the clear, foundational tailwinds in place that could propel India's economic growth higher in the coming years, followed by factors that could hold back growth, especially onerous regulation, insufficient spending on R&D, labour market rigidity, and complexities associated with state-centre relationship. We then move on to public finances, which is presently characterised by favourable debt dynamics and a consolidating fiscal stance. Building on that, we focus on budgetary allocations in key areas of the economy. Shekhar then touches on external matters, including the rupee, trade deals, and India's calculus vis-à-vis China. A must-listen for India watchers.
