

摘要：

摩根大通首次量化海湾能源战损：逾60处基础设施遭无人机及导弹袭击，约240万桶/日炼油产能被迫停工，其中90万桶/日产能可在数周内恢复，80万桶需一个月左右；而剩余70万桶的产能修复可能需要数年。

据追风交易台，摩根大通大宗商品研究团队4月9日发布报告，首次对海湾地区冲突中的能源设施战损进行了硬核算量化。

在市场往往被模糊的“遇袭”头条新闻裹挟时，这份报告为专业投资者提供了衡量实质性供应冲击的关键标尺。

战损真相：逾60处资产受波及

冲突爆发近六周以来，战火对基础设施的破坏程度不容小觑。报告指出：

“在冲突中，头条新闻往往关注破坏的事实，而不是规模。设施‘被击中’，基础设施‘被锁定’……但我们很少能得到对市场真正有意义的量化和定性数据。

我们已知的是，在冲突开始的近六周内，超过60处海湾能源基础设施受到无人机和导弹袭击的影响，其中约50处遭受了不同程度的损坏。”

尽管多数袭击不会导致长期中断，但至少8处资产受损严重，面临漫长的修复期。例如，卡塔尔的Ras Laffan油气综合体要恢复其17%的受损产能可能需要数年时间，而巴林的Sitra炼油厂更是惨遭两次打击。

Figure 1: Oil and gas infrastructure impact (pipelines, terminals, oil depots, ports, fields)

Asset	Country	Asset Type	Operator	Capacity	Capacity Outage	Unit	Degree of Damage
PIPELINES							
East-West pipeline	Saudi Arabia	Oil pipeline	Saudi Aramco	7,000	700	kt/d	Medium, drone attack caused damage to a pumping station with some loss of throughput
TERMINALS							
ADNOC Fujairah Crude Terminal	UAE	Onshore Crude Export Terminal	ADNOC	8,000	1,000	kt/d	Medium, debris caused a fire with some operations suspended
Mina Petroleum SPC	Oman	Bunker Fuel Terminal	Mina Group	1,400	350	kt/d	Medium, drone strike and fires
Star Infrastructure Fujairah Terminal	UAE	Bulk Liquid Terminal	SW Infrastructure	2,325	193	kt/d	Medium, debris damaged a storage tank
Bunkering Terminal Duqm	Oman	Bunker Fuel Terminal	OWICO	189	0	kt/d	Fire after drone strike, but operations continue
ADNOC Distribution Musaffah Terminal	UAE	Fuel & LPG Distribution Terminal	ADNOC Distribution	3,428	0	kt/d	Fire after drone strike, but operations continue
OIL DEPOTS							
Shahid Dohat Oil Depot	Iran	Fuel Distribution Terminal	NOROC	n/a	n/a	kt/d	High, most storage tanks destroyed as per satellite imagery
Shahre Kuy Oil Depot	Iran	Fuel Distribution Terminal	NOROC	n/a	n/a	kt/d	High, several tanks destroyed as per satellite imagery
Shahrban Oil Depot	Iran	Fuel Distribution Terminal	NOROC	1,635	147	kt/d	Medium, 1 out of 11 fuel tanks hit by missile
Highdown Oil Depot	Iran	Fuel Distribution Terminal	NOROC	n/a	n/a	kt/d	Low, missile strike and fire but reportedly operational
PORTS							
Sitrah Port	Oman	Port	SAGS	6.5 million	1.5 million	TEUs	Medium, drone damaged ship-to-shore crane, resuming operations in April
Khafja Port	UAE	Port	Culturaline	5.0 million	n/a	TEUs	Low, fire and injuries reported, not clear if loadings affected, but situation reportedly contained
Yamouh Port	Saudi Arabia	Port	Saudi Ports Authority	5,000	0	kt/d	Severe attack, but operations continue close to max capacity
Rasfa Bin Salman Port	Bahrain	Port	APM Terminals	1 million	0	TEUs	Operations resumed after precautionary shut-in
Sohar Port	Oman	Port	SPC	1.5 million	0	TEUs	Drone strike
Duqm Port	Oman	Port	PODC	1.5 million	0	TEUs	Operational after drone strike
Fujairah Port	UAE	Port of Fujairah Authority	5,000	0	kt/d	Resumed loadings after several attacks	
Jebel Ali Port	UAE	Port	DP World	29 million	0	TEUs	Resumed operations after precautionary shut-in
Mina Al Fahal Port	Oman	Port	PSO	1,000	0	kt/d	Resumed operations after precautionary shut-in
ATTACKED FIELDS							
South Pars Phase 2-B	Iran	Oil Field	NOOC	944	944	kt/d	High, missile strike caused widespread shut-ins
Musalla	Saudi Arabia	Oil Field	Saudi Aramco	900	300	kt/d	Medium, drone strike and partial shut-in
Khurais	Saudi Arabia	Oil Field	Saudi Aramco	1,500	300	kt/d	Medium, drone strike and partial shut-in
Rumaila	Iran	Oil Field	ROO	1,250	1,000	kt/d	Medium, drone attacks, but shut-ins primarily due to lack of storage capacity
Shah gas	UAE	Gas Field	ADNOC	190	190	kt/d	Medium, drone strike led to a fire that was later controlled
Bu-Haiya gas	UAE	Gas Field	ADNOC Gas	149	149	kt/d	Medium, drone debris led to a fire
Fahj gas	UAE	Gas Field	ADNOC Gas	103	103	kt/d	Medium, drone debris led to a fire
Bab gas	UAE	Gas Field	ADNOC Gas	37	37	kt/d	Medium, drone debris led to a fire
Baba oil	UAE	Oil Field	ADNOC	53	53	kt/d	Medium, drone debris led to a fire
Bab oil	UAE	Oil Field	ADNOC	450	90	kt/d	Medium, drone debris led to a fire
South Pars Phase 1-2	Iran	Gas Field	NOOC	42	42	kt/d	Low, precautionary shut-in
Majnoon	Iran	Oil Field	Petroleum, Antxon Offshore SA	24	19	kt/d	Drone crash reported
Shaykh	Saudi Arabia	Oil Field	Saudi Aramco	1,000	0	kt/d	Persistent drone interceptions

炼油厂重创：240万桶/日产能停工

原油炼化环节在此次冲突中首当其冲。据估算，共有20家受波及的炼油厂被迫关停了约240万桶/日的产能。

虽然多数设施是出于预防目的下线或已重启，但复产时间表依然分化：约90万桶/日产能可在数周内恢复，另有80万桶/日需一个月左右；而剩余约70万桶/日的产能（主要集中在巴林Sitra和伊朗德黑兰炼油厂）注定需要更长时间的修复。

Figure 2: Oil and gas infrastructure impact (gas plants, refineries)

Asset	Country	Asset Type	Operator	Capacity	Capacity Damage	Unit	Degree of Damage
GAS							
Regas 2 T5-T5	Qatar	LNG Facility	QatarEnergy LNG	14	14	mpa	High, train 4 damaged by missiles (about 5 mpa), long repairs needed
Regas 3 T6-T7	Qatar	LNG Facility	QatarEnergy LNG	16	16	mpa	High, train 6 damaged by missiles (about 8 mpa), long repairs needed
Refineries							
Abukhan Complex	UAE	Oil Processing (domestic)	ADNOC	8	8	mpa	High, significant damage reported and one person killed from falling debris
QatarGas 2 T4-T5	Qatar	LNG Facility	QatarEnergy LNG	13	13	mpa	Medium, drone strikes after precautionary shut-in, slow restart
QatarGas 3 T6	Qatar	LNG Facility	QatarEnergy LNG	8	8	mpa	Medium, drone strikes after precautionary shut-in, slow restart
QatarGas 5 T5-T3	Qatar	LNG Facility	QatarEnergy LNG	10	10	mpa	Medium, drone strikes after precautionary shut-in, slow restart
QatarGas 6 T7	Qatar	LNG Facility	QatarEnergy LNG	8	8	mpa	Medium, drone strikes after precautionary shut-in, slow restart
Regas 3 T5-T2	Qatar	LNG Facility	QatarEnergy LNG	7	7	mpa	Medium, drone strikes after precautionary shut-in, slow restart
ADQAS LNG T1-T2	UAE	LNG Facility	ADNOC LNG	3	3	mpa	Low, precautionary shut-in, but faced falling debris
ADQAS LNG T1-T2	UAE	LNG Facility	ADNOC LNG	3	3	mpa	Low, precautionary shut-in, but faced falling debris
Refineries							
Bahrain Sibra Refinery	Bahrain	Refinery	BAPCO (Bahrain)	448	448	kbd	High, 50% of capacity (with 1 CDU) severely damaged, several months to ramp back up
Tellico Refinery	Iran	Refinery	Tellico Oil Refining Company	250	250	kbd	High, several fuel tanks damaged, but operations can return within month
Minu Al Ahmadi Refinery	Kuwait	Refinery	Kuwait Petroleum Corp (KPC)	346	229	kbd	Medium, drone attacks, most recently in April but no additional damage reported or observed on satellite
Minu Abdullah Refinery	Kuwait	Refinery	Kuwait Petroleum Corp (KPC)	454	454	kbd	Medium, drone attack
Lamot Refinery	Iraq	Refinery	Lamot	100	100	kbd	Medium, drones and fire forced closure, approximately one month to restart
Bowman Refinery	UAE	Refinery	ADNOC	452	35	kbd	Low, mostly restarted
Laffan Refinery	Qatar	Refinery	QatarEnergy	292	292	kbd	Low, precautionary shut-in
Bandar Abbas Refinery	Iran	Refinery	Bandar Abbas Oil Refining Company	340	0	kbd	Unknown after drone strike, but no serious damage seen on satellite
Haifa Refinery	Israel	Refinery	Bazan Group	197	0	kbd	Unknown after missile strike, but no serious damage seen on satellite
Erbil Refinery	Iraq	Refinery	Kar Group	160	160	kbd	Low, precautionary shut-in, but one unit under maintenance
Ezomer Fajarah Refinery	UAE	Refinery	Ezomar	18	18	kbd	Low, precautionary shut-in
Fajarah Refinery	UAE	Refinery	Montfort Group/ Vitol	85	85	kbd	Low, precautionary shut-in
Minu Al Zour	Kuwait	Refinery	Kuwait Petroleum Corp (KPC)	615	308	kbd	Low, precautionary shut-in
Lamot (Yanbu) Refinery	Saudi Arabia	Refinery	Saudi Aramco	400	0	kbd	Unknown after drone strike, but no serious damage seen on satellite
Milneed Refinery	Qatar	Refinery	QatarEnergy	110	0	kbd	Restarted, had precautionary shut-in
Latifa Refinery	Saudi Arabia	Refinery	Saudi Aramco, Total Energies	480	0	kbd	SPR reported attack, but no shut-ins observed
Myadh Refinery	Saudi Arabia	Refinery	Saudi Aramco	143	0	kbd	SPR reported attack, but no shut-ins observed
Ras Tanura Refinery	Saudi Arabia	Refinery	Saudi Aramco	550	0	kbd	Restarted, was subject to drone attack
Duqm Refinery	Oman	Refinery	Oman Oil Company	260	0	kbd	Continuous operation, reported drones
Qaysa Refinery	Iraq	Refinery	South Refineries Company	280	0	kbd	Restarted, lost power

沙特宣告：从“偶发干扰”到“实质冲击”

真正令市场警惕的，是沙特官方披露的受损全貌。随着沙特境内上中下游多处核心设施（包括东西部管道、Manifa和Khurais油田等）确认遇袭，事件的性质已发生根本改变。摩根大通对此评价道：

“沙特今天的声明将破坏具体化，并将叙事从偶发性中断转变为可衡量的供应冲击。”

尤其是停火协议宣布仅数小时后，东西部管道泵站即遭袭击，直接导致70万桶/日吞吐量损失。考虑到该管道是每日约500万桶原油流动的关键绕行通道，这一战略节点的受损后果极为深远。
