ITEM DEFINITIONS AND METHODOLOGY

General:

All aggregates are bottom-up aggregates calculated from analysts' consensus forecasts unless otherwise noted. Bottom-up aggregates are weighted calculations using the I/B/E/S data from Refinitiv share class monitored or the official index weight of the index-provider. Top-down forecasts are compilations of strategists' estimates. I/B/E/S universe calculations are based on all companies within a given market monitored by Refinitiv.

Benchmark index calculations, including those for official local market indices, the S&P 500 Index, and the FTSE World Equity Indices are calculated using official index constituents and weightings. All index composites are representative of current index constituents. Index constituents and weightings are updated monthly during options expiration (the Thursday before the third Friday of every month) for every index except the S&P 500, the constituents of which are current as of the date of calculation.

PEIGBY refers to the Price Earnings Inverse Government Bond Yield ratio, which measures equity valuation with respect to the inverse-yield on long-term government bonds (now known as the 'Fed' model). All PEIGBY ratios are I/B/E/S universe-specific except for the US ratio, where it is based on the S&P 500 Index.

Methodology:

For US and selected Canadian aggregates, calendar-year aggregation is performed using the sum of four quarters' estimates and a quarterly pro-rata is applied to non-December year end companies' quarterly EPS estimates. Outside of the US and Canada, all company-level data are calendarized prior to aggregation using the Compustat method of calendarization. Aggregation is performed using the annual consensus EPS estimate and a May roll-back is applied to December year-end markets. Aggregates for Japan, where most companies report in March, use an August rollback and a November rollback is used for Australia and New Zealand, where the fiscal year-end for most companies is in June.

All 12-month-forward data for ex-US markets are calculated using a pro-rata weighting to annual EPS forecasts. The weightings applied are a daily calibration out of 365 days relative to each constituent's individual fiscal year-end and the current date.

All non-surprise data, including aggregate forecast earnings, forecast growth, and forward-looking valuation calculations are weighted according to the I/B/E/S share class monitored for I/B/E/S universes or the weightings assigned to each constituent in a given index. Aggregated earnings calculations are the equivalent of net profit aggregates, as they are derived from the EPS forecasts aggregated to the net income level by the appropriate share weighting.

Earnings Aggregation:

For 12-month-forward earnings, the 12-month-forward EPS is used in place of the calendarized EPS in the formulas below.

$$\text{I/B/E/S universe EPS Aggregate} = \frac{\sum_{i=1}^n \text{shares} * \text{calendarized EPS}}{\sum_{i=1}^n \text{shares}} \quad \text{Index EPS Aggregate} = \frac{\sum_{i=1}^n \text{weight} * \text{calendarized EPS}}{\sum_{i=1}^n \text{weight} * \text{price}} * \text{IndexLevel}$$

Growth Calculations:

All growth calculations are the weighted year over year growth in earnings for the calendarized fiscal year period. The formulas below use index shares for index growth calculations.

$$\text{Calendarized Earnings Growth} = \left[\frac{\sum_{i=1}^n \text{shares} * \text{calendarized EPS}}{\sum_{i=1}^n \text{shares} * \text{calendarized EPS}_{t-1}} - 1 \right] * 100 \quad \text{12-month-forward Growth} = \left[\frac{\sum_{i=1}^n \text{shares} * 12\text{M EPS}}{\sum_{i=1}^n \text{shares} * 12\text{M Trailing EPS}} - 1 \right] * 100$$

Valuation:

All valuation calculations are the weighted-average price-earnings ratio for the fiscal period in question. The formulas below use index shares for index P/E calculations.

$$\text{Calendarized P/E Aggregate} = \frac{\sum_{i=1}^n \text{shares} * \text{price}}{\sum_{i=1}^n \text{shares} * \text{calendarized EPS}} \quad \text{12-month-forward P/E} = \frac{\sum_{i=1}^n \text{shares} * \text{price}}{\sum_{i=1}^n \text{shares} * 12\text{M EPS}}$$

Revisions Momentum:

Unless otherwise indicated, analysts' revisions momentum is a simple aggregation of the total number of estimates raised divided by the total number of estimates lowered. Thus, any revisions ratio less than 1 indicates negative revisions momentum while a ratio greater than 1 indicates positive revisions momentum, with 1 marking parity.

The Global Aggregates from Refinitiv product contains annual aggregates for universes included in this publication, including supplemental aggregate data of over 100 items as well as history dating back to 1985 for North America and to 1987 for other markets. STARMINE EARNINGS SURPRISE FORECAST

Looking forward at quarterly performance, we use StarMine's SmartEstimate® from LSEG to determine which companies in the S&P 500 are better poised to beat and miss earnings estimates. The SmartEstimate® is a weighted average of analyst estimates, with more weight given to more recent estimates and more accurate analysts. Our studies have shown that when the SmartEstimate® differs significantly from the consensus (I/B/E/S mean estimate), the Predicted Surprise accurately predicts the direction of earnings surprises or further revisions 70% of the time. When a significant Predicted Surprise for revenue is also present for the period, the accuracy improves to 78%.

StarMine ARM from LSEG is an analyst revisions stock ranking model, designed to predict future changes in analyst sentiment. ARM incorporates more accurate earnings estimates through the SmartEstimate prediction service. ARM region rankings scores companies by region on a scale of 1 to 100 where 100 represents the most bullish sentiment.

Over the next two weeks, 122 S&P 500 companies are expected to report earnings. Of these companies, 12 positive surprises and 10 negative surprises are expected from S&P 500 companies reporting quarterly results.

IMPORTANT NOTICE

This disclaimer is in addition to and not in replacement of any disclaimer of warranties and liabilities set forth in a written agreement between LSEG and you or the party authorizing your access to the Service ("Contract Disclaimer"). In the event of a conflict or inconsistency between this disclaimer and the Contract Disclaimer the terms of the Contract Disclaimer shall control.

By accessing these materials, you hereby agree to the following:

These research reports and the information contained therein is for your internal use only and redistribution of this information is expressly prohibited. These reports including the information and analysis, any opinion or recommendation is not intended for investment purposes and does not constitute investment advice or an offer, or an invitation to make an offer, to buy or sell any securities or any derivatives related to such securities.

LSEG does not warrant the accuracy of the reports for any particular purpose and expressly disclaims any warranties of merchantability or fitness for a particular purpose; nor does LSEG guarantee the accuracy, validity, timeliness or completeness of any information or data included in these reports for any particular purpose. LSEG is under no obligation to provide you with any current or corrected information. Neither LSEG nor any of its affiliates, directors, officers or employees, will be liable or have any responsibility of any kind for any loss or damage (whether direct, indirect, consequential, or any other damages of any kind even if LSEG was advised of the possibility thereof) that you incur in connection with, relating to or arising out of these materials or the analysis, views, recommendations, opinions or information contained therein, or from any other cause relating to your access to, inability to access, or use of these materials, whether or not the circumstances giving rise to such cause may have been within the control of LSEG.

The information provided in these materials is not intended for distribution to, or use by, any person or entity in any jurisdiction or country where such distribution or use would be contrary to law or regulation or which would subject LSEG or its affiliates to any registration requirement within such jurisdiction or country.

DISCLAIMERS

The service does not constitute a recommendation to buy or sell securities of any kind and LSEG has not undertaken any liability or obligation relating to the purchase or sale of any securities for or by you.

The service is furnished to you on an "as is" basis with all faults and defects contained therein. LSEG does not make any representations or warranties either express or implied, including without limitation, any implied warranty of merchantability or fitness for a particular purpose or use, with respect to any aspect of the service. LSEG does not make any warranties that the service will be uninterrupted, timely, complete, and accurate or error free, or the results to be obtained from use of the service. Use of the service is at your sole risk and LSEG shall not have any responsibility or liability for any errors or omissions in, or resulting from the use of, the services or the software product, any decision made or action taken by you in reliance upon the services, any failures or delays in providing the service, any loss of use thereof, or for any loss, damage, injury or expense caused directly or indirectly by its actions or inactions in connection with this agreement or the production, distribution or redistribution of the service. LSEG will not in any way be liable to you or to any other entity for any indirect, consequential, punitive, special or exemplary damages, including, but not limited to, loss of profits, resulting there from, regardless of cause and regardless of whether or not LSEG was advised of the possibility of such damages.

JURISDICTION

These Terms and Conditions shall be construed and enforced in accordance with the law of the State of New York without giving effect to any choice of law or conflict of law provisions. In no event shall these Terms and Conditions be governed by the United Nations Convention on Contracts for the International Sale of Goods. UCITA, whether enacted in whole or in part by any state or applicable jurisdiction, regardless of how codified shall not apply to these Terms and Conditions and is hereby disclaimed. Any disputes arising under these Terms and Conditions will be brought and heard in the appropriate Federal or state court located in New York County in the State of New York and each of the parties hereby irrevocably consents to the jurisdiction of such courts.

You may not assign these Terms and Conditions nor any rights granted hereunder by sale, change in control or otherwise without LSEG' prior written consent.
