出，成長能見度高。我們預估 2026/2027/2028 年 EPS 分別為 1.28/16.37/21.59 元；以 2027 年 EPS 及 9 倍本益比推估目標價為 150 元，建議買進。

風險因子：AI 資本支出下滑、泰銖匯損擴大、同業競爭。

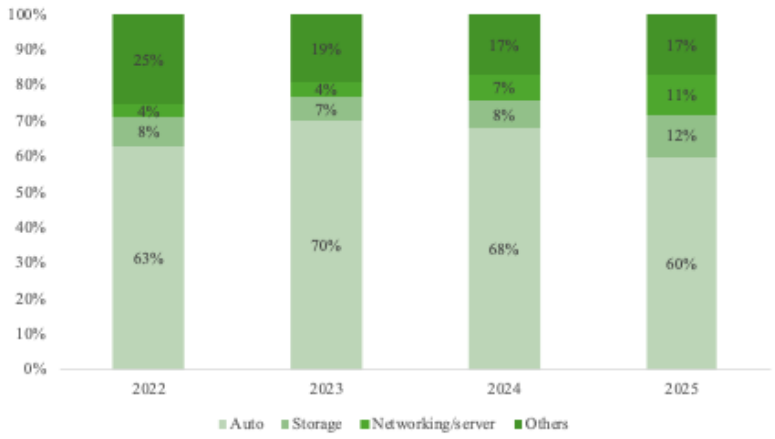
公司簡介：定穎投控前身為 1988 年成立的定穎電子，2022 年完成投控架構重組；旗下 PCB 子公司超穎電子於 2025 年 10 月在上海證交所掛牌，定穎間接持股約 86%。主要生產基地位於中國湖北黃石、江蘇昆山及泰國，其中黃石廠以車用等高信賴性產品為主，泰國廠則定位為 AI Server 等先進技術產品基地。產品以汽車板為最大營收來源，2025 年占比約 60%，其次為儲存裝置 12%及網通伺服器 11%；製程涵蓋 HDI 及高多層板。公司為台灣主要車用 PCB 廠之一，黃石廠及泰國廠員工分別約 3,200 人及 1,200 人。

圖表一、年度應用別營收佔比



資料來源：公司、中信投顧整理

新產能陸續開出，支撐 2027~2028 年成長：公司目前中國廠區月產值約 35 億元，3Q26 已滿載；泰國廠由 P5、P5a 及 D1 三座工廠組成，目前稼動率約 70%，2026 年營收目標 50 億元。公司預期泰國廠 1Q27 達到滿載，2027 年產值約 330 億元，產能已全數被客戶預訂。新產能方面，公司於 8 月公告黃石 P3 擴廠資本支出 99.2 億元，主要增加儲存、高階車用及 AI 伺服器產能，預計 3Q27 陸續開出，全數開出後年產值約 100 億元；同時公告泰國擴產資本支出 80.5 億元，用於長交期設備，新產能預計 4Q27 陸續開出，2028 年新增年產值 120 億元。隨泰國廠滿載及黃石 P3 產能開出，我們預估 2027 年營收可達 583.56 億元(YoY+77.0%)。

AI 高階板陸續量產，非 AI 產品同步成長：AI 產品方面，泰國廠 20 層以上 AI Server 板已進入量產，公司預計 12 月開始出貨並認列營收；30/40 層以上 HLC 於 12 月投產，因生產前置時間約 8 週，預計 1Q27 末開始出貨，3 月起貢獻營收。根據供應鏈調查，相關 ASIC/GPU 產品主要應用於 Google TPU v8i(Sunfish)/v8t(Zebrafish)以及 AMD MI450(HLC 40+L)。公司表示，泰國廠 GPU 及 ASIC 產品線涵蓋多個料號，主要產品線放量後即可達到滿載，2027 年產能依客戶需求比例依序為 ASIC、GPU、Switch 及車用；黃石廠亦生產 20 層以上 AI Server 板，客戶與泰國廠不同。非 AI 產品方面，儲存裝置以記憶體模組 DDR5 及 SSD 為主，DDR5 PCB 規格已由 DDR4 時期的 8~10 層傳統板升級至 12~16 層 HDI，層數與製程難度增加帶動 ASP 提升，客戶涵蓋美、韓、中記憶體業者；記憶體客戶需求自 2026 年初明顯轉強，已開始預訂 2027 年產能，亦為黃石 P3 擴產的主因之一。車用方面，自動駕駛 PCB 規格為 14 層以上高階 HDI，黃石 P3 亦將生產美系客戶高階車用板。公司預估

2027 年 AI 營收占比約三分之一，AI 營收金額較先前預估增加，但因非 AI 產品同樣強勁，占比略為下降。

新客戶與 P6 擴產，2028 年仍具上修空間：預計 2028 成長動能主要有三個。(1)泰國擴產新產能 4Q27 陸續開出，2028 年新增年產值 120 億元；同時泰國 P6 廠已送董事會決議，產品將升級至以 6 階 HDI AI Server 為主，並新增部分 mSAP 產能，相關設備已提前預訂。按照當時主要量產之 ASIC 專案規格，我們推估該 6 階 HDI AI Server 產品為 Google TPU v9；(2)公司持續與新客戶接觸，已進入專案前期開發與需求規劃階段，預期 2028 年將有新客戶加入，產品需求以 AI Server 相關為主；(3)隨新客戶、新產品導入，預計 2028 年 AI 產品占比將持續提升。)我們目前 2028 年預估僅納入已公告的泰國及黃石擴產，預估營收 670.92 億元(YoY+15.0%)、EPS 21.59 元，尚未計入 P6 貢獻；若 P6 如期通過決議並開出產能，加上新客戶導入，將為 2028 年營收及獲利帶來潛在上修空間。

綜合以上，我們預期定穎 2027 年在泰國廠轉虧為盈及 AI 占比提升的帶動下，獲利將較 2026 年大幅成長。然而，考量以下因素，我們認為定穎評價應低於同業：(1)市場關注的 NVIDIA VR 平台主板認證仍未通過；(2)泰鉢匯損及借款衍生的利息費用等業外項目持續侵蝕獲利，3Q26 業外支出達 5.91 億元；(3)泰國廠量產時程過去曾有遞延；且近期市場評價有所修正。因此，我們給予 9 倍本益比，約當歷史本益比區間偏低位置，以 2027 年 EPS 16.37 元推估目標價為 150 元，建議買進。

營運持續回溫，獲利結構改善

- **3Q26 營收持續回穩；獲利成長幅度優於營收成長**
- **持續深化 mo 店+與廣告業務發展**
- **升級訂閱制強化會員黏著度，完善物流網絡優化營運效率**

3Q26 核心電商 GMV 年增雙位數；獲利成長幅度超越營收：富邦媒 3Q26 合併營收 263.0 億元(YoY+7.1%)，核心電商 GMV 成長 11.4%，較前兩季 5.3%和 7.1%進一步提升，主要受惠 1P+3P 雙引擎策略奏效，及有購會員 YoY+5.2%。營業毛利率 9.2%，較去年同期提升 0.3 個百分點；take rate 13.5%和營業利益率 2.7%皆較去年微幅提升。營業利益 7.2 億元(YoY+11.1%)，獲利成長幅度超越營收；單季 EPS 2.21 元。管理層表示，獲利提升來自 3P、廣告與物流效率帶來的長期結構性改善，而非一次性因素。展望 4Q26，迎來雙 11 與雙 12 傳統電商旺季，管理層對整體營運表現抱持樂觀態度。

持續深化 mo 店+與廣告業務發展：公司營運聚焦於 1P 直營+3P 平台的雙軌策略與廣告變現。3P 業務維持雙位數年增，管理層表示 momo 在 3P 長尾市場屬後進者，目前市佔不大，仍有成長空間，未來將持續擴充休閒食品、流行精品及居家生活品類的供給，滿足一站購足需求；此外 3P 對整體毛利率和 take rate 無負面影響，參考國外 1P 業者跨足 3P 案例，對整體獲利亦有助益。廣告業務 momo Ads 方面，公司善用第一方消費數據，提供品牌精準廣告投放，3Q26 廣告收入維持雙位數增長，開拓高毛利的核心電商(EC)外收益，驅動中長期營運向上。

升級訂閱制強化會員黏著度，完善物流網絡優化營運效率：面對國內電商市場擺脫純價格戰、轉向服務力競爭，公司持續深化會員經營與物流基礎建設。訂閱制(moPro)推出兩年成效顯著，數據顯示會員加入後有效帶動回購並顯著增加消費額；11 月更進一步推出年繳 299 元新方案，雖需補貼成本，但長期可帶動消費頻次與廣告流量，達成雙贏。倉儲物流方面，momo 以北中南物流中心(中部預計 2027 年完工)與區域倉儲形成完整配送網絡，目前自有物流配送比重已達 50%，未來將持續優化履約能力與配送效率，提升售後服務體驗。

國內電商競爭態勢雖有好轉，但整體環境仍具挑戰；惟看好在 3P 與廣告業務帶動下，富邦媒營運將持續回溫。評價部分，略為下調本益比至 22.5 倍，以 2027 年預估 EPS 計算，目標價 250 元，維持增加持股評等。**風險因子：**電商競爭、物流中心折舊、整體消費動能。

全球生成式 AI 模型開發商 Anthropic(ANT US)上市前瞻

企業需求帶動營收高成長，算力成本考驗高估值

報告日期：2026.11.9　　研究員：吳俞潔

10 月 26 日 Anthropic(ANT US)向美國 SEC 提交 IPO 申請，11 月 2 日更新第三季財報，市場預期公司將於 11 月底前上市，估值達 1.5 至 2 兆。Anthropic 旗下 Claude 主要應用於企業 AI、軟體開發及 Agent 工作流程，受惠 Claude Code 及企業 API 需求快速成長，26Q3 營收達 169.6 億(季增 47%)，2026 年前三季累計營收 332 億。目前普遍預估公司 2026 年營收有望達 580 億，若以 Palantir 做為高成長的企業 AI 軟體作為基準，Anthropic 也受惠企業 AI 支出增加，營收增速高於 Palantir，但未來大量算力成本以及現金流穩定度不如成熟軟體公司，對應 27 至 30 倍 Forward P/S，Anthropic IPO 估值達 1.6 至 1.8 兆，引發讓市場對企業 AI 商業化及模型公司估值的想像空間。

不過，兆豐認為 Anthropic 雖然已經證明企業願意為 AI 模型付費，但目前 1.6 至 1.8 兆估值已經提前反應未來數年營收維持高速成長，以及算力成本持續改善的預期。公司 26Q3 營收季增 47%，但因算力及基礎設施費用季增 77%，導致營益率由上季 19%降至 15%，顯示收入增加並未帶來相同比例的獲利成長。另外，公司已經簽訂 8,954 億的長期算力承諾，未來仍然需要擴大 Token 需求才能支撐相關支出，考量企業 AI 需求持續成長，但模型價格競爭及算力成本有壓縮利潤率風險，因此兆豐目前對 Anthropic 的 IPO 估值持中性看待。

Claude Code 帶動企業 AI 需求，Anthropic 收入主要來自 Token 用量

Anthropic 成立於 2021 年，由前 OpenAI 研究人員 Dario Amodei 創立，主要開發 Claude 系列 AI 模型，透過 Claude 訂閱服務、企業 API 及 Claude Code 產品取得收入。相比傳統 SaaS 以固定訂閱費用為主，Anthropic 80%營收來自 Token 使用量計價，訂閱收入占 20%，企業可以透過 AWS、Google Cloud 的雲端平台採購 Claude 服務，CSP 客戶占公司收入 48%，這種模式使得 Anthropic 能隨著企業 AI 使用量增加而擴大收入，但也導致營收受到 Token 價格及企業使用量變動影響。

受惠 Claude Code 及企業 API 需求成長，過去 12 個月支出超過 10 萬的客戶達 11,900 家，其中超過 1,900 家年支出超過 100 萬，250 家超過 1,000

評等分級：買進（預期未來六個月股價漲幅超過+30%）；逢低買進（預期未來六個月股價漲幅介於+15%與+30%之間）；區間操作（預期未來六個月股價漲跌幅介於-15%與+15%之間）；逢高賣出（預期未來六個月股價跌幅介於-15%與-30%之間）；賣出（預期未來六個月股價跌幅超過-30%）。

106.4.14 版

萬，企業 AI 支出正轉向更大規模的付費使用，也帶動 Anthropic 營收快速成長。

估值達 1.8 兆，Token 價格決定高成長能否持續

Anthropic 2026 年前三季營收達 332 億(年增 12 倍)，26Q3 營收 170 億(季增 47%)，但相比 Q2 季增 144%成長大幅放緩。目前普遍預估公司 2026 年營收達 580 億，若以 Palantir 作為高成長企業 AI 軟體的估值參考，合理倍數落在 27 至 30 倍 Forward P/S，對應 IPO 估值 1.6 至 1.8 兆，兆豐認為雖然 Anthropic 營收成長的確遠高於多數軟體公司，Claude Code 及企業 API 的高需求也支持未來營收持續擴張，但但模型訓練及推論需要持續投入大量算力，獲利率及現金流穩定度不如成熟軟體公司，以 2026 年 580 億營收估算，隱含 28 至 31 倍 Forward P/S，反應了市場不只預期公司維持高成長，也預期未來利潤率能隨著規模擴大而改善。

Anthropic 80%收入來自 Token 用量計價，未來營收不只取決於企業使用量，也包含模型能否維持目前的高階定價，外資 8 月調查 100 名歐美大型企業 AI 預算決策者，92%預期未來 12 個月 Token 預算增加，但若 Token 價格上漲 50%，84%企業會優化使用或轉換其他模型，若價格下降 50%，86%企業則願意增加使用量，反應企業 AI 需求仍有成長空間，但客戶對價格相當敏感，尤其開放權重模型及低成本模型持續改善，企業有機會將部分工作轉向更為便宜的模型，即使整體 Token 使用量增加，但開放權重和低成本模型競爭，Anthropic 面臨單價競爭導致營收增速放緩的風險，因此兆豐認為目前 1.6 至 1.8 兆估值已經反應 Anthropic 長期維持高成長及較高 Token 價格的預期，但如果模型競爭加劇，導致價格下降速度超過增加的使用量，將有估值下修風險。

接近 9,000 億的算力承諾，收入成長未必同步轉為獲利

Anthropic 為了支撐 Claude 模型訓練及企業推論需求，持續擴大與 Amazon、Google、Microsoft 及其他 AI 基礎設施供應商的合作，並且透過 Nvidia GPU、Google TPU 及 AWS Trainium 分散算力來源，Anthropic 目前即時可用算力達 2.7GW，與 OpenAI 的 3.2GW 差距縮小，近期再透過 Nscale、Lambda 及 SpaceX 取得 1.1GW 的新增算力協議。不過，算力擴張也帶來龐大的長期採購支出，Anthropic 已經簽訂 8,954 億的長期算力承諾，其中 4,475 億預計在 2030 年底前兌現，未來 12 個月到期的承諾達 698 億，合約有最低採購要求，即使未來需求不如預期，公司仍然需要負擔相關成本。

從財務表現來看，Anthropic 26Q3 營收季增 47%，但算力及基礎設施費用季增 77%，營益率也由 19%下降至 15%，顯示新增收入並未帶來相同比例的獲利成長，雖然公司提到部分成本增加來自短期高價算力採購，未來隨著長期合約及專用資料中心陸續上線，單位算力成本有機會下降，但兆豐認為即使採購成本改善，也不代表利潤率一定回升，主要因 Anthropic 提前承諾大規模算力支出，但未來 Token 收入仍然取決於企業實際使用量及模型定價，

評等分級：買進（預期未來六個月股價漲幅超過+30%）；逢低買進（預期未來六個月股價漲幅介於+15%與+30%之間）；區間操作（預期未來六個月股價漲跌幅介於-15%與+15%之間）；逢高賣出（預期未來六個月股價跌幅介於-15%與-30%之間）；賣出（預期未來六個月股價跌幅超過-30%）。

106.4.14 版

若新增算力無法帶來足夠的 Token 收入，固定採購成本將壓縮獲利及現金流。因此兆豐認為 Anthropic 目前估值不只反應營收持續高成長，也隱含未來算力成本下降能帶動利潤率改善，但考量 26Q3 營收增速大幅放緩，營益率下滑、未來長期算力採購承諾龐大，以及 Token 需求成長無法抵銷模型降價及新增算力成本，將壓縮利潤率，不足以支撐更高的高成長成熟企業 AI 軟體公司估值，因此兆豐對 1.6 至 1.8 兆的 IPO 估值持中性看待

美國首家純人型機器人公司 Agility Robotics(AGLT US)上市看法

商業化前景可期，高評價難掩獲利風險

報告日期：2026.11.9　　研究員：吳俞潔

11 月 5 日美國首家純人形機器人公司 Agility Robotics（AGLT US）掛牌上市，公司透過與特殊目的收購公司 Churchill Capital（CCXI US）合併上市，上市前股權估值達 25 億。Agility 旗下 Digit 人形機器人已經投入 GXO、Schaeffler 及 Toyota 的實際作業，累積超過 6.5 萬小時運作經驗，新一代 Digit 5 也取得超過 3 億的多年期訂單，並且鴻海領投 2 億 PIPE 融資，Nvidia 則提供 Digit 5 所需的 IGX Thor 運算平台及資安技術，市場看好 Agility 有機會率先實現人形機器人大規模商業化，因此這次上市及相關融資募得 4.65 億，也讓市場開始關注人形機器人由技術展示轉向商業化後的成長空間。

不過，兆豐認為 Agility 雖然率先將人形機器人導入外部企業客戶的實際作業，並且取得多年期訂單，但目前營收規模非常有限，26H1 營收僅 17.4 萬(年減 72%)，營業虧損則達 3.63 億，而且超過 3 億訂單為跨年度承諾，須符合產品規格及交付條件才能如期轉化為實際營收。以 25 億上市前股權估值來看，市場已經提前反映未來數年大規模部署的成長空間，但 Digit 5 預計 27H1 才開始交付早期客戶，2027 年底才全面上市，現階段難確認實際出貨速度、單台成本、服務合約現金回收期及長期獲利能力，因此兆豐目前對 Agility Robotics（AGLT US）持中性看待。

Agility 搶先特斯拉取得商業客戶，人形機器人開始進入實際工作場域

Agility 成立於 2015 年，主要開發應用於物流、製造及倉儲的人形機器人 Digit，相較特斯拉 Optimus 以通用型人形機器人及大規模生產為發展方向，Agility 搶先切入物流搬運、物料處理相關重複性高的工業作業，利用人形機器人能適應既有廠房及倉儲環境的特性，降低企業重新設計工作場域的需求。並且採用機器人即服務(RaaS)模式，透過長期合約提供 Digit 及配套的維護服務，並且搭配 Agility Arc 軟體管理機器人運作，讓企業客戶不必一次負擔全部設備採購成本，也讓 Agility 有機會隨著客戶部署數量增加，取得持續性的服務收入。

目前 Agility 已經和 GXO、Schaeffler 及 Toyota 的加拿大製造工廠合作，GXO 於 2024 年在美國物流中心正式部署 Digit，近期再宣布 2027 年初擴大至另外兩座物流中心，Toyota 則簽署 RaaS 商業協議以及農業器具公司愛科的商業試點合約。相比之下，特斯拉在這季宣布 Optimus 於佛利蒙廠產線開

評等分級：買進（預期未來六個月股價漲幅超過+30%）；逢低買進（預期未來六個月股價漲幅介於+15%與+30%之間）；區間操作（預期未來六個月股價漲跌幅介於-15%與+15%之間）；逢高賣出（預期未來六個月股價跌幅介於-15%與-30%之間）；賣出（預期未來六個月股價跌幅超過-30%）。

本刊所刊載之內容僅做為參考，惟已力求正確與完整，但因時間及市場客觀因素改變所造成產業、市場或個股之相關條件改變，投資人需自行考量投資之需求與風險，本公司恕不負擔任何法律責任。任何轉載或引用本報告內容必須經本公司同意。

106.4.14 版

始生產，但處於初期量產階段，因此 Agility 目前的優勢在於已經取得企業付費使用經驗，並能利用實際作業資料改善產品性能，不過客戶從測試轉向正式採購需要時間，目前已經正式部署的客戶數量及規模也相當有限。

3 億訂單提高成長能見度，但 25 億估值已經提前反映量產規模

Agility 在上市前取得超過 3 億的 Digit 5 多年期訂單，主要來自單一客戶 1,000 台機器人及三年期 RaaS 合約，以 3 億及 1,000 台估算，平均每台對應三年合約價值 30 萬，年化 10 萬(包含服務期間的合約價值)。Digit 5 預計 27H1 開始交付早期客戶，2027 年底全面上市，因此未來營收取決於實際交付數量及合約履行進度，短期難以直接反映在財報。

公司於美國奧勒岡州建置 RoboFab 工廠，設計年產能最高達 1 萬台，並計劃在 2027 年底前將潛在客戶由 30 多家提高至 100 家，承諾部署的客戶據點由 9 處增加至 25 處。不過，目前 1 萬台僅為工廠充分運作後的設計年產能，並非實際出貨量，而 30 多家潛在客戶也尚未全部轉化為正式訂單，現有超過 3 億訂單集中在單一客戶，未來能否取得其他大型客戶，並且將測試計畫轉為客戶正式部署，將直接影響產能利用率及營收成長速度。

兆豐認為目前市場對 Agility 的期待，主要來自人形機器人有機會取代部分勞力密集工作，以及公司率先取得外部商業訂單。不過，公司 2025 年全年營收僅 178 萬，26H1 更降至 17.4 萬，以上市前 25 億股權估值對應 2025 年營收 178 萬，P/S 高達 1,404 倍，目前估值提前大幅反映了未來數年營收成長，雖然公司取得超過 3 億的多年期訂單，但集中於單一客戶，Digit 5 預計 2027 年才開始擴大交付，對於現階段 Agility 來說，高評價必須仰賴未來訂單持續增加及量產進度符合預期，若 2027 年出貨或客戶拓展不如預期，將有大幅下修空間。

量產及營運成本高，人形機器人商業化效益有待驗證

雖然 Agility 已經開始在工廠及物流中心實際部署 Digit，但兆豐認為人形機器人能否大規模商業化，關鍵在於使用成本是否低於現有人力或傳統自動化設備，目前工業自動化已有機械手臂、無人搬運車及自主移動機器人相關成熟方案，因此部分固定、重複性高的工作不一定需要透過人形機器人執行。Agility 必須證明 Digit 除了能適應既有工作環境，也能透過長時間穩定運作及較低的維護成本，為企業帶來足夠的經濟效益，才能提高客戶採購意願。

從公司本身來看，RaaS 雖然能降低客戶初期導入門檻，但 Agility 必須先負擔機器人製造及部署成本，再透過後服務合約逐步回收資金。根據公司上市材料提到，Digit 初期單台材料成本 15 萬，隨著年產量達 1,000 台/ 1 萬台，成本分別有機會降至 7.5 萬/ 3 萬，但這些仍然是公司假設，實際達成取決於產能利用率、零組件成本及製造效率。

Agility 認列 26H1 營收僅 17.4 萬(年減 72%)，營業虧損達 3.63 億，而且超過 3 億訂單為跨年度承諾，須符合產品規格及交付條件才能如期轉化為實際營收。以 25 億上市前股權估值來看，市場已經提前反映未來數年大規模部署

評等分級：買進（預期未來六個月股價漲幅超過+30%）；逢低買進（預期未來六個月股價漲幅介於+15%與+30%之間）；區間操作（預期未來六個月股價漲跌幅介於-15%與+15%之間）；逢高賣出（預期未來六個月股價跌幅介於-15%與-30%之間）；賣出（預期未來六個月股價跌幅超過-30%）。

電子下游硬體產業專題

供電與散熱：AI算力的效率革命

科技產業組 陳威仲

2026年11月9日

簡報大綱

- 結論
- AI算力需求與AIDC建置瓶頸
- SOFC現地供電與台廠供應鏈
- 液冷系統擴張與AIDC效率升級
- 結論
- 推薦個股

結論

- **AI算力需求推升資料中心擴建，電力與散熱成為建置瓶頸**

  2030年AI Workload容量上看156GW(CAGR 28.8%)；電網補強需3~5年，機房建置僅需1~2年。

- **接電時程落差推升現地供電需求，SOFC取得大型AIDC訂單**

  Oracle、Nebius、AEP/Google相繼採用BE燃料電池；2030年SOFC市場機會約22GW，資料中心占49%。

- **液冷由晶片延伸至整機與電源，規格與價值量同步升級**

  Rubin世代全面液冷，CDU放大至2.3~3MW；800VDC電源櫃液冷化，快接頭升級至大口徑與ZQD。

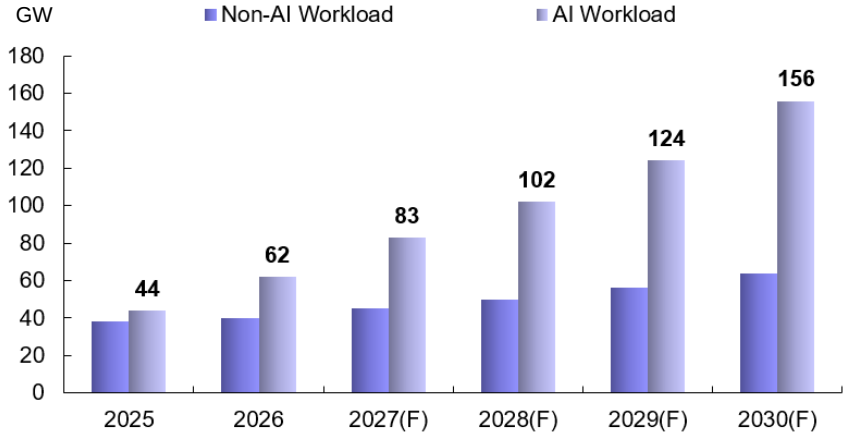
- **看好液冷冷板、快接頭與SOFC關鍵零組件供應鏈**

  奇鋐(3017)、富世達(6805)受惠液冷規格升級；高力(8996)切入SOFC供應鏈，宏致(3605)列入觀察。

AI 算力需求推升科技業者資本支出，帶動資料中心長期擴建

- **預估全球AI Workload容量需求將由2025年44GW成長至2030年156GW，CAGR達28.8%，五年新增112GW。顯示AI算力需求將持續帶動資料中心建置及相關基礎設施投資。**
- **預估北美主要雲端與科技業者(CSP)資本支出將由2025年4,450億美元成長至2028年1.15兆美元，CAGR達37.2%。隨CSP持續投入算力擴建，將帶動AI伺服器、機櫃、電力及散熱等基礎設施需求，支撐相關供應鏈中長期成長動能。**

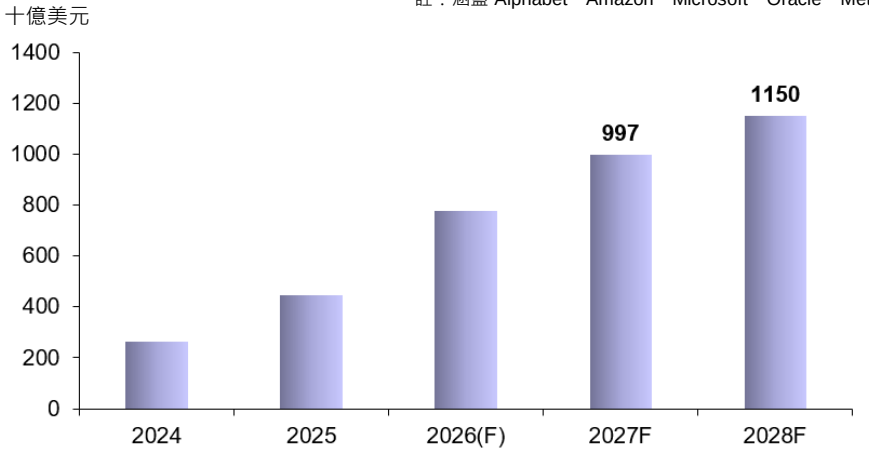
AI算力需求驅動資料中心擴建，2030年AI Workload容量上看156GW



資料來源：McKinsey & Company、兆豐投顧整理

CSP資本支出加速擴張，2028年規模上看1.15兆美元

註：涵蓋 Alphabet、Amazon、Microsoft、Oracle、Meta

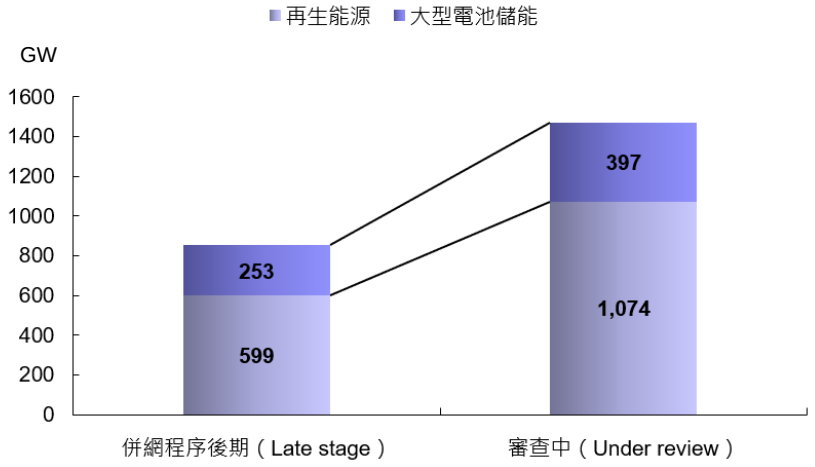


資料來源：兆豐投顧預估及整理

AIDC 擴建推升用電規模與機櫃密度，供電及散熱能力影響建置進度

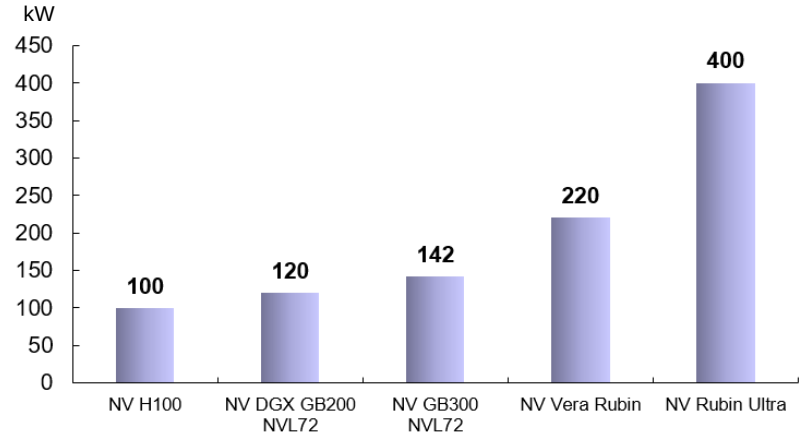
- 電網擴建與資料中心建置存在時程落差，電力取得速度成為AIDC擴張的重要限制。IEA指出，新建電網從規劃、許可至完工可能需5–15年，資料中心建置則約1–3年。
- AI運算朝高密度系統整合，配電與液冷升級需求涵蓋GPU及CSP自研ASIC。除NVIDIA GB200 / GB300外，Google TPU 8t / 8i採第四代液冷，AWS Trainium3 Teton3 MAX採冷板液冷架構，AMD Helios亦已有支援最高246kW雙寬機櫃的合作參考設計，系統驗證與量產交付能力將成為AIDC建置之關鍵。

全球再生能源與大型儲能併網排隊規模逾2,300 GW



資料來源：IEA、兆豐投顧整理

高密度GPU與ASIC機櫃功率上升將持續推動配電及液冷升級



資料來源：兆豐投顧預估及彙整

電網補強與機房建置存在時程落差，提升AIDC現地供電需求

- **AIDC擴張需同步取得發電供應、輸配電容量及場址受電能力，任一環節受限，皆可能影響機房投運時程。隨單一場址用電規模擴大，部分專案需新增變電站、饋線及相關設備，供電進度因而受到重電設備交期拉長、區域電網併網與饋線容量不足、熱損耗與轉換效率等因素影響。**
- **NLR指出，美國資料中心建置與負載爬坡通常約需12–24個月，公用事業電網補強則常需3–5年。我們認為，兩者的時程落差將提高業者評估分階段供電及現地發電的意願，並為燃料電池與燃氣機組等方案創造導入機會；實際效益仍須綜合評估燃料、許可、可靠度與完整供電成本。**

AIDC供電涉及多個環節，場址接電能力影響投運時程

接電審查與工程協調

系統影響評估、工程分工、費用分攤與許可程序

資料來源：DOE、NLR(2026/05)、兆豐投顧整理；本圖為供電路徑示意圖

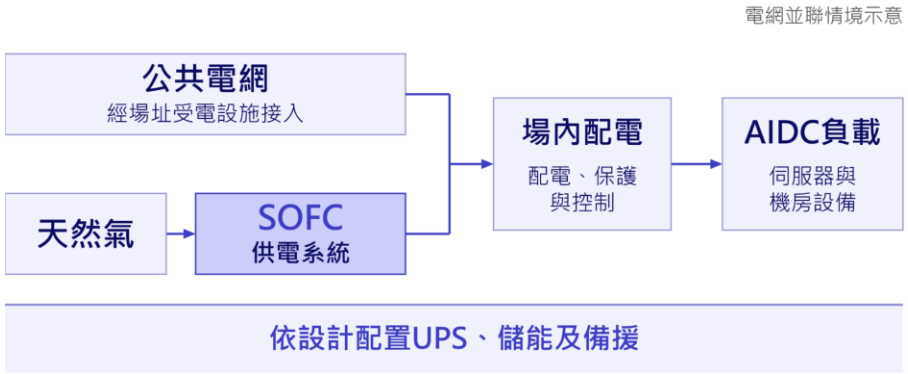
接電時程落差推升現地供電需求，SOFC提供模組化連續供電選項

- 當電網補強時程無法配合機房投運，業者可評估現地發電，搭配分階段送電與儲能等方式銜接供電需求。方案選擇須綜合考量連續供電能力、燃料供應、建置條件與可靠度要求。
- **Bloom Energy採用固態氧化物燃料電池(SOFC)，透過電化學反應將燃料轉換為電力，可依需求配置模組，提供持續性現地電源。其應用可涵蓋與電網並聯或微電網架構，實際部署仍須配合燃料、許可及場內電力系統設計。**

現地發電增加機房供電來源



註：本圖簡化供電路徑，電力轉換、UPS、儲能與備援配置依案場設計

資料來源：Bloom Energy、兆豐投顧整理

現地發電與儲能方案比較

方案	主要功能	選用時的評估重點
電池儲能	電力銜接 與功率調節	儲能量體、輸出功率及充電來源
柴油發電機	停電備援 依額定選擇運轉用途	燃料補給、設備額定及適用許可
燃氣渦輪	可配置為 持續發電來源	天然氣供應與工程、運轉條件
SOFC燃料電池	模組化配置 持續發電	燃料供應、高溫啟停及電堆維護

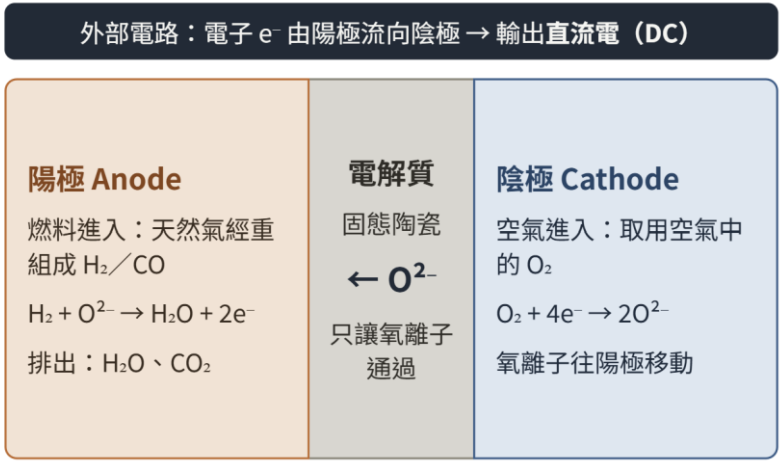
註：實際用途依額定與案場設計；天然氣SOFC仍有CO2排放

資料來源：DOE、Cummins、Caterpillar、BE、兆豐投顧整理

SOFC以電化學反應直接發電，模組化整合支援資料中心現地供電

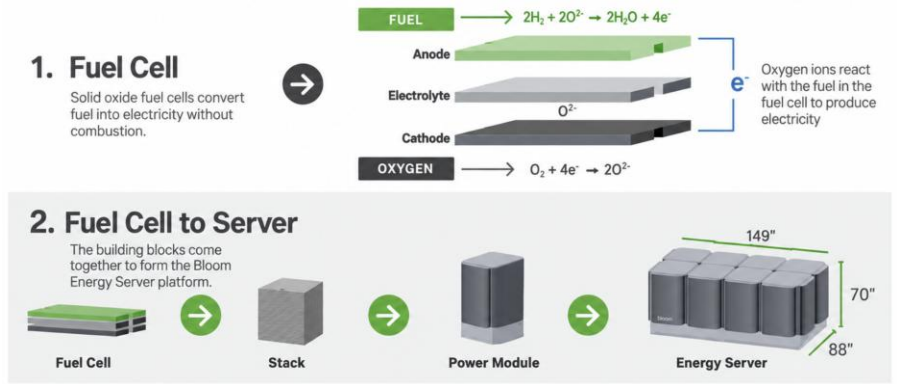
- **BE採固態氧化物燃料電池(SOFC)，氧離子穿過固態電解質與燃料進行電化學反應直接發電，電子經外部迴路流動，形成直流電，不經燃燒，電效率達 53–65%。SOFC由多片電池組成電堆，再整合為發電模組，搭配燃料處理、空氣供應、熱管理與電力轉換設備，形成完整供電系統。**
- **一座1GW的資料中心採用濕式冷卻燃氣渦輪機聯合循環發電系統，在其使用壽命期間，大約會消耗250億加侖的水；但若是用燃料電池僅需140萬加侖。**

氧離子穿越陶瓷電解質，電子經外部迴路形成電力



資料來源：IEA、兆豐投顧整理

電池片逐級整合為電堆、發電模組與供電系統

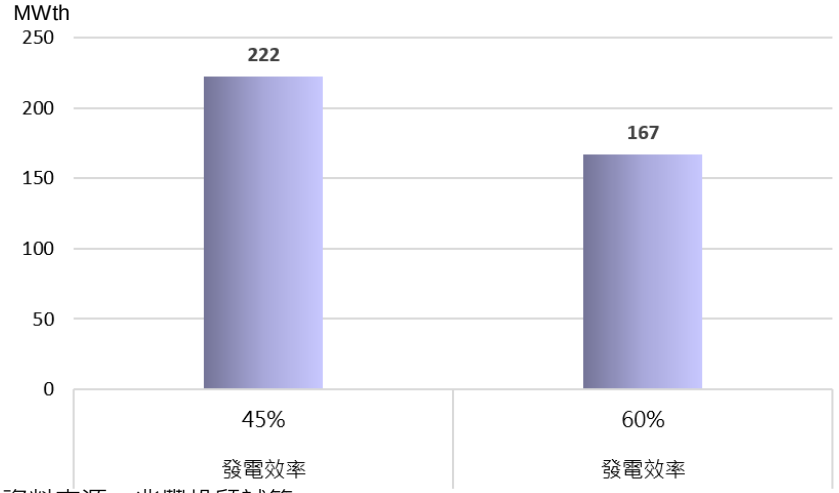


資料來源：AEP、兆豐投顧整理

發電效率與部署條件，決定SOFC在AIDC的採用機會

- **AIDC持續運轉將累積大量燃料支出，提高發電效率可降低相同電力輸出所需的天然氣量。SOFC具高效率發電特性，其經濟價值須結合燃料價格、使用時數及維護成本評估。**
- **SOFC、燃氣引擎與燃氣渦輪各有部署及運轉條件。業主須共同評估設備交付、場址工程、燃氣供應、排放許可及維運需求，才能判斷適合的現地供電方案。**

相同電力輸出下，提高效率可降低燃料需求



資料來源：兆豐投顧試算

現地供電方案須兼顧效率、擴建與運轉維護

比較面向	SOFC	燃氣引擎	燃氣渦輪
發電方式	電化學反應	引擎驅動發電機	燃燒氣體驅動渦輪
擴建方式	多個模組組合	多台機組並聯	部分產品採預組模組
運轉與維護	高溫啟停、電堆維護	保養與大修	啟停調度、定檢與大修
排放評估	局部空氣汙染，天然氣仍排放CO2	評估燃燒排放與設備處理	須評估燃燒排放與處理設備

資料來源：DOE、GE、Caterpillar、BE、兆豐投顧整理

註：假設電力輸出100MW，發電效率分別為45%與60%，均採LHV基準。僅比較燃料需求，不含設備、維護及融資成本。

註：以原廠代表性產品說明技術特性，實際性能、交付與維護條件依機型及案場而異。

政策支援燃料電池投資，木星計畫燃氣與許可牽動落地時程

- **木星計畫位於美國新墨西哥州，為Oracle支援OpenAI Stargate建置的AI資料中心園區。Oracle於2026年4月宣布，規劃採用最高2.45GW的Bloom Energy燃料電池裝置容量，取代原先燃氣輪機與柴油發電機方案，展現對SOFC現地供電的需求。**
- **木星計畫的SOFC方案仍以天然氣供應為前提，燃氣接入與空氣品質許可均影響建置進度。州土地辦公室7月維持拒發特定管線通行權等申請，Oracle於10月另提出微電網設計補件，顯示大型專案須同步協調設備建置、燃料供應與案場許可。**

美國 OBBBA 將合格燃料電池納入 Section 48E 投資稅額抵減

項目	內容
適用制度	Section 48E 合格燃料電池專屬條款
抵減比例	合格投資基礎金額 x 30%
排放條件	專屬條款排除一般設施的溫室氣體排放資格門檻
加成限制	此項30%比例不得疊加其他加成

資料來源：GPO、兆豐投顧整理

甲骨文木星計劃微電網建置須經許可審查與方案調整

天然氣接入與空氣許可須配合案場建置進度

大型AIDC合作案擴大，BE交付與擴產節奏成為供應鏈觀察重點

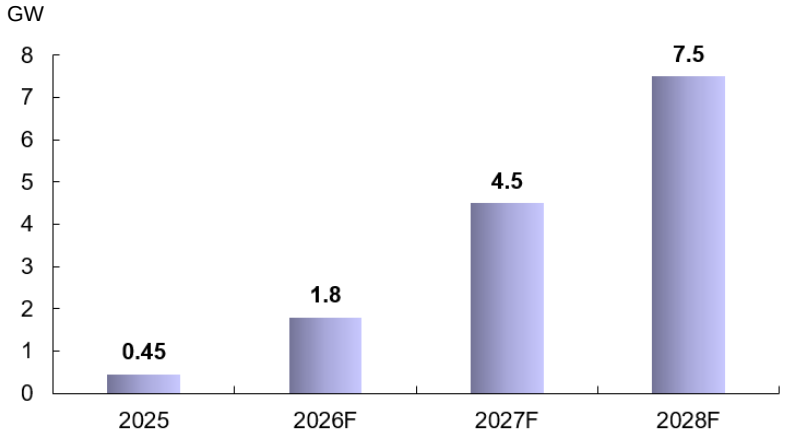
- **Oracle、Nebius等業者已公告採用BE燃料電池，顯示SOFC已取得大型AIDC商業合作。評估需求規模時，須分別辨識合作上限、已簽約容量及實際部署進度。**
- **機組製造、場址工程與許可程序須共同推進。供應鏈需求應依BE製造擴產、設備出貨及案場交付節奏追蹤，並將融資合作框架與設備訂單分開評估。**

BE大型合作案涵蓋設備採購、供電服務與專案融資

合作對象	公開規模	合約性質與進度
Oracle (2026/04)	合作上限2.8GW，其中首期1.2GW已簽約	依該次公告，部署已展開並持續至2027年
Nebius (2026/05)	328MW裝機容量、約250MW保證供電容量	分三期供電，各期供電期間10年
Brookfield (2026/06)	融資框架擴大至250億美元	支援AI基礎建設電力專案，屬融資合作框架
AEP/Google (2026/10)	AEP於2026/10/14公告規畫 702MW BE電廠。	Google簽訂 20年購電協議。預計2026年開工、2028年底全面運轉

資料來源：Bloom Energy、Nebius、Oracle及SEC申報，兆豐投顧整理

BE製造產能隨現地供電需求擴張，2027年起每年增加逾2GW



資料來源：Bloom Energy 2026年股東會文件，兆豐投顧預估及整理

SOFC擴建帶動高溫熱管理與電力線纜需求，台廠切入不同供應環節

- 依Ceres基於BNEF資料之分析，2030年全球SOFC市場機會約22GW，其中資料中心應用占49%(約10.8GW)，為最大單一應用市場。隨AI資料中心擴建與供電需求提升，資料中心可望成為SOFC商業化的重要需求來源，帶動高溫熱管理與電力零組件的應用機會。
- SOFC系統需要高溫熱交換、電力轉換與系統配線等零組件。高力提供熱反應器、複熱器等高溫熱管理關鍵零組件；宏致則供應高溫反應模組耐高溫電纜、電力控制與轉換模組內電纜，以及系統管理與電力傳輸線纜。

Ceres預估2030年全球SOFC市場機會達22GW，其中資料中心占49%

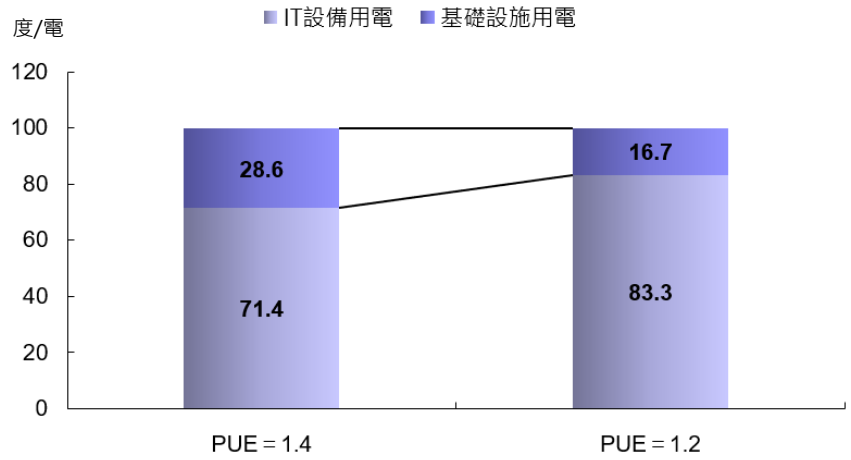
供電與液冷協同升級，支撐AIDC算力密度與能源效率提升

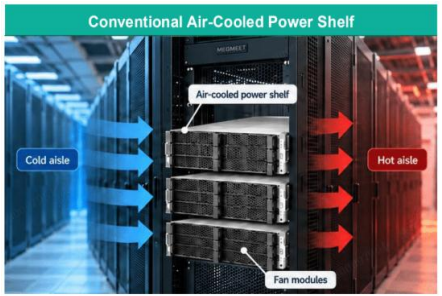
- 在總供電及機房空間受限下，AIDC須兼顧能源與空間使用效率。降低冷卻與配電等基礎設施耗能，可在相同總用電條件下提高IT設備用電占比；評估整體效益時，除PUE外，仍須觀察單位運算耗電及單位面積算力。
- 液冷透過冷板、分歧管與CDU將熱帶至設施端，高壓直流與Power sidecar則調整供電及設備配置。隨散熱需求延伸至電源模組，供電與冷卻系統須協同設計，兼顧電力轉換、散熱耗能及部署密度。而電源模組採用液冷，全新的水冷資料中心機房即不再需要傳統的冷熱通道(Hot/Cold Aisle)與大型空調系統，基礎設施CAPEX預估可節省高達10%。

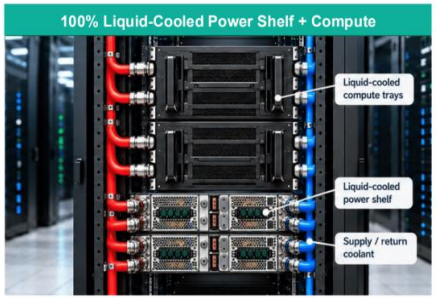
相同總用電下，降低基礎設施耗能可提高IT用電占比



資料來源：DOE、兆豐投顧試算

運算與電源同步液冷，降低對機房氣流散熱的依賴





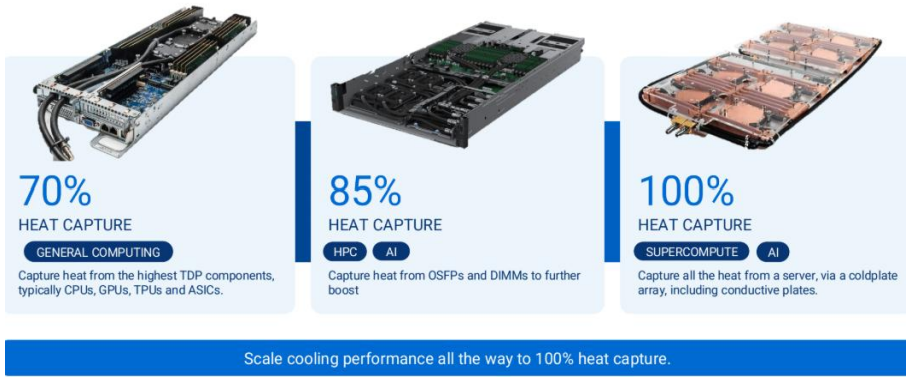
資料來源：NVIDIA、MEGMEET、兆豐投顧整理

註：依PUE定義進行情境試算，非特定液冷方案實測結果。IT設備用電包含伺服器內部風扇等耗電，不等同晶片運算用電。

熱捕捉範圍擴大，液冷設計由主晶片延伸至整機架構

- 除CPU、GPU、TPU及ASIC等主要熱源外，液冷進一步涵蓋DIMM、OSFP光模組與板級元件，透過冷板及導熱板提高液體帶走熱量的比例，降低對氣流散熱的依賴。
- 為支援不同熱源與機構配置，運算主板與整機伺服器之液冷解決方案多元化，包括冷板迴路式、混合式及整合式大冷板架構。我們認為，隨液冷涵蓋元件增加，流道與連接設計、模組組裝及可靠度驗證的重要性將提高，供應鏈機會亦由單顆冷板延伸至整機冷卻整合。

液冷涵蓋主晶片與周邊元件，熱捕捉比例最高達100%



資料來源：CoolIT、兆豐投顧整理

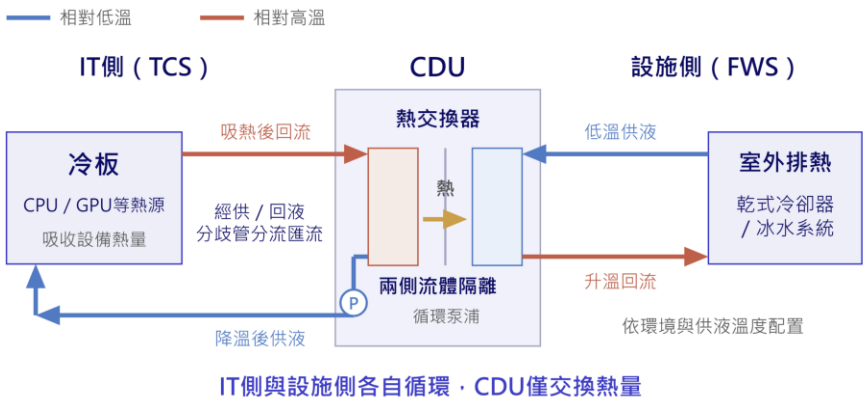
冷板迴路式、混合式與整合式架構支援不同整機配置

資料來源： CoolIT、兆豐投顧整理

CDU串接IT與設施冷卻迴路，承接液冷擴張後的排熱需求

- **隨液冷由CPU、GPU延伸至記憶體、光模組及板級元件，液體承擔的設備熱量增加；機櫃功率密度提高，更進一步推升液冷迴路的排熱需求。CDU串接IT側與設施側，透過熱交換器、循環泵浦與控制系統維持供液條件，其換熱能力與供液穩定性將成為高密度AIDC的重要設計環節。**
- **CDU升級除提高散熱容量，更須兼顧能源與空間使用效率。OCP 2026的2.3MW系統模擬研究顯示，在相同散熱負載下，比較方案間全年冷卻系統能耗差距約17%。**

冷板取熱、CDU換熱、設施端排熱，構成完整液冷迴路



IT側與設施側各自循環，CDU僅交換熱量

資料來源：Gamma Technologies、Alfa Laval、STULZ、兆豐投顧整理

相同2.3MW散熱負載之下，CDU選型仍牽動流量與全年能耗

比較項目	OCP研究結果
散熱負載	各方案均為2.3MW
設施側回水溫度	約34~39°C
設施側流量需求	約660~940 GPM
全年系統能耗	比較方案間差距17%

資料來源：Gamma Technologies、Alfa Laval、STULZ、兆豐投顧整理

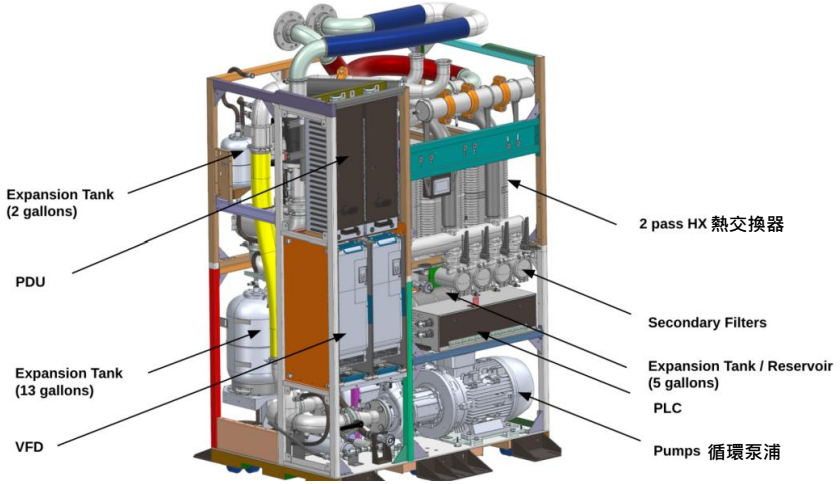
註：典型液對液CDU示意圖。紅、藍代表各迴路相對高低溫，非特定案場溫度。

註：以上為特定系統配置及美國達拉斯氣候條件下的模型比較；17%為方案間能耗差距，並非液冷普遍節電率。2.3MW為散熱負載，非設備耗電量。

Deschutes開放2MW級CDU設計，瞄準能源與空間效率提升

- **Google將第五代CDU設計Deschutes貢獻予OCP，提供高密度AI機房可採用的開放規格。其v1.0設計以2MW散熱容量、3°C接近溫差及IT側與設施側各500GPM流量為目標，透過三組雙流程熱交換器並聯，兼顧換熱表現與流阻，支撐高熱負載液冷部署。依規格本體尺寸換算，Deschutes占地約1.78平方公尺，散熱容量密度約1.12MW / 平方公尺；搭配N+1無軸封泵浦及溫度、壓力與流量監控，兼顧容量與供液可靠度。我們認為，CDU的競爭重點將涵蓋單位占地容量、低溫差換熱及泵浦耗能，須從整體冷卻系統評估其能源與空間效益。**

熱交換器、泵浦與控制整合等關鍵組件，支撐MW級CDU穩定運轉



資料來源：Google / OCP、兆豐投顧整理

2MW容量與3°C接近溫差，兼顧高熱負載與緊湊配置

設計指標	Deschutes v1.0規格
散熱負載	2MW
接近溫差(ATD)	3°C
IT側/設施側流量	各500GPM，約1,890LPM
本體寬x深	約1.66×1.07公尺
本體占比	約1.78平方公尺
本體散熱容量密度	約1.12MW / 平方公尺

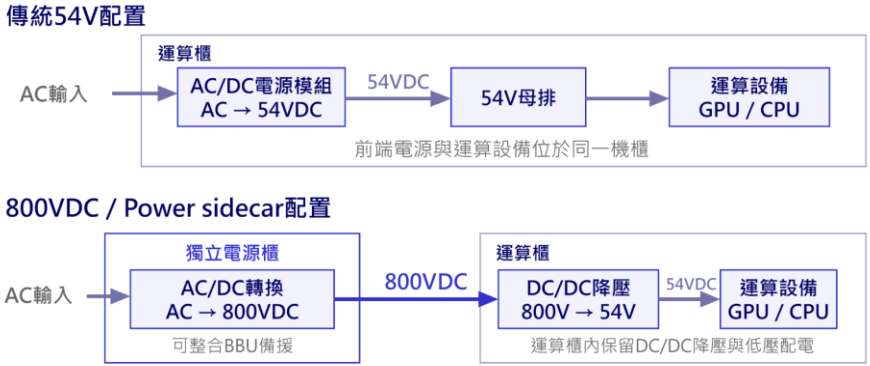
資料來源：兆豐投顧整理

註：占地與容量密度依規格尺寸換算，未含維修、通道及外部管路空間。以上為設計規格，非節電實測結果。

800VDC重整供電配置，液冷延伸至高密度電源櫃

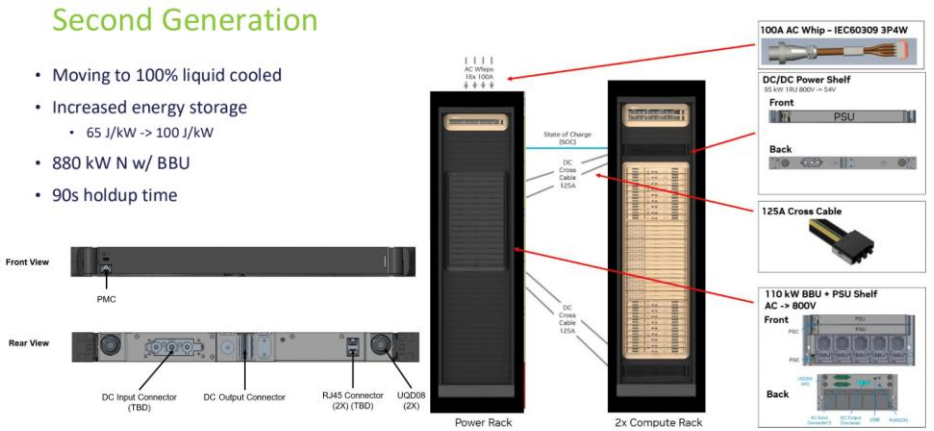
- **隨AIDC機櫃功率提高，低電壓供電面臨大電流、導體體積與電源設備占用空間等挑戰。Power sidecar將前端電力轉換與部分備援設備移至獨立電源櫃，再以800VDC送至運算櫃，並依架構於負載附近降壓；透過提高輸電電壓與調整設備配置，支援更高功率密度部署。**
- **NVIDIA第二代MGX Power Rack參考設計，朝100%液冷發展，並標示880kW供電能力(N配置、含BBU)及90秒備援供電時間。隨電力轉換與備援設備集中，液冷需求將進一步延伸至電源模組，使供電與散熱成為能源及空間效率升級的重要環節。**

前端電源移至獨立機櫃，800VDC支援高功率密度供電



資料來源：NVIDIA、MEGMEET、兆豐投顧整理

NVIDIA MGX第二代電源櫃朝全液冷發展，液冷散熱模組與零組件用量提升



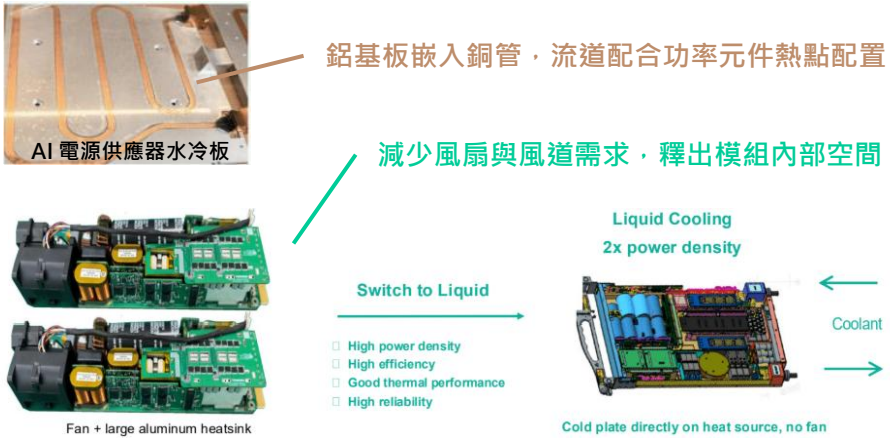
資料來源：NVIDIA、兆豐投顧整理

註：圖示為保留54V櫃內供電的過渡架構。整體空間效益須連同電源櫃占地評估。

液冷導入電源模組，推進功率密度與能源效率升級

- 電源模組導入液冷後，可透過冷板將功率元件的熱量帶至冷卻液，降低對風扇、大型散熱鰭片與風道的需求。相較風冷設計，液冷有助縮小散熱結構占用空間，並降低風扇耗電及元件工作溫度，使電源模組朝更高功率密度發展。
- MEGMEET於2026年10月OCP展示100kW、800V液冷AC/DC電源層，採2RU不含BBU設計，產品標示轉換效率逾98%；另展示1RU、95kW的800V轉54V液冷DC/DC電源層。我們認為，液冷應用延伸至整流與降壓環節，將擴大電源冷板、流道設計及模組整合的需求，提升水冷板、快接頭、滑軌、機殼與液冷busbar之需求量。

水冷板承接功率元件熱量，降低電源模組對風扇與風道的依賴



資料來源：NVIDIA、MEGMEET、兆豐投顧整理

液冷電源層涵蓋前端整流與櫃內降壓，支援緊湊供電配置

項目	100kW液冷 800V AC/DC Powershelf	95kW 液冷 54V DC/DC Powershelf
轉換功能	AC轉800VDC	800VDC轉54VDC
輸出功率	100kW	95kW
電源層密度	2RU，不含BBU (含BBU則為5RU)	1RU
產品示意圖		

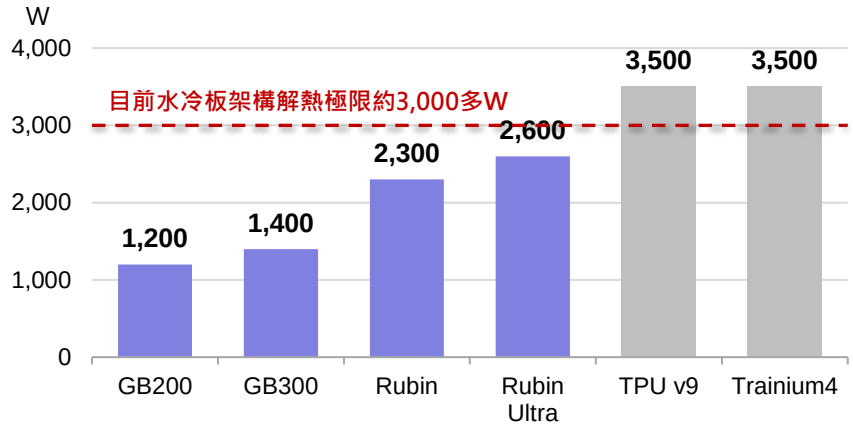
資料來源： MEGMEET、兆豐投顧整理

註：兩款產品用途與轉換級別不同。效率反映整體電源設計，液冷的個別貢獻須另行驗證；系統能耗仍須計入泵浦與設施側排熱。

晶片TDP與出貨量同步提升，水冷板技術與ASP仍具升級空間

- 晶片TDP逐代提升，NVIDIA由GB300的1.4kW增至Rubin 2.3kW、Rubin Ultra約2.6kW，TPU v9與Trainium4將達3~4kW。我們認為，至少至Rubin Ultra世代，3kW以內熱負載仍可由目前冷板架構解熱，並透過微通道、雙面水冷板(4→6kW)及鑽石銅等材料升級持續解熱。
- 我們預估AI晶片出貨量由2025年1,036萬顆增至2027年2,403萬顆(26/27年YoY+39%/+67%)，其中ASIC於2027年達1,333萬顆、占比由37%升至55%，超越GPU；出貨放量加上電源櫃與光模組導入液冷，水冷板用量與滲透率仍有提升空間。

TDP持續攀升，水冷板技術與ASP仍有升級空間



資料來源：兆豐投顧預估及整理

AI晶片出貨量預估，整體供應鏈於2027年仍供不應求

千顆	2025	2026(F)	2027(F)
NVIDIA GPU(Blackwell+Rubin)	5,650	6,300	9,000
AMD GPU	850	1,100	1,700
Google TPU	2,150	4,100	7,800
AWS Trainium	1,600	2,270	3,000
Meta MTIA	110	340	680
Microsoft Maia	0	100	350
其他ASIC	0	200	1,500
ASIC合計	3,860	7,010	13,330
AI晶片合計	10,360	14,410	24,030

資料來源：兆豐投顧預估及整理

註：目前水冷板架構極限約3,000多瓦，現行出貨晶片多未超過3,000瓦，而進入Feynman世代瓦數將達3,500~4,000瓦，須改架構。
Rubin Ultra以雙晶片版2.6kW計；TPU v9、Trainium4取3~4kW中值。

冷板與流體零組件升級，須兼顧散熱效能與系統耗電

- **晶片功耗提升推高冷板流量需求，惟CDU可供IT側使用的壓差有限(Deschutes規格為80~90psi)，冷板與快接頭須以更低壓降輸送更大流量。Rubin Ultra將導入內建球閥、提升流量的ZQD；我們認為，快接頭技術門檻由防漏延伸至大流量低壓降，帶動規格與單價升級。**
- **NVIDIA MGX第二代電源櫃全面液冷，以1座電源櫃搭配2座運算櫃為一組試算，每組新增26片電源冷板及52顆快接頭；惟兩段電源轉換熱損合計僅約供電量4%，增量以件數為主，價值量約為運算櫃快接頭的5%。**

電源設備液冷化：每組(1*電源櫃+2*運算櫃)零組件用量試算

項目	電源櫃 AC/DC	運算櫃內DC/DC(2櫃)	每組合計
電源層	8層×110kW	約10層×95kW	18層
電源冷板	16片	10片	26片
快接頭	UQD04*32	UQD08*20	52
熱負載(估)	約18kW	約17kW	約35kW
快接頭價值(估)	約USD$640	約USD$700	約USD$1,340

資料來源：NVIDIA、MEGMEET、產業訪談、兆豐投顧整理與預估

流量提升推動快接頭規格升級，Rubin Ultra每tray 10顆MQD改採ZQD

規格	主要應用位置	規格特性	單價(USD$)
MQD	運算tray晶片冷板	小口徑，單櫃用量最大	約20
UQD04	電源櫃AC/DC電源層	1/4"，最低Cv 0.8	約20
UQD08	浮動接頭、manifold、DC/DC電源層	1/2"，最低Cv 2.5	30~40
ZQD	Rubin Ultra運算tray、manifold	內建球閥，提升流量	高於UQD08
每運算tray	Rubin：20*MQD+2*UQD08	Rubin Ultra：12* MQD+10*ZQD	ASP上升

資料來源：OCP、NVIDIA、產業訪談、兆豐投顧整理與預估

註：依MGX參考設計880kW、N配置及滿載估算，未含備援、BBU及manifold端對插件；運算櫃快接頭以VR每櫃約450只及manifold 88只計。單價：MQD約US$20、UQD08約US$30~40；UQD04無實際報價，以小口徑QD均價估計；ZQD最終價格未定。熱負載以轉換效率約98%估算；AC/DC每層以880kW÷8層計。

每櫃液冷價值隨世代提升，水冷板與快接頭量價齊揚

- **Compute Tray為液冷價值主體：每層水冷板由VR200約1,500美元升至Rubin Ultra約2,000美元(可能導入雙面設計)；快接頭每tray維持22顆，惟Rubin Ultra晶片冷板快接頭改採ZQD(每tray 10顆)，Rack manifold對插件亦升級為ZQD，單價將明顯提升。**
- **單櫃水冷板與快接頭價值由GB300約4.5萬美元增至VR200約6.3萬美元；Rubin Ultra(VR300)則預估已達約9.5~12.4萬美元，較VR200高約50%~96%。另電源櫃(每組新增26片冷板、52顆快接頭)與液冷光模組(每模組4顆Mini QD)將帶來額外增量。**

NVIDIA各代機櫃液冷BOM：水冷板、快接頭與分歧管用量及價值量預估

位置	零組件	GB300 NVL72		VR200 NVL72		Vera Rubin Ultra NVL576	
		用量	單層(櫃)價值($USD)	用量	單層(櫃)價值($USD)	用量	單層(櫃)價值($USD)
Compute Tray	水冷板	6片	1,200	7片	1,500	5~7片	2,000
	快接頭	14顆	280	22顆	440	22顆	640
Switch Tray	水冷板	2片	400	5片	1,000	5片 +8~16片微型	3,000
	快接頭	2顆	40	6顆	120	10顆	200
機櫃	Rack Manifold	2	13,000	2	15,000	2	15,000
	Rack QD	88顆	1,760	88顆	3,080	88顆	3,520
單櫃水冷板與快接頭價值($USD)		45,360		63,080		94,840~123,640	

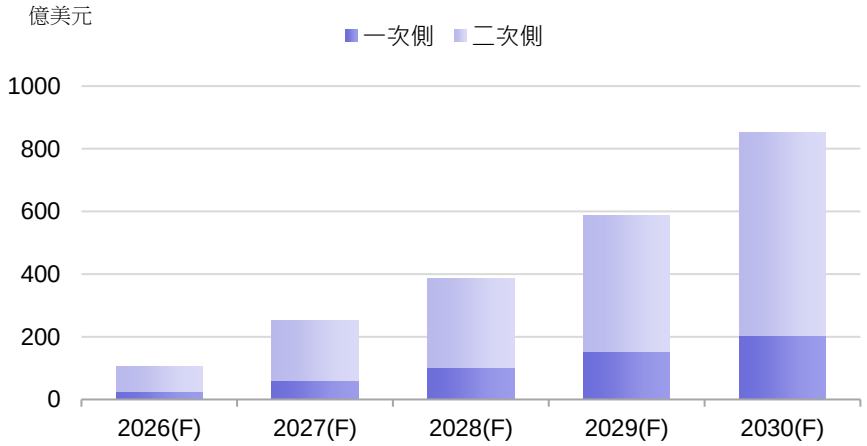
資料來源：產業訪談、兆豐投顧整理與預估

註：Vera Rubin Ultra機櫃設計仍在進行中，以現NVL72機櫃架構預估及設算，假設Compute tray 18層，Switch tray 則以9 or 18層計算，因此存在單櫃價值量之上下限。

液冷由晶片延伸至整機與電源，單櫃價值倍增帶動台廠受惠

- **液冷由CPU、GPU延伸至記憶體、光模組及電源設備，Rubin世代全面採用100%液冷，CDU容量放大至2.3~3MW。我們預估，單櫃液冷價值(含CDU)由約10萬美元倍增至約20萬美元，全球液冷市場將由2026年105億美元成長至2030年853億美元(CAGR約69%)。**
- **價值升級沿三條主線：CDU放大容量與泵浦冗餘、冷板導入雙面水冷與鑽石銅、快接頭朝大口徑低壓降及ZQD升級；電源櫃液冷則以件數貢獻增量。我們認為，冷板與快接頭兼具規格升級與用量成長，奇鋐、雙鴻、富世達最直接受惠。**

全球液冷市場2030年達853億美元，二次側占約7成5



資料來源：兆豐投顧預估

液冷各環節升級方向與單櫃價值量占比

環節	升級方向	價值占比 / 增量	受惠供應商
CDU	2MW級→2.3~3MW，N+1泵浦	占30~50%，最大環節	台達電、奇鋐、雙鴻
冷板	雙面水冷板(4→6kW)、升級鑽石銅	占25~30%；雙面冷板ASP達1.5~2倍	奇鋐、雙鴻
快接頭	UQD08→ZQD，大流量低壓降	占約20%；ZQD單價高於UQD08	富世達
分歧管	流量均衡、真空硬焊	占10~15%	奇鋐、雙鴻
電源設備	電源櫃與櫃內DC/DC全液冷	每組約增26片冷板、52顆快接頭	冷板、快接頭廠

資料來源：兆豐投顧預估及整理

註：價值占比為兆豐投顧估算之液冷二次側整體價值結構；CDU占比區間依型式而異。電源設備用量引用p19試算(1電源櫃+2運算櫃)。

結論

- **AI算力需求推升資料中心擴建，電力與散熱成為建置瓶頸**

  2030年AI Workload容量上看156GW(CAGR 28.8%)；電網補強需3~5年，機房建置僅需1~2年。

- **接電時程落差推升現地供電需求，SOFC取得大型AIDC訂單**

  Oracle、Nebius、AEP/Google相繼採用BE燃料電池；2030年SOFC市場機會約22GW，資料中心占49%。

- **液冷由晶片延伸至整機與電源，規格與價值量同步升級**

  Rubin世代全面液冷，CDU放大至2.3~3MW；800VDC電源櫃液冷化，快接頭升級至大口徑與ZQD。

- **看好液冷冷板、快接頭與SOFC關鍵零組件供應鏈**

  奇鋐(3017)、富世達(6805)受惠液冷規格升級；高力(8996)切入SOFC供應鏈，宏致(3605)列入觀察。

推薦重點

- 高力產品組合為液冷散熱、燃料電池Hot Box與板式熱交換器，預估2026年營收占比約52%/33%/15%，2027年液冷占比將提升至63%。
- 液冷方面，9月液冷月營收已達8.5~8.9億元，12月起冷媒版RDHx、500KW Sidecar陸續加入，27Q1起in-row CDU開始出貨，1.8MW/2.5MW機種已通過SMCI的RVL認證，預估2027年液冷營收年增逾2倍。
- 燃料電池方面，Bloom Energy三度上修2026年財測至44~46億美元；高力9月自結EPS 3.24元，26Q4營收可望達50億元以上，毛利率將優於26Q1。
- 持續看好高力液冷與燃料電池雙引擎成長，2026年及2027年稅後EPS預估26.2元及88.8元，目標價1780元(20x27(F)PER)。

奇鋐(3017)

投資評等：買進
目標價：4500元

- 26Q3營收590.9億元(QoQ+20.3%/YoY+51.8%)，受惠GB300水冷板與機箱持續出貨、VR200水冷板9月開始小量出貨，以及Google TPU水冷產品開始貢獻。公司表示26Q4營收將季增雙位數，AWS、Google ASIC水冷開始小量量產，伺服器占比提升有利毛利率。
- 水冷板供給吃緊，符合CSP技術與品質要求的合格供應商有限，議價能力明顯提升。良率已由年初60~70%提升至80~90%，2027年毛利率可望逐季走高。產能方面，2026年資本支出約150億元，2027年水冷板產能擴增60%，2H27月產能達160萬片。
- 2027年ASIC營收將與GPU相當甚至超越，ASIC機櫃改採水冷後，單櫃散熱產值由約1萬美元升至6~7萬美元。1H27由VR200、TPU V8及AWS T3帶動，2H27由Meta與Microsoft新一代ASIC接棒。預估2027年水冷相關營收1,950億元(YoY+162.3%)，占營收比重由33.4%升至54.7%。
- 看好水冷板供需吃緊與ASIC、Rubin接力放量，奇鋐2026年及2027年稅後EPS預估為113.6元及203.0元，目標價4500元(22.2x27(F)PER)。

富世達(6805)

投資評等：買進
目標價：3000元

- 26Q3伺服器產品營收占比升至81.3%，其中快接頭(QD)約占90%，受VR200、ASIC平台小量拉貨與非奇鋐快接頭客戶出貨規模增加帶動。
- 新產能開出後QD產能已達1,350萬顆/季，QD受惠GPU與ASIC雙平台放量及規格升級。AWS Trn3已開始出貨，將於27H1顯著貢獻營收；Meta MTIA與微軟MAIA將於27H2放量，預期QD營收2028年ASIC比重有望超越GPU。Rubin Ultra(VR300)將導入單價約兩倍的ZQD，單櫃QD數量由VR200約538顆增至574~664顆，QD量價齊揚為2027~2028年主要成長動能。
- AI滑軌陸續通過驗證，目前月產能35萬套，稼動率約30~50%，2027年隨VR200與ASIC水冷專案量產，可望提升至50~60%以上。水冷櫃滑軌ASP較高，毛利率同步改善。摺疊機方面，華為新機受記憶體漲價影響拉貨遞延，轉軸營收短期承壓，惟下一代機種仍由富世達主供。
- 看好AI伺服器全面導入水冷，帶動伺服器營收持續成長，富世達2026年及2027年稅後EPS預估為65.5元及120.1元，目標價3000元(25x27(F)PER)。

Q3 財報創新高，26/27 年獲利上修

報告日期：2026.11.09　　研 究 員：邱岳霖

摘 要 及 調 整 原 因

- 高階材料放量、報價持續上揚、新產能開出，上修 2026 年 EPS 至 132 元
- 2027 年高階材料規格升級、產能持續擴增， EPS 280.8 元，考量公司在產業具有主導地位且未來幾年將持續高速增長，不過因利率走升與市場面臨短期逆風，故下修估值，兆豐投顧降低目標價至 6,460 元(23X 27(F)PER)，潛在上漲空間 69.1%，投資評等維持「買進」。

結論與建議

- 展望後市，AI Server、高速交換器與General server需求強勁，公司持續擴產，預計2026年底月產能增至約615萬張。AI Server規格提升帶動高階材料佔比墊高，M9已於26Q3開始出貨，Q4佔比將持續擴大；BT材料亦已進入認證，年底有機會放量。研究部認為高階CCL缺料格局延續，加上原物料成本上升，報價有望再上調5-20%。考量產品組合轉佳、漲價效應及Q3財報優於預期，上修台光電26Q4營收至700.2億元，QoQ +15.0%/YoY +180.9%，毛利率39.0%，稅後淨利175.9億元，EPS 49.1元；2026年稅後淨利473.0億元，YoY +222.9%，EPS 132.0元。
- 展望2027年，GPU與Switch規格升級帶動PCB/CCL層數與尺寸提升，加上CSP擴大Capex、ASIC需求上調，公司訂單能見度已達2027年，預計27年底月產能達900萬張，年增近50%。客戶主動要求簽訂LTA，公司已通過至2030年擴產計畫，總產能將達1,525萬張，為現有的2.5倍。毛利率方面，隨新一代GPU推出及Switch升級至3.2T，M9營收佔比可望由低個位數提升至雙位數。兆豐投顧上修台光電2027年營收至3,697.2億元，YoY +75.0%，毛利率41.2%，年增5.2ppt，稅後淨利1,006.2億元，YoY +112.7%，EPS 280.8元，雖獲利上修，不過因利率走升與市場面臨短期逆風，故下修估值，兆豐投顧降低目標價至6,460元(23X 27(F)PER)，潛在上漲空間69.1%，投資評等維持「買進」。

評等分級：買進（預期未來六個月股價漲幅超過+30%）；逢低買進（預期未來六個月股價漲幅介於+15%與+30%之間）；區間操作（預期未來六個月股價漲跌幅介於-15%與+15%之間）；逢高賣出（預期未來六個月股價跌幅介於-15%與-30%之間）；賣出（預期未來六個月股價跌幅超過-30%）。

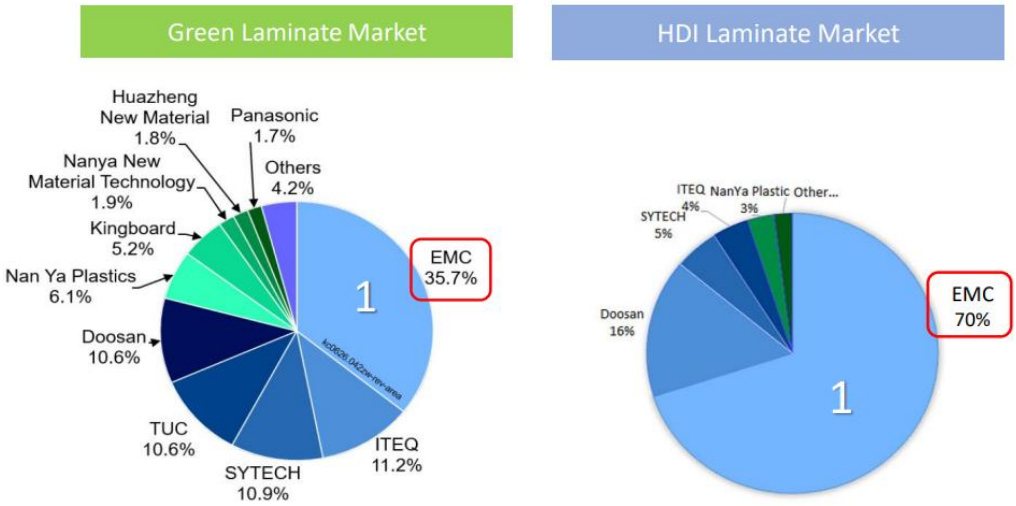
營 運 分 析

台光電為全球銅箔基板龍頭廠

台光電成立於 1992 年並於 1998 年市，總部位於桃園觀音，為全球最大無鹵素銅箔基板供應商，AI Server 中 CCL 市占率超過 50%，同時是 HDI 材料龍頭。主力產品為銅箔基板(CCL)、黏合片(PP)及多層壓合板(Mass Lamination)，不過自 2020 年起切入 IC 載板材料(BT/ABF)之 CCL 以作為第二成長曲線，目前正積極推進客戶認證與產能擴充。

圖一、台光電為全球 CCL 與 HDI 材料龍頭廠商



資料來源：公司；兆豐投顧整理

生產基地包含台灣桃園觀音、新竹，中國江蘇昆山、廣東中山、湖北黃石，以及馬來西亞檳城。銅箔基板月產能現況約 585 萬張，預計 2026 年底增至約 615 萬張，2027 年底目標達 900 萬張，且近期已與客戶敲定至 2030 年產能至 1,525 萬張。26Q3 以基礎設施應用(AI 伺服器、Switch、低軌衛星等)為主，占比約 80%。

評等分級：買進（預期未來六個月股價漲幅超過+30%）；逢低買進（預期未來六個月股價漲幅介於+15%與+30%之間）；區間操作（預期未來六個月股價漲跌幅介於-15%與+15%之間）；逢高賣出（預期未來六個月股價跌幅介於-15%與-30%之間）；賣出（預期未來六個月股價跌幅超過-30%）。

報價上漲紅利，M9 新產品出貨，營收與毛利率雙創高，Q3 EPS 40.5 元

台光電(2383)公告 26Q3 財報：營收 608.85 億元，QoQ +28.8%/YoY +142.1%，再創歷史新高，係因報價上揚，同時 M9 開始出貨帶動所致，毛利率 37.7%，季增 3.8ppt，年增 7.6ppt，大幅優於研究部預期之 35%，受惠報價上漲完整反映，同時產品組合轉佳帶動，不過因持續投入新世代產品研發帶動整體營業費用較上季增長逾 30%，稅後淨利 145 億元，QoQ +46.9%/YoY +265.7%，EPS 40.5 元，遠優於預期之 33.5 元。

表一、營運預估與實際差異

	26Q3(F)	26Q3(A)	差異幅度
營收	54,461	60,885	11.8%
毛利率	35.0%	37.7%	+2.7pt
營益率	28.3%	30.7%	+2.4pt
稅後淨利	11,995	14,500	20.9%
EPS	**33.50**	**40.47**

高階材料放量、報價持續上揚、新產能開出，上修 2026 年 EPS 至 132 元

展望後市，隨著 AI Server、高速交換器與 General server 需求持續強勁，公司持續擴產以滿足市場需求，月產能預計 2026 年底增至約 615 萬張，季增約 5%，此外由於 AI Server 規格持續提升，高階材料佔比將逐步墊高，同時 BT 材料已開始認證，預期年底有機會開始放量出貨；原物料方面，研究部認為高階 CCL 缺料格局將延續，同時反映原物料成本上升，預期報價有望再上調 5-20%，此外更高階材料 M9 於 26Q3 開始出貨，預期 Q4 佔比將持續擴大。

在整體產品組合轉佳與漲價效應帶動下，同時考量 Q3 財報遠優研究部預期，故上修台光電 26Q4 營收至 700.2 億元(原估 593 億元)，QoQ +15.0%/YoY +180.9%，毛利率 39%(原估 35.5%)，季增 1.3ppt，年增 10.4ppt，稅後淨利 175.9 億元，QoQ +21.3%/YoY +370.7%，EPS 49.1 元(原估 37.2 元)；同步上修 2026 年稅後淨利 473 億元，YoY +222.9%，EPS 132 元(原估 113.2 元)。

2027 年高階材料規格升級、產能持續擴增， EPS 280.8 元

展望 2027 年，隨著 GPU 與 Switch 規格持續提升，帶動 PCB/CCL 層數與尺寸持續提升，且 CSP 持續擴大 Capex，ASIC 需求亦繼續上調，目前公司訂單能見度已達 2027 年，亦積極擴張產能，預期至 27 年底達月產能 900 萬張目標，年增近 50%。而客戶主動要求簽 LTA 並確保後續產能無虞，目前台光電已通過至 2030 年產能建置計畫，預期將總產能大幅增加至 1,525 萬張，為現有產能的 2.5 倍，將有助於公司未來持續高速增長；此外 BT 載板材料預計 26 年底完成認證，27 年開始出貨，初步規劃出貨量約 10 萬張，不過為確保未來高速成長的需求，將規劃 120 萬張產能，預期將帶來新一波成長動能。綜上所述，考量整體市場供需格局持續偏緊，且公司產能擴充積極，輔以報價持續上升，兆豐投顧上修台光電 2027 年營收至 3697.2 億元(原估 3,209.5 億元)，YoY +75.0%，而毛利率方面，預期在新一代 GPU 推出，同時 Switch 亦升級至 3.2T 下，M9 材料營收佔比可望由今年低個位數提升至雙位數，在稼動率維持高檔、產品組合持續優化下，上修毛利率至 41.2%(原估 36.6%)，年增 5.2ppt，稅後淨利 1006.2 億元，YoY +112.7%，EPS 280.8 元(原估 210 元)。

評等分級：買進（預期未來六個月股價漲幅超過+30%）；逢低買進（預期未來六個月股價漲幅介於+15%與+30%之間）；區間操作（預期未來六個月股價漲跌幅介於-15%與+15%之間）；逢高賣出（預期未來六個月股價跌幅介於-15%與-30%之間）；賣出（預期未來六個月股價跌幅超過-30%）。

Simplo Technology (6121.TWO)

An Established Battery Franchise with Room for a Better Mix

CITI'S TAKE

3Q26 EPS missed our/BBG estimates by 35%/30% each as notebook pull-ins faded and low yields on a major US customer's new smartphone held back shipments. We expect higher PC component costs to keep IT demand subdued in 1Q27E, while rising contribution from AES could still help margin expansion in 2027E. We lower 2026-2028E EPS by 17-20% and revise our TP to NT$400 based on 12x 2027E EPS, lowered from 13x reflecting weaker visibility on IT recovery. We continue to favor Simplo's leading market share in notebook/smartphone battery franchises and its exposure to AIDC BBU growth through AES.

3Q earnings -17% y/y missed our/BBG estimates by 35%/30% on weaker IT shipments — 3Q26 sales of NT$19.9bn fell 2% y/y and 5% q/q, 13%/10% below our/BBG forecasts. Notebook customers pulled orders into 1H26 amid rising memory prices, while lower yields on a major US customer's new smartphone constrained 3Q shipment. Group GPM rose 0.7ppt y/y to 16.3% on a larger AES contribution. However, standalone GPM dropped 1.6ppt y/y 50 9.2% on higher input costs and lower volumes. Group OPM rose 0.4ppt y/y to 9.7%, lower than our (12.2%) and BBG (11.9%) estimates. Higher taxes also weighed on EPS.

2027E outlook stays muted for IT — The mgmt. expects IT demand to remain lukewarm in 1Q27E as higher component costs put upward pressure on PC prices likely weighing on demand. Standalone sales are expected to be flat to slightly down y/y in 2027E, with the group sales flat to slightly up on AES's BBU growth. Mgmt. notes the battery-pack inventories at notebook brands are lean at just a few weeks and easing cobalt prices could bring down ASP in 2027E. A new non-IT product line is growing severalfold from a small base, and the mgmt. expects it to make up >5% in 2028E with a GPM above group's average.

Implications — We cut 2026-2028E earnings estimates 17-20% for 2026-2028E reflecting 3Q miss and a slower IT recovery, resulting in a 10-18% cut on our sales forecasts. We lower our TP to NT$400 based on a target P/E of 12x from 13x on 2027E EPS, reflecting the component inflation likely delaying the timing of IT recovery. We stay Buy on Simplo's established notebook and smartphone battery franchises and AES's exposure to growing datacenter BBU demand. AI PC adoption could lift battery-pack ASPs over time, and an estimated 6% dividend yield should help cushion downside.

Buy

BEAR Assumptions

- Lower target multiple at 9x

Simplo Technology

Company description

Established in 1992, Simplo specializes in designing and producing battery packs for Notebooks, tablet PC, and electronic vehicle products. With strong execution and cost advantages, Simplo continues to broaden its client base. Its major customers include PC OEMs (such as HPQ, Dell, Asus, Acer, and Apple) and NB ODMs (such as Quanta, Compal, Wistron, and Inventec).

Investment strategy

We rate Simplo shares as Buy. Simplo's heating fundamentals are driven by the following reasons. 1) Japan supplier's strategy change on focusing EV battery pack and de-prioritizing NB which provides Simplo more orders wins; and 2) Non-IT: according to our industry survey, Simplo has been qualified by global ISPs for the battery back units (BBU) for their data centers.

Valuation

Our target price of NT$400 is based on a target P/E of 12x 2027E EPS, on par with its historical average since 2010.

Risks

Downside risks that may cause the shares to continue to trade below our target price include: 1) weaker than expected end product sales; 2) intensified competition; and 3) worse-than-expected overall NB/tablet/PC growth.

Appendix A-1

ANALYST CERTIFICATION

The research analysts primarily responsible for the preparation and content of this research report are either (i) designated by "AC" in the author block or (ii) listed in bold alongside content which is attributable to that analyst. If multiple AC analysts are designated in the author block, each analyst is certifying with respect to the entire research report other than (a) content attributable to another AC certifying analyst listed in bold alongside the content and (b) views expressed solely with respect to a specific issuer which are attributable to another AC certifying analyst identified in the price charts or rating history tables for that issuer shown below. Each of these analysts certify, with respect to the sections of the report for which they are responsible: (1) that the views expressed therein accurately reflect their personal views about each issuer and security referenced and were prepared in an independent manner, including with respect to Citigroup Global

Markets Inc. and its affiliates; and (2) no part of the research analyst's compensation was, is, or will be, directly or indirectly, related to the specific recommendations or views expressed by that research analyst in this report.

Citigroup Global Markets Inc. or its affiliates received compensation for products and services other than investment banking services from Simplo Technology in the past 12 months.

Citigroup Global Markets Inc. or its affiliates currently has, or had within the past 12 months, the following as clients, and the services provided were non-investment-banking, securities-related: Simplo Technology.

Citigroup Global Markets Inc. or its affiliates currently has, or had within the past 12 months, the following as clients, and the services provided were non-investment-banking, non-securities-related: Simplo Technology.

Analysts' compensation is determined by Citi Research management and Citigroup's senior management and is based upon activities and services intended to benefit the investor clients of Citigroup Global Markets Inc. and its affiliates (the "Firm"). Compensation is not linked to specific transactions or recommendations. Like all Firm employees, analysts receive compensation that is impacted by overall Firm profitability which includes investment banking, sales and trading, and principal trading revenues. One factor in equity research analyst compensation is arranging corporate access events between institutional clients and the management teams of covered companies. Typically, company management is more likely to participate when the analyst has a positive view of the company.

For financial instruments recommended in the Product in which the Firm is not a market maker, the Firm is a liquidity provider in such financial instruments (and any underlying instruments) and may act as principal in connection with transactions in such instruments. The Firm is a regular issuer of traded financial instruments linked to securities that may have been recommended in the Product. The Firm regularly trades in the securities of the issuer(s) discussed in the Product. The Firm may engage in securities transactions in a manner inconsistent with the Product and, with respect to securities covered by the Product, will buy or sell from customers on a principal basis.

Unless stated otherwise neither the Research Analyst nor any member of their team has viewed the material operations of the Companies for which an investment view has been provided within the past 12 months.

For important disclosures (including copies of historical disclosures) regarding the companies that are the subject of this Citi Research product ("the Product"), please contact Citi Research, 388 Greenwich Street, 6th Floor, New York, NY, 10013, Attention: Legal/Compliance [E6WYB6412478]. In addition, the same important disclosures, with the exception of the Valuation and Risk assessments and historical disclosures, are contained on the Firm's disclosure website at https://www.citivelocity.com/cvr/eppublic/citi_research_disclosures. Valuation and Risk assessments can be found in the text of the most recent research note/report regarding the subject company. Pursuant to the Market Abuse Regulation a history of all Citi Research recommendations published during the preceding 12-month period can be accessed via Citi Velocity (https://www.citivelocity.com/cv2) or your standard distribution portal. Historical disclosures (for up to the past three years) will be provided upon request.

Citi Research Equity Ratings Distribution

	12 Month Rating			Catalyst Watch		
Data current as of 01 Oct 2026	**Buy**	**Hold**	**Sell**	**Buy**	**Hold**	**Sell**
Citi Research Global Fundamental Coverage (Neutral=Hold)	61%	32%	7%	36%	48%	16%
% of companies in each rating category that are investment banking clients	39%	43%	30%	42%	38%	36%

Guide to Citi Research Fundamental Research Investment Ratings:
Citi Research stock recommendations include an investment rating and an optional risk rating to highlight high risk stocks.
Risk rating takes into account both price volatility and fundamental criteria. Stocks will either have no risk rating or a High risk rating assigned.
Investment Ratings: Citi Research investment ratings are Buy, Neutral and Sell. Our ratings are a function of analyst expectations of expected total return ("ETR") and risk. ETR is the sum of the forecast price appreciation (or depreciation) plus the dividend yield for a stock within the next 12 months. The target price is based on a 12 month time horizon. The Investment rating definitions are: Buy (1) ETR of 15% or more or 25% or more for High risk stocks; and Sell (3) for negative ETR. Any covered stock not assigned a Buy or a Sell is a Neutral (2). For stocks rated Neutral (2), if an analyst believes that there are insufficient valuation drivers and/or investment catalysts to derive a positive or negative investment view, they may elect with the approval of Citi Research management not to assign a target price and, thus, not derive an ETR. Citi Research may suspend its rating and target price and assign “Rating Suspended” status for regulatory and/or internal policy reasons. Citi Research may also suspend its rating and target price and assign "Under Review" status for other exceptional circumstances (e.g. lack of information critical to the analyst's thesis, trading suspension) affecting the company and/or trading in the company's securities. In both such situations, the rating and target price will show as “—“ and “-“ respectively in the rating history price chart. Prior to 11 April 2022 Citi Research assigned “Under Review” status to both situations and prior to 11 Nov 2020 only in exceptional circumstances. As soon as practically possible, the analyst will publish a note re-establishing a rating and investment thesis. Investment ratings are determined by the ranges described above at the time of initiation of coverage, a change in investment and/or risk rating, or a change in target price (subject to limited management discretion). At times, the expected total returns may fall outside of these ranges because of market price movements and/or other short-term volatility or trading patterns. Such interim deviations will be permitted but will become subject to review by Research Management. Your decision to buy or sell a security should be based upon your personal investment objectives and should be made only after evaluating the stock's expected performance and risk.

Catalyst Watch/Short Term Views (“STV”) Ratings Disclosure:
Catalyst Watch and STV Upside/Downside calls: Citi Research may also include a Catalyst Watch or STV Upside or Downside call to indicate the analyst expects the share price to rise (fall) in absolute terms over a specified period of 30 or 90 days in reaction to one or more specific near-term catalysts or events impacting the company or the market. A Catalyst Watch will be published when Analyst confidence is high that an impact to share price will occur; it will be a STV when confidence level is moderate. A Catalyst Watch or STV Upside/Downside call will automatically expire at the end of the specified 30/90 day period. The Catalyst Watch will also be automatically removed if share price performance (calculated at market close) exceeds 15% against the direction of the call (unless over-ridden by the analyst). The analyst may also remove a Catalyst Watch or STV call prior to the end of the specified period in a published research note. A Catalyst Watch/STV Upside or Downside call may be different from and does not affect a stock’s fundamental equity rating, which reflects a longer-term total absolute return expectation. For purposes of FINRA ratings-distribution-disclosure rules, a Catalyst Watch/STV Upside call corresponds to a buy recommendation and a Catalyst Watch/STV Downside call corresponds to a sell recommendation. Any stock not assigned to a Catalyst Watch Upside, Catalyst Watch Downside, STV Upside, or STV Downside call is considered Catalyst Watch/STV No View. For purposes of FINRA ratings distribution-disclosure rules, we correspond Catalyst Watch/STV No View to Hold in our ratings distribution table for our Catalyst Watch/STV Upside/Downside rating system. However, we reiterate that we do not consider No View to be a recommendation. For all Catalyst Watch/STV Upside/Downside calls, risk exists that the catalyst(s) and associated share-price movement will not materialize as expected.

Privately held companies:
The legal entities through which Citi conducts its business do not permit investment research recommendations, ratings, target prices, or estimates on any privately held companies (“private companies”) referenced herein. Citi Research does not utilize a rating system for private companies. Any information on private companies in this report is based on generally available information and, although obtained from sources believed by Citi to be reliable, its accuracy and completeness are

not guaranteed. Private companies are generally not subject to reporting obligations, which may result in less publicly available information. The information contained in this report may differ from information a private company may subsequently make public or otherwise share with investors. Continuation of publishing private company reports or private company sections within reports is at Citi's discretion, in accordance with internal policies.

RESEARCH ANALYST AFFILIATIONS / NON-US RESEARCH ANALYST DISCLOSURES

The legal entities employing the authors of this report are listed below (and their regulators are listed further herein). Non-US research analysts who have prepared this report (i.e., all research analysts listed below other than those identified as employed by Citigroup Global Markets Inc.) are not registered/qualified as research analysts with FINRA. Such research analysts may not be associated persons of the member organization (but are employed by an affiliate of the member organization) and therefore may not be subject to the FINRA Rule 2241 restrictions on communications with a subject company, public appearances and trading securities held by a research analyst account.

Citigroup Global Markets Taiwan Securities Company Limited	Angela Hsu

OTHER DISCLOSURES

Any price(s) of instruments mentioned in recommendations are as of the prior day's market close on the primary market for the instrument, unless otherwise stated.

The completion and first dissemination of any recommendations made within this research report are as of the Eastern date-time displayed at the top of the Product. If the Product references views of other analysts then please refer to the price chart or rating history table for the date/time of completion and first dissemination with respect to that view.

Regulations in various jurisdictions require that where a recommendation differs from any of the author's previous recommendations concerning the same financial instrument or issuer that has been published during the preceding 12-month period that the change(s) and the date of that previous recommendation are indicated. For fundamental coverage please refer to the price chart or rating change history within this disclosure appendix or the issuer disclosure summary at https://www.citivelocity.com/cvr/eppublic/citi_research_disclosures.

Citi Research has implemented policies for identifying, considering and managing potential conflicts of interest arising as a result of publication or distribution of investment research. A description of these policies can be found at https://www.citivelocity.com/cvr/eppublic/citi_research_disclosures.

The proportion of all Citi Research research recommendations that were the equivalent to "Buy","Hold","Sell" at the end of each quarter over the prior 12 months (with the % of these that had received investment firm services from Citi in the prior 12 months shown in brackets) is as follows; Q2 2026 Buy 33%(63%), Hold 44% (51%), Sell 23% (49%), RV 0.5% (87%): Q1 2026 Buy 33% (63%), Hold 44% (52%), Sell 23% (46%), RV 0.5% (89%); Q4 2025 Buy 33% (63%), Hold 44% (50%), Sell 23% (46%), RV 0.4% (91%); Q3 2025 Buy 33%(61%), Hold 44% (52%), Sell 23% (50%), RV 0.4% (80%). For the purposes of disclosing recommendations other than for equity (whose definitions can be found in the corresponding disclosure sections), "Buy" means a positive directional trade idea; "Sell" means a negative directional trade idea; and "Relative Value" means any trade idea which does not have a clear direction to the investment strategy.

European regulations require a 5 year price history when past performance of a security is referenced. CitiVelocity's Charting Tool (https://www.citivelocity.com/cv2/#go/CHARTING_3_Equities) provides the facility to create customisable price charts including a five year option. This tool can be found in the Data & Analytics section under any of the asset class menus in CitiVelocity (https://www.citivelocity.com/). For further information contact CitiVelocity support (https://www.citivelocity.com/cv2/go/CLIENT_SUPPORT). The source for all referenced prices, unless otherwise stated, is DataCentral, which sources price information from LSEG Data & Analytics. Past performance is not a guarantee or reliable indicator of future results. Forecasts are not a guarantee or reliable indicator of future performance.

Investors should always consider the investment objectives, risks, and charges and expenses of an ETF carefully before investing. The applicable prospectus and key investor information document (as applicable) for an ETF should contain this and other information about such ETF. It is important to read carefully any such prospectus before investing. Clients may obtain prospectuses and key investor information documents for ETFs from the applicable distributor or authorized participant, the exchange upon which an ETF is listed and/or from the applicable website of the applicable ETF issuer. The value of the investments and any accruing income may fall or rise. Any past performance, prediction or forecast is not indicative of future or likely performance. Any information on ETFs contained herein is provided strictly for illustrative purposes and should not be deemed an offer to sell or a solicitation of an offer to purchase units of any ETF either explicitly or implicitly. The opinions expressed are those of the authors and do not necessarily reflect the views of ETF issuers, any of their agents or their affiliates.

Citigroup Global Markets India Private Limited and/or its affiliates may have, from time to time, actual or beneficial ownership of 1% or more in the debt securities of the subject issuer.

Please be advised that pursuant to Executive Order 13959 as amended (the "Order"), U.S. persons are prohibited from investing in securities of any company determined by the United States Government to be the subject of the Order. This research is not intended to be used or relied upon in any way that could result in a violation of the Order. Investors are encouraged to rely upon their own legal counsel for advice on compliance with the Order and other economic sanctions programs administered and enforced by the Office of Foreign Assets Control of the U.S. Treasury Department.

This communication is directed at persons who are "Eligible Clients" as such term is defined in the Israeli Regulation of Investment Advice, Investment Marketing and Investment Portfolio Management law, 1995 (the "Advisory Law"). Within Israel,

this communication is not intended for retail clients and Citi will not make such products or transactions available to retail clients or to non-Eligible Clients. The presenter is not licensed as investment advisor or investment marketer by the Israeli Securities Authority ("ISA") and this communication does not constitute investment or marketing advice. The information contained herein may relate to matters that are not regulated by the ISA. Any securities which are the subject of this communication may not be offered or sold to any Israeli person except pursuant to a security offering exemption according to the Israeli Securities Law, 1968and the public offering rules provided thereunder.

Citi Research broadly and simultaneously disseminates its research content to the Firm's institutional and retail clients via the Firm's proprietary electronic distribution platforms (e.g., Citi Velocity and various Global Wealth platforms). As a convenience, certain, but not all, research content may be distributed through third party aggregators. Clients may receive published research reports by email, on a discretionary basis, and only after such research content has been broadly disseminated. Certain research is made available only to institutional investors to satisfy regulatory requirements. The level and types of services provided by Citi Research analysts to clients may vary depending on various factors such as the client's individual preferences as to the frequency and manner of receiving communications from analysts, the client's risk profile and investment focus and perspective (e.g. market-wide, sector specific, long term, short-term etc.), the size and scope of the overall client relationship with the Firm and legal and regulatory constraints.

Pursuant to Comissão de Valores Mobiliários Resolução 20 and ASIC Regulatory Guide 264, Citi is required to disclose whether a Citi related company or business has a commercial relationship with the subject company. Considering that Citi operates multiple businesses in more than 100 countries around the world, it is likely that Citi has a commercial relationship with the subject company.

Securities recommended, offered, or sold by the Firm: (i) are not insured by the Federal Deposit Insurance Corporation; (ii) are not deposits or other obligations of any insured depository institution (including Citibank); and (iii) are subject to investment risks, including the possible loss of the principal amount invested. The Product is for informational purposes only and is not intended as an offer or solicitation for the purchase or sale of a security. Any decision to purchase securities mentioned in the Product must take into account existing public information on such security or any registered prospectus. Although information has been obtained from and is based upon sources that the Firm believes to be reliable, we do not guarantee its accuracy and it may be incomplete and condensed. Note, however, that the Firm has taken all reasonable steps to determine the accuracy and completeness of the disclosures made in the Important Disclosures section of the Product. The Firm's research department has received assistance from the subject company(ies) referred to in this Product including, but not limited to, discussions with management of the subject company(ies). Firm policy prohibits research analysts from sending draft research to subject companies. However, it should be presumed that the author of the Product has had discussions with the subject company to ensure factual accuracy prior to publication. Statements and views concerning ESG (environmental, social, governance) factors are typically based upon public statements made by the affected company or other public news, which the author may not have independently verified. ESG factors are one consideration that investors may choose to examine when making investment decisions. All opinions, projections and estimates constitute the judgment of the author as of the date of the Product and these, plus any other information contained in the Product, are subject to change without notice. Prices and availability of financial instruments also are subject to change without notice. Notwithstanding other departments within the Firm advising the companies discussed in this Product, information obtained in such role is not used in the preparation of the Product. Although Citi Research does not set a predetermined frequency for publication, if the Product is a fundamental equity or credit research report, it is the intention of Citi Research to provide research coverage of the covered issuers, including in response to news affecting the issuer. For non-fundamental research reports, Citi Research may not provide regular updates to the views, recommendations and facts included in the reports. Notwithstanding that Citi Research maintains coverage on, makes recommendations concerning or discusses issuers, Citi Research may be periodically restricted from referencing certain issuers due to legal or policy reasons. Where a component of a published trade idea is subject to a restriction, the trade idea will be removed from any list of open trade ideas included in the Product. Upon the lifting of the restriction, the trade idea will either be re-instated in the open trade ideas list if the analyst continues to support it or it will be officially closed. Citi Research may provide different research products and services to different classes of customers (for example, based upon long-term or short-term investment horizons) that may lead to differing conclusions or recommendations that could impact the price of a security contrary to the recommendations in the alternative research product, provided that each is consistent with the rating system for each respective product.

Investing in non-U.S. securities, including ADRs, may entail certain risks. The securities of non-U.S. issuers may not be registered with, nor be subject to the reporting requirements of the U.S. Securities and Exchange Commission. There may be limited information available on foreign securities. Foreign companies are generally not subject to uniform audit and reporting standards, practices and requirements comparable to those in the U.S. Securities of some foreign companies may be less liquid and their prices more volatile than securities of comparable U.S. companies. In addition, exchange rate movements may have an adverse effect on the value of an investment in a foreign stock and its corresponding dividend payment for U.S. investors. Net dividends to ADR investors are estimated, using withholding tax rates conventions, deemed accurate, but investors are urged to consult their tax advisor for exact dividend computations. Investors who have received the Product from the Firm may be prohibited in certain states or other jurisdictions from purchasing securities mentioned in the Product from the Firm. Please ask your Financial Consultant for additional details. Citigroup Global Markets Inc. takes responsibility for the

Product in the United States. Any orders by US investors resulting from the information contained in the Product may be placed only through Citigroup Global Markets Inc.

The Citigroup legal entity that takes responsibility for the production of the Product is the legal entity which the first named author is employed by.

Citigroup Centre, Canada Square, Canary Wharf, London, E14 5LB.

The Product is made available in **United States** and **Canada** by Citigroup Global Markets Inc., which is a member of FINRA and registered with the US Securities and Exchange Commission. 388 Greenwich Street, New York, NY 10013.

Unless specified to the contrary, within EU Member States, the Product is made available by Citigroup Global Markets Europe AG ("CGME"), which is regulated by the European Central Bank and the German Federal Financial Supervisory Authority (Bundesanstalt für Finanzdienstleistungsaufsicht-BaFin).

The Product is not to be construed as providing investment services in any jurisdiction where the provision of such services would not be permitted.
Subject to the nature and contents of the Product, the investments described therein are subject to fluctuations in price and/or value and investors may get back less than originally invested. Certain high-volatility investments can be subject to sudden and large falls in value that could equal or exceed the amount invested.The yield and average life of CMOs (collateralized mortgage obligations) referenced in this Product will fluctuate depending on the actual rate at which mortgage holders prepay the mortgages underlying the CMO and changes in current interest rates. Any government agency backing of the CMO applies only to the face value of the CMO and not to any premium paid. Certain investments contained in the Product may have tax implications for private customers whereby levels and basis of taxation may be subject to change. If in doubt, investors should seek advice from a tax adviser. The Product does not purport to identify the nature of the specific market or other risks associated with a particular transaction. Advice in the Product is general and should not be construed as personal advice given it has been prepared without taking account of the objectives, financial situation or needs of any particular investor. Accordingly, investors should, before acting on the advice, consider the appropriateness of the advice, having regard to their objectives, financial situation and needs. Prior to acquiring any financial product, it is the client's responsibility to obtain the relevant offer document for the product and consider it before making a decision as to whether to purchase the product.

Card Insights. Where this report references Card Insights data, Card Insights consists of selected data from a subset of Citi's proprietary credit card transactions. Such data has undergone rigorous security protocols to keep all customer information confidential and secure; the data is highly aggregated and anonymized so that all unique customer identifiable information is removed from the data prior to receipt by the report's author or distribution to external parties. This data should be considered in the context of other economic indicators and publicly available information. Further, the selected data represents only a subset of Citi's proprietary credit card transactions due to the selection methodology or other limitations and should not be considered as indicative or predictive of the past or future financial performance of Citi or its credit card business.

Citi Research product may source data from dataCentral. dataCentral is a Citi Research proprietary database, which includes the Firm's estimates, data from company reports and feeds from LSEG Data & Analytics. 3Q26 results review: missed on operating margin

- 3Q26 net profit missed our estimate and the consensus by 39-48%
- Better-than-expected recovery in Europe and China; a brighter 2027
- Reaffirming our Buy (1) rating with an unchanged 12M TP of TWD121

Helen Chien

Neil Teng, CFA
(886) 2 8758 6256
neil.teng@daiwacm-cathay.com.tw

What's new: Giant announced its 3Q26 results after market hours on 9 November 2026. We reaffirm our Buy (1) rating on its improving fundamentals and the recovery of the global bike market. We believe inventory destocking is coming to an end.

What's the impact: **3Q26 results: missed on operating margin.** Giant's 3Q26 revenue of TWD16.311bn (-2.1% QoQ, +6.2% YoY) was roughly in line with our estimate and the Bloomberg consensus. Its gross margin of 23.9% beat our estimate and the Bloomberg consensus by 2.9pp and 1.1pp, respectively, driven by product mix optimisation and new product launches in its own brand. However, its operating margin of 3.1% missed our estimate and the consensus by 1.4pp and 2.1pp, respectively, due to marketing activities for MY27 launches and legal fees related to the WRO. Thus, its 3Q26 operating profit of TWD510m (-49.0% QoQ, +28.9% YoY) missed our estimate and the consensus by 31.3% and 42.2%, respectively. Its 3Q26 net profit of TWD330m (-48.0% QoQ, -5.7% YoY) also missed our estimate and the consensus by 39.6% and 47.8%, respectively. Its 3Q26 EPS finished at TWD0.84.

Demand recovery in Europe and China; a bright 2027. Giant sees gradual market recovery in Europe on new model launches and demand recovery in China. In the US, Giant continues to work towards having the WRO lifted, but will adjust production allocation to maximise the supply to meet demand in the US market. Its E-bike revenue accounted for 21% of 9M26 revenue, which we believe reflects the declining OEM segment. Giant aims for its e-bike shipments to decline by 1% YoY, from 516,000 units in 2025 to 510,000 in 2026, on weaker OE customer demand. For 2026, it guides for sales to decline by low-single-digit % YoY, with the gross margin improving to 21-23% (from 20-21%) and an operating margin of 1-3%. We lower our 2026-28E EPS by 5-30% after factoring in the 3Q26 results with more conservative operating-margin estimates on marketing expenses.

What we recommend: We reaffirm our Buy (1) call with an unchanged 12M TP of TWD121, still based on our 1-year forward EPS forecast with an unchanged target PER of 22x to reflect its improved earnings trajectory, and we look for a better year in 2027. Key downside risks: slower-than-expected e-bike penetration in the EU and macro/tariff uncertainties.

How we differ: Our 2026-28E EPS are 8-26% below the consensus, likely as our revenue and operating margin forecasts are more conservative.

Company profile

Founded in 1972 and listed in 1994 on Taiwan's main board, Giant is the largest bicycle maker in Taiwan, with an annual capacity of c.5m bicycles. In 2025, Asia accounted for 57% of its revenue, followed by Europe (33%) and America (7%). Around 74% of its 2025 revenue came from OBM (Giant, Liv, momentum) brands and 26% from OEM/ODM (Trek, Scott and Colnago) brands.

ESG analysis

ESG risks

Risks		Management	Analyst comments
G	Executive/board quality	2	The CEO and Chairperson are not the same individual. Led by the Liu family, there are 11 members on the board. The founder and former Chairman is now a director, with his niece, Mrs. Tu, leading Giant. We view Mrs. Tu's leadership to be strong, as she is well-recognised by the former Chairman and the board for her capabilities, and she is one of the few female chairpersons to lead a Taiwanese company.
	Capital management	2	Giant has maintained its dividend payout ratio between 50% and 100% over the past decade , which we believe to be reasonable considering its global leadership status and expansion needs.
	Related party & transaction	2	Revenue from related-party transactions accounted for 58-62% of total revenue over 2019-25, with sales mostly from its OBM (ASP varies with products/markets). We observed no suspicious activity.
S	Product quality & safety	1	According to Giant's 2023 ESG report, Giant as the global OEM/OBM leader in the bicycle industry, product quality and safety are the top priority. We see ongoing R&D expenses and relevant investment in new models and note that Giant has introduced its "Right Ride" system to assist customers seeking suitable bike options.
S	Supply chain management	1	Giant has developed its Giant production management system that diversifies its capacity globally and utilises production resources fully to lower political or regional risk. As Giant has control over its material sourcing, design process and manufacturing/OEM, we believe it has solid supply chain management capabilities that allow for better cost control than peers.

Note: Management score represents a company's ability to manage/benefit from certain ESG topics. The scores range from 1 to 3, with 1 being the strongest.

Bahrain

This research material is distributed in Bahrain by Daiwa Capital Markets Europe Limited, Bahrain Branch, regulated by The Central Bank of Bahrain and holds Investment Business Firm – Category 2 license and having its official place of business at the Bahrain World Trade Centre, South Tower, 7th floor, P.O. Box 30069, Manama, Kingdom of Bahrain. Tel No. +973 17534452 Fax No. +973 535113

United States

This research is distributed into the United States directly by Daiwa Capital Markets Hong Kong Limited (DCMHK) and in certain cases indirectly by Daiwa Capital Markets America Inc. (DCMA), a U.S. Securities and Exchange Commission registered broker-dealer and FINRA member firm, exclusively to "major U.S. institutional investors", as defined under Rule 15a-6 promulgated under the U.S. Securities Exchange Act of 1934, as amended, and as interpreted by the staff of the U.S. Securities and Exchange Commission (SEC). Where this is co-branded research published by Daiwa's partners in collaboration with other parties not affiliated with Daiwa, this research is distributed in the United States by DCMHK only. This report is not an offer to sell or the solicitation of any offer to buy securities. U.S. customers wishing to effect transactions in any designated investment discussed in this report should do so through a qualified salesperson of DCMA. Non-U.S. customers wishing to effect transactions in any designated investment discussed in this report should contact a Daiwa entity in their local jurisdiction. The securities or other investment products discussed in this report may not be eligible for sale in some jurisdictions.

Analysts employed outside the U.S., as specifically indicated elsewhere in this report, are not registered as research analysts with FINRA. These analysts may not be associated persons of DCMA, and therefore may not be subject to FINRA Rule 2241 restrictions on communications with a subject company, public appearances and trading securities held by a research analyst account.

Japan - Notification items pursuant to Article 37 of the Financial Instruments and Exchange Law

(This Notification is only applicable to where report is distributed by Daiwa Securities Co. Ltd.)

If you decide to enter into a business arrangement with our company based on the information described in this report, we ask you to pay close attention to the following items.

- In addition to the purchase price of a financial instrument, our company will collect a trading commission* for each transaction as agreed beforehand with you. Since commissions may be included in the purchase price or may not be charged for certain transactions, we recommend that you confirm the commission for each transaction. In some cases, our company also may charge a maximum of ¥2 million per year as a standing proxy fee for our deposit of your securities, if you are a non-resident.
- For derivative and margin transactions etc., our company may require collateral or margin requirements in accordance with an agreement made beforehand with you. Ordinarily in such cases, the amount of the transaction will be in excess of the required collateral or margin requirements**.
- There is a risk that you will incur losses on your transactions due to changes in the market price of financial instruments based on fluctuations in interest rates, exchange rates, stock prices, real estate prices, commodity prices, and others. In addition, depending on the content of the transaction, the loss could exceed the amount of the collateral or margin requirements.
- There may be a difference between bid price etc. and ask price etc. of OTC derivatives handled by our company.
- Before engaging in any trading, please thoroughly confirm accounting and tax treatments regarding your trading in financial instruments with such experts as certified public accountants.

* The amount of the trading commission cannot be stated here in advance because it will be determined between our company and you based on current market conditions and the content of each transaction etc.

** The ratio of margin requirements etc. to the amount of the transaction cannot be stated here in advance because it will be determined between our company and you based on current market conditions and the content of each transaction etc.

When making an actual transaction, please be sure to carefully read the materials presented to you prior to the execution of agreement, and to take responsibility for your own decisions regarding the signing of the agreement with our company.

3Q26 results review: weaker-than-expected margins

- 3Q26 net profit missed our and consensus estimates by 10-11%
- Semiconductor, AI server and Others segments to support growth
- Reaffirming our Buy (1) call with unchanged 12M TP of TWD205

neil.teng@daiwacm-cathay.com.tw

What's new: We attended PMX's investor conference after the company released its 3Q26 results on 9 November 2026. We reaffirm our Buy (1) call as we see better-than-expected demand for its semiconductor, AI server and medical segments.

What's the impact: 3Q26 results missed mainly on FX loss. PMX's 3Q26 revenue of TWD2,417m (+5.9% QoQ, +24.6% YoY) beat our estimate by 8.5% and was in line with the Bloomberg consensus. Its gross margin came in at 23.9% vs. 24.6% in 2Q26 and 21.7% in 3Q25, missing our estimate (24.2%) and the consensus (25.1%), mainly due to some one-off costs ramping up at the new Vietnam plant. With higher-than-expected opex, operating profit of TWD340m (+10.0% QoQ, +54.4% YoY) missed our and the consensus estimates by 1.3% and 6.0%, respectively. With an FX loss of TWD23m, its net profit of TWD271m (+13.3% QoQ, +0.1% YoY) missed our and consensus estimates by 11.1% and 10.2%, respectively. EPS was TWD2.36 in 3Q26. PMX's 3Q26 revenue breakdown is as follows: auto sales at 49% (+13% YoY), semiconductor, AI server & other sales at 20% (+66% YoY), storage device sales at 13% (+25% YoY), medical sales at 10% (+13% YoY), and sports sales at 8% (+42% YoY). PMX also posted October 2026 monthly sales of TWD816m (+3.3% MoM and +33.8% YoY; +22.0% YoY for 10M26), which accounted for 35.6% and 31.3%, respectively, of our previous and the consensus forecasts of 4Q26 revenue.

Segment transformation continues with upbeat guidance for 4Q26 and 2027. For 2026, PMX maintained its overall 20-25% YoY revenue growth guidance with semiconductor, AI server & others segment growing by at least 100% YoY. For 2027, management expects revenue to grow by 20%+ YoY with the semiconductor, AI server & others segment to grow by 100%+ YoY; medical, by 50%+ YoY; storage device, by 10% YoY; auto, flat; and sports to decline by 5%. We revised down our 2026-28E EPS by 0.3-8.5% after factoring in its 3Q26 results.

What we recommend: We reaffirm our Buy (1) rating with an unchanged 12M TP of TWD205, now based on a target PER of 17x (from 18x; above the 15x average of its past-3-year range of 11-25x) on our 1-year forward EPS forecast. We lower the PER target slightly on its decelerating earnings momentum. Key downside risks: lower than-expected global auto, medical, and AI server component demand; worse-than-expected gross margin.

How we differ: Our 2026-27E EPS are 18-22% below the Bloomberg consensus, likely as we are more conservative about PMX's revenue and operating margins.

Company profile

Founded in 1987, Global PMX provides mechanical parts for automotive, medical equipment, and storage device components. Its major automotive clients include Continental, Bosch, BorgWarner, ZF, Hilite and Tesla. Other major clients are Seagate, Medtronic, and Zimmer.

ESG analysis

ESG risks

Risks		Management	Analyst comments
G	Executive/board quality	2	The CEO and Chairperson of PMX are not the same individual. The board includes 3 independent directors, including 1 female independent director. The Chairman has held this position at PMX for more than 20 years, indicating the company's strong management capability and leadership, in our view.
	Capital management	1	PMX's payout ratio was 80-90% before 2018, but dropped to 29-69% in 2019-25, which we attribute to its acquisitions over the past few of years (eg, merger with Sixxon in 2020). We view these acquisitions as reasonable capital management as PMX's product line expansion has led to lower risk exposure due to diversification, helping PMX's 2020-24 revenue to stay relatively intact.
	Related party & transaction	2	No major revenue from related-party transactions in 2020-25, and we observed no severe issues.
S	Product quality & safety	2	PMX holds numerous international product quality certifications, including ISO9002, QS9000 and ISO/TS16949, which help to regulate the production phases, from development to quality control and sales. Besides, products made by PMX are 100% compliant with laws/regulations and market expectations on health and safety, so we believe that product quality and safety concerns are not a high risk for PMX.
S	Materials sourcing & efficiency	2	Global PMX's supply conditions of raw materials (mainly copper and steel) are stable, and its suppliers are required to sign the company's Supplier Commitment Statement. Therefore, we believe materials sourcing and efficiency will be under control going forward.
S	Product design & lifecycle management	2	PMX has adopted strategies that avoid price competition by targeting production of higher value-added products (including auto, medical, semiconductor, and green energy products). Thus, we believe that PMX is continually improving its product lifecycle management.

Note: Management score represents a company's ability to manage/benefit from certain ESG topics. The scores range from 1 to 3, with 1 being the strongest.

Bahrain

This research material is distributed in Bahrain by Daiwa Capital Markets Europe Limited, Bahrain Branch, regulated by The Central Bank of Bahrain and holds Investment Business Firm – Category 2 license and having its official place of business at the Bahrain World Trade Centre, South Tower, 7th floor, P.O. Box 30069, Manama, Kingdom of Bahrain. Tel No. +973 17534452 Fax No. +973 535113

United States

This research is distributed into the United States directly by Daiwa Capital Markets Hong Kong Limited (DCMHK) and in certain cases indirectly by Daiwa Capital Markets America Inc. (DCMA), a U.S. Securities and Exchange Commission registered broker-dealer and FINRA member firm, exclusively to "major U.S. institutional investors", as defined under Rule 15a-6 promulgated under the U.S. Securities Exchange Act of 1934, as amended, and as interpreted by the staff of the U.S. Securities and Exchange Commission (SEC). Where this is co-branded research published by Daiwa's partners in collaboration with other parties not affiliated with Daiwa, this research is distributed in the United States by DCMHK only. This report is not an offer to sell or the solicitation of any offer to buy securities. U.S. customers wishing to effect transactions in any designated investment discussed in this report should do so through a qualified salesperson of DCMA. Non-U.S. customers wishing to effect transactions in any designated investment discussed in this report should contact a Daiwa entity in their local jurisdiction. The securities or other investment products discussed in this report may not be eligible for sale in some jurisdictions.

Analysts employed outside the U.S., as specifically indicated elsewhere in this report, are not registered as research analysts with FINRA. These analysts may not be associated persons of DCMA, and therefore may not be subject to FINRA Rule 2241 restrictions on communications with a subject company, public appearances and trading securities held by a research analyst account.

Additional information may be available upon request.

Japan - Notification items pursuant to Article 37 of the Financial Instruments and Exchange Law

(This Notification is only applicable to where report is distributed by Daiwa Securities Co. Ltd.)

If you decide to enter into a business arrangement with our company based on the information described in this report, we ask you to pay close attention to the following items.

- In addition to the purchase price of a financial instrument, our company will collect a trading commission* for each transaction as agreed beforehand with you. Since commissions may be included in the purchase price or may not be charged for certain transactions, we recommend that you confirm the commission for each transaction. In some cases, our company also may charge a maximum of ¥2 million per year as a standing proxy fee for our deposit of your securities, if you are a non-resident.
- For derivative and margin transactions etc., our company may require collateral or margin requirements in accordance with an agreement made beforehand with you. Ordinarily in such cases, the amount of the transaction will be in excess of the required collateral or margin requirements**.
- There is a risk that you will incur losses on your transactions due to changes in the market price of financial instruments based on fluctuations in interest rates, exchange rates, stock prices, real estate prices, commodity prices, and others. In addition, depending on the content of the transaction, the loss could exceed the amount of the collateral or margin requirements.
- There may be a difference between bid price etc. and ask price etc. of OTC derivatives handled by our company.
- Before engaging in any trading, please thoroughly confirm accounting and tax treatments regarding your trading in financial instruments with such experts as certified public accountants.

* The amount of the trading commission cannot be stated here in advance because it will be determined between our company and you based on current market conditions and the content of each transaction etc.

** The ratio of margin requirements etc. to the amount of the transaction cannot be stated here in advance because it will be determined between our company and you based on current market conditions and the content of each transaction etc.

When making an actual transaction, please be sure to carefully read the materials presented to you prior to the execution of agreement, and to take responsibility for your own decisions regarding the signing of the agreement with our company.

(from Outperform)

Upgrading: a healthy reset in expectations

- Fine-tuning up our forecasts after the results call
- A healthy wakeup call from the US mid-term elections?
- Upgrading rating to Buy (1) with a revised 12M TP of TWD200

What's new: Following our *results memo* on Vanguard International (VIS), we raise our forecasts and 12M TP and upgrade our rating one notch to Buy (1), given a widened disconnect between strengthened fundamentals yet weakened valuations. Assessed in our *Asia Foundry report*, VIS's wafer loadings should approach full through 2027, thanks to demand spillover from AI scaling augmented by TSMC's fab optimisation, with better ASP adding to growth. While the equity markets appear to be haunted by the US mid-term elections, management sees it as a "healthy wakeup call" to anyone with overheated AI expectations; we concur.

What's the impact: **Forecast revisions.** Since operating metrics at VIS look broadly intact except for higher ASP as some customers' previous long-term agreements expired later, we only finetune our forecasts by increasing our 2026-28E EPS 2-6%. We stick with our view that VIS will enjoy counter-seasonal prints through 2027 with sustained strong earnings growth, thanks again to a paradigm shift we've observed in the specialty foundry market benefiting VIS, aided by its fast 12" capacity ramp.

A healthy wake-up call? We were impressed by management's commentary about potential impact from the US mid-term elections that it should cool down any overheated expectations for the AI buildouts in the markets, since deployments among AI factories, power infrastructure, environment and social welfare need to be reviewed and optimised for a right balance. That said, management views this as a healthy wake-up call to the markets since AI has walked in our daily lives, becoming a fundamental demand for an unreversed secular trend. We believe its commentary supports our view calling for likely a soft-landing 2028 when hyperscalers' investments slow down and new supply catches up to help discover inflated demand, fulfil unmet demand and manage excess inventory for a healthy growth and balance between AI and non-AI consumer ecosystems. Though the correction could be painful, the equity markets appear to have discounted this risk now than later, which looks to set a healthy wakeup call to the equity market as well, in our view.

What we recommend: Despite our forecast revisions, we trim our 12M TP for VIS to TWD200 (previous: TWD210), on our lower ROE-adjusted target PBR of 5x (previous: 5.2x) pegging to our lowered target multiple for *TSMC* (2330 TT, TWD2,235, Buy [1]) That said, we upgrade our rating one notch to Buy (1) on valuation grounds with key downside risks of the current chip upturn ending earlier and 12" ramp/execution coming in below expectation.

How we differ: Our 2026-27E EPS are 3-11% above the consensus forecasts likely due to our higher trajectory of ASP assumptions.

Company profile

Founded in December 1994 with stocks listed in March 1998, Vanguard International Semiconductor Corp. (VIS) successfully transformed its business model from memory to complementary metal oxide semiconductor (CMOS) logic foundry focusing on specialty technologies such as mixed signal, power analog and embedded memory, growing as one leading specialty foundry in the world. Leveraging a strategic relationship with its major shareholder TSMC, VIS operates wafer fabs in Taiwan and Singapore, servicing a high variety of customers including fabless chipmakers and IDMs around the world.

ESG analysis

ESG risks

Risks		Management	Analyst comments
G	Executive/board quality	1	VIS's board of directors (BoD) consists of 9 members, including 5 independent directors, representing 56% of the total board seats. The board comprises members with diverse backgrounds in business management, finance, industry, and academia, providing a broad range of expertise and perspectives. We believe the majority-independent board structure and the directors' collective experience in leadership, corporate governance, industry expertise, financial management, risk management, and sustainability strengthen the effectiveness of the BoD and support VIS's long-term growth and corporate governance practices.
	Capital management	1	VIS pays its dividend on a quarterly basis. In the past 5 years, it has managed its dividend payout well, as evidenced by its dividend in dollar terms, where it has never lowered its dividend.
	Related party & transaction	1	Sales to related parties were around 1-2% of its total revenue each year. The percentage is insignificant and thus we see limited risk for VIS.
S	Supply chain management	1	VIS has established a comprehensive sustainable supply chain management framework to ensure suppliers comply with its sustainability requirements covering environmental protection, labor and human rights, occupational health and safety, business ethics, and responsible sourcing. The company requires suppliers to adhere to its "VIS Supplier Code of Conduct" and "Corporate Sustainability Policy", and conducts supplier sustainability assessments and audits as part of its supplier management process. We believe these efforts strengthen VIS's supply chain resilience and help mitigate supply chain risks.
E	Water & wastewater management	2	VIS is committed to improving water efficiency and sustainable water management. In 2022, the company implemented the ISO 46001 Water Efficiency Management System to analyze water consumption patterns, identify significant water-use equipment, evaluate water-saving opportunities, and establish improvement measures. VIS also provides annual water management training at its Taiwan facilities to promote continuous improvement in water-use efficiency. We believe these efforts demonstrate the company's commitment to responsible water stewardship and help reduce operational risks associated with water resources.
E	Waste & hazardous materials management	1	VIS adopts a comprehensive resource management approach to waste management and has established waste management procedures in accordance with ISO 14001 standards. Through dedicated waste management personnel and regular employee training, the company promotes effective waste reduction, classification, collection, storage, and treatment practices across its operations.
E	GHG emissions	1	VIS adopts a source-segregation and multi-stage treatment approach, supported by high-efficiency air pollution control systems, to effectively manage VOC and acidic/alkaline gas emissions from semiconductor manufacturing processes. The company's emission levels remain well below regulatory limits, reflecting its commitment to environmental compliance and sustainable operations.

Note: Management score represents a company's ability to manage/benefit from certain ESG topics. The scores range from 1 to 3, with 1 being the strongest.

Japan - Notification items pursuant to Article 37 of the Financial Instruments and Exchange Law

(This Notification is only applicable to where report is distributed by Daiwa Securities Co. Ltd.)

If you decide to enter into a business arrangement with our company based on the information described in this report, we ask you to pay close attention to the following items.

- In addition to the purchase price of a financial instrument, our company will collect a trading commission* for each transaction as agreed beforehand with you. Since commissions may be included in the purchase price or may not be charged for certain transactions, we recommend that you confirm the commission for each transaction. In some cases, our company also may charge a maximum of ¥2 million per year as a standing proxy fee for our deposit of your securities, if you are a non-resident.
- For derivative and margin transactions etc., our company may require collateral or margin requirements in accordance with an agreement made beforehand with you. Ordinarily in such cases, the amount of the transaction will be in excess of the required collateral or margin requirements**.
- There is a risk that you will incur losses on your transactions due to changes in the market price of financial instruments based on fluctuations in interest rates, exchange rates, stock prices, real estate prices, commodity prices, and others. In addition, depending on the content of the transaction, the loss could exceed the amount of the collateral or margin requirements.
- There may be a difference between bid price etc. and ask price etc. of OTC derivatives handled by our company.
- Before engaging in any trading, please thoroughly confirm accounting and tax treatments regarding your trading in financial instruments with such experts as certified public accountants.

* The amount of the trading commission cannot be stated here in advance because it will be determined between our company and you based on current market conditions and the content of each transaction etc.

** The ratio of margin requirements etc. to the amount of the transaction cannot be stated here in advance because it will be determined between our company and you based on current market conditions and the content of each transaction etc.

When making an actual transaction, please be sure to carefully read the materials presented to you prior to the execution of agreement, and to take responsibility for your own decisions regarding the signing of the agreement with our company.

Chenbro | Asia Pacific

Near-term Momentum Muted; Move to EW

WHAT'S CHANGED

Chenbro (8210.TW)	From	To
Rating	Overweight	**Equal-weight**
Price Target	NT$1,600.00	**NT$630.00**

Longer qualification time for its major ASIC customer's new product should continue to weigh on business momentum and margins in 4Q26. We believe sentiment should remain lukewarm in the near term, and thus downgrade the stock.

Muted momentum in near term: Chenbro's 3Q26 earnings fell short of market expectations by ~30% on lower revenue and margins, owing to customer inventory digestion, a longer qualification process for its ASIC customer's new product and a less favorable revenue mix. Looking to 4Q26, management guided for revenue to stay roughly flat QoQ (Oct at NT$2,308mn, -7% MoM/+16% YoY) and GM to be similar to that in 3Q26, as the overhang of new product qualification extends into 4Q26.

2027 still seen as a good year: We believe it continue to grow along with the new AI server platforms, its customer's share gains and incremental contribution from new products. We now model for revenue to grow by 35% YoY, GM to be roughly flat at 29.3% and EPS to rise 39% YoY for 2027.

More diversification into the AI clusters: Chenbro has been leveraging its existing expertise in mechanical components and customer relationship to diversify from chassis into other mechanical components in AI applications. It started to see more meaningful contribution from racks at 5-10% in 2025, with ~10% likely in 2026 and potentially topping 20% in 2027. For the longer term, it could step into other mechanical components in the liquid cooling space. Although these efforts could open up more opportunities for Chenbro to grow, they don't all carry higher-than-average margins, so potential dilution could be a factor to monitor.

Global footprint continues to expand: To improve its supply chain resilience and local production capability, Chenbro has several capacity expansion plans globally, with Taiwan remaining the hub for high-end production and R&D. In the pipeline, Malaysia will likely see new capacity ramping from 4Q26, Vietnam from 2H27 and US pilot run/MP in 4Q27/2H28. Capex was guided at NT$2.5-3.0bn for 2026.

Downgrade to EW: We believe Chenbro should remain one of the competitive players in the AI mechanical component space, but near-term hiccups might mute business momentum. Despite valuation approaching its trough, we see no strong catalyst in the coming quarters. We thus reduce our rating to EW and lower our PT by 61% to NT$630 (12x 2027e P/E, implying a PEG of 0.3 vs. the average of 0.5 in 2020-25).

Results Summary

Off revenue of NT$7,395mn (-5% QoQ/+31% YoY), GM contracted by 6.8ppt QoQ to 25.8%, mainly due to a less-favorable product mix and costs associated with new product qualification. This was short of MSe at 31.9% and consensus at 30.2%, or by 6.1ppt and 4.3ppt, respectively.

Opex was NT$546mn (opex ratio of 7.4%) vs. MSe of NT$686mn (opex ratio 8.2%) and consensus of NT$617mn (opex ratio 7.5%), leading to operating profit of NT$1,373mn (OPM 18.6%). This was 31% lower than MSe at NT$1,996mn (OPM 23.9%) and 26% lower than consensus at NT$1,854mn (OPM 22.6%).

With a non-op gain of NT$2mn (FX gain of NT$18mn), net profit of NT$1,005mn (EPS NT $8.21) was 33% lower than MSe at NT$1,500mn (EPS NT$12.25) and 29% below consensus at NT$1,412mn (EPS NT$11.25).

Valuation Methodology

Our price target of NT$630 (previously NT$1,600) is derived from 12x 2027e P/E (vs. 27x 2027e previously): We use price/earnings as our valuation methodology because we believe it appropriately captures Chenbro's earnings growth potential. We lower our target multiple to factor in weaker market sentiment toward the stock on softer fundamental performance and overall to AI names, as well as muted near-term business momentum. We believe our target P/E multiple of 12x is justified by an earnings CAGR of 32% seen for 2025-28e, implying a PEG of 0.4. This is lower than the PEG of 0.8 in 2014-24, when the stock traded at an average P/E of 12x for a 15% earnings CAGR.

Bull case scenario value - NT$1,600 (-29%): We apply a 30x P/E multiple (38x 2027e previously) to our base case estimate for 2027. This scenario mainly assumes a better outlook for AI capex and more project wins from new customers.

Bear case scenario value - NT$380 (-42%): We apply a 7x P/E multiple (11x 2027e previously) to our base case estimate for 2027. This scenario mainly assumes lukewarm datacenter demand amid softening IT capex budgets and slower progress in its new product offerings.

Exhibit 5: Chenbro: NTM P/E chart

Risk Reward – Chenbro (8210.TW)

Near-term Momentum Muted

PRICE TARGET NT$630.00

Base case, derived from 12x 2027e P/E. We view our target multiple as justified by the 32% earnings CAGR we see for 2025-28, which implies a PEG of 0.4. This is lower than the average of 0.8 over 2014-24, when the stock was trading at an average P/E of 12x for a 15% earnings CAGR.

EQUAL-WEIGHT THESIS

- We expect Chenbro to benefit from AI deployment as one of the major global chassis suppliers with strong design capability, solid execution and close supply chain partner relationships.
- We view the move into customized rack solutions for its hyperscaler customer as a strategic step that could significantly expand its addressable market.
- Continued diversification of geographic production locations could help mitigate geopolitical risk and strengthen cooperation with customers through geographic proximity.
- That said, its near-term hiccups might mute business momentum. Despite valuation approaching its trough, we see no strong catalyst in the coming few quarters, and rate the stock EW.

BULL CASE NT$1,600.00

30x 2027 P/E

This scenario mainly assumes a better outlook for AI capex and more project wins from new customers.

BASE CASE NT$630.00

12x 2027 P/E

We expect Chenbro to benefit from AI deployment, mainly on the back of cloud capex growth along with higher chassis content and share gains. Its broader product offering by stepping into the customized rack space adds growth opportunities and further margin expansion. That said, near-term momentum should stay muted as the overhang of new product qualification in 3Q26 remains.

BEAR CASE NT$380.00

7x 2027 P/E

This scenario mainly assumes lukewarm datacenter demand amid softening IT capex budgets and slower progress in its new product offerings.

Risk Reward – Chenbro (8210.TW)

RISKS TO PT/RATING

RISKS TO UPSIDE

- Stronger AI capex outlook
- Larger market share gains within existing customers
- Faster penetration into new customers
- Higher entry barrier among peers that leads to higher ASP/profitability
- Better macro outlook

RISKS TO DOWNSIDE

- Softer AI capex
- Less share gains within existing customers
- Slower penetration into new customers
- Intensifying competition leading to lower ASP/profitability
- Continuous macro uncertainties

Ltd., Luxshare Precision Industry Co., Ltd., Pegatron Corporation, Q Technology (Group) Company Ltd, Quanta Computer Inc., Shanghai Conant Optical Co Ltd, Shenzhen Transsion Holdings Co Ltd, Suzhou TFC Optical Communication Co Ltd., TCL Corp., Unimicron, Wistron Corporation, Wiwynn Corp, Xiaomi Corp, Yageo Corp., Yangtze Optical Fibre and Cable JSC Ltd, Zhen Ding, Zhongji Innolight Co Ltd.

Within the last 12 months, Morgan Stanley has either provided or is providing non-investment banking, securities-related services to and/or in the past has entered into an agreement to provide services or has a client relationship with the following company: AAC Technologies Holdings, Accton Technology Corporation, Acer Inc., Asustek Computer Inc., AU Optronics, BYD Electronics, Compal Electronics, E Ink Holdings Inc., Eoptolink Technology Inc Ltd, Giga-Byte Technology Co. Ltd., GoerTek Inc, Hon Hai Precision, Innolux, Lenovo, Lingyi Itech Guangdong Co, Quanta Computer Inc., Xiaomi Corp, Yageo Corp., Zhen Ding.

The equity research analysts or strategists principally responsible for the preparation of Morgan Stanley Research have received compensation based upon various factors, including quality

of research, investor client feedback, stock picking, competitive factors, firm revenues and overall investment banking revenues. Equity Research analysts' or strategists' compensation is not linked to investment banking or capital markets transactions performed by Morgan Stanley or the profitability or revenues of particular trading desks.
Morgan Stanley and its affiliates do business that relates to companies/instruments covered in Morgan Stanley Research, including market making, providing liquidity, fund management, commercial banking, extension of credit, investment services and investment banking. Morgan Stanley sells to and buys from customers the securities/instruments of companies covered in Morgan Stanley Research on a principal basis. Morgan Stanley may have a position in the debt of the Company or instruments discussed in this report. Morgan Stanley trades or may trade as principal in the debt securities (or in related derivatives) that are the subject of the debt research report.
Certain disclosures listed above are also for compliance with applicable regulations in non-US jurisdictions.

STOCK RATINGS

Morgan Stanley uses a relative rating system using terms such as Overweight, Equal-weight, Not-Rated or Underweight (see definitions below). Morgan Stanley does not assign ratings of Buy, Hold or Sell to the stocks we cover. Overweight, Equal-weight, Not-Rated and Underweight are not the equivalent of buy, hold and sell. Investors should carefully read the definitions of all ratings used in Morgan Stanley Research. In addition, since Morgan Stanley Research contains more complete information concerning the analyst's views, investors should carefully read Morgan Stanley Research, in its entirety, and not infer the contents from the rating alone. In any case, ratings (or research) should not be used or relied upon as investment advice. An investor's decision to buy or sell a stock should depend on individual circumstances (such as the investor's existing holdings) and other considerations.

Global Stock Ratings Distribution

(as of October 31, 2026)
The Stock Ratings described below apply to Morgan Stanley's Fundamental Equity Research and do not apply to Debt Research produced by the Firm.
For disclosure purposes only (in accordance with FINRA requirements), we include the category headings of Buy, Hold, and Sell alongside our ratings of Overweight, Equal-weight, Not-Rated and Underweight. Morgan Stanley does not assign ratings of Buy, Hold or Sell to the stocks we cover. Overweight, Equal-weight, Not-Rated and Underweight are not the equivalent of buy, hold, and sell but represent recommended relative weightings (see definitions below). To satisfy regulatory requirements, we correspond Overweight, our most positive stock rating, with a buy recommendation; we correspond Equal-weight and Not-Rated to hold and Underweight to sell recommendations, respectively.

	Coverage Universe		Investment Banking Clients (IBC)			Other Material Investment Services Clients (MISC)	
Stock Rating Category	Count	% of Total	Count	% of Total IBC	% of Rating Category	Count	% of Total Other MISC
Overweight/Buy	1575	43%	460	49%	29%	742	44%
Equal-weight/Hold	1537	42%	393	42%	26%	720	43%
Not-Rated/Hold	2	0%	1	0%	50%	1	0%
Underweight/Sell	570	15%	92	10%	16%	218	13%
Total	3,684		946			1681	

Data include common stock and ADRs currently assigned ratings. Investment Banking Clients are companies from whom Morgan Stanley received investment banking compensation in the last 12 months. Due to rounding off of decimals, the percentages provided in the "% of total" column may not add up to exactly 100 percent.

Analyst Stock Ratings

Overweight (O). The stock's total return is expected to exceed the average total return of the analyst's industry (or industry team's) coverage universe, on a risk-adjusted basis, over the next 12-18 months.
Equal-weight (E). The stock's total return is expected to be in line with the average total return of the analyst's industry (or industry team's) coverage universe, on a risk-adjusted basis, over the next 12-18 months.
Not-Rated (NR). Currently the analyst does not have adequate conviction about the stock's total return relative to the average total return of the analyst's industry (or industry team's) coverage universe, on a risk-adjusted basis, over the next 12-18 months.
Underweight (U). The stock's total return is expected to be below the average total return of the analyst's industry (or industry team's) coverage universe, on a risk-adjusted basis, over the next 12-18 months.
Unless otherwise specified, the time frame for price targets included in Morgan Stanley Research is 12 to 18 months.

Analyst Industry Views

Attractive (A): The analyst expects the performance of his or her industry coverage universe over the next 12-18 months to be attractive vs. the relevant broad market benchmark, as indicated below.
In-Line (I): The analyst expects the performance of his or her industry coverage universe over the next 12-18 months to be in line with the relevant broad market benchmark, as indicated below.
Cautious (C): The analyst views the performance of his or her industry coverage universe over the next 12-18 months with caution vs. the relevant broad market benchmark, as indicated below.
Benchmarks for each region are as follows: North America - S&P 500; Latin America - relevant MSCI country index or MSCI Latin America Index; Europe - MSCI Europe; Japan - TOPIX; Asia - relevant MSCI country index or MSCI sub-regional index or MSCI AC Asia Pacific ex Japan Index.

Important Disclosures for Morgan Stanley Smith Barney LLC Customers

Important disclosures regarding any material conflict of interest that can reasonably be expected to have influenced Morgan Stanley Smith Barney LLC's choice of a third-party research provider or the subject company of a third-party research report, are available on the Morgan Stanley Wealth Management disclosure website at www.morganstanley.com/online/researchdisclosures. For Morgan Stanley specific disclosures, you may refer to https://www.morganstanley.com/eqr/disclosures/webapp/generalresearch.

Each Morgan Stanley research report is reviewed and approved on behalf of Morgan Stanley Smith Barney LLC. This review and approval is conducted by the same person who reviews the research report on behalf of Morgan Stanley. This could create a conflict of interest.

Other Important Disclosures

Morgan Stanley Research policy is to update research reports as and when the Research Analyst and Research Management deem appropriate, based on developments with the issuer, the sector, or the market that may have a material impact on the research views or opinions stated therein. In addition, certain Research publications are intended to be updated on a regular periodic basis (weekly/monthly/quarterly/annual) and will ordinarily be updated with that frequency, unless the Research Analyst and Research Management determine that a different publication schedule is appropriate based on current conditions.

Morgan Stanley is not acting as a municipal advisor and the opinions or views contained herein are not intended to be, and do not constitute, advice within the meaning of Section 975 of the Dodd-Frank Wall Street Reform and Consumer Protection Act.

Morgan Stanley produces an equity research product called a "Tactical Idea." Views contained in a "Tactical Idea" on a particular stock may be contrary to the recommendations or views expressed in research on the same stock. This may be the result of differing time horizons, methodologies, market events, or other factors. For all research available on a particular stock, please contact your sales representative or go to Matrix at http://www.morganstanley.com/matrix.

Morgan Stanley Research is provided to our clients through our proprietary research portal on Matrix and also distributed electronically by Morgan Stanley to clients. Certain, but not all, Morgan Stanley Research products are also made available to clients through third-party vendors or redistributed to clients through alternate electronic means as a convenience. For access to all available Morgan Stanley Research, please contact your sales representative or go to Matrix at http://www.morganstanley.com/matrix.

Any access and/or use of Morgan Stanley Research is subject to Morgan Stanley's Terms of Use (http://www.morganstanley.com/terms.html). By accessing and/or using Morgan Stanley Research, you are indicating that you have read and agree to be bound by our Terms of Use (http://www.morganstanley.com/terms.html). In addition you consent to Morgan Stanley processing your personal data and using cookies in accordance with our Privacy Policy and our Global Cookies Policy (http://www.morganstanley.com/privacy_pledge.html), including for the purposes of setting your preferences and to collect readership data so that we can deliver better and more personalized service and products to you. To find out more information about how Morgan Stanley processes personal data, how we use cookies and how to reject cookies see our Privacy Policy and our Global Cookies Policy (http://www.morganstanley.com/privacy_pledge.html). If you do not agree to our Terms of Use and/or if you do not wish to provide your consent to Morgan Stanley processing your personal data or using cookies please do not access our research.

Morgan Stanley Research does not provide individually tailored investment advice. Morgan Stanley Research has been prepared without regard to the circumstances and objectives of those who receive it. Morgan Stanley recommends that investors independently evaluate particular investments and strategies, and encourages investors to seek the advice of a financial adviser. The appropriateness of an investment or strategy will depend on an investor's circumstances and objectives. The securities, instruments, or strategies discussed in Morgan Stanley Research

may not be suitable for all investors, and certain investors may not be eligible to purchase or participate in some or all of them. Morgan Stanley Research is not an offer to buy or sell or the solicitation of an offer to buy or sell any security/instrument or to participate in any particular trading strategy. The value of and income from your investments may vary because of changes in interest rates, foreign exchange rates, default rates, prepayment rates, securities/instruments prices, market indexes, operational or financial conditions of companies or other factors. There may be time limitations on the exercise of options or other rights in securities/instruments transactions. Past performance is not necessarily a guide to future performance. Estimates of future performance are based on assumptions that may not be realized. If provided, and unless otherwise stated, the closing price on the cover page is that of the primary exchange for the subject company's securities/instruments.

The fixed income research analysts, strategists or economists principally responsible for the preparation of Morgan Stanley Research have received compensation based upon various factors, including quality, accuracy and value of research, firm profitability or revenues (which include fixed income trading and capital markets profitability or revenues), client feedback and competitive factors. Fixed Income Research analysts', strategists' or economists' compensation is not linked to investment banking or capital markets transactions performed by Morgan Stanley or the profitability or revenues of particular trading desks.

The "Important Regulatory Disclosures on Subject Companies" section in Morgan Stanley Research lists all companies mentioned where Morgan Stanley owns 1% or more of a class of common equity securities of the companies. For all other companies mentioned in Morgan Stanley Research, Morgan Stanley may have an investment of less than 1% in securities/instruments or derivatives of securities/instruments of companies and may trade them in ways different from those discussed in Morgan Stanley Research. Employees of Morgan Stanley not involved in the preparation of Morgan Stanley Research may have investments in securities/instruments or derivatives of securities/instruments of companies mentioned and may trade them in ways different from those discussed in Morgan Stanley Research. Derivatives may be issued by Morgan Stanley or associated persons.

With the exception of information regarding Morgan Stanley, Morgan Stanley Research is based on public information. Morgan Stanley makes every effort to use reliable, comprehensive information, but we make no representation that it is accurate or complete. We have no obligation to tell you when opinions or information in Morgan Stanley Research change apart from when we intend to discontinue equity research coverage of a subject company. Facts and views presented in Morgan Stanley Research have not been reviewed by, and may not reflect information known to, professionals in other Morgan Stanley business areas, including investment banking personnel.

Morgan Stanley Research personnel may participate in company events such as site visits and are generally prohibited from accepting payment by the company of associated expenses unless pre-approved by authorized members of Research management.

Morgan Stanley may make investment decisions that are inconsistent with the recommendations or views in this report.

To our readers based in Taiwan or trading in Taiwan securities/instruments: Information on securities/instruments that trade in Taiwan is distributed by Morgan Stanley Taiwan Limited ("MSTL"). Such information is for your reference only. The reader should independently evaluate the investment risks and is solely responsible for their investment decisions. Morgan Stanley Research may not be distributed to the public media or quoted or used by the public media without the express written consent of Morgan Stanley. Any non-customer reader within the scope of Article 7-1 of the Taiwan Stock Exchange Recommendation Regulations accessing and/or receiving Morgan Stanley Research is not permitted to provide Morgan Stanley Research to any third party (including but not limited to related parties, affiliated companies and any other third parties) or engage in any activities regarding Morgan Stanley Research which may create or give the appearance of creating a conflict of interest. Information on securities/instruments that do not trade in Taiwan is for informational purposes only and is not to be construed as a recommendation or a solicitation to trade in such securities/instruments. MSTL may not execute transactions for clients in these securities/instruments.

Cloud Semis: Peak Growth, Less Upside

WHAT'S CHANGED		
Montage Technology Co Ltd (6809.HK)	**From**	**To**
Rating	Overweight	**Equal-weight**
Price Target	HK$432.00	**HK$207.00**
Montage Technology Co Ltd (688008.SS)		
Rating	Overweight	**Equal-weight**
Price Target	Rmb377.00	**Rmb180.00**
Aspeed Technology (5274.TWO)		
Rating	Overweight	**Equal-weight**
Price Target	NT$24,000.00	**NT$14,417.00**

We turn cautious on cloud semis as our US team expects ~20% of 2028 US data center capacity additions could shift to 2029, potentially impacting cloud semis suppliers' 2028 earnings.

Key Takeaways

- Revisions look mature: Earnings-revision breadth is peaking; Asia supply-chain visibility on 2027/28 general-server production is weakening.
- Reduce exposure: Lower Montage estimates; downgrade Aspeed/Montage to EW.

2028 capex under the spotlight. We turned neutral on cloud semi suppliers in September 2024 on capex/revision peaking risks and GB200 execution concerns, then upgraded Aspeed in June 2025 as revisions approached a trough and rack-level execution improved (Cloud semis: time to turn constructive). AI agents reinforced our conviction in inference demand. In our recent note, Cloud Semis: Growing Cloud Capex into 2027, we remained constructive on our Cloud Semis coverage due to ongoing hyperscaler capex growth. However, after the US midterms, we are mindful of delays in project approvals and initiation, and existing labor and material constraints, in terms of what that could mean for hyperscalers' 2028 capex, and the build-out and capex cycle. Therefore, we see rising risks over the next 2-4 quarters for our coverage; earnings growth should provide support, but further multiple expansion may become more difficult, as the direction of growth matters more, even as absolute growth remains strong.

Cut Montage & Aspeed to EW. From our Asia supply-chain perspective, peaking revision breadth and greater uncertainty on 2027/28 general-server production warrants more conservative forecasts. Aspeed: we continue to like the stock from a longer-term perspective given its strong supply chain positioning but see limited rerating potential. Montage: we see potentially slower China procurement and derating risk; structural content growth remains supportive, but exposure reduction is preferable before deceleration. Upside risks include a resumption of earnings improvements, faster deployment and sustained capex acceleration beyond 1Q27.

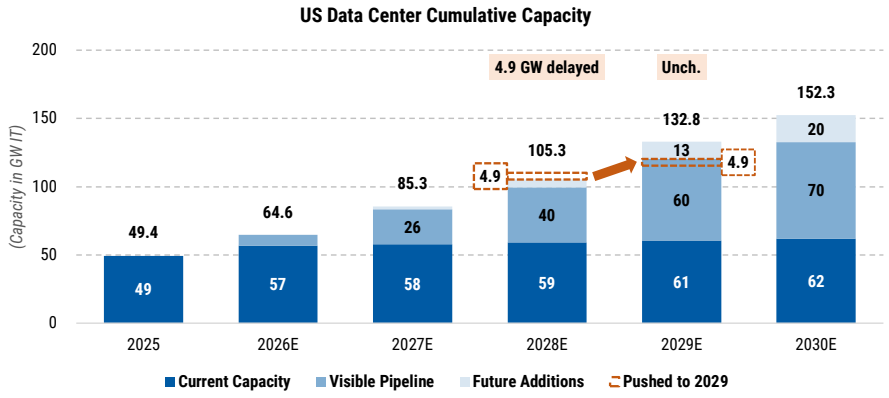
The cloud capex cycle is being impacted by the US midterms: Our US team now expects a **~20%** of 2028 US data center capacity additions to shift to 2029, including some projects in Texas and Ohio, as governors introduce new data center legislation (Buy the Drop: AI Investment Opportunities Post the US Midterms by Stephen Byrd). Stephen has shifted ~5GW of US data center capacity additions from 2028 to 2029 (Exhibit 1) (equivalent to 20% of US and 10% of global 2028 capacity additions). This implies US data center GW additions decline 4% Y/Y in 2028 before rising 38% Y/Y in 2029, while global data center additions increase 9% and 20% Y/Y in 2028 and 2029. Our US team believes this could create an air pocket across the tech supply chain in 2028, potentially reducing pricing power and leading to a inventory build. Despite potential project delays, our US team maintains its hyperscaler capex forecasts (Buy the Drop: AI Investment Opportunities Post the US Midterms) at US$1.6trn/US$1.8trn in 2027/28 (Exhibit 4), as it expects the hyperscalers to spend and build as much capacity as they can, while attempting to adjust their build locations to other states that are more data center friendly (like Tennessee, Louisiana, and others).

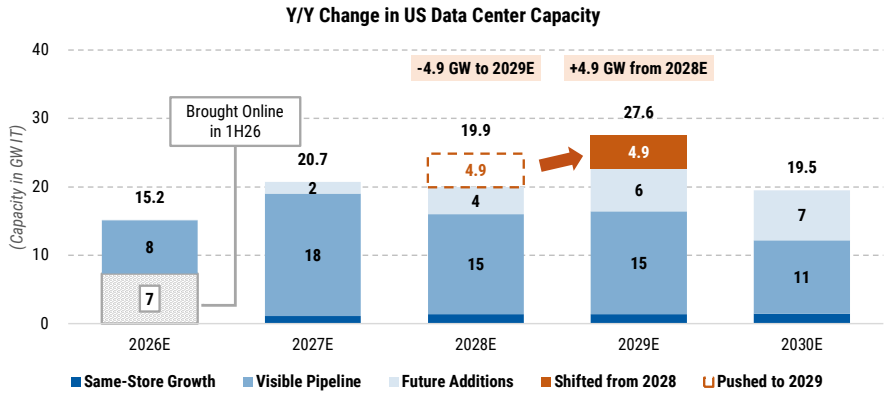
Key Charts

Exhibit 1: US team now expects ~5 GW of capacity to be delayed from 2028 to 2029, reducing capacity estimates in 2028 while leaving 2029+ unchanged



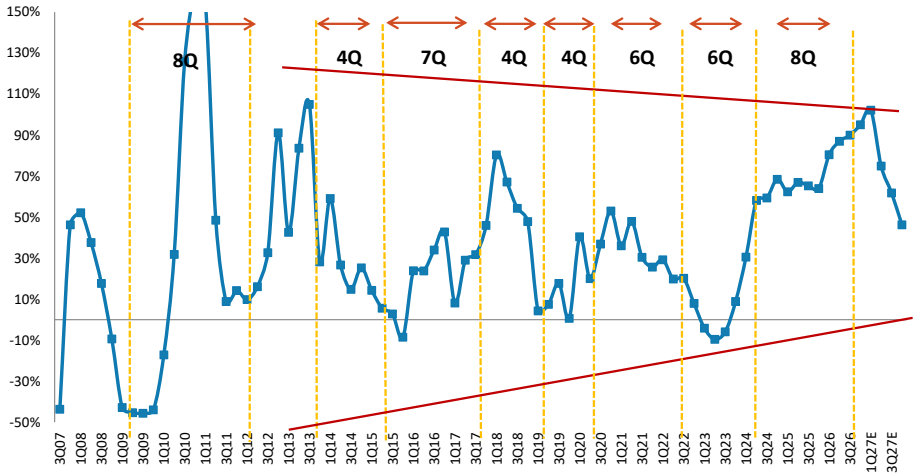
Source: Morgan Stanley US Research estimates

Exhibit 2: US team now expects a y/y incremental 19.9 GW to come online in the US in 2028 and 27.6 GW in 2029, while leaving the build-out unchanged in 2030



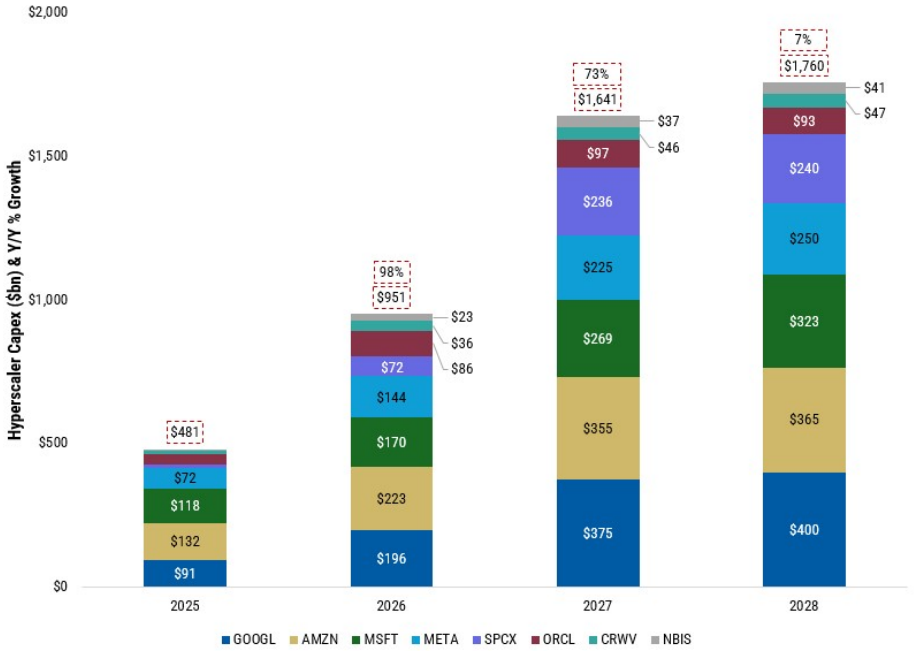
Source: Morgan Stanley US Research estimates

Exhibit 3: US cloud capex was +90% Y/Y in 3Q26, up from +87% in 2Q26



Source: Company data, Morgan Stanley US Research estimates; US cloud capex calculated from Alphabet, Microsoft, Amazon, and Meta.

Exhibit 4: Our US team's hyperscaler capex forecasts remain unchanged at $1.6T/ $1.8T in '27/'28…with potential downward bias in '28 if builds are delayed



Source: Company data, Morgan Stanley US Research estimates

Aspeed: Estimate Revisions

We raise our EPS estimates by 6%/10%/10% for 2026/27/28, respectively: We incorporate preliminary 3Q26 results, and adjust our share-count assumptions to reflect the latest figures, which drives most of our EPS revisions. Our revenue and net income estimates remain largely unchanged.

Aspeed: Valuation Methodology

We cut our price target (base case scenario value) from NT$24,000 to NT$14,417: This primarily reflects lower growth assumptions, alongside earnings revisions. We reduce our terminal growth rate from 5.5% to 3.0% to better align with macro growth outlook, and reduce our intermediate growth rate from 21.4% to 18.0% to reflect a potential slowdown in market demand. Other key assumptions are unchanged, including:

- Cash payout ratio of 85%
- Cost of equity of 9.8% (2% risk-free rate, 6% risk premium, 1.3 beta)

Our bull and bear case scenario values also decrease from NT$29,300 and NT$11,500, to NT$17,600 and NT$6,900, respectively, implying 51x/20x our 2027e EPS estimates.

Risk Reward – Aspeed Technology (5274.TWO)

Peak Growth, Less Upside; EW

PRICE TARGET NT$14,417.00

Base case, residual income model. Key assumptions:
- Cost of equity of 9.8% (2.0% risk-free rate, 6% risk premium, 1.3 beta)
- Medium-term growth rate of 18.0%
- Terminal growth rate of 3.0%
- Cash payout ratio of 85%

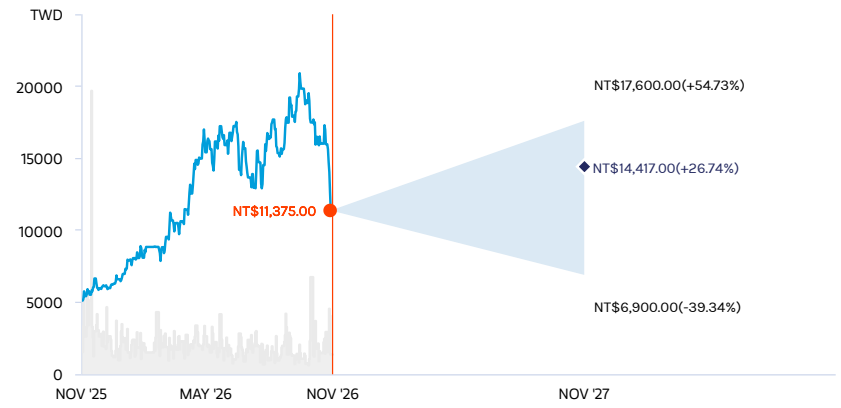
RISK REWARD CHART



Key: Historical Stock Performance Current Stock Price Price Target

Source: Refinitiv, Morgan Stanley Research

EQUAL-WEIGHT THESIS

- Cloud capex Y/Y growth could peak in 1Q27, and Asia supply-chain order visibility is weakening.
- Aspeed's shipments are currently capped by T-glass shortage, but the company is now qualifying E-glass, which we believe can help expand its shipments to over 2mn units per month.
- Aspeed maintains the lion's share in ASIC racks. Google TPU has long adopted MCU, while we see it utilizing Aspeed's BMC in its next-generation TPU. We expect this to contribute 13% of revenue in 2027.
- Our price target implies 42x our 2027e EPS, in line with the 42x average one-year forward P/E since 2020.

Consensus Rating Distribution

Risk Reward Themes

Secular Growth: *Positive*

View descriptions of Risk Rewards Themes here

BULL CASE NT$17,600.00

51x 2027e EPS

Booming data center demand with significant share gains; meaningful OPM expansion; new businesses take off faster than expected: Significant earnings growth from data center demand and market share gains in white brands and US server brands. Margins improve considerably. New business growth accelerates. We also assume AI servers fully ramp-up, and clients execute new server platform migration faster than expected.

BASE CASE NT$14,417.00

42x 2027e EPS

Cloud/traditional servers capex continues but Y/Y growth peaks in 1Q27; remains a beneficiary of ASICs; new business bears fruit: 1) Revenue growth of 59% Y/Y in 2027 after strong growth in 2025/26; 2) gross margin stable at 71-72% in 2027/28; 3) TPU gets more demand from Aspeed's BMC and agentic AI drives more general server demand.

BEAR CASE NT$6,900.00

20x 2027e EPS

Disappointing end-demand, with share loss; operating margin pressure; new businesses face challenges: Revenue growth decelerates on slow data center demand and share loss amid a weakening macro environment. OPM pressure emerges amid intense competition. New businesses stay flattish as end-markets take off more slowly.

Risk Reward – Aspeed Technology (5274.TWO)

KEY EARNINGS INPUTS

Drivers	Dec 2025	Dec 2026e	Dec 2027e	Dec 2028e
BMC revenue (NT$, mn)	8,024	17,701	28,172	37,968
360 degree SoC revenue (NT$, mn)	62	67	95	154
PC/AV extension IC revenue (NT$, mn)	105	44	47	52

INVESTMENT DRIVERS

- Expanding share in baseboard management controller (BMC) market
- Cloud spending acceleration from customers
- Margin expansion
- New business progress

Montage: Estimate Revision Summary

We cut our EPS forecasts by 2%/26%/24% for 2026/27/28. We decrease our 2026/27/28 shipment forecasts for memory interface chips, MRCD/MDB chips and PCIe/CXL chips to reflect lower than previously expected cloud capex demand.

Montage: Valuation Methodology

We cut our A-share price target to Rmb180 from Rmb377: The change reflects our lower earnings estimates. Our price target is our base case value, derived from a residual income (RI) model, which we believe best captures the company's sustainable long-term growth. We also cut our intermediate growth rate estimate from 19.3% to 13.6% to reflect weaker downstream demand estimates. Other RI model assumptions are unchanged, including a 8.4% cost of equity (beta 1.2, risk-free rate 3.0%, and risk premium 4.5%), a payout ratio of 30%, and a terminal growth rate of 4.0%. We apply an updated exchange rate of HK$1.15 : Rmb1, assuming no H-share premium or discount to the A-share, to derive **our H-share price target, which we lower to HK$207 from HK$432.**

For the A-share, we cut our bull case value to Rmb218 from Rmb472, and our bear case value to Rmb83 from Rmb171. For the H-share, we cut our bull case value to HK$259 from HK$540, and our bear case value to HK$94 from HK$196. These revisions are in line with our base case value changes.

Risk Reward – Montage Technology Co Ltd (6809.HK)

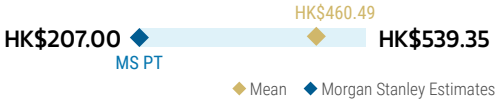
Structural content growth remains supportive, but facing potential slowdown; EW

PRICE TARGET HK$207.00

Base case, residual income model. Key assumptions:
- 8.4% CoE (1.2 beta, 3.0% risk-free rate, and 4.5% risk premium)
- 30% payout ratio
- 13.6% medium-term growth rate
- 4% terminal growth rate

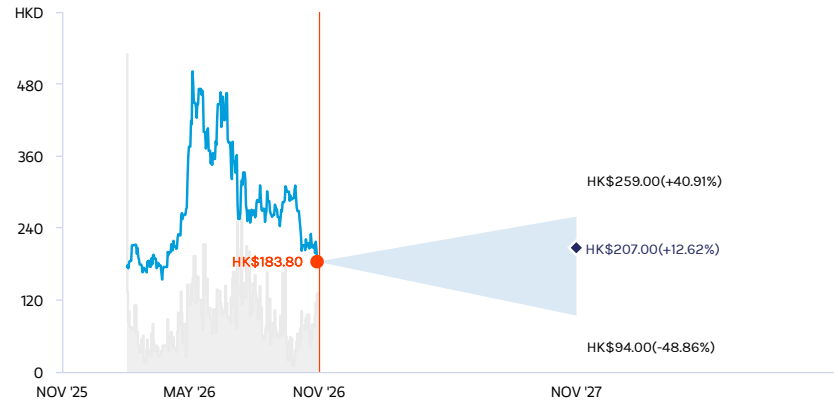
These assumptions reflect cloud capex growth, DRAM interface technology migration, and Montage's strong position in China's datacenter semi localization. We then apply an exchange rate of HK$1.15 HKD:Rmb1, assuming no H-share discount to the A-share.

Consensus Price Target Distribution



Source: Refinitiv, Morgan Stanley Research

RISK REWARD CHART



Key: Historical Stock Performance Current Stock Price Price Target

Source: Refinitiv, Morgan Stanley Research

EQUAL-WEIGHT THESIS

- Montage is China's only pure datacenter player, with the majority of its revenue generated from interconnect chips, mainly memory interconnect chips for server DRAM.
- Core DRAM interconnect business is levered to the global cloud capex/memory super cycle.
- New AI business including MRCD/MDB, PCIe retimers, and PCIe switch is benefiting from AI server demand.
- China semi localization is driving market share gains, especially for PCIe products.
- However, we note a potential slower China procurement and derating risk.
- Our PT implies 37x 2027e P/E, vs the A-share historical average of 70x since 2020.

BULL CASE HK$259.00

44x 2027e EPS

We assume 60%+ revenue CAGR in 2025-28e: Memory interface should benefit from continued cloud cycle and spec upgrade, achieving 35%+ revenue CAGR in 2025-28e. MRCD/MDB should receive orders from more major customers. PCIe retimer / PCIe switch should see large-scale adoption by overseas customers, and CXL MXC adoption exceeds expectations.

BASE CASE HK$207.00

37x 2027e EPS

We expect 43% revenue CAGR in 2025-28e: Memory interface should benefit from continued cloud cycle and spec upgrade, driving 23% revenue CAGR in 2025-28e. MRCD/MDB revenue should reach ~Rmb1.4bn by 2028e. PCIe retimer/ PCIe switch / CXL MXC should generate Rmb3.2bn/2.2bn/2.5bn by 2028e, respectively.

BEAR CASE HK$94.00

17x 2027e EPS

We assume <20% revenue CAGR in 2025-28e: Memory interface could be impacted by a cloud cycle downturn or slower spec upgrades. Revenue contribution from MRCD/MDB, PCIe retimer, CXL MXC could be limited. PCIe switch product launch is delayed.

Risk Reward – Montage Technology Co Ltd (6809.HK)

Important Regulatory Disclosures on Subject Companies

As of October 30, 2026, Morgan Stanley beneficially owned 1% or more of a class of common equity securities of the following companies covered in Morgan Stanley Research: ACM Research Inc, Advanced Micro-Fabrication Equipment Inc, Advanced Wireless Semiconductor Co, Alchip Technologies Ltd, AllRing Tech Co., AP Memory Technology Corp, ASE Technology Holding Co. Ltd., ASMedia Technology Inc, ASMPT Ltd, Aspeed Technology, Cambricon Technology Corporation, eMemory Technology Inc, GigaDevice Semiconductor Beijing Inc, Gudeng Precision, Hua Hong Semiconductor Ltd, Macronix International Co Ltd, Montage Technology Co Ltd, NAURA Technology Group Co Ltd, Nuvoton Technology Corporation, Parade Technologies Ltd, Phison Electronics Corp, Powerchip Semiconductor Manufacturing Co, SG Micro Corp., Shanghai Fudan Microelectronics, SICC Co Ltd, Silergy Corp., Silicon Motion, StarPower Semiconductor Ltd, TSMC, UMC, Vanguard International Semiconductor, WIN Semiconductors Corp, WPG Holdings, WT Microelectronics Co. Ltd..

Within the last 12 months, Morgan Stanley managed or co-managed a public offering (or 144A offering) of securities of Alchip Technologies Ltd, Iluvatar CoreX Semiconductor Co., Ltd., MediaTek, Montage Technology Co Ltd, Powerchip Semiconductor Manufacturing Co, UMC.

Within the last 12 months, Morgan Stanley has received compensation for investment banking services from ASMPT Ltd, Iluvatar CoreX Semiconductor Co., Ltd., MediaTek, Montage Technology Co Ltd, Powerchip Semiconductor Manufacturing Co, Silicon Motion, UMC.

In the next 3 months, Morgan Stanley expects to receive or intends to seek compensation for investment banking services from Advanced Micro-Fabrication Equipment Inc, Alchip Technologies Ltd, AP Memory Technology Corp, ASE Technology Holding Co. Ltd., ASMedia Technology Inc, ASMPT Ltd, Aspeed Technology, CXMT Corp, Espressif Systems, GigaDevice Semiconductor Beijing Inc, GlobalWafers Co Ltd, Gudeng Precision, Himax Technologies Inc, Hua Hong Semiconductor Ltd, Iluvatar CoreX Semiconductor Co., Ltd., Innoscience, King Yuan Electronics Co Ltd, Macronix International Co Ltd, MediaTek, MetaX Integrated Circuits, Montage Technology Co Ltd, Novatek, Parade Technologies Ltd, Phison Electronics Corp, Powerchip Semiconductor Manufacturing Co, Realtek Semiconductor, SG Micro Corp., SICC Co Ltd, Silergy Corp., Silicon Motion, TSMC, UMC, Universal Scientific Ind. (Shanghai), Vanguard International Semiconductor, Winbond Electronics Corp, WPG Holdings, WT Microelectronics Co. Ltd..

Within the last 12 months, Morgan Stanley has received compensation for products and services other than investment banking services from ASE Technology Holding Co. Ltd., King Yuan Electronics Co Ltd, MediaTek, Nanya Technology Corp., Novatek, Nuvoton Technology Corporation, Realtek Semiconductor, Silicon Motion, SMIC, TSMC, UMC, Universal Scientific Ind. (Shanghai), Winbond Electronics Corp, WT Microelectronics Co. Ltd..

Within the last 12 months, Morgan Stanley has provided or is providing investment banking services to, or has an investment banking client relationship with, the following company: Advanced Micro-Fabrication Equipment Inc, Alchip Technologies Ltd, AP Memory Technology Corp, ASE Technology Holding Co. Ltd., ASMedia Technology Inc, ASMPT Ltd, Aspeed Technology, CXMT Corp, Espressif Systems, GigaDevice Semiconductor Beijing Inc, GlobalWafers Co Ltd, Gudeng Precision, Himax Technologies Inc, Hua Hong Semiconductor Ltd, Iluvatar CoreX Semiconductor Co., Ltd., Innoscience, King Yuan Electronics Co Ltd, Macronix International Co Ltd, MediaTek, MetaX Integrated Circuits, Montage Technology Co Ltd, Novatek, Parade Technologies Ltd, Phison Electronics Corp, Powerchip Semiconductor Manufacturing Co, Realtek Semiconductor, SG Micro Corp., SICC Co Ltd, Silergy Corp., Silicon Motion, TSMC, UMC, Universal Scientific Ind. (Shanghai), Vanguard International Semiconductor, Winbond Electronics Corp, WPG Holdings, WT Microelectronics Co. Ltd..

Within the last 12 months, Morgan Stanley has either provided or is providing non-investment banking, securities-related services to and/or in the past has entered into an agreement to provide services or has a client relationship with the following company: ASE Technology Holding Co. Ltd., Iluvatar CoreX Semiconductor Co., Ltd., King Yuan Electronics Co Ltd, MediaTek, Montage Technology Co Ltd, Nanya Technology Corp., Novatek, Nuvoton Technology Corporation, Realtek Semiconductor, Silicon Motion, SMIC, TSMC, UMC, Universal Scientific Ind. (Shanghai), Winbond Electronics Corp, WT Microelectronics Co. Ltd..

Morgan Stanley & Co. LLC makes a market in the securities of ACM Research Inc.

The equity research analysts or strategists principally responsible for the preparation of Morgan Stanley Research have received compensation based upon various factors, including quality

of research, investor client feedback, stock picking, competitive factors, firm revenues and overall investment banking revenues. Equity Research analysts' or strategists' compensation is not linked to investment banking or capital markets transactions performed by Morgan Stanley or the profitability or revenues of particular trading desks.
Morgan Stanley and its affiliates do business that relates to companies/instruments covered in Morgan Stanley Research, including market making, providing liquidity, fund management, commercial banking, extension of credit, investment services and investment banking. Morgan Stanley sells to and buys from customers the securities/instruments of companies covered in Morgan Stanley Research on a principal basis. Morgan Stanley may have a position in the debt of the Company or instruments discussed in this report. Morgan Stanley trades or may trade as principal in the debt securities (or in related derivatives) that are the subject of the debt research report.
Certain disclosures listed above are also for compliance with applicable regulations in non-US jurisdictions.

STOCK RATINGS

Morgan Stanley uses a relative rating system using terms such as Overweight, Equal-weight, Not-Rated or Underweight (see definitions below). Morgan Stanley does not assign ratings of Buy, Hold or Sell to the stocks we cover. Overweight, Equal-weight, Not-Rated and Underweight are not the equivalent of buy, hold and sell. Investors should carefully read the definitions of all ratings used in Morgan Stanley Research. In addition, since Morgan Stanley Research contains more complete information concerning the analyst's views, investors should carefully read Morgan Stanley Research, in its entirety, and not infer the contents from the rating alone. In any case, ratings (or research) should not be used or relied upon as investment advice. An investor's decision to buy or sell a stock should depend on individual circumstances (such as the investor's existing holdings) and other considerations.

Global Stock Ratings Distribution

(as of October 31, 2026)
The Stock Ratings described below apply to Morgan Stanley's Fundamental Equity Research and do not apply to Debt Research produced by the Firm.
For disclosure purposes only (in accordance with FINRA requirements), we include the category headings of Buy, Hold, and Sell alongside our ratings of Overweight, Equal-weight, Not-Rated and Underweight. Morgan Stanley does not assign ratings of Buy, Hold or Sell to the stocks we cover. Overweight, Equal-weight, Not-Rated and Underweight are not the equivalent of buy, hold, and sell but represent recommended relative weightings (see definitions below). To satisfy regulatory requirements, we correspond Overweight, our most positive stock rating, with a buy recommendation; we correspond Equal-weight and Not-Rated to hold and Underweight to sell recommendations, respectively.

	Coverage Universe		Investment Banking Clients (IBC)			Other Material Investment Services Clients (MISC)	
Stock Rating Category	Count	% of Total	Count	% of Total IBC	% of Rating Category	Count	% of Total Other MISC
Overweight/Buy	1575	43%	460	49%	29%	742	44%
Equal-weight/Hold	1537	42%	393	42%	26%	720	43%
Not-Rated/Hold	2	0%	1	0%	50%	1	0%
Underweight/Sell	570	15%	92	10%	16%	218	13%
Total	3,684		946			1681	

Data include common stock and ADRs currently assigned ratings. Investment Banking Clients are companies from whom Morgan Stanley received investment banking compensation in the last 12 months. Due to rounding off of decimals, the percentages provided in the "% of total" column may not add up to exactly 100 percent.

Analyst Stock Ratings

Overweight (O). The stock's total return is expected to exceed the average total return of the analyst's industry (or industry team's) coverage universe, on a risk-adjusted basis, over the next 12-18 months.
Equal-weight (E). The stock's total return is expected to be in line with the average total return of the analyst's industry (or industry team's) coverage universe, on a risk-adjusted basis, over the next 12-18 months.
Not-Rated (NR). Currently the analyst does not have adequate conviction about the stock's total return relative to the average total return of the analyst's industry (or industry team's) coverage universe, on a risk-adjusted basis, over the next 12-18 months.
Underweight (U). The stock's total return is expected to be below the average total return of the analyst's industry (or industry team's) coverage universe, on a risk-adjusted basis, over the next 12-18 months.
Unless otherwise specified, the time frame for price targets included in Morgan Stanley Research is 12 to 18 months.

Analyst Industry Views

Attractive (A): The analyst expects the performance of his or her industry coverage universe over the next 12-18 months to be attractive vs. the relevant broad market benchmark, as indicated below.
In-Line (I): The analyst expects the performance of his or her industry coverage universe over the next 12-18 months to be in line with the relevant broad market benchmark, as indicated below.
Cautious (C): The analyst views the performance of his or her industry coverage universe over the next 12-18 months with caution vs. the relevant broad market benchmark, as indicated below.
Benchmarks for each region are as follows: North America - S&P 500; Latin America - relevant MSCI country index or MSCI Latin America Index; Europe - MSCI Europe; Japan - TOPIX; Asia - relevant MSCI country index or MSCI sub-regional index or MSCI AC Asia Pacific ex Japan Index.

Important Disclosures for Morgan Stanley Smith Barney LLC Customers

Important disclosures regarding any material conflict of interest that can reasonably be expected to have influenced Morgan Stanley Smith Barney LLC's choice of a third-party research provider or the subject company of a third-party research report, are available on the Morgan Stanley Wealth Management disclosure website at www.morganstanley.com/online/researchdisclosures.

For Morgan Stanley specific disclosures, you may refer to https://www.morganstanley.com/eqr/disclosures/webapp/generalresearch.

Each Morgan Stanley research report is reviewed and approved on behalf of Morgan Stanley Smith Barney LLC. This review and approval is conducted by the same person who reviews the research report on behalf of Morgan Stanley. This could create a conflict of interest.

Other Important Disclosures

Morgan Stanley Research policy is to update research reports as and when the Research Analyst and Research Management deem appropriate, based on developments with the issuer, the sector, or the market that may have a material impact on the research views or opinions stated therein. In addition, certain Research publications are intended to be updated on a regular periodic basis (weekly/monthly/quarterly/annual) and will ordinarily be updated with that frequency, unless the Research Analyst and Research Management determine that a different publication schedule is appropriate based on current conditions.

Morgan Stanley is not acting as a municipal advisor and the opinions or views contained herein are not intended to be, and do not constitute, advice within the meaning of Section 975 of the Dodd-Frank Wall Street Reform and Consumer Protection Act.

Morgan Stanley produces an equity research product called a "Tactical Idea." Views contained in a "Tactical Idea" on a particular stock may be contrary to the recommendations or views expressed in research on the same stock. This may be the result of differing time horizons, methodologies, market events, or other factors. For all research available on a particular stock, please contact your sales representative or go to Matrix at http://www.morganstanley.com/matrix.

Morgan Stanley Research is provided to our clients through our proprietary research portal on Matrix and also distributed electronically by Morgan Stanley to clients. Certain, but not all, Morgan Stanley Research products are also made available to clients through third-party vendors or redistributed to clients through alternate electronic means as a convenience. For access to all available Morgan Stanley Research, please contact your sales representative or go to Matrix at http://www.morganstanley.com/matrix.

Any access and/or use of Morgan Stanley Research is subject to Morgan Stanley's Terms of Use (http://www.morganstanley.com/terms.html). By accessing and/or using Morgan Stanley Research, you are indicating that you have read and agree to be bound by our Terms of Use (http://www.morganstanley.com/terms.html). In addition you consent to Morgan Stanley processing your personal data and using cookies in accordance with our Privacy Policy and our Global Cookies Policy (http://www.morganstanley.com/privacy_pledge.html), including for the purposes of setting your preferences and to collect readership data so that we can deliver better and more personalized service and products to you. To find out more information about how Morgan Stanley processes personal data, how we use cookies and how to reject cookies see our Privacy Policy and our Global Cookies Policy (http://www.morganstanley.com/privacy_pledge.html). If you do not agree to our Terms of Use and/or if you do not wish to provide your consent to Morgan Stanley processing your personal data or using cookies please do not access our research.

Morgan Stanley Research does not provide individually tailored investment advice. Morgan Stanley Research has been prepared without regard to the circumstances and objectives of those who receive it. Morgan Stanley recommends that investors independently evaluate particular investments and strategies, and encourages investors to seek the advice of a financial adviser. The appropriateness of an investment or strategy will depend on an investor's circumstances and objectives. The securities, instruments, or strategies discussed in Morgan Stanley Research may not be suitable for all investors, and certain investors may not be eligible to purchase or participate in some or all of them. Morgan Stanley Research is not an offer to buy or sell or the solicitation of an offer to buy or sell any security/instrument or to participate in any particular trading strategy. The value of and income from your investments may vary because of changes in interest rates, foreign exchange rates, default rates, prepayment rates, securities/instruments prices, market indexes, operational or financial conditions of companies or other factors. There may be time limitations on the exercise of options or other rights in securities/instruments transactions. Past performance is not necessarily a guide to future performance. Estimates of future performance are based on assumptions that may not be realized. If provided, and unless otherwise stated, the closing price on the cover page is that of the primary exchange for the subject company's securities/instruments.

The fixed income research analysts, strategists or economists principally responsible for the preparation of Morgan Stanley Research have received compensation based upon various factors, including quality, accuracy and value of research, firm profitability or revenues (which include fixed income trading and capital markets profitability or revenues), client feedback and competitive factors. Fixed Income Research analysts', strategists' or economists' compensation is not linked to investment banking or capital markets transactions performed by Morgan Stanley or the profitability or revenues of particular trading desks.

The "Important Regulatory Disclosures on Subject Companies" section in Morgan Stanley Research lists all companies mentioned where Morgan Stanley owns 1% or more of a class of common equity securities of the companies. For all other companies mentioned in Morgan Stanley Research, Morgan Stanley may have an investment of less than 1% in securities/instruments or derivatives of securities/instruments of companies and may trade them in ways different from those discussed in Morgan Stanley Research. Employees of Morgan Stanley not involved in the preparation of Morgan Stanley Research may have investments in securities/instruments or derivatives of securities/instruments of companies mentioned and may trade them in ways different from those discussed in Morgan Stanley Research. Derivatives may be issued by Morgan Stanley or associated persons.

With the exception of information regarding Morgan Stanley, Morgan Stanley Research is based on public information. Morgan Stanley makes every effort to use reliable, comprehensive information, but we make no representation that it is accurate or complete. We have no obligation to tell you when opinions or information in Morgan Stanley Research change apart from when we intend to discontinue equity research coverage of a subject company. Facts and views presented in Morgan Stanley Research have not been reviewed by, and may not reflect information known to, professionals in other Morgan Stanley business areas, including investment banking personnel.

Morgan Stanley Research personnel may participate in company events such as site visits and are generally prohibited from accepting payment by the company of associated expenses unless pre-approved by authorized members of Research management.

Morgan Stanley may make investment decisions that are inconsistent with the recommendations or views in this report.

To our readers based in Taiwan or trading in Taiwan securities/instruments: Information on securities/instruments that trade in Taiwan is distributed by Morgan Stanley Taiwan Limited ("MSTL"). Such information is for your reference only. The reader should independently evaluate the investment risks and is solely responsible for their investment decisions. Morgan Stanley Research may not be distributed to the public media or quoted or used by the public media without the express written consent of Morgan Stanley. Any non-customer reader within the scope of Article 7-1 of the Taiwan Stock Exchange Recommendation Regulations accessing and/or receiving Morgan Stanley Research is not permitted to provide Morgan Stanley Research to any third party (including but not limited to related parties, affiliated companies and any other third parties) or engage in any activities regarding Morgan Stanley Research which may create or give the appearance of creating a conflict of interest. Information on securities/instruments that do not trade in Taiwan is for informational purposes only and is not to be construed as a recommendation or a solicitation to trade in such securities/instruments. MSTL may not execute transactions for clients in these securities/instruments.

Morgan Stanley | RESEARCH

UPDATE

November 9, 2026 03:21 PM GMT

Delta Electronics Inc. | Asia Pacific

October Sales +14% MoM/ +30% YoY

In this report, we focus on Delta's monthly sales, which we believe could be a catalyst for its share price.

Details:

- October sales came in at NT$74,666mn (+14% MoM/+30% YoY), driven by the increasing shipment of power supply units, HVDC power racks, and liquid cooling products.
- QTD revenue reached 35% of MSe at NT$215,881mn (+10% QoQ/+34% YoY), and 34% of consensus at NT$219,806mn (+12% QoQ/+36% YoY).

Our view:

- We think 4Q26 revenue is tracking slightly ahead of market expectations.
- We think the slightly better Oct monthly sales should help on near-term sentiment, though more meaningful upside to market expectations on earnings growth might depend on the penetration of HVDC power racks into the coming years.
- We continue to see Delta as a key beneficiary of the increasing power consumption of AI clusters through its comprehensive power/cooling offerings. Stay OW.

Exhibit 1: Delta's monthly sales vs. its share price

Valuation Methodology and Risks

Delta Electronics Inc. (2308.TW)

Base case: P/E multiple of 30x based on average 2027-28e EPS. We believe our target multiple is justified by the 59% earnings CAGR we estimate for 2025-28, implying a PEG of 0.5, versus the stock's ~23x P/E and 23% earnings CAGR during 2022-25, which implied a PEG of 1.0.

Risks to Upside

- Faster-than-expected global economic growth
- Falling raw material prices
- Margin improvement

Risks to Downside

- Global economic slowdown
- Ongoing component supply tightness
- Rising raw material prices
- Margin contraction as a result of higher operating expenses or faster ASP erosion

Important Regulatory Disclosures on Subject Companies

As of October 30, 2026, Morgan Stanley beneficially owned 1% or more of a class of common equity securities of the following companies covered in Morgan Stanley Research: AAC Technologies Holdings, Accelink Technologies Co. Ltd., Accton Technology Corporation, Acer Inc., AirTAC International, Asustek Computer Inc., Auras Technology Co Ltd, Bizlink, Catcher Technology, Co-Tech Development Corp., Compal Electronics, E Ink Holdings Inc., Elite Material Co., Ennostar Inc, Eoptolink Technology Inc Ltd, Fositek Corp, Genius Electronic Optical Co. Ltd., Giga-Byte Technology Co. Ltd., Hiwin Technologies Corp., Largan Precision, Lens Technology, LianChuang Electronic Technology Co Ltd, Lingyi Itech Guangdong Co, Lite-On Technology, Lotes Co. Ltd., Nan Ya PCB, Quectel Wireless Solutions Co Ltd, Sunny Optical, Suzhou TFC Optical Communication Co Ltd., Taiwan Union Technology Corporation, Unimicron, Visual Photonics Epitaxy Co Ltd, Wistron Corporation, Wiwynn Corp, Xiaomi Corp, Yageo Corp., Yangtze Optical Fibre and Cable JSC Ltd, Zhejiang Crystal-Optech Co Ltd, Zhen Ding, Zhongji Innolight Co Ltd, ZTE Corporation.

Within the last 12 months, Morgan Stanley managed or co-managed a public offering (or 144A offering) of securities of Asustek Computer Inc., Unimicron, Wistron Corporation, Wiwynn Corp, Zhen Ding, Zhongji Innolight Co Ltd.

Within the last 12 months, Morgan Stanley has received compensation for investment banking services from Asustek Computer Inc., Lenovo, Unimicron, Wistron Corporation, Wiwynn Corp, Xiaomi Corp, Yageo Corp., Zhen Ding, Zhongji Innolight Co Ltd.

In the next 3 months, Morgan Stanley expects to receive or intends to seek compensation for investment banking services from AAC Technologies Holdings, Accton Technology Corporation, Acer Inc., Advantech, AirTAC International, Asustek Computer Inc., AU Optronics, Bizlink, BOE Technology, Catcher Technology, Chenbro, Compal Electronics, **Delta Electronics Inc.**, E Ink Holdings Inc., Elite Material Co., Ennostar Inc, Eoptolink Technology Inc Ltd, FIT Hon Teng Ltd, Giga-Byte Technology Co. Ltd., Gold Circuit Electronics Ltd., Hon Hai Precision, Huaqin Co.,Ltd., Innolux, Lenovo, Lens Technology, Lingyi Itech Guangdong Co, Lite-On Technology, Lotes Co. Ltd., Luxshare Precision Industry Co., Ltd., Pegatron Corporation, Q Technology (Group) Company Ltd, Quanta Computer Inc., Shanghai Conant Optical Co Ltd, Shenzhen Transsion Holdings Co Ltd, Suzhou TFC Optical Communication Co Ltd., TCL Corp., Unimicron, Wistron Corporation, Wiwynn Corp, Xiaomi Corp, Yageo Corp., Yangtze Optical Fibre and Cable JSC Ltd, Zhen Ding, Zhongji Innolight Co Ltd.

Within the last 12 months, Morgan Stanley has received compensation for products and services other than investment banking services from AAC Technologies Holdings, Accton Technology Corporation, Acer Inc., Asustek Computer Inc., AU Optronics, BYD Electronics, Compal Electronics, E Ink Holdings Inc., Eoptolink Technology Inc Ltd, Giga-Byte Technology Co. Ltd., GoerTek Inc, Hon Hai Precision, Innolux, Lenovo, Lingyi Itech Guangdong Co, Quanta Computer Inc., Xiaomi Corp, Yageo Corp..

Within the last 12 months, Morgan Stanley has provided or is providing investment banking services to, or has an investment banking client relationship with, the following company: AAC Technologies Holdings, Accton Technology Corporation, Acer Inc., Advantech, AirTAC International, Asustek Computer Inc., AU Optronics, Bizlink, BOE Technology, Catcher Technology, Chenbro, Compal Electronics, **Delta Electronics Inc.**, E Ink Holdings Inc., Elite Material Co., Ennostar Inc, Eoptolink Technology Inc Ltd, FIT Hon Teng Ltd, Giga-Byte Technology Co. Ltd., Gold Circuit Electronics Ltd., Hon Hai Precision, Huaqin Co.,Ltd., Innolux, Lenovo, Lens Technology, Lingyi Itech Guangdong Co, Lite-On Technology, Lotes Co. Ltd., Luxshare Precision Industry Co., Ltd., Pegatron Corporation, Q Technology (Group) Company Ltd, Quanta Computer Inc., Shanghai Conant Optical Co Ltd, Shenzhen Transsion Holdings Co Ltd, Suzhou TFC Optical Communication Co Ltd., TCL Corp., Unimicron, Wistron Corporation, Wiwynn Corp, Xiaomi Corp, Yageo Corp., Yangtze Optical Fibre and Cable JSC Ltd, Zhen Ding, Zhongji Innolight Co Ltd.

Within the last 12 months, Morgan Stanley has either provided or is providing non-investment banking, securities-related services to and/or in the past has entered into an agreement to provide services or has a client relationship with the following company: AAC Technologies Holdings, Accton Technology Corporation, Acer Inc., Asustek Computer Inc., AU Optronics, BYD Electronics, Compal Electronics, E Ink Holdings Inc., Eoptolink Technology Inc Ltd, Giga-Byte Technology Co. Ltd., GoerTek Inc, Hon Hai Precision, Innolux, Lenovo, Lingyi Itech Guangdong Co, Quanta Computer Inc., Xiaomi Corp, Yageo Corp., Zhen Ding.

The equity research analysts or strategists principally responsible for the preparation of Morgan Stanley Research have received compensation based upon various factors, including quality

of research, investor client feedback, stock picking, competitive factors, firm revenues and overall investment banking revenues. Equity Research analysts' or strategists' compensation is not linked to investment banking or capital markets transactions performed by Morgan Stanley or the profitability or revenues of particular trading desks.
Morgan Stanley and its affiliates do business that relates to companies/instruments covered in Morgan Stanley Research, including market making, providing liquidity, fund management, commercial banking, extension of credit, investment services and investment banking. Morgan Stanley sells to and buys from customers the securities/instruments of companies covered in Morgan Stanley Research on a principal basis. Morgan Stanley may have a position in the debt of the Company or instruments discussed in this report. Morgan Stanley trades or may trade as principal in the debt securities (or in related derivatives) that are the subject of the debt research report.
Certain disclosures listed above are also for compliance with applicable regulations in non-US jurisdictions.

STOCK RATINGS

Morgan Stanley uses a relative rating system using terms such as Overweight, Equal-weight, Not-Rated or Underweight (see definitions below). Morgan Stanley does not assign ratings of Buy, Hold or Sell to the stocks we cover. Overweight, Equal-weight, Not-Rated and Underweight are not the equivalent of buy, hold and sell. Investors should carefully read the definitions of all ratings used in Morgan Stanley Research. In addition, since Morgan Stanley Research contains more complete information concerning the analyst's views, investors should carefully read Morgan Stanley Research, in its entirety, and not infer the contents from the rating alone. In any case, ratings (or research) should not be used or relied upon as investment advice. An investor's decision to buy or sell a stock should depend on individual circumstances (such as the investor's existing holdings) and other considerations.

Global Stock Ratings Distribution

(as of October 31, 2026)
The Stock Ratings described below apply to Morgan Stanley's Fundamental Equity Research and do not apply to Debt Research produced by the Firm.
For disclosure purposes only (in accordance with FINRA requirements), we include the category headings of Buy, Hold, and Sell alongside our ratings of Overweight, Equal-weight, Not-Rated and Underweight. Morgan Stanley does not assign ratings of Buy, Hold or Sell to the stocks we cover. Overweight, Equal-weight, Not-Rated and Underweight are not the equivalent of buy, hold, and sell but represent recommended relative weightings (see definitions below). To satisfy regulatory requirements, we correspond Overweight, our most positive stock rating, with a buy recommendation; we correspond Equal-weight and Not-Rated to hold and Underweight to sell recommendations, respectively.

	Coverage Universe		Investment Banking Clients (IBC)			Other Material Investment Services Clients (MISC)	
Stock Rating Category	Count	% of Total	Count	% of Total IBC	% of Rating Category	Count	% of Total Other MISC
Overweight/Buy	1575	43%	460	49%	29%	742	44%
Equal-weight/Hold	1537	42%	393	42%	26%	720	43%
Not-Rated/Hold	2	0%	1	0%	50%	1	0%
Underweight/Sell	570	15%	92	10%	16%	218	13%
Total	3,684		946			1681	

Data include common stock and ADRs currently assigned ratings. Investment Banking Clients are companies from whom Morgan Stanley received investment banking compensation in the last 12 months. Due to rounding off of decimals, the percentages provided in the "% of total" column may not add up to exactly 100 percent.

Analyst Stock Ratings

Overweight (O). The stock's total return is expected to exceed the average total return of the analyst's industry (or industry team's) coverage universe, on a risk-adjusted basis, over the next 12-18 months.
Equal-weight (E). The stock's total return is expected to be in line with the average total return of the analyst's industry (or industry team's) coverage universe, on a risk-adjusted basis, over the next 12-18 months.
Not-Rated (NR). Currently the analyst does not have adequate conviction about the stock's total return relative to the average total return of the analyst's industry (or industry team's) coverage universe, on a risk-adjusted basis, over the next 12-18 months.
Underweight (U). The stock's total return is expected to be below the average total return of the analyst's industry (or industry team's) coverage universe, on a risk-adjusted basis, over the next 12-18 months.
Unless otherwise specified, the time frame for price targets included in Morgan Stanley Research is 12 to 18 months.

Analyst Industry Views

Attractive (A): The analyst expects the performance of his or her industry coverage universe over the next 12-18 months to be attractive vs. the relevant broad market benchmark, as indicated below.
In-Line (I): The analyst expects the performance of his or her industry coverage universe over the next 12-18 months to be in line with the relevant broad market benchmark, as indicated below.
Cautious (C): The analyst views the performance of his or her industry coverage universe over the next 12-18 months with caution vs. the relevant broad market benchmark, as indicated below.
Benchmarks for each region are as follows: North America - S&P 500; Latin America - relevant MSCI country index or MSCI Latin America Index; Europe - MSCI Europe; Japan - TOPIX; Asia - relevant MSCI country index or MSCI sub-regional index or MSCI AC Asia Pacific ex Japan Index.

Effective January 13, 2014, the industry view benchmarks for Morgan Stanley Asia Pacific are as follows: relevant MSCI country index or MSCI sub-regional index or MSCI AC Asia Pacific ex Japan Index.

Important Disclosures for Morgan Stanley Smith Barney LLC Customers

Important disclosures regarding any material conflict of interest that can reasonably be expected to have influenced Morgan Stanley Smith Barney LLC's choice of a third-party research provider or the subject company of a third-party research report, are available on the Morgan Stanley Wealth Management disclosure website at www.morganstanley.com/online/researchdisclosures.

For Morgan Stanley specific disclosures, you may refer to https://www.morganstanley.com/eqr/disclosures/webapp/generalresearch.

Each Morgan Stanley research report is reviewed and approved on behalf of Morgan Stanley Smith Barney LLC. This review and approval is conducted by the same person who reviews the research report on behalf of Morgan Stanley. This could create a conflict of interest.

Other Important Disclosures

Morgan Stanley Research policy is to update research reports as and when the Research Analyst and Research Management deem appropriate, based on developments with the issuer, the sector, or the market that may have a material impact on the research views or opinions stated therein. In addition, certain Research publications are intended to be updated on a regular periodic basis (weekly/monthly/quarterly/annual) and will ordinarily be updated with that frequency, unless the Research Analyst and Research Management determine that a different publication schedule is appropriate based on current conditions.

Morgan Stanley is not acting as a municipal advisor and the opinions or views contained herein are not intended to be, and do not constitute, advice within the meaning of Section 975 of the Dodd-Frank Wall Street Reform and Consumer Protection Act.

Morgan Stanley produces an equity research product called a "Tactical Idea." Views contained in a "Tactical Idea" on a particular stock may be contrary to the recommendations or views expressed in research on the same stock. This may be the result of differing time horizons, methodologies, market events, or other factors. For all research available on a particular stock, please contact your sales representative or go to Matrix at http://www.morganstanley.com/matrix.

Morgan Stanley Research is provided to our clients through our proprietary research portal on Matrix and also distributed electronically by Morgan Stanley to clients. Certain, but not all, Morgan Stanley Research products are also made available to clients through third-party vendors or redistributed to clients through alternate electronic means as a convenience. For access to all available Morgan Stanley Research, please contact your sales representative or go to Matrix at http://www.morganstanley.com/matrix.

Any access and/or use of Morgan Stanley Research is subject to Morgan Stanley's Terms of Use (http://www.morganstanley.com/terms.html). By accessing and/or using Morgan Stanley Research, you are indicating that you have read and agree to be bound by our Terms of Use (http://www.morganstanley.com/terms.html). In addition you consent to Morgan Stanley processing your personal data and using cookies in accordance with our Privacy Policy and our Global Cookies Policy (http://www.morganstanley.com/privacy_pledge.html), including for the purposes of setting your preferences and to collect readership data so that we can deliver better and more personalized service and products to you. To find out more information about how Morgan Stanley processes personal data, how we use cookies and how to reject cookies see our Privacy Policy and our Global Cookies Policy (http://www.morganstanley.com/privacy_pledge.html). Please use the provided link to review the Terms and Conditions and Most Important Terms and Conditions for Morgan Stanley India Company Private Limited (https://www.morganstanley.com/assets/pdfs/about-us-global-offices/india/Terms_and_conditions.pdf) and the following link to review the audit report (https://ny.matrix.ms.com/eqr/research/webapp/researchdocs/MSICPL_Morgan_Stanley_Research_Audit_Report.pdf).

If you do not agree to our Terms of Use and/or if you do not wish to provide your consent to Morgan Stanley processing your personal data or using cookies please do not access our research.

Morgan Stanley Research does not provide individually tailored investment advice. Morgan Stanley Research has been prepared without regard to the circumstances and objectives of those who receive it. Morgan Stanley recommends that investors independently evaluate particular investments and strategies, and encourages investors to seek the advice of a financial adviser. The appropriateness of an investment or strategy will depend on an investor's circumstances and objectives. The securities, instruments, or strategies discussed in Morgan Stanley Research may not be suitable for all investors, and certain investors may not be eligible to purchase or participate in some or all of them. Morgan Stanley Research is not an offer to buy or sell or the solicitation of an offer to buy or sell any security/instrument or to participate in any particular trading strategy. The value of and income from your investments may vary because of changes in interest rates, foreign exchange rates, default rates, prepayment rates, securities/instruments prices, market indexes, operational or financial conditions of companies or other factors. There may be time limitations on the exercise of options or other rights in securities/instruments transactions. Past performance is not necessarily a guide to future performance. Estimates of future performance are based on assumptions that may not be realized. If provided, and unless otherwise stated, the closing price on the cover page is that of the primary exchange for the subject company's securities/instruments.

The fixed income research analysts, strategists or economists principally responsible for the preparation of Morgan Stanley Research have received compensation based upon various factors, including quality, accuracy and value of research, firm profitability or revenues (which include fixed income trading and capital markets profitability or revenues), client feedback and competitive factors. Fixed Income Research analysts', strategists' or economists' compensation is not linked to investment banking or capital markets transactions performed by Morgan Stanley or the profitability or revenues of particular trading desks.

The "Important Regulatory Disclosures on Subject Companies" section in Morgan Stanley Research lists all companies mentioned where Morgan Stanley owns 1% or more of a class of common equity securities of the companies. For all other companies mentioned in Morgan Stanley Research, Morgan Stanley may have an investment of less than 1% in securities/instruments or derivatives of securities/instruments of companies and may trade them in ways different from those discussed in Morgan Stanley Research. Employees of Morgan Stanley not involved in the preparation of Morgan Stanley Research may have investments in securities/instruments or derivatives of securities/instruments of companies mentioned and may trade them in ways different from those discussed in Morgan Stanley Research. Derivatives may be issued by Morgan Stanley or associated persons.

With the exception of information regarding Morgan Stanley, Morgan Stanley Research is based on public information. Morgan Stanley makes every effort to use reliable, comprehensive information, but we make no representation that it is accurate or complete. We have no obligation to tell you when opinions or information in Morgan Stanley Research change apart from when we intend to discontinue equity research coverage of a subject company. Facts and views presented in Morgan Stanley Research have not been reviewed by, and may not reflect information known to, professionals in other Morgan Stanley business areas, including investment banking personnel.

Morgan Stanley Research personnel may participate in company events such as site visits and are generally prohibited from accepting payment by the company of associated expenses unless pre-approved by authorized members of Research management.

Morgan Stanley may make investment decisions that are inconsistent with the recommendations or views in this report.

To our readers based in Taiwan or trading in Taiwan securities/instruments: Information on securities/instruments that trade in Taiwan is distributed by Morgan Stanley Taiwan Limited ("MSTL"). Such information is for your reference only. The reader should independently evaluate the investment risks and is solely responsible for their investment decisions. Morgan Stanley Research may not be distributed to the public media or quoted or used by the public media without the express written consent of Morgan Stanley. Any non-customer reader within the scope of Article 7-1 of the Taiwan Stock Exchange Recommendation Regulations accessing and/or receiving Morgan Stanley Research is not permitted to provide Morgan Stanley Research to any third party (including but not limited to related parties, affiliated companies and any other third parties) or engage in any activities regarding Morgan Stanley Research which may create or give the appearance of creating a conflict of interest. Information on securities/instruments that do not trade in Taiwan is for informational purposes only and is not to be construed as a recommendation or a solicitation to trade in such securities/instruments. MSTL may not execute transactions for clients in these securities/instruments.

Morgan Stanley | RESEARCH

UPDATE

November 9, 2026 04:00 PM GMT

Lite-On Technology | Asia Pacific

October Sales +6% MoM/+32% YoY

In this report, we focus on Lite-On's monthly sales, which we believe could be a catalyst for its share price.

Details:

- October sales came in at NT$20,071mn (+6% MoM/+32% YoY), driven by the server PSU/BBU and opto semiconductors (couplers and indicators for industrial automation, new energy and AI applications).
- QTD revenue reached 33% of both MSe at NT$60,395mn (+5% QoQ/+36% YoY), and consensus at NT$60,353mn (+5% QoQ/+36% YoY).
- By segment, Cloud & AIoT/Optoelectronics/IT&CE accounted for 66%/13%/21% of the monthly sales, respectively, implying growth of +19%/-1%/-17% MoM and +71%/+7%/-16% YoY.

Our view:

- We think its 4Q26 revenue is tracking slightly ahead of market expectations.
- We believe Lite-On will grow along with the AI capex cycle driven by its power-related offerings, though execution and progress with new customers remain key to watch.
- Stay EW.

Exhibit 1: Lite-On's monthly sales vs. its share price

Valuation Methodology and Risks

Lite-On Technology (2301.TW)

Base case: P/E multiple of 15x based on average 2027-28 EPS estimates. We believe our target multiple is justified by the 50% earnings CAGR we estimate for 2025-28, implying a PEG of 0.3, vs. the stock's 16x P/E and 2% earnings CAGR during 2022-25, which implied a PEG of 7.2.

Risks to Upside

- Stronger optical business growth
- Stronger data center/server demand
- PC/NB demand growth
- Downtrend in raw material prices

Risks to Downside

- Macro demand weakness
- Weaker data center/server demand
- PC/NB demand slowdown
- Uptrend in raw material prices

Important Regulatory Disclosures on Subject Companies

As of October 30, 2026, Morgan Stanley beneficially owned 1% or more of a class of common equity securities of the following companies covered in Morgan Stanley Research: AAC Technologies Holdings, Accelink Technologies Co. Ltd., Accton Technology Corporation, Acer Inc., AirTAC International, Asustek Computer Inc., Auras Technology Co Ltd, Bizlink, Catcher Technology, Co-Tech Development Corp., Compal Electronics, E Ink Holdings Inc., Elite Material Co., Ennostar Inc, Eoptolink Technology Inc Ltd, Fositek Corp, Genius Electronic Optical Co. Ltd., Giga-Byte Technology Co. Ltd., Hiwin Technologies Corp., Largan Precision, Lens Technology, LianChuang Electronic Technology Co Ltd, Lingyi Itech Guangdong Co, **Lite-On Technology**, Lotes Co. Ltd., Nan Ya PCB, Quectel Wireless Solutions Co Ltd, Sunny Optical, Suzhou TFC Optical Communication Co Ltd., Taiwan Union Technology Corporation, Unimicron, Visual Photonics Epitaxy Co Ltd, Wistron Corporation, Wiwynn Corp, Xiaomi Corp, Yageo Corp., Yangtze Optical Fibre and Cable JSC Ltd, Zhejiang Crystal-Optech Co Ltd, Zhen Ding, Zhongji Innolight Co Ltd, ZTE Corporation.

Within the last 12 months, Morgan Stanley managed or co-managed a public offering (or 144A offering) of securities of Asustek Computer Inc., Unimicron, Wistron Corporation, Wiwynn Corp, Zhen Ding, Zhongji Innolight Co Ltd.

Within the last 12 months, Morgan Stanley has received compensation for investment banking services from Asustek Computer Inc., Lenovo, Unimicron, Wistron Corporation, Wiwynn Corp, Xiaomi Corp, Yageo Corp., Zhen Ding, Zhongji Innolight Co Ltd.

In the next 3 months, Morgan Stanley expects to receive or intends to seek compensation for investment banking services from AAC Technologies Holdings, Accton Technology Corporation, Acer Inc., Advantech, AirTAC International, Asustek Computer Inc., AU Optronics, Bizlink, BOE Technology, Catcher Technology, Chenbro, Compal Electronics, Delta Electronics Inc., E Ink Holdings Inc., Elite Material Co., Ennostar Inc, Eoptolink Technology Inc Ltd, FIT Hon Teng Ltd, Giga-Byte Technology Co. Ltd., Gold Circuit Electronics Ltd., Hon Hai Precision, Huaqin Co.,Ltd., Innolux, Lenovo, Lens Technology, Lingyi Itech Guangdong Co, **Lite-On Technology**, Lotes Co. Ltd., Luxshare Precision Industry Co., Ltd., Pegatron Corporation, Q Technology (Group) Company Ltd, Quanta Computer Inc., Shanghai Conant Optical Co Ltd, Shenzhen Transsion Holdings Co Ltd, Suzhou TFC Optical Communication Co Ltd., TCL Corp., Unimicron, Wistron Corporation, Wiwynn Corp, Xiaomi Corp, Yageo Corp., Yangtze Optical Fibre and Cable JSC Ltd, Zhen Ding, Zhongji Innolight Co Ltd.

Within the last 12 months, Morgan Stanley has received compensation for products and services other than investment banking services from AAC Technologies Holdings, Accton Technology Corporation, Acer Inc., Asustek Computer Inc., AU Optronics, BYD Electronics, Compal Electronics, E Ink Holdings Inc., Eoptolink Technology Inc Ltd, Giga-Byte Technology Co. Ltd., GoerTek Inc, Hon Hai Precision, Innolux, Lenovo, Lingyi Itech Guangdong Co, Quanta Computer Inc., Xiaomi Corp, Yageo Corp..

Within the last 12 months, Morgan Stanley has provided or is providing investment banking services to, or has an investment banking client relationship with, the following company: AAC Technologies Holdings, Accton Technology Corporation, Acer Inc., Advantech, AirTAC International, Asustek Computer Inc., AU Optronics, Bizlink, BOE Technology, Catcher Technology, Chenbro, Compal Electronics, Delta Electronics Inc., E Ink Holdings Inc., Elite Material Co., Ennostar Inc, Eoptolink Technology Inc Ltd, FIT Hon Teng Ltd, Giga-Byte Technology Co. Ltd., Gold Circuit Electronics Ltd., Hon Hai Precision, Huaqin Co.,Ltd., Innolux, Lenovo, Lens Technology, Lingyi Itech Guangdong Co, **Lite-On Technology**, Lotes Co. Ltd., Luxshare Precision Industry Co., Ltd., Pegatron Corporation, Q Technology (Group) Company Ltd, Quanta Computer Inc., Shanghai Conant Optical Co Ltd, Shenzhen Transsion Holdings Co Ltd, Suzhou TFC Optical Communication Co Ltd., TCL Corp., Unimicron, Wistron Corporation, Wiwynn Corp, Xiaomi Corp, Yageo Corp., Yangtze Optical Fibre and Cable JSC Ltd, Zhen Ding, Zhongji Innolight Co Ltd.

Within the last 12 months, Morgan Stanley has either provided or is providing non-investment banking, securities-related services to and/or in the past has entered into an agreement to provide services or has a client relationship with the following company: AAC Technologies Holdings, Accton Technology Corporation, Acer Inc., Asustek Computer Inc., AU Optronics, BYD Electronics, Compal Electronics, E Ink Holdings Inc., Eoptolink Technology Inc Ltd, Giga-Byte Technology Co. Ltd., GoerTek Inc, Hon Hai Precision, Innolux, Lenovo, Lingyi Itech Guangdong Co, Quanta Computer Inc., Xiaomi Corp, Yageo Corp., Zhen Ding.

The equity research analysts or strategists principally responsible for the preparation of Morgan Stanley Research have received compensation based upon various factors, including quality

of research, investor client feedback, stock picking, competitive factors, firm revenues and overall investment banking revenues. Equity Research analysts' or strategists' compensation is not linked to investment banking or capital markets transactions performed by Morgan Stanley or the profitability or revenues of particular trading desks.
Morgan Stanley and its affiliates do business that relates to companies/instruments covered in Morgan Stanley Research, including market making, providing liquidity, fund management, commercial banking, extension of credit, investment services and investment banking. Morgan Stanley sells to and buys from customers the securities/instruments of companies covered in Morgan Stanley Research on a principal basis. Morgan Stanley may have a position in the debt of the Company or instruments discussed in this report. Morgan Stanley trades or may trade as principal in the debt securities (or in related derivatives) that are the subject of the debt research report.
Certain disclosures listed above are also for compliance with applicable regulations in non-US jurisdictions.

STOCK RATINGS

Morgan Stanley uses a relative rating system using terms such as Overweight, Equal-weight, Not-Rated or Underweight (see definitions below). Morgan Stanley does not assign ratings of Buy, Hold or Sell to the stocks we cover. Overweight, Equal-weight, Not-Rated and Underweight are not the equivalent of buy, hold and sell. Investors should carefully read the definitions of all ratings used in Morgan Stanley Research. In addition, since Morgan Stanley Research contains more complete information concerning the analyst's views, investors should carefully read Morgan Stanley Research, in its entirety, and not infer the contents from the rating alone. In any case, ratings (or research) should not be used or relied upon as investment advice. An investor's decision to buy or sell a stock should depend on individual circumstances (such as the investor's existing holdings) and other considerations.

Global Stock Ratings Distribution

(as of October 31, 2026)
The Stock Ratings described below apply to Morgan Stanley's Fundamental Equity Research and do not apply to Debt Research produced by the Firm.
For disclosure purposes only (in accordance with FINRA requirements), we include the category headings of Buy, Hold, and Sell alongside our ratings of Overweight, Equal-weight, Not-Rated and Underweight. Morgan Stanley does not assign ratings of Buy, Hold or Sell to the stocks we cover. Overweight, Equal-weight, Not-Rated and Underweight are not the equivalent of buy, hold, and sell but represent recommended relative weightings (see definitions below). To satisfy regulatory requirements, we correspond Overweight, our most positive stock rating, with a buy recommendation; we correspond Equal-weight and Not-Rated to hold and Underweight to sell recommendations, respectively.

	Coverage Universe		Investment Banking Clients (IBC)			Other Material Investment Services Clients (MISC)	
Stock Rating Category	Count	% of Total	Count	% of Total IBC	% of Rating Category	Count	% of Total Other MISC
Overweight/Buy	1575	43%	460	49%	29%	742	44%
Equal-weight/Hold	1537	42%	393	42%	26%	720	43%
Not-Rated/Hold	2	0%	1	0%	50%	1	0%
Underweight/Sell	570	15%	92	10%	16%	218	13%
Total	3,684		946			1681	

Data include common stock and ADRs currently assigned ratings. Investment Banking Clients are companies from whom Morgan Stanley received investment banking compensation in the last 12 months. Due to rounding off of decimals, the percentages provided in the "% of total" column may not add up to exactly 100 percent.

Analyst Stock Ratings

Overweight (O). The stock's total return is expected to exceed the average total return of the analyst's industry (or industry team's) coverage universe, on a risk-adjusted basis, over the next 12-18 months.
Equal-weight (E). The stock's total return is expected to be in line with the average total return of the analyst's industry (or industry team's) coverage universe, on a risk-adjusted basis, over the next 12-18 months.
Not-Rated (NR). Currently the analyst does not have adequate conviction about the stock's total return relative to the average total return of the analyst's industry (or industry team's) coverage universe, on a risk-adjusted basis, over the next 12-18 months.
Underweight (U). The stock's total return is expected to be below the average total return of the analyst's industry (or industry team's) coverage universe, on a risk-adjusted basis, over the next 12-18 months.
Unless otherwise specified, the time frame for price targets included in Morgan Stanley Research is 12 to 18 months.

Analyst Industry Views

Attractive (A): The analyst expects the performance of his or her industry coverage universe over the next 12-18 months to be attractive vs. the relevant broad market benchmark, as indicated below.
In-Line (I): The analyst expects the performance of his or her industry coverage universe over the next 12-18 months to be in line with the relevant broad market benchmark, as indicated below.
Cautious (C): The analyst views the performance of his or her industry coverage universe over the next 12-18 months with caution vs. the relevant broad market benchmark, as indicated below.
Benchmarks for each region are as follows: North America - S&P 500; Latin America - relevant MSCI country index or MSCI Latin America Index; Europe - MSCI Europe; Japan - TOPIX; Asia - relevant MSCI country index or MSCI sub-regional index or MSCI AC Asia Pacific ex Japan Index.

Important Disclosures for Morgan Stanley Smith Barney LLC Customers

Important disclosures regarding any material conflict of interest that can reasonably be expected to have influenced Morgan Stanley Smith Barney LLC's choice of a third-party research provider or the subject company of a third-party research report, are available on the Morgan Stanley Wealth Management disclosure website at www.morganstanley.com/online/researchdisclosures. For Morgan Stanley specific disclosures, you may refer to https://www.morganstanley.com/eqr/disclosures/webapp/generalresearch.

Each Morgan Stanley research report is reviewed and approved on behalf of Morgan Stanley Smith Barney LLC. This review and approval is conducted by the same person who reviews the research report on behalf of Morgan Stanley. This could create a conflict of interest.

Other Important Disclosures

Morgan Stanley Research policy is to update research reports as and when the Research Analyst and Research Management deem appropriate, based on developments with the issuer, the sector, or the market that may have a material impact on the research views or opinions stated therein. In addition, certain Research publications are intended to be updated on a regular periodic basis (weekly/monthly/quarterly/annual) and will ordinarily be updated with that frequency, unless the Research Analyst and Research Management determine that a different publication schedule is appropriate based on current conditions.

Morgan Stanley is not acting as a municipal advisor and the opinions or views contained herein are not intended to be, and do not constitute, advice within the meaning of Section 975 of the Dodd-Frank Wall Street Reform and Consumer Protection Act.

Morgan Stanley produces an equity research product called a "Tactical Idea." Views contained in a "Tactical Idea" on a particular stock may be contrary to the recommendations or views expressed in research on the same stock. This may be the result of differing time horizons, methodologies, market events, or other factors. For all research available on a particular stock, please contact your sales representative or go to Matrix at http://www.morganstanley.com/matrix.

Morgan Stanley Research is provided to our clients through our proprietary research portal on Matrix and also distributed electronically by Morgan Stanley to clients. Certain, but not all, Morgan Stanley Research products are also made available to clients through third-party vendors or redistributed to clients through alternate electronic means as a convenience. For access to all available Morgan Stanley Research, please contact your sales representative or go to Matrix at http://www.morganstanley.com/matrix.

Morgan Stanley Research does not provide individually tailored investment advice. Morgan Stanley Research has been prepared without regard to the circumstances and objectives of those

who receive it. Morgan Stanley recommends that investors independently evaluate particular investments and strategies, and encourages investors to seek the advice of a financial adviser. The appropriateness of an investment or strategy will depend on an investor's circumstances and objectives. The securities, instruments, or strategies discussed in Morgan Stanley Research may not be suitable for all investors, and certain investors may not be eligible to purchase or participate in some or all of them. Morgan Stanley Research is not an offer to buy or sell or the solicitation of an offer to buy or sell any security/instrument or to participate in any particular trading strategy. The value of and income from your investments may vary because of changes in interest rates, foreign exchange rates, default rates, prepayment rates, securities/instruments prices, market indexes, operational or financial conditions of companies or other factors. There may be time limitations on the exercise of options or other rights in securities/instruments transactions. Past performance is not necessarily a guide to future performance. Estimates of future performance are based on assumptions that may not be realized. If provided, and unless otherwise stated, the closing price on the cover page is that of the primary exchange for the subject company's securities/instruments.

The fixed income research analysts, strategists or economists principally responsible for the preparation of Morgan Stanley Research have received compensation based upon various factors, including quality, accuracy and value of research, firm profitability or revenues (which include fixed income trading and capital markets profitability or revenues), client feedback and competitive factors. Fixed Income Research analysts', strategists' or economists' compensation is not linked to investment banking or capital markets transactions performed by Morgan Stanley or the profitability or revenues of particular trading desks.

The "Important Regulatory Disclosures on Subject Companies" section in Morgan Stanley Research lists all companies mentioned where Morgan Stanley owns 1% or more of a class of common equity securities of the companies. For all other companies mentioned in Morgan Stanley Research, Morgan Stanley may have an investment of less than 1% in securities/instruments or derivatives of securities/instruments of companies and may trade them in ways different from those discussed in Morgan Stanley Research. Employees of Morgan Stanley not involved in the preparation of Morgan Stanley Research may have investments in securities/instruments or derivatives of securities/instruments of companies mentioned and may trade them in ways different from those discussed in Morgan Stanley Research. Derivatives may be issued by Morgan Stanley or associated persons.

With the exception of information regarding Morgan Stanley, Morgan Stanley Research is based on public information. Morgan Stanley makes every effort to use reliable, comprehensive information, but we make no representation that it is accurate or complete. We have no obligation to tell you when opinions or information in Morgan Stanley Research change apart from when we intend to discontinue equity research coverage of a subject company. Facts and views presented in Morgan Stanley Research have not been reviewed by, and may not reflect information known to, professionals in other Morgan Stanley business areas, including investment banking personnel.

Morgan Stanley Research personnel may participate in company events such as site visits and are generally prohibited from accepting payment by the company of associated expenses unless pre-approved by authorized members of Research management.

Morgan Stanley may make investment decisions that are inconsistent with the recommendations or views in this report.

To our readers based in Taiwan or trading in Taiwan securities/instruments: Information on securities/instruments that trade in Taiwan is distributed by Morgan Stanley Taiwan Limited ("MSTL"). Such information is for your reference only. The reader should independently evaluate the investment risks and is solely responsible for their investment decisions. Morgan Stanley Research may not be distributed to the public media or quoted or used by the public media without the express written consent of Morgan Stanley. Any non-customer reader within the scope of Article 7-1 of the Taiwan Stock Exchange Recommendation Regulations accessing and/or receiving Morgan Stanley Research is not permitted to provide Morgan Stanley Research to any third party (including but not limited to related parties, affiliated companies and any other third parties) or engage in any activities regarding Morgan Stanley Research which may create or give the appearance of creating a conflict of interest. Information on securities/instruments that do not trade in Taiwan is for informational purposes only and is not to be construed as a recommendation or a solicitation to trade in such securities/instruments. MSTL may not execute transactions for clients in these securities/instruments.

Certain information in Morgan Stanley Research was sourced by employees of the Shanghai Representative Office of Morgan Stanley Asia Limited for the use of Morgan Stanley Asia Limited. We hosted NYPCB's 3Q26 post result on November 9th. Key takeaways include:

(1) NYPCB mentioned its 4Q26 GM on ABF substrate already exceeds 40% (vs. ~15% in 2025 and 25% in 1H26) driven mainly by the solid high-end product demand (which contributed 50%+ of the ABF revenue in 2026 vs. <20% in 2025), while the company mentioned it will gain more high-end market share in 2027 which should further drive company's overall GM level.

(2) For the new high-end projects in 2027, NYPCB mentioned it will gain significant share in the key US CSP next-gen AI project, and high-end server CPU project. Also, the company mentioned it expects a proactive adoption on 1.6T Ethernet switch demand driven by CSPs investment in AI infrastructure, driving its high-end switch substrate ASP (the upgrade on substrate, from 800G to 1.6T, suggesting a 50%+ higher substrate unit price, per GSe).

(3) In terms of the ABF substrate pricing, NYPCB believes its ABF substrate ASP will further go up by 10-15% QoQ in 4Q26, while it also expects the pricing hike ratio to be at least maintained at this level from 1Q27-4Q27, without seeing much downside risk. Moreover, the company believes the ASP growth could be even faster than its expectation if the high-end orders accelerate in coming quarters or if they see an even tigher S/D outlook for the overall ABF substrate industry.

(4) In terms of the BT substrate pricing outlook, the company mentioned the pricing hike ratio will be low single digits % QoQ in 4Q26, which will further trend up in 1Q27-4Q27, with a high confidence level on the shortage of BT substrate in coming quarters.

(4) In terms of 4Q26 revenue guidance, the company is expecting ~20% QoQ revenue growth, driven mainly by the high-end ABF projects ramp up + new AI project ramps + BT substrate pricing hike

Source: Company data, Goldman Sachs Research estimates.

(low single digits % QoQ); moreover, the company expects its 1Q27 revenue to be flat QoQ, despite the ~20% less working days. For GM, the company expects 4Q26 GM to be low to mid 30% which should further improve in 1Q27.

(5) The company mentioned it is working on a new capacity investment plan for 2028, but has not yet finalized the plan. In terms of the funding method, NYPCB mentioned it will not do any equity based fundraising, but will rely on internal cash or bank loan.

(6) NYPCB also mentioned it will focus only on CoPoS technology, whose substrate pricing is also US$1000+ (vs. US$100-200 for the most high end ABF substrate now), while the product demand could start ramping up from 2028 and start contributing significant revenue from 2029. For EMIB-T, NYPCB believes the penetration rate could only be 10% in the foreseeable future, and it has no plan to invest in this small market.

We maintain our positive view on the overall ABF substrate industry, with 34%/51% shortage ratio in 2027/28 (see here), and believe such high shortage ratio will protect companies' GM/OPM even if we start to see some slowdown on AI CAPEX in coming years. We started to see all ABF substrate players' GM surpass 40% in 4Q26, which is much faster than our original expectation (Taiwan ABF substrate suppliers reach 40%+ GM at the 6-7th quarters of the shortage in last upcycle, but it only takes 3-4 quarters for Taiwan players to hit the 40%+ GM, driven mainly by the solid AI upgrading demand this time). We expect NYPCB's ABF substrate GM could reach historical peak level (55-60%) in 2H27, suggesting a fruitful upside for the EPS growth in coming years (we expect NYPCB's EPS to grow by 150%+ 2025-29E CAGR), and believe the ABF substrate will continue to be a key bottleneck of the overall semi/tech supply chain in the next 3-5 years.

Maintain Buy on NYPCB, as the key spot price ABF substrate supplier in the market which should benefit strongly from the S/D shortage and pricing hike in the foreseeable future, with an unchanged TP of NT$2,700 (based on 21x 2028E EPS).

Investment Thesis & PT methodology and risks

Investment Thesis - NYPCB

NYPCB manufactures and markets printed circuit boards (PCBs) and integrated circuit (IC) substrates (including ABF and BT substrates). We are Buy rated on NYPCB considering the company's high exposure to BT substrates and non-LTA ABF substrate (70%+ of total revenue), where we expect GM/OPM to increase significantly in the coming quarters (from breakeven in OPM in 1H25 to 26/42% in 2026/27E) due to the favorable substrate pricing outlook. Despite the company's low exposure to high-end ABF substrate industry (<20% of total revenue in 2025), we believe the expanding demand from ASIC AI server and high-end switch IC demand will drive the company's high-end ABF revenue exposure to 40%+ by 2027E, suggesting better GM/OPM outlook in the long term. In 2H25-2H26, we believe NYPCB will continue to benefit from stronger ABF/BT pricing and should be a key beneficiary of the pricing uptrend considering the company's key focus on BT and non-LTA ABF substrate industries. Moreover, in the long term (after 2026), we expect the ABF industry to return to supply tightness, and NYPCB's expanding high-end exposure will lead to a long-term earnings growth outlook (148% 2026-28E earnings CAGR). As a result, we see solid upside potential for NYPCB's

earnings and stock performance.

Price Target Risks and Methodology - NYPCB

Valuation methodology: Our 12-month target price of NT$2,700 for NYPCB is based on 21x 2028E P/E, which is +1.5x STDV higher than the past upcycle average P/E (13.3x).

Key downside risks: (1) Slower-than-expected PC demand recovery, (2) Slower-than-expected ABF substrates pricing upgrading outlook, and (3) Slower-than-expected NYPCB new high-end capacity qualification progress.

GS Factor Profile

The Goldman Sachs Factor Profile provides investment context for a stock by comparing key attributes to the market (i.e. our universe of rated stocks) and its sector peers. The four key attributes depicted are: Growth, Financial Returns, Multiple (e.g. valuation) and Integrated (a composite of Growth, Financial Returns and Multiple). Growth, Financial Returns and Multiple are calculated by using normalized ranks for specific metrics for each stock. The normalized ranks for the metrics are then averaged and converted into percentiles for the relevant attribute. The precise calculation of each metric may vary depending on the fiscal year, industry and region, but the standard approach is as follows:

Growth is based on a stock's forward-looking sales growth, EBITDA growth and EPS growth (for financial stocks, only EPS and sales growth), with a higher percentile indicating a higher growth company. **Financial Returns** is based on a stock's forward-looking ROE, ROCE and CROCI (for financial stocks, only ROE), with a higher percentile indicating a company with higher financial returns. **Multiple** is based on a stock's forward-looking P/E, P/B, price/dividend (P/D), EV/EBITDA, EV/FCF and EV/Debt Adjusted Cash Flow (DACF) (for financial stocks, only P/E, P/B and P/D), with a higher percentile indicating a stock trading at a higher multiple. The **Integrated** percentile is calculated as the average of the Growth percentile, Financial Returns percentile and (100% - Multiple percentile).

Financial Returns and Multiple use the Goldman Sachs analyst forecasts at the fiscal year-end at least three quarters in the future. Growth uses inputs for the fiscal year at least seven quarters in the future compared with the year at least three quarters in the future (on a per-share basis for all metrics).

For a more detailed description of how we calculate the GS Factor Profile, please contact your GS representative.

M&A Rank

Across our global coverage, we examine stocks using an M&A framework, considering both qualitative factors and quantitative factors (which may vary across sectors and regions) to incorporate the potential that certain companies could be acquired. We then assign a M&A rank as a means of scoring companies under our rated coverage from 1 to 3, with 1 representing high (30%-50%) probability of the company becoming an acquisition target, 2 representing medium (15%-30%) probability and 3 representing low (0%-15%) probability. For companies ranked 1 or 2, in line with our standard departmental guidelines we incorporate an M&A component into our target price. M&A rank of 3 is considered immaterial and therefore does not factor into our price target, and may or may not be discussed in research.

Quantum

Quantum is Goldman Sachs' proprietary database providing access to detailed financial statement histories, forecasts and ratios. It can be used for in-depth analysis of a single company, or to make comparisons between companies in different sectors and markets.

Disclosures

Regulatory disclosures

Disclosures required by United States laws and regulations

See company-specific regulatory disclosures above for any of the following disclosures required as to companies referred to in this report: manager or co-manager in a pending transaction; 1% or other ownership; compensation for certain services; types of client relationships; managed/co-managed public offerings in prior periods; directorships; registered market maker. Goldman Sachs trades or may trade as a principal in debt securities (or in related derivatives) of issuers discussed in this report.

The following are additional required disclosures: **Ownership and material conflicts of interest:** Goldman Sachs policy prohibits its analysts, professionals reporting to analysts and members of their households from owning securities of any company in the analyst's area of coverage. **Analyst compensation:** Analysts are paid in part based on the profitability of Goldman Sachs, which includes investment banking revenues. **Analyst as officer or director:** Goldman Sachs policy generally prohibits its analysts, persons reporting to analysts or members of their households from serving as an officer, director or advisor of any company in the analyst's area of coverage. **Non-U.S. Analysts:** Non-U.S. analysts may not be associated persons of Goldman Sachs & Co. LLC and therefore may not be subject to FINRA Rule 2241 or FINRA Rule 2242 restrictions on communications with a subject company, public appearances and trading in securities covered by the analysts.

Additional disclosures required under the laws and regulations of jurisdictions other than the United States

The following disclosures are those required by the jurisdiction indicated, except to the extent already made above pursuant to United States laws and regulations. **Australia:** Goldman Sachs Australia Pty Ltd and its affiliates are not authorised deposit-taking institutions (as that term is defined in the Banking Act 1959 (Cth)) in Australia and do not provide banking services, nor carry on a banking business, in Australia. This research, and any access to it, is intended only for "wholesale clients" within the meaning of the Australian Corporations Act, unless otherwise agreed by Goldman Sachs. In producing research reports, members of Global Investment Research of Goldman Sachs Australia may attend site visits and other meetings hosted by the companies and other entities which are the subject of its research reports. In some instances the costs of such site visits or meetings may be met in part or in whole by the issuers concerned if Goldman Sachs Australia considers it is appropriate and reasonable in the specific circumstances relating to the site visit or meeting. To the extent that the contents of this document contains any financial product advice, it is general advice only and has been prepared by Goldman Sachs without taking into account a client's objectives, financial situation or needs. A client should, before acting on any such advice, consider the appropriateness of the advice having regard to the client's own objectives, financial situation and needs. A copy of certain Goldman Sachs Australia and New Zealand disclosure of interests and a copy of Goldman Sachs' Australian Sell-Side Research Independence Policy Statement are available at: https://www.goldmansachs.com/disclosures/australia-new-zealand/index.html. **Brazil:** Disclosure information in relation to CVM Resolution n. 20 is available at https://www.gs.com/worldwide/brazil/area/gir/index.html. Where applicable, the Brazil-registered analyst primarily responsible for the content of this research report, as defined in Article 20 of CVM Resolution n. 20, is the first author named at the beginning of this report, unless indicated otherwise at the end of the text. **Canada:** This information is being provided to you for information purposes only and is not, and under no circumstances should be construed as, an advertisement, offering or solicitation by Goldman Sachs & Co. LLC for purchasers of securities in Canada to trade in any Canadian security. Goldman Sachs & Co. LLC is not registered as a dealer in any jurisdiction in Canada under applicable Canadian securities laws and generally is not permitted to trade in Canadian securities and may be prohibited from selling certain securities and products in certain jurisdictions in Canada. If you wish to trade in any Canadian securities or other products in Canada please contact Goldman Sachs Canada Inc., an affiliate of The Goldman Sachs Group Inc., or another registered Canadian dealer. **Hong Kong:** Further information on the securities of covered companies referred to in this research may be obtained on request from Goldman Sachs (Asia) L.L.C. **India:** Further information on the subject company or companies referred to in this research may be obtained from Goldman Sachs (India) Securities Private Limited, Research Analyst - SEBI Registration Number INH000001493, 10th Floor, Ascent-Worli, Sudam Kalu Ahire Marg, Worli, Mumbai-400 025, India, Corporate Identity Number U74140MH2006FTC160634, Phone +91 22 6616 9000, Fax +91 22 6616 9001. Goldman Sachs may beneficially own 1% or more of the securities (as such term is defined in clause 2 (h) the Indian Securities Contracts (Regulation) Act, 1956) of the subject company or companies referred to in this research report. Registration granted by SEBI and certification from NISM in no way guarantee performance of the intermediary or provide any assurance of returns to investors. Further information on the subject company or companies referred to in this research may be obtained from Goldman Sachs (Asia) L.L.C., Seoul Branch. **New Zealand:** Goldman Sachs New Zealand Limited and its affiliates are neither "registered banks" nor "deposit takers" (as defined in the Reserve Bank of New Zealand Act 1989) in New Zealand. This research, and any access to it, is intended for "wholesale clients" (as defined in the Financial Advisers Act 2008) unless otherwise agreed by Goldman Sachs. A copy of certain Goldman Sachs Australia and New Zealand disclosure of interests is available at: https://www.goldmansachs.com/disclosures/australia-new-zealand/index.html. **Russia:** Research reports distributed in the Russian Federation are not advertising as defined in the Russian legislation, but are information and analysis not having product promotion as their main purpose and do not provide appraisal within the meaning of the Russian legislation on appraisal activity. Research reports do not constitute a personalized investment recommendation as defined in Russian laws and regulations, are not addressed to a specific client, and are prepared without analyzing the financial circumstances, investment profiles or risk profiles of clients. Goldman Sachs assumes no responsibility for any investment decisions that may be taken by a client or any other person based on this research report. **Singapore:** Goldman Sachs (Singapore) Pte. (Company Number: 198602165W), which is regulated by the Monetary Authority of Singapore, accepts legal responsibility for this research, and should be contacted with respect to any matters arising from, or in connection with, this research. **Taiwan:** This material is for reference only and must not be reprinted without permission. Investors should carefully consider their own investment risk. Investment results are the responsibility of the individual investor. **United Kingdom:** Persons who would be categorized as retail clients in the United Kingdom, as such term is defined in the rules of the Financial Conduct Authority, should read this research in conjunction with prior Goldman Sachs research on the covered companies referred to herein and should refer to the risk warnings that have been sent to them by Goldman Sachs International. A copy of these risks warnings, and a glossary of certain financial terms used in this report, are available from Goldman Sachs International on request.

European Union and United Kingdom: Disclosure information in relation to Article 6 (2) of the European Commission Delegated Regulation (EU) (2016/958) supplementing Regulation (EU) No 596/2014 of the European Parliament and of the Council (including as that Delegated Regulation is implemented into United Kingdom domestic law and regulation following the United Kingdom's departure from the European Union and the European Economic Area) with regard to regulatory technical standards for the technical arrangements for objective presentation of investment recommendations or other information recommending or suggesting an investment strategy and for disclosure of particular interests or indications of conflicts of interest is available at https://www.gs.com/disclosures/europeanpolicy.html which states the European Policy for Managing Conflicts of Interest in Connection with Investment Research.

Japan: Goldman Sachs Japan Co., Ltd. is a Financial Instrument Dealer registered with the Kanto Financial Bureau under registration number Kinsho 69, and a member of Japan Securities Dealers Association, Financial Futures Association of Japan Type II Financial Instruments Firms Association, and Investment Management Association of Japan. Sales and purchase of equities are subject to commission pre-determined with clients plus consumption tax. See company-specific disclosures as to any applicable disclosures required by Japanese stock exchanges, the Japanese Securities Dealers Association or the Japanese Securities Finance Company.

Ratings, coverage universe and related definitions

Buy (B), Neutral (N), Sell (S) Analysts recommend stocks as Buys or Sells for inclusion on various regional Investment Lists. Being assigned a Buy or Sell on an Investment List is determined by a stock's total return potential relative to its coverage universe. Any stock not assigned as a Buy or a Sell on an Investment List with an active rating (i.e., a stock that is not Rating Suspended, Not Rated, Early-Stage Biotech, Coverage Suspended or Not Covered), is deemed Neutral. Each region manages Regional Conviction Lists, which are selected from Buy rated stocks on the respective region's Investment Lists and represent investment recommendations focused on the size of the total return potential and/or the likelihood of the realization of the return across their respective areas of coverage. The addition or removal of stocks from such Conviction Lists are managed by the Investment Review Committee or other designated committee in each respective region and do not represent a change in the analysts' investment rating for such stocks.

Total return potential represents the upside or downside differential between the current share price and the price target, including all paid or anticipated dividends, expected during the time horizon associated with the price target. Price targets are required for all covered stocks. The total return potential, price target and associated time horizon are stated in each report adding or reiterating an Investment List membership.

Coverage Universe: A list of all stocks in each coverage universe is available by primary analyst, stock and coverage universe at https://www.gs.com/research/hedge.html.

Not Rated (NR). The investment rating, target price and earnings estimates (where relevant) are removed pursuant to Goldman Sachs policy when Goldman Sachs is acting in an advisory capacity in a merger or in a strategic transaction involving this company, when there are legal, regulatory or

policy constraints due to Goldman Sachs' involvement in a transaction, and in certain other circumstances. **Early-Stage Biotech (ES).** An investment rating and a target price are not assigned pursuant to Goldman Sachs policy when this company has neither a drug, treatment or medical device that has passed a Phase II clinical trial nor a license to distribute a post-Phase II drug, treatment or medical device. **Rating Suspended (RS).** Goldman Sachs Research has suspended the investment rating and price target for this stock, because there is not a sufficient fundamental basis for determining an investment rating or target price. The previous investment rating and target price, if any, are no longer in effect for this stock and should not be relied upon. **Coverage Suspended (CS).** Goldman Sachs has suspended coverage of this company. **Not Covered (NC).** Goldman Sachs does not cover this company.

Global product; distributing entities

Goldman Sachs Global Investment Research produces and distributes research products for clients of Goldman Sachs on a global basis. Analysts based in Goldman Sachs offices around the world produce research on industries and companies, and research on macroeconomics, currencies, commodities and portfolio strategy. This research is disseminated in Australia by Goldman Sachs Australia Pty Ltd (ABN 21 006 797 897); in Brazil by Goldman Sachs do Brasil Corretora de Títulos e Valores Mobiliários S.A.; Public Communication Channel Goldman Sachs Brazil: 0800 727 5764 and / or contatogoldmanbrasil@gs.com. Goldman Sachs International ("GSI"), authorised by the Prudential Regulation Authority ("PRA") and regulated by the Financial Conduct Authority ("FCA") and the PRA, has approved this research in connection with its distribution in the United Kingdom.

European Economic Area: Goldman Sachs Bank Europe SE ("GSBE") is a credit institution incorporated in Germany and, within the Single Supervisory Mechanism, subject to direct prudential supervision by the European Central Bank and in other respects supervised by German Federal Financial Supervisory Authority (Bundesanstalt für Finanzdienstleistungsaufsicht, BaFin) and Deutsche Bundesbank and disseminates research within the European Economic Area.

General disclosures

This research is for our clients only. Other than disclosures relating to Goldman Sachs, this research is based on current public information that we consider reliable, but we do not represent it is accurate or complete, and it should not be relied on as such. The information, opinions, estimates and forecasts contained herein are as of the date hereof and are subject to change without prior notification. We seek to update our research as appropriate, but various regulations may prevent us from doing so. Other than certain industry reports published on a periodic basis, the large majority of reports are published at irregular intervals as appropriate in the analyst's judgment.

Goldman Sachs conducts a global full-service, integrated investment banking, investment management, and brokerage business. We have investment banking and other business relationships with a substantial percentage of the companies covered by Global Investment Research. Goldman Sachs & Co. LLC, the United States broker dealer, is a member of SIPC (https://www.sipc.org).

Our salespeople, traders, and other professionals may provide oral or written market commentary or trading strategies to our clients and principal trading desks that reflect opinions that are contrary to the opinions expressed in this research. Our asset management area, principal trading desks and investing businesses may make investment decisions that are inconsistent with the recommendations or views expressed in this research.

The analysts named in this report may have from time to time discussed with our clients, including Goldman Sachs salespersons and traders, or may discuss in this report, trading strategies that reference catalysts or events that may have a near-term impact on the market price of the equity securities discussed in this report, which impact may be directionally counter to the analyst's published price target expectations for such stocks. Any such trading strategies are distinct from and do not affect the analyst's fundamental equity rating for such stocks, which rating reflects a stock's return potential relative to its coverage universe as described herein.

We and our affiliates, officers, directors, and employees will from time to time have long or short positions in, act as principal in, make a market or act as liquidity provider in, and buy or sell, any securities, derivatives, or other financial instruments referred to in this research (including any financial instruments issued by the companies referred to herein), unless otherwise prohibited by regulation or Goldman Sachs policy.

The views attributed to third party presenters at Goldman Sachs arranged conferences, including individuals from other parts of Goldman Sachs, do not necessarily reflect those of Global Investment Research and are not an official view of Goldman Sachs.

Any third party referenced herein, including any salespeople, traders and other professionals or members of their household, may have positions in the products mentioned that are inconsistent with the views expressed by analysts named in this report.

This research is not an offer to sell or the solicitation of an offer to buy any security in any jurisdiction where such an offer or solicitation would be illegal. It does not constitute a personal recommendation or take into account the particular investment objectives, financial situations, or needs of individual clients. Clients should consider whether any advice or recommendation in this research is suitable for their particular circumstances and, if appropriate, seek professional advice, including tax advice. The price and value of investments referred to in this research and the income from them may fluctuate. Past performance is not a guide to future performance, future returns are not guaranteed, and a loss of original capital may occur. Fluctuations in exchange rates could have adverse effects on the value or price of, or income derived from, certain investments.

Certain transactions, including those involving futures, options, and other derivatives, give rise to substantial risk and are not suitable for all investors. Investors should review current options and futures disclosure documents which are available from Goldman Sachs sales representatives or at https://www.theocc.com/about/publications/character-risks.jsp and https://www.goldmansachs.com/disclosures/cftc_fcm_disclosures. Transaction costs may be significant in option strategies calling for multiple purchase and sales of options such as spreads. Supporting documentation will be supplied upon request.

Differing Levels of Service provided by Global Investment Research: The level and types of services provided to you by Goldman Sachs Global Investment Research may vary as compared to that provided to internal and other external clients of GS, depending on various factors including your individual preferences as to the frequency and manner of receiving communication, your risk profile and investment focus and perspective (e.g., marketwide, sector specific, long term, short term), the size and scope of your overall client relationship with GS, and legal and regulatory constraints. As an example, certain clients may request to receive notifications when research on specific securities is published, and certain clients may request that specific data underlying analysts' fundamental analysis available on our internal client websites be delivered to them electronically through data feeds or otherwise. No change to an analyst's fundamental research views (e.g., ratings, price targets, or material changes to earnings estimates for equity securities), will be communicated to any client prior to inclusion of such information in a research report broadly disseminated through electronic publication to our internal client websites or through other means, as necessary, to all clients who are entitled to receive such reports.

All research reports are disseminated and available to all clients simultaneously through electronic publication to our internal client websites. Not all research content is redistributed to our clients or available to third-party aggregators, nor is Goldman Sachs responsible for the redistribution of our research by third party aggregators. For research, models or other data related to one or more securities, markets or asset classes (including related services) that may be available to you, please contact your GS representative or go to https://research.gs.com.

Disclosure information is also available at https://www.gs.com/research/hedge.html or from Research Compliance, 200 West Street, New York, NY 10282.
