

摘要：

标普500指数涨1.07%，为8月4日以来最大单日涨幅。费城半导体指数走V，收盘微涨0.11%。特斯拉涨5.42%，领涨科技七巨头。光通信的Ciena跌10.36%。绩后Snowflake暴涨16.55%，博通收跌2.74%。比特币飙升5.33%，创5月14日以来最高收盘。

美联储理事沃勒表示，近期数据终于显示出通胀放缓的迹象，如果未来两周的数据延续这一趋势，他会倾向于支持把联邦基金利率目标维持在当前的3.50%至3.75%区间。这番表态让9月加息预期迅速降温，美股、美债、黄金与比特币同步走高。

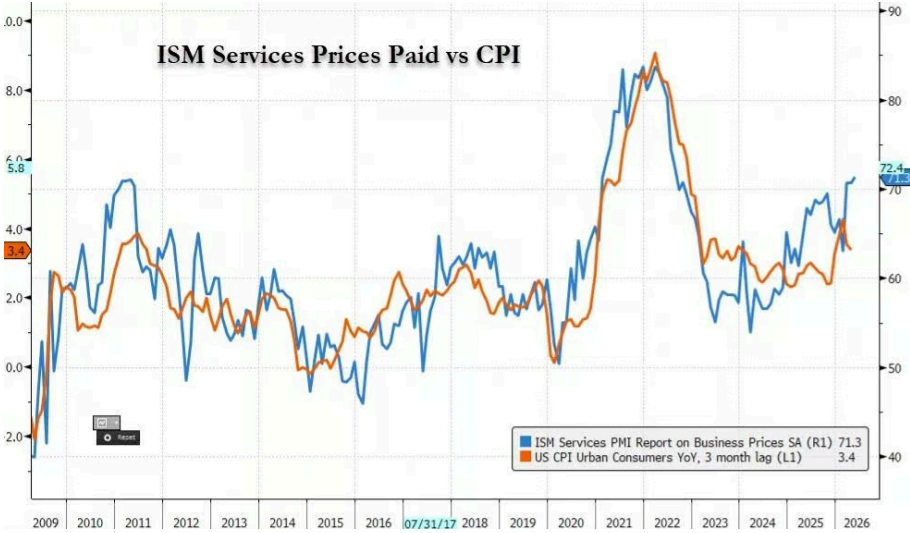

标普500指数涨1.07%收于7748.27点，为8月4日以来最大单日涨幅；纳斯达克综合指数涨1.40%，道琼斯工业平均指数涨1.18%。三大指数连续第二个交易日收高。

芝商所FedWatch显示，9月加息25个基点的概率从前一交易日的约63%回落至52%，Polymarket的数字更低，只有41%。

通胀的压力并未随加息预期一同消退。8月ISM服务业价格支付指数升至72.6，为2022年8月以来最高。市场关注9月4日公布的8月非农就业报告，是沃勒口中“未来两周数据”的第一道关口。

加息押注崩塌，美股创8月4日以来最大单日涨幅

华尔街见闻提及，沃勒当天给出了三条理由。他说核心通胀的实际表现好于核心数据本身，7月核心个人消费支出物价指数里约一半的涨幅来自非市场服务价格；他也不再把高企的能源价格和关税视为持续的通胀压力来源。

但他同时留了后手，称下一步决定很大程度上取决于下周公布的8月通胀数据，数据偏热他会考虑支持加息。

BiancoResearch的Jim Bianco写道，沃勒表态之后，9月会议的票型是六票支持维持利率、五票支持加息，剩下一票尚未明朗。那一票正是现任理事、前任美联储主席鲍威尔的，他或许会成为决定胜负的关键人物。

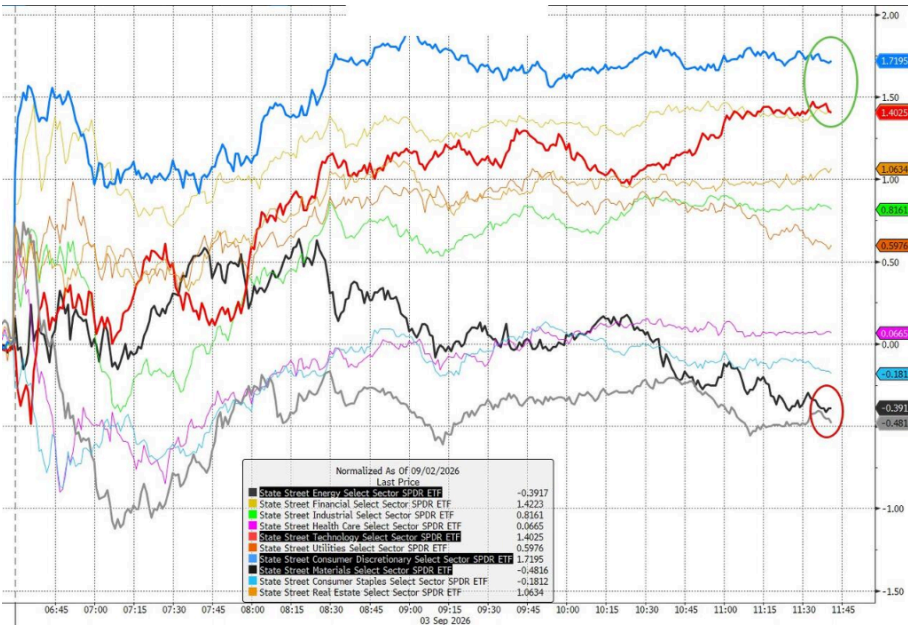

FOMC Vote Tally – September 16, 2026 Meeting						
Current Estimate (majority, 7 votes, needed to move policy)						
Hike		5				
Hold		6				
Unknown		1				
Voter	Seat	7/29 Vote	Pre-7/29 Position	Post-7/29 Position (Since 8/4)	Directional Shift	Sept 16 Lean
Hike (dissented 7/29, or shifted hawkish since)						
Beth Hammack	Cleveland Fed President	Dissent (Hike)	Reported pre-meeting as "supportive of tighter policy," alongside Kashkari and Waller.	8/10 (Yahoo Finance): one hike alone "doesn't do a whole lot." 8/13 (Bloomberg): questioned whether the inflation cooling holds. 8/27 (CNBC, Fox Business): the longer inflation stays above objective, the harder it is to reverse. Cell links to the earliest (8/10); see notes for 8/13 and 8/27 links.	Escalating – from one dissenting hike to "some number" of hikes needed.	Hike
Neel Kashkari	Minneapolis Fed President	Dissent (Hike)	Reported pre-meeting as "supportive of tighter policy," alongside Hammack and Waller.	8/5 (CNBC): doesn't see policy as even marginally restrictive, favors gradual hikes starting September. 8/23 (CBS Face the Nation): reaffirmed the dissent, less confident inflation returns to target the longer yields stay elevated. Cell links to the earliest (8/5); see notes for the 8/23 link.	Steady – reinforcing the dissent, not escalating beyond it.	Hike
Lorie Logan	Dallas Fed President	Dissent (Hike)	Formal dissent statement: called for "modestly" higher rates.	No public remarks found in this window. 8/28 sentiment model (Spectrometer) placed her closer to neutral than the extreme-hawk cluster.	Dissented, but comparatively quiet / measured tone since.	Hike
Lisa Cook	Governor	Hold (majority)	7/15 (Exchequer Club): "persistently elevated inflation imposes an unacceptable burden" – inflation-focused tone, no explicit rate call.	8/5 (Anchorage): "ready to raise rates if inflation doesn't slow," "prepared to act."	Hawkish shift – though still conditional ("if inflation doesn't slow").	Hike
Kevin Warsh	Governor Chair	Hold (majority)	As new Chair (since 5/22), deliberately withheld forward guidance / a reaction function from the outset; voted with the hold majority on 7/29, describing the Fed as in a period of "watchful thinking."	8/28 (Jackson Hole): inflation's "underlying trends" haven't meaningfully improved, hikes may be needed – his clearest signal yet.	Major hawkish shift.	Hike
Hold (voted hold 7/29, no confirmed hawkish shift since)						
John Williams	New York Fed President (Vice Chair, FOMC)	Hold (majority)	6/25: said policy was "well positioned" to bring inflation to target.	9/2 (CNBC): recent inflation data have been encouraging and continue to trend down. Said the September decision depends on incoming data and risks, while offering no confirmed shift away from his hold baseline. Scheduled to speak 9/1 (Second Chance Lending Forum) – too soon to assess.	No confirmed shift – reiterated a Hold baseline, while remaining data-dependent and open to action if needed. No data to assess.	Hold
Michael Barr	Governor	Hold (majority)	No rate-policy remarks found.	No public remarks found in this window.	No data to assess.	Hold
Philip Jefferson	Governor Vice Chair, Board	Hold (majority)	Spoke 7/16 (Stanford); no specific rate-policy content retrieved.	No public remarks found in this window.	No data to assess.	Hold
Michelle Bowman	Governor Vice Chair for Supervision	Hold (majority)	Consistent through the year (1/16, 1/30, 5/29): policy "moderately restrictive," cautious about reacting to energy-driven inflation.	Spoke 8/8 (fireside chat); no coverage of the content found despite repeated searches.	No confirmed shift; longstanding dovish-leaning consistency.	Hold
Anna Paulson	Philadelphia Fed President	Hold (majority)	No rate-policy remarks found pre-meeting.	Called her hold vote "not a close call," described policy as only "mildly restrictive."	No shift – firmly hold.	Hold
Christopher Waller	Governor	Hold (majority)	Reported pre-meeting as "supportive of tighter policy," alongside Hammack and Kashkari – yet did not dissent.	9/3 (Reuters NEXT): inclined to hold on September 16 if inflation continues to ease; would support a hike if the August CPI report is hot. Described current policy as mildly restrictive.	Hawkish but data-dependent – explicit baseline is Hold, with a hot August CPI as the trigger to Hike.	Hold
Unknown (remaining swing vote)						
Jerome Powell	Governor former Chair	Hold (majority)	No public remarks found.	No public remarks found; low profile since leaving the chairmanship.	No data – true wildcard.	Unknown

周四，道琼斯工业平均指数上涨624.16点。板块上，科技精选板块涨1.30%，公用事业涨0.84%，能源是少数逆势下跌的板块，跌幅0.69%。小盘股跑输，罗素2000指数涨0.51%。恐慌

指数下跌5.92%至14.30。

个股层面，大型科技股普涨。特斯拉涨5.42%，Meta涨3.01%，微软涨2.68%，谷歌涨1.59%，亚马逊涨1.54%，苹果涨1.00%，英伟达涨1.78%。

名称	两日图	现价	涨跌	涨跌幅
特斯拉(TESLA)		376.365	19.355	5.42%
脸书(META PLATFORMS)		610.680	17.830	3.01%
微软(MICROSOFT)		510.120	13.300	2.68%
英伟达(NVIDIA)		228.450	4.040	1.80%
谷歌(ALPHABET)-A		342.480	5.360	1.59%
亚马逊(AMAZON)		258.900	3.920	1.54%
苹果(APPLE)		328.210	3.250	1.00%

Snowflake暴涨改写软件叙事，博通指引不足遭抛售

华尔街见闻提及，周四高贝塔美股股价大爆发，这背后除了美联储理事沃勒释放出相对鸽派的政策信号外，戴尔科技、Snowflake接连公布超预期业绩，强化市场对AI基础设施和企业AI需求的信心。

Snowflake涨16.55%，盘中一度冲上384.56美元的历史新高。第二财季营收15.47亿美元，同比增长35%，其中更能反映实际用量的产品收入14.92亿美元，同比增长37%。

这是产品收入增速连续第三个季度加快。公司把全年产品收入指引从58.4亿美元上调到60.7亿美元，对应增速从31%提高到36%。

AI基础设施热潮的受益者Bloom Energy曾涨近10%，特斯拉在举行Cybercab发布会前曾涨近8%，比特币持币“大户”Strategy等加密货币概念股两位数大涨。

[OpenAI正式发布GPT-6 Astra模型](#)，为AI支出叙事添了一把火。高盛美国广义AI指数跑赢标普500非AI板块，两者当日涨幅分别为1.24%和0.64%。Palantir涨7.71%，甲骨文涨5.69%，Salesforce涨2.92%。

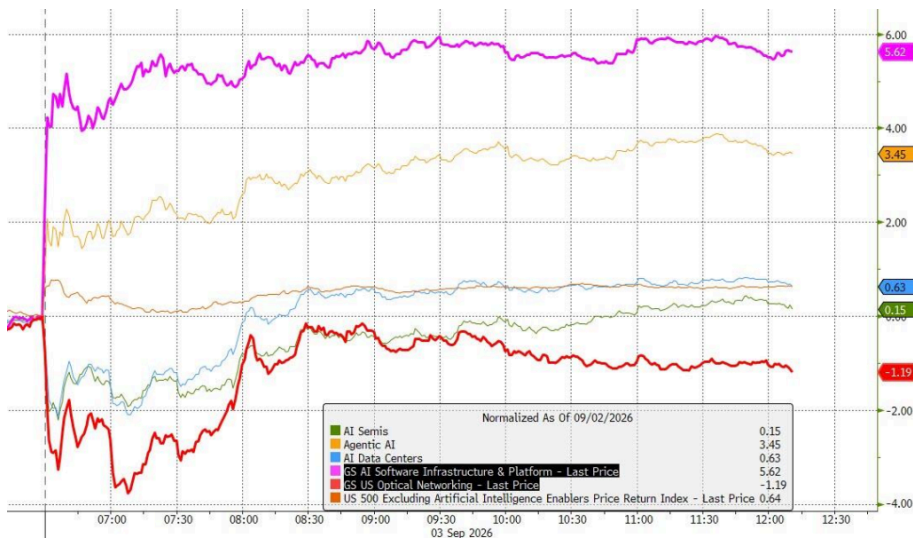

不过，AI交易内部并非“雨露均沾”。[博通财报](#)显示，虽然第三财季AI半导体收入同比暴增221%，业绩全面超预期，但由于第四财季营收指引略低于市场预期、AI收入指引仅略高于预期，股价盘中一度跌近6.8%，最终收跌2.74%。

高盛的Rich Privorotsky认为，估值峰值可能已在二季度的反弹中设定，市场现在要证明的是AI支出的持久性能否跑赢经济性压缩。[博通证明了需求端](#)，[Snowflake证明了下游应用端](#)，问题是这够不够重启一轮估值扩张。

半导体板块内部继续分化。费城半导体指数盘初一度跌2.36%，尾盘收复失地，收盘微涨0.11%。英伟达涨1.78%，美光涨0.22%。

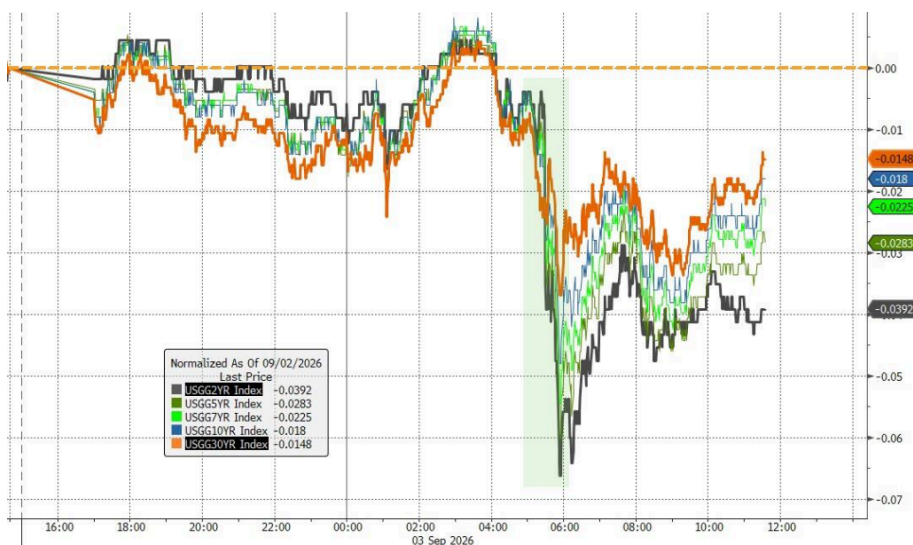

存储链盘初跌幅更深，希捷和西部数据盘中一度跌超5%，收盘分别跌1.23%和1.63%。光通信的Ciena跌10.36%，是当天跌幅最大的科技股之一。

短端领涨长端不动，债市给股市设下限速

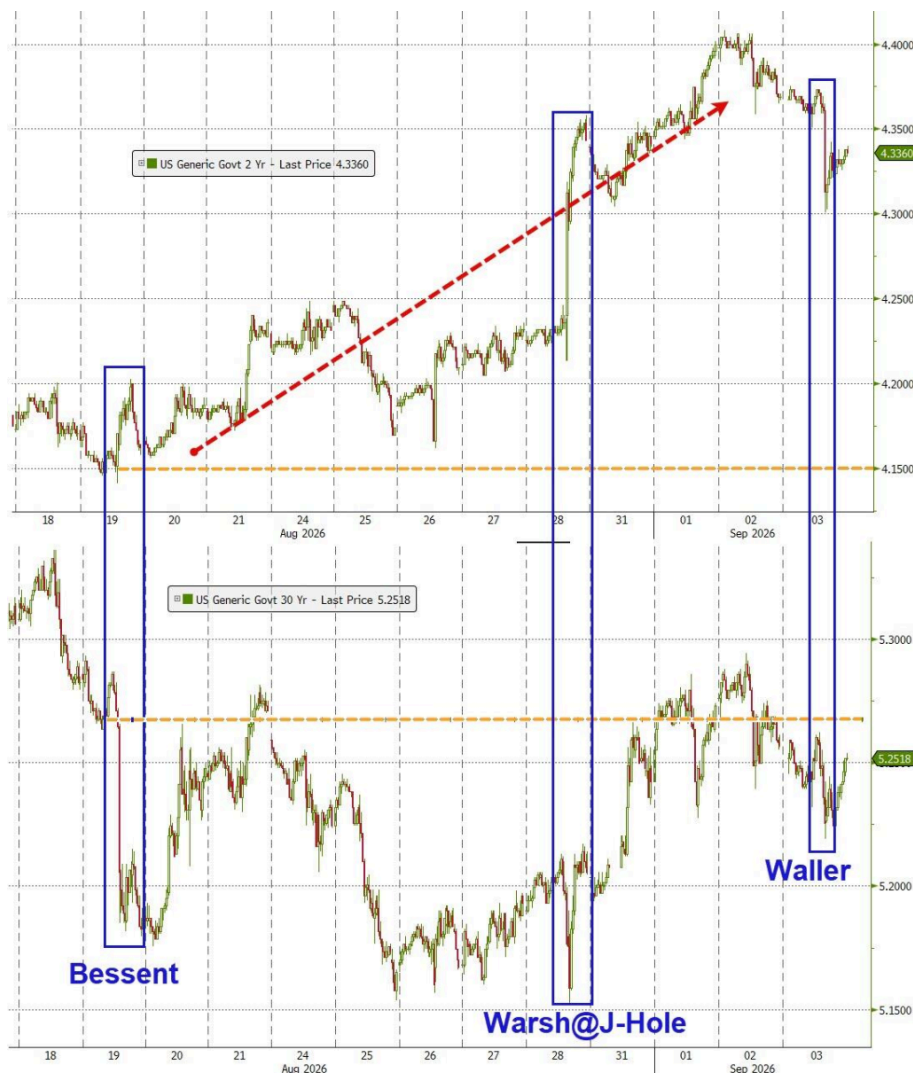

美国国债当天上涨，但上涨集中在对政策利率更敏感的短端。

10年期收益率下降3.4个基点至4.761%，盘中一度低见4.732%，收盘时已明显脱离日内低点。2年期收益率报4.336%，30年期报5.2518%，跟踪20年以上国债的TLT仅涨0.15%，长端几乎原地不动。

长端的压力来自财政与供给。美国经纪商Mischler的di Galoma提示，即便就业数据偏弱，债市的涨幅也有限，因为下周美国劳动节假期后，美国市场复市时将迎来3年期、10年期和30年期国债的集中拍卖，企业债发行也会同步回升。

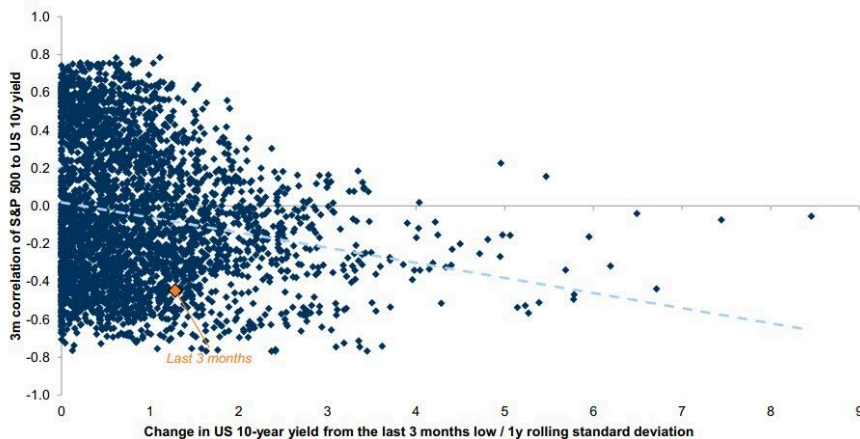

Zerohedge做图对比显示自贝森特推出美债回购政策以来，短期和长期债券收益率之间出现的巨大差异，20年期国债收益率大幅上升，而30年期国债收益率基本持平。

高盛首席策略师Christian Mueller-Glissmann当天在报告中写道，债券市场已经成为股票的限速器。长周期债券正承受三重压力，分别是财政担忧、来自AI投资的资金竞争和黏性通胀，央行宽松的空间因此被压缩。

他补充，股票对收益率上行的反应取决于收益率变动的成因、速度和起点。3个月内超过两个标准差的升幅，对股票的伤害更大。

Exhibit 12: US 10-year yield increases above 2 standard deviations tend to weigh on equities
Data since 1962

抵押贷款市场已经感受到传导。房地美数据显示，30年期固定抵押贷款利率升至6.71%，为2025年7月以来最高。

Realtor.com的Krimmel表示，8月是更高的抵押贷款利率真正追上住房需求的一个月，当月待成交签约量同比下降0.2%，为2025年11月以来首次转负。

日元闪崩至干预位，美元指数跌破99

当天外汇市场的主角是日元。美元对日元下跌1.83%报155.759，盘中从158.97一路跌到155.29，两个交易日累计跌幅2.96%，是2024年8月以来最大的两日涨幅。

市场把矛头指向日本央行，审议委员高田创本周提出可能实施超常规或连续加息，隔夜指数互换已完全定价日本央行9月会议加息25个基点。

美国财政部长贝森特此前表示，他期待日本央行行长植田和男在货币政策上做正确的事，并称近期日元波动相当可控。他还为自己支持日元的做法辩护，理由是日元若出现极端波动，可能传导并推高美国利率。

交易员对干预的判断存在分歧。日本SBI FX Trade的Marito Ueda表示，他不认为这次是干预或汇率检查，但市场对160关口非常谨慎。

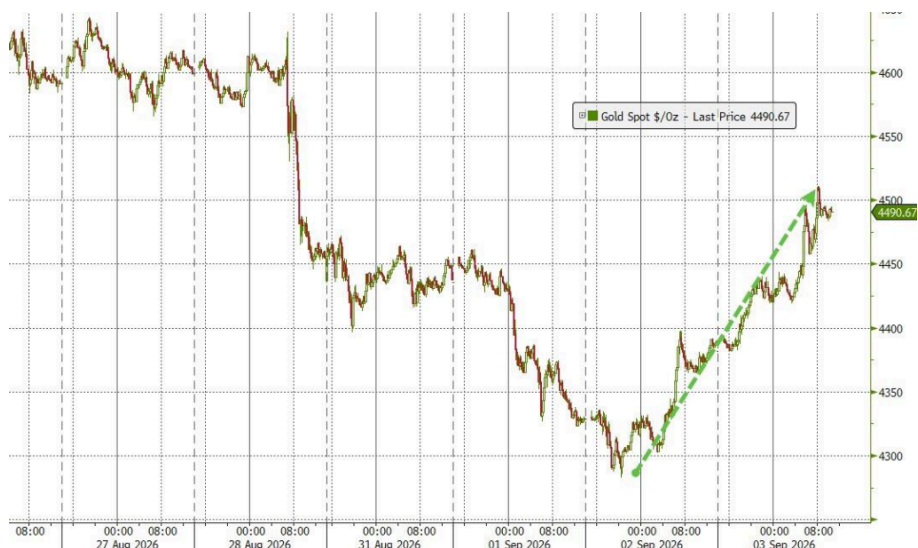

宏利投资管理的Nathan Thooft认为，这轮走势说明仓位已经变得相当敏感，市场接收到的信号是当局希望日元走强。

美元指数下跌0.58%报98.95，盘中一度跌破99。欧元对美元上涨0.30%报1.1626。

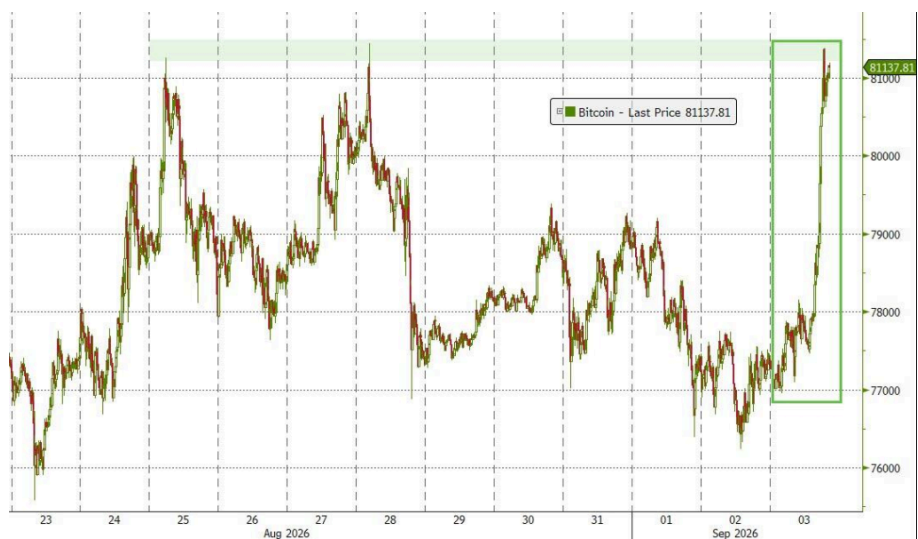

黄金破4500比特币冲8.1万，油价高位与柴油四年新高并存

黄金是利率预期逆转的最大受益者。现货黄金收报4491.85美元一盎司，上涨2.37%，一度站上4500美元关口、最高触及4510.97美元，而前一天金价还处在8月7日以来的最低水平。

现货白银涨2.52%至66.79美元，盘中最高67.32美元。StoneX高级市场策略师Bob Haberkorn表示，交易员正在重新押注美联储采取更温和的立场。

比特币飙升5.33%至81429.53美元，创5月14日以来最高收盘。比特币与科技股一样对利率和全球流动性预期高度敏感，加息押注下降、美元走弱，资金重新流向波动更高的资产。

原油的表现要克制得多。WTI原油隔夜一度升至93.13美元，随后回吐，日内低见89.60美元，结算价91.30美元，上涨0.32%；布伦特原油结算价95.52美元，微跌0.12%。

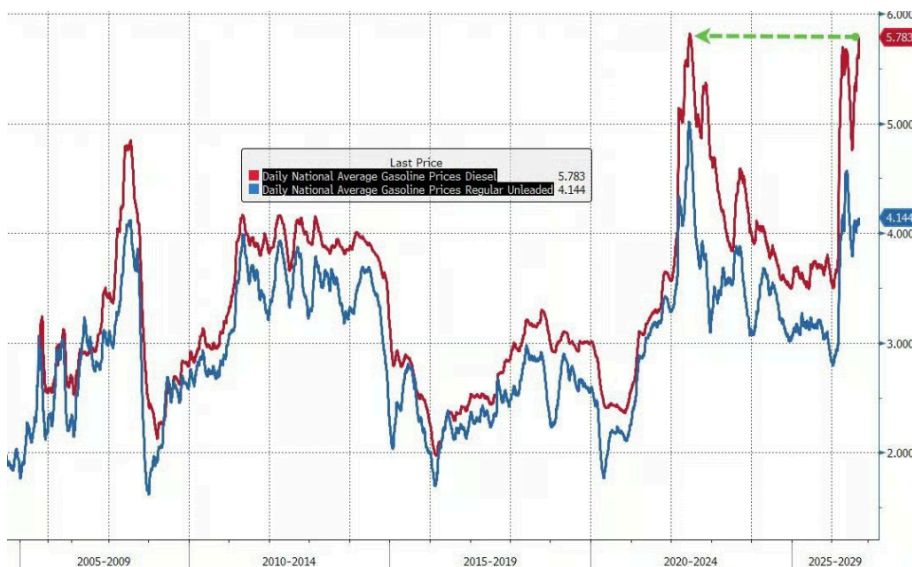

沙特阿美把10月销往美国的阿拉伯轻质原油官方售价定为较阿格斯含硫原油升水4.60美元一桶，市场据此判断现货紧张程度低于此前预期。

道明证券高级大宗商品策略师Ryan McKay认为，伊朗不会放弃对霍尔木兹海峡的控制，局势升级的概率因此维持在高位。

成品油的紧张局面没有缓解。荷兰国际集团的分析师在报告中写道，中东局势升级让成品油流动恢复的希望落空，市场维持紧张。

美国汽车协会数据显示，周三全国柴油零售价升至5.783美元一加仑，超过4月创下的战时峰值，为四年最高，普通汽油均价报4.144美元一加仑。
