Card activity points to continued slowing in non-fuel spend

Read full report  'Westpac Card Tracker, 17 April 2026' (PDF 617KB)

The **Westpac-DataX Card Tracker Index*** declined 2.2pts over the three weeks to April 11, reflecting a mix of factors including the fuel excise tax cut, some easing in the pull-forward of fuel purchases and a

continued moderation in non-fuel segments.

Quarterly momentum remains subdued, card activity up 1.2% over the March quarter, tracking at a similar 1.1% pace as at mid-April. That is a material slowing on the 2% average seen over the June, September and December quarters last year. Notably, non-fuel spend is tracking a more subdued 0.7-0.9%qtr pace.

Monthly growth has been very choppy, the fuel price spike and lift in volumes driving a 1.9% gain in the March month but the temporary halving in fuel excise tax contributing to a pull back in the first two weeks of April, the latest week tracking a monthly decline of 0.5%. Non fuel activity rose 0.5% in the March month but is tracking a monthly contraction of 1.1% as at mid-April.

While the card data is adjusted for regular seasonal patterns, including Easter, some of the softness in April may be a residual holiday-related drag.

The softening in non-fuel card activity continues to mainly centre on international spend (some of which may be due to cancelled overseas travel) and discretionary services (particularly accommodation and recreational services) but is starting to become more apparent in discretionary goods as well, particularly housing-related categories.

The slowing continues to be broad-based, reflecting the common drivers of around both fuel and non fuel spend.

Overall, the 1.2%qtr rise in card activity in the March quarter is likely to be flat or down slightly once adjusted for price effects. The Q1 CPI, due April 29, will give a better sense of how activity has tracked in real, inflation-adjusted terms. Note that the total spending measures in the Q1 national accounts (due June 3) will be somewhat firmer due to effects from the roll-off electricity rebates.
